ND hosts MBA competition

Irish team makes 'strong' presentation
By ANDREA JORDAN
News Writer

A team from Notre Dame competed in the 14th annual Notre Dame Invitational Master's of Business Administration (MBA) Case Competition, which was held yesterday in the Center for Continuing Education.

The Notre Dame team comprised of Curt Mitchell, Mike Morgan, and Thomas Prater, and were光荣 in the competition, but lost to the team from University of Texas at Austin.

The other three universities participating in the competition were Duke University, Georgetown University, and Ohio State University.

Each university had one team made up of three full-time students. In the competition, students were told to analyze and define the nature of the problems of a troubled business. The problem chosen was an additional one about Nouvell Computers and its battle with Microsoft. Previously, Nouvell took over WordPerfect and Castro Pro. The question to be answered in competition was "What should Nouvell do now?" The teams were to present possible solutions concerning this question to a panel of judges.

In describing the nature of the competition, Paul Conway, associate professor of finance and facilitator of the competition said, "The universities have twenty-four hours to handle a business, twenty minutes to make a presentation, and twenty-five minutes to be quizzed by the judges."

Commemoration honorees named

Twelve to join main speaker Condoleezza
Special to the Observer

Twelve distinguished national and international figures in the academy, the Church, public service and business will join President Emeritus Edward J. Feulner, Jr., and President Calhoun in Notre Dame’s 150th Commencement exercises May 21 (Sunday).

Degrees will be conferred on some 1,800 undergraduate and 550 advanced graduate candidates in ceremonies beginning at 2 p.m. (EST) join the Joyce Center.

Rice, provost of Stanford University, and in 1975 graduate of Notre Dame, will receive an honorary doctor of laws degree.

The other honorary degree recipients are:

• Eleanor Baum, dean of the National Technological University and The Cooper Union, doctor of engineering. The first woman dean of an American engineering school, Baum has worked to dispel stereotypes about the profession and to attract more minorities and women to careers in Poland and an electrical engineer by training, she was appointed in 1984 and has led Cooper Union’s engineering school in a No. 2 national ranking in a survey of specialty schools. The Cooper Union for the Advancement of Science and Art in New York City was founded in 1859 and, through its endeavors, offers tuition-free undergraduate training in art, architecture and engineering.

• James Billington, librarian of Congress, doctor of laws. Since his appointment in 1987 as the 13th librarian of Congress, Billington has described himself to modern America’s largest repository of knowledge. A Russian scholar and the author of several acclaimed books on that country’s history, he previously taught at his alma mater, Princeton University, and directed the Woodrow Wilson International Center for Scholars.

• Sister Maura Brannick, C.S.C., founder and outreach coordinator, Saint Joseph’s Chapin Street Health Center, doctor of laws. A member of the Congregation of the Sisters of the Holy Cross, Brannick founded the Chapin Street Center in 1986 to meet the healthcare needs of low-income residents of South Bend’s near west side. From humble beginnings, the center has expanded to become a model for comprehensive health care for the poor of El Salvador during the last three years of Romero’s life. He said this political conversion stemmed from Romero’s discovery of the political reality in El Salvador.

• Desiree Colleen, professor of medicine, University of Leeds (Belgium), doctor of science. Colleen has taken his research in biochemistry, pharmacology and molecular biology from the laboratory to the bedside, particularly in the development of new agents to fight the formation of blood clots. Educated at the University of Leeds, Colleen also holds faculty positions at the University of Vermont’s College of Medicine and Harvard Medical School. He was named as one of the International Society for Fibri nolysis and Thrombolysis and is a member of the Royal Academy of Medicine in Belgium.

• Roberto Goizueta, chairman of the board and chief executive officer, The Coca-Cola Company, doctor of laws. A native of Havana, Goizueta joined Coca-Cola in 1954 as a chemical engineer and worked his way up on the technical side of the corporation until he was named to lead the world’s largest soft-drink company in
Birch bark provides a possible cure for skin cancer

NEW YORK

The peeling white bark of a common birch tree may contain a wonder against the deadly skin cancer melanoma. A substance found in birch bark shrunk human melanoma tumors placed in mice, virtually eradicating some cancers, researchers from John Pezzuto said.

The compound, betulinic acid, caused no apparent side effects in the mice. And if it works in people, it should be relatively inexpensive because it is so widely available, the researcher said.

Bark peels naturally from "paper birch" trees, which are common in the northern United States and Canada. Pezzuto, head of medicinal chemistry at his university's pharmacy school, said he hopes human testing will begin within a year or so.

He cautioned that nobody knows yet whether the substance will help melanoma patients, and said people shouldn't try to concoct home remedies out of birch bark.

Buchanan works to pull a surprise

DAVENPORT, Ia.

Republican presidential hopeful Pat Buchanan kicked off his campaign today, saying he is crucial to any 1996 contender today, warning his party is in the same boat from the American people.

Buchanan, asked if his sharply conserative message could divide his party, said "every campaign divides folks, but you've got to stand up and say what's right and what's wrong." Asked if he unequivocal anti-abortion position could split voters, Buchanan said "slavery was divisive and segregation was divisive and civil rights was a divisive issue. I am pro-life. I am going to maintain a pro-life party." Buchanan predicted that "I think you'll be astonished with what we can do.

President Clinton's spokesman, Mike McCurry, today defied Buchanan, suggesting the conservative commentator was trying to "use a religious war" in the United States. His entry into the race follows that of T. Elliott Sadler, who began running a Senate Majority Leader Bob Dole, set to formally enter the race next month, is considered a prohibitive favorite in Iowa's caucuses, where he won in 1988.

Police stop roadblock with tear gas

MEXICO CITY

State riot police and soldiers used tear gas to disperse opposition activists who blocked a highway Tuesday in southern Mexico to protest the arrest of a former city councilman loyal to the political left. The clash on the highway linking the Tabasco state capital of Villahermosa with Coatzacoalcos was the latest in a series of clashes between state troops and members of the leftist Democratic Revolutionary Party. The roadblock was set up to protest the arrest of Carlos Wilson Gomez, a former PRD councilman from Cardenas, about 34 miles from Villahermosa. From the TV report, it was impossible to tell how many of 10 paramilitary and federal riot police were injured. All the victims apparently lived in the building, according to the state attorney general.

Robbery at post office leaves 4 dead

MONTCLAIR, N.J.

An after-hours holdup at a post office Tuesday left four people shot to death and a fifth critically wounded. Police searched the quiet suburban town door-to-door for suspects, but said they had no leads.

Police said they first became aware of the shooting late Tuesday when they received a report of about a man with a gun near the post office, about 15 miles north of Montclair. The Montclair Postmaster got an early morning call from the post office in the small city, about 30 miles west of New York City, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor. He left and called police, and saw a body on the floor.
Security arrests man who resists in Flanner

By LIZ FORAN
Assistant News Editor

A South bend man was ar­rested by Notre Dame Security over spring break after a brief struggle inside of Flanner Hall, according to Charles Hurley, assistant director of Security.

Michael Darselli Hampton, 30, was arrested at 10:15 a.m. Thursday on the seventh floor of Flanner Hall and charged with burglary and resisting law enforcement after a student called security to report suspi­cion about his activity, Hurley said.

A student staying in the dorm over break reported suspicion activity after Hampton walked into his room unexpectedly.

The student reported that Hampton told him the name of a student he was looking for and then left the room, Hurley said. The student then called security. When Security discovered Hampton on the seventh floor, he began to flee. He was caught by an officer, who had to use pepper spray to subdue him, according to Hurley.

Hampton was transferred to the St. Joseph County Jail, where it was discovered he was wanted on a warrant out of St. Joseph County.

During his time in the dorm, Hampton was transferred to the seventh floor of Knott Hall, where it was learned he was wanted on a warrant out of St. Joseph County. According to the event's organizer Darcy Ronalonde, Japanese animation comedian Lane Nishikawa, Japanese animation donee workshop will also be celebrated. The event has not yet been planned, but will be presented to the neighborhood to be used as a park for children and as a place to do things sound fun, not many people may have requested.

Reception to Follow

Knott Hall supports diversity

By ETHAN HAYWARD
Assistant News Editor

On Monday, Knott held a Na­tive People's Bread Workshop, in which participants learned how to bead. Yesterday, stu­dents attended the BPC and Pueblos presentation in Step­an Center. Free tickets were made available by Yaley, and a "Fireside Chat" was held by the presenters in LaFortune earlier in the day.

This evening, Knott will hold a pizza dinner and an as­sembly to come up with Knott's Creed. The creed will define Knott's "safe haven" policy, stating that all Knott residents should feel secure in their dorm, and will be turned into a plaque for the dorm lobby.

Tomorrow night, there will be a discussion with a few mem­bers of the football team. Questions concerning cultural diversity will be asked at random.

Friday evening, there will be a poster making in the main hall­way. Students will be able to draw or write whatever they want to on a large piece of poster board.

Saturday night, Knott will sponsor a showing of "The Wedding Banquet," a story of a gay man from a traditional Chinese family whose father desperately wants a grandson. A discussion will follow the screening.

Asian Heritage to be celebrated

By BRAD PRENDERGAST
Assistant News Editor

The author of the books that inspired Oliver Stone's film "Heaven and Earth," a Vietnamese woman, will also be shown on March 24-25 at 7:30 and 10 p.m. Admission is free. Hayslip's appearance high­lights a week of activities sponsored by the Asian American Association, including a Taste of Asia and Variety Show, a performance by comedian Lane Nishikawa, Japanese animation cartoons, and a dance. These events are sched­uled throughout the week of April 2 - April 9.

In other news announced at the Hall Presidents' Council meeting last night:

■ Students are needed to help with a spring cleaning project in the Northeast Neighborhood, according to Karen Dubay, coordinator of the project. The city of South Bend has donated land to the neighborhood to be used as a park for children. Dubay said, and people are needed to clear the area of brush and other debris.

■ Elections for co-chairs of the HPC for the 1995-96 academic year will be held at next Tuesday's meeting.

■ Applications for Freshman Orientation committee members for next fall are available in the student government office, 203 LaFortune.

■ The program's theme as "Woudn't it be boring if every­one was the same?"...
Degrees

1981. With Ginzeta and recently retired president Donald Keough (chairman emeritus of Notre Dame's board of Trustees) at the helm, Coca-Cola's profits quintupled and the stock surged 14-fold in the 1980s. Ginzeta and Notre Dame's president, Rev. Edward Malloy, were among the founding di-
rectors of the Points of Light Foundation.

• Alan Greenspan, chairman, board of governors of the Federal Reserve System, doctor of laws. Appointed chairman of the Reserve System in 1987, Greenspan is in his second four-year term as the head of the central banking agency that is responsible for controlling the nation's money supply.

• William Hickey, president, Saint Mary's College, doctor of laws. A Notre Dame graduate with master's and doctoral degrees in biology, Hickey is in his ninth year as president of Notre Dame's "sister" school. An insect geneticist, he moved from teaching to administrative positions in 1972 when he was appointed Saint Mary's president for academic affairs. He served a dean of the faculty from 1975-85 and twice was acting president of the college before being appointed to the position full time in 1986. He has been active in numerous community organizations, including the South Bend-Michiana Council of Commerce, the United Way, the Michiana Arts and Science Council, and the South Bend Symphony Orchestra.

• Dolores Leckey, executive director, Secretariat for Family, Laity, Women, and Youth of the National Conference of Catholic Bishops, doctor of laws. A senior staff member of the bishops' conference for 17 years, Leckey has been in her current post since 1986. She previously worked in public and private schools and colleges, on a seminary faculty, in educational and public television, as a consultant to parishes and dioceses, and as a confer-
tence and retreat leader. She holds a bachelor's degree from Saint John's University and a master's from George Washington University. A popular lecturer and writer, she is the author of several books including "The Ordinary Way: A Family Spirituality," "L'Arche Stirring," "The Church," and "Women and Creativity."

• Pedro Rosello, governor of Puerto Rico, doctor of laws. A 1966 alumnus of Notre Dame, Rosello won five Puerto Rico men's tennis championships and captained the Notre Dame tennis team as a senior, when he was selected the University's top scholar-athlete. He earned his M.D. from Yale University in 1970 and was a pediatric surgeon in his home-
land of more than 25 years. Entering the political arena in 1988, he became chairman of Puerto Rico's pro-statehood party in 1991 and a year later was elected governor in a land-
slide. Since taking office he has cracked down on crime, restored English as an official language along with Spanish, and launched reforms in health care and public education.

• Ray Siegfried II, chairman of the board and chief execu-
tive officer of the Nordam Group in 1990 and has developed the Tulsa, Oklahoma com-
pany into a multimillion-dollar aerospace and defense contrac-
tor. He is active in numerous civic and business organizations, including the Tulsa Chamber of Commerce, the U.S. Amateur Boxing Federation and Tulsa's Day of the Homeless. He also serves on the boards of the Universities of Portland and Tulsa. Siegfried Hall, a wom-
en's residence hall at Notre Dame, is the gift of Siegfried and his late father, Robert Siegfried.

• Jose Zalakueti, human rights activist, doctor of laws. A Chilean lawyer and interna-
tionally known human rights advocate, Zalakueti was imprisoned and then exiled from his homeland from 1976-86 for providing legal assis-
tance to prisoners of the Pinochet regime. He has served in several posi-
tions with Amnesty In-
ternational and currently chairs the organization's Mandate Committee. He is on the faculty of the Inter-American Institute of Human Rights in Costa Rica and the University of Chile Law School.

He served for three years on the National Commission for Truth and Reconciliation, a panel that was charged with docu-
menting and reporting on the worst human rights abuses of the Pinochet regime. The English language edition of the commission's report was pub-
lished by Notre Dame Press and presented in October 1993 at a ceremony attended by Za-
lakueti at the Notre Dame Law School.

Joining the honorary degree recipients at the Commence-
ment exercises will be the 1995 recipient of Notre Dame's Laetare Medal, to be announced March 26.

MBA
continued from page 1

There were five judges - one academic judge from Texas A&M University and four busi-
ness judges from Illinois, Indiana, and Michigan. Objectives of the competition, which was staged by Fannie May Corporation, were to provide an integrative forum for the MBA experience, to set forth a meaningful inter-un-
iversity competition along with a beneficial learning experi-
ce, to encourage required, business, analytical and com-
munication skills, and to foster and develop relationships with MBA program directors and competing universities.

In speaking of the perform-
ance of the Notre Dame team, Conway said, "If weak in one area, then we were strong in their pre-
testation."

Money may influence opinions on implants

By DANIEL HANEY
Boston Herald

Some doctors say silicone breast implants are perfectly safe. Others argue they make women sick. But on this they can all agree: The money for offering these opinions is excel-
ent.

"This has been a growth industry for rheumatologists," said Dr. Bruce Cronstein.

This New York University Medical Center specialist, like many prominent in rheumatol-
y, has chosen sides in the battle implamed.

Cronstein happens to be a consultant for Dow Corning, the biggest maker of silicone breast implants. Many of his colleagues have joined the other team, working for the plaintiffs attorneys using Dow

Religion in public school system focus of fights

By SALLY STREFF BUZBEE
Associated Press

ARLINGTON, Va. - Liberals and Christian conservatives may never agree on how to run America's public schools. But they should, for children's sakes, keep their fights from getting ugly, prominent members of both groups say.

Worried that a bitter "culture war" is hurting schools, 17 groups — from the Christian Coalition to People for the American Way — pledged Tuesday to improve communication and work to avoid lawsuits.

The agreement, although mostly symbolic, is the only way to begin resolving difficult issues like prayer in school, the teaching of creationism and whether tax money should go to private schools, both sides said.

"This is not easy," said Forest Montgomery of the National Association of Evangelicals. "But it is a first step."

The new cooperation might affect upcoming debates in Congress over school vouchers and prayer. But its main impact will be on the religious disputes that have torn many local school districts, organizers predicted.

"This statement is eagerly awaited," said Charles Haynes, a visiting scholar at The Freedom Forum First Amendment Center at Vanderbilt University, who brought the groups together with help from the nonpartisan Association for Supervision and Curriculum Development.

"People in Vista, Calif., and in many other communities have been saying, 'We want it now,'" Haynes said. The Vista school district near San Diego has been fighting over evolution and creationism.

"This is going to give all these local districts something to look at, something to help guide them," Haynes said.

Several prominent groups — including the conservative Focus on the Family and the liberal American Civil Liberties Union — did not sign the statement of principles.

Iceberg debating to begin

Campus orators will have the opportunity to test their verbal skills at the annual Notre Dame Iceberg Debates, which begin this week.

The debates begin Wednesday evening at 9 p.m. in the domes of the home teams. The debate topic for round one is "Resolved: The University of Notre Dame should recognize the organization GLHNSMC as an official University group."

According to the debate handbook, "The Iceberg Debates were founded during the 1984-85 academic year as an undergraduate debate competition on social justice issues. The primary goal of the competition is increased student awareness of key local, national and international issues."

Round Two will be Monday, March 27, and Round Three will take place on Wednesday, March 29. The topic for both debates will be "Resolved: The United States government should cease using affirmative action as its official hiring policy."

The Iceberg quarterfinals will occur on Monday, April 3, with the topic "Resolved: The Catholic Church should allow priests to marry."

Semifinals are on April 6 and finals on April 11.

The issue for the final is not released until after the semifinals have been debated. According to the Iceburg Debate Handbook, teams consist of four team members, at least two of which must reside in the dorm they represent.
Gore assures forgiveness of Jordan's debt

Hussein shows disappointment about U.S. aid

By TERENCE HUNT
Associated Press

AMMAN, Jordan
King Hussein expressed muted disappointment about promised U.S. economic and military aid Tuesday even as Vice President Al Gore brought firm assurances that Washington would forgive all of Jordan's official debt.

The twin issues of debt forgiveness and direct aid were at the top of the agenda, along with Middle East peace prospects, as Hussein and Gore met at the king's hillside palace.

At a joint news conference, Hussein said he was "fully satisfied" with Gore's almost unqualified pledge that Washington would write off $488 million this year owed by Jordan, even though Republicans want to stretch out the process longer.

However, the king, who signed a peace agreement with Israel last Oct. 26, made clear he wants more from Washington than $43 million in military and economic aid, which is a fraction of the $3.3 billion Israel receives and the $2.2 billion promised Egypt.

"First of all because it was a commitment," the king said, "and second because of the leadership role of the U.S. in terms of addressing similar problems with many other friends throughout the world. It is not as readily as possible and bring about the change in the quality of life of people in the era of peace.

The king said he and Gore addressed the issue in a "very, very frank and very open" way. "They realize, as we do, there is a need to do everything possible." He said it was "a valid question" whether Jordan was satisfied with U.S. assistance.

Gore did not promise that aid to Jordan would match that of Israel and Egypt, but said, "If Jordan is capable of taking the bold, courageous and dramatic step that it took to further the cause of peace in the Middle East, I can assure you that we are capable of keeping our word.

The king will visit Washington for talks next Monday with President Clinton.

Gore arrived here from Cairo after a four-hour tour of the ancient treasures of Luxor. With his wife, Tipper, and 12-year-old son, Albert III, the vice president climbed through ancient Egyptian temples and the tombs of legendary pharaohs and queens.

"This is a magnificent place," he remarked.

The vice president also is visiting Oman, Saudi Arabia and Israel on his five-nation trip and meeting in Jericho with Palestine Liberation Organization chief Yasser Arafat.

Gore delivered his debt-relief promise during a tightly attended speech before Jordanian diplomats and members of the military, government and intelligence.

One-third of the seats in the Jordanian Cultural Center were empty when the vice president arrived, and workers hurriedly tried to remove rows of chairs.

U.S. Embassy officials explained that many Jordanians were attending celebrations marking the 27th anniversary of the Karameh battle in which Jordanian forces repelled an Israeli attack.

"Jordan has taken great risks for peace and the United States will demonstrate by its actions that we are at Jordan's side, now and in the future," Gore said.

"You have my pledge ... and that of the president that we will fulfill our commitment on debt forgiveness and our pledge to help Jordan meet its defense needs.

"The Clinton administration pledged last year to forgive Jordan's debt as an inducement for Amman to make peace with Israel. However, in a budget-cutting mood, the House voted to cut Jordan's debt forgiveness to $50 million, while the Senate limited it to $50 million this year and $225 million more later.

Those moves have been opposed both by the Clinton administration and by Israeli Prime Minister Yitzhak Rabin.

"We are committed to full debt forgiveness in 1992 and we will meet our commitments," the vice president said, drawing Jordanian applause.

Gore also renewed his condemnation of the terrorist attack that killed two Jewish settlers in the West Bank community of Hebron.

"The voices of rejection are voices of the past," Gore said in a nation where more than half of the 3.8 million people are Palestinians.

"The counsels of despair have no place in the future of this region.

He pledged that the United States will help build free markets and economic ties throughout the Middle East, saying there is enormous potential for commerce among Jordan, Israel, the Palestinians, Egypt and other countries.

U.S. Navy watching Iranian boats closely

By SUSANNE SCHAFER
Associated Press

MANAMA, Bahrain
Iran's new Russian-made submarines and Chinese attack boats pose a "growing threat" to shipping in the Strait of Hormuz, U.S. Navy officials said today.

"We're watching them very closely," Defense Secretary William Perry told reporters today during a visit to the aircraft carrier USS Constellation.

Perry was briefed on the new Iranian capabilities in the Persian Gulf during meetings here with the top Navy commander in the region, Vice Adm. Scott Redd.

The three-star admiral told Perry and reporters traveling with him that the Iranians have two Kilo-class diesel submarines and may be getting a third in the near future.

The Iranian navy has also "a growing threat" to shipping in the Gulf, Perry said.

Iran is now accused of shipping weapons to Iraq in violation of United Nations sanctions, Perry said.

The United States and its allies have increased patrols in the Gulf to try to stop the arms from reaching Saddam Hussein.

"Iran has been increasingly pressed in the region," Perry said.

If it were to begin to pose an Iranian submarine capabilities.

The Iranians had been the subject of a regional "watch list" by U.S. defense and military officials.

Redd said the Iranians were able to "handle all those threats individually" but that collectively they pose an ever-increasing problem for nations in the region.

The admiral said the Iranians had accumulated a number of weapon systems in the Hormuz region such as surface-to-air and surface-to-surface missiles, as well as older U.S.-made F-14 fighter planes.

And the submarines, which he described as "very silent," are able to lay masts in the shallow waters of the entrance to the Persian Gulf when the admiral's wife, Cheryl, was visiting Jordan.

"If you look at the systems they have, it's a pretty significant capability," Redd said.

Associated Press

KALAMAZOV

The second of two accused felons who escaped from the Kalamazoo Regional Psychiatric Hospital has surrendered, police said.

Allen Milobar, 25, turned himself in to police in his native Kentwood, according to Lt. Donald Verhage of the Kalamazoo Department of Public Safety.

The second fugitive, Stacey Bowers, 19, of Covert, was arrested Monday on a shoplifting charge in Indianapolis, the department said.

Milobar was being held in the Kent County Jail. Bowers was to be returned to Kalamazoo County once extradition proceedings are complete, said a sergeant with the public safety department who asked not to be identified.

Regional officials recommended the inmates until November 1994 staying of John Henry Coleman, whose body was found in southwest Allegan County.

The inmate is charged with receiving and concealing stolen property.

The two escaped Wednesday from the psychiatric hospital, where each had been held less than two weeks.

Hospital Director James Coleman said Bowers and Milobar last were seen about 7:40 p.m. Wednesday by staff and were discovered missing about 8:02 p.m. when medicalization was to be administered. The hospital inmates were searched for 20 minutes. In a preliminary report on the escape, hospital officials said employees made no mistakes.

Police focus on secret religious group in Tokyo

By MARY YAMAGUCHI
Associated Press

In a dramatic dawn strike two days after a deadly nerve-gas attack on Tokyo's subway system, thousands of police nationwide swooped down on facilities of a secretive religious group accused of making poison gas in the past.

Thousands of Japanese commuters suffered from sarin poisoning Monday as the lethal nerve agent was spewed into at least five Tokyo subway cars. Six people died. How sarin affects the body

"These cult people are scary. When you come to a neighborhood, you're expected to contribute something. They certainly haven't done that, unless you count making us all afraid," said Toshihiko Takahashi, a retired neighborhood resident who was watching the activities.

UNITED NATIONS
In New York City's shantytowns, Dr. Guy Estrada helps vaccinate women who earn a living picking through trash. In Nigerian towns, Dr. Adepeju Olukoya treats women to run pharmacies and diagnose diseases. But Estrada and Olukoya say their efforts are not enough.

They are among 25,000 women meeting to prepare for the September World Conference on Women, want commitments and funding for the U.N. draft agreement that calls for gender equality in health, education and politics.

With governments strapped for cash, the doctors predict a difficult fight.

"When you have words and no commitment behind it, it remains words," said Olukoya, a representative of the Women's Health Coalition of Nigeria.

Clean earth treaty to be negotiated

by PAUL RAEBURN

Associated Press

NEW YORK
Nearly three years have passed since the world pledged to combat global warming.
Next week, the pledge comes due.
Now it's time for the real work foreshadowed by the 1992 U.N. Earth Summit in Rio de Janeiro.
More than 100 nations will sit down in Berlin to devise treaty regulations that could cost them billions.
The Framework Convention on Climate Change, signed in June 1992 amid the pomp of the Earth Summit, is one of the most far-reaching environmental accords ever negotiated. It could force drastic reductions in fossil fuel use if tough regulations are adopted in Berlin.
Or the treaty could become, in the words of one environmental group, little more than "an international joke."
Critics of the treaty say sharp cuts in fossil fuel burning would cripple economic growth.

CLASS OF '96

This Is Our Last Chance!

The Senior Class Officers are accepting applications for positions on the following committees:

- Alumni/Senior Club
- Fundraising
- Publicity
- Service
- Senior Week/Welcome Back Week
- Class of '96 Alumni Club

Get Involved - The More, The Merrier!!
Applications can be picked up in the Student Government Office, and are due by Friday, March 24th.

TEACHING AND RESEARCH ABROAD!!!

All freshmen, sophomores and especially juniors interested in Graduate Study Abroad, don't miss the informational meeting with Professor A. James McAdams

Monday evening, April 3, 1995 at 7:00 pm in room 126 DeBartolo

*****A Great Notre Dame Tradition of Winning Fulbrights*****
Letter to the Editor

Dear Editor:

I wasn’t planning to enter the on-going debate on whether Notre Dame should officially recognize homosexuals because I realize that the University is too open to a Catholic suicide in the official Catholicism as a talisman to ward off its more humane Christian impulses, especially when official acceptance of such impulses might offend the Church hierarchy. It needs to change its image of wealthy potential benefactors.

But when Professor Rice in his latest - The Observer, March 6, I can refrain no longer.

The only point of agreement between Professor Rice and me is that students here are entitled to the truth, which, according to him, is that Catholic teaching clearly condemns homosexuality.

.. reincarnation of Savanarola equates to truth, which, according to him, is that Catholic teaching clearly condemns homosexuality because I realize that the University is too open to a Catholic suicide in the official Catholicism as a talisman to ward off its more humane Christian impulses, especially when official acceptance of such impulses might offend the Church hierarchy. But that was then, this is now: the Church has cleaned up its act since the Reformation. Perhaps so, but not entirely, especially with power, economics, or the status quo enter the equation as evidenced in modern times by the Pope’s silence during the Holocaust and by the countless Catholic bishops, with notable exception of Archbishop Romero) who generally sided with the powers of oppression, most recently in Argentina, Nicaragua, and Haiti. The norms of morality are almost always bent to serve the power, pleasure, and profit of those exercising power.

Irish jigs. Frosty mugs of Guinness. Men in kilts playing bag pipes as you turn the corner. These are just some of the experiences that Notre Dame and Saint Mary's students have while on the London Program. This summer over 40 students will be participating in the culture packed European excursion that takes off from New York on May 24, under the direction of Dr. Black, a Saint Mary's history professor and Dr. Stefancic as Director and founder of the London and Rome summer programs for 22 years.

During their month in England, students will spend full week in Ireland. Their first night there is one that they will never forget. According to Dr. Stefancic, a Saint Mary's history professor and Dr. Black as Director, it is time to start his research. While in London, students will be able to visit Westminster Abbey, the British Museum, Buckingham Palace, the House of Parliament, Trafalgar Square, the National Gallery, and to the Bank of England, just to name a few. Walk through the heart of London at night, dreaming up new ideas for the classroom. While on the London Program, students can earn credits in business, education, history, and psychology courses.

After London, it is off to the trip for the last leg of the trip. From June 6-23, students will be able to visit famous historical sights such as the Eiffel Tower, the Arc de Triomphe, the Sorbonne and the Latin Quarter. Although there is rarely a language barrier, Michele Wegner got a taste of what it felt like to be an American in Paris. In her broken French, she was asked where the nearest bathroom was and a man kindly led her to a pet shop where she realized that her French wasn't as great as she thought. Cast is via. While on the London Program, students can earn credits in business, education, history, and psychology courses.

On June 1, it is time to put down your Guinness and put on your hiking boots for a trip to Scotland. While here, the students have the opportunity to visit the magnificent Edinburgh Castle on the hill right above you. While in London, students will be able to visit Westminster Abbey, the British Museum, Buckingham Palace, the House of Parliament, Trafalgar Square, the National Gallery, and to the Bank of England, just to name a few. Walk through the heart of London at night, dreaming up new ideas for the classroom. While on the London Program, students can earn credits in business, education, history, and psychology courses.

While on the London Program, students can earn credits in business, education, history, and psychology courses.

Abby Fleming, a Saint Mary's sophomore who will be going on the program this summer is looking forward to her business course in London. "It will be a great opportunity to learn about international business and meet with executives. We will be able to tour Guiness, meet with executives from Barney Woolen Mills and meet with other high profile firms."

After the London Program, Abby, like many students, will be traveling on for another month of European history through the Rome Program. This is the eighteenth year that the Rome Program has been in existence. While in Rome, students will continue to take classes offered in modern languages and business. They will travel to France, Germany, Switzerland, and Italy. While in Germany, students will make a half-day visit to the medieval city of Heidelberg for a visit to Germany's oldest university. They will also see Blenheim, Europe's largest waterfall.

On June 28, they will depart for Switzerland, arriving in Lucerne with enough time to shop and do some sightseeing. They will drive through the Swiss Alps, the St. Gotthard Pass and the Italian Lake District.

On July 1, the group will depart to Venna where a visit to the Renaissance Olympic Theater is in store. This is the first time the course and the famous Clock Tower, Ravenna with a visit to the tomb of Galas and Dante's tomb and then it is off to Florence.

From July 8-17, students will be spending a great amount of time in Rome and Assisi. They will also be shopping in Spoleto where they will be able to visit the Bridge of Towers, the Rocca and the cathedral. In Assisi, the tours will range from the Basilica of St. Francis to that of St. Clare and the Cathedral. In Rome, too days will be spent, students will be in attendance at the Vatican and will experience a service with the pope, just to name a few of their sights.

The London and Rome Summer Programs offer students a chance to travel abroad without missing time off during the regular academic year. It is, as Dr. Stefancic points out, a way to "see all of the history as described in text books and hearing about first hand." If you are interested in these programs, contact Professor Black at 284-4460. It is truly an experience of a lifetime.

Setting the pace: Cutting edge courses

By ANGIE KELVER
Saint Mary's Accent Editor

We have all had the sneaking thought at one time or another of our professors, lying in bed at night, dreaming up new and creative ways to challenge students. While we are soaking up the rays, working behind counters in paper hats this fickle weather of the South Bend area.

The professors are looking to fill in the gaps in the Notre Dame/Saint Mary's curricula in order to encompass a wide range of student interest. Jeanne Kilde, a professor of nineteenth century cultural and architectural history at Notre Dame had this intention in mind when developing her course, entitled "Twilight Life: The Panama Canal and the Civil War.

The reason behind developing the course is that our department is interested in running the whole sweep of American history," said Kilde. While only are Saint Mary's students can earn credits in business, education, history, and psychology courses.

If you are interested in these programs, contact Professor Black at 284-4460. It is truly an experience of a lifetime.

New spring fashions take cues from the past

I t may have been quite awhile since you've had the chance to play dress-up with your grandmother's clothes that she has kept neatly stowed for many years inside lined trunks and organized closets. This season's styles will give you the opportunity to reminisce about those days when rummaging through her old hat boxes and plastic-covered clothes were indeed among your favorite things to do every season. To satiate the nostalgia for the glamorous styles that pervaded earlier eras, fashion designers have brought the style of the 1940's and 50's to this generation if only for the season.

Images of great Hollywood screen goddesses such as Greta Garbo, Katharine Hepburn, and Marilyn Monroe should all come to mind when thinking about this spring's look. A touch of sex appeal along with beaucoup glamour is what the season is all about. Lines are crisply cut and figure enhancing, while accessories, like always, are playing a big role.

Day suits, although relatively plain, are still going strong. With the help of the pencil-slim skirt that is now falling just below the knee it's not hard to believe that simple is definitely better. For the top, designers are trying out different things. Calvin Klein, Jil Sander and John Galliano, just to name a few, have found their inspiration in the short jacket, nipped-in at the waist with either full or (even better) three-quarter-length sleeves. On the other hand, others like Ralph Lauren and Gucci rely on a more simple approach with the use of matching sweater sets that are great for the transition from day to evening.

Yet whatever the case may be, a feminine feel is key—and this doesn't mean that the look can't have a powerful feel to it. Granted, the boxy, padded shoulder look is out but recall some of the clothes Demi Moore wore in her latest movie, "Disclosure." To top it off, suits coordinated with a bustier, a la Madonna, are also making headlines in this season's trends.

Aside from the always popular cling-fit skirt, shiny, flowing dresses that could easily be mistaken for slips are coming out of the closet and onto the runway. The fascination with those dresses is that they can be worn in so many different ways: long or short, flipped or tailored. If the spaghetti straps make you feel like you just got out of bed, the lingerie style can easily be downplayed by adding a fitted t-shirt underneath. For colder evenings these slip-inspired dresses can be coordinated with blazers or even cropped sweaters. One rule stands: strappy, high heels are a must.

If some of the retro styles appeal to you, accessories are not hard to find. A clutch purse, white gloves, rhinestone barrettes, side parts, hats and Veronica Lake curls are all attainable—some more easily than others, of course. But for shoe lovers, as many of you likely are, this season will prove irresistible for you. Paint those toenails quickly because there will be no way to hide them, as open-toe shoes are in and the heels are only a few inches shorter than last fall's 70's inspired spikes. Many of the shoe styles are shown wrapped around the ankle for a sexier look and come in flashy, glittery colors.

This spring season will entail much more than well-deserved warm weather (if it ever comes) and a countdown to the end of school. These months give many of us a chance to jump back a few decades to a time not so far removed and will also provide an excuse to go digging through grandmother's old box hats and plastic-covered clothes.

Shaquille set on Suns, Magic romp

Associated Press

By FRED GOODALL

ORLANDO, Fla. — Shaquille O’Neal scored 26 points as the Orlando Magic beat the Phoenix Suns 126-102 Tuesday night in a showdown between the teams with the best records in the NBA.

The triumph stopped a three-game losing streak — Orlando’s longest since 1988 — and improved the Magic’s Eastern Conference-leading record to 49-17, one game ahead of the Suns’ Western Conference-best 49-18.

Dennis Scott came off the bench to hit five of Orlando’s 11 3-pointers and finished with 23 points.

Barkley, who avoided a one-game suspension when the NBA reversed a flagrant foul called against him during the Suns’ overtime victory at Miami on Sunday, hit both of his 3-pointers in the first half.

O’Neal scored the last six points of the first half. He joined Barkley in making all 10 of his field-goal attempts.

Suns’ Eastern Conference-leading record to 49-17, one game ahead of the Magic’s Western Conference-best 49-18.

By WENDY E. LANE

NEW YORK — Magic beat the Hornets for the third time in this three-game season, taking over a 35-point lead and finally burying Charlotte with a 126-102 victory Tuesday night.

As a team, Charlotte committed 20 turnovers and shot just 40 percent, but that was better than the Magic, which shot 36 percent.

A point guard Muggsy Bogues said, "We’ve been thinking about getting our first win and we’ve been very appreciative. Steve 634-1644.

We’ve been thinking about getting our first win and we’ve been very appreciative. Steve 634-1644.

I was thinking if these new deals work out, I could go to the Academy next year."

To Colleen, Bridge, Jan, Mike, Meg, & Tiffany.

Remember me in Darkness.

At 1:00.

1. Champagne, you’re my lucky stick.”

No. 1 for the first time since that point from Charlotte, which held to 49-17.

MARCH MADNESS

Big men look to lead the March to Seattle

For Arizona State coach Bill Frieder, it was a press conference in the truest sense of the word. He talked about Kentucky's press, then he talked about his own press.

Then, pressed to explain the Final Four T-shirt he wore, he replied: "It's not a statement. It's a goal.

Frieder will be taking Arizona State to its first regional semifinal in 20 years when the Wildcats (24-8) meet Kentucky (27-4) in Birmingham, Ala., Thursday night.

Arizona State-Kentucky will be the nightcap of the Southeast Regional doubleheader. The first game sends Georgetown (21-9) against North Carolina (26-5). The winners meet Saturday with a Final Four trip at stake.

Friday night, it's Wake Forest (26-5) vs. Oklahoma State (25-9) and Tulsa (24-7) vs. Massachusetts (28-4) in the East Regional semifinals at East Rutherford, N.J., and Memphis (25-5) vs. Virginia (24-8) in the Midwest Regional at Kansas City.

Frieder said he studied the pressure defense of Kentucky coach Rick Pitino in 1992, when injury and mishap forced him into a four-guard press. Arizona State went 18-10, and Frieder liked the press so well he kept it.

"It's important for us to attack the press and to get anything that we can get out of transition," Frieder said. "That's a real must, but then when we get into the halfcourt, it's very important for us to read the defenses, know what's going on, and to not take the first quick shot if 15 seconds later you could have gotten a much better shot."

In the West, Connecticut coach Jim Calhoun still had his team in Reno, Nev., preparing for Maryland All-American Joe Smith.

"We've been here for about 36 hours trying to rest the kids a little bit," Calhoun said.

Maryland advanced to the regional semis with an 82-68 victory over Texas in which Smith had 31 points, 21 rebounds, seven blocks and four steals.

"He plays unselfishly. He's just a terrific basketball player," Calhoun said. "We have an awful lot of work to do to try to stop them."

The Huskies are making their fourth appearance in six years in the round of 16.

In the East, Wake Forest coach Dave Odom has a problem similar to Calhoun's. That problem's name is Bryant Reeves, Oklahoma State's 7-foot, 292-pound center.

"The best thing he does is catch and pass," Odom said. "I think that's a tremendous compliment for a big man because we know he's a physical presence on defense. But I've never heard anyone say he's the best passing big man in the country."

Wake Forest, the top seed in the East, has won 12 in a row.

Brent Moss jailed after violation

MADISON, Wis.

Former Wisconsin running

back Brent Moss admitted

Tuesday that he violated

conditions of his probation on a
drug conviction, a state prison

official said.

But Joseph Scislowicz,

spokesman for the state

Department of Corrections,

said he did not know the

specific violation or violations

involved. Tests for possible

drug abuse were among many

conditions for Moss' probation

after his conviction on a drug

charge last fall.

Moss, 22, who was jailed

Friday, acknowledged in an

interview with Division of

Probation and Parole staff that

he had violated probation,

Scislowicz said.

Because Moss has admitted

the rules violation, "there's a

possibility he will be given a

chance to work in the commu-
nity," but no decision had been

made as of late Tuesday, and

Moss remained jailed, Scislowicz

said.

Mike's presence turns problematic for Kukoc

By MIKE NADEL
Associated Press

DEERFIELD, Ill.

When Michael Jordan retired in 1993, Toni Kukoc cried.

Europe's Earl of Roundball so very much wanted to play with the

NBA's Prince of Midway.

Now that Jordan has un-retired, Kukoc has his chance. Or so it

appears.

But Kukoc seemed lost Sunday during Jordan's return engage-

ment, and Chicago Bulls coach Phil Jackson already is talking about lineup changes.

"Tony's the only member of the starting group who has never

played with Michael, so he's got the most adjusting to do. It's

going to be a while," Jackson said after Tuesday's practice.

"We're going to stick with Toni a little bit and see how he does.

We always know that we can find a way for him to come off the bench

and contribute."  

When the Bulls rallied in the second half of Sunday's 103-96

overtime loss at Indiana, Kukoc was on the bench. Jackson used

unheralded Corie Blount, a better rebounder and defender, at power forward.

Either Blount or Larry Krystkowiak, who is on the injured list, could eventually start.

Kukoc, who has avoided the media the last few days, hates

coming off the bench. When he finally cracked the starting lineup in late December, he considered it a milestone in his two-year NBA career.

GREENSBORO, N.C. - The Atlantic Coast Conference has bolted to an 8-0 start in the NCAA tournament, winning by an average of 17 points per game.

A look at the ACC's performance in the first two rounds:

**Points**
- 29 - Antonio McDyess, Alabama vs. Pennsylvania, first round
- 35 - Pete Sessa, Old Dominion vs. Villanova, first round
- 31 - Chris Bibby, Illinois vs. Wisconsin, second round
- 33 - Daryll Wilson, Mississippi State vs. Utah, second round
- 31 - Shy Seals, Tulsa vs. Old Dominion, second round
- 32 - Joe Smith, Maryland vs. Texas, second round
- 32 - Jerome Allen, Pennsylvania vs. Alabama, first round
- 30 - Johnny Miller, Temple vs. Cincinnati, first round
- 29 - John Wallace, Syracuse vs. Arkansas, second round
- 29 - Rayshard Allen, Tulane vs. Kentucky, second round

**Rebounds**
- 29 - Antonio McDyess, Alabama vs. Pennsylvania, first round
- 18 - Malik Rose, Drexel vs. Oklahoma State, first round
- 17 - Antonio McDyess, Alabama vs. Oklahoma State, second round
- 17 - Jimmy King, Michigan vs. Western Kentucky, first round
- 17 - Jason Lawson, Villanova vs. Old Dominion, first round
- 16 - Arthurr Long, Cincinnati vs. Connecticut, second round
- 16 - Jeff Harris, Saint Louis vs. Wake Forest, second round
- 15 - Keith Booth, Maryland vs. Gonzaga, first round

**Assists**
- 11 - Kevin Oliseh, Connecticut vs. Tennessee-Chattanooga, first round
- 11 - Steve Onije, Oklahoma vs. Manhattan, first round
- 10 - Jimmy Maloney, Colgate vs. Kansas, first round
- 10 - Andre Owens, Oklahoma State vs. Alabama, second round
- 9 - Marcell Capers, Arizona State vs. Ball State, first round
- 9 - Kenya Wilkins, Oregon vs. Texas, first round
- 9 - Kevin, Oliseh, Connecticut vs. Cincinnati, second round
- 9 - cellphone, Kansas vs. Western Kentucky, second round

Florida proves friendly for Belles

By CAROLINE BLUM
Saint Mary's Sports Editor

After spending their spring break in Florida training for the big '95 season, the Saint Mary's softball team kicked off from junior pitcher Maria Vogel.

In Florida, the team lost five and won three against some tough competition, which was an encouraging opener for Belles.

Mary's sophomore and last pitcher Maria Wheaton scored a run in the seventh inning with the Belles' only weapon, however.

The Belles' spirit rewarded with four runs in the first inning, three more in the second, and two more before Wheaton finally issued the Slaughter Rule in the fifth inning, which declared the Belles the winners.

The Slaughter Rule declares a team, if winning by eight runs after the fifth inning, to be the winner. The plurality of runs resulted from blasts from freshman third baseman Andrea Arena, junior outfielder Laura Ritcher, and the speed of junior outfielder Michelle Linh.

Great outfield catches by Ritcher and double play action by junior shortstop Shannon Heise also swiped several scoring opportunities from Wheaton.

"We're both two very even teams. On a given day, we both have an equal opportunity for a win. In the first game we dominated the hitting, while in the second Saint Mary's dominated the hitting," said the Wheaton head coach.

Harrick has lasted longer than four seasons. His 164-55 record in seven years is better than Wooden's mark of 99-51 over the same stretch.

"I really had a honeymoon the first four years. There was not a negative word ever said," Harrick recalled. "Then we went to the Elite Eight (in 1992) and the advent of talk radio kind of changed everything.

"I'll get on a talk radio show and a guy will say, 'You can't coach.' I'll say, 'You have a right to say that, but give me an example.'"

The caller usually cites Harrick's penchant for not calling timeout ("a silly little thing") he says, or sometimes calling one at the wrong moment.

"I accept constructive criticism," he said. "It's blatant and ignorant remarks that upset coaches more than anything."

The Belles fought back in the second inning, however, with two runs off whiffs by sophomore infielder Kathleen Mabauer and senior catcher April Hloody.

Wheaton came back with two runs, and Vogel entered the seventh inning with the Belles' only run down 4-2. Lighting struck Wheaton, however, as they delivered seven crushing hits, costing the Belles six runs.

The Belles gave up their last chance for a fight with three quick outs, and the final score remained 10-2.

The day was long from over for the Belles, however. The day was long from over for the Belles, however.
**Penn State gets a taste of revenge**

**Associated Press**

LINCOLN, Neb. - Raheem Carter scored eight of Penn State's final 10 points as the Nittany Lions rallied to beat Nebraska 65-59 Tuesday night in the second round of the NIT.

The game matching the seventh-place finishers in the Big Eight and Big Ten was tight during the first half. There were six ties, the final one coming when Greg Bartram hit a buzzer-beating 3-pointer to make it 36-36.

The Nittany Lions (19-10) were 8-of-16 from long range in the first half, but made only four 2-point baskets and four free throws.

Nebraska threatened to break the game open early in the second half. Mikki Moore scored the first eight points in a 12-0 run as Nebraska took a 48-36 lead.

But then the Huskers (18-14) went cold, scoring just 11 points in the final 16 minutes, often missing open shots and layups.

Penn State fought its way back into the game with two 3-pointers from Dan Earl and a basket by John Amaechi, cutting Nebraska's lead to 48-44 with 13:03 left.

The Nittany Lions took their first lead of the half with 6:38 remaining when Pete Liskay hit his second consecutive 3-pointer to put Penn State on top 55-53.

Moore, who scored all 15 of his points in the second half, hit a pair of free throws to put Nebraska back in front. But then Carlton, who had been on the bench with four fouls, came back in and hit a long jumper to give Penn State the lead for good.

Carlton led Penn State with 19 points. Earl had 14 and Amaechi added 12.

Moore paced Nebraska with 15 points. Jaron Boone finished with 11 points, all in the first half.

**Baseball**

continued from page 20

senior Tim Kraus fared better in their one inning, with Balki surrendering one hit and Kraus two.

Notre Dame was also hurting defensively due to the injury to starting hitter Rowan Richards. Richards leads everyday players with a .429 average, and is second to Togham in home runs and RBI. Freshman Marcus Smith got the start in Richards place, and wore the collar, striking out once in four at-bats.

The Irish will have to regroup in a hurry. Thursday the team travels to Miami for a three-game weekend series with the third-ranked Hurricanes.

**Saint Mary's Tennis**

Saint Mary's tennis opens with DePauw

By CAROLINE BLUM

Saint Mary's Sports Editor

After practicing at Hilton Head during the break, the Saint Mary's tennis team kicks off their regular season today against DePauw.

The team lost 3 and won 4 at Hilton Head, but they were up against quality competitors.

"Although we went 3 and 4, I'm happy with our performance at Hilton Head last week. We played four good Midwest teams, including a team from Division 1. This will prepare us for the competition we will be encountering this season," said the team's head coach Katie Cromer.

This year is Cromer's second as head coach at Saint Mary's, and she is very confident in the team.

The tennis team last played DePauw in the fall, but were defeated 6-3. However, two of the matches were very close and could have gone either way.

"Hopefully, Hilton Head has prepared us for a victory against DePauw. This will be a very close match, and could be a great turning point for our team," said Cromer.

The team's doubles will be led by senior Brian Krzycki and junior Andrea Ayres, who defeated DePauw in three sets in the fall. Sophomore Katie Kozak leads the team's singles, followed by number two Ayres.

**Unconscious Carey blanks Ottawa**

By DAVID GINSBURG

Associated Press

LANDOVER, Md. - Goaltender Don Beaupre was brilliant Tuesday night in his return to the arena where he played for six straight seasons.

Unfortunately for Beaupre, his old team surrendered one hit and Kraus in their one inning, with Baiicki in four seasons to record consecutive shutouts, getting a goal. The rookie entered with an NHL-best 1.47 goals-against average and is now 9-1-1 in 19 months.

"It wasn't that long ago that we were fighting to even .500,” Beaupre said of his former teammates. "I'm just glad I played a decent game. He was a great game. He was flawless,” Carey said. "You can’t blame him for a breakaway.”

Carey, who blanked Hartford on Monday night, has gone 171 minutes, 5 seconds without a goal. The rookie entered with an NHL-best 1.47 goals-against average and is now 9-1-1 since being recalled from the minors earlier this month.

Irish elite return from Arizona with NCAA hopes

By MICHAEL DAY Sports Writer

Not quite all work and no play. While Spring Break was a time for rigid preparation and intense competition for several of Notre Dame sports teams, the majority of the Irish track team was given the time for rest and relaxation.

That is all except for seven of the squad's top athletes.

While deprived of the full week vacation, the selected group made the most of the opportunity and enjoyed a successful weekend at the Arizona Invitational on March 17-18.

"It was a pretty good gauge of where people are at this point in the season," said assistant coach John Millar. "It was a good starting point for us and we seemed to be in pretty good shape."

It was an especially good day for Irish newcomers. Freshman Errol Williams placed third in the 110 meter hurdles with a time of 14.54. In the 800 meter run, Berit Junker also represented the Class of '98 well, finishing fourth with a mark of 2:10.17.

It was also another banner performance for senior Monica Cox, one of Notre Dame's top returning seniors.

She recorded a time of 14.33 in the 100 meter high hurdles, good enough for sixth place in the event.

"She is one of at least five that we feel have a great opportunity of qualifying for the NCAA's," said head coach Joe Piane.

With two runners finishing in the top ten, the 400 meter dash was the most successful event for the Irish on the afternoon.

Freshman Danny Patton captured sixth place with a time of 48.91, and sophomore Troy Langevine's mark of 51.14 earned him a tenth place finish in the competition.

"Everyone performed well, and I think the meet was good preparation for the outdoor season," said Millar.

"They needed the chance to perform in less than perfect conditions."

With the squad divided up to compete in the Wabash, Purdue, and Stanford Invitations, this weekend will serve as the first test for Notre Dame in the outdoor competition.

---

Irish unable to withstand early Sycamore barrage, leave Indiana State with disheartening 12-8 loss

By MEGAN McGRAITH Sycamore's first baseman Jeff Leaman was the only player to have multiple hits for the Irish, adding another solo shot in the seventh. He drove in his third run of the game with a bases loaded walk.

Senior captain Craig DeSensi had a double and drove in three runs for Notre Dame.

Second baseman Randall Brooks also had a solo home run, his first of the season.

Irish unraveled for four runs in the third. A Ryan Topham home run run and another Irish run in the sixth brought Notre Dame to within two, but Indiana State scored three runs on reliever Rich Sauget to put the game out of reach.

Topham was the only player to have multiple hits for the Irish, adding another solo shot in the seventh. He drove in his third run of the game with a bases loaded walk.

Senior captain Craig DeSensi had a double and drove in three runs for Notre Dame.

Second baseman Randall Brooks also had a solo home run, his first of the season.

Leaman led the Sycamores at the plate, going 3x5 with four RBI. Catcher David Ulsery went 3x5 with a home run and three RBI.

Two ISU pitchers combined to stymie the Irish. Starter John Huemmer went four innings, giving up five earned runs on five hits. Reliever Brad Finken picked up the win in relief. In five innings of work, Finken gave up just one hit, Topham's homer, and struck out five.

Again the Irish proved vulnerable beyond their top three pitchers. After Allen got the hook, relievers Larry Mohs and Rich Sauget gave up four earned runs and six hits in four and a third innings of work.

Irish unable to withstand early Sycamore barrage, leave Indiana State with disheartening 12-8 loss

By MEGAN McGRAITH

The Notre Dame baseball team challenged Indiana State to a home run derby Tuesday at Terre Haute.

The Irish may have won the homer competition three round-trippers to two, but the Sycamores won the game, triumphing 12-8.

Senior starting pitcher Craig Allen got knocked out of the box in the second inning, after giving up a grand slam to Sycamore third baseman Jeff Leaman. Allen gave up seven hits and eight earned runs in one and two-thirds innings of work.

The Irish rallied for four runs in the third. A Ryan Topham home run and another Irish run in the sixth brought Notre Dame to within two, but Indiana State scored three runs on reliever Rich Sauget to put the game out of reach.

Topham was the only player to have multiple hits for the Irish, adding another solo shot in the seventh. He drove in his third run of the game with a bases loaded walk.
