Hall of Fame shines alongside inductees

Service program targets freshmen

By KRISTI KOLSKI
Assistant News Editor

As freshmen settle into their new home for the next four years they will have an opportunity that will extend beyond the typical orientation to college life at Notre Dame.

The new Campus Community Introduction program, which has come to fruition through efforts between Student Government and the Center for Social Concerns, aims to orient freshmen to community service opportunities in South Bend.

Organizers have arranged with eight local service programs to sponsor on-site informational visits.

Freshmen will visit two centers of their choice to meet current volunteers and to gain a greater understanding of the services provided at the individual locations.

According to Jonathan Patrick, Student Body President, the rewards of the program are multi-faceted.

"The program will help provide a perspective towards injustices in our world and the efforts made to address them," stated Patrick.

If students are intrigued, then great. If not, at least they know a little more about the community.

Jonathan Patrick

Students will also see and understand a little more about the community and the relationship with Notre Dame.

According to Patrick, "we hope to provide and opportunity for students to get off-campus for reasons other than just going to parties or bars.

The program is a painless way to increase students chances for getting involved. Patrick hopes that the orientation will spur interest in the programs. "If students are intrigued, then great. If not, at least they know a little more about the community," stated Patrick.

Freshmen received information about the Campus Community Introduction program prior to arriving at school. So far, more than 541 freshmen have signed up to participate, more than expected by organizers.

Since the program is in its incipient stages, it will only be able to facilitate the requests of 100 to 200 freshmen.

Due to such great demand the program may be offered again in the spring.

The program is young but Patrick feels it has a lot of potential.

"We'll spend a lot of time evaluating the program. Depending on how things go we'd like to continue each year with the freshmen class."
Should we be afraid of the dark?

I have an announcement to make, and I am probably going to anger and offend a few key people in the process. But I have always found it much more fun to consciously anger and offend, as opposed to my standard reaction of subconsciously angering and offending, as opposed to my standard reaction of subconsciously angering and offending, as opposed to my standard reaction of subconsciously angering and offending, as opposed to my standard reaction of subconsciously angering and offending, as opposed to my standard reaction of subcons.

I went to visit friends in Regina Hall when I got there. Imagine my surprise and delight to find that the doors were not working correctly, effectively locking out all of my friends. I went right there in the woods and a wall of fire went right over us.

Evil oysters strike again

Newly harvested oysters from the Gulf of Mexico will not be refrigerated under new regulations adopted by the Food and Drug Administration. The FDA reports that between 1990 and 1994, 10 people have died in a parody of Jesus' resurrection. Susan B. Anthony was among the first to buy a ticket for the resurrection.

Bystanders were scared to death

It's not that we don't want to help, "he said. "We were in a position where we could not help." Deletha Wurd, 33, drowned in the predawn hours on Aug. 19 after she jumped from the Belle Isle bridge into the Detroit River. Marshall Welch, 19, was charged with murder. Richard Padzieski, an assistant Wayne County prosecutor, said McFadden "insisted on being in my office Friday that the suspect offered World to the crowd was new. "Either his memory has improved or he's embellishing," Padzieski said. Police Cmdr. Gerald Stewart also said he had not heard the allegation. However, McFadden, a reported eyewitness, said he was positive about what he saw and would submissively tell a lie-detector test. Mayberry said he was among 15 to 20 bystanders across the bridge when the fire flattened a large crowd of people. "It's like being in a car," he said. The report said most onlookers were afraid to intervene.

**Women still elected minority**

By DAVID BRISCOE

Associated Press

WASHINGTON

Women in nearly every country gained voting rights this century, but getting them elected is harder than it was in the late 1990s.

Women's share of seats in national legislatures has declined from 17.1 percent worldwide in 1988 to just over 11 percent this year, according to a country-by-country survey by the Inter-Parliamentary Union.

The detailed 1945-1995 survey released Saturday shows that only Nordic lands are making "ready-to-accept" apologies from other people who have made similar allegations.

"Here's all we ask: When charges are made and leveled against us, don't take them at face value," Philip Morris wrote.

"We didn't consider the information we provide and then insist as importantly — subject the charges themselves to the scrutiny and skepticism they deserve. Fairness and a sincere interest in the truth demand no less."

** Forums to focus on race relations **

By SARAH TAYLOR

News Writer

Throughout the year, the office of Multicultural Student Affairs will institute Inter-Race Forums designed to promote a sense of belonging for students of mixed ethnicities. The forums focus on inter-racial relationships and their social ramifications.

**Castano, Dutch officials turn over documents to OMSA**

**Women's share of seats in national legislatures has declined from 17.1 percent worldwide in 1988 to just over 11 percent this year.**

**Philip Morris declined immediate comment.**

Under the settlement, ABC apologized Monday night for suggesting that Philip Morris "spikes" its cigarettes with large amounts of nicotine. The network also must post a notice about the documents to the Philip Morris.

But ABC officials were served subpoenas Thursday ordering them to turn over the documents for use in the federal lawsuit, said Washington attorney John P. Coyle.

The Castano case, filed in New Orleans on behalf of every smoker and former smoker, accuses tobacco companies of manipulating nicotine to hook smokers.

**Philosophy**

There is no question more important than the motive question." Fear, Henry Waxman wrote Philip Morris Chairman Geoffrey Bible Thursday.

The papers are under seal by order of a Richmond, Va., judge. Court arguments by ABC and Philip Morris lawyers indicate the thousands of documents not only detail how Philip Morris manipulates nicotine, but Waxman challenged the company to release the documents to the public immediately.

"The goal is the pursuit of the truth, there can be no justification for withholding such critical documents from congressional and public scrutiny," he said.

Philip Morris declined immediate comment.

**Philip Morris now under Congressional fire**

By LAURAN NEERGAARD

Associated Press

WASHINGTON

When Philip Morris Inc. (OPMA) lost its $10 billion libel suit against ABC-TV this week, it put in the company's vaults thousands of internal documents about nicotine in its cigarettes that ABC had planned to unveil in court.

The congressman and attorneys for a massive class-action lawsuit moved separately to release those documents to the public, arguing they could prove whether the world's largest tobacco company manipulates nicotine specifically to hook smokers.

"There is no question more important than the motive question," Fear, Henry Waxman wrote Philip Morris Chairman Geoffrey Bible Thursday.

The papers are under seal by order of a Richmond, Va., judge. Court arguments by ABC and Philip Morris lawyers indicate the thousands of documents not only detail how Philip Morris manipulates nicotine, but Waxman challenged the company to release the documents to the public immediately.

"The goal is the pursuit of the truth, there can be no justification for withholding such critical documents from congressional and public scrutiny," he said.

Philip Morris declined immediate comment.

Under the settlement, ABC apologized Monday night for suggesting that Philip Morris "spikes" its cigarettes with large amounts of nicotine.

The network also must post a notice about the documents to the Philip Morris.

But ABC officials were served subpoenas Thursday ordering them to turn over the documents for use in the federal lawsuit, said Washington attorney John P. Coyle.

And remember, she's the limit... it's up to you...
Storm threatens Caribbean
By DANIEL HIERSO
Associated Press

FORT-DE-FRANCE, Martinique
Homes were flooded by high tides and warnings were posted throughout the eastern Caribbean Saturday as Tropical Storm Iris slipped between the islands of Martinique and Dominica.

By late afternoon, the storm was headed toward the Virgin Islands and Puerto Rico, but there was no guarantee it would stay on that path.

Storm warnings were dropped for St. Lucia and other Eastern Caribbean islands south of Martinique. But islands northwest of Iris kept alert, among them Dominica, St. Kitts-Nevis, Antigua and Barbuda, Montserrat, St. Maarten and Anguilla.

The storm did not hit land with full force as predicted, but as it approached just north of Martinique, residents boarded windows and stocked up on food and candles.

Authorities reopened Lamentin International Airport, closed on Friday, but urged people to stay indoors.

There were no reports of major damage on any of the islands, although some homes were flooded by rising tides. Small craft were anchored offshore and taken to more sheltered harbors.

A small pilot launch belonging to the St. Vincent Port Authority sank in the Kingstown Harbor as nine-foot swells washed over the piers.

Two passenger ferries that connect St. Vincent and Nevis, the largest of the Grenadine islands, canceled service for the day. The airport was open, but several flights were canceled to the islands of the southern Grenadines to the south.

The National Hurricane Center in Coral Gables, Fla., said Iris was packing sustained winds of 45 mph. Forecasters did not expect much change in strength over the next 24 hours as Iris moves to the northwest at 6 mph.

Storm warnings were extended northwestward all the way to the British Virgin Islands. The U.S. Virgin Islands were urged to keep watch by the hurricane center, which said Puerto Rico might be placed on storm watch status by Sunday.

Iris was expected to hit the islands of the southern Caribbean on Friday night, but stalled a few miles offshore, then resumed its course in the morning.

On Montserrat, 140 miles northwest of Martinique, fears of heavy rains and winds from the storm, coupled with the threat of a newly active volcano, prompted the government to offer free evacuation flights to neighboring islands.

Another storm, Hurricane Humberto, was far out in the Atlantic, some 1,500 miles west of Cape Verde.

In Florida, residents began to dry out after Tropical Storm Jerry's drenching rains. Miami Beach, virtually deserted during the week, slowly filled up with sun worshippers Saturday.

Winds in Tampa, Fla., were heavy enough to turn lawns into piles of debris and streets into rivers, sending residents wading to call tow trucks after their vehicles stalled on the roads.

Remnants of the storm also scattered rain over parts of Georgia and South Carolina.

Packwood wants public to hear misconduct case
By LARRY MARGASAK
Associated Press

WASHINGTON

In a stunning reversal that could delay conclusion of his ethics case, Sen. Bob Packwood said Friday that he wants public hearings into charges that he committed sexual and official misconduct.

The Oregon Republican changed his mind after vowing last week to "fight fire with fire" by aggressively confronting his female accusers. Just last month, he had declined to request hearings that are his right under Senate Ethics Committee rules.

Packwood, who chairs the Finance Committee, said he reversed himself because the Ethics Committee "changed its rules in the middle of the game" — reopening its investigation to consider two recently filed complaints of sexual wrongdoing.

His request could persuade the committee to overturn its earlier decision against hearings when it meets next month. If not, the switch could change the 52-48 Senate vote that upheld the committee's decision.

Aator said his earlier decision was based on his belief that the investigation of more than 2 1/2 years had ended.

He has strongly disputed the story of one of the two new accusers, a woman who was 17 when, she alleged, Packwood made a sudden and unwelcome sexual advance in 1983.

Illegal alien deportation expected to increase

By CASSANDRA BURRELL
Associated Press

WASHINGTON

Deportations of illegal aliens convicted of serious crimes are expected to reach 30,000 this fiscal year, 5 percent more than projected, immigration officials said Friday. More aggressive enforcement enabled the Immigration and Naturalization Service to send 8,134 convicted aliens home in April, May and June, an increase of more than 10 percent over the previous quarter.

New rules mandated by the 1994 crime bill could push numbers up even higher, said T. Alexander Aleinikoff, the INS executive associate commissioner of programs.

"We believe this is the beginning of a trend which will result in the doubling of the number of convicted aliens removed next year," he said. "A criminal conviction means jail time and a one-way ticket home." The INS has expected to deport 28,579 convicted aliens in fiscal 1995, which ends Sept. 30.

Rules that went into effect Thursday created "administrative deportation," a new and faster way to deport aliens convicted of aggravated felonies such as murder, armed robbery, firearms trafficking and narcotics violations, the INS said.

The aliens now can be deported without a hearing before an immigration judge if they are not permanent U.S. residents and don't qualify for any program that would allow them to stay in the United States.

The INS didn't release figures on how many illegal aliens are incarcerated, but federal prisons house about 29,000 foreign-born inmates, and about 72,000 are being held in state prisons. Not all are illegal aliens, INS spokesman Greg Gagne said.

In 1993, 644 of the 36,686 aliens deported for criminal acts or other reasons were European, 510 were from Asia, 405 from Africa, 40 from Oceania, 1,589 from South America and 33,459 from North America — including 25,501 Mexican citizens, the INS said.

Sprint threatens in telephone war

By JEANNINE AVERSA
Associated Press

WASHINGTON

In its latest bid to woo long-distance customers, Sprint is introducing a program where callers get money back for talking on the phone. The more they talk, the greater the return. Under the program, which Sprint planned to announce Monday, customers will get 10 percent of each monthly phone bill back in cash. The rebate money accumulates and is paid once a year.

Brian Adamik, an analyst with Tackle Group, said the plan should increase the company's profitability by reducing "churn" — customers switching to another long-distance company. Wally Meyer, a Sprint vice president, wouldn't disclose the company's churn rate, but he said Adamik agreed churn is a big industry problem.

To hang onto its customers, AT&T, through its True Rewards program, provides those who spend $25 or more a month points that can be redeemed for a variety of items or cash.

MCJ's Friends and Family Extra program also offers customers redeemable points. Not surprisingly, AT&T and MCJ criticized Sprint's new plan.

"Customers don't want to wait a year for savings they should be getting every month," said Chris Mannella, MCJ's director of brand marketing. "Customers want instant gratification," said AT&T spokesman Jim McGann.

AT&T, in the battle for customers, introduced a new plan Aug. 18 discounting a wide variety of calls made in the United States.

Sprint customers who want the rebates must enroll at no charge in Sprint Sense, a discount calling plan. Sprint Sense debuted Jan. 9. Since then, roughly 1 million people, a combination of existing and new customers, have signed up for it, Meyer said. The plan is largely responsible for a 39 percent increase in residential sales in the first half of 1995, compared to the same period in 1994, he added.

Under Sprint Sense, customers pay a flat fee — 10 cents a minute from 7 p.m. to 7 a.m. daily, including weekends. For peak hours — from 7 a.m. to 7 p.m. — the fee rises to 22 cents a minute.
UN questions Iraqi claims

By BOB SEAVEY
Associated Press

UNITED NATIONS

In a chilling revelation following five years of subterfuge and denial, Iraq has admitted its weapons program previously disclosed.

"We just received a chilling briefing," she said after the council's meeting Friday with the chief U.N. weapons investigator, Rolf Ekeus, who has just returned from a fact-finding mission to the Mideast.

French and British diplomats agreed.

"These latest disclosures from Baghdad say much more about the credibility of the Iraqi government and the threat it still poses than they do about the possibility of lifting sanctions any time soon," Albright said.

The oil embargo and other sanctions were imposed after Iraq invaded Kuwait in August 1990.

An allied force led by the United States drove Iraq out in a two-month war that ended in February 1991.

U.N. resolutions require Iraq to prove it has destroyed its missiles and weapons of mass destruction — nuclear, biological and chemical — before the sanctions are lifted.

But U.N. investigators have long suspected Baghdad has been holding back information about how many weapons it had. Iraq's latest revelations came only after the defection of Iraq's weapons chief, Lt. Gen. Hussein Kamel al-Majid, Ekeus said.

Mexico announces debt plan

By SARA SILVER
Associated Press

MEXICO CITY

Mexican government and banking officials on Wednesday signed a $1.5 billion debt relief package that will cap interest rates for millions of consumers struggling to pay off loans with rates that soared after the peso devaluation.

The plan is designed to quiet increasingly loud protests by debtors, especially marginal middle class debtors, found they suddenly could not keep up payments.

Interest rates rose to the 100 percent range.

For business loans, the plan will fix an interest rate of 25 percent for debt up to $32,250. Any amount above that would be payable at market rates — currently 50 percent or higher.

Credit card debt would be payable at a fixed rate of 38.5 percent for the first $506 of debt, with the balance payable at market rates.

Mortgages up to $32,250 were to be restructured.

Also Wednesday, the peso closed at its weakest level against the dollar in more than four months as Mexican banks were cautiously buying the U.S. currency ahead of Zedillo's Sept. 1 state of the union address.

China finds American guilty of spying

By RENEE SCHOF
Associated Press

BEIJING

A Chinese court on Thursday found American human rights activist Harry Wu guilty of spying and other charges and sentenced him to 15 years in prison.

The court also said Wu will be expelled from China. It was unclear whether he would first have to serve all or part of the sentence.

Wu was convicted of spying, illegally obtaining, buying and providing state secrets to foreigners and posing as a government worker, the official Xinhua News Agency reported.

He was taken into custody June 19 while trying to enter China from Kazakhstan and was formally arrested July 8 on spying charges.

He later was taken to Wuhan, a city in central Hubei province.

The Wuhan Intermediate People's Court announced its verdict on Thursday morning. Wu has the right to appeal. However, appeals in China virtually never change the verdict.

The brief report from the state-run news service gave no other details about the case.

The announcement came on the day when Undersecretary of State Peter Tarnoff was due to arrive in Beijing in hopes of seeing progress in Wu's case.

The women's conference is set for Sept. 4-15. Republican congressional leaders urged Mrs. Clinton to boycott the meeting in protest of China's human rights abuses.

Wu's wife, China Wu, also urged Mrs. Clinton not to attend as long as Wu was being held.
Everyone I have taught in Notre Dame Law School last year, he \textit{does} man

and peaceful human coexistence, and, personal uniqueness and the possibility of happiness through his natural law, which is firming its source.

Professor Edward J. Murphy, who served as a professor of law from 1957 until cancer forced his retirement in 1994, died this past July 24.

Professor Murphy was the leading academic authority in the nation on contract law. In his role as a competent teacher, he taught every student at the Law School from 1957 to 1994.

Those students and his faculty colleagues learned much from him. Among other lessons, he taught, by example, that we should do our work very well but should always keep the family as our first priority. We learned, too, that constructive change in the law and society, as in this University, is best achieved by organic development rather than by premeditated master plans.

Less well known than his contracts achievements is the unique contribution Ed Murphy made to Notre Dame and his students by teaching Jurisprudence. He taught that law involves the definition of its terminologies, and that there is no sense to talk about law without affirming its existence.

He reminded us that the ultimate source of law in all God is law. That is the end of everything, the place of happiness through his natural law, which is revealed in an explicit Revelation, which is communicated through the church, which is the house of the Father, and of the Son, and of the Holy Spirit.

The trinity is the central fact of all reality. There is nothing more basic in God's creation than this set of overarching significance that everything else must be understood in its place. By affirming the trinity as we begin a law class, we make a fundamental jurisprudential statement.

Charles Rice

We acknowledge God as sovereign, and we pledge to model our law in the law upon what we know of His law-order. We cannot escape reality. According to God's word, we obey and we are blessed; we disobey and we are cursed. His moral laws are just as objective as His physical laws. We may, of course, ignore a law of God or pretend that it doesn't exist. But we must still suffer the consequences of violation.

It is, however, precisely this objective character that provides encouragement and hope. For the judgments are themselves therapeutic; they can have a healing effect. In whatever we do, let it be with confidence in the name of the Father, and of the Son, and of the Holy Spirit.

In his teaching, Professor Murphy uniquely integrated faith and morality with the law. What he taught is needed by law students today, including those at Notre Dame. Moreover, he was gifted with an exceptional ability to communicate at various levels.

For ten years, he and I team-taught a course on a volunteer basis at Marian High School. His own book, "Life to the Full," was his basic text. I still encounter students in that course whose spontaneous comments evidence the impact his teaching had on their lives.

However, the most effective class I ever saw Ed Murphy give was not even in a classroom. It was on a September night in 1989, when he led a handful of others in reciting the Rosary outside the Snite Museum in protest of—and reparation for—Notre Dame's sponsorship of a public showing of The Last Temptation of Christ.

Professor Murphy accurately described that film as a "blasphemy of Christ" and its sponsorship by the University as an "outrage." His witness, though quiet and dignified, was politically very incorrect. Very few joined him in it. Yet I am sure he would have gone out there all by himself, even if no one had followed his lead. He knew it was the right thing to do. That night he was a great teacher at his best, for those who were there and for those who would later reflect upon his witness.

After retirement, and while he was fighting cancer, Professor Murphy emoted on one of his most intriguing enterprises.

He wrote and published, as a family business, "saint cards" featuring prominent criminals. "When I noticed," he said, "that a lot of the saint cards are kind of stereotyped, a little bit goofy, I knew this was a mission for me." By authorizing their sponsorship of a public showing of The Last Temptation of Christ.

They range from the Apostles to St. Maximilian Kolbe. "Most of these cards," Murphy said, "are cards of sinners who are kind of stereotyped, a little bit sassy, wanted a few real nice pictures." Murphy said. The second set of fifty cards was published the day before Professor Murphy's funeral.

Incidentally, the numbers one through fifty in the series were reserved for cards related to the Blessed Mother. "She comes first," said Murphy, who was preparing to start work on those cards when he died. The thought occurs that Murphy said to this good man, "Well done. Now come on home, and let me take care of the rest."

"The most glorious and desirable death," wrote St. Vincent de Paul, "is that which surprises us with arms in our hands for the service of the Lord." That describes in detail the death of Ed Murphy.

His death was not immediately expected. He had just picked up a very large number of orders for the saint cards, Ed regarded those cards, and his books and other writings on God's law and jurisprudence, as more important than all his excellent technical legal works.

The saint cards are a novel idea; they are popular and they are timeless. Their impact will go on for generations, especially with the young. In a real sense, those cards were the weapons, in Ed's hands for the service of the Lord, when he died.

In a larger sense, Ed Murphy spent his entire life in service to Christ. He was more effective and frustrating to the opposition, because of his unfalling kindness and fairness. Some might disagree with him, but no one could resent him for anything but the highest respect.

He was informed and uncompromising in his belief. In his final days, he attended the teachings of the Catholic Church, in his home, in the presence of his Catholic university. He was unfailing, he was unapologetic, and in his defense of the right life of the innocent, including first of all the unborn child.

Ed Murphy's commitment to Christ was total, especially through his dedication to Mary and the Rosary, which he prayed with his wife, Mary Ann, in the car, minutes before he died.

In fitting that Ed Murphy died a death which was, "the most glorious and desirable" because he died in "the service of the Lord," Eternal rest grant unto him, O Lord, and let perpetual light shine upon him. May his soul and the souls of all the faithful departed, through the mercy of God, rest in peace.

Professor Rice on the Law School faculty. His column appears every other Monday.

-Interviewers want you to bring out your intestines.

-Marlene Dietrich

**Quote of the Day**

"Peace comes to those who are prepared for it. Peace is a victory for those who fight for it with all their might. It is an act of love. It is a time of joy, a time of rest, a time of hope."

---Martin Luther King Jr.
Tornado warning requires an immediate action because a tornado has been spotted. It can happen visually or on radar and Notre Dame is in its path.

The South County’s Civil Defense Tornado Warning system will activate the siren near the North Dining Hall. For tornadoes, the siren will issue a steady sound for 3 to 5 minutes...If the siren is sounded all community member should:

A. Take shelter in the most substantial building immediately.
B. Go to the basement or to an interior corridor.
C. Avoid windows, larger rooms, auditoriums or gymnasiums.

Tornadoes are unpredictable, if anything. They can occur anywhere. When a thunderstorm occurs, columns of air rise (updrafts), providing the storm with warm air. There are also down drafts which bring rain and cool air to the earth’s surface. During a severe thunderstorm, strong winds may combine to force an updraft to twist and turn. This is what’s called a mesocyclone. It will spin even faster with more warm air. As it cools, it forms a funnel shaped cloud. Soon, it will be able to stretch down from the clouds. If it touches the ground, it could become a tornado.

The inside of a tornado is characterized by low pressure. As the funnel moves over the ground, it can and often will sweep up everything in its path. Often, a tornado gets its color from whatever debris it has swept up. For example, a newly plowed field will produce a brown tornado. To survive, though, the tornado needs heat energy. Without more warm air, the funnel will rotate slower and slower. Soon it will die.

Tornadoes are unpredictable, if anything. They can occur any time of year, but usually strike in spring and summer. They occur mostly in the United States. Texas has the record for greatest number. The deadliest tornado in history occurred on March 18, 1925. In 23 minutes, it killed 693 people. In and a half hours, it ripped through 219 miles of Missouri, Illinois and Indiana. The “Tri-State-Tornado” left behind 689 dead, 2000 injured and 11,000 homeless.

When conditions are ripe for a tornado, you’ll often see a “Tornado Watch” graphic on the lower right hand corner of your television screen. This is not to be confused with a “Tornado Warning.” This means that someone has actually seen the tornado or that severe weather is forecast. If you are outdoors, find the lowest area possible and lie down flat, covering your head. If you are in your car, leave it for lower ground.

Although there’s little chance that a tornado will whip you along into the magical world of Oz, there is definitely a good possibility of severe damage and injury. As with all cases of extreme weather, please use caution when driving or when outside. Remember, you don’t have to be named Dorothy to be swept away.

---

**SUMMER MOVIE RECAP**

To the moon and back again

From the Scottish Highlands to the Moon, summer’s movies spanned the proverbial gamut. The films seemed to be dominated either by large-scale epics complete with traditional hacking and hacking and hacking, or by robotically synthetic fantasies with computer enhanced special effects. The summer was weak on solid drama, erasing the possibility of the tear jerking warm, "Bridges of Madison County." If you let the summer blow by without catching any of the romantic comedies like Hugh Grant’s "Four Weddings," "French Kiss" or "Forget Paris," don’t worry. You didn’t miss anything. Unfortunately, most summer films are this way. No one looks at very few actually commented upon the world we live in today. It appears as if the audience needs to escape now more than ever.

"Braveheart?" "Indiana?" "Emma?" among Beverly Hills teenagers works perfectly. The cool air from Mexico. Instant Karma! The summer was weak on solid drama.

**Even South Bend is vulnerable to tornadoes**

By KRISTA NANNERY

Tornado Watch in effect? What? The summer season is branded with a name named Dorothy in Kansas! You’ve gotta be kidding me! A tornado? In South Bend, Indiana?

No joke. It could happen. Maybe you’ve seen the signs up around campus. Those green ones with instructions about what to do in case of a tornado. Hide in the basement and all that. What’s all the fuss about, you ask? Should I nail everything to the floor now? Hang on a minute. Don’t get swept away (pun intended). We’ll explain.

First, what is a tornado? It’s simple. Sometimes the atmosphere gets a little excited. If really, a thunderstorm has just passed over. There may be a load roaring noise and some hail. It’s thought that the size of a basketball or a person (the intensity of the oncoming tornado). This is all brought on by all these things.

This may not be Kansas...
Seles returns to U.S. Open following 2 1/2 year layoff

BY STEVE WILSTEIN
Associated Press

NEW YORK
The giggle is back at the U.S. Open, and Monica Seles feels home at last.

Seles returned just for the fun of it, playing doubles for the first time with her former coach in the Arthur Ashe AIDS Tennis Challenge and is set for prime-time Monday night in her first Grand Slam match in more than two years.

Seles looked delighted to be back at the USTA National Tennis Center as she signed dozens of autographs for children on one side of the court while she worked on her game on the other side.

"It feels great," Seles said of her return to competition where she won the title in 1991. "I was here the following spring in Germany. ...I just went very peaceful and I guess the personality still is because you are not so tired."

Ohio State routs Boston College

By RICK WARNER
Associated Press

EAST RUTHERFORD,N.J.
Along kickoff return, an even longer scoring drive and the running of Eddie George helped No. 12 Ohio State rout No. 22 Boston College 38-6 in Friday's Kickoff Classic.

Shaun Williams kicked off on a 97-yard kickoff return, the Buckeyes marched 99 yards for another touchdown and George ran for two TDs in the second game of the college football season.

It was a stark contrast to Saturday's thrilling opener at the Piggins Classic, where Michigan beat Virginia 19-17 with a touchdown pass on the final play.

This one was decided with 2:13 left in the third quarter, when George's 9-yard scoring run made it 31-6 one play after Ohio State recovered a fumble by Boston College's Justice Smith.

But the key moments were Springs' kickoff return and the Buckeyes' 99-yard drive in the second period.

After BC's Dan McCarry kicked a 24-yard field goal to make it 7-3, Springs took the ensuing kickoff and sprinted down the right sideline for the longest return in Kickoff Classic history.

Springs, a sophomore defensive back whose father Ron was a running back for Ohio State and the Dallas Cowboys, was aided by crunching blocks by Jeff Wilson and Terry Glenn.

Boston College moved to the Ohio State 19 on its next possession, but the drive ended when quarterback Mark Hartsell was stopped short on a fourth-and-one.

Ohio State took a 21-3 lead with 37 seconds left in the half on a 12-yard TD catch by tight end Ricky Dudley, who took a short pass from Bobby Hoying and went in untouched.

The score capped a 99-yard drive by the Buckeyes, who converted a third-and-10 from their own 1 when George dashed 14 yards with a swing pass from Hoying, who got the ball off just before he was blindsided by linebacker Matt Haff.

Another key play in the drive was a 46-yard reception by Glenn.

Hoying completed 17 of 26 for 269 yards. Hartsell was 17 of 31 for 187 yards with two interceptions, and was sacked three times.

George gained 99 yards on 17 carries before sitting out the fourth quarter.

Hoying's younger brother Tom entered the game in the final period and threw a 12-yard touchdown pass to Dimirious Stanley.

Watch for the Northwestern football pullout in Friday's Observer.

Holtz continued from page 16

Holtz

ned to start Saturday.
Freshmen Jerry Wayne, who was recently converted from the defensive to the offensive line, tore ligaments in his thumb Saturday, but is expected to continue to practice this week.

Even with the bumps and bruises, however, the coach was happy with quite a few phases of the game.

"The backs really impressed me," he said. "Robert Farmer, Randy Kitchens, Marc Edwards and Jamie Spencer did a superb job." But we're still not in a good enough rhythm running the football."

And while he thought his kicking problems were solved when Kevin Kopka signed his letter of intent with Notre Dame, Holtz remarked that there is more than ample room for improvement.

"He's having trouble with his accuracy on field goals," he continued. "He can hit five in a row from 20, but he'll miss five in a row from 30." And, what every coach finds himself doing one week before the season starts, the coach was troubled with how the team would perform if the starters went down.

"We don't really have a number two team right now," Holtz said. "My biggest concern is with our number two quarterback." Tom Krug was running the second team, but had trouble with his consistency on Saturday.

But freshman Hunter Smith, the team's punter, stepped in to lead the number two team into the end zone on his first drive.

Miami Dolphins' running back freed on bail

By JORDAN BRESSLER

MIAMI
Miami Dolphins running back Irving Spikes was freed on $5,000 bond Sunday after being arrested on battery charges for allegedly beating his wife, police said.

Spikes, 24, spent the night in the Broward County Jail after police picked him up Saturday night at his home in Pembroke Pines, a suburb of Fort Lauderdale.

Spikes, who appeared in a Broward County courtroom, voluntarily agreed to attend a domestic violence counseling program, said his agent, Drew Rosenhaus. Spikes and Rosenhaus were scheduled to discuss the matter with Dolphins' officials Sunday afternoon.

Both the Dolphins and Spikes have declined public comment on the matter, Rosenhaus said.

"He's very upset about the whole thing," he said. "It's a great person, and he's disappointed that this will shed negative light on him and the Miami Dolphins."

Police were called to the home by Spikes' wife, Stacey. The couple is in the midst of a divorce, and Stacey and the Spikes' two children, Ies., 4, and Ivan Jr., 2, were living in Alabama, Rosenhaus said.

However, Stacey traveled to South Florida so the children, who hadn't seen Spikes since December, could watch their father in training camp. All four were staying under the same roof, which may have created a stressful situation, Rosenhaus said.

According to police, Spikes pushed Stacey to the floor and tried to choke her. When police arrived, they found Stacey had sustained minor injuries and arrested Spikes.

However, Rosenhaus said that Stacey may have also played an aggressive role in the fight.
PHILADELPHIA

With red-hot Mike Piazza providing the spark, the Los Angeles Dodgers put on an explosive defensive display against the Philadelphia Phillies.

"I'm a pretty good glove," Piazza said after hitting two homers, including a grand slam, and knocking in seven runs as Los Angeles defeated Philadelphia 9-1 Sunday night.

Piazza also walked, and his five plate appearances enabled him to take over as the NL batting leader at .367, as well as the Seattle's Edgar Martinez for the major league lead.

"It was just one of those nights," Piazza said. "I saw the ball well and I hit some nice, quick swings. I'm just seeing the ball real well lately."

In his last two games, Piazza has four home runs and 10 RBIs. In his last 20 at-bats, he has 14 hits, eight home runs and 13 RBIs.

"I can't describe it. I'm just trying to be aggressive at the plate," Piazza said. "I'll just try to enjoy this as much as I can because it will subside eventually. You've got to ride the wave."

The victory enabled the Dodgers to snap the Phillies' four-game winning streak and avoid losing swept in the four-game series.

"We really needed to win this one after losing three in a row," Piazza said. "Now we go home, and I think we've played very well this season already."

Phillies manager Jim Fregosi: "Piazza had a heck of a night. He really hits the ball hard."

Regarding Phillies starter Tommy Greene, who has now lost four of his last five decisions since coming off the disabled list on Aug. 2, Pregos said, "Greene got a couple of breaking balls up, but I think overall he has shown improvement."

Asd if Greene would stay in the rotation, Fregosi said, "I'm not making any judgment at this time. I'll decide in a couple of days."

Philadelphia ended its 10-game homestand with an 8-2 record.

Kevin Tapani (2-1), making his sixth start since being acquired from Minnesota on July 31, allowed five hits, tied his season high with nine strikeouts and did not walk a batter in eight innings. The only run he allowed was Jim Eisenreich's sixth-inning homer.

The Dodgers led 3-0 going into the sixth when they loaded the bases off Greene in the second inning. Chad Foxville reached on a throwing error by Philadelphia's shortstop Kevin Mitchell, was sacrificed to second and went to third on his teammate's single.

After Joe Offerman walked, Piazza connected for his 25th home run and drove to left-center.

It was his second grand slam this year and the fourth of his career.

In the Dodgers' eighth, Piazza walked with the game off reliever Paul Fletcher, this one to right center. It was his 39th home run in his last seven games.

The Dodgers scored their first three runs in the third. Butler walked, stole second and scored on Piazza's one-out double. Piazza moved to third on a good throwing error by first baseman Greg Jefferies was back in the lineup.

Jefferies missed Saturday night's game to be with his wife, who gave birth to a baby girl early Sunday morning... The Phillies are 4-1 this season in games in which their starting pitcher got knocked out in the second inning.

The Dodgers, who lead the majors with 106 errors, have committed two errors or more in a game 26 times. Their opponents have 18.

The Dodgers hit 9-17. Right fielder Paul Mensesi hit his second double of the year and the fourth of his career.

The Phillies led 3-0 going into the sixth when they loaded the bases off Greene (0-4). Chad Foxville reached on a throwing error by Philadelphia's shortstop Kevin Mitchell, was sacrificed to second and went to third on his teammate's single.

College football shrine attracts fans

Trophy winner Billy Sims could not attend because of a family emergency.

Brown took time in his speech to recognize the crowd.

"I'd like to thank those of you who sat in the sun today," he said. "You are important." Robeson's son applauded the Hall of Fame selection committee for its "courage" in honoring his father who "went out to win" on the football field.

"It wasn't for Kenny Molloy taking a 13-year-old boy under his wing, I wouldn't be here," Brown said of the retired New York Supreme Court justice.

Brown then paid tribute to Robeson for standing up to the white establishment of the early 20th century.

"Robeson was the most multi-talented person who ever lived," Brown said of the retired New York Supreme Court justice.

Brown then paid tribute to Robeson for standing up to the white establishment of the early 20th century.

"And for those of you who need race as a definition, one of those individuals I mentioned was a white man (Molloy) and one was a black man."

Martin, who was a four-year starter of the Frank Leahy coached teams of 1946-49, when Notre Dame went 36-0-2 and won three national titles, was a crowd favorite who said that the honor was the culmination of years of hard work.

"I had to wait 45 years for this hall, that's OK," he said.

The South Bend Tribune, Mike Norkus and Tim Sherman contributed to this report.

FOOTBALL ATTRACTION

Monday, August 28, 1995

The Observer • SPORTS
There are so many different aspects that go into making college football the great game that it is. Because of this diversity, it is a part of American life that appeals to the young and the old, the fanatic die-hard and the casual fan, the strategic specialist and the tailgating specialist.

The recently-opened College Football Hall of Fame in downtown South Bend magnificently highlights the various reasons why college football is America's Saturday afternoon pastime while entertaining all types of fans in the process.

The most impressive part of the Hall of Fame is "The Stadium Theater", which is the site of a 360-degree movie, which is basically Walt Disney World meets ESPN. Sitting in bleachers, surrounded by music and hard-hitting highlights, it is as close to live action as possible.

"The movie was great but the teams shown in the highlights were limited," senior Garrett Gray said.

For the younger visitors, an exhibit entitled "The Pantheon" is a must-see. It honors the recent gridiron greats by displaying the major post-season awards such as the Heisman and Outland Trophies. In addition, the names and pictures of the season's stars are showcased.

For those who revel in the glories of past autumns, there are limited photographs to scratchy nostalgia. From the yesteryears of past fall, there are many to see. From the yellows of past autumns, there are life-size photographs of mascots that is guaranteed. From the years gone by, the display is basically like a jukebox of famous school fight songs ranging from the ubiquitous tunes such as The Notre Dame Victory March and Lee Swing and Rocky Top. Also in the room is a whole wall full of life-size photographs of mascots that is great for picture-taking. The Legverture is not featured here, but his uniform is on display.

The actual inductees of the Hall of Fame are honored in the Hall of Champions. The six rows of engraved plaques are grouped according to decade. Among the other points of interest is the "Pigskin Pageantry", which showcases things like the bands and tailgating of college football.

One interactive display is basically like a jokebox of famous school fight songs ranging from the ubiquitous tunes such as The Notre Dame Victory March and Ohio State football player. Not being a football player, I didn't take as much away.

"I thought that was pretty cool," Gray said. "It was very well done. However, it is designed for a football player. Not being a football player, I didn't take as much away."

On the whole, the Hall of Fame is designed with the layman in mind, no matter what the level of knowledge is. A true good time for all.

"This is the site is much to see. From the yesteryears of past fall, there are many to see. From the yellows of past autumns, there are life-size photographs of mascots that is guaranteed. From the years gone by, the display is basically like a jukebox of famous school fight songs ranging from the ubiquitous tunes such as The Notre Dame Victory March and Lee Swing and Rocky Top. Also in the room is a whole wall full of life-size photographs of mascots that is great for picture-taking. The Legverture is not featured here, but his uniform is on display."

The spine-chilling memories of great games and high-flying moments that are featured. The spine-chilling memories of great games and high-flying moments that are featured.

"That's when football was not football and men were men," answered her husband Frank. "Not like these guys who wear helmets today."

But regardless of preferences of headgear, everyone agreed with the spacious Stadium Theater, simulating a real football game.

""The Pantheon" was very cute instead of aggravating. Funny, but understandable. Funny, but understandable."

"I can't wait to bring my boys up here to see this fine facility," said Jake Gibbs, Mississippi quarterback from 1958-60. Neither can a lot of people.
Cowboys win the lone star battle
By KELLEY SHANNON
SAN ANTONIO
Alundis Brice's interception late in the fourth quarter spurned wide receiver Terry Sanders of the Dallas Cowboys past the Houston Oilers 10-0 Saturday night.
Brice, a rookie cornerback from Mississippi, caught a pass by Will Furrer intended for Chris Sanders on the Cowboys' 23-yard line with 2:28 remaining and ran it in for the score.
Earlier, with 2:16 left to play in the third quarter, Brice made a long pass by starting Houston quarterback Yankee Davis intended for Sanders on the Cowboys' 27-yard line with 2:28 remaining and ran it in for the score.

By KELLEY SHANNON
NEW YORK
Ten days before he informed the New York Knicks he was quitting as coach, Pat Riley was laying the groundwork to become coach and general manager of the Miami Heat. The New York Times reported Friday.
The newspaper said Riley had presented a memo to the Heat in which he outlined his contract demands, including 20 percent ownership of the club.
The 14-point memo, which the Times said was acknowledged by three people familiar with the case, was discussed during an Aug. 4 hearing in New York on the Knicks' tampering charge.
Under league rules, teams can settle on compensation — the Knicks are unconditionally seeking one of Miami's two first-round draft picks in 1996 and nearly $3 million — NBA commissioner David Stern may have to decide if the Heat violated league rules in negotiating with Riley while he still had a year on his contract.
The commissioner is expected to take action next week if the owner's league-appointed mediation panel of three people should rule against the Heat, he could issue fines, decide compensation and possibly prevent Riley from coaching the Heat for the next season.

Review
continued from page 16
through the pre season," said senior Michelle McCartney. "It's really exciting both for us and for her. She's a great athlete." But it was a 1-0 victory in a volleyball match, however, is very different from that of soccer. The intensity of the points in volleyball cannot be compared to the constant action in a soccer match.
"Her stamina has been really good. She passed all of our fitness tests. I don't think she'll have any problems," McCarthy said.
Peters' former teammates are also confident in her abilities.
"I think that Christy can compete at a high enough level to stay with the team," said sophomore Emma Peters.
Lee also felt that even though volleyball and soccer aren't too similar, Peters will not have much of a problem with the physical nature of collegiate soccer.
"If anything, the heat has affected her the most, not the physical stress," Lee said.
"Also, there's a difference between the sports that she'll have to adapt to, because volleyball is a little more anaerobic and soccer more aerobic."
Her new coach feels that Peters can make a successful transition.
"She strikes the ball very well," said women's soccer coach Chris Petruccio. "Her height is also an advantage in going after balls in the air."
Peters has also fits in well with the chemistry of the soccer squad.
"Christy really gets along well with our team," said McCarthy. "That's like she is here with us for a long time."

NBA Labor
Stern blames players' agent for labor dispute
NEW YORK
Forget about the players. NBA commissioner David Stern is now targeting agent David Falk as the main culprit in the NBA's labor dispute.
"He'll stop at nothing," Stern said of Falk. "He is so intent on killing the (labor) deal at all costs, he is trashign his own clients and their negotiations."
Falk represents Michael Jordan and Patrick Ewing, among others, and is a leading proponent of disbanding the players association and pursuing antitrust suit against the league.
Players are set to vote on Aug. 30 or Sept. 7 on whether the union should continue to represent them in collective bargaining. Results of the secret ballot vote will be announced Sept. 12.
Friday, on a sour note, Stern blasted Falk, saying he is "casting aspersions" on some of the players who have endorsed the recently proposed labor deal. The commissioner accused Falk of disbanding his own clients and dissolving components of the deal.
Stern, however, is confident in his agreement with the Heat.
Riley and Heat caught in the act
NEW YORK
Ten days before he informed the New York Knicks he was quitting as coach, Pat Riley was laying the groundwork to become coach and general manager of the Miami Heat. The New York Times reported Friday.
The newspaper said Riley had presented a memo to the Heat in which he outlined his contract demands, including 20 percent ownership of the club.
The 14-point memo, which the Times said was acknowledged by three people familiar with the case, was discussed during an Aug. 4 hearing in New York on the Knicks' tampering charge.
Under league rules, teams can settle on compensation — the Knicks are unconditionally seeking one of Miami's two first-round draft picks in 1996 and nearly $3 million — NBA commissioner David Stern may have to decide if the Heat violated league rules in negotiating with Riley while he still had a year on his contract.
The commissioner is expected to take action next week if the owner's league-appointed mediation panel of three people should rule against the Heat, he could issue fines, decide compensation and possibly prevent Riley from coaching the Heat for the next season.
The Times said the memo included a provision by Riley to secure a immediate 10 percent ownership in the Heat and another 10 percent of the length of the contract. The memo also detailed salary requests — $15 million over five years, the same amount offered to Riley by the Knicks — housing compensation, per diem expenses ($300) and other demands.
The Knicks said Wednesday they are not close to a settlement with the Heat.
Arison spoke through a spokesperson, "I would not comment."
When asked in June if he would consider selling part of the team to Riley, Arison said he was prepared to go "to great lengths" to get him.
"There's a difference between the sports that she'll have to adapt to, because volleyball is a little more anaerobic and soccer more aerobic."
"Also, there's a difference between the sports that she'll have to adapt to, because volleyball is a little more anaerobic and soccer more aerobic."

A volleyball All-American a year ago, Christy Peters is now testing her skills on the soccer field

By JOE VILINSKI
Associate Sports Editor

When Christy Peters fires the ball into the net this season, Irish fans no longer have reason to be disappointed.

This change in reaction is explained by the volleyball All-American's decision to maximize her five years of NCAA eligibility and join the women's soccer team during her first year in graduate school.

"I'm going to pursue graduate school, and figured I might as well play soccer while I'm doing it," Peters said.

This transition, a testament to her athleticism, was sparked by a variety of factors. In high school, Peters also played soccer and attracted the attention of some college scouts.

However, there was no doubt that volleyball would be the primary focus of her undergraduate career.

"The scholarships to play soccer weren't nearly as good as the ones offered to me in volleyball," Peters added.

During her freshman year at Notre Dame, Peters also practiced with the soccer team in the spring when she caught the eye of head women's soccer coach Chris Petrucelli.

Everything came full circle when graduate school became a possibility and Peters had a conversation with volleyball coach Debbie Brown about Peters joining the team.

"I knew graduate school would be a good opportunity and things fell into place from there," Peters said.

-Peters will only be an asset to an already solid women's soccer team that is ranked No. 2 in the nation by Soccer America.

"Her experience in varsity athletics will help us down the road," Petrucelli said.

The experience he speaks of includes numerous individual awards and MVP honors in seven of the 11 tournaments the volleyball team entered in the past two years.

However, change tends to always create some difficulty. It has been no different in the case of Peters.

"So far it's been kind of tough," Peters noted.

"Volleyball was always very familiar to me, but it's going to take some time for me to get a handle on soccer."

Some of that difficulty lies in the differences between the type of conditioning each sport requires.

"Soccer involves a lot more aerobic activity," Peters said who has had to make the alteration from an indoor to an outdoor sport.

"Her biggest adjustment has been changing her biggest adjustment has been changing her "

Peters drawing solid reviews from coach and teammates

In Notre Dame's inaugural season in the Big East, they will bring in players with big-game experience and tremendous talent. However, not all of these women have demonstrated their prowess on the soccer field.

Former Irish volleyball All-American Christy Peters will be a rookie in the Irish scheme. Coming back to compete in college athletics for a fifth year, she is determined to prove her athleticism in an entirely new arena. With the NCAA's rule allowing athletes to compete for four years in one sport and an additional one in another, Peters has been given the opportunity to play Irish soccer.

Having played volleyball for Notre Dame, the talent, drive, and determination of Peters is undoubted. But the question remains, can she keep up with the pace of the preseason top-ranked Irish squad and contribute?

"Christy has been playing with us since the middle of spring drills last year, and all have been impressed with her abilities and work ethic. "In her role as a senior leader, she has been a key in helping the team gel and improve," said assistant coach Shannon Petrucci.

"Her biggest adjustment has been changing her approach to the game, from an indoor to an outdoor sport," Petrucci added.
