As technological innovations in information and communication bring world economies and governments closer together, new world challenges are calling for new solutions, according to National Peace Corps Director Carol Bellamy.

The Peace Corps can be part of that solution, Bellamy explained to the Notre Dame community Friday.

In this new multinational world order, national economic lines have become skewed and thinking globally is more important than ever, said Bellamy.

The Peace Corps' response to the challenges of global focus has been two-fold — on the one hand providing its volunteers with the skills necessary to survive in this new, multicultural atmosphere and on the other by refocusing its own goal to better meet the changing needs of countries requesting aid.

Currently, the Peace Corps has close to 6,500 volunteers in nearly 90 countries, said Bellamy. Collectively, volunteers speak 200 languages.

In order to pull this off, the Corps provides its volunteers with extensive language training, but the truly valuable education comes from the volunteers "real-world experience."

Although Peace Corps still sends together volunteers to traditional third world targets like Africa, Asia and Latin America, it has turned around. "It sends forward European nations including Poland, Russia and the Ukraine."

The Peace Corps is still concerned with traditional areas of development, but has added agriculture, health and education.

Pilkinton remembered for her concern and love
By CARRINE DORAN Notre Dame News Editor

Lucy Pilkinton, assistant professor of communication in the business department, died suddenly Wednesday night of natural causes, shocking those who knew and loved her. She is survived by her husband, Mark Pilkinton, who is a professor of communications and theatre at Notre Dame, and two sons.

"She was a first class teacher, a very enthusiastic and efficient kind of person," said Deward Conlon, chair of the management department.

"She was very full of life," said Kevin Drager, assistant professor specialist in the communications and theatre department.

"People sought out Lucy Pilkinton because she brought something to the dining hall. The two tickets running for the presidency are Nisha El-Ganzouri and Melissa Peters, versus Deborah Sheedy and Angela McNulty. A debate addressing the candidates' positions on the issues and their platforms in general will be held tonight at 7 p.m. in Haggan Student Center.

"We encourage all Saint Mary's students to come to the debates because it is important for students to get in touch with the issues and the candidates," Sheedy said. "We hope that there is a greater turnout than last year's debate.

"Developing a strong identity at Saint Mary's is an issue common to both tickets this year. "We need to look closely at the true meaning of a Catholic women's college," Sheedy said. "We would like to bring in more speakers addressing women's rights and current issues concerning women."

Social identity is another area that is being addressed.

"We are interested in increasing involvement on this campus to make us stand alone," El-Ganzouri said. "Both Haggan and Dalloways have a lot of potential for both Saint Mary and Notre Dame student use."

Sheedy and McNulty are looking beyond the South Bend college community to Saint Mary's brother school Wabash College in order to increase the number of social events held at Saint Mary's.

"We have had a relationship of 150 years with Notre Dame," Sheedy said. "We should not ignore the great programming that has gone on between the two schools, but we also shouldn't rely on them (Notre Dame) so heavily for our social life."

Both tickets are also interested in increasing the involvement of students in decisions affecting the entire student body.

"Student involvement is a huge issue," El-Ganzouri said. "We will concentrate on little things that will enhance the big picture." Not everyone is the same involved interesting in student involvement with student leaders, but she was interested in events to increase interaction with professors.

"At such a small school it would not be possible for the students and faculty to be able to come together outside the classroom as well as inside," she said.

El-Ganzouri and Peters are also interested in starting a comprehensive recycling program.

Candidate ready for upcoming vote
By ELIZABETH REGAN Saint Mary's News Editor

Voting for the Saint Mary's Student Body Presidential Election will be conducted in the dining hall.

The two tickets running for the presidency are Nisha El-Ganzouri and Melissa Peters, versus Deborah Sheedy and Angela McNulty. A debate addressing the candidates' positions on the issues and their platforms in general will be held tonight at 7 p.m. in Haggan Student Center.

"We encourage all Saint Mary's students to come to the debates because it is important for students to get in touch with the issues and the candidates," Sheedy said. "We hope that there is a greater turnout than last year's debate.

"Developing a strong identity at Saint Mary's is an issue common to both tickets this year. "We need to look closely at the true meaning of a Catholic women's college," Sheedy said. "We would like to bring in more speakers addressing women's rights and current issues concerning women."

Social identity is another area that is being addressed.

"We are interested in increasing involvement on this campus to make us stand alone," El-Ganzouri said. "Both Haggan and Dalloways have a lot of potential for both Saint Mary and Notre Dame student use."

Sheedy and McNulty are looking beyond the South Bend college community to Saint Mary's brother school Wabash College in order to increase the number of social events held at Saint Mary's.

"We have had a relationship of 150 years with Notre Dame," Sheedy said. "We should not ignore the great programming that has gone on between the two schools, but we also shouldn't rely on them (Notre Dame) so heavily for our social life."

Both tickets are also interested in increasing the involvement of students in decisions affecting the entire student body.

"Student involvement is a huge issue," El-Ganzouri said. "We will concentrate on little things that will enhance the big picture." Not everyone is the same involved interesting in student involvement with student leaders, but she was interested in events to increase interaction with professors.

"At such a small school it would not be possible for the students and faculty to be able to come together outside the classroom as well as inside," she said.

El-Ganzouri and Peters are also interested in starting a comprehensive recycling program.

Full coverage of the candidates, their platforms, the debate and The Observer endorsement will run in tomorrow's paper.
Making dreams into reality

At night we lay our head on a pillow, and close our eyes and the world of imagination and possibility falls asleep.

Then the next morning we awaken to the stone-cold reality that our night of fantasy and dreams was simply an arena of empty images with no tangibility, no attempt materializing into something more than just a vision of happiness.

When we are young we all have dreams. We spend a life wishing for the future and for what it holds for us.

"I want to be a fireman."

"I want to be president."

This postulating soon becomes more than a simple dream. As we get older our actions soon mean more and more in the whole scheme of things. And then we dream of our dreams for ourselves.

One college comes around, reality comes knocking loud and clear in your ears and your heart.

The idealism of years comes to butt heads with the reality of making it in this world, and just what that may entail.

The dream is a time when you must decide what you want to do in your heart and what your mind tells them is the proper thing to do.

The truly lucky person is the one whose road to survival and security is the same as his road to personal fulfillment. The person who can pursue his dreams, and make a living doing it. But alas this person is a true rare rattle.

For most of us, dreams and reality come into a conflict. The reasoning is where a choice must be made and once this decision is made, there is no turning back. It has to be made, and then pursued.

We all have to make this decision, or it will be made for us. Every person could use a little introspection, especially when making a decision that will shape the rest of your life.

We must decide what we are doing in life, and for whom we are doing it. Are you living your life for yourself, or is it for someone else? Are you living your life for your family, or is it really your own life? Are you happy?

I'm a member of a group that will achieve happiness only through the pursuit and realization of our dreams. Some talk of dreams in abstracts, I talk in real terms of reality. I hold to the belief that our dreams are out there waiting for us. If we disappoint ourselves, we disappoint ourselves.

And if we don't make it, what then? At least you tried to make it, and truly care. Many people don't even take the first step, so many give up before taking a chance.

I'm here to tell you to take that chance. You may ask yourself, "Who is this babbling idiot in the Observer and what right does he have in telling me how to live my life?" But look at the logic. A world of security and regret or a world of dreams and possibility. I am all for a dream of security, but I don't know if the cost is really worth it.

I refuse to live a life of regret. I don't want to go through life asking myself "what if"? And I don't think you either.

The views expressed in the Inside Column are those of the author and not necessarily those of The Observer.

Knights give $5000 to Centers

By TOM MORAN
News Writer

To mark the anniversary of the Roe v. Wade Supreme Court decision legalizing abortion, the Notre Dame council of the Knights of Columbus donated $5,000 to local Women’s and Mother’s Care Centers.

The donation was presented to a representative of the Women’s and Mother’s Care Centers on Jan. 21, the day before the twenty-first anniversary of Roe v. Wade.

“On the eve of a day that has traditionally been the occasion of political demonstrations by both sides of the abortion debate, our Council wanted to do something to help those women that are so often forgotten in our community,” said Knights of Columbus Grand Knight Timothy Chanteen.

The Knights raised the money through the Steak Sales held on campus before home football games.

Although the Knights donate all their Steak Sale money to charities every year, this is only the third year that they have given money to the Women’s and Mother’s Care Centers, and the first time they have done so to mark the anniversary of Roe v. Wade.

Deputy Grand Knight Douglas Maurer says the Knights plan to make this donation an annual event.

“I think it’s a very effective way of responding to that decision,” he said, “because this is really going to help some young women directly.”

The Women’s Care Center was founded in 1984 with the mission to “lovingly reach out to pregnant young women and give them the help they need so that they can choose life for their babies.”

The Mother’s Care Center provides pregnant teens and teen mothers with housing, meals, prenatal and postnatal care, childbirth preparation, parenting classes, and career counseling. Both centers serve the South Bend/Mishawaka area.

Maurer said that the Centers were “ecstatic” over the donation.

He noted that the Centers usually only receive a few hundred dollars in donations from several sources, and that last year the Knights donated approximately $600 to the Centers.

Maurer said the Centers plan to use the money in several ways, including improvements on the housing for pregnant teens that have been evicted by their parents, and additional psychiatric help for tenants.

VOTE IN THE
SMC STUDENT BODY PRESIDENT
AND VICE PRESIDENT OF ACADEMIC AFFAIRS ELECTION

January 25 at the Dining Hall
7:00 a.m. - 9:00 a.m.

Since its establishment over thirty years ago, the Peace Corps has counted University President Emeritus Father Theodore Hesburgh as one of its most ardent supporters. In fact, it was during the initial summer training sessions, first five weeks, that Hesburgh also supplied their initial seed money in Chile. It was personally acquainted with Sargent Shriver and Harris Wofford, the authors of the executive order signed by then-President John Kennedy establishing the Peace Corps.

"I was working with (those) two fellows in Washington. I met them outside the White House as they went in (the day of the signing)," said Hesburgh. Shriver and Wofford called Hesburgh that night because they needed project suggestions on volunteers.

"I said I would give (them) one in Bangladesh, Uganda, or Chile. They chose Chile," said Hesburgh.

Six Notre Dame students participated in that first training session. Since then, more Notre Dame students have volunteered for the Peace Corps than any other university in the nation, according to Hesburgh.

Over the years, Hesburgh stopped in at various Peace Corps duty stations as he traveled the world. "I keep in touch," said Hesburgh.

Several years ago, Notre Dame hosted a 30-year reunion for Peace Corps volunteers. Lorett Miller Ruppa, a University Trustee and former Ambassador to Norway, was also once director of the Peace Corps. Volunteers currently number around 6500 and are present in over 85 countries on four continents. Hesburgh sees a bright future for the Peace Corps.

"It's probably going to get bigger. I hope that Notre Dame people continue to go in the Peace Corps, because it is a great experience," said Hesburgh.

BELLAMY continued from page 1

unteer for at least two years," Bellamy said. "But you are a return volunteer for the rest of your life."

Although Bellamy is now head of the organization, she is able to relate to the volunteers' work, and its global importance.

To volunteer for the Peace Corps "is not to ignore problems at home," she said. "Once you have really made a commitment to do some form of service, you will continue to do it. And I think you will be able to do it even more effectively domestically with the international experience."

There are currently 300 Peace Corps fellows in the United States, said Bellamy, working in everything from the Boston Housing Authority to the Los Angeles city school system in an effort to "continue to bring the world home."

According to University President Emeritus Father Theodore Hesburgh, it is not surprising that Bellamy has found her way back to the Peace Corps. After all, at a Peace Corps 30 year reunion, he noticed that nearly all of the return volunteers were still active in some sort of service.

"They got the bug in the Peace Corps," he said "and they'll never lose it."
Crime major focus of state lawmakers

By ARLENE LEVINSON
Associated Press

Stop the bloody violence, and you can start by locking up criminal kids and throwing them off school. That's the public outcry state lawmakers have been hearing as they draft laws this busy legislative season. The administration wants to crack down on repeat offenders. Just 10 days after violent crime rose 11 percent alone, from barring gun ownership to putting the figure, officials said that the Whitewater for the administration officials said that the Clinton administration has not completed that study yet. After making violent felons in jail for life, administration officials said last week.

But violent crime is up. And the numbers electrify lawmakers. But violent crime is up. And the numbers electrify lawmakers. As Sen. Jack Rife explained, and Susan McDougal to develop the Whitewater for the Clinton presidential campaign in 1992. The Clintons have not released their 1978 and 1979 tax returns, but Lindsey and Lyons confirmed the figures in interviews with The Associated Press last week. The Clintons began Whitewater in 1978 with James and Susan McDougal to develop a storage and vacation community in the Ozark Mountains. Federal authorities are investigating whether funds of the Madison Guaranty Savings and Loan that James McDougal owned in Arkansas were improperly diverted to other entities, or used to pay political or personal debts of prominence. The Clintons, including then-Gov. Clinton, and the McDougals have denied wrongdoing. The question of how much the Clintons lost in Whitewater has been around since 1992, when his presidential campaign hired Lyons to review their business dealings. The campaign report found that the Clintons had "unsecured, loaned or otherwise advanced" $60,900 to the Whitewater venture "for which you have not received any return." In computing the figures, officials said the report counted only payments that came directly from the Clintons. It included the $40,000-plus in interest loaned to their personal agents and other costs, Lindsey said.

Mrs. Clinton took out a $30,000 loan from the McDougal-owned Bank of Kirksville in her name in 1980, secured by a lot from the Whitewater development. She put the money in the company so it could buy a house on the lot, McDougal and Lindsey said.

A loan from the Security Bank of Kirksville was not obtained in 1983 by the Clintons. It, too, was put in by the bank to secure the remainder of the $30,000 loan Mrs. Clinton had obtained in 1980.

One result of getting loans as individuals and putting them in the company was that payments on the loan sometimes were not made until after the elections, sometimes by the Clintons, whom the state officials said there is no case with the Paragould loan.

Clinton aiming at crime in State of Union speech

By RON FOURNIER
Associated Press

WASHINGTON President Clinton plans to expand his anti-crime package with a State of the Union address, addressing a "three-time loser" proposal that would put the most violent felons in jail for life, administration officials said Sunday.

With polls showing crime as one of the Clinton's Defense Fund reported last week.

As these statistics move out of Los Angeles, they come creeping into Anchorage, and from there it will get out to the villages and hamlets of Alaska," he warned.

Last year nearly half the states enacted laws dealing with weapons and youth violence. This year a dozen propose gun control measures alone, from barring gun ownership for anyone under 18, to banning assault weapons.

Clinton's proposal to put the most violent felons in jail for life, administration officials said last week.

Lyons has worked closely with MADD, Students Against Drunk Driving and the Office of Drug and Alcohol Education in an effort to build campus awareness of drinking and driving, according to Beatty.

“The accident has definitely had an impact on every institution on campus that has tried to take charge of these issues of raising people’s awareness,” said Beatty. “If you can educate one person, you can save ten others.”

The dorm took the initiative from the Office of Drug and Alcohol Education in spearheading a red ribbon campaign prior to Christmas Break. During the campaign, members of Lyons helped to place a box of red ribbons, designed to be placed on cars in an effort to increase awareness of drunk driving, in most buildings throughout campus.

Lyons also sponsored a December Fan Run, which planned to be continued every year, to raise money for a scholarship in Fox’s name. One hundred and two of the dorm’s residents participated in the run, raising over $3,800.

Fox was killed when a car driven by Notre Dame law student John Rita swerved off the Douglas Road and hit her as she was walking back from Macer’s Deli, accompanied by four friends after they had given up a lengthy cab wait, according to the St. Joseph County Police.

Rita, who faces charges of causing a death while driving drunk and leaving the scene of a fatal accident, is scheduled for a Feb. 15 trial.

SERBS THREATEN BLOCK OF WOUNDED CITIZENS

By SRECKO LATAL
Associated Press

SARAJEVO, Bosnia

The fate of three badly wounded boys hung in the balance Sunday as U.N. aid officials worried that Bosnian Serbs would block medical evacuations from Sarajevo.

Two of the boys were brothers who were badly wounded when shells killed 15 children playing in the snow on Saturday. They were clinging to life in a hospital, and doctors hoped to send them to Belgium, Italy or France.

A third boy, 16-year-old Amer Monzolovic, wounded in earlier shelling, may lose his sight if he cannot leave the city for medical treatment.

Bosnia badly needs doctors to care for the wounded, and a senior police officer from Croatia fleeing doctors would face charges in Sarajevo. The Red Cross is trying to visit them and get involved in the case.

On Sunday, at least seven children were killed and five people were wounded by shelling of the Croat section of Mostar, a key southwestern city divided between Croats and Muslims, said Bosnian Croat spokesman Vlado Pogarcic.

There was no U.N. confirmation of the deaths, although U.N. peacekeepers had earlier reported intensity of shelling.

Croatian TV said four children — two Muslims and two Croats — were killed and at least six other people were wounded. The TV also showed a footage of a blood-spattered street and an interview with a wounded boy who said he was riding his bicycle when a shell hit him.

At the intensive care unit of Sarajevo's State Hospital, Elvir Ahmetovic, 13, gazed at his unconscious 11-year-old brother, Adil, who nearly died four times Saturday.

"Adil's life is in danger because he is losing a lot of blood," said Dr. Davorka MaliSovik, his frostbitten hands covered with wool gloves under plastic surgical gloves. If the boy continues to lose blood, doctors will have to amputate his left leg, she said.

His brother also was wounded in the left leg when shells hit the western suburbs of Alipasino Polje.

"We were playing in the snow, when the first shell blasted behind the house," Elvis said in a weak, thin voice. "We started running toward the door, but then another one pounded close to us."

"Are you really going to evacuate us?" he asked.

Janowski was told there was no Serb objection by Sunday evening to Monday's planned airlift despite the threats that block them. Three Serbs, along with a 34-year-old man and a 40-year-old woman with a brain tumor, would also be airlifted out of Mostar, Janowski said, but stressed that it was a "very small group.

U.N. officials investigated the cratered area by Saturday evening.

Lt. Col. Bill Alakman said they concluded four mortars landed from the west. That killed mostly Serb-held territory, but also a slice of government-held land, and he said U.N. officials could not be sure who fired them.

Local residents blamed the Serbs. The Bosnian Serb president and military leaders issued separate denials, insisting the Muslim-led government forces had shelled six people to bring outside intervention.

Sent to do a mission impossible, the commanders are going public with their feelings of dis­

may, frustration and humiliation.

UNITED NATIONS

An ocean apart and a continent away, the generals sent to keep the peace in Bosnia are waging a war of their own, pointing fingers and expression bitter words about their U.N. overseers and member states.

The NATO and U.N. commanders are upset they haven't been given either the mandate or enough troops to stop the fighting that has claimed 200,000 lives in the former Yugoslav republic.

They also lash out at the Security Council for approving overly ambitious resolutions and at the U.N. machinery run by Secretary-General Boutros Boutros-Ghali for not backing them up.

VATICAN CITY

On the day set aside by the Vatican for prayer in forma regions of Yugoslavia, Pope John Paul II expressed spiritual solidarity with Bosnians on Sunday and appealed for free access for humanitarian aid to the war-torn region.

"We enter as pilgrims on our knees, in those tormented lands, so that our brothers and sisters who suffer do not feel alone and abandoned," the pope said in off-the-cuff remarks at the end of his homily during a special Mass at St. Peter's Basilica.

Masses for peace in the Balkans were held in Roman Catholic churches around the world Sunday. On Monday, six children sleeping in Sarajevo were killed by shells. It was the latest in the list of horror stories out of Bosnia. At least 200,000 people have died since the war broke out there 21 months ago.

His voice filled with emotion, the pope called out to the combatants in Bosnia: "You are not alone; you can have help in the Vatican, help, and in the entire world."

They were clinging to our knees, in those tormented lands, so that our brothers and sisters who suffer do not feel alone and abandoned," the pope said in off-the-cuff remarks at the end of his homily during a special Mass at St. Peter's Basilica.

Gun control: Ban on private ownership will remedy violence

Recent events have further spurred on and widened the debate over gun control. The debate has, in the past, focused on a very narrow range of alternatives, so how many days should one have to wait before one can purchase an item which has no other use except to hurt and kill people. Apparently five days is enough, at least according to Congress. And even that minor restriction took several years to come to fruition against the extreme resistance of the National Rifle Association.

Opponents argued that such a waiting period would only make it harder for “law abiding” citizens to be able to purchase guns, and that criminals will be able to get their hands on guns by other means. Obviously, a five day wait will not dissuade such people. However, a nationwide system, whereby no one can purchase a handgun citizens cannot just cross a border into a non-gun control state and acquire a gun immediately, will help prevent some gun violence. It will not, however, come anywhere near addressing the whole problem.

The NRA claims that people need guns for protection against non-“law abiding” citizens, and anyway the Constitution provides for the use of firearms. Regarding the first, it has been shown over and over that the people that try to use guns to protect themselves against some crimes frequently have the guns used against them. Regarding the second claim, the Second Amendment to the United States guarantees the right of the people to keep and bear arms, “shall not be infringed.” When I lived in Washington, D.C. before coming here, I frequently had occasion to walk by the headquarters of the NRA on Capitol Hill.

I remember the first time I walked by the building I was amazed to see that inscribed on the front wall was the second half of the Second Amendment, referring to the right to bear arms, but instead of the right to bear arms, it shall not be infringed. When I was living in Washington, D.C. before coming here, I frequently had occasion to walk by the headquarters of the NRA on Capitol Hill.

**Dedicated college graduates offer services to urban and rural public schools**

By THOMAS KANE

Guns in the schools. Declining dropout rates. A majority of students coming from single-parent families. The solution to these growing public education problems: Teach For America.

Teach For America is a national teachers' corps of individuals from all collegiate majors who commit to teach a minimum of two years in under-resourced urban and rural public schools.

The program recruits participants from over 150 colleges and universities across the country. While Teach For America provides underserved students with outstanding teachers, its mission goes deeper — it hopes to change the education system itself.

"It's important to emphasize the difference between teaching and the TFA program, which includes a core and a 2-year professional development program," said Elizabeth Lach, director of publicity for TFA.

"Community outreach is an important part of the program. The emphasis of teaching is not just in the classroom, but with the families as well," Lach said.

Having a broad vision of the interplay between community, government, and education is vital to improving the educational system in the United States, according to Lach.

"Public education is volatile today," according to TFA core member and recent Notre Dame graduate Peter Durning. Durning teaches in New Jersey, where there has been public outcry against tax raises to aid public schools.

Uneven distribution of tax money is a prime factor in the education problem, according to Eric Bird, another TFA corps member and 1990 Notre Dame graduate.

"We need to get rid of the disparity in school money per child," said Bird.

This funding problem is just one of the ailments of public education which is addressed at the TFA's training seminar.

Before being placed in urban sites such as Baltimore, Houston, and New York City, or rural regions like Arkansas, Mississippi, or the Rio Grande Valley, the applicants accepted into this highly competitive program (only 21% of the 3600 applicants last year were accepted) are taught in Los Angeles for a six-week summer training seminar.

At the seminar, corps members are observed, videotaped, and taught to construct their own lesson plans, according to Lach. After the applicant has passed this stage, they are matched with school districts which have demonstrated a need for TFA teachers.

 Corps members are paid a salary between $15,000-$29,000 depending on the site and the specialized skills of the TFA member, according to Lach.

While the discipline needs vary from district to district, a general pattern of majors needed tends to emerge.

"High schools need math and science teachers, while middle schools need bilingual teachers (usually Spanish)," said Lach. The corps members are united in not only serving the education system, but also evolving positive change.

"Students bring a new perspective that is not infiltrated with the methods of the current system."

Elizabeth Lach

Indeed, the most challenging aspect of teaching is not the academics but rather managing a classroom, according to Bird. "They bring a new perspective that is not infiltrated with the methods of the current system," said Lach.

"We have to be totally effective, the learning process must extend outside the classroom. This is one of the key aspects of the TFA. Some examples of community-service oriented projects initiated by TFA members include sponsoring SAT preparatory classes and founding sports teams."

"We've had musicals and plays that were the first at the school," said Lach. It is initiatives like these that make TFA corps members feel like they are doing something positive, however small, to improve education in America.

"Teach for America is not only good for the person, it's good for the country. It's a positive way to change the education system," said Bird. "It's a worthwhile experience not only for ourselves but for all those children who've been needing us."

For those interested in applying to the program this year, applications must be postmarked no later than March 15. For more information, call Teach For America at 1-800-833-1230.

**REQUIREMENTS FOR ELIGIBILITY**

- have a Bachelor's Degree by June, 1994
- have a cumulative under-graduate G.P.A. of 2.5 or higher at the time of the application as well as at the time of graduation
- fill out an application and participate in the interview process
- successfully complete Teach For America's Pre-Service Institute and Induction
- meet all the requirements of the state school district where they are assigned to teach, including any required standardized tests, routine procedures, and interviews
- take the National Teacher's Exam and Core Battery
- be a United States citizen or, prior to participation in Teach For America, have received legal authorization from the U.S. Immigration and Naturalization Services to work in the United States
Michigan looses Big Ten logjam with win over Illini
Associated Press

Michigan moved the first log in the jam atop the Big Ten conference standings, downing Illinois to leave only three teams with half or better marks.

The Wolverines escaped from Champaign, Ill., with a 74-70 victory Sunday. Purdue pounded Ohio State 101-63, Minnesota trounced Illinois State 86-68 and Indiana beat Northwestern 51-46 on Saturday to keep their shares of the conference lead.

Illinois fell into a tie for fifth with Tuesday's opponent, Wisconsin.
In Champaign, Steve Fisher had a surprise: Return Juwan Howard to the lineup or face the consequences.
Howard missed Thursday's game against Minnesota because of the chicken pox but returned to the lineup against Illinois.

"We're hopelessly beat up if we don't have Juwan in that game," said Fisher, whose team still is missing Jimmy King, also afflicted with the pox.

Howard made two consecutive shots at the start of the game and finished with 10 points.

Michigan (12-4 overall, 4-2 in the Big Ten) had its first lead on two free throws by Todd Leslie and a 10-foot jumper by center Kevin Rankin. Bailey responded with four consecutive points that put the Hoosiers in front for good.

Free throws by Todd Leary, who hit 15 of 16 from the line in Big Ten play, and Brian Evans sealed the victory.

Bailey scored 16 for the Hoosiers. Cedric Neloms led Northwestern with 12 points, while Leslie added 17.

Cuozzo Martin scored a season-high 22 points and Glen Robinson had 24 as No. 12 Illinois. The Boilermakers (16-1 overall) had come from behind for their 22nd straight home victory over the Wildcats.

Northwestern (9-5, 0-5) took its final lead on two free throws by Todd Leslie and a 10-foot jumper by center Kevin Rankin. Bailey responded with four consecutive points that put the Hoosiers in front for good.

Bobby Knight admits he deserved school's suspension
But he says it was due to his outburst toward crowd

Associated Press

BLOOMINGTON, Ind. - Indiana coach Bob Knight says he deserved the suspension he received from the university for his actions in a Dec. 7 game against Notre Dame.

Knight, speaking out for the first time since the incident, said he never kicked his son, Patrick. He admitted kicking a chair, but he said the suspension stemmed from his shouts at fans who booed his earlier actions.

Knight's version was reported Sunday in an interview with The Indianapolis Star.

"How many times have you seen Indiana play basketball? It's a lot. All right, now many times have you seen me kick a chair? A lot," he said. "How many times have you ever seen me kick a player?" "So I rest my case on that part of it," he said.

The incident began with a bad pass by Knight's son during the game. The elder Knight called a timeout after the Irish scored off the turnover, and pushed his son into a seat.

What happened next is up for debate: videos of the game show Knight kicking at something. Knight says it was a chair, but many fans thought it was his son's leg.

Fans reacted by booing the coach, even though the game was being played on the Hoosiers' home court.

Knight turned, glared at the offending fans and responded with four-letter obscenities.

"How many times have you ever seen me yell at a player? God can't count that many times," he said. "Now, how many times have you ever seen me yell at people in the stands?"

"Never! So that's a different thing," he said.

"I've seen coaches in this league since kick the floor, kick towels, take their coats off, throw 'em down, kick chairs. I've seen everything," he said.

"What I haven't seen is a coach yell at the crowd, which is something I admit­tedly did and I think that sepa­rates the issue from any­thing else."

Knight said he had no quar­rel with the suspension.

"In view of what happened, the exchange I initiated with the crowd, I don't think it was either unusual or unneces­sary when one reads the rub," he said.

Knight's version was reported Sunday in an interview with The Indianapolis Star.

Indiana cited Knight's "unsports­manlike conduct" when it sus­pended him for the Dec. 10 Indiana-Tennessee Tech game. It was the first time the university had sus­pended Knight, though the Big Ten had sus­pended him for one game in 1985 for throwing a chair during a home game against Purdue.

The Big Ten declined to take further action against Knight this time, saying the university's suspension was appropriate.

"I've seen coaches in this league since grab kids by the shirt. I've seen coaches in this league since yell at kids. I've seen coaches in this league since kick the floor, kick towels, take their coats off, throw 'em down, kick chairs. I've seen everything," he said.

"What I haven't seen is a coach yell at the crowd, which is something I admitted­edly did and I think that sepa­rates the issue from any­thing else."

Knight said he had no quar­rel with the suspension.

"In view of what happened, the exchange I initiated with the crowd, I don't think it was either unusual or unneces­sary when one reads the rub," he said.

Belles

San Francisco in the second half

Aikman was knocked out of the game when he was hit in the head by Dennis Brown's knee. Aikman was hospitalized with what trainer Kevin (O'Neil) said was probably a first-degree concussion "maybe more than that. He didn't know what day it was."

"Let's see how the tests come out and we'll go from there," O'Neil said of Aikman's fitness for next week's Super Bowl.

But Aikman's absence hardly mattered this week.

His replacement, Bernie Kosar, threw a 42-yard TD pass to Alvin Harper to open a 21-point lead just 3:23 after the Niners cut it to 14 to 14 points and seemingly grabbed the momentum on a 4-yard TD run by Ricky Watters.

"The San Francisco 49ers are a great offensive team," said Kosar, signed as a backup for $1.5 million after being cut by Cleveland.

They scored that TD to get within two scores. We realized we needed to put up a drive to get the ballgame. And you can put it in three-inch headings. We will win the ballgame. And a few others wondered how Johnson would go on talking with a foot stuck squarely in his jaw.

He wondered about neither.

"It wasn't much of a predic

Johnson said in a rare
moment of modesty. "But ev
everyone made such a big to-do. I really did it for our football team."

"I did it so we'd be loose and

ce ... win. And our guys re

sponded. They were kidding me

for the last few days that I wrote a
check for them and they'd have

to pay.

"Well," Johnson said, "they
did.

Johnson's methods some

times seem like madness. But

there may not be another

sourceful coach in the game.

Nor a better motivator. Nor a

shrewder judge of talent.

And for all his spouting of

New Age psychology, no one

reads the mood of a team bet

er than Johnson. Which is why

his boast was hardly the reck

less gamble everyone outside

Cowboys' training camp as

sumed it to be.

"I thought Johnson's com

ment was insane," San Fran

cisco's Jerry Rice admitted af

terward. "But I guess it was accu

rate."

If no one could approximate

Johnson still really knows what. The rest of us can surmise is that he looked at practice early in the week and saw bruises and lethargy and doubt, the leftovers from a sluggish win over Green Bay for the opening
cround NFC playoffs.

There was a time, when he

first rode into town five years ago behind owner and close pal

Jerry Jones, that preparation to

Johnson meant nothing so

much as toughness. Back then,

he cut one player for fumbling,

another for missing a "volun
tary" practice and yet another for falling asleep during a film

session. For a time, Johnson

was not averse to showing players the back of his hand.
Buffalo's back again, thanks to Thurman

Bills capture fourth straight AFC crown

By BARRY WILNER

ORCHARD PARK, N.Y. - Sorry, America, the Bills are back and Joe's not.

The Buffalo Bills advanced to an unprecedented fourth straight Super Bowl on Sunday, beating Joe Montana and the Kansas City Chiefs 30-13.

What much of the nation outside of western New York feared - the only team to lose three consecutive Super Bowls, heading to Atlanta to try again - came true because Thurman Thomas was unstoppable.

"All you can ask in life is to have an opportunity," Thomas said. "We didn't have to prove anything to you. We don't have to prove anything to you guys. We get there, we'll be pulling for you."

As the week was nearing its end, more people were turning toward us and saying, "We don't have to prove anything to anybody. We're champions in our own mind."

To win the NFL championship, however, the Bills must defeat Dallas, the team that routed them 52-17 in last year's Super Bowl. The Cowboys beat San Francisco 38-21 in the NFC title game.

The Chiefs, who lost in their first championship game since the 1969 season, and Montana, 4-0 in Super Bowls, were kept off-balance by Buffalo's aggressive defense, led by Smith and linebacker Darryl Talley.

The Bills knocked Montana from the game early in the third quarter, while Kansas City's defense kept grouping at Thompson, who rushed for 186 yards - 131 by halftime - and three touchdowns.

"We believed in ourselves and the organization," Thomas said. "We hung together as a team."

"Going into the Super Bowl, we knew what it takes. We know the mistakes we can eliminate. You have to rank this right up there with when we beat the Raiders in our first Super Bowl. For two magic minutes, he was the old Montana again," Thomas said.

"My head hurt and everything went white for a couple of seconds," Montana said. "I had a sharp pain in my head."

"We were about three of us that hit him," Smith said. "I think when he came down, his head hit the carpet and he went "Oohhh!" You knew something was wrong. I asked him if he was all right but he couldn't comprehend what I was saying. He was out of it."

"We don't have to prove anything to anybody. We're champions in our own mind."

For two magic minutes, he was the old Montana again, right up there with when we beat the Chiefs by a combined 1,000 yards rushing in playoff competition with his biggest playoff output and second most of his career.

Buffalo, which lost the last three Super Bowls by a combined 109-40, has won its four AFC titles by an aggregate 130-32.

"We might have fallen to defeat the last three," Kelly said, "but that doesn't mean a thing. To the people who didn't want us back, us sorry."
Track opens indoor season at Purdue Invite

Observer Staff Report

The Notre Dame men's track team opened their 1994 indoor season Saturday at West Lafayette, Ind., participating in the Purdue Quad meet. Senior co-captain Todd Herman placed first in the high jump with a jump of 7-1. Sophomore teammate Tom Misicall followed Herman with a second place finish in the long jump with a leap of 22-21/4.

Todd Johnston and junior Brian Headrick placed fourth and sixth with respective jumps of 6-7 and 6-5 1/2 in the high jump. Junior Dan Gromnich finished second in the pole vault with a vault of 15-3.

In the sprinting events, senior Chris Lilly placed third in the 55-meter hurdles with a time of 7.68, and sophomore Chris Hajnik finished 2-0 while freshman Yves DeCicco. The Notre Dame men's track team opened their 1994 indoor season at Purdue.

Irish fencers sweep weekend matches

Observer Staff Report

The Notre Dame men's and women's fencing teams each defeated Michigan State, host Wayne State, Detroit Mercy, and Michigan Saturday. The men's team 6-3 win over the Spartan sabremen lead the Irish in their 16-9 win against Michigan State. Senior Bernard Baez and senior captain Chris Hajnik finished 2-0 while freshman Bill Lesier and Jeff Wartgow each added a win.

The foil team's 9-0 shutouts of Wayne State and Michigan carried the Irish in their 16-11 win over the Tartars and 23-4 laugher against the Wolverines.

Junior Jordan Maggio had six wins, sophomore Paul Capobianca and freshman Jeremy Stek had each recorded five wins and junior Conor Power had three wins.

In Notre Dame's 25-2 rout of Detroit Mercy, the epee squad finished a perfect 9-0 against the Titans. Seniors Ryan Girard and senior captain Grzegorz Wozniak both went 3-0 against Detroit Mercy.

"We came in with a take no prisoners attitude today, and with our outstanding results today I think that we accomplished it," said men's coach Michael Schielke. "We really stepped up today and won the crucial bouts when we needed them. We proved that we belong among the elite of the Midwest. I am really pleased with how we are coming together as a team."

The women's foil team was equally impressive today in its victories.

The Irish lost only seven bouts in their 15-1 win over Michigan State, 11-5 win against Wayne State, 16-0 romp over Detroit Mercy and 15-1 creaming of Michigan.

Senior Noelle Ries cruised to a stellar 9-0 record on the day while senior Monika Wagner went 8-0. Sophomore sensation Maria Panyi rolled to an impressive 7-0 against the overmatched competition.

"Maria was just awesome today in her collegiate debut," said Irish women's coach Yves Auriol. "She had three touches against her in seven bouts, which is unbelievable. As a team, we definitely proved that we are among the tops of the Midwest."

Saint Mary's hoops dominates Anderson, 67-55

By ANNE NAPIERKOWSKI

A week after a difficult and disrupted practices, the Belles remained focused in their final win streak as they dominated Anderson University 67-55 Saturday afternoon.

"It was a tough week for us," said coach Marvin Wood, "but the team has really come together."

The Belles came together to pull ahead of Anderson 64-40 in the last five minutes of the game. Despite Anderson's explosive 15 point run in the remaining minutes, the Belles stayed in control to secure the win.

"We didn't get too worried," explained freshman guard Sarah Kupperud, "we were confident that we would pick things up again."

Much of the Belles' confidence has been in forwards Anne Mulcahy and Jennie Taubenheim who led the attack with 20 points each.

Another key player in Saturday's game was freshman forward Katy Lalli who chalked up 10 point and 15 rebounds.

"We had a lot of turnovers, but the team was rebounding well," said Lalli. "There wasn't just one person, the whole team was playing together."

With the win against Anderson, the team is confident going into tonight's game against Olette at 7 p.m. in Angela Ahlheim Facility.

"No matter who we're up against, I know we can play with them now," said Kupperud.

For the remaining games the Belles will continue concentrating on their zone defense and shooting. The practices have been effective in developing the team's talents and in bringing the players closer together.

"The team's chemistry is good, they know what to expect from each other," said coach Wood. "It is one of the best teams I've worked with at Saint Mary's."

STUDENT UNION BOARD
**Rigorous practice pays off for Belles’ swimmers**

**BY CHERYL GILLILAND**

A tough week of practice proved valuable to the Saint Mary’s swim team who won at Hillsdale on Saturday by a score of 132-59-75-8.

"As a whole, we did very well," said head coach Greg Janson. "We seemed to be a little fatigued overall, but several swimmers swam better than they did last week." Overall, the Belles were much more rested this week than they were at their last meet against Calvin College.

"The soreness has gone away, and we were definitely more rested," commented sophomore Teresa Poppe. Three swimmers were double winners on Saturday. Sophomore Katie Rose won the 200 meter backstroke and tied for first in the 50 meter freestyle. Teresa Poppe won in the 100 meter individual medley, and freshman Shannon Kellogg placed first in the 200 and 500 meter freestyle events.

Poppe was pleasantly surprised to win because she is accustomed to swimming different events.

"I’ve never swam the medley at Saint Mary’s before, so I was really surprised to do so well," she said.

Janson added that he was very pleased with the team’s overall improvement from the previous week, and especially with Poppe and junior Tara Krull.

"Tara made a significant improvement in the 200 butterfly over the last week," noted Janson. Janson also commented that sophomore Katie Gibbs came pretty close to her season’s best time.

"Katie is not yet where I want to see her," said Janson. "I expect to see some improvement in the next couple of days."

The divers also made a significant contribution to the team’s victory.

"The divers were phenominal," said Janson. "They have made a great improvement over the last week and the entire season."

Freshman Megan McHigh finished third in both of the one meter diving competitions.

"It was really hard coming back after three weeks off, but we really came together to pull it off," said McHigh of their performance in Saturday’s meet.

Other divers who placed were Barb Krantz with two second place finishes and Angie Mills with one fifth place finish.

"With help and practice, the divers should continue to improve and pull out some more victories for us in the next couple of weeks," commented Janson.

The Belles are looking to continue their improvement in future meets.

"We keep getting better and better," said Janson.

**Irish hockey fit to be tied, twice**

**BY DOMINIC AMOROSA**

The Notre Dame hockey team didn’t have a very good weekend.

They didn’t win either. Instead, they finished their weekend trip to Ohio with identical ties at Kent State on Friday and at Ohio State on Saturday.

The ties moved the Irish to 6-10-4 in the Central Collegiate Hockey Association and 8-14-4 overall. The two points put the Irish into a sixth place tie with Ferris State in the CCHA standings.

"We wanted to win both games," said Irish coach Ric Schafer. "We played fairly well, but we didn’t convert some opportunities."

In Friday’s game against ninth place Kent State, sophomore forward Brett Bruininks put the Irish on the board first with his 5th goal of the season. After Kent tied the score, junior Brent Lamppa scored his seventh goal of the season nine minutes into the second period.

However, Kent managed to score back-to-back goals in the last three minutes to win the game 3-2.

The Irish scored with nine seconds left in the game but the score was called back for offside.

Both goalies had outstanding games. Irish sophomore goalie Greg Louder made 31 saves and Notre Dame senior goalie Brett Bruininks made 29 saves.

"We dominated the first two periods only to see them take advantage of a couple of our mistakes," said Schafer.

"Louder is back in good form and we paid attention to our defense responsibilities."

"We had great goaltending," said Louder. "We missed some opportunities offensively." In Saturday’s game, 4,862 fans came out to Ohio State Fairgrounds to see the last place Buckeyes battle the Irish. Ohio State broke out on top 12-13 Monday, January 24, 1994
