New institution to abolish senate

Petitions for referendum to circulate

By Ed Ellis

Student Body Vice-President Mark Winings announced last night that the Krishna Administration would circulate petitions this week mandating the Student Senate to call for a constitutional referendum of the entire student body on December 9 to consider the proposed new Senate. The petition was introduced by the President and the two executive officers and the proposed new Senate in Walsh Hall.

The meeting proceeded with a study of the current Senate constitution, which would be presented to the Student Senate. The meeting included a discussion of the student body's role in the new Senate, and the election process for the new Senate.

The south quad forum, held in Walsh Hall, was introduced by a speech from Badin's Hall President Buzz Imhof who stressed the importance of hall life and the need for students to be involved in their community.

The Hall Presidents and resident directors met last night in two locations for the newly created Hall Life Council, which would be presented to the Student Senate on December 9. The discussion included the importance of hall life, noting the need for students to be involved in their community.

Drug abuse outlined

By Joe Moskowitz

A forum style discussion on the topic of drug abuse was presented last night in Grace Hall by the Student Life Council that body will hold at Planner, discussion on Hall Life.

The presentation included the importance of hall life, noting the need for students to be involved in their community.

Opinions on drugs aired

(Continued from page 1)

Dr. Kane felt that we live in a "drug culture" because of the high use of alcohol and prescription drugs.

Referring to the process of maturation among today's youths Pullapilly said, "maturation brings anxiety, and in society you're supposed to take pills when you are anxious."

The final speaker was Dr. George N. Schneider, the assistant to the President of Notre Dame. He spoke about a study conducted in a one block area of New York that is two-thirds Puerto Rican and one-third black. From the study he concluded that 1) there were 100 addicts in 65 families, and that cocaine was the worst abuser 2) in clinics, everyday in New York, many addicts die from drugs 3) out of this block very few women were addicted 4) there was no correlation between IQ, pressing on to the use of drugs 5) over one-third have given up drug use, only two used the methadone treatment (synthetic narcotic used to rid heroin users of the physical need) cocaine and hashish may be more dangerous than heroin, and finally 71.4% of the families on the block feel they will never get off welfare. Dr. Schneider feels that if marijuana were legalized, taxed, and licensed, the morality would surely wear off and that the Justice Department should emphasize their effort on the control of hard drugs.

Weekend thefts reported

By Pat Gooley

Several thefts occurred over the weekend, and complaints about certain student activities were sent to the campus security force. Compared with recent weeks, though, there were fewer serious matters to report.

During the football game Saturday, someone stole about $500 worth of clothing and merchandise from a car in one of the parking lots. No more information is available at the moment.

Two wallets were stolen over the weekend, one from Walsh and one from the Rockne Memorial Building. The wallet stolen from the Rock was turned in to Security on Saturday minus $15.

Officials at the Rock have complained that too many students have been lending ID cards to non-students who wish to use the facilities there. This is against university rules. There have also been complaints about student use of parking lots on football weekends. Students are not supposed to use the D-2 lot on football weekends, and 35 cars were ticketed Saturday.

On Friday night, several students blocked Notre Dame Avenue. When a girl stopped her car, several boys entered her car and forced her to drive them a distance. They poured water on her car and coat.

Dr. Kane stated that many youths can't understand why their parent's use of alcohol is socially approved while their use of drugs is a social taboo.

Ruggers win finale

by J.W. Findling

Observer Sportswriter

The high-reputed Chicago Rugby Club finished their finest fall season in several years with a convincing 8-3 victory over the Chicago Lyons Rugby Club on Saturday. The Lyons, a highly-regarded Chicago team brought the Irish ruggers fall record to 6-1 and secured for Notre Dame a ranking in the Midwest Rugby Union.

All the Irish scoring came in the first half. Charlie Blum was assisted in the try by Tom Herlihy to score a goal. Tom Herlihy converted the try.

"We're No. 1,"

Both Notre Dame and Texas claimed that distinction last week but after Saturday's major college action only one can now make it.

It took Texas only three plays to score against TCU as Jim Burkhart, the old junior from Hudson Wis. ran 54 yards for the first of his three touchdowns. Nebraska in the 37th annual Bowl Committee will send a scoreless first half of play to deliver a sharp blow for an opponent to face.

Both teams, Texas and Notre Dame, have had their careers come to an abrupt end. The 6'1'' 235 lb. senior from Queens, New York entered St. Joseph Hospital with an operation of this sort requires six weeks to heal.

The injury was described as strained ligaments and every possibility for any post-season games.

The fourth ranked Texas Longhorns belted Texas Christian 28-25, in the afternoon game as the Longhorns displayed a solid defense. The defense was augmented by a beefed-up schedule, which includes 20 games against the Big Ten, Michigan Tech sextet. Coach Lefty Smith has everyone back from last year's UPI major college ratings.

Orange Bowl scouts commenting on South Bend, Ind. also will get a look next Saturday at the team thought to be one of the ones that could challenge for the Orange Bowl invitation. The two clubs battled through seven days. An operation of this sort requires six weeks to heal.

The defenses dominated the ten-minute overtime period also that both teams could have ended without a score but Washington U. struck again in the final minute of play to notch their second goal and gain the victory. The Notre Dame hockey team will swing into action this coming weekend, unanimously

Dublin out for season

Larry DiNardo, the All-American left guard for Notre Dame, has had his career come to an abrupt end. The 6'1'' 235 lb. senior from Queens, New York entered St. Joseph Hospital on October 3, 1970 with an operation of this sort requires six weeks to heal.

The injury was described as strained ligaments and every possibility for any post-season games.

Two new committees started at SMC

By Kathy Schwille

Two new committees have been established at SMC, one to revise the Inter-Cultural program and a second to redefine the aims of the college.

The Inter-Cultural committee, which should complete its job by December 1, concerns foreign and black students on campus. Their main job, according to Sister Alma, is "to study carefully the proposal of last year under which the program worked and to make the necessary revisions" to strengthen the effectiveness of the program.

Sister Alma described the goals of the Aims and Purposes committee as "to get something down in black and white which is not just in general. It is alright to say we are training young women for good Christian living, that's a wonderful aim, but you want to get something which is a little bit more specific. I think our aims and purposes in the bulletin, for example, have been outdated now for about five years. Seniors in high school are quite sophisticated now in choosing their colleges. A girl and her counselor will go to a college bulletin and see just what the aims and purposes of a college are."

Sister Alma feels at this time particularly it is important to be specific about the aims of Saint Mary's College. "If we don't have a purpose," she said, "why are we existing? We just can't go on by day to day and say we're teaching chemistry pretty well. There's got to be something definite if we are going to ask people for money, for example, to keep the place going."

The Aims and Purposes committee has not yet started its work due to the possibility of a change in specific aims should the college move towards co-education. Membership has not been determined, but Sister Alma expressed the hope that two days at the end of Christmas vacation will see intensive work on the committee.

Earthlight shines in Stepan

Tuesday night at eight o'clock in Stepan Center the Contemporary Arts Festival invites you to share in a new experience. It's called Earthlight Theater, a group of eleven actors and actresses who comprise what may just be the most exciting and innovative thing since "Hair".

Earthlight's "thing" is a collection of short pieces, a form that has been favorite with college students. "It isn't easy being a Paulist. You'd be surprised. The Paulins listen. But, like everything in life, the things that matter most are the hardest. It isn't easy being a Paulist. But then, the best things in life never are."

If you are interested in more information about the Paulist priesthood, write to:
