College pols debate budget

By DAVE TYLER
News Editor

T-minus 363 days and counting.

The Notre Dame student body kicked off its involvement in the 1996 presidential campaign almost one year before Election Day as Keenan Hall sponsored a debate between the College Democrats and the College Republicans last night in that dorm's basement.

One team from each side of the ideological fence presented arguments, fielded questions from panelists and audience members and weighed the merits of the budget proposals of their party's national political players.

Democratic debaters Patrick Lyons and Kelly Williams and Republicans Brad Hardin and Brian Hipp traded barbs, cracked jokes, branded statistics and shared a few moments of discomfort throughout the course of the hour-long debate program.

Lyons and Williams opened the program by denouncing the "dangerous extremism" of congressional Republicans and their leadership. They rallied against Republican spending plans of the 1980s and called several Republican-proposed methods of deficit reduction "cruel and heartless."

Gingrich, Dole and the rest of the Republican party are trying to blackmail America by threatening to default on the debt," Lyons said.

The protest has been in existence since Levi Strauss closed the plant in 1990, but this year marks the first time that the Notre Dame chapter of LULAC has participated in the boycott.

Fuerza Unida, an organization in charge of the national boycott, which will mail the tags and any letters of protest to Levi Strauss in January, the sixth anniversary of the plant's closing. The protest has been in existence since Levi Strauss closed the plant in 1990, but this year marks the first time that the Notre Dame chapter of LULAC has participated in the boycott. Fuerza Unida was formed to help the 1,150 workers unemploye
ND deserves better than the WWF

On Monday night, in what was called the dawn of a swift and stunning display of strength and speed, "The Heartbreak Kid" Shawn Michaels followed theimmense King Mabel with the World Wrestling Federation's card, and the kick to the jaw, and then his trademark crescent was axed because of a lack of fan support.

Unfortunately, that meant the World Wrestling Federation's card, and the only wrestling fans are likely to see in the JACC anytime in the foreseeable future.

In 1992, Notre Dame's varsity wrestling program was canceled. The circumstances surrounding its demise have never been made completely clear. A brief announcement in the New York Times sports pages said the sport was canceled because of a lack of fan support. Other statements have cited the athletic department's need to comply with NCAA Title IX and a desire for a stronger gender balance among varsity sports as the reason for wrestling's end. Other stories have cited the strong relationship between Athletic Director Dick Rosedal and coach Fran McCann.

While the real reasons behind the death of varsity wrestling may never come to full view, it is clear that each death was untimely. The program at Notre Dame was climbing to new heights. Wrestling and Notre Dame would have been unstoppable for much of the year. Wrestling and Notre Dame would have been unstoppable for much of the year. The hours of hard work. The sacrifice. The determination and savvy.

There were many proud moments in the wrestling program's history, many of those moments still grace the walls of the JACC. From the days when Dick Arrington earned status as a wrestler in the 1960's while completing an undefeated season. Jerry Sack was named head coach for three consecutive years.

The Irish of '70 and '80 brought new levels of excellence. In 1989/90 Irish had two All Americans on the same team. In 1992, the year wrestling was dropped, ND sent four men to the NCAA meet, and was ranked in the top 20 for much of the year. Wrestling and Notre Dame always seemed like a perfect match. The football and basketball programs were well paired with the qualities collaborative wrestling instilled. The hours of hard work. The sacrifice. The leadership, team cooperation, independency, resilience, and discipline.

Undoubtedly, the school has a strong tradition in the sport. The program has been a shining example of the school's characteristics of the individuals. No goatee to make the hair style stand out. No broken mohawk when you go to the counter to buy Neil Diamond.

In the Catholic, both sumo and the art of sumo are practiced. The sport has been sold as a breathing aid since 1993 and is now a Medication进去．God doesn't work in crooks. The making of Breathe Right strips work by pulling the nasal passages open. They sell for about $5 for a box of 10, about $12 for a mouth of 30. Each is marked by credit card. MCI stressed that its service offers the convenience of 24-hour availability; plus, users get a 15% savings on admission of anonymity. "You don't have to worry about being sneered at by a clerk with a blue marker when you go to the counter to buy Neil Diamond," said John Donoghue, MCI's vice president of consumer marketing. The number is 1-800-music-now.

College develops through the years

By KELLY BROOKS
News Writer

With one foot firmly steeped in tradition and the other rooted in the forefront of technological advancement, the College of Business Administration has a special place in the Notre Dame community.

Founded by Cardinal John J. O’Hara, the college remains dedicated to teaching its tenants - ethics and international business - in a center inundated with technology.

The college has four departments: Accountancy, finance, and business economics, management, and marketing. Founded in 1921, accountancy and finance were originally one department. Management came about in 1928, and marketing in 1946.

“The college has developed in response to student needs, faculty needs, and administrative wishes,” stated Patrick Murphy, professor of marketing.

“When the dorms come on line, that will probably give rise to a quantum leap in technology for students,” declared Barry Keating, professor of accountancy.

Accountancy uses a teaching method called project discovery. “The idea is that we want to give enough information to the students, but leave them enough room to have a chance through discovery,” explained Ramachandran Ramanan, professor of accountancy.

“Business ethics can be defined as the study of those moral standards which apply to the conduct of individuals involved in the organizations by which societies produce and distribute goods and services,” said Michael Morris.

“The intent of the Center is to promote the advancement of individuals who are both competent in their field and bring the Catholic faith into their professional life. ‘No one should go into a powerful position without exploring how it fits into the world of knowledge,’ said Houck. ‘You have ethical issues whenever you have a choice.’”

The Jordan Auditorium is home to several audio and visual technological advances that have given the college a state-of-the-art reputation.

Studies inside the classrooms of the College of Business Administration building focus on ethics as techniques and applications.

Center combines ethics and business

By JIM HAGLIO
News Writer

In an age in which the business world is notorious for greed and self-interest, Notre Dame’s College of Business offers a Judeo-Christian ethical foundation.

“Moral standards are those standards which are not only in our tradition but on which all thinking persons commonly agree,” Williams said. “They are those standards which are required to promote and protect human life.”

“Business ethics can be defined as the study of how those moral standards apply to the conduct of individuals involved in the organizations by which societies produce and distribute goods and services,” said Michael Morris.

“Moral standards are those standards which are not only in our tradition but on which all thinking persons commonly agree,” Williams said. “They are those standards which are required to promote and protect human life.”

“Dear Applicant: It was a pleasure speaking with you recently and exploring your skills. While we cannot offer further encouragement for employment at this time, we wish you the best of luck in your job search.”

Recipient of these rejection letters knows. Job opportunities for graduating business students are expected to improve greatly this year, according to Dr. Samuel Gagli, assistant director of the College of Business Administration.

Notre Dame’s latest performance in the annual U.S. News and World Report rankings has brought many new corps to the campus to recruit business students, Gagli said.

“Companies are very excited about coming here,” says Gagli. “They see the high ranking of our MBA program so they seek out our undergraduates as well.”

Student perceptions of their job prospects and the role of the Business College, Career and Placement vary.

Greg Sinnott, a senior majoring in finance and computer applications, has not received any offers yet but is upbeat about the process. “Career and Placement have done a lot of extra things for me, one you don’t see at other universities,” said Sinnott, such as organizing interviews for students in New York City over Christmas break.

Senior Mike Willia, who has received four offers from Big Six accounting firms, is pleased with his accounting degree and his job hunting experiences.

“Career and Placement does a great job with accounting majors. They make the process simple for us and keep the major firms coming back every year.”

Senior marketing major Bill Leary is grateful for the number of interviews he has gotten. “I’ve learned some fact that I probably have a negative GPA and have still been able to get interviews says a lot. Career and Placement has done a great job and has brought in a wide variety,” Leary said.

Sinnott jokes, “They’ve made every effort to introduce me to potential employers. I even get rejection letters from places I didn’t apply.”

Like most business students majoring in computer applications major Rob Leary says he chose business both out of personal interest and a strong desire to have a job after graduation.

“I think majoring in Arts and Letters is spinning your career wheels,” says Leary. “I think my business degree will allow me to get a job.”

Kitty Arnold, director of Career and Placement, acknowledges this factor in business students choosing their major. “One reason students of business enter the college is to get a job right after graduation rather than going to graduate or professional schools.”

Cavanaugh resident Julie Rogers chose marketing so she could utilize her creative skills and be able to work on her own. “I can’t see myself in anything else,” she says.

Marketing majors such as Rogers often find that their job searches do not produce the multiple offers enjoyed by their fellow seniors in finance and accounting.

“Marketing and management majors need to help make their own breaks,” asserts Gagli.

“They must have a willingness to go where the jobs are. Flexibility to move and relocate is key for a marketing graduate.”

Gagli offers two recommendations to undergraduates to facilitate their senior year job search. “The more classes you have in computers, regardless of your major, the better,” he says. “Even if you are not a CAP major, stress the skills you do have in your resume.”

As a summer internship after the junior year or an international experience provides an invaluable stepping stone to permanent employment.

John Keane, dean of the College of Business Administration, concurs. “Our graduates do well across all departments, disciplines, and levels,” reports Keane. “If you have an intern­ship, your chances for immediate employment after graduation are a lot better.”
Maybe you don't feel like putting on some oversized rubber football helmet, or painting your school's logo across your chest. But there is something you can do to support your football team — call the Burger King College Football Fans' Poll. The results are posted every week in *Sports Illustrated* and *USA Today*. Hubble telescope may see black hole

By HARRY ROSENTHAL

WASHINGTON Peering deeply into a spot seen from Earth as a single blue of light, the Hubble Space Telescope has discovered either a black hole in our galaxy or an associated black hole or a collapsing core is any globular cluster in our galaxy. As President of Notre Dame from 1987-82, his many contributions to worldwide peace include service from 1956-79 as the Vatican City representative on the International Atomic Energy Agency and the organization of a private initiative in the 1980s which united internationally known scientists and world religious leaders in condemning nuclear weapons.

He established the Kroc Institute for International Peace Studies at Notre Dame in 1986, and currently serves as a presidential appointee on the board of the U.S. Institute for Peace.

Founded in 1982, the Nuclear Age Peace Foundation is a nonprofit, nonpartisan international organization that seeks to provide leadership toward a world free of nuclear weapons.

The foundation is an affiliate of the United Nations.

It's a dense star cluster, like a mini-galaxy," said Paragur Guhathakurta of the University of California at Santa Cruz. "Stars in globular clusters are almost as old as the universe. If any globular cluster in our galaxy is suspected to have a black hole, M15 is the best candidate to search for one.

To determine whether a black hole or a collapsing core is causing the phenomena, the Hubble would have to be re-aimed at the cluster.

EVERYONE WILL GIVE YOU THEIR TWO CENTS WORTH, BUT WILL THAT BE ENOUGH TO RETIRE ON?

Today there seems to be an investment expert who says the ideal retirement age is 64. But just how qualified are all these experts?

Peace of mind about your future comes from solid planning. From investments and services designed and managed with your needs and retirement security specifically in mind. The kind of investments and services TIAA-CREF has been providing for more than 75 years.

WE'LL HELP YOU BUILD A REWARDING RETIREMENT.

Our counselors are trained retirement professionals who have only you and your future in mind. So you're treated as the unique person you are, with special needs and concerns about retirement. And that makes for an understanding, comfortable relationship.

With TIAA-CREF, you have plenty of choice and flexibility in building your retirement nest-egg from TIAA-CREF's seven variable annuity accounts. And we're nonprofit, so our expense charges are among the lowest in the insurance and mutual fund industries. That means more of your money is where it should be-working for you.

TIAA-CREF is now the largest private pension system in the world, based on assets under management-over more than $145 billion in assets for more than one and a half million people throughout the nation.

TIAA-CREF: THE CHOICE THAT MAKES SENSE.

It's tough to wade through all the "advice" to find a reliable pension plan provider. But as a member of the education and research community, your best choice is simple: TIAA-CREF. Because when it comes to helping you prepare for retirement, our annuitities will add up to more than spare change.

For more information about how TIAA-CREF can help you prepare for the future, call our Enrollment Hotline at 1 800 842-2888.

Ensuring the future for those who shape it.

Bender: Genetic progress leads to moral dilemmas

By KELLY FITZPATRICK

Advanced technology in genetics is allowing experts to lineate 300-400 different chromosomal abnormalities, out of the thousands of chromosome problems that are detectable, according to H. Avery Bender, professor of biology and genetics courses.

In his lecture yesterday, titled "Ethics and Human Genetics," Bender stated that by the next millennium genetics experts will be able to recognize all of the detectable abnormalities.

This knowledge gives physicians and expecting parents the ability to choose to interrupt the pregnancy, or be prepared for the special care that an infant with a genetic disorder might not require, according to Bender.

One of the questions in genetics is whether or not we should be allowed to 'pollut' the gene pool by allowing children who aren't the 'best' to survive," Bender said. "But do our parents have the right to determine the genetic quality of their offspring and do we have any criteria acceptable to them alone?"

The associated problem arises with people who, late in life, are recognized to have a genetic disorder, some consider it their obligation to alert family members so that they can be tested, according to Bender. He added that there is a high suicide rate among families with Huntington's disease. Therefore, he said, the genetic scientists should make tests for disorders available to children of those with Huntington's disease.

"If you have cancer, the physician will tell you," Bender said. "Why should it be different with genetic disorders?"

Also, Bender stated that medicine has a moral obligation to take precedence over parental rights. "We're talking about mature infants, which can now be easily saved, sometimes with such treatment as to make moral problems that they essentially become residents of the hospital, according to Bender.

"Is it possible that we're so technologically advanced that we can save infants at such degrees of prematurity that we're actually making them wards of the state?," he asked.

Societal issues regarding the responsibility to handicapped people are additional genetic dilemmas faced by geneticists today. "Society has a financial stake in individual reproductive behavior," Bender stated. He went on to speculate that the federal government or society has the right to intervene in pregnancy.

"Societal selection is for humans to use our brain power to help humankind," Bender said. "In this respect, we haven't really misused our technological capabilities."

Med student may be dead from overdose

By TOM HAYS

NEW YORK Jennifer Timbrook's smiling face was on the cover of her medical school's recruitment brochure.

"Ask schools use models," said Steve Villano, administrator of the state College of Medicine. "We used a true model student - her.

The 21-year-old female Monday with a far different one: the dynamic, 32-year-old Timbrook dead in hospital X-ray darkroom, apparently of a drug overdose.

Police found needle tracks on her arms and legs, indicating the "model student" from the Midwest was no first-time user.

The cause of death remained in question yesterday, according to Bender. He asked. "We're talking about mature infants, which can now be easily saved, sometimes with such treatment as to make moral problems that they essentially become residents of the hospital, according to Bender.

"Is it possible that we're so technologically advanced that we can save infants at such degrees of prematurity that we're actually making them wards of the state?," he asked.

where they may be "kept as tradition, yet subject to artful scrutiny and criticism." 

- Have all campus tour guides be trained in that, "although the murals are located in a public place, they do not represent the University's feelings or attitudes towards Native Americans or African Americans, and that the murals have been kept in tradition due to their historical value. This is a recommendation which remains both plausible and immediate."

- Make "expeditious efforts to demonstrate and celebrate diversity, especially, race, and culture on campus through art forms," such as "murals, paintings, statues, and/or monuments."

- Seek means in which to better the environment for all members of the University community, in order to nurture and promote feelings of fellowship and respect.

While members of NASAND and others interested in the cause met last night in The Huddle in LaFortune, their continuing efforts, according to Etsitty, will be concentrated on getting The Snite Museum, which, according to the letter, "is not perfect."

Students who are part of a communion that satisfies the meaning and you hunger for inside you desire something which only God can satisfy. In many ways, God gives what satisfies. Perhaps, deep down inside and through other people, God is calling you back to this imperfect Church, not only to satisfy your hunger, but so that you might be part of a communion that satisfies the hunger of others.

Maybe God means to use you to make the Church a little more holy.

-Make the Church a Little More Holy

At times, you may feel or think that you no longer fit in the Catholic Church. And, you may think that Campus Ministry is for a few people who are just a little too holy for your liking. Maybe you believe in God, but you're not too keen on this thing called the Church. For whatever reason, maybe you have not been to Mass in a while.

At times, you may think that the Catholic Church is no longer big enough for you. It does not challenge you. It does not console you. It is made up of people who are exactly alike, and not so much like you are now.

The Catholic Church is not meant to be a closed little circle of people who always agree with each other. The Catholic Church, when it is truly being Catholic, is a Church which is filled with people of various cultures, experiences, and points of view, people who are unified to be a communion that is identifiable in the world. It is a Church which appreciates and celebrates diversity!

When the Church is being what it is meant to be it is a communion of diverse people which speaks loudly and clearly: No to injustice! No to a culture of death! No to individualism! No to ignorance! Yes to justice! Yes to life! Yes to peace! Yes to self-sacrifice! Yes to the Truth! Yes to God!

The Church at Notre Dame is not always what it is meant to be. The Catholic Church at Notre Dame is not perfect.

The Catholic Church at Notre Dame is very much alive, and it may be more diverse than you think.

Powell swings support to GOP, but will not run

By JOHN KING
Associated Press

WASHINGTON

After months of "prayerful consideration" that captivated the nation, Colin Powell awkwardly embraced the Republican Party on Wednesday but said he would not run for president in 1996 because it was "a calling that I do not yet hear."

Finding an extraordinary political mystery, Powell ruled out seeking any elected office next year.

Instead, he said he would dedicate himself to restoring "the spirit of Lincoln" to a Republican Party he said was a lot more diverse than many conservatives would care to admit.

"I'm sorry I disappointed you," the retired general said in a poignant tribute to the thousands of everyday Americans who had urged him to run in person, through letters and by joining draft efforts. "We're devastated," said James Lynch, a New York lawyer involved in the draft effort. Said Tim Bush, an organizer in New Hampshire: "I think really the country is the loser."

Such support brought him to the brink of a candidacy. Powell said, but in the end he stepped back from elective politics - for now anyway.

To run for president, he said, would demand "a position and commitment that, despite my every effort, I do not have for political life, because such a life requires a calling that I do not yet hear."

"For me to pretend otherwise would not be honest to myself, it would not be honest to the American people."

Powell also ruled out being the GOP's vice presidential nominee, but said he might consider an appointed government position. Many Republicans, even Powell critics, said the retired general still was almost certain to be considered for the No. 2 spot on the GOP ticket.

Powell's decision left 10 declared Republican candidates and one GOP giant still sitting on the fence: House Speaker Newt Gingrich.

Gingrich said anew he was unlikely to run for president, but that he would talk it over with his wife after Republicans finished work on the budget.

As he bowed out of the presidential race, Powell for the first time pledged political allegiance - to a Republican Party he said was rightly dedicated to balancing the budget, cutting taxes and shrinking government.

"I believe they have ideas and energy at this time that I can align with," he said.

But he bluntly rebuked prominent conservatives for "ad hominem" attacks on his character. He also said the party would be wise to show more compassion as it reforms welfare and to welcome blacks and other minorities.

"I believe I can help the party of Lincoln move once again closer to the spirit of Lincoln," he said.

In another sign of his awkward transition from soldier to prominent Republican, Powell would not promise to back the 1996 GOP nominee, saying he wanted to watch the campaign unfold. Nor did he rule out voting for President Clinton.

In the short term, Powell's decision was seen as a boon to Senate Majority Leader Bob Dole, whose position as the GOP front-runner had been slipping over the autumn freeze that had descended on the GOP field.

And, unless House Speaker Newt Gingrich seeks a new opportunity for himself, Dole clearly gains the most with Powell out of the picture.

"Time is the friend of the front-runner and the enemy of the challenger," said Dick Bond, a Dole strategist. "And two more months have just run off the clock."

Dole's team confidently expected many fence-sitting Republicans who'd been holding out for Powell to now come their way. The other candidates were hoping...

"Everybody who is running is happy in the short run," said Steven Wayne, a political scientist at Georgetown University. "Dole gets the nomination, the Republicans presumably unify, Clinton does well one-on-one with Dole. All breathe a collective - and very private - sigh of relief."

But the race becomes far less fascinating. "You're back to the Clinton-Dole yawn," said New York pollster Lee Miringoff, director of Marist College's Institute for Public Opinion.

None of the contenders has been able to generate the kind of enthusiasm the popular retired general did as he crossed the country in his 25-city book tour.

Dole now top challenger; Clinton relieved, too

By TOM RAUM
Associated Press

WASHINGTON

The presidential race just got a little simpler and - perhaps - a bit less interesting. With Colin Powell's retreat, Sen. Bob Dole's chances of reclaiming his Republican front-runner label from cold-storage. President Clinton can breathe a little easier, too.

The retired general's unequivocal announcement Wednesday that he will not seek the presidency in 1996 ends the autumn freeze that had descended on the GOP field.

And, unless House Speaker Newt Gingrich seeks a new opportunity for himself, Dole clearly gained the most with Powell out of the picture.

"Time is the friend of the front-runner and the enemy of the challenger," said Dick Bond, a Dole strategist. "And two more months have just run off the clock."

Dole's team confidently expected many fence-sitting Republicans who'd been holding out for Powell to now come their way. The other candidates were hoping...

"Everybody who is running is happy in the short run," said Steven Wayne, a political scientist at Georgetown University. "Dole gets the nomination, the Republicans presumably unify, Clinton does well one-on-one with Dole. All breathe a collective - and very private - sigh of relief."

But the race becomes far less fascinating. "You're back to the Clinton-Dole yawn," said New York pollster Lee Miringoff, director of Marist College's Institute for Public Opinion.

None of the contenders has been able to generate the kind of enthusiasm the popular retired general did as he crossed the country in his 25-city book tour.

News Analysis

"What are you doing this Christmas?"

Consider signing up for Theo 365 "The Church and Social Action," colloquially known as "Urban Plunge"

• 48 hour experience in an inner city of your choice

• During the week of January 3-11 (dates are chosen by the host site)

• BE WITH, LISTEN and EXPERIENCE the stories of people who live in poverty

• Talk with people who are homeless

• EXPERIENCE soup kitchens, shelters and welfare agencies

• Meet people who are trying to make life better for people who live in poverty

REGISTRATION DEADLINE: Nov. 10, 1995

ORIENTATION: Nov. 19, 1995 6-8PM

Hesburgh Library Auditorium

FOLLOW-UP MEETING: Jan. 21, 1996 6:30-10:00 PM

Registration available at the Center for Social Concerns, Campus Ministry and Staff Reps - 3YN

Campus Ministry and Multicultural Affairs 115 Lee Mans - 3MC

Student Affairs office - 89C

All Students And Faculty

Are cordially invited to attend the Joint ROTC Veteran's Day ceremony to honor those who have served our nation. The ceremony begins at 4:30 P.M. on Friday, November 10th, and will be held at the flag pole located on South Quad.

women — win the fight back, but as yet, the organization has had little success in negoti­ ating with Levi Strauss.
"The fact is that the future of the Gross Domestic Product (GDP) its been since 1945", The Democrats cited low unemployment, and lower deficits as proof of a robust economy under Clinton's lead­ ership.
Lyons suggested that defense spending could be cut to reduce the deficit, rather than trim­ ming social programs.
The Republicans are trying to sell the Navy a helicopter they have said they don't want or need," he said.
Lyons also made a religious connection in response to a question about the Democrats support of social programs.
"Jesus didn't say go out and leave your neighbor in the streets," he said.
Harden attempted to dispel the notion that the GOP is cut­ ting spending for the sick, eld­ erly, disabled and for educa­ tion.
"We're not cutting spending, we're cutting increases in spending," he said.
The Republicans also plan to remove big government from Washington, by passing more control of Welfare funding to the states in the form of block grants. What prevents the states from using that grant for something other than its ear­ marked purpose?" "I don't think the governors will do that. They want to be re-el­ ected," said Hipp.
Each side was asked what ele­ ments of their platforms they thought they could sacrifice and still produce a satisfactory budget agreement.
The Democratic representa­ tives said Welfare, environmen­ tal regulation and Medicare and Medicaid must remain priorities in a good budget. The Republicans said government spending must be trimmed and federal Welfare requirements must go.

Israel threatens crackdown on sympathizers

Police arrest more suspects; militant leader allegedly knew plan

By DAFNA LINZER

TEL AVIV, Israel

The leader of an anti-Arab group and another suspect were arrested in the assassination of Yitzhak Rabin, Israel's prime minister, as Israeli officials confirmed suspicions of a right-wing conspiracy to kill the prime minister.

Israel radio also reported the arrest of yet another suspect — bringing the total number detained to five — but the report was not immediately confirmed.

Police suspect the militant leader, Avishai Raviv, knew about the plan to kill Rabin and told a Tel Aviv court that he believed Rabin was "a catalyst in the murder."

Raviv heads Eyal, an offshoot of the Kach while, lost their jobs today over the security breaches that permitted the gunman to gunned down Saturday night by Yitzhak Rabin, who became prime minister after Rabin was gunned down Saturday night by a Jewish extremist, told his cabinet that the government must crack down on militants who incite violence.

"We cannot hesitate to use all means at our disposal against people inciting in incitement — the instigators and those who pull the trigger," said Peres. Anyone who incites violence should be disarmed, he said.

A Jewish settler from Kiryat Arba said they went into hiding under threat of assassination, saying Rabin's security guards, who work under the command of the Kahane Chai group.

Another suspect — bringing the total number to five — but the report was not immediately confirmed.

By DAFNA LINZER

Amir. was guards, who work under the very close to the members of Eyal and jeans, detained to five — but the report was not immediately confirmed.

"There was no sign of security officers, meanwhile, lost their jobs today over the security breaches that permitted the gunman to gunned down Saturday night by Yitzhak Rabin, who became prime minister after Rabin was gunned down Saturday night by a Jewish extremist, told his cabinet that the government must crack down on militants who incite violence.

"We cannot hesitate to use all means at our disposal against people inciting in incitement — the instigators and those who pull the trigger," said Peres. Anyone who incites violence should be disarmed, he said.

A Jewish settler from Kiryat Arba said they went into hiding under threat of assassination, saying Rabin's security guards, who work under the command of the Kahane Chai group.

The report also suggested that Rabin's body-guard and work under the Shin Bet, might have been indoctrinated to focus on potential Arab antagonists, and thus were inadequately prepared for the possibility of attacks by Jews.

The cabinet decided today to set up a commission with subpoena powers to look into the security breaches that permitted the gunman to gunned down Saturday night by a Jewish extremist, told his cabinet that the government must crack down on militants who incite violence.

I will take a stance in defense of segregation. Don’t be mistaken to think that I am the only one, nor fool yourself to believe that I feel like I do. Now before people start calling me selfish, let me e-mail let me drop a little knowledge for you. There is little doubt that the United States is so very segregated, for the most part people tend to stick with their own kind. I am black and I am proud of it and I accept that. I believe in segregation. With “the history between black people and white people as it has been for the five hundred years we have been living together in America, I can’t see how we’re ever going to get along. I see wrong with separate but equal if it is truly equal. We’re so called integrated society but how can we ever see we are segregated?” From talking to people who lived and grew up during segregation in the early parts of the twentieth century, segregation wasn’t necessarily the problem. The problem was with the equal part. It’s hard for me to believe black people who, from my understanding, were pretty content being around other black people, would want to assimilate into the dominating culture. Which leads to the common misconception about integration and segregation. It was not that the black people wanted to be like or to assimilate with the dominate culture, it was that black people wanted equal opportunities and equal resources. That’s all. But somehow, in some kind of way it got into a lot of people’s heads that black people wanted to be like white people; yeah right, just as much as white people want to be like black people. That’s just not true; ain’t nothing wrong with that either.

I’ve said this a thousand times as have almost all the black students I have talked to. I like being black but I don’t have to worry about being black when I’m around other black people. I’m not the token black person or the token this or that. I’m just me and it’s beautiful, and I can just imagine a society like that. I tell you right now, I’m automatically defensive if I’m the only chocolate chip in the cookie. I don’t have any real problems with segregation, not at all. I’m sorry but integration failed and it failed miserably, and it has nothing to do with “I’m good and you’re bad”. I don’t want to integrate into the dominate European culture and I shouldn’t have to be comfortable, to lead a good and decent life, but integration says I have to. Don’t bet on it, I say.

With integration we lost a lot of self-respect. We got taught that everything white was good for you; everything black was bad for you. Black kids were forced to go to school in hostile environments, and no one can tell me that did any good. Anytime you force people together, regardless if they want to be together or not, it is bound to backfire on you. Ka-Boom!!! With integration, black people get bitter, and I truly hate that because for all that black people have been through, the last thing we need is to be bitter. Then black people get angry, and white people get scared, or at the least the government. The Black Panther Party’s saga gives evidence to that. I wish I was alive during the 1960’s when the Black Panther were strong and in your face, man. The Panther’s had it right, Power to the people!” I won’t be and say whether the Panther’s were separatist or not, but they realized where they were and they realized where they needed to be. I can dig that.

GARRY TRUDEAU

„W“e conclude that in the field of public education the doctrine of ‘separate but equal’ has no place.”

—Earl Warren
Natural law over multiculturalism: God bless Columbus

When Francisco Pizarro walks up to the Incan king in presence of the full court and shoots him point blank with a crossbow, we condemn this as a savage and bestial act. All who believe in such a thing as virtue and absolute right and wrong recognize such a performance as lack of any honor whatsoever. If this having been said, it is necessary to now evaluate the overall endeavor of the Europeans in conquering the New World: that is we must render judgment on the man responsible for beginning the very process which has ultimately established the very institutions we now live under. And when all is said and done we should honor Columbus. Here's why:

The prevailing culture of the Indians, prior to their conversion to Christianity and marginal integration in to Western Civilization, is best characterized by Thomas Jefferson in the Declaration of Independence: merciless and savage. Any examination of the basic facts by a rational mind will serve as vindication for our claim.

The known rule of the Indians was in fact warfare. The Indians did not stumble upon a contingent of noble savages subsisting in various utopian regimes. The first group of Indians Columbus came upon, the Taínos, readily welcomed him because they were literally being eaten up by the neighboring Caribs. This latter group of savages were hated by all their neighboring tribes because of their fierce and extremely vicious nature. Constantly they were waging war in order to procure for their own barbaric cannibalistic rite.

Nor were the North American tribes any less barbaric. Those with modified vision, who seem to believe in the "Dances with Wolves" presentation of Indian life, as if the Indian was primitive Quaker, would do well to recall that it is the Iroquois who exterminated the Hurons.

And what of the mighty Aztecs? Indeed they had amassed an impressive empire, exhibiting both in architecture and science astounding degrees of advancement. But the Aztecs had been hated by surrounding peoples. To be under the Aztec yoke meant payment of a particularly harsh tribute: human lives. The belief of a universe born in blood — the blood of gods. In order to sustain the world the blood of man was required — thus the Aztecs sacrificed, sometimes on a scale of 20,000 at a time, their "tribute," men whose hearts were torn still beating from their bodies. The scene is rather vivid, especially when we are aware the Aztec priests were forbidden to cut their nails or hair, and could not wash the filth of the sacrificed from their clothes.

The scenario is repeated throughout the history of mankind. Whether one is a native American or a native African, one is driven to the extremes of violence to obtain satisfaction for their reality. To procure concubines. The feminists no doubt admire this aspect of Indian life, for it did force many Tano women to become working girls. As an aside to all this we note that Columbus freed many of these concubines, who left gladly, while returning from his second voyage.

In light of all this evidence, who is lamenting the demise of this culture, this utter lack of civilization? Obviously NASA-ND is. Why? The evidence is perfectly obvious, it is self-evident that a man who could walk through an animal skin, various parts of his body pierced and painted eating human flesh and wearing with a spear or other crude instrument; it is perfectly obvious that he is a savage! It is not polite to paint this picture today, yet such was the reality in many places on this continent 500 years ago.

Is there no such thing as natural law? Can man do such violence to the natural law and still be civilized, let alone praise-worthy, as the multiculturalists seem to think? Does NASA-ND believe a natural law exists? Because Catholics do believe in a thing natural law is a fundamental doctrine of the Catholic Church, and a tradition. The natural law is consistent with the natural law. For they seem to make an appeal to some absolute standard of justice; they just do not believe this law to regulate matters such as cannibalism, torture, rape, and savage warfare.

NASA-ND seems to want a redress of grievances for all the brutalities inflicted on the Indians. This is a valid point, for many atrocities were committed, although genocide, the deliberate extermination of a whole nation of people, is not one of them; the most destructive agent for the Indian was disease, a morally neutral factor. We who defend Columbus do not condone any crimes perpetrated by types such as Pizarro. Still all must admit the same nations to inflict crimes.

What to say then of our old friends the Caribs? The Caribs systematically raped and raided the surrounding tribes in order to procure concubines. The feminists no doubt admire this aspect of Indian life, for it did force many Tano women to become working girls.

The preexisting culture of the Indians, prior to their conversion to Christianity and marginal integration in to Western Civilization, is best characterized by Thomas Jefferson in the Declaration of Independence: merciless and savage.

**ALBUM REVIEW**

Capitol Records as well as many other labels should be looking at the new CD of Dovetail Joint. With vocals and solid music found on their debut CD, the new disc has grabbed the immediate interest of Atlantic and Capitol Records, who will mass market the powerful debut.

Dovetail Joint has been savoring the success that they have found in the Chicagoland area, selling out almost every show at larger clubs like The Doubledoor on a regular basis and receiving radioplay of their music on WXRT, Chicago’s longest running alternative radio station.

The core of Dovetail Joint is made up of lifelong friends Chuck Gladfelter on vocals, Joe Dapier on guitar and backing vocals, Robert Byrne on guitars and backing vocals, solidified the already impressive core of Gladfelter and Dapier. The Bats and other bands have found in the Chicagoland area.

Outside of Chicago, the band has been conseguir of shows at clubs and innovative college crowd; their 7" single is currently on the play lists of 300 college radio stations and the band is actively gaining popularity throughout the nation.

The current problem for this awesome band lies in their lack of touring. Hopefully this will be cured when their label finalizes a deal with either Concrete Management or Gallin-Morey Management, and deals with clients such as Michael Jackson and Dolly Parton.

Once this deal is complete, Dovetail Joint will begin a nationwide tour and will more than likely end up in South Bend before this semester is complete. If the band has not played here by then, their manager assures that they will play in South Bend before the school year ends.

Despite the fact that the album is innovative and incredible in its own right, there is no better way to experience Dovetail Joint than a live show. Even the uneducated will be hooked by their stylistic music as their October album release party performance indicated. In the October 14 performance at Doubledoor Night Club, Dovetail Joint played the majority of their album to an enthusiastic, dancing crowd.

Included in the set was the hit single, “Circular Motion,” which begins with treated vocals and breaks into heavy Steve Ray Vaughn-like riffs as the song builds in intensity. The chorus introduces strong power chords and intense drumming which underlie Gladfelter’s introspective lyrics. “Times when I may have been mistaken / hang me out to wait and see / cycles of circular motion / have proved to have it in for me.”

Although “Circular Motion” is their most likely Grammy winner, listeners may be predicting that increased radio play of their entire CD will give rise to another hit single, “Oh, My God.” This song is excellent throughout, with its softly strummed intro breaking into a full band sound as the song progresses. At its climax, Gladfelter and Byrne harmonize the chorus, “If ‘Oh my God’ is what you need / it works for me / but I don’t believe it’s the way / I was forced on me / when each of us acts so inclined / or Orbits it true and perpetuates / ‘Oh my God’ and all that” as their guitars blast out distorted energy.

The entire song rocks with passion as each band member comes to the fore. Especially impressive is Gladfelter’s vocals, which is accompanied by rolling drums. Gladfelter and Byrne continue with their one-two punch of guitars finally arriving at one of the most breathtaking bridges heard in a long time as the two guitars and both guitars kick in, exchanging lead vocals.

This album is solid through its entirety as well as a worthwhile investment. Dovetail Joint plays a funky bass line which is accompanied by rolling drums. Gladfelter and Byrne continue with their one-two punch of guitars finally arriving at one of the most breathtaking bridges heard in a long time as the two guitars and both guitars kick in, exchanging lead vocals.

Gladfelter and Byrne continue with their one-two punch of guitars finally arriving at one of the most breathtaking bridges heard in a long time as the two guitars and both guitars kick in, exchanging lead vocals.

The most notable item on this album is Dovetail Joint’s ability to write incredible bridges, replacing traditional guitar solos which can become tiresome after a while. This ability is predominant on the fifth song of the eleven song debut, “Sick With Something.”

On their debut album, Diary, Sunny Day Real Estate grabbed the ears of critics, music fans, and, and fans, and vaulted to the position of number-one selling band for Sub-Pop Records. Diary, as the title suggests, offered a range of emotions, from loss to regret to heartbreak. As the songstress Jeremy Enigk penned painful lyrics from the soul, Enigk finally found comfort in religion and became a born-again Christian. However, the rest of the band had mixed opinions on taking the band in this direction, so in March of 1995, the band announced that the band and the label called it quits.

Now, half a year later, the self-titled, posthumous album has been delivered. Unlike the previously mellow Diary, Sunny Day Real Estate is packaged in solid punk, rock, and roots, and Enigk’s newfound optimism. The songs will both thrill and soothe to the new emotions of the band. Both lyrically and musically the songs on Sunny Day Real Estate are over, a warmer release than on the sometimes similar Diary.

Enigk’s vocals continue to convey emotion better than any singer in rock. Through slurring notes and various crescendos and decrescendos, Enigk’s singing quickened tempos bring to mind Fugazi’s passionate, harmonic cries that strike the ears of critics, musicians, and fans, and vault- only helps to increase the Estate's appeal. The growth and impact of Sunny Day Real Estate is packaged in solid punk, rock, and roots, and Enigk’s newfound optimism. The songs will both thrill and soothe to the new emotions of the band. Both lyrically and musically the songs on Sunny Day Real Estate are over, a warmer release than on the sometimes similar Diary.

Jeremy Enigk penned rhythm sections around the final track, “Rodeo Jones.” he screams of “Iscaraibah!” recall the structures of bands like Built to Spill and Silversun Pickups, and on the new album, Jeremy Enigk pummels his set to Enigk’s cries of “sweet lover!” in the chorus. The beats and bass line on “Iscaraibah!” also hold personal meaning to anyone who has suffered through loss, and then found hope. It’s sad to see Sunny Day Real Estate go, but fans can look forward to Goldsmith and Mendel’s added contributions to the Foo Fighters and Jeremy Enigk’s solo album in the spring. In the meantime, snatch up copies of Sunny Day Real Estate. —by Brent DeCrema

Midnight Young hopes to play at Dallas

By DENNIS GIORGATOS

SANTA CLARA, Calif. Steve Young, a reluctant ex-

pert of the first order, injury, said he'll be back to run the San Francisco 49ers' offen-

sive line Wednesday.

He also conceded, however, that there's no way the deep shoulder bruise that has kept him off the field the past three games will be completely healed.

"I'm not looking to be 100 percent," Young said Wednesday. "I don't have to be 100 percent to go play football," Young said Wednesday.

"There's a gray area in there and once I reach that gray area, I'm going to push football again." "I intend to be ready to play football on Sunday," Young said. After being injured Oct. 15 in a loss at Indi-

ana, Young has been held to the same thing last week but wound up sitting out the 49ers' 13-7 loss to ex-

pansion Carolina Sunday.

"It's redundant but I am get-

ting better," Young said, offi-

cially listed as limited for the match-up of the teams in what could be a three-

dgage duel. Dallas won the first two meetings in the first two weeks of last year's playoffs. San Francisco came back to beat the Cowboys last year en-

route to a Super Bowl victory over San Diego.

"I'm just making the same no-

take I did last week of throwing too much," We're going to make sure it's ready for Sunday, not

Thursday," said Young, who

limited himself to 40 throws Wednesday, including 25 with the first team defense.

Young threw 100 passes when he returned to practice a week ago only to back off the regimen the next day when he soreness returned.

He originally hurt his shoul-

der when he landed hard on the
top of his right shoulder and

on the left shoulder in the 49ers' 24-17 loss to Baltimore Sunday. Young said his shoulder was "100 percent" after he released a pass. He played through that shoulder injury and was just about over it when he took two more shoulder shots in the Indianas game, knocking him out of action.

Young, like Young listed as questionable with a left shoulder injury Wednesday along with third-

stringer Cary Conklin, said he played the final series of the Carolina game in relief of Grbac, who is 1-2 as the starter in place of Young.

Coach George Seifert said af-

fter Wednesday's practice that he was encouraged by what he saw from Young and Grbac and remained hopeful they would be able to play. A final decision will be made until later in the week.

Young said the shoulder in-

jury, which involves bruising in and around the rotator cuff, is the most painful part of his re-

cover because of its persistent nature and he said it has affected him on the most fundamental aspect of quarterbacking - his passing arm.

"I could probably go play halftime right now," Young said.

"But when you're throwing the football and you're talking about a shoulder for this types of injuries, it's kind of in-

tricate in its loading process, as well as being sore." And as much as he wants to prove that he's healthy, Young said his decision will include consid-

ering the potential long-term risk.

"I got to be careful I don't do anything stupid," he said. "I've learned a lot about that kind of injury." 

Despite San Francisco's

record, Young said in his mind the game against Carolina's has lost none of its importance.

"We have a history with them and it's been a dramatic history in many ways," Young said. "The winner (last three years) has been the Super Bowl champion. That's why this game is scrutinized so much and so much about it." 

"It's definitely a barometer for us," Young said. "Defi-

itely it has meanings be-

tween the two teams." Coach George Seifert said he will consid-

er three elements in deciding whether to start Young. First, he said he has to feel for his team doctor, Dr. Michael Dillingham, who will tell him and Seifert has to believe his team doctor. Second, "If any one of those is missing, he won't play," Seifert said.

"I've heard my greatest re-

ceiver ever to play the game," Irvin said. "My job is to

be the best receiver Sunday.

"It will be interesting for him to watch Rice have to go one-on-one with Deton Smith," he said.

"That's an interesting chal-

lenge for Steve Young with Rice who has numerous ba-

tes with Sanders with whom he is familiar," Seifert said about 49ers and Atlanta Falcons.

"I want Steve Young to make a Super Bowl run for us," Irvin said. "I told him that last week and it's true. I'm going to sit on my helmet watching that matchup." 

In six games against the 49ers, Irvin has gone over the 100-yard receiving mark twice, including a 12-catch, 193-yard day with Sanders defending in the 32-28 NFC Championship game last season.

"I thank San Francisco for saving me straight and making me focus," Irvin said. "I've just had to watch and feel emotional for this game and look forward to it." 

"I admit he did get me kickin' out of the 49ers four years ago," Irvin said.

"I've enjoyed seeing 'em struggle," he said.

49ers already own the records for 1,023 yards this season, best in the NFL. His 185 yards per catch.
Cordova earns Rookie of the Year
By RONALD BLUM

NEW YORK
Martty Cordova, the Minnesota Twins outfielder who had 24 home runs and 84 RBIs, was voted AL Rookie of the Year on Wednesday, edging California's Garret Anderson in the closest race in 16 years.
Cordova and Anderson each received 13 first-place votes in balloting by the Baseball Writers Association of America. Cordova had 13 seconds and one third for 99 points.
Andy Pettitte of the New York Yankees and Troy Percival of Toronto shortstop Alfredo Griffin tied with seven votes each.

Bates notches rarities for Saints
By MARY FOSTER

NEW ORLEANS
It's no coincidence. Mario Bates has back-to-back 100-yard rushing games for the first time this season, and the New Orleans Saints have back-to-back victories for the first time in this season.
"I think we have an outstanding game at a skill position, and I have a quarterback who passes for 400 yards, or a receiver who has three touchdown catches," coach Bill Walsh said. "We also have a kicker that has 100 yards, that enhances your chances to win," said running backs coach Jim Skipper.
Bates, who gained 106 yards against the Rams last week and 106 against the 49ers this week before, leads the Saints rushers with 562 yards in nine games. He has a 62-yard per game average and a 4-yard average per carry heading into Sunday's game against Indianapolis.

King accused of lying in trial
By LARRY NEUMESTER

NEW YORK
A prosecutor's co-star has put Don King's testimony in his insurance fraud trial "absurd" and full of lies so as to upset the boxing promoter's"lawyers," that he told jurors in closing arguments Wednesday he might cry.
It was a lively climax to a six-week trial that had produced stories and yarns from spectators who watched prosecutors try to prove King faked a boxing contract to collect $350,000 in insurance money for a 1991 car accident.
Assistant U.S. Attorney Craig Stewart launched his closing argument with an attack on King's credibility and urged jurors to use his own words to find him guilty of nine counts of wire fraud.
"It's not fair and square to take a solemn oath to tell the truth, and then tell you a story that has no relationship with the truth," Stewart told the federal jury in Manhattan.
As boxer Mike Tyson watched with other spectators, Stewart said King's testimony over three days actually clarified the prosecution's case.
King admitted it would have been wrong and deceptive to add a clause to a contract for the canceled bout after the fight was scrapped, Stewart said.
"The question then becomes, ladies and gentlemen, was he a part of it... and you know he was because the only person who stood to benefit was Don King," he said.
Stewart said King lied any time he needed to cover up the fact that he participated in every turn in the attempt to fool Lloyd's of London into paying $350,000 in training expenses that were never incurred for the bout between Julio Cesar Chavez and Harold Brazier.
Stewart described as "patent" a statement in which King said he was never told his insurance money was for $350,000 in training expenses "that he knew." He orchestrated it, he said. "When he needed something, when he wanted to make the money work... he just made it up. That story, ladies and gentleman, is a lie, " Stewart said.
For two hours, Stewart bashed away at the prosecution's case and the claim and then warned jurors to remember the promoter's words and what defense lawyer Peter Fleming "sheds a tear for his own future" during his closing argument.
Minutes later and late in the day, an angry Fleming followed the prosecutor and did not hide his emotions.
"I may shed a tear," he told the jury as he began with a 45-minute summation that will continue Thursday morning. He wiped his eyes and tears and his voice seemed to crack as he spoke.
"The look on Statt aton for accusing King of faking a contract he didn't sign is not his face and lying about conversations and then telling the jury, 'Where I come from, they call that fraud.'""Where I come from," Fleming said, angrily crumpling a piece of paper and throwing it beneath him, "no prosecutor is going to call a man a liar and I know he doesn't replace evidence with speculation."
"There's nothing that happens in this case, no piece of evidence, that they don't choose to look at as sinister. That is the mark of a prosecutor, who you might find have a higher obligation, trying to make a case, he said.
The trial is the second federal case for King. In 1985, he won an acquittal in a tax evasion case.
King in the past quarter century has risen to the top of the boxing world, his prominence, promoter Jack Douglas' stunning upset of Tyson to take the "Rumble in the Jungle" between Muhammad Ali and George Foreman in 1974, and the "Thrilla in Manila" between Ali and Joe Frazier in 1975.
If convicted of the new charges, he could go five years in prison and a $250,000 fine on each count.
Navy quarterback Ben Fay is one of several reasons why the Army-Navy rivalry has escalated this season.

Navy steals Midshipmen goat
By JOHN KEKIS
Associated Press

WEST POINT, N.Y. — When three of Navy's mascot goats turned up missing over the weekend, it didn't take long to figure out who stole them.

"We knew Army cadets were involved," Navy sports information director Tom Bates said, "because they cut through two fences to get to the goats, and 15 feet away there was an unlocked gate.

Spoken like a true enemy. The truce is over. The service academies began making annual shenanigans because they were getting out of hand, Army public affairs officer Maj. Jay Ebbeson said.

"The kid trio disappeared from Annapolis during a predawn raid Sunday by a contingent of Army invaders stole the hard-earned 'faux goat' — an ornery character who was drummed out of the Navy+ Marines began making annual shenanigans because the goats are healthy and can travel, take them to Annapolis with the appropriate apologies."

"I cannot guarantee that they'll have them before the game, but my intent is they'll have them much, much sooner than that." Bates said.

The goats said the goat-napping was payback for a 1991 Navy raid on West Point that netted all four of Army's mascot mules.

This is a major coup for the cadets, who were duped big-time in 1990. They stole a goat they thought was Bill W., the Navy mascot. Instead, they got "four goath" — an ersatz character who was drummed out of Annapolis because of his bathroom habits.

Navy wasn't the only week-end victim. High in the Colorado Rockies, Air Force was recovering from the theft of the Commander-in-Chief's Trophy, the symbol of football supremacy among the service academies.

Army invaders stole the hard-earned trophy case from the Falcons' trophy room on Monday. Air Force used the incident to whip Notre Dame in the Cotton Bowl. When Krug knew he'd be POW's backup when he came back, he knew the guys, everybody.

But a few weeks after Krug committed to Notre Dame, POW Luis was beaten up and sat out his freshman year, it was Powell. Even when Powell broke his collarbone and sat out his senior year, Krug knew he'd be Powell's backup when he came back.

"I try not to make it bigger than it is," Krug said. "When I came here, I thought it was the greatest thing, playing quarterback at Notre Dame. Now that you're on the team and you know the guys, it's not as big as everybody makes it up.

"It may be in other people's eyes, but when you've been quarterbacking for as long as I have and playing sports all your life, it's something you just go out there and do and have fun doing it," Krug said.

"I've always looked to him for a lot of inspiration," Fisher DeBerry said during a press conference Monday. "He's been a great leader for us.

"I'm sure the culprits are some Army exchange students we have here. It'll probably turn up sometime," DeBerry said.

For more information call 272-1441.
The Miami Heat needed just two outs, were no match for the stronger Kings.

Toronto managed to pull to within four points to trail 74-70 following Tracy Murray's field goal with 1:15 to play in the third quarter. But that was as close as the Raptors would get.

Richmond responded with a 3-pointer to put the Kings up by seven.

"Mitch had the hot hand, so we kept him in the game," said Kings coach Larry St. Jean. "When Mitch had the rhythm going, I couldn't take him out. We just kept trying to get him the ball.

It was all Sacramento in the fourth quarter, and the Raptors look like an expansion team for the first time this season.

"We played very soft," said Raptors coach Brendan Maloney.

The Kings give Raptors a lesson

By STEVEN WINE

MIAMI

The Miami Heat needed just two games to achieve unprecedented success under Pat Riley. Keith Askins hit a pair of free throws to break a tie with 1:02 left Wednesday and the Heat improved to 2-0 for the first time in their eight-year history by beating two-time defending champion Houston 89-82.

In another breakthrough with their new coach, the Heat broke an 11-game losing streak against the Rockets dating back to November 1989.

The Raptors, who fell to 3-1, scored six consecutive points to tie the game at 82 but failed to score in the final two minutes.

After Askins gave the Heat an 84-82 lead, Sam Cassell missed a shot for Houston, and Miami's Alonzo Mourning scored with 31 seconds left for a four-point margin.

Hakeem Olajuwon scored 22 points for Houston and needs eight to become the 21st player to score 20,000 points of the half on John Williams' layup. Miami never trailed in the second half, scoring eight consecutive points for a 51-39 lead and six in a row to lead 78-70.

Heat squeak past Rockets

The Heat played without Samantha Stodimore, who served a one-game suspension for fighting with Cleveland's Chris Miller.

Mourning scored 10 of his 13 shots, scored 13 points and had eight rebounds. But in the final one. "We only played in sports. I thought we really played like an expansion team tonight, and that was the first time I've felt like that this season."

While both teams appeared tired at times, the Kings were the much more physical team down the stretch.

"A guy like Damon Stoudamire isn't used to playing back-to-back," Richmond said.

"Yeah, they may have been a bit tired, but it's also probably a case of a young team getting used to themselves."

Malone, whose team played the Bulls even for 44 minutes Tuesday night, wasn't buying the tired angle.

"You don't come to a game and use fatigue as an excuse," he said.

The Celtics stop Suns to earn first win

By HOWARD ULMAN

BOSTON

Dino Radja and Dee Brown scored 21 points each as the Boston Celtics got their first win of the season 113-109 Wednesday night by outdunking the Phoenix Suns.

The Celtics outscored Phoenix 20-2 on fastbreaks.

Their last one, started by Rick Fox's rebound and long pass and capped by Radja's dunk with 1:05 left, gave them a 109-103 lead.

Fox added 16 points for the Celtics (1-2), who were playing their second game in the new FleetCenter. The Suns, off to a 1-3 start after winning the Pacific Division last season, were led by Charles Barkley with 24 points, Wesly Person with 22 and A.C. Green with 21.

The Suns were playing their second game in two nights after overcoming a 10-point, fourth-quarter deficit and beating the Knicks 102-94 in New York. The Celtics hadn't played since Saturday night when they lost in Chicago 107-85.

Kevin Johnson didn't play after hurting his left knee with 1.30 left in the third quarter when he tried to dribble the ball to the right of the Suns' basket. He walked off the court without help.

There was no immediate report on his condition.

Phoenix took its last lead 103-102 on Green's two free throws with 2:38 left. Brown's layup and Sherman Douglas' three-point play put Boston ahead 107-103.

Person then missed a jumper, Fox rebounded and Radja dunked.

Rookie Michael Finley's three-point play cut the lead to 109-106 with 1:04 remaining. After Eric Williams hit two foul shots for Boston, person sank a 3-pointer, making the score 111-109 with 15 seconds to go.

But Brown made two free throws, and Barkley missed a 3-pointer with four seconds to go.

Consecutive baskets by Eric Montross and Radja gave Boston a 102-101 lead with 3:43 left before Green's two free throws.

The Celtics led 62-57 at halftime as they outscored Phoenix 14-0 on fastbreaks.

Green scored 15 points as the Suns led 39-33 after the first quarter. They extended the lead to 46-36, but Boston went on 19-4 surge and took 55-52 lead with 3:21 left in the half.

Phoenix tied the game 57-57 on John Williams' layup. Then the Celtics scored five of the last five points of the half on Brown's three free throws and David Wesley's driving layup.
Dumars pours in 41 to spark Pistons

Associated Press

LANSING, Mich. — Joe Dumars, playing on a bad hamstring, scored 41 points in 42 minutes to lead the Detroit Pistons to a 107-100 overtime victory over the Portland Trail Blazers Wednesday.

Dumars missed 10 straight shots in one stretch but did enough to help Doug Collins pick up his first win as the Pistons’ coach.

The game was tied 91-91 at the end of regulation.

But Grant Hill and Joe Dumars hit back-to-back jumpers to put the Pistons up by four with 1:27 to go.

Allan Houston hit one free throw and Terry Mills tipped in the missed second shot to make it 100-93 with 35 seconds to go.

Cliff Robinson hit a 3-pointer to tie the game at 91 with 33 seconds left in regulation.

Dumars missed his 10th straight shot with 10 seconds left, and Portland couldn’t get a shot off before the end of regulation.

Grant Hill added 19 for Detroit. Robinson had 30 for Portland and Rod Strickland added 25.

The Pistons led 70-64 at the end of three quarters, and Grant Hill started the fourth with a three-point play.

After a Portland miss, rookie Theo Ratliff jammed home Alonzo Mourning’s miss to move the lead into double digits.

The lead got as high as 12, but two 3-pointers by 7-foot-3 Arvydas Sabonis and seven free throws helped Portland get to 85-84 with 3:38 to play.

The Pistons led 50-49 at the half, and with two minutes to go in the third, they had pulled out to a 66-62 advantage.

With the score tied at 14, Dumars scored eight points in a 12-2 run that put the Pistons ahead by 10 with three minutes left in the first period.

But James Robinson hit a 3-pointer at the buzzer to make it 10-25, and when the Trail Blazers scored the first eight points of the second, they had a three-point lead.

The Pistons put together an eight-point run of their own late in the half to go ahead 49-42, but Portland was able to come back and trail by just one at the half.

...Not only the indigenous peoples, but the earth to which they are irrevocably linked, are now dying. If the land dies, no human can survive. It is a very real sense, the fate of Native America and the fate of the planet are one...”
—Ward Churchill
Hostelter returns to Meadowlands

By BARRY WILNER

EAST RUTHERFORD, N.J. - Jeff Hostelter’s laugh sounded genuine over the phone line from 3,000 miles away. If he is anxious about his first meeting with his former team, he hid it well.

Hostelter guides the Oakland Raiders into Giants Stadium, his former home, to face the Giants on Sunday. The Raiders are 7-2, the second-best record in the NFL, and Hostelter is having a good year. The Giants are 3-6 and their quarterback, Dave Brown, is struggling.

So Hostel could go to if he wanted. He could stick it to the Giants and Dan Reeves, the coach who bid him farewell as a free agent when he chose Phil Simms as his quarterback in 1993. He could let alone some venom.

That is not his way, however. And considering where he and the Raiders are — and where his former team has fallen — it was understandable for Hostelter to stay away from any controversy.

“I look at the Giants and don’t see a whole lot of guys there from when I was there,” he said Wednesday. “A lot of faces have changed, coaches and things like that. And I played back in the Meadowlands this year against the Jets (a 47-10 victory).

“I don’t have any axes to grind against these guys. I have some good friends there.”

Hostelter stepped in for an injured Simms late in December 1993 season and led the Giants to a Super Bowl victory. When Ray Handley replaced Bill Parzells as coach, there was much waffling on whether Simms or Hostelter was the No. 1 quarterback.

After Handley was fired and Simms replaced, Simms was kept and Hostel went abroad. “One of the things I think I learned in New York is you can’t be caught up in all the distractions,” Hostelter said.

“That is about as tough a situation as you can be in coming out in winning a Super Bowl and battling for your job with, basically, a Giants legend and it’s a no-win situation. So you learn to concentrate on what you can control.”

Men denied chance at Stadium

By TODD FITZPATRICK

After a long season filled with ups and downs, the football teams of Flanner and Fisher have the right to play the interhall championship game in the Dome. The decision comes as you can imagine, however.

Unfortunately, the 1995 men’s interhall championship will not be held in Notre Dame Stadium, as it has for many years.

When a construction crew began to dismantle the walls of our hallowed stadium, it also ended the dream of every player who will compete for the interhall title this Sunday.

Although the reactions of players from Flanner and Fisher range from anger to mere disappointment, no one is pleased to end the season across the street from ‘The House that Rockne Built.’

“We finally earn a spot in the finals, but we aren’t able to play in the stadium. For a lot of players, that is the main reason we strive to reach the championship every year. So the team is a little disappointed,” commented Flanner heroine Brad Gilman.

Similar feelings exist across campus where Fisher players felt they earned the right to compete in Notre Dame Stadium when they upset top-ranked Zahm.

“We didn’t hear about it until after the semi-final game. It’s very disappointing. It is a good tradition, and we’re proud of it. I guess they had to start the construction, but I wish they could have waited to tear up the field,” remarked Fisher running back Davey Nelson.

Great RecSports Intramural Coordinator, said that the option of playing a week earlier was not safe for the men’s teams. The women were allowed to play three games during the final week of the season because they play flag football, which is less dangerous than the men’s tackle football.

“Kigar did not want the full-contact games to cause any injuries going into the championship game. ‘We just couldn’t let tackle football play three games in eight days. With the safety factor, it wasn’t possible.’”

The explanation from RecSports still does not satisfy many of the players in Sunday’s game.

“It seems ridiculous that the last game in the ‘House that Rockne Built’ is P.E. versus Lyons. We usually play the championship game on the same day,” argued Fisher senior Mark Troc. 

Senior players such as Troko find the decision especially difficult to accept, because this is probably the last time they will ever play competitive football.

“We pay a great deal of money to go to school here, so you would think they would listen to our opinions once in a while.”

Despite the disappointment felt by the players of Flanner and Fisher, the location of Sunday’s interhall championship game in Notre Dame Stadium. It will not include all of those teams. The explanation from RecSports still does not satisfy many of the players in Sunday’s game.

Belles cap frustrating season

By CAROLINE BLUM
Saint Mary's Sport Editor

The expression "a losing season" has never appeared to any athlete at Saint Mary's, never appealed, and especially never imagined by the Saint Mary's volleyball team this year. As they began their season with high improvements as well as an array of solid wins, the possibility of an excellent finish would have resembled a sick joke.

However, when the players awoke from their slumber Sunday, they were saddened by the reality that their season would endure as 10-15. A losing season. "But we ended up very disappointed with the final game," coach Julie Schroeder-Biek said. "We just weren't able to be strong over the last few games." The Belles went on to lose their next eight games. "We lost our winning attitude after October Break," senior Sara Stromczek said. "We lost the will to win, our devotion, as well as our internal efforts. It was frustrating to not see our winning strive." Senior Ann Lawrence attributes the season's disappointing close to a communication among the team. "Overall, we were a very talented team this season, but we just weren't able to be strong together," Lawrence said. "We had problems with miscommunication, which has been present in previous teams. In the last few games we just didn't believe that we could win. What was needed was a stride from not only the players on the court, but from the players on the bench as well. We didn't have that." For Lawrence, along with senior teammates Stromczek and Kelley Prosser, Saturday's game marked the last time the seniors will wear a Saint Mary's volleyball uniform. "Ann is only four-year player this year," said Schroeder-Biek. "She has shown some much improvement over the last few years, everything has certainly come together for her defensively. She has improved greatly on key digs. Even though she did not earn the most on the team, she got the important ones." Prosser arrived on Schroeder-Biek's door front at the beginning of last year's season after she transferred from another college. In her last two seasons, Prosser proved to be an excellent gift to the team. "I was thrilled that Kelley transferred as a junior," said Schroeder-Biek. "Because she made an immediate contribution in both the leadership and the physical aspects of the team. She fit well with the team." Stromczek, who was unable to play her freshman year due to shoulder surgery, made an immediate contribution to the team when she joined her sophomore year. "Sara is very talented, versatile, and can play every position on the court," Schroeder-Biek said. "She has improved greatly over the last few years, and never gives it less than her all." Although these three women will no longer be members of a Saint Mary's team, they intend to form their own team in the spring in order to compete in offseason play. "We're getting a team together to play in the off-season," said Lawrence. "We will play with alumni and other athletes from around the area. So the underclassmen better look out." Stromczek also wishes to leave the underclassmen with a tribute this year. "I really appreciated the underclassmen this year," Stromczek said. "I enjoyed playing with them. No team can be successful without everyone participating. I will miss every-
Irish set to tip off season

German team provides first test of year

By TIM SEYMOUR

Intensity in practices is usually lauded by coaches as a sign that their team is focused.

With two key players out due to injury, Irish head coach John MacLeod can't afford too much more intensity.

Rather, he will be happier when his squad can finally focus on someone other than each other, as Notre Dame opens its season with an exhibition game against a touring team from Germany tonight at 7:30 in the Joyce Center.

"We've had some very intense workouts," noted MacLeod. "We're going to need to intensify going into the Big East.

That intensity, though, has come at a cost. Junior guard Pete Miller is out until early December with ligament damage to his thumb, while star freshman Gary Bell is still hobbled by a calf injury and will likely miss the remainder of the pre-season.

Bell's injury is especially troublesome. The 6-5 forward was expected to contribute heavily for the Irish, but a series of ailments have kept him out of most of the preseason. Rehabilitation from off-season back surgery, a knee problem, academic troubles, and now the calf injury have all hampered Bell's progress.

"Gary Bell has missed the conditioning so far," noted MacLeod. "We had some trouble scoring last year, and he can provide that. He also has the tools to become a major league defender."

On the positive side, MacLeod has been able to take a solid look at the healthy Irish players due to an unusually long pre-season. The five starters who emerged from preseason workouts represent a new look. Shooting guard Ryan Hoover, power forward Pat Garrity, and center Marcus Young return from last season, while point guard Admore White and small forward Derrick Manner will make their debut in the starting lineup.

The exhibition should allow MacLeod a taste of further evaluate the team, and minutes are likely to be evenly distributed.

Among the anticipated attraction is that of senior Keith Kurowski, who has had a productive preseason and looks to be fully recovered from past injury problems.

"We need a healthy Keith Kurowski this year," said MacLeod. "It's been great to see him in uniform during practice and not in street clothes."

While an exhibition contest, MacLeod also anticipates a different atmosphere than has characterized past Irish games.

"We think there's going to be a different environment in our arena, a different fan response," said MacLeod.

"When the players walk across campus Thursday night, their nervous system will know they are coming to play a game."

Notre Dame reaped the first benefits of its enhanced recruiting exposure when Todd Palmer, a forward from Harrington Park, NJ, signed a national letter of intent Wednesday to play for the Irish.

Palmer, 6-8, 215-pounds, has averaged 19 points and 12 rebounds throughout his scholastic career, and is on track to become Don Bosco Prep's leading career scorer.

Last season his team finished with a 15-10 record while advancing in the state's parochial semifinals.

Freshman quarterback makes significant strides despite struggling early behind Powlus, Krug

By THOMAS SCHLIDT
Assistant Sports Editor

There is no way to down play the importance of Notre Dame’s game versus Air Force. Should the Irish win, they will go to a major bowl. If they fail, the University loses eight million dollars.

But don’t worry Thomas Krug and Jarious Jackson, there’s no pressure.

At the moment, while Krug has the honor of leading the Irish into Falcon Stadium on November 17, Jackson waits and impetuously hopes that November 17, Jackson waits and impetuously hopes that November 17, Jackson waits and impetuously hopes that November... Well you get the idea.

Off the field, fans cautiously look over to Jackson and re­game versus Air Force. They look over to Jackson and re­game versus Air Force. They look over to Jackson and re­game versus Air Force.

Irish into Falcon Stadium, fans cautiously wonder if his moment will come. Wondering if his moment will come. Wondering if his moment will come.

Irish look forward to Big East challenge
New conference, tougher competition has Notre Dame players excited for season

By TIM SHERMAN
Associate Sports Editor

New York, NY
The ballroom of the Grand Hyatt in New York yesterday very easily could have mistaken as a pre-season meeting of potential NBA lottery picks. With faces like Villanova’s Kerry Kittles, Connecticut’s Ray Allen, and Georgetown’s Othella Harrington in the crowd, one could not help thinking about what future glories lie ahead for many of the athletes present.

But that was not the intent of Big East media day. However, welcoming the three newest additions to the conference was a focus.

“First off, I’d like to welcome Rutgers, West Virginia, and Notre Dame to the Big East,” conference commissioner Mike Tranghese said in his opening remarks. “It’s a great pleasure to have them with us. I guess this is one of the first official acts.”

It is quite fitting that Notre Dame takes its first conference step for the media, as the Big East was formed around the mega-media markets of the Northeast. However, with nearly 40 national telecasts of conference games, the scope of the exposure is growing.

Irish coach John MacLeod would love to capitalize on the coverage.

“Playing on television is a great help,” MacLeod noted. “The key is to get a national TV and play well at the same time.”

Exposure is not the only benefit MacLeod is looking at through.

“Conference games bring out the best in everybody,” MacLeod said. “There are going to be hard-fought games because everybody is battling for a position and there are going to be rivalries.”

Guard Keith Kurowski, who is in perfect health according to MacLeod, already has an idea of who will bring out the best in the Irish.

“Being a top Catholic school, I would have to say schools like Villanova, Georgetown, Boston College, and Providence. Games like that will be positive experiences.”

Another positive experience for Notre Dame should be increased access to the highly fertile New York City recruiting grounds.

“Till make a pact.” St. John’s coach Brian Munnery offered. “I’ll stay out of New York.”

“Not something I want to do,” MacLeod replied.

While recruiting is likely to improve, the Irish can’t wait long. The conference season opens in less than a month at Rutgers on October 2. They know it isn’t going to be a tough season.

“We may not be as high in talent as some teams, so we have to compensate with hard work,” Kurowski said. “We’ve got the ability to frustrate opposing offenses, forcing them into punting situations repeatedly and creating clutch turnovers.

An additional asset to consider in this game is the emotion factor. Expectations are out the window now. Fisher, a preseason favorite, was supposed to be here. They won despite the pressure placed on them and are so close to accomplishment their goal that they can taste it.

Fisher, however, is on a high right now. Never were they predicted to get here. At one point in the season, they were ranked second to last in the Power Poll. Despite that, they have come together, are in the finals, and are also on the verge of becoming a national power.

Fisher, Flanner meet for IH title

Larry Ceekeon and the No. Name Defense. Walter Payton and the Monsters of the Midway. Do these names ring a bell? They should. They are game breaking running backs and dominating defenses that played together on champ­ionship football teams. If there is one cliche that makes fans of football fans want to throw up, it’s this: “A good running game and a tough defense win championships.”

But, you know what? It’s the truth. Sunday’s championship game, whether it will be played in the Stadium or not, exemplifies this statement. Both Flan­ner and Fisher have proven that, over the long and arduous journey we call interhall foot­ball, one must be able to run the ball and then must be able to stop the other team’s offense.

Flanner’s offense begins and ends in the trenches. Led by Joe Lang, the Cocks’ offensive line is huge. Even though it may not be much of a surprise that they are going to run, this crew still opens holes as if they were parting the Red Sea.

Running backs Dave Lichota, J.P. Fenningham, and Steve Hrovat have styles that complement each other very well, and allow the Cocks a great deal of versatility in their run­ning attack. Plus, quarterback Scott Lupo has the ability to run the option, and keep the opposing defenses honest.

“The running game is key”, said sophomore Taylor Mc­Donald, “We have to push the ball up the middle and control the clock.”

On the other hand, Fisher isn’t too shabby themselves. Their option game has been second to none during the end of the regular season and through the playoffs thus far, making them a tough opponent for Flanner.

“The main man to watch in this outfit is tailback Dave Walsh, said Steve Donald. “We have to push the ball up the middle and control the clock.”
