Members of the Open Session of the Student Affairs Subcommittee which met yesterday to discuss co-education at Notre Dame listen intently to the discussion.

Academic Affairs gave the subcommittee an overview of the academic implications the commitment that Notre Dame has presently to St. Mary's regarding co-education.

Next, Father Wilson, Vice-President for Student Affairs, presented an overview of the financial implications of the co-ex program and the possibility of admitting female students to the University. He suggested a study of the co-ex program and of co-education.

Father Whelan, Director of Student Housing and Rector of Grace Tower, talked about the possibility of women living on campus.

Coeducation at Notre Dame.

Dewan issued a final plea to the University community to give their ideas and opinions.

He further observed that the site for Mardi Gras concerts.

Dewan also noted that students are presently holding out large amounts of money for tickets to the Mardi Gras concert. Social Commissioner Dave Vecchi revealed that the financial implications of the questions and problems of communications were brought in to the meeting.

Plans were also finalized yesterday regarding the annual Mardi Gras concert. Social Commissioner Dave Vecchi revealed that the fine hard rock group, Grand Funk, appearing with the very popular of co-education, presented an overview of the financial implications of co-education. tsp, will be the attractions.

Veci said that definite plans were so inordinately late in being announced due to several problems of communications with various groups, and the fact that many groups will be on tour or on vacation during early February.

Such groups as Credence Clearwater Revisited, Sly and the Family Stone, and other groups listed on a previous Social Commission survey were unavailable for a variety of reasons.

Veci also noted that, whereas he could offer the groups as many as five available dates for appearances during fall concerts, he was limited to only one date over Mardi Gras.

Concerning Grand Funk, Vecci remarked that the Commission had been waiting at hard rock for some time now, and that he is quite pleased with the selection, in line with the selection of David Frye.

He further observed that the two acts, appearing for an hour each, would appeal to most students. He added that such a well-rounded concert, appealing to a wide group, would provide even more entertainment.

The concert is scheduled for Friday, February 6, at 8:00 P.M. in the Convocation Center.

Ticket prices have not been announced yet, but will be less than admission to the full concerts.

(continued on page 7)

SUAC reveals semester events
Camus conference heads list

Associate Student Union Commissioner Mike Lynch announced final plans for the upcoming Camus conference, to be held February 8th, 9th, and 10th. At the same time, SUAC head Pat McDonough announced upcoming events for most of the new semester.

"This year is the 10th anniversary of Camus' death," Lynch announced, "to commemorate it, we are holding a conference on Camus on February 8th, 9th, and 10th. The purpose of this conference will be to study some of the questions and problems raised by Camus' work, and some of his reflections concerning theology, philosophy, and political science. Also to be discussed is the art of Camus as a writer."

None of the men that are scheduled to appear are the famous John Danne, formerly of ND, now at Berkeley, and author of Search for God in Time and Memory. Edward Gargan, professor of history at the University of Wisconsin, author of the research paper "Innocence of Camus," Professor German Brey, who teaches romance languages at the University of Wisconsin, Professor Graven will present a lecture on the art of Camus.

Besides these lecturers the student association is planning an exhibit on Camus. From the French cultural agency in New York, several student participation symposiums, and an open discussion. The Stranger based on Camus' book of the same name.

Pat McDonough announced a list of upcoming SUAC sponsored events for the first three months of the new semester. On Feb. 5th, Harrie VanderLaan, authority on camu study, will give a lecture on his specialty.

Suac sponsored films were screened last night and has intimated that the results will be most surprising.

Therefore, they have asked for the attendance of the entire St. Mary's community.

The Open Session of the Student Affairs Subcommittee met yesterday to discuss the possibility that St. Mary's would leave the Notre Dame co-ed housing. He said that he did not want to make a commitment now but did not know the possible consequences.

He said that ND would not go co-ed unless SMU's enrollment ever reached 2000, which he pointed out is three to one ratio considered by the University.

The question concerned the possibility that St. Mary's becoming an obstacle to Notre Dame's going co-ed and the consequent possibility that Notre Dame might have to change its identity. Dr. Carney replied that he did not think that St. Mary's had to be co-ed in order to have what you want."

Referendum to be sent out

Conditions and prices in the pay cafeteria head the agenda for this afternoon’s weekly meeting of the Graduate Student Union.

Since the majority of the graduate students eat at least one meal there each day, it is thought that the GSU should concern itself with the situation in the hope of improving the fare.

Glee Club sings

Last Sunday the Moreau Chorale, St. Mary’s Glee Club and Notre Dame’s Glee Club sang the Dello Joio Mass at the newly renovated Holy Name Cathedral in Chicago. The group was invited by the cathedral to help celebrate its re-opening.

Norman Dello Joio, composer of the Mass, directed the SMC-ND choir group and was accompanied by Arthur P. Lawrence at the organ and the brass ensemble of the South Bend Symphony Orchestra.

After Sunday’s performance, Dello Joio remarked, “Although the Mass was written to be sung by over 100 voices, the chorus set the work to music by only 80 voices.”

The Mass was composed for a mixed chorus, brass instruments, and organ. Prayers set to music did an excellent job with only 80 voices. The chorus accompanied by Arthur P. Law­rence at the organ and the brass ensemble of the South Bend Symphony Orchestra.

Coffeehouse gets 4g’s

The figure $25,000 was mentioned by Father Wilson in regard to the costs of other possible methods of completing the room.

Father Wilson pointed out that the Flanner representatives had felt that the idea is one which will provide something useful for the students. He also mentioned that he felt that the students, in terms of time and effort, would probably end up investing as much as the university in the room.

The primary reason behind the move is that it gets the room used. “The room being used is an unfinished room which the university would have had to complete eventually,” he said. “The cost could have been anything, so I felt that this would be a good inexpensive way to do it.”

Other items of business will include the referendum which has been mailed to each graduate student of the University concerning authorization for a fee of one dollar per semester to go towards the operational expenses of the organization.

Although it had been suggested that this fee might well be included in grants which pay all expenses of the organization, the students will generally have to pay it out of his own pocket. Delegates will also get a chance to review the opposite side of the financial picture when the budget is submitted to them. Approval will of course be contingent on the acceptance of the referendum proposal.

Finally, a report is expected from the group which met with the Committee of Student Affairs of the Faculty Senate regarding representation on that body.

Any graduate students with interests in any of these matters are urged to make their opinions heard by attending the meeting at noon today in the Library Auditorium.

The Paulists arrived on the West Side of New York City in 1858. In 1895 they moved into San Francisco’s Chinatown and into the fringes of Chicago’s Loop in 1904. They’re still there.

Times change. Neighborhoods change. Sometimes they go down—but through it all the Paulists stay. As long as there are people to be served the Paulist will be there.

The Paulist may be in the same old place but he constantly does new things. That’s one of the characteristics of the Paulist order: using their own individual talents in new ways to meet the needs of a fast-changing world in the colleges—in communications—in the ghettos.

If you have given some thought to becoming a Priest, write for an illustrated brochure and a copy of our recent Vocation Chapter Guidelines.

At the Notre Dame Bookstore
SMC Off-campus housing

A large number of St. Mary's students have taken issue with the college policy of forced on-campus living. A student committee was formed to research the feasibility of off-campus living for the college. Their findings, printed in an Observer series this past week, have shown that the prospect is not only possible, but virtually necessary for the future progress of the institution and its students.

As of August 31, 1969, Saint Mary's was operating on a deficit of $469,015, a sum which is nearly half of that of Notre Dame. In an attempt to augment its income, the college will be admitting more students than can be comfortably housed. If its ultimate goal is to admit enough students to offset the possibility of Notre Dame opening its doors to women, then St. Mary's must either build new dorms, discover other facilities, or lose its autonomy when Notre Dame houses SMC students. The college cannot afford to do the first, and the third would occur only with total merger. Off-campus housing would allow for an increase in the number of tuition-paying students, and therefore a decrease in the deficit.

Financially, it seems that Saint Mary's has no other option. Saint Mary's has been striving for diversity among its student body, bringing in students from other cultures, exposing its students to new types of curricula, and, for the most part, encouraging the individual to foster personal responsibilities. It should not, now, back away from permitting its students to undertake the most enriching experience it could offer—having them learn to live independently in the world that they must ultimately deal with. The positive returns to the college atmosphere and community in terms of opinion and perspective are unlimited, and far outweigh any argument against the issue.

Any argument concerning the potential immoralties precipitated by the measure invalidate itself, not because there are not greater opportunities, but because the college institution does not now, have and never should have had, the right to legislate morality for the individual. Freedom of conscience, the basis of Catholic morality, means freedom of each individual to do what the believes is best for him, not what someone else believes is best for him.

The argument that off-campus living is unsafe for the St. Mary's student is thoroughly without basis in fact. The majority of the South Bend-Niles residential areas should be much less suspect than St. Mary's where just this past Christmas Campus Security was unable to halt the nightly theft of 30-foot trees, and where numerous assaults, attempted and completed, have occurred each year. This argument against off-campus living is for 21-year-olds holds any importance in reality. To progress at all in the world where experience is becoming the mark of the truly knowledgable person, Saint Mary's must begin to anticipate all the trends of the future and the make the benefits of those trends accessible to those students who desire to be exposed to them. We urge all those involved in deciding this issue to open to the students their rightful opportunities to grow and mature in the atmosphere they see most fit.

Letters

SMC and coeducation

An open letter to the Saint Mary's Community:

The question of coeducation and the possible merger with Notre Dame has been the $64,000 question for the four years that I've attended SMC. My personal experience with this problem began freshman year when I was chosen by the "Cras" editor to coax a statement from Sister Mary Grace on the ultimate goal of the coeducation program. That interview seems to have set the pattern for all succeeding attempts to define the direction of the co-education program:

"Cooperating" and that was all.

In the 1969-70 school year we are witnessing the "coeducation" of our freshman classes. When I probe for greater detail on what plans for the future exist, I am told that there are no long term plans and that we shouldn't be concerned with them for they may scare someone, namely the SMC faculty; and this by the Chairman of the ND-SMC Coordinating Committee, Father Shelly. In his own words, "We'll cross each bridge as we come to it."

SMC is becoming a victim of the unwillingness of its administration to formulate a strong policy and stick by it. The SMC administration is trying to please ND in order to keep our brother school from co-ed on its own because of the detrimental results to SMC. Appropriation is the name of the game we're playing and no one is willing how it may end.

I favor coeducation and its implications. I want to see the 3-1 ratio achieved as soon as possible. What I object to is the lack of honesty and logic in the handling of these issues. SMC is a very different place now than it was four years ago and no one then seemed to know that we would be where we are now. This year's freshman class has no idea and certainly no guarantee of what kind of an institution they will be graduating from and they have a right to know.

The Notre Dame-Saint Mary's Plan as articulated by Father Hesburgh and Father McGrath last summer is "The Christian education of youth." They suggest that we not follow anyone's lead but (and I quote), "We are doing our own thing." BUT WHAT IS OUR OWN THING? That is the question the Saint Mary's College Community demands to be answered.

Sincerely,

Susan Turnball
Student Body President

Editor (to Glen Corso):

Congratulations on your excellent article "Notre Dame Too."

Perhaps you would like to publish the following remarks:

"If you don't like the Stars in Old Glory
"If you don't like the Red, White, and Blue
"Then don't act like the cur in the story.
"Don't bite the hand that's feeding you."

Sincerely,

L. A. C.

Carney: no possibility excluded

In reply to the next question, Dr. Carney said that the subcommittee was committed to having girls on campus. "No possibility will be excluded in trying to find the most readily adaptable situation," Carney said.

A suggestion that the male enrollment be decreased to accommodate the female students won loud applause from the audience.

The subcommittee was asked if it had any more immediate plans. Dr. Carney replied that the Princeton study had taken one year. "We have complete confidence that we will be co-ed. We're committed to the thing right now."

Next, a female graduate who had spoken to the meeting earlier in the morning, asked about the alleged discrimination against her. Dr. Carney agreed there was discrimination. The meeting then livened up further as the next questioner attacked the school for discriminating against 51% of the population of the country. "We should consider the fact that they're human, too. We have no right to exclude them," the speaker contended.

When asked why the University doesn't reduce its male enrollment as the most feasible method of going co-ed, one of the trustees said, "you don't just do it over night. You'll never see the day when there are swarms of women here. It'll take five to seven years to reach the standard ratio."

In conclusion, Mr. Zimmerman said, "After getting everything I asked for and being told how urgent the problem is, I was disappointed that the students couldn't have been at the whole meeting. If we can clarify the deceptions, we can develop much more meaningfully and quickly a basis for accomplishing that which we have asked for today."

Mardi Gras Ball cancelled

Jim Brogan, Chairman of Mardi Gras Ball, announced yesterday that the ball was cancelled this year, due to problems in scheduling that were unavoidable.

"After much thought and deliberation, I regret to announce the cancellation of the Mardi Gras Ball for this year. This has nothing to do with Mardi Gras's present financial plight, but was made in the interest of the entire student body and the weekend. An effort has been made to streamline the weekend and tailor it to the desire of the greatest number of students.

"Had the Ball been held as originally scheduled on Friday evening this would have forced the concert to be held on Sunday afternoon, due to the basketball game Saturday afternoon and the carnival activities Saturday night. Needless to say, a Sunday afternoon concert would be less than successful.

"The Mardi Gras Committee in conjunction with Student Union officials decided that a concert held on Friday night serving as many as 11,000 people, would be a greater service than a dance which could only accommodate 700 couples.

"It is my recommendation that both a Ball and concert be held in future years as has been traditional for this weekend. Hopefully, the same timing and circumstances that arose this year will not be present in the future and a more complete weekend will be possible.

"I would like to thank all those who have so diligently worked on the ball, even though their effort has apparently gone for naught.

"I must apologise to all those who have already made plans for the Ball assuming that it would be part of this weekend, I can only stress that the Dance was cancelled before Christmas, and that no publicity to date has mentioned the dance itself, in any specific terms, as being part of the weekend," he said.
Spock, Fortas, possibilities

(continued from page 1)

Paul Goodman, author of Growing Up Abused, will speak on February 15th, followed by Stanley Marcus, an urban affairs adviser to President Nixon, on the 17th.

Due to the poor response to the recent poll held by SUAC, they have decided to ask Dr. Benjamin Spock to appear on Feb. 19th. As yet his appearance is still unconfirmed. On Feb. 22nd Dr. Han Morgenbesser, renowned International Relations expert, will lecture. His speech topic is as yet undetermined.

On Feb. 25th Dave Steinberg, head of the National Council for Responsible Firearms, will speak on gun control. His lecture will be the opening event in SUAC's Responsible Firearms, will speak.
