ND cracks top 25 with alumni help

By MICHAEL O’HARA
News Writer

After a five-year absence from the top 25 of U.S. News & World Report’s "America’s Best Colleges" survey, Notre Dame has climbed back into the tie for 25th place, partially because of a new formula which takes alumni satisfaction.

The new formula, which ranked Notre Dame third out of the 204 major universities in alumni satisfaction, was an important factor in Notre Dame’s move in the rankings, according to Timothy O’Meara, director of Public Relations and Information.

"If [alumni satisfaction] had been in last year’s poll the rankings would have been different," said Charles Lamont, Assistant Executive Director, "Now that it is included I am pleased with how it helps our ranking."

"It shows the incredible bond the alumni has with the University. It says something for the quality of their education and the quality of their lives," Provost Timothy O’Meara said.

"I am pleased we are in the top 25. It shows we are doing things well. I feel it is a reflection of the fact that measuring instruments have changed," O’Meara said.

Notre Dame reached its highest rank of 18th in 1988. The following year it fell to 23rd then dropped out of the rankings in 1990. This year, Notre Dame tied for 25th place with Emory University in Atlanta.

Notre Dame’s reappearance after five years is a reflection of the character and work of the University community, Moore said.

"Obviously it is because of what we do. Not just because we are Notre Dame. It says something about the strength of our curriculum, faculty and student body. If you combine excellent students with a distinguished faculty and a strong curriculum the outcome will be good."

"We have gotten better...in the past years," O’Meara said. "I believe we have upward mobility. We are doing things right academically and hopefully our rankings will reflect that.

Yet, O’Meara acknowledged that the complex issues involved make ranking changes difficult.

"The [ranking] body attaches different values to different factors. I feel we are academically as strong as some of the other universities that are above us," he said.

In an area like academic reputation, there is a time lag when a University improves and when it recognized for its improvement, according to O’Meara.

While the ranking system tends to point out areas where improvements are needed, the introduction of the Academic Reputation component of the rankings, has resulted in improvements both within the University and in the University’s move towards the future rather than a reaction to polls, according to O’Meara.

"Some of those [in the rankings], in fact all of them, are areas where we want to improve," he said. "Not that we are not driven by the rankings, but they do concern the University and

Service nothing new to ND students

By SARAH DORAN
Assistant News Editor

For many college students, the thought of post-graduate volunteer work is a new idea brought on by the Clinton administration’s championing of the concept of National Service—giving the project priority, and, recently, a viable plan.

But service is nothing new at Notre Dame—more than 150 of the University’s graduates postpone job opportunities each year in favor of donating a year or two to a needy community.

"Those who have participated in service approach their lives with a different focus," said Mary Ann Roemer, coordinator of senior volunteer programs at the Center for Social Concerns (C.S.C.). "It’s more of a value system that they integrate into their careers and into the rest of their lives."

For Mark Laboe, ND ‘89, who returned from two years of service as a Holy Cross Associate in Chile in 1991, it is exactly that.

"It helped me to find and solidify a direction in my life—not only to make it more service oriented, but to gain more of an emphasis on community, prayer and spirituality," said Laboe, who volunteered as a high school pastoral counselor and English teacher in Chile.

"My experience gave me a critical eye to look at our society," said Laboe. "It made me realize that whatever I do in life is going to be something where I can give of myself and make a positive contribution."

Laboe’s commitment to service was not something that ended upon his return to the states. He spent last year as a teacher in Chicago and has returned to Notre Dame this year as a first-year seminarist.

But for volunteer Kathy Doyle, ND ’93, a service perspective is just beginning to take root, as she is just one month into a year-long Apostolic Volunteer

CSG sponsors service fair

The Center for Social Concerns (C.S.C.) is holding a fair showcasing volunteer opportunities for seniors considering one or two years of post-graduate service work on Thursday, September 30 from 7-10 p.m. in the C.S.C. building.

100 programs have been invited to the fair and over 50 will definitely be in attendance, according to Mary Ann Roemer, coordinator of senior volunteer programs for the C.S.C.

SMC retains top five status in midwest college rankings

By JENNIFER HABRYCH
Saint Mary’s Editor

For the seventh time in as many years, Saint Mary’s was once again ranked as one of “America’s Best Colleges and Universities” in the Midwest region, falling only two spots this year to number four.

The College ranked first in graduation rate, third in faculty salaries and fourth in financial aid (resources used for instruction, student services and academic support among the approximately 130 schools in its division.

While Saint Mary’s fell from last year’s second place ranking, what matters most to the administration of the College is that the academic reputation of the school has put them in the top 10 since the poll began, according to Brett McLaughlin, director of publicity and community relations.

"It is a pretty subjective poll that depends on who fills out the survey in a given year, so we don’t take the placement as serious as the fact that the College has been rated in the top 10 for the last seven years," said McLaughlin.

"Academic reputations are formed over a long period of time. If you look at the polls over the years, you see the same colleges appearing and Saint Mary’s is one of them," he said.

The key to maintaining the academic reputation of Saint Mary’s is that the College has not become complacent, according to Patrick White, associate dean of faculty.

"Saint Mary’s continues to strive to be better even though we are recognized in this poll," White said. "We are still working hard to be the best college that we can be."

The areas where Saint Mary’s did well in the poll were the same areas that the College views as most important.

"The central thing that drives what we are doing here are that we are really trying to educate," said Vice President and Dean of Faculty Dorothy Feg, Saint Mary’s, "We bring in faculty where they want to teach and students who are ready to learn."

Surveys conducted of Sophomores and Seniors bi-annually at the College indicate that 98 percent of students are satisfied with the faculty at the College, and that the strength of the faculty correlated with the overall student satisfaction, according to Bill Cash, director of Institutional Research.

The surveys also indicated that students viewed their professors as very interested in teaching and that they perceived Saint Mary’s as a teaching environment, he added.

What is indicated through the polls and surveys is that Saint Mary’s is fulfilling its mission of educating students.

"The focus at Saint Mary’s remains on the students and education," McLaughlin said. (This focus is not a way to garner a lot of headlines, but it is the way to educate students, and the consistent rankings in..."
It all started innocently enough. The nation was in a rut, and it wanted out—fast. It was tired. It was stalled, heavily veiled. Nobody cared. The solution was simple: empower the youth and get the energy flowing again. And in a heartbeat, the race was on for a rejuvenated country with a renewed spirit.

And so students were brought into politics. Or rather, politics was brought to the students—in a bright shiny package with flashing lights, colorful imagery and a beat you could dance to. The '80s "greed" generation became the '90s "MTV" generation.

And Tabitha Soren was our official spokesperson. The crisis of the nation was translated into language we could understand. And if we still had trouble with the big words, Hill brought in his sax and gave us a private tutoring session.

Uh. Huh. Huh. Cool. Tuesday, Sept. 21 marked the presidential signing of the National and Community Trust Act of 1993. However modest, this act has the potential to bring real power to America's youth by putting us at the heart of our nation's problems.

If implemented carefully, the measure will give individuals over the age of 17 the opportunity to attack some of our nation's unmet problems. If implemented carefully, the measure will give individuals over the age of 17 the opportunity to attack some of our nation's unmet problems. If implemented carefully, the measure will give individuals over the age of 17 the opportunity to attack some of our nation's unmet problems. If implemented carefully, the measure will give individuals over the age of 17 the opportunity to attack some of our nation's unmet problems. If implemented carefully, the measure will give individuals over the age of 17 the opportunity to attack some of our nation's unmet problems.

Christopher: End war in Bosnia before tragic winter

By BARRY SCHWEID

Associated Press

WASHINGTON

Appealing for more Serb and Croat concessions, Secretary of State Warren Christopher said Thursday Bosnia could be in for "a very tragic winter" if there is no negotiated settlement of the war in the former Yugoslav republic.

He said a "perfect agreement" was not possible, but had some hope the Serbs and Croats would show more flexibility in response to Muslim demands for more territory in the eastern area of the country and other concessions.

Only Bosnian President Alija Izetbegovic and his parliament have the authority to decide whether to accept the latest settlement, Christopher told the Senate Judiciary Committee.

But he seemed to be nudging them in that direction with the admonition "if an agreement is not reached, and it certainly will not be a perfect agreement if it is, we are in for a very tragic winter."

Christopher, meanwhile, joined Defense Secretary Les Aspin and other lawmakers about possible deployment of U.S. troops to enforce a peace agreement in Bosnia.

"We're continuing to follow the talks," Aspin told reporters as he left the closed session on Capitol Hill. "One day it sounds like they're close to getting an agreement, the next day it sounds like it's further back."

Sen. Sam Nunn, D-Ga., chairman of the Senate Armed Services Committee, said it was unclear whether Congress would support deployment of U.S. troops in Bosnia.

"I don't believe people have decided yet," Nunn said in an interview published in Friday editions of The New York Times. "It depends on what is made by the administration."

My big question will be not how do we get to a peace agreement, what our goals are, but how do we get out if the parties begin fighting again?"

The Serbs and Croats on Monday were reported to have agreed to allow the small Muslim state that would be left after partition an outlet to the Adriatic Sea.

Colon Powell, chairman of the Joint Chiefs of Staff, in briefing lawmakers about possible deployment of U.S. troops to enforce a peace agreement in Bosnia.

Students rush to pack flood kits

By NICOLE MCGRATH

Sain Mary's News Editor

Saint Mary's volunteers packed up more than a hundred flood recovery kits within one hour on Thursday, according to assistant director of Campus Ministry, Judith Fean.

"I just could not believe it. We had an assembly line set up and the students came through," said Fean. "We couldn't move fast enough for the people—it was unreal."

The kits were purchased with money from last week's Walk for Flood Victims which began at Dalloway's Coffeehouse.

Sponsored by Campus Ministry, Student Activities and the Athletics department, the walk raised $3,200 and approximately 50 people participated, according to Fean.

Fifteen students helped box up supplies from noon to 1 p.m. They thought it would take much longer and had more than 60 people signed up to help, she said.

At 10 a.m., the long tables were piled with supplies such as sponges, personal items, detergent and bedding. By 1:15 p.m., the tables were empty and boxes were stacked in a corner of Dalloway's awaiting shipment to Moline, Ill.

Van Dyck's Inc., a local uniform company, has donated the truck and a driver to deliver the kits to the World Church Services Organization warehouse.

While Fean said she was not sure that their services would be needed as late as October, it is apparent that they are.

"Now that the water is down, the insides of the houses are gutted," said Fean. "These supplies will help families until federal funding gets to them."

As efforts to clean up, rebuild and distribute supplies continue, no estimated time has been given for when federal funding will reach the area, she said.

According to Fean, more than 400 people have been involved in financial, time and prayer donations.

"Such groups like the Alumnae association, the Sisters of the Holy Cross and Residence Hall directors have helped out. It has been quite an effort on the part of the entire campus," said Fean.

Truly Affordable Living

Make your next move to Hickory Village and discover affordability, convenience and comfort.

We're just minutes from University Park Mall, the toll road, Notre Dame and downtown South Bend. Our beautiful grounds are spacious and well kept...and we have an active program that includes team sports, free aerobics classes, and much more.

Court convicts Imelda Marcos

By ROBERT H. REID

A Philippine court convicted Imelda Marcos of corruption Friday and sentenced the former first lady to nine to 12 years imprisonment for each of two counts of corruption. The conviction ended the first criminal trial of a former strongman for the Philippines, for the widow of the late President Ferdinand Ed. Marcos, who was accused of massive corruption during his long rule.

The government has struggled for years to prosecute Mrs. Marcos and is still trying to recover some of the estimated $10 billion it says was embezzled during his 20-year rule. The three-judge Sandiganbayan, which tries official corruption cases, also convicted former Transport Minister Jose Dans on the same two counts of receiving $30,000 for representing a private company before the government, and also sentenced him to nine to 12 years for each.

THE OBSERVER NEWS
Friday, September 24, 1993

The court permitted a previous bail bond to stand, which allows Mrs. Marcos to remain free pending an appeal of the judgment. Mrs. Marcos immediately left the courthouse, and waved and smiled to her supporters as she was driven away in a white limousine.

Court officials said Mrs. Marcos presented no evidence during the trial and cannot claim she was denied the right of defense. Mrs. Marcos said, Antonio Coronel, had been suspended from practicing law for a technical violation and that she was too busy planning the funeral of her husband.

Fair

continued from page 1

Over 400 seniors attend the fair each year, she said.

Opportunities for service run the gamut from faith and community related organizations to government sponsored programs, she said.

Fair

continued from page 1

If we are not in the rankings we want to know why, he said.

Admissions could also be affected by the ranking change, as they may have been when the University dropped out of the ranking, according to Kevin Rooney, Director of Admissions.

There was a drop in admissions after Notre Dame’s drop for the top 25, although there was also a corresponding drop in the number of graduating seniors, he said.

"It could have played a role," he said, "and it will be an interesting test to see if the number of applications rises significantly.

However, Moore said any rankings should be taken with a grain of salt.

"Universities and colleges are so different, institutions vary widely in what they do, so that standard criteria is difficult to establish," he said. "We [the University] have more important things to worry about than seeing someone puts us in a ranking."

SMC program adopts service groups

By LYNN BAUWENS
News Writer

In order to raise students’ awareness of the local community, Saint Mary’s Campus Ministry is sponsoring an adoption of area service agencies, according to Scott Holmlund, director of the program.

The congregations of each of the three Sunday evening liturgies will support an agency during the year through prayers and donations. Adopted agencies include Hospice by Le Mans, AIDS Ministries by Holy Cross, and the YWCA Women’s Shelter by Regina.

The idea for the project originated several years ago and stems from Campus Ministry’s attempts to incorporate social justice issues into the weekly liturgies, according to Holmlund.

Last Sunday, representatives from each agency spoke during the masses to speak about their missions in the community. Sam Oliver, a representative from Hospice, serves terminally ill patients and their families, spoke about the need for care and compassion.

“We could not exist without the community and without volunteers. We service the community and in turn, we are served by it,” Oliver said.

Coordinators of the program are hopeful that both the agencies and the students will benefit from the exposure to one another.

“We hope to get people excited, and to want to want to help out local agencies,” said Stephanie Drummer, student coordinator of the Regina Liturgy.

Future activities planned by Campus Ministry to support the adopted agencies include guest speakers, donations, publicity to raise awareness, and opportunities for students to volunteer time.

LaFortune opens trial period of 24-hour space

By KATIE MURPHY
News Writer

For the first of four trial periods, the first floor and the basement of LaFortune will be open 24 hours tonight and Saturday. Last night was the first evening of the trial extension.

Although food services will not be available, the area near the information desk and the basement space directly below the ground floor will fit in with the community.

“We definitely need to rally the students to get over there to show the administration that we need and want it,” said Nikki Wellmann, student body vice president.

The 24 hour plan is only the beginning. The government needs to evaluate the response to the extended hours. “We will be able to get over there to show the administration that we need and want it,” said Sam Cheung, a representative from the Student Government.

“Hopefully, we will be able to show the administration that we need and want it,” said Nikki Wellmann, student body vice president.

SURV organizes SMC volunteers

By ELIZABETH REGAN
Assistant Saint Mary’s Editor

The Surv Unica Resource and Volunteer Center (S.U.R.V.) at Saint Mary’s would like to establish a solid base between student volunteers, resources and publicity this year, according to senior Kristin Johnson, S.U.R.V. director for the 1993-94 school year.

“Our main goal is to promote S.U.R.V. as an organization,” said Johnson. “Service is an integral part of learning in college, and there are a lot of opportunities both in South Bend and nationally that we can benefit from.”

The organization is set up as a referral system for students that are interested in volunteering but do not know where to turn, according to Johnson.

S.U.R.V. plans to target campus clubs for volunteers by finding groups that have something in common with the club.

“Our big problem is getting volunteers,” said Johnson. “Ideally, we would like to see students volunteer for one hour each week.”

Johnson is planning a S.U.R.V. week for later in the semester.

“We would like to bring speakers on campus, and have social events revolving around service, during that week,” Johnson added.

Plans for another Saint Mary’s service organization, the Christian Service Center to be run by the Sisters of the Holy Cross, are being formulated. The Christian Service Center will provide further information and resources for students interested in serving the community.

“I am not sure how S.U.R.V. will fit in with the Christian Service Center,” said Johnson. “Hopefully we will mesh and work along with the Sisters.”

“I have real ambitions for this organization and hopefully with the support of the student body at Saint Mary’s many of them will be realized by the time that I graduate,” said Johnson.

UN establishes Haitian mission

By VICTORIA GRAHAM
Associated Press

UNITED NATIONS
The Security Council set up a 1,267-strong mission of police monitors, army engineers and trainers Thursday to promote human rights and bolster peace accords in Haiti, where political violence there.

The 15-nation council voted unanimously to create the U.N. Mission in Haiti for six months, at an estimated cost of $50 million.

General Assembly President S.R. Insalani of Guyana told reporters meanwhile that he expected departures of President Jean-Bertrand Aristide to address the council in coming weeks. "It is in the cards," he said.

The Haitian mission will be the 15th current U.N. operation. On Wednesday, the council established a 440-member military observer mission for Liberia.

A council resolution expressed concern "about the escalation of politically motivated violence in Haiti at this time of critical political transition" and cited the "urgent need" for the international community to assist.

It called on all factions "explicitly and publicly to renounce violence as a means of political expression."

Hopes for a smooth return to democracy in Haiti have been set back by a rash of political killings blamed on reservists from the army, which is largely anti-Aristide.

The U.N. mission will not be a traditional peacekeeping mission to help restore law and order, and police and military personnel will not replace the Haitian army and police.

Instead, about 570 police observers would monitor Haitian police to help protect human rights. They also would train a professional police force. Haitian police traditionally were merged with the army, and a major purpose of the mission is to upgrade and professionalize both forces.

A 700-member military component would consist of an army corps of engineers who would reconstruct roads, bridges, hospitals and schools and build new housing.

They also would help train army officers and construction engineers in the poor Caribbean island nation, which has been torn by violence, its infrastructure a mess. All training would be non-combat.

U.S. Ambassador Edward Walker told the council, said Haiti's "civic institutions must have legitimacy in the eyes of the Haitian people, they must be accountable to the Haitian people, they must operate in behalf of the Haitian people."

The council called for swift deployment, but set no date. U.S., Canada, Venezuela, other Latin American countries and possibly the United States are expected to contribute personnel.

The council asked the Haitian government to take all steps to ensure the safety of U.N. personnel and their freedom of movement.

Cuban flies MIG jet to US airbase

Associated Press

WASHINGTON
A Cuban MiG-23 military jet landed Thursday afternoon at the U.S. military base in Guantanamo, Cuba, and the pilot asked for political asylum, U.S. officials said.

The jet apparently was in the air with a number of other Cuban planes that "peeled off in the cloudy skies," said a Pentagon official, who spoke on condition of anonymity.

The plane landed at the base 2:35 p.m. - just hours after an older MiG-21 flown to Florida last week by another defecting pilot was returned to the Cuban government, said a State Department official.

The Cuban air force has several squadrons of MiG-21s, MiG-23s, older versions of the fighter aircraft, as well as some of the newer MiG-29s, which the former Soviet Union built for export, according to the International Institute for Strategic Studies.

Navy Cmdr. Morgan Smith, a spokesman for the U.S. Atlantic Fleet in Norfolk, Va., said the pilot of the single-seat aircraft, 7, was being interviewed by U.S. officials at Guantanamo.

Smith said no shots were exchanged. The fighter plane had no bombs or missiles on board, but did have a 23 mm gun, he said.

The Navy spokesman couldn't say if the plane was pursued by Cubans or escorted by U.S. aircraft, nor did he have an estimate of the time.

The incident comes just days after a Cuban air force captain asked for political asylum after flying his unarmed MiG to the United States.

On Sept. 17, a MiG-21 landed at the Key West Naval Air Station on Boca Chica Key. As the Cuban economy has declined, increasing numbers of Cubans have been fleeing to Guantanamo.

Iraq activates weapons monitoring systems

By VICTORIA GRAHAM
Associated Press

UNITED NATIONS
Iraq agreed Thursday to activate TV monitors at rocket test sites, clearing the way for high-level talks in Baghdad next month and a major accord on weapons monitoring, Iraqi Ambassador Nizar Hamdoon said.

High-level talks with U.N. weapons officials now are expected to be held in October. "Iraq has agreed to activate the cameras, as a sign of good will to the U.N. Special Commission," on weapons monitoring, Hamdoon told The Associated Press by telephone Thursday.

"The cameras will be turned on when the Special Commission wants. We expect the Special Commission to go to Baghdad," he said.

The cameras were installed this summer after a long standoff with Iraq, one of many over the terms of the Gulf War. But the cameras were not turned on pending talks.

Conflicting views on health plan

By KATIE MURPHY  
News Writer

President Clinton’s health care address Wednesday night appears to be a step forward in the efforts to reform the health care system, according to David Betson, Notre Dame associate professor of economics. 

"I question the proposal on a number of grounds," said Kmiec. According to Betson, although the public information about the forthcoming proposal to reform the nation’s health care system is limited, Betson said the preliminary details are promising. "I have not seen the 245 page document, but what I heard was a very good start," Betson said. "We have made a significant step forward."

Clint is steering the responsibility for health care towards high-level bureaucracy and away from individuals, families, and communities, according to Kmiec. "I question the proposal on a number of grounds," said Kmiec. According to Betson, although the public information about the forthcoming proposal to reform the nation’s health care system is limited, Betson said the preliminary details are promising. "I have not seen the 245 page document, but what I heard was a very good start," Betson said. "We have made a significant step forward."

The placement of decision-making capabilities on members of society rather than on the federal government is an important consideration in this government plan, Kmiec said. "One should never raise to a higher level that which can be effectively and appropriately be done in a lower level," he said.

The economic aspects of the plan may be detrimental to some classes of employers, particularly small businesses, he added. Under Clinton’s plan, most employers would be required to pay 80 percent of average premiums. "Small businesses will have to undertake the forced or coerced purchase of a government product. Unfortunately, small businesses are the major source of job growth at the moment," said Kmiec. Kmiec is concerned that small businesses will be overwhelmed by the new insurance requirements and not be able to sustain their current employment numbers. "One of the ironies of the Clinton proposal is that people will be taxed but not employed," he said.

A better alternative, according to Kmiec, is the establishment of "medical savings accounts that allow individuals to accumulate and use savings for day-to-day medical expenses tax free."

"We are trying to create an entirely new set of organizations that are really state-run monopolies. The alternative would just be another line on the tax form. All it would require is a relatively simple piece of legislation," he said.

Israeli parliament approves pact

By SERGEI SHARGORODSKY  
Associated Press

Prime Minister Yitzhak Rabin declared he won "freedom of action" to pursue Mideast peace after parliament ratified the historic Israel-PLO accord on Thursday.

Rabin said the 61-50 vote allowed the government to implement the agreement on Palestinian self-rule in the occupied lands and continue attempts to reach peace with Israel’s Arab neighbors.

The margin was less substantial than Rabin had hoped for, but it put a convincing end to calls for early elections or a national referendum that would have slowed down the peace momentum.

It also diminished fears that Israel would be torn by violence and political anarchy after recognizing the PLO, its bitter enemy.

"Now we shall build a new Middle East," Foreign Minister Shimon Peres said after the vote.

Still, hard-line opponents to the accord said that the government’s mandate was slim, and they would try to force changes in the accord.

PLO spokesman Yasser Abed-Rabbo praised the result, telling Israeli army radio from Tunis it was a "positive step" and that support for the treaty was larger in the street than in parliament.

Rabin had staked the credibility of the peace initiative as well as the future of his government on winning the vote, saying it would constitute a formal vote of confidence.

Eight legislators, including three from the hard-line Likud bloc, abstained from the vote, and one was absent in the 129-seat Knesset, or parliament. The result clearly embarrassed Likud, which failed to enforce party discipline.
South Africa ends whites-only rule

By JOHN DANISZEWSKI
Associated Press

CAPE TOWN

Parliament voted Thursday to allow blacks a role in governing South Africa for the first time, and angry white right-wing lawmakers, crying "traitor," said it could lead to civil war.

"This makes permanent peace impossible," said Ford Hartzenberg, leader of the white Conservative Party, who led his followers in walking out of Parliament after the vote. "We have lost a golden opportunity for peace."

The vote creates a Transitional Executive Council, comprised of representatives from the 26 black and white parties that have participated in the talks on ending apartheid.

The body, which one official said may function as early as next month, will be a watchdog of the government, with some veto powers. Most importantly, it can veto decisions on the increased use of security forces to quell political unrest in black townships.

It will help oversee foreign, economic and national security policy and the holding of the country's first multiracial elections April 27, and is charged with combining the existing security forces with paramilitary and militia groups linked to the ANC and other black parties.

The African National Congress, the country's largest black group, hailed the vote as "a major victory for the forces of peace and democracy."

"For the first time in the history of our country, the racist Parliament has approved a bill which is responsible to the will and aspirations of the majority," the ANC said in a statement.

By giving blacks a role in government, the bill sets the stage for the remaining international economic sanctions against South Africa.

De Klerk makes historic South African visit to UN

By VICTORIA GRAHAM
Associated Press

UNITED NATIONS

President F.W. de Klerk made the first visit by a South African head of state to U.N. Headquarters Thursday, a sign of his nation's return to world respectability after nearly 20 years of isolation.

After conferring with Secretary-General Boutros Boutros-Ghali, de Klerk held a news conference at which he praised enactment of a bill by South Africa's Parliament giving blacks a role in government.

He said he expects Nelson Mandela, who is to visit the world body on Friday, to call for lifting economic sanctions.

He does not expect a major exodus of whites, although there has been an increase in emigration, de Klerk said. He added that immigration has increased at the same time and that establishment of democracy and economic development will change the mood and instill confidence.

New crime legislation calls for 50,000 cops
By CAROLYN SKORNECK
Associated Press
WASHINGTON
Crime bills calling for 50,000 more police officers on the street, new federal death penalty provisions and limits on appeals by death-row inmates were introduced in the House and Senate on Thursday.
In large part, the bills, which have a price tag of $5.9 billion over five years, resemble the one worked out by a House-Senate conference committee in the previous Congress. That bill was killed in the face of a threatened filibuster by Senate Republicans over provisions involving the death-row inmates' appeals.
But they delete a death penalty provision for drug kingpins and the penalty provision for drug traffickers, the Brady Hill that imposes a three-day wait and background check on handgun buyers.
"I have no illusions that the path to enacting a crime bill will be easy," Senate Judiciary Committee Chairman Joseph Biden, D-Del., said on introducing the measure that he said the "American people so desperately need."
However, he said the barracks combat battle that killed the previous measure should not be a problem this time because he spent five months negotiating with the nation's prosecutors, and a majority of the members of the major prosecutors' associations agree on the bill's language.
Biden said he deleted the Brady bill from the Senate measure at the request of gun control advocates "Sarah Brady. Her husband, former White House press secretary James Brady, was paralysed during the 1981 assassination attempt on President Reagan.
Amtrak probe focuses on barge

Three people remained missing, said Steve Huffman, a Mobile fire department spokesman. All were crew members believed to be inside an engine buried in 15 feet of bayou mud beneath 25 feet of water. Late Thursday afternoon the engine was lifted partially from the mud, and searchers were entering the cabin.
The tugboat pilot, Andrew Stabler, has been questioned by the FBI and his vessel impounded. The barges were moored a quarter mile from the crash site 10 miles north of Mobile.
Perkins said that Stabler radioed in at 3:06 a.m. Wednesday that he had struck a bridge, but mistakenly thought he had hit a span on the Mobile River. Instead, he was on Bayou Canot, one of several bayous, streams and creeks that feed into the river at its delta. The Coast Guard put the time of the crash at 3:18 a.m., though road officials and federal investigators have said it was shortly before 3 a.m.
U.S. Transportation Secretary Federico Pena told "CBS Morning News" that Stabler radioed only that a barge had come loose.
The train's speed wasn't known; the speed limit on the track was 70 mph. It had just left the Mobile station.
Results of mandatory drug and alcohol tests given Stabler and three crewmen were unavailable, the Coast Guard said.
The barges — 193 feet long and 35 feet wide — were lashed two aside and filled with coal, coke and wood chips. Some apparently broke loose upon impact, and Stabler was trying to corral them in the fog.
"It is clear the barge did hit the bridge," Pena said.
Stabler, who lives 60 miles north of Mobile in Martinville, refused to answer questions without consulting his lawyer.
"I'd like to tell my side. People get things and turn them around," Stabler told The Associated Press.
According to Coast Guard records, Stabler had no prior accidents or violations. He received his seaman's license in 1983 and a license to work on vessels over 100 gross tons in 1987, the records show. He needed no state license.
Warrior & Gulf Navigation Co., owner of the tugboat, said in a statement the vessel was pushing barges north in the fog-shrouded Mobile River. The bayou the train crashed into feeds into the river. The bayou isn't navigable, although barges sometimes tie up there temporarily.
The vessel found itself not in the river channel but in the bayou Canot, "said Andrew Harris, general manager for terminals for Warrior & Gulf.

Local businesses skeptical about Clinton's health care proposal

By THERESA ALEMAN
Business Writer

While people differ over whether there would be too many doctors or too few, local businesses are worried that health care reform bill will pass and that they will be hit hard by it.

"Our business depends on being able to get good health care for our workers," said one of the business owners interviewed. "If we can't get it, we might have to cut back on our operations." Another business owner said that "If health care becomes too expensive, we might have to go out of business." A third owner expressed concern that "If we have to pay more for health care, our profits will go down and we might have to lay off some workers." A fourth owner said that "If we can't get good health care for our employees, we might have to lay them off." A fifth owner said that "If we have to pay more for health care, we might have to raise our prices and lose customers." A sixth owner said that "If we have to pay more for health care, we might have to cut back on our advertising and marketing." A seventh owner said that "If we have to pay more for health care, we might have to cut back on our research and development." A eighth owner said that "If we have to pay more for health care, we might have to cut back on our training and development." A ninth owner said that "If we have to pay more for health care, we might have to cut back on our charitable giving." A tenth owner said that "If we have to pay more for health care, we might have to cut back on our community involvement."
Irish gold tarnished by book
But ND administration must fight allegations

If I have learned one thing in my seventeen years in Wash­ington, it is that a book release can change public opinion. In this case, author Mike Dukakis chose to ignore George Bush’s con­test for the presidential election against the Pledge of Allegiance. Voters certainly forgot how Mike Dukakis chose to face-to-face with a player?

Next I would bound the au­thors by appearing wherever they made appearances to per­sonally deny their accusations and present the University’s position. I would detail the kinds of articles and books they have written. Do they usually write negative pieces? I would cite the erroneous steroid article “Sports Illustrated” pub­lished a couple of years ago. If I could, I would develop a list detailing any other published efforts to show a pattern of tabloid journalism against ND. Then I would research their backgrounds to determine the character of each individual. Do they have police records or cheat on their taxes? Do they harbor ill feelings for Notre Dame because of their alma maters? Did they cheat in school?

Finally, I would go on the of­ensive to prove the University by appearing on as many shows as I could solicit. Using such Notre Dame contacts as Regis Philbin and Phil Donahue, I would saturate the television air waves with positive images of the football program. After a couple of weeks of the media blitz, I would pronounce the issue closed. Then I would ignore these tabloid journalistic

Restaurants

Brings on the Taste!

By ELISABETH HEARD
Assistant Accent Editor

Besides the game, there are lots of other things the greater Lafayette area has to offer. In order to calm those hunger pains, there are several different types of restaurants.

Caruso's Little Italy, located at 1403 Sagamore Pkwy., specializes in zesty Italian dishes.
Their prices range from sandwiches at $3.95 to entrees as much as $11.95. The average meal, however, costs around $8.95. The dress is casual, and the number is (317) 448-6963.

Hour Time, located at 4343 State Rd. 26 East, serves steak, seafood and pasta. The prices range from $8.95 up, with the average entree around $13.95. The attire is mostly dress up, and the number is (317) 449-4669.

If you have a taste for ribs there are two places that should satisfy your hunger.
Dame's, located at 4211 State Rd. 26 East, serves ribs that range from $6.95 to $15.95. The can be reached at (317) 449-4158, and the dress is casual.
Mountain Jack's, located at 4211 E. State Route 26, serves their ribs along with other items at an average price of $14.95. The atmosphere ranges from casual to dressy.
The number is (317) 448-1521.

Sorrento's, located at 601 Sagamore Pkwy., boasts a menu of 129 dinner items. The average price is $15.00, but they do range from $6.00- $17.95. The dress ranges from jeans to evening gowns, and the number is (317) 463-5537.

If fast food is what you are searching for, you will be able to find it in Lafayette. It has a Bob Evans (Interstate 65 and State Rd. 26 East), a Denny's (4250 State Road 26 East), a Steak & Shake (Sagamore Parkway North), and a Waffle House ( Interstate 65 and State Road 26 East). All are open 24 hours a day.

Whatever you are looking for, you should be able to find it close to the campus of Purdue. A full stomach and a good night's rest will definitely help one to keep cheering and supporting the Irish as they seem head to head with the Boilermakers on the opposing team's turf.

"hot spots."
I don't play for the fans, I don't play to be on television every weekend," says Lake Dawson, as his characteristic smile turns to a look of concern, "What's important to me is that all my teammates, when they see the ball thrown to me, they're thinking, 'Lake's gonna catch that.'"

That thought is central to what Dawson is all about. The senior split end has long been counted on by Notre Dame coach Lou Holtz and, more importantly, his teammates.

"They have a lot of confidence in me. That means a lot to me, that shows when you have gained some respect from your teammates."
Not much worry with Purdue offense

By JASON KELLY
Assistant Sports Editor

Purdue runs an option offense, but it may not be an enough option to outrun the Notre Dame defense.

The Irish are not skilled enough to dominate and a dominant team is what is needed to win the battle for Irish D-Line.

Sophomore fullback Mike Alstott anchors the Purdue offensive line as a heralded back doesn't have to open holes for the running backs.

The Boilermakers have been impressive, but they aren't far better on paper.

Sophomore Corley and Hall have played well but still need to gain experience.

On a scale of 1 to 5, Purdue could ask for more from his receivers.

Continuing to play well in Penn State, Wynn will open some holes for the running backs.

On a scale of 1 to 5, Purdue's offensive line averages well.

Sophomore Pat Johnson tackles the Irish receivers are not at full speed.

The Boilermakers aren't quite as dangerous through the air.

Purdue's blossoming defensive back doesn't have to see more action Saturday.

Sophomore Corley and Hall have played well but still need to gain experience.

Young pursues his childhood fantasies

By DARREN KIKUTA
Purdue Exponent Staff Writer

Eight-year-old Jimmy Young told his mother he was going to be a pro player one day. She smiled and brushed it off as a childhood fantasy. When he came home from school asking her to sign him up for football, she agreed. She wanted to give her children the things that would make them happy.

And when Judy Young-Lee's son was selected as a pre-season All-American, she was as surprised as anyone.

"I never thought in my wildest dreams, he would be getting press like that," Young-Lee said. "I can't believe he is this close."

Young, a senior cornerback for the Purdue Boilermakers, is close to making good on that promise he made 14 years ago. He is considered the best corner in the Big Ten and among the top 10 in the nation and will surely have the attention of pro scouts all season long. There remains only one season and 11 obstacles in his path to the National Football League.

"I think he's got a chance to play in the NFL," Purdue defensive back coach Pat Henderson said. "Like any great player, there's a chance. He needs a good senior year, just like 99 percent of all college football players, but I expect he will have that."

The NFL has kept Young dedicated since his first run in the Pop Warner league. "I set a goal a while ago that I wanted to become a professional athlete," Young said. "As my life progressed, I decided it was going to be in football. I was going to become a professional football player. That's what brings me out to practice every day, that's what makes me work hard every day."

However, Young had his doubts his freshman year. He told his mother during one of their semi-weekly phone conversations he wanted to transfer from Purdue.

"I told him, 'James, you picked Purdue after looking at all the other schools,'" Young-Lee said. "Don't give up yet. Hang in there and see what the end will bring."

Following that conversation, Young made the most significant decision of his athletic life. He switched to defense.

He was recruited to play offense and wanted to be a running back. He perceived it as a glory position, the guy people talk about all the time. But the arrival of coach Jim Colletto and his pro-style offense caused him to reconsider.

"We had so many tackles that I felt my best chance to play would be on defense," Young said. "There were four spots open, and with a new staff coming in everybody's equal. Before they said anything to me, I was over there."

His running back aspirations vanished during his sophomore year. He intercepted six passes during his first year at corner-back, one shy of the single season Purdue record. He solidified his reputation as a defensive player last year.

"I think the IU game when I thing of JY (Young)," senior wide receiver and roommate Jermaine Ross said.

Following that conversation, Young-Lee told him, 'James, you going to hurt,' Young said.

Although Purdue dominated, the Boilermakers never established control of the battle. With Purdue clinging to a 13-10 lead, Indians began it last offensive series.

"They were marching down the field on us. It seemed like they kept coming and coming," Young said.

Purdue forced IU into a field goal attempt. The kick was blocked, the victory was secured and the celebrations started. Then the referees retrieved the yellow flag and announced the penalty.

Sixteen seconds left in the game. The overthrown pass intended for the tight end fell into the waiting hands of Young.

"When I saw it coming, I said, 'This is it.' And once I caught it I said, 'I'm not downing it,' and I took off," Young said. "I knew they were done out a fork in them."

After the game, he was the guy people were talking about.

"That's the kind of guy he is. He makes those kinds of plays," Henderson said. "He's got the kind of personality that allows him to compete one-on-one and feel like he's going to win."

ROSS-ADE STADIUM

Built in 1924
Capacity: 67,861
Largest Crowd: 71,529 (1980)
Surface: Grass (PA)
ND's Record There: 15-8

Now in its 70th season of use as Purdue's football playing field, it carries the distinction of being the only stadium in the Big Ten always to have featured "real grass."
Lou Holtz

Seventh year at Notre Dame.

Records at Notre Dame: Overall 69-16-1, at home 35-7-1; on the Road 34-11-0; in Bowl Games 4-2-0.

Career Records: Overall 185-83-6 in Bowl Games 9-6-2, vs. Purdue 8-1-0.

Previous Head Coaching Experience: William & Mary (3 seasons), North Carolina (4 seasons), Arkansas (7 seasons), Minnesota (2 seasons).

Career Highlights: No. 3 ranking with 1977 Arkansas team; Led Notre Dame to 1988 National Championship; Undefeated No. 3 ranked Florida in 1992 Sugar Bowl. Topped No. 3 Michigan this year.

The History of the Series

The Last Time:

Notre Dame 48, Purdue 0

Notre Dame preserved their shut-out with about six minutes left in the game by stopping Purdue on the one-yard line. Brian Hamilton, defensive end, jumped on a fumbled snap by Purdue quarterback Matt Pike to prevent the score. The shut-out was important for the confidence of the much maligned Irish defense.

Tailback Reggie Brooks ran for 205 yards on only 15 carries and scored three times for the Irish. He overshadowed the 96 yards and two touchdowns of fullback Jerome Bettis.

The lone bright spot for Purdue was Earl Coleman who rushed for 48 yards on only three carries.

The Records:

Notre Dame leads 41-21-2
Last ND Win: 1992 (46-0)
Last PU Win: 1985 (35-17)

Longest Series Streaks:
ND-5 (1906-1923)

At Ross-Ade Stadium:
Notre Dame leads series 15-8.
Lake Dawson continued from page 1

says Dawson, "That shows that you are a leader and as you mature you pass that on to the younger guys.

It certainly sounds as if Dawson has a proven formula for success. He is one of the top receivers in the nation, an All-American candidate, and a team leader. However, life wasn't always so easy for the Federal Way, Washington native. In the spring of 1992 you could find Lake Dawson back home, over 2,500 miles from his school and his teammates.

It may seem like ancient history to Notre Dame fans, but for Dawson it meant much more. Dawson pressed his further.

"You can't explain in words the emotional hardest adversity then," continued Dawson.

"When I was teary-eyed because I may seem like ancient history to Notre Dame fans, but for Dawson it had been a moment that on to the younger guys. Dawson has also had a hand in the development of Mayes, who has matured into one of the Irish's top receivers, Miller's punt return for a touchdown was the play of the game. Dawson lives by. Football means more to Dawson, "I said that on to the younger guys."

Aspirations of professional football are undoubtedly in the back Dawson's mind, but right now his focus seems to be elsewhere. He enjoys sharing stories about his mates, particularly the other members of the receiving corps. Dawson has a particularly unique relationship with junior Michael Miller and sophomore Derrick Mayes.

"I've been told that I'm a very humble person," Dawson joked. "I'm missing out on where I should be, and obviously my friends think that I should be there too."

"That's why this season is very important to me. I dedicated that last spring I had here to my teammates. I wanted to play my best ball for them because I never had anyone reach out to me like that, I mean besides my family. You have complete strangers here that pull together for one guy, that just goes to show you the trust and love and commitment that we have in one another."

Trust, love, and commitment. It's one of those inspirational sayings that Dawson keeps close to him.

"I try to show my leadership through my actions."

It may seem then to be a mystery as to what inspires Lake Dawson, who is himself a major source of inspiration for the team. Dawson finds inspiration in little things—simple sayings, quotes, and memories.

"One source I came upon recently was the fact that my grandfather for the Federal Way, Washington native. In the spring of 1992 you could find Lake Dawson back home, over 2,500 miles from his school and his mother waiting for him."

"I was very excited just to be here and for me it was just a normal game," remembers Dawson. "He inspires me because he didn't have the same opportunities that I have now as far as playing football, and he was so excited just to be a part of what a little thing I was doing, and I'm not doing very much.

"It humbled me and helped me realize how blessed I am to just be able to say I play football for Notre Dame. That inspires me to take advantage of the opportunity I have because looking at his eyes I really understood just how happy he was for me that I was playing and going to school here and getting an education."

It is a type of recollections that make Lake Dawson's eyes gleam with excitement.

"The best thing about Derrick is that he's very talented yet he is still willing to listen to someone who is older and has gone through other things," says Dawson. "If I'm going to make a big play, you've got to stay in this thing because we're going to need you today. Next thing I know, boom."

"I kind of have a big brother-little sister relationship with him. He's a very close friend of mine, we try to hang out together as much as possible on the weekends, but we also push each other on the football field."

All this leadership and responsibility may seem a bit much for a soft-spoken 21-year-old who is named after his grandfather, still carries his money in his sock, and tends to fall asleep before even the biggest games of his career.

"I'm not very outspoken on the football field, as a matter of fact, believe it or not, I probably sit back and listen to everyone else talk," says Dawson, who contends that any showboating he performs on the field is in an attempt to get his team excited.

"I'm not doing very much."

"I've been told that I'm a very approachable person. But I just try to treat people with the same amount of respect that they treat me with," concludes Dawson. "Therefore, I tend to smile a considerable amount, and try to represent myself as being friendly and just willing to reach out to people if they're willing to reach out back to me."
PRACTICE BREAKDOWN

- 30-45 minutes before flex (stretching) the kickers and punters come out and warm up.
- The rest of the team arrives at practice and begins stretching.
- The kickers and punters come out and warm up.
- The rest of the team arrives at practice and begins stretching.
- The kickers and punters come out and warm up.

MANAGERS RESPONSIBLE FOR SMOOTH PRACTICE

Notre Dame head football coach Lou Holtz runs his practices the same as he does his life, like clockwork.

SOMETIMES YOU WOULDN'T THINK THAT HE WOULD NOTICE SOMETHING, BUT HE ALWAYS DOES," SAID STUDENT MANAGER PETER O'REILLY.

"IF PRACTICE GOES ONLY A FEW MINUTES OVER SCHEDULE YOU CAN BE SURE HE WILL SAY SOMETHING."

The responsibility of making sure nothing falls out of line is placed on the shoulders of the student managers, O'Reilly, along with fellow head managers Christopher Dubs and Kevin Salmon, supervises each practice and the 22 other student managers who help with the daily operations of the team.

The managers announce the passing of each five-minute period by blowing a horn and changing the period number on signs that hang at several locations.

They must keep track of the people which visit practices, making sure that photographers do not shoot certain parts and that visitors don't impair the flow of practice.

The most frequently thought duties such as handing out water and collecting footballs are still the main activities of each manager. But things get far more complicated.

"IT IS NOT UNUSUAL TO FIND YOURSELF PLAYING TAILBACK OR DEFENSIVE BACK FOR SOME COACH IF HE IS SHORT OF BODIES," SAID O'REILLY.

The managers are also held accountable for a far more complicated part of practice, several are assigned to chart plays. They must keep track of yardage gained by the offense or yards allowed by the defense. Also, they must keep note of the number of balls dropped by receivers or passes allowed by the defensive backs.

All the information is kept on a chart, a copy placed on each coach's desk before they return from practice.

Managers typically arrive two hours before practice begins and stay 45 minutes after.

STRETCHING

It is not called stretching but "flex" by players and coaches.

For the length of one period (5 minutes), the players gather in two groups, offense and defense, lined up by position.

There are no unique stretches but much emphasis is placed on stretching the neck. Injured players are taken aside by trainers and stretched individually.

RUNNING

The Irish run sprints after most practices, the number contingent on the coaching staff's attitude towards the players performance that day.

A sprint in football terms is the length of the field. A short rest is awarded in between runs, but a very brief one.

Traditionally ten sprints are the maximum the players run, but after a bad practice Lou Holtz has been inclined to increase this number to 20.

Injured players, if given special attention from the trainers, will usually sit out sprints depending on the injury. A stationary bike is the alternative.

FILM

Two cameras film every movement at each practice. The first camera is located in the tower separating the two main practice fields. It films the defense when they break for individual drills and then when they join together to run team defense.

The second camera concentrates on offense and films the field which runs parallel to Alumni field. Both cameras film when the offense and defense join together to run against the scout team.

Three technicians, headed by Tim Collins, work the cameras and prepare the film for viewing either at the end of practice or the following morning.

WEIGHTLIFTING

Each Irish player is required to get a lift in one day during the early part of the week. A tent is set up near the entrance of the practice fields. Ten minutes before practice ends, the players lifting that day.

Each player's workout is designed by the strength and conditioning coaches, headed by Jerry Schmidt. An emphasis is placed on maintaining stamina rather than increasing strength.
Miami faces first test at Colorado — Games of interest

#3 Miami at #13 Colorado
Colorado comes off one of the most exciting and controversial games of the season, a 37-34 loss to Stanford on a last-second touchdown toss from Steve Stanstrom, star linebacker Ron Woolfolk and the Colorado defense was blunted by Stanstrom, who was 30-42 for 382 yards and two touchdowns, including the winning one with 14 seconds left on the clock.

Miami has been unimpressive in two wins over Boston College and Virginia Tech, as quarterback Frank Costa has steered in line with his more famous predecessors at the position.

Colorado has the most balanced offense in the country, which should provide a challenge for Miami's yet-to-be-tested defense. Buffalo Flanker Charles Johnson had his second-straight game with over 150 yards receiving last week, as he hauled in eight catches for 172 yards from flashy quarterback Kordell Stewart.

Like last week's Colorado game, the Orange Bowl wait will be on whether or not the offense can just come together. I know they can do it.

The names change from year to year, but the expectations remain the same.

For the players and coaches those prospects look very good for Notre Dame at least one game. Three of those games are at home and the strength of last year's team that came off thequared down the national rankings.

The Tarheels have a chance, if they hope to challenge for the Rose Bowl berth.

Brian Kubiak Overall: 23-10 Last Week: 8-3
Jonathan Jensen Overall: 22-15 Last Week: 7-4
Northwestern quarterback Len Williams

The Observer Sports Writers Last week: 27-17
VS
Real Sports Writers Last week's guests: 26-18

#3 Miami at #13 Colorado
Winner may be the one who scores last.

#18 North Carolina at #19 North Carolina State
The Tarheels dropped five spots after their 33-7 loss to No. 1 Florida State. North Carolina looked immense in the big matchup with the Seminoles and hung in tough, that makes what the flipped score so scary.

The Tarheels are led by quarterback Jason Stanziem, who led UNC to a 7-0 lead on a 28-yard pass to Bucky Brooks, and ended up the game 7-11 for 85 yards. Stanziem has another weapon in halfback in the second half and was relished by former starter Mike Thomas, who then threw two interceptions in the next two possessions.

Translation: If Stanziem is healthy again, the Tarheels have a chance, if not, go with the Wolfpack.

Wake Forest at Northwestern
The Deamon Deacons travel to Evanston after one of the greatest wins in recent Northwestern history. The Wildcats upset then-No. 22 Boston College in a 22-21 thriller on a successful two-point conversion by running back Dennis Lundy.

Northwestern's fans stormed the field and attempted to tear down the goal posts after last big win, after which they received two votes for the top-25. This week they find themselves as six-and-a-half point favorites over a Wake Forest team that is nowhere near the national rankings.

UCLA at #17 Stanford
The Cardinals come off the aforementioned home upset of Colorado, while UCLA nearly pulled off an upset of their own, falling to No. 6 Nebraska 14-13.

The Cardinal defense, which was the strength of last year's team that knocked off Notre Dame, was severely lacking in last week's win, and must improve if they hope to challenge for the Rose Bowl berth.

#1 Miami at #13 Colorado

Assistant Accent Editor

With the Irish at 3-0 and number four in the ranking, the excitement has begun to build. Next on the field are the Boilermakers, ready to try and continue the streak. As usual, students have already started to pack up their bags and head south, hoping to cheer the team to victory.

If roadtripping to Purdue, prepare for approximately a two to two and a half hour drive. The best way to get to the campus is to take US 31 south to State Road until you see signs for Purdue. Be sure to cross the Wabash River from Lafayette into West Lafayette. The game will be played in the 67,861 seat Ross-Ade Stadium, the largest stadium in the state of Indiana. It also carries the distinction of being the only stadium in the Big Ten Conference that has "real grass" instead of artificial turf.

West Lafayette is a big college town, and the campus is combined with the city. The combined population of Lafayette and West Lafayette exceeds 65,000. The West Lafayette campus of Purdue University boasts an enrollment of 35,833 students and has approximately 18,600 acres (of which more than 17,000 is used for agricultural research.) There is a considerably large Greek population at Purdue, with 20 sorority houses and 45 fraternity houses. The resident halls are relatively spread out on campus, but they are easily recognizable since most of the dorms are set up in quad formation. Cary quad, one of the largest complexes of dorms, is directly across from the stadium.

The Ross-Ade stadium is on the northeast end of campus, and most tailgaters are held in the parking lot directly adjacent to the stadium. Winnebagos with the ND flag can be found everywhere, just as if it were a home football game. Be sure to look for the Alumni Association van with a large awning and an ND banner, and have a pre-game with other ND fans. For students who are looking for a place to spend the night and don’t have friends on campus, Lafayette has many hotels. The Purdue game is probably the last chance this season that roadtrippers will be able to support the team on the road. Don’t miss this opportunity to help cheer the Irish onto another victory against the Boilermakers.

The definitive guide to surviving in Boilermaker territory

Sagamore Parkway South, has 190 rooms, satellite television and an outdoor pool. Days Inn of Lafayette, located at 400 Sagamore Parkway South, has 190 rooms, satellite television and an outdoor pool. Days Inn of Lafayette, located at 400 Sagamore Parkway South, has 190 rooms, satellite television and an outdoor pool. Days Inn of Lafayette, located at 400 Sagamore Parkway South, has 190 rooms, satellite television and an outdoor pool.

 Jeremiah Sweeney’s Restaurant and Lounge. The toll free number is 1-800-2-RAMADA.

Red Roof Inn is located at 4201 State Road 26 East at Interstate 65. The toll free number is 1-800-822-5353. The Purdue game is probably the last chance this season that roadtrippers will be able to support the team on the road. Don’t miss this opportunity to help cheer the Irish onto another victory against the Boilermakers.

Attention roadtrippers

Do you have a road trip story that is out of the ordinary? Don’t keep it to yourself, share it with the rest of us through the Observer. Submit a well-written, typed story to the Accent Department of the Observer on the third floor of Lafayette. The Observer reserves the right to edit any story. Contact Elisabeth Heard at 631-4540 if there are any questions.
Human compassion will ward off the Devil's overture

J'accuse was the front-page headline in the newspaper which printed Émile Zola's open letter to the President of France, accusing various persons of complicity in the Dreyfus case (1899). I'd like to borrow that headline to single out the ghastly perpetrator of evil who must be working overtime around the world, lately.

Usually, when anyone mentions the word of God and all his works and poms, I answer in the words of Sportin' Life down on Catfish Row, "It ain't necessarily so." But lately, you could almost say that he's been making his debut as an activist, and I've wondered if anyone else has noticed that he's out of the closet.

Using Zola's headline, J'accuse the diabolically-clever One of screwing up the genuinely good works of Christian charity. It used to be possible for the faint-hearted Catholic to serve the Lord in good conscience by generously practising the Golden Rule: giving cups of cold water to the least of Christ's brothers, visiting the prisoners, and teaching all those other acts of kindness on which the Gospel says that we can expect to be rewarded—New York, L.A., Miami, now coming out of the big cities—Brooklyn, Los Angeles, Miami, which printed Emile Zola's famous open letter to the American people, calling on them to come out of the closet. The supporters of the defendants have handled out a fact sheet: "Did those who rebelled against the law of the land, dig a ditch in front of a bus? Subway riders know these guys are not harmless. And most of the men who know themselves.

Thousands refuse to use the municipal shelters—which cost the city $16,000 a year for each cot—because they are too 'dangerous.' J'accuse the Spoiler of raising the stakes on what's at risk when you become a lady man to the down-in-people.

Hamilt writes: "New Yorkers don't have to hear much about the homeless any more. They don't want to hear the sad and terrible tales... They don't want to read interviews with men who live in cardboard boxes. They don't want to hear about Vietnam from men who were fourteen the year the war ended... They don't want to hear any more prison-yard raps. They don't want to hear any more sad songs.

In 1980, when the first of these young men started appearing among us, most New Yorkers were moved to pity. The taxpayers of New York were forced...to come up with hundreds of millions of dollars to support the homeless in shelters, but New Yorkers didn't complain about assuming this burden. New Yorkers were moved by compassion to help the helpless. Not any more. New Yorkers want these men to get out of their faces...

"When sentiment overrode reason, most New Yorkers believed that these men were harmless...not any more. Kevin McKlever, 34, homeless, wasn't a benign looser when he stabbed the life out of an ex-boxer. Larry Hague, 44, and homeless, wasn't a passive solitary when he pushed a kid in front of a bus. Subway riders know these guys are not harmless. And most of the men who know themselves.

Hamilt's solution: "Military bases are closing because of the health emergency, they should be turned into homeless sanctuaries. The basic principle is quarantine." Hamilt says there would be the "usual paranoid declarations about the cruel forces of the state creating concentration camps for social undesirables." J'accuse his majesty Bestbeulph of leading Americans to the horns of a dilemma.

J'accuse him of making a mockery of trial by jury. Damian William and Henry Watson were tried in L.A. for the videotaped attack on the truck driver Regional Denny. The supporters of the defendants have handed out a fact sheet: "Did those who rebelled against the law of the land, dig a ditch in front of a bus? Subway riders know these guys are not harmless. And most of the men who know themselves.

That is what this case is all about," as one observer explained. "The defense strategy is: 'We weren't there. If we were there, that wasn't us on the videotape. If that was us, we didn't do anything. If we did anything, we didn't intend it.' The defendants could walk on a Catch-22.

After reading all the happy horseshit in Tuesday's Observer (the opinions were not necessarily those of the Editors), I made up my mind that the time has come to sound the alarm. J'accuse the Devil of infiltrating the churches. The churches, lies which darken them to the splendor of the Church. But when I read students Church-bashing in the OBSERVER, I wonder if the Devil makes them do it.

"Why should Catholics want a faith that they can approach like shoppers, picking and choosing?" wrote a Freshman. "Why don't they simply become Protestants? What good is the Church, which believes itself to be the servant of Christ through time, if it always has a poorer grasp on truth than the world, the flesh, and the Devil?"

Apparently the Surgeon General, distributing condoms, is worried that the Church, marriage counselors who arrange divorce must know more about love. Dr. Ruth has a better understanding of the uses of human sexuality than the Christian theologians.

Notre Dame students are perfectly entitled to believe that that the R.C. Church is an impediment to the human race. But I'm not sure students are entitled to do all their loud-mouthed grandstanding in a place where the buildings have left their blood on the bricks.

Finally, for the sake of my own peace of mind, I would like to believe that the article on Father O'Connor's lecture on miracles was badly reported. Reading about miracles as the way to conversion left me embarrassed. We cannot excuse Catholics that need that peripheral stuff to accept miracles. The tele-evangelists also preach a message of gloom and doom. Who should God want to punish us when we do so a good job of punishing ourselves?

I apologize to Father O'Connor for disagreeing with him. He is right. I am not. No matter how you try to baptize happy horseshit, you can't turn it into the science of God. Possibly both Father Ed and I are right to have strong opinions about the Catholic faith in which we have both grown old.

Father Robert Griffin
Letters to a Lonely God

Preslin as the news-writing lauze of the boroughs, claims to tell things the way they are in last week's New York magazine. Taking Hamilt's word on the human plight in Hell's Kitchen, since I've been there to see it happening, I accuse the Spoiler of raising the stakes on what's at risk when you become a lady man to the down-in-people.

Hamilt writes: "New Yorkers don't have to hear much about the homeless any more. They don't want to hear the sad and terrible tales... They don't want to read interviews with men who live in cardboard boxes. They don't want to hear about Vietnam from men who were fourteen the year the war ended... They don't want to hear any more prison-yard raps. They don't want to hear any more sad songs.

In 1980, when the first of these young men started appearing among us, most New Yorkers were moved to pity. The taxpayers of New York were forced...to come up with hundreds of millions of dollars to support the homeless in shelters, but New Yorkers didn't complain about assuming this burden. New Yorkers were moved by compassion to help the helpless. Not any more. New Yorkers want these men to get out of their faces...

"When sentiment overrode reason, most New Yorkers believed that these men were harmless...not any more. Kevin McKlever, 34, homeless, wasn't a benign looser when he stabbed the life out of an ex-boxer. Larry Hague, 44, and homeless, wasn't a passive solitary when he pushed a kid in front of a bus. Subway riders know these guys are not harmless. And most of the men who know themselves.

Hamilt's solution: "Military bases are closing because of the health emergency, they should be turned into homeless sanctuaries. The basic principle is quarantine." Hamilt says there would be the "usual paranoid declarations about the cruel forces of the state creating concentration camps for social undesirables." J'accuse his majesty Bestbeulph of leading Americans to the horns of a dilemma.

two weeks ago.

"Our primary objective is to win the meet outright," said McWilliams. "The key will be run as a group. The team will be within an arm's reach of each other the entire race.

Junior J.R. Meloro, who has looked strong in practice this week, echoed this team concept.

"The real focus of our effort will be to run as a group," noted Meloro. "Anytime someone on our team is hurting, he knows he can look to either side of him and see his teammates right there with him."

This team, or "pack" approach to running is a mainstay at Notre Dame, and according to freshman sensation Matt Althoff, it may be what gives the team that extra edge. Althoff, who was the top Irish finisher at the Georgetown meet, supported his teammate's comments and added an illustration of his own.

"I believe what has made this team successful has been our running as a group," said the soft-spoken freshman from Yankton, South Dakota. "It gives us a psychological boost. If you're thinking right upstairs, then you forget about the physical burden downstairs."

The Irish hope to be thinking right today. One thing they must think of, according to Piane, is the LaSalle team. "In order to win this race, we need to keep LaSalle in sight at all times," said Piane. "We can't assume that just because we won this meet last year, we will win it again."

Men continued from page 24

honors. Defensively, goalie Scott Coufal added two more shutouts to his already impressive statistic list. The red-shirted freshman now has 3.5 shutouts on the season and a .35 goals against average.

"We're playing as well as we have for some time," said Hoosier head coach Jerry Yeagley, who is now in his 21st year at Indiana. "Our team is looking good, but what we need to avoid is a letdown."

These two teams did battle earlier this season in the fifth annual Golden Boot Classic, a final preseason tune-up in which both sides experimented with several line combinations. Indiana won the match 3-2 with all five goals scored in the first half. "This is a crucial game for Notre Dame," continued Yeagley. "This is a chance for them to gain national exposure."

The Irish have a 1-12-1 series record against the Hoosiers, with their last victory coming in 1987 by the score of 4-3. Last season, Indiana downed Notre Dame 3-0.

"Our team will play hard and be competitive," said Berticelli. "We have to match up and play at both ends of the field."

The Irish will have to defend against a fast and well-balanced Hoosier scoring attack, led by forward Harry Weiss, who has four goals on the season, and All-American Todd Yeagley, who has recorded three assists in a defensive roll.

Notre Dame will look to junior Tim Gates and sophomore Bill Lanza for offensive production against a stifling Indiana defensive scheme. "We're always ready to play Indiana, as they're always ready to play us," continued Berticelli. "They never look at our game lightly."

Juniors

Sign up now for the 3 on 3 Basketball Classic. The tournament, with male, female, and co-ed teams, will begin on October 3 through October 10. Each team must have a minimum of two Juniors and the $2 entrance fee will go towards prizes. A team captain can sign-up in Room 213 of LaFortune from 3:00-5:00 until Tuesday, September 28.

Juniors

The class mass and cookout will be this Sunday, September 26. Mass will begin at 4:30 at the Grotto, followed by a B-B-Q in front of Stonehenge with music by XYZ Affair.

(In case of rain, mass will be in Sacred Heart Crypt. B-B-Q will be postponed.)
Magic numbers shrinking in American League

Associated Press

TORONTO

Roberto Alomar drove in three runs with a homer and two-run triple and Dave Stewart allowed three hits over seven innings Thursday night as the Toronto Blue Jays clinched closer to their third consecutive AL East title with a 5-1 victory over the Boston Red Sox.

The Blue Jays have won 10 of 11 and hold a 5 1/2-game lead over the second-place New York Yankees and six games over the Baltimore Orioles, both of whom were idle. It also reduced the Blue Jays' magic number to clinch the division to five.

Stewart (11-8), who held the Red Sox hitless until Scott Cooper singled to lead off the fifth, allowed one run, struck out eight and walked one in eight innings.

The Blue Jays are 3 1/2 games ahead of the New York Yankees in the AL East title with a 5-1 victory over the Boston Red Sox.

At least 235 wins, including 112 by Alomar and 102 by Dave Stewart, have the Blue Jays closer to their third consecutive AL East title.

John Olerud homered to center in the second inning, and Dave Stewart allowed one run and three hits — three of them homers — over six innings in his third major league start. He struck out three and walked three.

In the first, Alomar, who has career highs in home runs and RBIs this season, hit his 17th homer into the second deck in right for his 86th RBI.

The Blue Jays have won 10 of 11 and hold a 5 1/2-game lead over the second-place New York Yankees and six games over the Baltimore Orioles, both of whom were idle. It also reduced the Blue Jays' magic number to clinch the division to five.

Ozzie Guillen and the Chicago White Sox reduced their magic number to five with a 7-1 win over California Thursday.

**OUR LADY OF THE MEDJUGORJE**

August 25, 1993, Message from Our Lady, the Queen of Peace

"Dear Children! I want you to understand that I am your Mother, that I want to help you and call you to prayer. Only by prayer can you understand and accept my messages and practice them in your life. Read Sacred Scripture, live it, and pray to understand the signs of the time. This is a special time. Therefore, I am with you to draw you close to my heart and the Heart of my Son, Jesus. Dear little children, I want you to be children of the light and not of the darkness. Therefore, live what I am telling you. Thank you for having responded to my call."

The Braves and Giants continue NL West battle
Both teams look like champions in decisive wins

Associated Press

Montreal

Greg Maddux won his seventh straight decision and lowered his major league-leading ERA to 2.42 as Atlanta won for the 16th time in 20 games.

The Braves, who reduced their magic number for a third straight NL West title to eight, held their 2 1/2-game lead over San Francisco in the NL West.

Montreal fell six games behind idle Philadelphia in the East.

Maddux (19-9) allowed two runs, one earned, on six hits in eight innings.

Damon Berryhill and Mark Lemke drove in a run apiece for Atlanta, which beat Montreal 6-3.

Both teams look like champions in decisive wins as they met for the third time in four games in both leagues.

Montreal's Larry Walker. Justice tied for the first time in 20 this season joining Jack McDowell of the Chicago White Sox and Atlanta's Tom Glavine. The last San Francisco pitcher to win 20 games was Mike Krukow who was 20-9 in 1986.

Drake Dreyer (9-17) pitched 1 1-3 innings, allowing nine hits and five runs.

Bonds drove in his first run in the fourth when his RBI double made it 1-0. His RBI double in the sixth made it 3-0 and he then scored on a single by Kirt Manwaring.

Bonds' theory is that the San Francisco Giants just had to get away from home to revive their NL West title hopes.

Dave Justice's three-run home run helped lift Atlanta over Montreal, keeping the Braves' NL West lead at 2 1/2 games.

"We're a lot more relaxed on the road than at home. Sometimes playing at home can be a distraction. When you get on the road all you have to worry about is playing," Bonds said Thursday night after the Giants beat the Astros 7-0 to give them a 6-1 record on the road trip and keep them 2 1/2 games behind first-place Atlanta, which beat Montreal 6-3.

The Giants had lost eight straight at home before going on the road.

"We're getting back to the same frame of mind we were in when we were winning consistently. We just got in a slide and unfortunately it happened at the wrong time," said Bonds.

The Observer • NATIONAL LEAGUE WEST
Friday, September 24, 1993
this season. It is a very athletic team which boasts a defense that can seem impenetrable at times. "They're very talented," said Notre Dame head coach Chris Petrucelli. "I think they're one of the best teams in the country.

"I think North Carolina State is better than it's ranked," said Guerrero. "But it doesn't matter what you're ranked, it's how you play in games."

Last year the Irish met the Wolfpack at Raleigh in their season opener. With all three captains out due to injuries, the team started five freshmen, four sophomores and two juniors. Even with the inexperience the 18th-ranked Irish were still tied 3-3 with the fifth-ranked Wolfpack with under twenty minutes left in the game.

Tonight the Irish will be much better prepared for their bout with the Wolfpack. "It's not going to be easy," said Guererro. "Of all the games we've played, this will be the toughest." The battle of the potent Notre Dame offense and the stellar N. C. State defense could be the deciding factor in the game.

"We're going to try to move the ball as quickly as we can," Petrucelli said. "If we can keep the ball away from them we should be successful."

The Irish will wrap up their weekend on Sunday against a talented Southern Methodist University team. The Mustangs were ranked in the top 20 in the ISAA pre-season poll but have since fallen out of the rankings. They are led by senior forward Kara Lee, who scored 36 goals and added 13 assists last season. "It doesn't matter what they're ranked right now," said Petrucelli. "They're definitely a top 20 team."

The Mustangs, who were then ranked sixth, knocked off the Irish 3-1 last season at SMU's Ownby Stadium in what Petrucelli called the "worst beating we had all year." It was Notre Dame's first time ever playing on turf, and the adjustment proved to be a serious disadvantage. Michelle McCarthy scored for the Irish with Guerrero assisting. "I think if we just play the way we've been playing then we should be okay," McCarthy said. "If we go out with the same attitude that we've been playing with then we'll be fine."

"They're two tough teams," said Petrucelli. "It's going to be a lot harder than last weekend."

Junior defender Jill Matesic, who has been listed as game-to-game for the past two weeks, may now be out for the season. After undergoing tests this week it was discovered that she has a stress fracture in her left leg. Ragen Coyne, who has started every game in the last two seasons for the Irish, is listed as questionable for the weekend with a pulled hamstring.

Freshman Class Council Elections

Do YOU want to serve as the representative from your dorm on the Freshman Class Council?

1. Pick up a petition from your hall Judicial Board Commissioner on WEDNESDAY, SEPTEMBER 22.

2. Have at least 10 signatures on the petition, and return it to your J-Board Commissioner by 12:00 noon on SUNDAY, SEPTEMBER 26.

3. Campaigning begins at 12:00 a.m. on MONDAY, SEPTEMBER 27, and ends at 11:59 p.m., giving you all day Monday and Tuesday.

4. No more than $20 may be spent on campaign materials by each candidate.

5. ELECTIONS ARE TO BE HELD IN EACH HALL ON WEDNESDAY, SEPTEMBER 29.
Offensive fireworks open women's inter-hall season

P.W. pounds Knott, P.E. and Lewis also win in Blue League

By CRISTINA CORONADO
Sports Writer

The women's inter-hall football teams were upset once again for another tough season of flag football. The teams piled up on Cartier Field Wednesday to kick off the season.

The game remained tied at 0-0 for the entire first half and was a good experience," said Junior Lisa Bonjovi. "Defensive player Lisa Bonjovi had the only Knott interception. "We're learning a lot as well." Despite the loss, the Knott team's defense performed well and has hopes of improvement.

Jenny Tate. along with AnMarie Quest were scored as Bethany Riddle players on defense. The Badin passing game was not a match for the high-spirited, no match for the high-spirited, high-scoring Badin team. Badin scored its first touchdown in less than a minute, and was clear that Badin remained optimistic. "I think we have a lot of talent," noted sophomore Trish Sorensen. "But I think we need to work hard to pull together as a team."

BRENN-PHILLIPS 37
LYONS 35
In the final game, Lyons met North Quad foe Brenn-Philips. The game was quite an offensive exhibition, with each team trading touchdowns on each possession. Yet Lyons held a slight edge at the half, 20-18. First half highlights included two touchdown runs by B.P. senior Michele Hurst, and an amazing reverse by Lyons senior Melissa Cook.

In the second half the back-and-forth scoring continued. Neither defense could hold the other team back. With two minutes left in the game, B.P. scored the final touchdown, putting them in the lead, 37-35. Lyons then drove down to the B.P. five-yard line. Luckily for the tired B.P. defense, the clock ran out on Lyons. Even after losing the close contest, Lyons captain Wendy Lofts felt confident in her team's ability to come back. "It was a great offensive game, and we know what we need to work on," said the senior running back, who had two touchdowns of her own. "We'll be back."
Volleyball to face big tasks at Invitational

By TIMOTHY SEYMOUR
Sports Writer

Following a rough week of practice that saw at least one team member out each day due to sickness, the 14th ranked Notre Dame volleyball team looks to regroup against a difficult slate of opponents at this weekend’s Golden Dome Invitational.

Following last weekend’s sweep of the Shamrock Invitational, the Irish hope to continue their winning ways against ranked teams, and will face an arduous task in third-ranked Nebraska, coming in at 9-0. However, the Irish cannot look past their first two matches, as both Santa Clara (South West Missouri) State are dangerous squads.

The Broncos of Santa Clara, who face the Irish Friday night at 7:30, enter the tournament with a deceiving 5-4 record, having lost close matches against top ten teams, including a 5-game decision to perennial power USC. Santa Clara returns five starters from last year’s NCAA tournament team.

“They have some very dominant players,” noted Irish head coach Debbie Brown. Lisa Young is comparable to our own Nicole Coates, an undersized but very dynamic and athletic player. Outside hitter Holly Radd is a good player.” Young leads the team with 111 kills, followed closely by Racine’s 103.

Next up for Notre Dame will be the South West Missouri State. State, off to an impressive 9-1 start. Following on the heels of last year’s third place finish in the NIVC, the Bears are led by hitters Tina Nookle and Amy Russell, who average 3.5 and 3.2 kills per game respectively.

Missouri is also dangerous against ranked opponents, owning a win over No. 21 Florida State this year.

The featured match for Notre Dame will be Saturday night’s 7:30 finale against No. 3 Nebraska, as the Irish try to keep alive their success against ranked opponents, hoping for an upset that would rank as the program’s most impressive win.

However, achieving this victory will not be easy. “The first thing spectators will notice is how big their team is,” commented a concerned Brown. “Their strength is blocking and playing at the net, so we have to pass very well and play good defense to keep them off-balance.”

The Huskers enter with a streak of four wins against ranked opponents this season, and are led by sophomore hitter Allison Weston (400 hitting percentage and 4.1 kills per game) and senior setter and All-America candidate Nikki Stricker, who has amassed 2,664 assists over her career.

As for the Irish, the recent illness that has swept through the team will lead to some strategic changes this weekend.

“We have to be smart with our substitutions, because I don’t think our starters will be physically strong enough to play three full matches,” noted Brown. “Fatigue will be a factor because of the sickness.”

However, Notre Dame will be in a good position to use a line-up of ten or more players. With a high per game average, missing time this week, we’ve been able to work with some players who might not normally have gotten the attention, so they’ll be ready to step in and help out.”

Against such a powerful field, the Irish will need great performances from every player in order to repeat last weekend’s sweep.

WE’D BE SCARED TOO!

Women favored in National Catholics
By JONATHAN JENSEN
Women’s Sports Editor

The Notre Dame women’s cross-country team will be looking to dominate the field at today’s National Catholic Invitational, where the Irish are looked upon as the clear favorite.

As opposed to the Irish’s second-place finish in a meet at Georgetown two weeks ago, the Irish are figured to take charge of the field today. The Irish’s main competition will be LaSalle and Marquette.

“This meet will be a good chance to get some practice in running as a team,” said Junior Kristin Matusick, "but we plan to come out and take control from the beginning.”

Since there isn’t any really super strong teams in this meet,” said Irish freshman Emily Houd, “it will be good training with runners other than ourselves.

Due to the lack of top-notch competition, the Irish expect to have a good majority of their runners in the head of the pack.”

One ultimate goal is to get all seven runners in the top 10. “And I think that’s a pretty realistic goal,” added junior Sarah Riley. “It’s also a good chance for us to work together in a race, since we haven’t really raced against Georgetown.”

That experience will really help us in future meets, so that’s our basic objective.

The Irish will need this experience in next week’s Notre Dame Invitational, which will feature some of the nation’s top cross-country teams.

Other top performers for the Irish will be senior captain Laura Guyer; juniors Emily Husted and Maureen Kury, and sophomore Kristin Dudas.

The Irish will also be competing on the return of junior Becky Aliferi and sophomore Amy Siegel. Aliferi is working on rehabilitation after having surgery performed on both knees this summer, while Siegel was in a car accident.
Saint Mary's soccer withstands late Wheaton rally

By LAURA NOWICKI
Sport Writer

The Saint Mary's soccer team outlasted the ninth ranked Wheaton College Crusaders yesterday to capture a 4-3 victory at home.

The Belles played a strong first half, pulling ahead by a score of 3-0. The first goal was attained six minutes into the first half by unassisted senior Jenny Kaplan.

Jenny Ferry and Tiffany Raczynski also each contributed a goal in the first half to aid the Belles cause. Ferry and Raczynski were assisted by senior Mandy Eiler and senior co-captain Megan Dalsasso.

VanMeter, who was disappointed with the Belles overall performance commented that "the first half we capitalized on every opportunity. "The first half was good," said senior co-captain Molly O'Connell. "We started out well."

"I was extremely pleased with the first half," said Saint Mary's coach Tom Van Meter. "I liked our execution and defense".

A determined Wheaton team invaded a suddenly sluggish Belles team with two goals in the second half.

"Wheaton came at us. We just stood around and watched them," VanMeter said. "In the second half we went 180 degrees in the other direction."

Late in the second half, the Belles answered the Wheaton rally with a goal scored by Senior Megan Dalsasso and assisted by Eiler. Wheaton then scored the final goal of the game to make the score 4-3.

Coach VanMeter, who was disappointed with the Belles second half performance said, "We have to learn to play two halves together".

On a positive note, VanMeter added that he felt "Ann Kuehne did a nice job. She had two great saves in the second half."

"Jenny Kaplan had an outstanding game. She kept going to the ball and held her composure under pressure," VanMeter added.

The Belles will take on John Carroll University on their home field tomorrow at 1 p.m.

Ex-Alabama player ignites NCAA probe

Associated Press

TUSCALOOSA
The NCAA has informed the University of Alabama that it will conduct an inquiry into allegations that Gene Jelks received illegal benefits to play football for the Crimson Tide.

In a letter received Thursday by university president E. Roger Sayers, the NCAA said it would launch an inquiry into the school's football program.

David Berst, assistant executive director for enforcement, wrote that his staff has been reviewing information "regarding possible violations of NCAA legislation that were alleged in a series of newspaper articles in November 1992" about Jelks' charges that he was paid to play for Alabama.

"Based upon the available information, the enforcement staff believes that a formal review of this information is warranted," Berst said.

"Given the allegations made by Gene Jelks and the attention they have received, it is not surprising that the NCAA has responded with a preliminary inquiry," Sayers said in a statement. "We have full confidence in the NCAA process, and obviously we have, and will, cooperate fully, as we advised the NCAA by letter today."

Nation's best to test Notre Dame soccer teams

Men hope to handle Hoosiers

By MIKE NORBUT
Sports Writer

The stakes are high and the competition promises to be fierce as Notre Dame plays host to the seventh annual Tom Fallon Invitational at the Courtney Tennis Center this weekend.

Some of the premier collegiate tennis talent in the country will be battling it out here at Notre Dame in one of the nation's top individual tournaments.

"We are really excited about the strength and diversity of this year's field," stated Irish head coach Bob Bayliss. "This has become one of the outstanding fall events in the country."

Bringing their hopes and dreams of taking home the title are 20 college teams from nearly every major conference in the country. An early Irish favorite is fifth-year senior Andy Zurcher, who is ranked 19th nationally and is playing in his first competitive match since breaking his wrist last Christmas.

"Andy is still a bit rusty. This is his first competition since last November," noted Bayliss. "But it is great to see him out there each day now. His leadership will be an invaluable asset to the team."

Notre Dame's Ryan Simme, the highest-ranked freshman in the country at No. 38, hopes to make his mark in his first collegiate competition.

"I am both nervous and excited about playing in my first tournament," said Simme, a native of Spring, Texas. "Yet even though I feel I have something to prove being ranked as high as I am, I'm not as concerned about the results as I am with playing my best."

Other pre-tournament favorites include 50th-ranked Mashikho Washington, brother of professional star Mali Vai Washington, and No. 37 Dan Brakus, who are respectively defending the B and A flights of the tournament.

The rest of this year's Irish team participating this weekend are seniors Tad Eckert, Eoin Beirne, Allan Lopez, Todd Brakus, who are respectively defending the B and A flights of the tournament.

McWilliams returns to spark Irish runners

By DYLAN BARMMER
Sports Writer

The Notre Dame men's cross country team looks to rebound from their opening loss to Georgetown as they host the National Catholic Invitational at 6:00 this afternoon at the Burke Memorial Golf Course.

Mike McWilliams

The Irish will play host to 21 other Catholic colleges and universities at the Invitational, and are looking to garner a first-place finish for the second year in a row and for the fifth time in the last six years.

The talented Irish team will receive an emotional and physical boost from the return of senior captain and All-American Mike McWilliams, who was unable to finish the race against Georgetown due to flu symptoms which had plagued him all week. Now McWilliams is ready to run again, and the Irish will need his leadership, as well as a strong team effort, in order to prevail over the rest of the talented field.

DePaul, Holy Cross, Duquesne, La Salle, Marquette and Canisius are just a few of the talented teams who will line up against the Irish this afternoon.

According to head coach Joe Plane, the Irish's main competition will come from LaSalle, who fields a team comprised of six returners and a group of top recruits. Canisius, a lesser-known team from New York, is also aroused concern from Plane.

Despite this concern, both Plane and his team appear to be looking for nothing less than a win. The team has run well in practice, and is ready to rebound from their opening loss.

Wolfpack worries women

By BRYAN CONOLLY
Assistant Sports Editor

The Notre Dame women's soccer team will put its eleven game winning streak on the line this evening at Alumni Stadium against the sixth-ranked Wolfpack of North Carolina State.

Rosella Guerrero scored a hat trick in last season's match-up as the Irish fell to the Wolfpack, 4-3.

After last week's 1-0 victory over then fifth-ranked William & Mary, the Irish climbed four spots in the latest Soccer Association of America national rankings to the number three spot. This marked the highest ranking in the history of the program and thrust the Irish into national prominence.

Proving that it deserves the ranking will be no easy task for the squad. In addition to the Wolfpack the Irish also face off this season with number one North Carolina, ninth ranked Duke and 13th-ranked Stanford.

For now, though, the team is just taking it one game at a time. N. C. State is likely the best team to face the Irish so far.
