Cunningham speaks on the unity of the Church

By MARIA CULCAS

Although it is important for students to participate in maintaining their traditions, an essential aspect of today's Catholic Church is its unity, according to Professor Lawrence Cunningham, chair of the Notre Dame theology department.

To successfully maintain traditions while maintaining links with the church, there must be efforts to maintain commonality in every Catholic community, Cunningham said.

These efforts include the profession of faith, sacramental life and common ministry under a bishop, Cunningham said. Each bishop must maintain communion with all other bishops, including the bishop of Rome, the Pope.

Only through this communion can unity be achieved, according to Cunningham.

Historically, there has always been tension between local churches and the "Greater Church" in Rome, he said. It is difficult to maintain a balance between the autonomy of local churches and the central authority in Rome, because the Catholic Church is both universal and rooted in local customs, said Cunningham.

An independent American Catholic Church is "theological preposterous," according to Cunningham, and the term "American Catholic" itself is an "oxymoron" because the Catholic Church is a universal Church.

The aim of the papacy is to "speak as one voice, the voice of the Gospel," he said. "I don't know that we have that many conflicts between the American Catholic Church and the Vatican," Cunningham said, "but rather a series of tensions. In many ways, the American Catholics are in a special situation in our relationship with the Vatican."

There have always been tensions between the "Great Church" and local churches, Cunningham said.

These so-called conflicts are usually press-generated," he said.

The Catholic Church in America has many strengths, for example, the great number of people participating and working for the Church, said Cunningham.

However, he added that one major weakness is that Church leaders "may have not looked around to see the changes taking place in the community!" like the growing number of Spanish-speaking Catholics in America.

Cunningham also addressed the problem of "cafeteria" adherence to the Church's teachings: "We're dealing with a growing number of people who are not really Catholics," he said. "They're not trying to follow the rules!"

GSU supports university Women's Resource Center

By NANCY DUNN

The Graduate Student Union (GSU) issued a statement of continuing support for a University funded Women's Resource Center at last night's meeting.

While no new business was introduced, members used this meeting as an opportunity to confirm presidential appointments, verify the budget, and review the reports of the various committees.

William Christiansen's appointment to the position of secretary was confirmed by the committee as was the appointment of Daniel Saftler to the position of treasurer.

Linda Chalk was appointed and confirmed as head of the Women's Resource Committee which was the center of much discussion at the meeting. Faced with a lack of funding, the members of the committee find their ability to function restructured. "We would like to support such programs, but we cannot," Linda Chalk said.

Joe Mansak was also appointed and confirmed as head of the Intellectual Life Committee which will be making funds available to the Gender Studies Program for a proposed lecture series.

Additional funding for the Gender studies program will be provided by the GSU general fund or the Women's Resource Committee pending funding from Student Activities.

In other business, the GSU decided to help fund a recent dance sponsored by the African Student Association. The amount of the allocation was reduced from the requested $450 dollars to $200, because the organization said it was sponsored by GSU, but did not file a request until after the event occurred.

"To say they are receiving funds, before they were, is irresponsible and GSU would be setting a "poor precedent" by approving their request," said Medieval Institute Representative Mark Holtz.

Also, GSU agreed that the social committee will allocate up to 500 dollars for a Hispanic American dance if it is so chosen pending the receipt of more information.

After approving the funding of several events, several members voced their concern over the amount of money being spent by the organization. GSU is currently "depleting its budget at an astronomical rate" and representatives should plan for the future, said President Rita Francis.

The Travel Grant Committee announced that checks should be in the GSU office today. They are also looking for a rep...
Notre Dame ain’t no Drive-thru U

It is 3:00 a.m. on a Friday night and we are returning from an evening in Chicago. We're tired, it's late, and we have class in five hours. The people in my car are Live Lyons, Howard, Welch, and Falice. We approach the security gate with the intentions of dropping the window down and heading to D2.

How could we have been so naive! Those roads aren’t for students to drive on! It’s a closed campus, I’m assured. They are trying to cut down on traffic. Why is the only heavy traffic there is on campus at 3:00 a.m. on a Friday night? I ask you, since we walked the whole thing—none.

Now the intentions of those cars are not so bad, because having a campus accessible a ped is wonderful, especially compared to larger schools that are more unapproachable than grass. But obviously we’re not going to park on campus because... isn’t anyone there?

Fine, I thought. I’ll adhere to the pointed finger and get out through Stepan to D2. A cordial “sorry” from the officer has softened the blow, but he was busy talking to the patrolman sitting in the booth with him. I’m glad they secured the gatehouse.

What bothers me the most is when we reach the parking lot to D2, there were two rather suspicious men wandering around. Isn’t that a better place for the off-duty police officer to be?
The next day, I figure I’ll try again. Some destination, except it’s 4:00 p.m. A different guard. I stay at the same slot, lope finger pointing to D2.

“Stepan.”

“Are you a student here?” the guard demands.

“Give me your ID.”

“Why are you asking me a question. Why can those ten cars who just passed through here drive on campus and I cannot,” I inquired. “I’m asking you a question.”

This is a University community with around 10,000 people. So why is it that students are the last to be able to drive on campus? And if they do let us on because there is a woman in labor in the back seat, they still ask if we have any alcohol in the car?

Actually, I found out that getting on campus in a car the approach must be tuned.

The other night we figured we would try our luck again. The guard happened to be napping the blow, but he was busy talking to the patrolman sitting in the booth with him. I’m glad they secured the gatehouse.

College of Engineering wants to teach ethics

By NICK RIOS
News Writer

The teaching of ethics by engineering professors can help produce more ethically conscious engineers in the work force, according to Jerry Marley, associate dean of the College of Engineering.

"We should start concerning ourselves with figuring out a way of being careful of what we put into the pipeline; that way we won't have to be concerned with what goes out," said Marley, the first guest speaker in a three-part series called Campus Conversations.

Each person shares responsibility for three different levels of ethics, according to Marley.

"I think the first level of ethics is that of an individual per se, independent of whether they are professionals or not," Marley said. "A person should have some set of ethics that they must uphold at all times."

The other two levels are the ethical obligation to the employee or those who benefit from the final product and social ethics, Marley said.

"Socially the engineer must concern himself with the well being of the people and of society," he said. "For example, say there is a very cheap way of producing a product, but by doing it, it results in harm to society. It is the responsibility of the engineer to be sufficiently ethical not to choose that alternative of production."

Among some of the students that attended the conference were Matt Loesch, junior civil engineer, and Chris Falkner, junior mechanical engineer.

Both asked questions regarding ethics in technological engineering, environmental issues and practical everyday problems confronted on the job by engineering.

Falkner expressed concern about how the engineers could help make decisions that could further destruct the environment. Loesch, on the other hand, asked whether all engineers are required to have a license by the state, according to Marley.

"The engineer therefore needs not to hold a license to practice," he said. "Although there are laws, they are hard to enforce, according to the laws.

In America we hide old people in nursing homes and protected apartments. American culture is permeated with a corrosive fear of death. Undergraduates avoid the onrush of old age and the lurking specter of a constantly grim reaper. It makes sense. Who wants to be a victim of someone else's fear? Who wants to be a part of a marginalized who are never seen in Boulder? Our culture is full of fear and invites us all to hide from truth.

But Christians must love truth - the truth of death and the truth of handicapped, the truth of poverty and the truth of weakness. That's who we are. Boulder uses zoning laws and black balloons use dark humor, but we cannot be kept from the embrace of our own lives.

Scripture Readings For This Coming Sunday

1st Reading Isaiah 25: 6-10
2nd Reading Philippians 4: 12-14, 19-20
Gospel Matthew 22: 1-14
Catholicism, where Catholics often pick and choose those Church teachings that they wish to believe.

This is not a major problem because throughout history this "picking and choosing" has taken place, according to Cunningham. Most Catholics try to live within the Church and follow its teachings to the best of their abilities.

His worry, however, is that people no longer have a "common store of knowledge" about the Church and that they may not pass down the values that they were taught to the next generation, he said.

"The likelihood of major changes taking place in the Church, including the possibility of married clergy is unclear, according to Cunningham.

"Changes will not come from the top, but from the bottom," he said.

Some changes may have already taken place in the types of religious communities, he said. For example, many lay men and women are already conducting liturgies in areas where there are no priests.

However, Cunningham said, that most people simply have not realized that these changes are taking place right now.

September 25, 1993, Message from Our Lady, the Queen of Peace

Dear Children! I am your Mother and I invite you to come closer to God through prayer, because only He is your peace, your Saviour. Therefore, little children, do not seek comfort in material things; rather, seek God. I am praying for you and I intercede before God for each individual. I am looking for your prayers, that you accept me and accept my messages as in the first days of the apparitions. And only then, when you open your hearts and pray, will miracles happen. Thank you for having responded to my call.

Fugitive of 1980s IMC scandal arrested in Spain

By RICHARD COLE

A fugitive at the center of a billion-dollar scandal with links to Republican presidents and Democratic politicians was arrested in Spain on Wednesday, six years after fleeing the United States.

Miguel Recarey Jr., who ran international Medical Centers, fled while under indictment on fraud and wire-tapping charges. IMC, Florida's largest health maintenance organization, collected nearly $1 billion from taxpayers before collapsing in 1987. Recarey was arrested in Madrid, the FBI said. The Justice Department will work with authorities in Spain and other countries to recover funds.

As a student at Brandeis University during the Vietnam War era, Recarey was a member of the Black Liberation Army. A fugitive to Miami, Recarey was living near Caracas, Venezuela, and FBI agents complained publicly that the U.S. government was dragging its feet on extradition.

Starting in 1981, Recarey Rebellion on well-connected lobbyists and friends to build a small Miami clinic into the nation's largest Medicare-certified HMO. He paid millions for lobbying, consulting and legal help.

All the recipients have denied wrongdoing, saying the payments and their activities were perfectly legal. Among those receiving payments were President Reagan's former aides, Lyn Nofziger and John Sears, the lobbying firm of President Bush's campaign chairman, the late Lee Atwater, and Bush's son Jeb. Democrats also received money from Recarey, including the campaign of the late Rep. Claude Pepper, who even appeared in ads for IMC.

Police arrest four teens

TALLAHASSEE

Four teen-agers were arrested in the highway armed robbery of a British tourist, and a judge today warned authorities against releasing information that could violate the boys' rights.

Police said suspects were just two 17-year-olds accused in the armed robbery.

The gag order forced the Florida Department of Law Enforcement to cancel a Tuesday night news conference about the arrests in the highly charged case.

Valery Zorkin, Chairman of Russia's court, resigns

By ALAN COOPERMAN

The contentious chairman of Russia's Constitutional Court resigned Wednesday, ridding Boris Yeltsin of yet another thorn in his side.

Valery Zorkin had been under growing pressure to quit since Monday, when Yeltsin crushed parliamentary opponents and ended his 18-month struggle with those who resisted his reforms.

The court is Russia's highest tribunal for constitutional issues. Zorkin, a 50-year-old former law professor, had led the panel of 13 judges since its creation in late 1991.

Yeltsin could not legally fire the chief judge, but the president's chief of staff reportedly urged Zorkin to quit on Monday. It was unclear whether he would remain a judge, and the ITAR-Tass news agency reported Wednesday he was suffering from an undiagnosed illness.

Wednesday's events capped a week of turmoil. Zorkin urged Yeltsin to quit on Monday. The president's chief of staff reportedly pressured Zorkin to resign and the ITAR-Tass news agency said the justice chief had been hospitalized.

Examine parietals and the Cinderella Syndrome at ND

Dear Editor:

The well-meaning folks at student government have recently petitioned on-campus students to support a change in parietals. The original proposal requested that parietals be extended one hour on week nights and weekends, and that they be moved back from 11 a.m. to 8 a.m. in the morning. Support has been mixed on various points of the plan.

But what does a proposal of such lack-luster magnitude demonstrate? In part, it cries out, "We students are dissatisfied with the status quo and will accept any meager change you guys in the Dome give us!" The fact that student government feels it must negotiate with such a watered-down proposal suggests that the university policy is in any case far off the mark.

Parietal proponents such as Notre Dame students feel out of step with reality. This time honored tradition represents one clear symbol of "gender segregation" with respect to main female relations. We become walking anachronisms whose interaction with the opposite sex is curtailed for the sake of fostering some opaque notion of decency. One example should shed more light on my point.

Tell me if this sounds familiar. You and a friend of the opposite sex are studying one room. You have read, analyzed, and reviewed the material for an upcoming exam. Suddenly, it is a matter of trust.

You further think to yourself, "How stupid that I can't eat 'Huddle,' an environment clearly conducive. How do we reconcile the abolition of parietals, which some would argue to be an accurate representation of the most plausible place for late-night study options with a member of the opposite sex. Nevertheless, it is a confoundingly simple situation common to many of us, one that should not happen.

Primary culpability for these occasions rests not with the Huddle for not being conducive to study. Nor with the library which neither stays open twenty-four hours nor does it permit food and drink in its hallways. In fact, all this running around and diversion from studying could have been eliminated entirely if parietals did not exist.

I am not saying that quiet hours, which parietals ostensibly help secure, should be sacrificed. Quite the contrary, in advocating the abolition of parietals, we could allow for students to study quietly — with members of the opposite sex. Basically, it is a matter of trust.

So why does the administration insist that parietals are for our own good? If parietals were not and profoundly good, then there would be no reason to exclude student opinion from even contributing to the revision of this "good" policy. Let's stop kidding ourselves.

The administration believes that, in the absence of parietals, students would be more likely to engage in sexual misconduct, which at Notre Dame, is any form of sexual conduct.

If students are so bent on having sex, then they will engage in it at other times of the day. Certainly not just during a time of the day when big Brother most suspects it. The stroke of midnight may mean that Cinderella must come home, but it does not mean that students will suddenly be prone to playing around. At least not any more than during daylight.

Parietals penalize those of us who want merely to study or share time with someone of the opposite sex during a less active time of the day. Many of us are occupied with class work and daily errands until well after dinner, and the late evening and early morning are the best opportunity to study or spend time with someone.

I am not asking that quiet hours be done away with — but that people of the opposite sex can spend some quiet time together within the confines of their dorm rooms whenever they want. Is that too much to ask?

Evidently the administration thinks so. They argue that members of the opposite sex gather together after hours "not a good thing for peace and quiet in the dorms or in or out.

Thinking presumes that we ourselves would not enforce quiet time if we wanted it. That thinking also implies that we cannot conduct ourselves responsibly from midnight onward.

I don't know if the folk at student government are taking effective steps to remedy parietals or even moving toward doing away with them. But ask yourself if the present situation makes sense. It seems as if we are being made Cinderellas, every one of us.

**RUDY is here**

Premiere benefits both the South Bend community and movie's cast members

By KENYA JOHNSON

White beams lighting up the sky, police escorts, long white limos and movie stars — the scene is not one with which South Bend is very familiar. But no one would have known that last night, as TriStar Pictures' "Rudy" premiered at the Morris Civic Auditorium, thousands of people milled around downtown South Bend, chatting and chatting with celebrities such as Sean Astin and Ned Beatty, as if it were just another day.

Although not the most popular place for a movie premiere, the South Bend community received much praise from the "Rudy" cast. "It's not like a Los Angeles premiere, but I like that," said cast member Neil Batty. "It's a nice change. I actually think it's worse to see premieres with a huge crowd from the industry." South Bend, and Notre Dame in particular, were thanked time and time again throughout the evening.

"This town gave me everything," said Rudy Ruettiger. "It gave me a chance to finally prove myself and make something of myself. Now it's my chance to give back and celebrate." Not only was South Bend honored with this soon-to-be historical celebration, but the needy members of the South Bend community benefited as well. But the members of the South Bend and Notre Dame communities were not the only ones benefiting. The cast members enjoyed themselves too — not only at the premiere celebration, but with the movie project as well. "I'm really excited to be here and to be a part of all this," said Astin. Other cast members shared his sentiments. "I loved this part when I first read it," said Robert Prosky, who played Father Cavanaugh. "I had a good time with the entire project."

Prosky laughed as he remembered one scene in which he walks through Sacred Heart Church with Father Theodore Hesburgh. "I seemed to fit right in, like the part was made for me," he said.

Beatty also felt that he was ideal for his role. "I didn't study the relationship between Rudy and his father very much, but I think that worked best," he said. "I needed to develop my own relationship with Astin as Rudy and feel, for myself, how Rudy's father would feel or act in certain situations."

Beatty said it was "delightful" to work with Astin and that there is indeed a real father-son bond. Probably most pleased with the evening was Ruettiger. "I've watched the movie 23 times and it's still strange to see," said Ruettiger. "It's really a powerful, emotional story. The last scene gets me each time."

Ruettiger insisted that the movie was not about football, but about "life, hopes, desires and dreams."

"I was ignored by a lot of people because I was a dreamer," he said. "But I wouldn't be standing here at this premiere today if it wasn't for the help and persistence of others that so much drive and recognized for what it was worth. They believed in me."

And that's what it's all about according to Astin — believing in oneself.

"This is not a movie about football, or about Notre Dame," said Astin. "It's an inspirational story about how one young man fought against all the odds to accomplish his dream. It's a message everyone needs to hear, because we all doubt ourselves at one time or another."

Astin said that Rudy was a "fighter, not a quitter."

"He didn't let anything stand in the way of what he wanted to do," said Astin. And so it goes: "When some­ one tells you that dreams don't come true, think of Rudy."

The local premiere was partly sponsored by the Amernet Chamber Music Society in 1974, its purpose is to encourage emerging ensembles, both professional and amateur.

"Even so-called 'professional' ensembles often have trouble getting the exposure they need and that's what the Fischoff tries to do," said Jan Herral, executive director of the Fischoff Competition. "We try to give them more recognition and encouragement."

The international competition is open to musicians of all ages and has two different divisions, seniors and juniors. Within the seniors' division there are two categories, the wind ensembles and the string ensembles. From these, the panel of judges chooses the Fischoff winner. The ensemble was the resident graduate quartet at the University of Cincinnati College-Conservatory of Music under the direction of Eminent Scholar, James Tocco.

The Friends of The Snite Museum of Art will present the Fischoff Winner's Tour Concert this Sunday at 2 p.m. in the Annenberg Auditorium.

This year the winners of the Fischoff Chamber Music Competition are the Amernet String Quartet, composed of Kyoko Kachwagi, violin, Macia Lidley de Arias, violin, Malcolm Johnston, viola, and Javier Arias-Hofer, cello.

This is the fourth consecutive year that the Notre Dame community will have the opportunity to hear a nationally recognized chamber music ensemble.

The Fischoff Competition was organized by Joseph Fischoff and the South Bend Chamber Music Society in 1974. Its purpose is to encourage emerging ensembles, both professional and amateur.

The quartet has consistently placed in the finals of many internationally renowned competitions including First Prize at the 1992 Tokyo International Chamber Music Competition in Japan.
Bands, comedy and hairdos featured at Sorin

By CHRIS LENKO
Access Writer

They’ve got bands and lip sync routines and songs. And, by the looks of it, they may have two bald presidents.

Sorin Hall will hold its popu- lar talent show this Friday, fifteen minutes after the end of the pep rally, in front of the university. Students, parents and fans can look forward to two hours of student entertainment designed to showcase the best of Sorin’s talent, according to Sorin co-presidents Deitz Lefort and Charlie Eppinger.

Lefort and Eppinger predicted that their contest will draw a significant number of people to the campus this Friday.

“Everyday people are calling or writing asking if they can join up,” said Lefort. “They think it’s a good idea and a good concept,” said Juliano.

The National Legion of Serv hopes to establish programs on campuses throughout the U.S. and aid students in the discernment of religious vocations within the context of the Catholic Church, with Notre Dame serving as the focal point of the legion. SERV strives to form groups of like-minded people who can join together and express themselves spiritually, regard- less of whether they choose to enter a vocation or not.

“Students on campus need to know that there are people who want to assist them in any way they can in discerning a religious vocation,” said Tony Popanz, president of SERV. “Males and females contribute equally to the mission.”

Popanz said he considers SERV a vital function in the church today because of the problems it is experiencing with attracting people to the vocations.

Juliano recently completed his first book titled Notre Dame Odyssey: A Journey Through Sports and Spirituality on the Notre Dame Campus. The pro- ceeds of the book, which is available in the bookstore, are entirely donated by Juliano to SERV for funding the pro- gram’s activities.

The National Legion of SERV’s events include a weekly mass for the vocations at Notre Dame, a weekly Rosary at the Grotto and a monthly Way of the Cross along St. Joseph’s Lake. Other activities sponsored by SERV are “Vocation Vigil,” a program which urges students to pray at least one hour per month for vocations, and “Operation Andrew,” a program which guides and helps students to select and support a member of their community who is pursu- ing a religious vocation.

Hesburgh highlighted

By TONY POPANZ
Access Writer

This evening, at 8 p.m., Students Encouraging Religious Vocations (SERV) will sponsor a talk by Fr. Theodore Hesburgh, C.S.C., in the Center for Social Concerns Auditorium. In recognition of his great dedication to the priesthood, marked by his 50-year golden jubilee as a Holy Cross priest, Hesburgh will speak on the meaning of religious vocation, and reflect how God’s call has touched his life.

Hesburgh was educated at Notre Dame and the Gregorian University in Rome, where he received a bachelor of philosophy degree in 1945. He returned to Notre Dame, where he was ordained a priest of the Congregation of the Holy Cross on Sacred Heart Church on June 24, 1943, by Bishop John F. Noll of Fort Wayne. Following his ordination, Hesburgh continued his study of theology at the Catholic University of America in Washington, D.C., receiving his doctorate (S.T.D.) in 1947. In the same year, he joined the Notre Dame faculty as a professor of theolo- gy, and served as chaplain to World War II veterans on campus. In 1948, Hesburgh was appointed the head of the Religion Department, and the fol- lowing year was appointed executive vice-president in the administration of Rev. John J. Cavanaugh, C.S.C.

In 1953, Hesburgh was appointed the fifteenth president of Notre Dame, and he continues to contribute to the spirituality and academic life of Our Lady’s university. He has held the longest tenure among presidents of American institutions of higher learning.

As the most accomplished and well-known president emeritus in higher education today, Hesburgh retains active both nationally and internationally as a coordinator of edu- cational programs. He has been called upon to speak in many countries.

For those who are interested in joining SERV, a meeting will be held tonight in the location at 7 p.m.
Men's golf finishes second in MCC
By ELAINE SIRMA

The Notre Dame men's golf team remained the bridesmaid of the Midwestern Collegiate Conference for the fourth consecutive year.
The Irish were again unable to overcome the Xavier Musketeers to win the Sherwin-Williams MCC Mark Golf Championship last Monday and Tuesday. The Irish started consistently by shooting a 931 for the three rounds, but were unable to overcome the dominant Musketeers, who had 3 golfers finish in the top five of the tournament.
The Irish attack was led by seniors Mike Chanev and captain Chris O'Connell who shot in the mid 730's for the three rounds. Freshman Brian Donaldson was a bright spot for the Irish finishing seventeenth with a 228. Donaldson was named MCC newcomer of the year.

The Musketeers were led by tournament medalist Brad Chinn, who shot a 225, runner-up Jim Zeller with a 224, and head coach Doug Senter, who was named MCC coach of the year.

Jordon
continued from page 16

Planked by his wife, Juanita, and Bulls owner Jerry Reinsdorf, Jordan looked relaxed and frequently flashed the smile that has charmed billboards and airwaves worldwide.

He still loves basketball and did not rule out a comeback, but he decided never to play for an NBA team other than the Bulls.

"I'm not making this 'never' issue. I'm saying I don't have the drive right now."

Five years down the line, if the urge comes back, if the Bulls will have me and (commissioner) David Stern lets me back in the league, I may come back. But that's a decision I don't have to make at this moment," he said.

Stern, who attended the news conference, said Jordan's departure "means that an era is closing, that certainly one of the greatest players to play the game is leaving."

Jordan's departure follows the retirement last year of NBA great Larry Bird and Magic Johnson, but Stern said the league is still strong.

Jordan's graceful athleticism seemed to defy gravity and generated lots of copycats, but no player could match "Air" Jordan's accomplishments.

Marten
continued from page 16
to knock him down off the court.

So, Jordan is off to search for new challenges. Whatever he decides to do, for him it will be more exciting than hanging around the NBA and waiting for someone to come along and steal all the glory and challenge his accomplishments.

Sports Briefs

A horseback riding day is planned for Sunday, October 11. A basic trail ride will take place Monday hour from 10:30 until 3:30. The fee is $15 per person, which includes transportation. Those interested should register in advance at the RecSports office by 5:00 pm on Thursday, October 7. The maximum number per ride is 10. For more information, call RecSports at 631-4100.

Attention skiers! There will be a meeting on 8:00 pm on Thursday, Oct. 7 in Room 127. Nenland Social Club will have all those interested in the Christmas ski trip to Breckenridge, CO or in signing up for the Ski Team tryouts.

Enter now at RecSports Office. Freshmen, sophomores, and seniors are all welcome. There are no special fees. Details will be on the bulletin board.

The annual Chili Cook-Off will be held on October 7 at 3:30 pm in the JACC auditorium.

Attention sailors! There will be a sailing club meeting tonight, 7 pm, at the boathouse. More information and dues will be collected at this time.

Siegfried drops P. E. in overtime to even record at 2-2

By SCOTT CLEMENTE

Siegfried drops P. E. in overtime to even record at 2-2

It was an exciting win. We are quite happy with how it turned out," Siegfried player Kelly Belfy said.

Siegfried hopes to carry their win into the position into the playoffs.

The game was scoreless until the first touchdown during their overtime drive. The game was scoreless for most of the game. The Siegfried team managed to create offense with key catches.

Kathleen Clarke was pulling passes out of the air," Luzio stated. Clarke had the only touchdown of the game. Quarterback Angie Luzio threw to Clarke in overtime, after Pasquerilla East didn't score on their first attempt in overtime.

The Lewis offense was explosive. Three touchdowns. Julie Fleck stepped up to play quarterback for the first time, today, because the original quarterback Mary Beth Failla was at the infamous 'Rudy' Premiere.

Fleck threw twenty yards passes to score the first touchdown. Both passes were received by Kim Gold, who played Julie Fleck's original position of tight end.

"Both Julie Fleck and Kim Gold played great and stepped up into the positions they were needed in," Lewis coach Nick Harmon stated.

The Lewis team scored a touchdown, after a pass from Fleck to Katie Coughlin. "The offense worked really well today," Fleck added.

Defensively, Lewis kept the game scoreless, which is their third shutout this season. The Lewis defense has had 6 points scored against them.

"Our defense has been great," Harmon said.

The Knott team is looking to improve their record to 0-4. "We're getting better," junior Beth Hanlon said. "We're not getting the plays the other team is getting. We just need a little luck.

The Lewis team scored again, after a pass from Fleck to Katie Coughlin. "The offense worked really well today," Fleck added.

Defensively, Lewis kept the game scoreless, which is their third shutout this season. The Lewis defense has had 6 points scored against them.

"Our defense has been great," Harmon said.

The Knott team is looking to improve their record to 0-4. "We're getting better," junior Beth Hanlon said. "We're not getting the plays the other team is getting. We just need a little luck.

The Farley team was also missing many of their offensive line because of the premiere. Despite the lack of some starting players, the Farley offense performed well.

St. Ed.'s hopes to continue early success against Alumni

By DOMINIC AMOROSA
Sports Writer

St. Ed.'s, after winning their first game in six years, is back in action this week against an Alumni team that lost last weekend. St. Ed.'s beat Sorin by recovering a blocked punt for a touchdown with 1:16 left in the game. Alumni failed to score a point in their 19-0 loss to Fisher.

"We played well," said Alumni coach Paul Zachlin, "We just couldn't put the ball in the endzone." St. Ed.'s is riding a high with a 1-0-1 record. Their offense is scoring almost the entire game last weekend against Sorin.

"Our offensive line just dominated the line of scrimmage," said Steds junior captain Greg Delaney. "We need to have to keep hitting hard and playing well."

Cavanaugh vs. Carroll

Cavanaugh resumes their scheme against a Carroll team that has a dominating defense and a suspect offense. Carroll coach Tom Meter said, "We've got to have to keep hitting hard and playing well." Cavanaugh had a scoreless tie against Zahm two weeks ago.

Belles' soccer prepares to face Calvin College

By MARY GOOD
Sports Writer

The Saint Mary's soccer team is looking for a challenge this afternoon as they take on Calvin College in Grand Rapids, MI.

After their victory over DePauw by a 1-0 score on Saturday, the Belles' spirits are high. They have a couple of days of rest and some good practices according to coach Tom Van Meter.

"We are anxious to get back and play," he said.

The team has suffered some injuries in recent weeks, but three key players recovering from knee injuries have been practicing for today's game. Seniors Patty Hand, Molly O'Connell, and Mandy Eller all suffered knee injuries earlier this year, and may be available to play depending upon their progress.

"Their status still remains day to day," Van Meter said. Today's matchup is going to be a difficult one for the Belles. Earlier in the season the Belles were defeated by Kalamazoo who subsequently suffered a loss to Calvin.

"This is a very important game," said sophomore Matt Jans.

Van Meter also feels it is a key match, but admits it won't be an easy one.

"I'm going to be a break either way," he said. "If the team executes the way it did against DePauw, I think we have a good chance."

Morrissey awaits struggling Grace

By G. R. NELSON
Sports Writer

The top match-up of week three in men's gold league inter­hall football pits No. 2 Carroll against No. 10 Flanner.

Morrissey is coming off an impressive 20-0 defeat of Grace, a game in which they played nearly flawless football. Morrissey's offensive line controlled the line of scrimmage, their backs ran well, and they committed no turnovers. Flanner also played very well last Sunday, tying then top-ranked Stanford. George Reider, Morrissey's captain, knows how tough Flanner will be, but he remains confident.

"I imagine it was a very tough game," said Reider. "But I think we have a chance against any body..."

St. Francis vs. Keenan

Zahm, coming off a win against Carroll, faces a Sorin team that has had two tough losses. Sorin lost to both St. Ed's and Fisher by a touchdown last weekend.

"Their status still remains uncertain," said coach Marty Ogren. "We didn't allow a long touchdown run to Flanner in their two contests."

Expect a low scoring game where both teams are ranked in a new position.

Grace battles Off-Campus in a game where both teams are expected to have a tough time. Grace battles for Morrissey and had a bye last week. They are ranked and ready to go.

Grace lost 20-0 to Morrissey last week and have been outscored 46-0 on the year.

During their victory over St. Ed's, the Belles' spirits are high. They have a good chance."

Aah, excuse me, may I be a Domer?

20 years later: Here you are! ND Pos! Happy 21st Birthday to the greatest Domer this side of The Emerald Isle! God bless you, Tommy! Lots of love and hugs, Mom, Dad, Marc, Margs and Toodles, too!

Women's soccer shuts down Wisconsin-Milwaukee

By BRYAN CONNOLLY
Assistant Sports Editor

To keep a team from scoring is outstanding. To keep a team from shooting is unbelievable. Not only did the Notre Dame women's soccer team crush Wisconsin-Milwaukee 6-0 last night, but it also outshot the Panthers 24-0. The sixth ranked Irish improved their record to 11-1-1 after rolling past 6-5-2 Wisconsin in an offensive blitz which featured five different scorers. Junior midfielder Tiffany Thompson opened the scoring for Notre Dame 9:31 into the contest with an unassisted blast from thirty yards out to the left of the goal box.

Fellow midfielder Jodi Hartwig expanded the lead to 2-0 two minutes and 47 seconds later when she booted a loose Thompson corner kick from a crowd and into the net from five yards out. Sophomore attacker Michelle McCarthy, who started at midfield because Reagan Coyne was out with a pulled hamstring, added two more goals before the end of the half to all but assure Notre Dame the victory. The goals, which were McCarthy's eighth and ninth of the season, were both assisted by freshman midfielder Cindy Daws. Freshman forward Stacia Masters and sophomore forward Rosella Guerrero also earned assists on the scores. With a reshuffled line-up on the field to open the second half, the Irish wasted no time getting back on the board. With just under eight minutes expired in the half, Masters received a 20 yard pass from Daws and booted it in her fourth goal of the match for the 3-0 lead.

"They're a very talented team," said Wisconsin head coach Susan Maynihan. "I respect them a lot. Hopefully we learned something from them." "We played with a little bit more intensity than we did this weekend," said McCarthy. "We played alright," said Thompson. "We control the ball well, and that's what we've been working on.

"It gives us some momentum going into the weekend," said Irish head coach Chris Petrucci, referring to the important conference contest with Xavier. "It sends us into the game with the right frame of mind."

"Even though this wasn't a huge goal," said McCarthy, "it builds our confidence a little bit.

"It's good for us," added Thompson.

The Irish have now won 16 of their last 17 games, dating back to last October.

Daws' two assists brought her scoring line to seven goals and fourteen assists. Her 28 points place her at ninth in the Central Region and 16th in the nation. Coyne's assist brings her scoring line to eleven goals and four assists. Her 26 points place her at tenth in the region and 16th in the nation.

Coyne is listed as questionable for this weekend.

Jordan makes retirement official

By LINDSEY TANNER
Associated Press Writer

DEERFIELD, III.

With no tears, just that trademark twinkle in his eyes, Michael Jordan retired Wednesday for the second time as he redefined but hinted that basketball may not have seen the last of him yet. "I've reached the pinnacle of my career," Jordan said in an announce ment that shocked fans and teammates alike. "I just feel that I don't have anything else for myself to prove." At a news conference packed with hundreds of reporters at the Bulls' training center, Jordan said he'd lost the motivation to play and had thought about retiring after leading the Bulls to their third straight NBA championship in June.

The 30-year-old superstar said the saying of his father this summer was not the main reason behind his decision. "I was pretty much decided at that particular time, but I think what it made me realize was how short life is," he said.

"I guess the biggest positive thing I can take out of my father not being here today is that he saw my last basketball game. That meant a lot," Jordan said.

Michael Jordan made his retirement official at a press conference yesterday. Jordan had been dogged in the last year by reports of excessive gambling, and a highly publicized book about the Bulls portrayed him as a sometimes selfish player who looked down on most of his teammates. He said media scrutiny had not driven him from the game, but acknowledged that he won't miss the spotlight.
