Weekend Wheels terminated
By BRAD PRENDERGAST
Assistant News Editor

Weekend Wheels has finally been derailed for good. After months of discussion and debate concerning its future, the Hall Presidents Council decided last Tuesday to terminate the service effective immediately.

Citing low ridership, the council voted 6-0 to end the four year old program that had been designed to help students off-campus bars and parties return home safely.

"It was a waste of money," said Jeff Dix, co-president of the hall service's buses.

"That was the weekend that sort of got away for everybody," Dix said.

On Saturday, November 12, no persons utilized the service, and the program was used the night before, according to Limited Limo, which ran the service's buses.

"That was the weekend that sort of got away for everybody," Dix said.

The council voted on October 4 to terminate Weekend Wheels throughout the school year, but after several consecutive weeks of use, the service was terminated on November 12.

"This book will be helpful for students who have not decided on a major," she said.

Peter's expects the book to be completed in January and distributed on freshmen and sophomores, and a copy will be kept on file in Counseling and Career Development.

Over the past year, SAC has also held Women's Week, which will take place the week of January 23. Events such as a lecture by a Senior Alumna, a self-defense class, and an aerial arts workshop will end up to the annual Play of the Mind conference at the end of the week.

Andrea Comrie, coordinator for the Student Activities Board (SAB), said her goals for the year were to sponsor a variety of events on campus which students would enjoy and become active in as well as to increase the awareness of SAB.

In the past semester SAB has brought more vendors to campus, the Twilight Tailgate featuring human bowling and fake tattoos, relationship expert Ellen Gunst and, and various movie marathons. This winter, a Christmas giving tree will be held at Notre Dame in the highest regard.

"I'm looking forward to the opportunity to speak," said Rice.

University President Father Edward M. and Robert T. said he thought the pairing of Rice and Notre Dame was a "perfect fit." "Condoleezza Rice is an outstanding leader at one of the world's great universities. She's a Notre Dame graduate who made contributions at the university level and in government, so it's a perfect match," said Malloy. "She's an example of a model leader for our graduates, and I'm sure her reflection will be most insightful."

As a professor in Stanford's top academic and budget officer, appointed in 1993 at age 38, she became the youngest provost in Stanford's history. Rice is also the first woman and first African-American to hold the post. A member of the Stanford faculty since 1981, she is a professor of political science and a two-time recipient of university awards for excellence in teaching.

Rice was President Bush's special assistant for national security from 1991 to 1993. During that time, she also served as the National Security Council's senior director for Soviet affairs. Rice's knowledge of Russian military and Russian language was put to use in summit negotiations on arms control, trade, and the military presence in Lithuania. She was the last to remain at the end of the Cold War. Brent Scowcroft, national security advisor for President George H.W. Bush, described her in press reports as "brilliant, implacable, and absolutely invaluable to our deliberations."

A native of Birmingham, Alabama, Rice grew up there and in Denver, where her father for home football games, Kirk said that Notre Dame has always occupied a special place in her heart.

"Even though I wasn't there as an undergraduate, Notre Dame has always felt more like my alma mater because I came here at such a young age," said Rice.

But Rice's relationship with Notre Dame and a "fits" like this in the past and given speeches from their soap boxes, so I'm glad she (Rice) isn't coming to do that," the students said.

Rice said that Notre Dame has always occupied a special place in her heart.

"Even though I wasn't there as an undergraduate, Notre Dame has always felt more like my alma mater because I came here at such a young age," said Rice.

But Rice's relationship with Notre Dame and the role of the congregation of the Holy Cross, its fairy conser- vative climate, and the "undeniable athletic tradition" associated with the school.

Kirk noted the importance of knowing the university's mission and how things happen on campus. He said that, above all, Notre Dame is involved in "the pursuit and sharing of truth."
A pre-winter night’s dream

With the first snow almost past, we have cold winds passing through the Bear Bond area, one cannot debate the fact that winter is definitely on its way, as my Aunt Damarah from Monday night talked about speaking it coming, and how fortunate we are to have avoided its nastiness as long as we have.

Through sub-zero temperatures and streets of ice are things one likes. I find it difficult to label winter as “awful.” I have had many great times during the winter, and as far as the seasons go it is my favorite.

When was the last time you spoke about sledding and snowball wars? This would give way to making a ramp and venting the other from reaching the bottom of the hill down the ramp with other sledders. All the sledders would start at once, and as each team tried to “teams” of sledders. All the sledders would hide behind snowbanks in a couple of blocks from my house. When the first snows covered the ground, all the kids in the neighborhood would rush to these two hills.

Thanksgiving season, with us playing on the frozen turf. Here, the lake-effect snows became a no-mans land of ice chunks and snowball wars. The typical sledding hill war would be just “normal” sledding. At first, it would be just “normal” sledding. The two sides would hide behind snowbanks, carving trails and obstacles, leaving only the wrecked bodies behind. Smaller hills would develop, with “knobs” of snow. All the sledders would start at once, and as each team tried to prevent the other from reaching the bottom of the hill all memory of mom’s warnings would soon be forgotten. Kicks were delivered to opponents, delivering the victims careening against certain death with a chain link fence, a tree, or the ramp. Other brave souls would jump from a tandem sled, and attempt to land on an opposing sled—a favorite tactic of mine. This would hopefully knock off all the enemy riders and control of the sled would belong to the jumper. However, this usually ended up turning the sled and its riders into a snowball and being avoided its nastiness as we have never seen better.
There is a need for a change in employment structures in Mexico, according to Enrique Peters, a professor from the University of California, San Diego and Universidad Autónoma de Mexico.

"From the period of 1982 to 1987, the economic system had high social costs. The distribution of income deteriorated, and there were low investments, so at the end of 1987 the government began a complete liberalization," said Peters, summarizing the economic policies of Mexico from 1982 to 1994.

He said that with this, the government became the center of social structure, reducing inflation through real wages and an increase of trade.

However, instead of liberalization working as it was supposed to, it produced an overkill of employment.

"A shift from an export oriented industrialization to an import oriented industrialization occurred, producing a wide trade deficit," said Peters. Because of this, a fall in domestic inputs followed, forcing employment to suffer.

Mexico's problems with unemployment are severe because "they have no unemployment insurance to support the unemployed; therefore, without a job people do not survive."

Due to a growth rate of population and a drop in mortality rates, the number of jobs is lower than the increase of economic rates, Peters said.

"In order for the gap between the economically active population and the number of generated jobs to decrease, the growth rate of employment needs to increase by 5 percent annually to be able to accommodate this," he said.

Peters explained that since the economy cannot handle this change, "people per year find themselves without a job."

Part of the reason that this deficit occurs is that out of Mexico's 73 economic branches, only 3 have generated enough jobs for the 5% increase.

"After the liberalization change in 1987, manufacturing was the only branch to recover significantly. The branches that generated the most employment had the lowest recovery rates," said Peters.

According to Peters, "there is not a solution in the short run due to the challenge of the problem, but that an export oriented industry will increase employment."

There is a need for a change of social structure, reducing government became the center of social structure, reducing inflation through real wages and an increase of trade.
The Sisters of the Holy Cross made significant contributions to the nursing field during the Spanish American War, according to Barbara Wall, associate professor of nursing at Saint Mary's College.

"Let everything be clean, clean, clean," is what Wall humorously referred to as the first mission statement of the Sisters of the Holy Cross. The Sisters, who arrived at Camp Hamilton in Lexington, Ky., on Sept. 4, 1898, overcame many hardships. Living conditions were rough, and they were surrounded by more than 600 sick men.

Sister Valentine Reid, C.S.C., present at Camp Hamilton, talked not about the war with Cuba, but the "war with typhoid cases." Sanitary conditions and poor water and milk supplies led to serious illness according to Wall.

The Sisters of the Holy Cross, who were primarily in the teaching field, worked without formal training, to save the lives of American soldiers.

"The Sisters' vow of discipline, self-sacrifice, and obedience fit the model of a trained nurse," said Wall.

In addition to creating an atmosphere of cleanliness, their duties included applying antiseptic, treating wounds, combating patients, and fulfilling dietary needs. They were in contact with the patient's families and provided spiritual care.

Often they worked twelve-hour days tending to the sick.

"This is Hamilton is not a place to send one that does not know how to do all that in required of a trained nurse," said Reid.

Under the administration of Sister Lydia Clifford C.S.C., the Sisters of the Holy Cross worked as nurses at Camp Conrad, in Columbia, Ga. Clifford was under the scrutiny of Dr. Williams, who believed she should be in charge of a dormitory, at most. Like many other Sisters, she proved male doctors and trained nurses wrong. She was a competent leader, a remarkable accomplishment for a female of the time, according to Wall.

Some Sisters were even sent to Cuba for a brief period. As the United States became a world power and society began to recognize women as equals, women won the respect from many people in the medical field, including the surgeon general.

Three of the eight nurse training schools established in the early 1900s were founded by the Sisters of the Holy Cross who aided in the Spanish American War.

Letters and diaries of their experiences can be found in Saint Mary's archives today.

BOG continued from page 1

tween the two campuses.
Noha El-Ganzouri, student
body president, addressed the
issue of renovation of Haggar
College Center.
"Students want a social space
that will be theirs, not taken
over by faculty," she said.
Earlier this year, BOG dis-
tributed a survey and the
majority of students responded
that Haggar was not currently
used as a social space. Accord-
ing to El-Ganzouri, 75
percent of the students ex-
pressed their wish for cable TV
to be installed in Haggar.
Other BOG activities this
semester have included the
continuing efforts of WFVI to
gain an FM frequency.
"Now it seems that WFVI will
take more than two years to go
FM so we are thinking about
fixing our AM transmitter," said
El-Ganzouri. A student survey
on this may be distributed later
in the year.
El-Ganzouri mentioned that a
representative from the Notre
Dame Relations Committee is
sitting in on the planning of the
Kerman Bevies.
In the future, BOG may also
look into updating the student
government constitution.
Robin Walsh commented on
SURV's effort to get more peo-
ple to be committed to regular
service projects. "It is hard
because we send out bulletins
but we don't get much of a
response."

Quayle placed in hospital

By LISA SHAPIRO
Associated Press

INDIANAPOLIS—Former Vice President Dan
Quayle underwent treatment
Tuesday for a dangerous blood
clot in his lung just weeks be-
fore he was expected to an-
ounce whether he will run for
President in 1996.
"The doctors are very
optimistic about Mr. Quayle's condition right now.
He's doing extremely well and
he is progressing very nicely," said Pam Perry, a spokes-
woman for Indiana University Medical Center.
The 47-year-old Quayle was
expected to make a full recov-
ery, the spokeswoman said.
He was being treated with
anti-coagulants to prevent fur-
ther clotting while natural en-
zymes in Quayle's body dissolve
the lodged clot, said the physi-
cian treating him, Dr. Homer
Twigg.
The clot was considered life
threatening because it could have interfered with his
breathing, Perry said.
Twigg said at a news con-
ference that Quayle is otherwise
in excellent health.
Twigg said it isn't known
what causes such clots, called
pulmonary embolisms. They of-
ten occur in people who are
sedentary for long stretches,
such as truck drivers, and can
be hereditary, but Quayle had
no such predisposition, the
doctor said.
Quayle has been promoting
his book "Standing Firm" and
appearing frequently on behalf
of Republican candidates over
the last year.
"Long term he'll be fine and
this shouldn't affect his political
future at all," said Ann
Hathaway, executive director
of his political action committee.
Quayle went to the emer-
gency room for a chest X-ray
Sunday because he wasn't feel-
ing well and was diagnosed
with walking pneumonia,
Hathaway said.
He was sent home with a pre-
scription but returned to the
hospital Monday after
complaining of shortness of
breath, and doctors found that
a blood clot had traveled to his
lung, Perry said.
Pulmonary embolisms start in
the calf of a leg and work their
way up the body, through the
heart and become lodged in the
pulmonary vein of one of the
lungs.
If Quayle's health is fine oth-
erwise, chances are "he would
never have another one," Bates
said.
Quayle was deemed in excel-
ent condition after in physical
in 1989.

Rice continued from page 1
the University extends beyond her graduate experience. Rice's father knew University President Emeritus Father Theodore Hesburgh from Hes­ hburg's work on the Civil Rights Commission.

"We went to South Bend to say hello to Father Hesburgh, and I just fell in love with Notre Dame," Rice wrote in an article in the Spring 1994 Notre Dame Magazine. "I moved to South Bend and was really on my own for the first time. I was 19 and loved it."

After earning her master's degree with a concentration in Soviet and Eastern European studies, Rice returned to the University of Denver and was awarded her doctorate in 1981. Rice is the author of "The Soviet Union ad the Czechoslovak Army" and, with Alexander Dallin, "The Gorbachev Era."

She has also written numerous articles on Soviet and Eastern European foreign and defense policies and is at work with Phillip Zelikow on a book concerning German reunification.

Rice is a member of the American Political Science As­ sociation and of the American Association for the Advance­ ment of Slavic Studies. She also has been a Hoover Institution Fellow, a senior fel­ low at the Institute for International Studies, and a member of the Center for International Studies and Arms Control. She is member of the board of directors of Transamerica Corporations and Chevron, and is a former trustee of the National Endowment for the Humanities.

Speaker continued from page 1
Bali said she was troubled by the choice of a second speaker from the Bush admin­ istration in recent years. President Bush spoke at 1992 commencement.

Off Campus resident Ryan Halford said he was indifferent to the choice. "I'd just as soon have (centen­ tric Guns-n-Roses lead singer) Axl Rose speak," he said. "I just want to hurry up and gradu­ ate."
Inaccuracies noted in Timely Topic’s commentary on population control

Dear Editor:

Chris Corrente’s coverage of the Timely Topic’s discussion, “Population: America’s ‘Other War’,” in the Nov. 17 issue of The Observer contains several inaccuracies that need to be addressed.

First, Corrente incorrectly states that the Church has revised its views on birth control. This is not supported by facts.

Second, Corrente misquotes the Church’s views on birth control. The Church has not abandoned its traditional views on birth control.

Third, Corrente misstates the Church’s views on birth control. The Church has not endorsed any form of contraception.

Fourth, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Fifth, Corrente misstates the Church’s views on birth control. The Church has not endorsed any form of contraception.

Sixth, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Seventh, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Eighth, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Ninth, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Tenth, Corrente misrepresents the Church’s views on birth control. The Church has not endorsed any form of contraception.

Corrente’s coverage of the Timely Topic’s discussion is misleading and inaccurate. Readers should be aware of these inaccuracies before forming their opinions on the topic.

Sincerely,

CHRIS PETRUCELLI
Head Women’s Soccer Coach

Media, liberals incorporate new political slant on Christianity

Dear Editor:

The mainstream media’s criticism of the Republican agenda has generally taken the form of various concerns about the results of implementing Republican programs deemed by liberals to be uncaring, selfish, and mean-spirited.

These judgments assigned to the motives of conservatives, and to the politicians that represent them, intentionally omit the fact that the real issue in this debate is not whether or not there is a need for compassion, sacrificial care for the needy, but how such care can, and should, be provided.

The irony of this new slant in the mainstream media’s criticism is that Christian ethics are being included in this discussion, not by the conservatives, but by the liberals. Although liberal ideology asserts that one of the greatest threats to freedom in our nation is the blurring of the separation of Church and State, we now should understand that the State is in fact where true Christian fidelity finds its home.

At issue is how we the people should exercise the Christian ethic of compassion and sacrifice on behalf of the needy. The mainstream media’s criticism is a disingenuous portrayal of the Christian perspective on the subject of compassion for the needy.

In conclusion, the Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media. The Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media. The Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media. The Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media. The Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media. The Church has failed to take seriously the vast and active means of controlling population that have been proposed by the mainstream media.

Sincerely,

BEN SCRIPTURE
Graduate student

In the United States there is more space where nobody is than where anybody is. That is what makes America what it is.

—Gertrude Stein
Winter Wear Warms Up

Think soft and extra warm for this winter’s apparel. If you are new to the South Bend area this year, it will not take you very long to figure out why. Before you know it, temperatures will be falling and you will not want to be caught ill-prepared. This season’s styles offer some very cozy solutions.

Everything on your wish list for the upcoming cold, winter months should spell out practicality. Whether it is motorcycle inspired with silver buckles and buttons, or the sophisticated jacket that ties at the waist, you cannot go wrong with leather. The great thing about coats and sweaters this season is that they can go with anything including jeans, wool-tweed mini-skirts or even your favorite dress. The materials are so neutral that they are appropriate for any occasion, dressy or casual. Coinciding with this year’s desire for women’s dress to be more glamorous, the materials offered also help to define and flatten.

To top the outfit off, would you believe that six inch, open-toe heels are still the rage for snowy, wet winter months?

The revol of mohair, remember that while thin versions of the material are pleasing to the eye, thicker styles can add unwanted inches. One major bonus for mohair, however, is that compared to cashmere (another seasonal favorite) it is relatively inexpensive because of its abundance. Plan on seeing this yarn for some time to come.

For those who wish to wear lighter materials or for those who simply cannot suffer the allergies that some knits can cause, an alternative is the silk, ribbed sweater. Nevertheless, fibers are all up for grabs. However, pea coats are making a big comeback. They are shorter than most traditional coats and usually look best worn for casual occasions. This time though, navy blue is not your only choice. Just look around, different colored coats with a variety of buttons are everywhere.

If you are in the market for something dressier, double-breasted coats in cashmere or mohair provide elegance for a night on the town. Long or short lengths are equally charming. Also, wool capes—this holiday season add a dramatic touch but have not yet received the attention they should. So, if you are willing to go out on a limb, invest in one. Sports is a sure influence for winter gear these days. More and more, avid skiers are finding their best essentials for a day on the slopes right on the fashion runways. Comfortable nylon ski jackets filled with duck down are racing to the stores everywhere. Paired with spandex leggins and ear warmers they are perfect for the season.

Fashion flows into practicality as these models demonstrate, a selection of winter coats exists, including wool capes, leather jackets, and pea coats.
AUBURN HILLS, Mich. — Connecticut showed its experience early and late Tuesday night and it meant a 90-86 victory for the 16th-ranked Huskies over No. 6 Duke in the inaugural Great Lakes Invitational.

The Huskies, who lost All-American Doug MacKey from last season's team that was ranked second in the final poll of the year, used their trapping defense to help a young Connecticut team early and had a 13-point lead in the first half.

The Blue Devils got back in it, though, and were within two points with less than five minutes to play as senior center Cherokee Parks lost his temper and Duke lost him.

"We got the lead early and then slowly dropped," Coach coach Calhoun said. "We were able to get the afterburners going out still and things down the stretch we usually don't do like those turnovers and missing some free throws.

Sophomore Ray Allen, the player slot- ted to replace Marshall, scored 26 points while senior Kevin Elam scored 21. Donny Marshall had 24 and 17, respectively.

Connecticut (2-0) led 79-70 before Duke closed to 88-86 with five seconds to play. Gillie made two free throws seconds later to lift the final margin.

"We were worried the whole way but I was nervous, very, very nervous down the end," Calhoun said.

The victory was the first for Connecticut in five meetings with Duke.

Duke (2-1) has had to replace gradu ate transfer Grant Hill, All-American Antonio Granger led the Eagles with 21 points, while seniors Kevin Ollie and Donny Marshall had 24 and 17, respectively.

The Gators, who defeated BC 74-66 in North Carolina earlier in the week, came to the Final Four, got eight points from Hill and six from DeClerq, who scored 7-7. Bazzil had a 29-17 lead with 7:53 left in the half. They led 43-25 at halftime.

Florida finished off the Eagles with a 14-4 spurt to open the second half, tak ing a 69-29 lead with 14 seconds remaining. Friar Robinson had five of his 11 points in the run.

Seven region finalists from last sea son's NCAA tournament and Connecticut, a replacement for national champion Arkansas, were invited to play doubleheaders Tuesday and Wednesday nights.

The inaugural event, conducted to run at least three years, continued Tuesday night with No. 6 Duke facing No. 16 Connecticut in the nighttime.

On Wednesday night, it will be Purdue going to No. 12 Ohio State and No. 9 Arizona facing No. 17 Michigan.

OSU's Cooper talks to LSU

By HOWARD ULMAN
Associated Press

The Associated Press

COLUMBUS, Ohio Ohio State coach John Cooper has talked with Louisiana State officials about the head coaching job at LSU, a television station reported Tuesday night.

WBNS-TV in Columbus reported that Cooper said he met Tuesday with LSU officials in Atlanta. LSU fired head coach Curley Hallman after four years.

Cooper, who has one year remaining at his Ohio State contract, and athletics director Andy Geiger could not be reached for comment. Neither returned telephone calls Tuesday night. Another message was left for sports information director Steve Snapp.

Ohio State and Cooper have discussed a contract extension, but no agreement has been reached. Geiger told WTVN radio in Columbus Tuesday that he expected the talks to end soon.

"I'm very hopeful we'll come to closure very soon," Geiger told the station.

Ohio State went 9-3 during the regular season, capped by a 22-6 victory over Michigan. It was Cooper's only victory over Ohio State's arch-rival in eight years. Cooper is 54-25-4 at Ohio State.

The Buckeyes will play Jan. 2 in the Florida Citrus Bowl against the loser of Saturday's Florida-Alabama game.

Eagles set to fly to Hawaii for Aloha

Discussion period to follow.
Win continued from page 16

"We're digging." They tossed aside one big showy Tuesday, finally finishing one of their familiar upset bids, which always seemed to fall short in the past.

This time, the roles were reversed.

It was Indiana that fired an air ball on a shot that could have won the game at the end of regulation. And it was the Hoosiers without a back to buy a free throw in overtime. Familiar follies for Irish fans.

Meanwhile, Notre Dame did its best Indiana impersonation, draining clutch shots from long distance and sealing the victory from the free throw line. The Irish also had just five turnovers in the final 25 minutes.

Keith Kurkowski and Ryan Hoover each scored 16 points. Freshman Pat Garrity had his second straight strong outing, scoring 14 points and providing a potent physical presence. And Matt Gotsch and Marcus Young each showed marked improvement with their play in the past.

"This shows we've got a good group of youngsters who have been working their tails off," MacLeod said. "It was a good gut-check for this group."

Notre Dame had that sinking feeling in its gut at halftime, down 11 points and just a knot the game at the remaining.

"Fortunately, Indiana began to mine and we were able to pop it out defensively and get some good looks," MacLeod said. "The game changed early in the second half and from that point on it was just a great college basketball game."

Big Cast: Large & Smaller Roles Aplenty
State rival Purdue pays visit to Joyce Center

By K.C. GOYER
Sports Writer

The Notre Dame women's basketball team is looking forward to today's game for more reasons than one. The home opener for the 1994-95 squad will be against 12th ranked Purdue. The team is eagerly awaiting tip off not just because it's the first home game of the regular season, but also because of an established rivalry between the two teams. Last year, the Irish were leading the then third ranked Boilermakers at the half, only to have their shooting percentage slip in the second, missing pulling off the upset by less than two buckets.

Now with the home court advantage, Notre Dame's team looks to break the trend as Purdue has won all five of their previous meetings.

Leitlita Bowen, the ND captain and only senior, expects a fast paced and physical game. "One of Purdue's greatest strengths as a team is that they are all very athletic," Bowen said, "I think they'll try and run us pretty hard."

Notre Dame will have an extra punch of determination tonight after a disappointing loss on the road Saturday to Seton Hall (#25). Although enjoying a fourteen point lead earlier in the game, the team lost 60-65 in overtime. Despite the loss, the team had continued strong performances off the bench. Depth may become the Irish's secret weapon this season.

Purdue's player to watch is Leslie Johnson, a beefy center who will endure the continuous onslaught of Notre Dame's inside game. The Irish post position is notably deep, consisting of co-captain Carey Poor, Katryna Gaither, Rosanne Bohman, and Kelly Heath. Both Gaither and Bohman have scored double digits coming off the bench this season.

Although the Irish are young this year, they will not be easily intimidated. "We're going to try to control the tempo, play our game, and be aggressive," Bowen said.

Coach Muffet McGraw was been working on execution on offense as well as denial defense in preparation for tonight's big game. With continued intensity and impressive talent, the Irish hope to send Purdue back to Lafayette with a broken trend and little to less to look forward to.

Inspired Irish squeak past Indiana in OT

By JASON KELLY
Associate Sports Editor

Senior captains Lamarr Justice, Billy Taylor and Jason Williams were wrapped in an exultant midcourt embrace, sharing a sweet sense of satisfaction after their improbable 80-79 overtime victory over Indiana.

Soon they were swarmed by their teammates and a mob of finally-fulfilled fans. All the pent up frustration from recent seasons exploded in an impromptu celebration.

“We've had big wins before, but usually later in the season when we didn't really have anything to play for,” Taylor said. “But this is something we can keep building on. It can be a springboard for our season.”

Humbled three times already this season, the Hoosiers could only hang their heads as they trudged past the party toward their locker room.

The Irish, unblemished after the Indiana game for the first time in six seasons, danced a jig toward theirs.

“This was a great win for our program,” Notre Dame coach John MacLeod said. “That was a great game for our program.”

For the Notre Dame basketball team, playing games like this is nothing new. Winning them is another story.

In years past, the Irish battled perennial powers like North Carolina, Louisville, and Kentucky to the end, yet always found themselves wondering what went wrong in the end. That was the old Notre Dame.

Last night, their 80-79 thrilling win over the Indiana Hoosiers was something different. The new Notre Dame basketball.

“Their run of games like this is nothing new. Winning them is another story. In years past, the Irish battled perennial powers like North Carolina, Louisville, and Kentucky to the end, yet always found themselves wondering what went wrong in the end. That was the old Notre Dame. Last night, their 80-79 thrilling win over the Indiana Hoosiers was something different. The new Notre Dame basketball. That was a great win for our program,” said a proud John MacLeod. “It was great to finally get a win of that magnitude.”

Not only was the actual victory crucial for the team, the way in which it was won was key.

“They showed they could win against a big name school, and win it down the stretch.”

Two years ago, we lost to them in a heartbreaker,” senior tri-captain Billy Taylor remembered. “I was thinking about that as we came down the stretch.”

But this time the stretch was friendly for the Irish and they picked a very good time to get...
