French Demonstrate Against Policy

PARIS (UPI)—Dozens of young pro-Israel youths demonstrated Thursday night outside a Paris radio station where Foreign Minister Michel Debre was broadcasting a defense of President Charles de Gaulle’s arms embargo on Israel.

Debre said de Gaulle’s Middle East policy “conforms to the interest of France” and pointedly challenged growing domestic opposition to the embargo by asking “if the French do not think it foolhardy what will they do for them?”

The demonstrators gathered on the sidewalk outside the privately owned radio station, Europe Numer One, just off the Champs Elysees, for expressing their solidarity with Israel.

But Debre seemed more concerned with the criticism of de Gaulle by the French press, some of the sharpest the 79 year old president has had to put up with in his 10 years in power.

The country’s most influential newspaper, le Monde, said Thursday that the 79 year old French president imposed the embargo on Israel because of “personal dislikes” and expressed the hope that France “will not have to pay too dearly for the abuses of one man rule.”

Later in the radio interview that French Middle East policy recognized Israel’s right to exist, to security and to normal guarantees of international rights, but also provided for development of good relations with the Arab world.

Czech Union Considers General Strike

PRAGUE (UPI)—The powerful Czech workers’ union Thursday night served notice that it will not accept unquestioningly the Czech government’s proposal for a new Parliament Chairman Jaroslav Slinkovsky by Deputy Premier Peter Colotka.

A union plenary session proposed that Slinkovsky and Colotka should be nominated dual candidates, the winner to be decided by assembly vote.

The national party Presidium Tuesday named 44 year old Colotka in the middle of the road Slovak with liberal leanings, as its choice for the key post.

The 900,000 member union pledged that if its proposal “is taken into consideration, in view of the fact that the Slovak candidate Colotka is also progressive, we shall not consider a general strike justified.”

Czech workers said the announcement could be interpreted as a face saving gesture to allow the union to voice acceptance of Colotka without appearing to betray the Slinkovsky cause.

They said it was doubtful the proposal would be accepted by the Presidium.

Accuses South Viets of Blocking Talks

PARIS (UPI)—North and South Vietnam Thursday exchanged bitter accusations that the other was deliberately blocking the opening of the broadened Vietnam peace conference.

Nguyen Thanh Le, Hanoi’s chief delegation spokesman, said the South Vietnamese regime of President Nguyen Van Thieu was trying to sabotage the conference in order to keep American troops in South Vietnam.

“Charging that Saigon was ‘obstinately opposed to peace’ and was ‘tampering the Paris conference’, Le said Saigon ‘wants the United States to prolong its aggressive so that they continue their life as lackeys’.”

Sirhan Trial Snags over Publicity

LOS ANGELES (UPI)—The trial of Sirhan B. Sirhan for the murder of Sen. Robert F. Kennedy Thursday was smothered over publicity given to the defendant and to his chief counsel’s role in another case.

After an eight minute open court session, attorneys adjourned to chambers to discuss in private a defense motion on news coverage the defense felt could deny Sirhan a fair trial. It was not disclosed whether the motion sought a mistrial because of adverse publicity, a 30-day continuance or a change of venue.

For the first time since the trial began Tuesday, no members of Sirhan’s family were present in court Thursday.

The 24-year old Jordanian immigrant was serious and unsmiling in contrast to when he waved and flashed a big grin several times at his family.

Rabbit Puts Chicago Man in Stew

CHICAGO (UPI)—Donald Hargadon was in a stew Thursday and no doubt wished the 40 pound rabbit that attacked him was too.

Hargadon, a worker at Augustana Hospital, was transporting the rabbit from the hospital’s laboratory to the Lincoln Zoo Park when the attack occurred. He reported the rabbit kicked and scratched him.

Hargadon was taken to the hospital’s emergency room where he was treated for several scratches.

There wasn’t much pain from the cuts or the “rabbit punch”, Hargadon reported. The only thing really hurt was his pride.

Christmas Vacation a Field Day

Nine Halls Hit by Robbers

Thieves enjoyed a field day on campus of Notre Dame campus lately as students returning from Christmas vacation reported lost of televisions, stereo systems, clothing, and money, including checkbooks.

Initial reports from the Notre Dame security offices were space. Nine complaints have been filed and the loss estimated at $1500.

Sources indicate that most of the robberies are not yet on file with the security department. The losses may double or triple as students file complaints seeking action from the administration.

Scattered reports came from virtually every hall on campus, including Morrison, Dillon, Badin, Lyons, Alumni, and Zahm. Hard hit, however, were Stanford, Keenan, and Holy Cross Halls.

Holy Cross Prefect Fred (Skip) Rahaim commented on the methods used to enter the halls. "The robbers entered through the rear door. They rammed one first floor room, but concentrated mainly on the second and third floor rooms where locks were broken and doors jimmied."

In conflict with this statement was the reaction of several security guards, who claimed that no rooms had been forced open. Security guard Sergeant Novak said that the doors to all the rooms on campus were checked daily and locked when found open.

While insufficient security measures could be blamed for the Holy Cross thefts, an invitation was extended to burglars in Stanford and Keenan Halls, which were painted over the holidays and many of the rooms left open. The fourth floor of Stanford was hit particularly bad, where checkbooks were stolen and checks written for several hundred dollars.

The campus security guards appeared to favor the idea that a junk key was used to enter the halls. Campus Security Director Arthur Pears echoed this statement and said he anticipated no changes in administration policy regarding pendant keys or security operations. He had no recommendations regarding reimbursement of the victim students for their losses. Serenades were reported in some of the stolen items were recovered via an anonymous telephone call. Some of the property of victimized Holy Cross residents was found beneath sheets on Douglas Road, behind Moreau Seminary.

Reports that the thieves were from South Bend were unconfirmed by Sergeant Nova. No connections were made between this recent rash of burglaries and the $1000 in furniture stolen from Holy Cross Halls before Christmas.

Prefect Skip Rahaim examined possible follow-up measures by the school. “More guards should be hired for the protection of the students and there will be one guard stationed in every hall. Cruising across the campus in a station wagon, the campus will be maintained and we will oversee the demonstration of maintaining security, as these incidents testify. The victims of these thefts are not the first to ask for good faith by the administration, in order to demonstrate concern for the individual student in the University community.”

Members of the University staff were adamant in their belief that the school would not enter into a theft insurance agreement, a measure proposed by some of the students.

Pro-Term To Come to St. Mary’s Next Fall

Harry Mannacho, Director of Secondary Education at St. Mary’s College, announced yesterday that the Education Department will offer seniors who desire a teacher’s certificate a Professional Semester. The program will go into effect during the 1969 Fall Semester.

The program for the Professional Semester was passed by Saint Mary’s Teacher Education Committee and given final approval by the Academic Affairs Council prior to the Christmas break. A conflict over approval of the program arose earlier this semester “because I did not go through the proper channels”, Mannacho said.

The entire Professional Semester will be devoted to student preparation. Students may take the Professional Semester either semester. The semester will be offered for eighteen credit hours, and courses in other departments will not be taken during the semester.

Because of the Professional semester, seniors will not have to divide their loyalty between education courses and their major courses. Previously these courses overlapped, making it difficult to complete requirements for the teacher’s certificate. Mannacho feels that the Professional Semester will be a major improvement over the old program, because he believes that “student teaching is a full time job.”

The Professional Semester will be organized into two parts. The first half of the semester will be devoted to a concentration of education courses. The second half will be devoted to full time student teaching.

Prerequisites for the Professional Semester include the completion of thirty hours of pres-student teaching experience, and fifteen written observations. The completion of Education 170 is also required. Students wishing to take the Professional Semester must be admitted to the Teacher Education program, and must not have a grade point average below 2.25 on the 4.0 system.
by Joel Connelly

A year ago there were less than 20 American deserters in Sweden. Now the number is in excess of 200. Young people throughout Europe, led by the German SDS, are aiding American servicemen desiring to escape the military. Swedish novelist Sarah Lidman has organized a Swedish Friends of the Deserters to aid them.

The answer is plenty. The American Deserters Committee was formed so that those in Sweden could continue political work as Americans even while in exile. It works through the media, publishing a magazine and as putting out radio broadcasts. ADC spokesmen have spoken at universities throughout Sweden and even addressed a meeting of the World Council of Churches. In November a delegation of 12 deserters traveled to Denmark, a NATO nation where the government is under great pressure to accept Americans leaving the armed services.

To the U.S. serviceman unsure of the War and the practices in the military and experiences of the Vietnam, stated:

"By some of you I may be labeled as a coward or some sort of 'junk.' Well, I'm not an imbecile, and I'm not a coward. It takes more guts and balls to say 'NO!' I'm not going,' rather than to say 'Yes Sir, I'll go to Vietnam.' I've been there once, and I have to decide now . . . Listen to my fellows . . . I know what it's like . . . WAR IS HELL!"

The Second Front Review, the deserters' magazine, is more theoretical, although there is still the effort to enter into the mainstream through the media, publishing a newspaper, The Second Front Review, a magazine in Sweden.

"We the ADC in Sweden have seen clearly our duty faced with the situation of the world today. As members of the US Army we were the prime instrument of the forces of repression and reaction, and we have excised ourselves from this malignant body. We saw our function and refused to carry it out. We answered a higher call of the people of the world who were crying for help from their brutal oppressors."

The story of the ADC does not end with the group's activities. The group sees itself as an integral part of the American Left with a unique role to play due to the working class background of many of its members plus of course their military experience. The American Deserters Committee is an autonomous chapter of the Students for a Democratic Society and represents Ramparts magazine in Sweden.

Frisco State Erupts Again; Four Arrested

SAN FRANCISCO (UPI) — Police and student strikers clashed yesterday at San Francisco State College after union teachers rejoined their ranks in defiance of a court order.

At least four students were arrested as contempt citations were readied for picketing members of the American Federation of Teachers. The union went on strike three days ago.

The melee followed the fire-bombing three blocks away of the home of an administrator in charge of student discipline, the arrest of a youth for disrupting a classroom, detonation of stink bombs in the library and a mass meeting of UFT teachers.

The striking teachers returned to the picket line singing "Solidarity Forever." The militant students cheered and cried, "On strike, close it down." The picket ranks rose to several hundred, including a Negro youth with two Doberman Pinschers on leashes. Police moved against the pickets after warning the strikers that they were milling rather than marching in an orderly fashion.

"We also considered the dogs as being out of control," said an officer.

The animals were quickly stunned with dog repellant and their owner, John Cleveland, was hauled to a patrol wagon. Two students who attempted to free Cleveland from the officers also were arrested.

The crowd surged into the intersection at the main campus entrance. A few rocks and bottles were heaved at the police as 200 officers, some mounted on horses, cleared the street.

The AFT teachers abandoned the picket lines for a closed meeting in which a spokesman said only that "by unanimous vote we decided to continue the strike and picketing."

The union represents about 18,000 students have been on strike for several weeks. For beleaguered San Francisco State, the day began with two firebombs hurled at the home of Edward Duerr, campus coordinator of internal affairs who recently was named to a student disciplinary post. Police described the bombs as highly sophisticated devices.

Redican Joins Air Force Staff Here

Col. Victor Ferrari, Professor of Air Force Aerospace Studies at Notre Dame, has announced the addition of Maj. Edmund C. Redican to his staff as Freshman instructor.

A senior navigator, Maj. Redican's previous assignment was at Tan Son Nhat Air Base, near Saigon, where he flew C-123 aircraft with the 19th Special Operations Squadron.

After four years in this assignment, Maj. Redican left active duty and joined the New Hampshire Air Guard, the 133rd Air Transport Group.

Recalled to active duty in 1961 during the Berlin Crisis, Maj. Redican was transferred to Maguire AFB, New Jersey where he was assigned to the 38th Air Transport Squadron. He was later transferred to Weisbaden Germany.

While in Germany, Maj. Redican received his Master's degree in Education from the University of Southern California's European Division.

Adler Here

Mortimer J. Adler, of the Institute of Philosophical Research, will give his first in a series of lectures this afternoon at 4:15 in St. Mary's Little Theater. His talk is entitled "How can I make a good life for myself."

Student Government has accomplished more in the past year under Richard Rossie than any other administration in recent history. The formation of the Student Life Council, the development of the judicial code, the revision of the Student Manual, all have come about with no small assistance and encouragement from Rossie. The Student Union, too, under Richard Remberbusch has developed into a cohesive, well-functioning organization. The Social Commission may finish in the black for the first time in its history and the Academic Commission offers an excellent selection of speakers and conferences even in this non-political year. A large part of the Union's success has been due to the organizational abilities of Remberbusch and his excellent vice president Bill Wade.

But despite their previous heroics Rossie and Remberbusch insist upon breaking down the confidence they have built in the students, faculty and administration for their organizations by involving themselves in a personal clash disguised as a "constitutional crisis". This is the first time this year that The Scholastic has served adequately to this point and in the whole "coexistence" it seems pretty ridiculous when you remember that it all started over a $60 car rental bill incurred by Remberbusch while attending a leadership conference without specific approval from the Student Body President.

As a result a bill will be proposed to the Student Senate which will subordinate the Student Union, too, under Richard Remberbusch has developed into a cohesive, well-functioning organization. The Social Commission may finish in the black for the first time in its history and the Academic Commission offers an excellent selection of speakers and conferences even in this non-political year. A large part of the Union's success has been due to the organizational abilities of Remberbusch and his excellent vice president Bill Wade.

But despite their previous heroics Rossie and Remberbusch insist upon breaking down the confidence they have built in the students, faculty and administration for their organizations by involving themselves in a personal clash disguised as a "constitutional crisis". This is the first time this year that The Scholastic has served adequately to this point and in the whole "coexistence" it seems pretty ridiculous when you remember that it all started over a $60 car rental bill incurred by Remberbusch while attending a leadership conference without specific approval from the Student Body President.

As a result a bill will be proposed to the Student Senate which will subordinate the Student Union to the Student Body President finally and without question. Rossie feels that as "the highest elected representative" of the Notre Dame student body he should have dominion over the Union. Obviously, Remberbusch sees Union autonomy as a crucial prerequisite for a well-functioning organization. Both claim they are acting in the students' interest. Both, in fact, are acting only in light of their own personal interests.

The petty bickering of the two student leaders severely diminishes the responsible image that Student Government and the Union have built. We feel that if Rossie and Remberbusch honestly have the students' interest at heart then they will overlook their own personal differences and begin functioning as responsible administrators.

The constitution certainly needs no amending when the problem lies not in that document, but in the personal bias of the people involved. The present constitution has served adequately to this point and there is no reason to believe that it will not now.

We submit that if Rossie and Remberbusch will simply calm down and consider the students' first and their own personalities second, that a satisfactory solution can be easily reached. Perhaps today's Union Board of Directors meeting will soften the disagreement and resolve the matter.

The Scholastic's "Teacher-Course Evaluation Booklet," published earlier this week, is the clearest example to date of students actively involved in the governance of their universities. This is also the first time this year that The Scholastic has succeeded in bringing before the entire university community thoughts and comments that are at the same time both general and to this vital area of academic interest and constructive in their criticism. The problems that always beset such efforts in any area, such as sickness and breadth of vision, have been overcome. The field of academics still, for better or worse, characterizes the student; his right to efforts in any area, such as competence and limitations of time and money. The central usefulness of the book lies in the marshallings of the best students to speak honestly about courses they have taken and teachers they know. Occasionally the booklet lapses in the facile assumption that a course is either good or bad, rather than good or bad for different students, who inevitably have different interests. When the idea of servicing a diverse student body is forgotten, then evaluations come out in shades of undergraduate cynicism. But those cases are rare. The main problem lies in the book's incompleteness. The neglect of colleges other than Arts and Letters is unfortunate and understandable; a first effort and limitations of time and money made a complete survey impossible.

The effort is finally an impressive one because it is the first time that student involvement has been put in a meaningful form in The Scholastic itself; the lofty task is gone, at least temporarily, and in its place is something that is, bluntly, useful. We urge The Scholastic staff to enlarge the effort at course and teacher evaluation and strive to bring the same quality of work into their regular issues as they have in this one.

Yesterday, Today and...

This is now the year of Our Lord, 1969. Many conflicts and crises faced our world in the last year, and many seem to be heading for those same crises in the near future. One of the reasons for this is that we are trying to answer the problems of today with the answers of the past, with a narrow and antiquated vision.

The problem of distribution of wealth is still being faced only in terms of liberal socialism and conservative capitalism, yet neither of these systems will ameliorate the situation today. Unions demand more pay, and management responds to their demands with higher salaries and corresponding price hikes. Racial minorities are demanding jobs and increases in welfare, etc. The incoming federal government counters by advocating black capitalism and further technical training. Neither the questions being asked nor the answers which are provided face the fact that the worker is becoming obsolete. Because of the increasingly automated nature of industry, and the potential automation has, the worker is becoming unnecessary. What will be the function of man in a society that does not require his work? What will be the structure of the economy in which people are not producers but only consumers?

The diplomacy of the major powers are reflections of Metternich in different costume. Weeks are spent in Paris quibbling over seating arrangements, and yet we have scientifically advanced communications to the point where television shows are broadcast trans-oceanically in an instant. The incoming government in Washington favors an increase in military strength, while right now America and the Soviet Union have enough nuclear power to over kill the world six times. People continue to think in terms of nationalism, and continue to build walls. The UN is consistently ignored, and without a sense of world community, considering the weapons at hand, there soon might be no world at all.

Our sense of national priorities in America has put three men in the moon at an expense of billions of dollars, yet medical societies dedicated to the prevention and cure of terminal diseases still must peddle door to door for nickles and dimes. Vietnam is certainly a horrible war, yet it has become the chief concern of a great segment of today's college student, while the overpopulating world continues the process of peopling and starving itself into annihilation. Where is the direction and depth of vision? Copernicus taught us many years ago that the sun was the center of the universe, and we believe that, geographically, yet psychologically, politically, philosophically, and religiously the earth is still the center of the universe, and man is the center of the world.

The only quality which supplies a valid reason for individuating ourselves is the potential for creative thinking, and that seems to be the one power that is being ignored and neglected into obsolescence. Man is self-consciousness into a closed and destructive vision of his civilization. Perhaps we might realize that man is not only one animal among many animals, on a small planet among nine planets, orbiting around a sun among many stars, in a galaxy among many galaxies, in the infinity of space. If God had the omnipotence to create all that is, it seems probable that the high point of his career wasn't the creation of the human sapien, at least not a species which cannot see beyond today.
A Few of My Favorite Things

By Bill Thiemann

I spent New Year’s Day, 1969, like every other New Year’s Day, getting up tremendously late and loafing around the house all day, listening half-heartedly to the local bubble-gum stations playing the big hits of the year gone by. Somehow these hits are always disappointing (to everyone, strangely enough), but this year’s was incredible. In vain I sought a song list that even half suited me. Obviously the infallible sources or requests, record sales, and juke-box play lists were useless. So I consulted the only other infallible source of music—I know of—my own taste—and here is the resulting list of the Big Ones of 1968, albums and singles. This is it, gang, the Cream of the Crop, the Groovy Gravy, the Super-Sounds of last year.

And, in massive retaliation to the Top 40 stations, I have included a list of the Bottom Ten—the worst single examples of musical incompetence, taking a comprehensive poll of myself, I came up with the First and Last Annual “Bummer of the Year” Awards for 1968.

Student Demonstrations Spread to Brandeis

WALTHAM, MASS (UPI) — More than 400 demonstrators were arrested at San Fernando Valley State College Thursday and a new police-student clash hit violence ridden San Francisco State College. Across the nation at Waltham, Mass., more than 200 white students staged a sit-in at Brandeis University in support of 65 protesting Negro students who held control of the campus communications complex to protest alleged racist policies. 

The mass arrests at San Fernando Valley State College, in Northridge, Calif., came after the protesters defied a state of emergency order imposed by the college president. Grin-faced police swept the campus when the demonstrators refused to disperse. There was no resistance, and many of the students tried to joke with officers as they were led away.

Dr. Delmar T. Ovaitt, the college's acting president, was jeered when he appeared among the demonstrators, appealed to them to end the demonstration and offered to meet with protest leaders.

At least four students were arrested in the melee at San Francisco State College, which came after union teachers rejoined the strikers' ranks in defiance of a court order.

A spokesman for the American Federation of Teachers AFT said the teachers voted unanimously at a rally to continue their strike. Contempt citations were readied for the striking teachers.

AFT teachers picketed for the second day at San Jose Calif.

State College.

At Brandeis University, white students clogged hallways in Bernstein Marcus administration building but did not interrupt operations.

The white students sought amnesty for the black students who Wednesday night took over Ford Hall, a classroom building, and the university telephone switch board. The Negroes said Brandeis had failed to follow through on demands made by the blacks last spring after the assassination of Dr. Martin Luther King.

Morton Abram, president of the university, told newsmen he did not contemplate immediate disciplinary measures against the Negroes but said "amnesty will end at a time to be determined." Abram said university officials were not prepared to "discuss issues under duress."

In New York City, Queens College was to reopen Friday for final examinations. The campus was quiet Thursday. Officials told the students two days to avoid possible violence.

Dissident Negro and Puerto Rican students were demanding complete control over a ghetto student aid program at Queens and warned of a possible "long and bitter struggle."

The election would bring about reform or he was simply carrying out a personal vendetta against the brother of the man who had the audacity to oppose him.

If McCarthy honestly felt that Kennedy's election would not reform the party, why didn't he run for the post himself? Certainly one more gallant crusade wouldn't hurt Sir Bitterroot.

As one who once supported McCarthy's campaign against Lyndon Johnson, I recall well how Congressman Allard Lowenstein's "nominating" speech for McCarthy at the Dec. 2nd, 1967 Conference for Concerned Democrats in Chicago, Lowenstein then referred to Johnson as a "nobody," and said that McCarthy was the "some­body" who would defeat that "nobody."

McCarthy seems to be fast approaching the status Lowenstein awarded Johnson. I for one do not regret it particularly, but I am embarrassed that I ever permitted myself to be taken in by the imaginers who so hated Johnson that they could make even Spleen Gene seem a hero.

Truth and Illusion, Gene, Truth and Illusion.

Charles J. Nau Jr.

Arrest Ten at Commune

NOVATO, Calif. (UPI) — A hippie commune with a population of 25 adults and 25 children was in sorrow Thursday after a narcotics raid resulted in the seizure of an assorted stock of drugs and the arrest of 10 persons, including a former nun.

Don McCoy, 37, an ex-businessman who heads the "Chosen Family" community in the Rancho Oolpali camp north of San Francisco, was among those arrested.

The children wept, threw their arms around McCoy and tugged at the skirts of Cecile Korte when the adults were taken to jail. Miss Korte is a former Dominican nun who has been teaching the children at the commune.

"Goodbye, Sister Mary. God bless you," one of the youngsters said when she was taken away. She was known as Sister Mary Norbert as a nun.

A force of 26 narcotics agents swept down on the camp Wednesday night. They searched the sprawling main building, eight outhouses and other facilities. A pound of methamphetamine worth $10,000, hashish valued at $600, seven pounds of marijuana and several hundred capsules of LSD was seized. Agents said they also found a quantity of what was believed to be heroin.

McCoy was washing dishes when the agents arrived. He admitted having marijuana in his possession, saying, "it belongs to God, but I've been smoking it."

ND Cagers Squeak Past Butler, 76-73

...and get down to the Quaker City Invitational Tournament in Philadelphia. Meyer's sophomore son, Joe, runs the offense and contributes a 15.0 average. Other starters figure to be 6-7 center Ken Warzynski (9.4), 6-4 forward Steve Norris intentionally fouled Tom Sinnott, and he made the second of two to give the Irish their winning margin.

Northern Iowa assistant coach Tim McNeil. The 13 goal total and 11 penalties will attest to that. Garry Hoyt lead Butler with the second of two to give the Irish the lead at 67-55. Butler wasn't through though. Garry Hoyt scored twice from inside, Clarence Harper threw in two jumpers and sure enough inside, Clarence Harper threw in the evening 67-55. Butler wasn't through though and Tony Hinkle's patterned defense continued to grind away. Garry Hoyt scored twice from inside, Clarence Harper threw in two jumpers and sure enough with 0:14 to go the Bulldogs were down 75-73.

Steve Norris intentionally fouled Tom Sinnott, and he made the second of two to give the Irish their winning margin.

Notre Dame outshot the "bad guys" 46% to 42%, but Butler performed a feat Johnny Dec wouldn't rather not see repeated in outshooting his big men 51-48. This figure wouldn't be so smooth if you could ignore the fact that Butler's "big man" was only 6-5 and the rest of his teammates were each going away about two inches to the taller Irish. Leading scorer for Notre Dame was Bob Whitmore with 16 points. Bob Whitmore added 14 while Murphy and Collins Jones tabbed 11 each.

Garry Hoyt lead Butler with 25 points including 11 rebounds, while Harper turned in a 9.18 performance for his 19 points.

DePaul Visits

...an 8-2 record and a 90.2 scoring average, the De Paul Blue Demons invade the Convoy Center for a 2:30 contest tomorrow against the Irish. Led by senior captain Al Zetache's average, Coach Ray Meyer's crew are making a comeback from last year's 13-12 record, the worst percentage since 1951-52. Over Christmas, the Demons took the consolation bracket title at the Quaker City Invitational Tournament in Philadelphia. Meyer's sophomore son, Joe, runs the offense and contributes a 15.0 average. Other starters figure to be 6-7 center Ken Warzynski (9.4), 6-4 forward Tom Hunter (11.2), and 6-3 guard Tom Tracy (9.4). Back-up service is provided by Ed Gooden outshooting his big men 51-48. This figure wouldn't be so smooth if you could ignore the fact that Butler's "big man" was only 6-5 and the rest of his teammates were each going away about two inches to the taller Irish. Leading scorer for Notre Dame was Bob Whitmore with 16 points. Bob Whitmore added 14 while Murphy and Collins Jones tabbed 11 each.
