by Ann Therese Darin

The St. Mary's chapter of the American Association of University Professors (AAUP) released a statement concerning Sr. Alma Peter, Dr. Jack Detzler, the administration of the university, and the Board of Trustees yesterday. The statement cited them for "their appalling lack of concern for community government and for their lack of Christian awareness for human beings involved in recent personnel appointments and structural changes.

The statement, endorsed unanimously by the organization, criticizes the group for "acquiescing" in the appointment of a "Vice-president of Student Affairs and the reorganization of related areas, in arbitrary violation of the Student Government participation."

It also refers to the group for "the disregard of proper procedures in the appointment of a woman as head of the Administration of the Dean of Students, and the diminution of the offices of Housing and Director of Student Aid without recognition of extensive contribution to the college."

AAUP bases the censure on SM's acceptance of the "Statement on Government of Colleges and Universities" adopted by the school in Winter, 1966, and the national "Statement on Student Rights and Responsibilities" adopted by the college in 1968. I think that the statement speaks for itself," commented Sr. Franitza Kane, campus AAUP president, "It's not the kind of action that an organization would take lightly."

Although Congressman John Brademas, a trustee-member, had not yet studied the document, an aide, Mr. Nye Stephens said, "Mr. Brademas hasn't acquiesced to anything he heard from Sr. Mary in over a month.

Rev. Neil McCluney, SJ, also commented that he was equally disturbed about being labeled as a "vice-president of ".

"I do agree in principle that there was a violation of procedure," he said. "It's easy to do this, especially considering the monarchical tradition of the Church."

"To Sr. Alma's credit and also Dr. Detzler's, for the past two or three years they have been trying to bring in the students in the decisions, but this has apparently been a retrogression," he said.

"The wording of the censure, however, is too strong," he added. "Especially the word 'appalling.' That the action was really against Sr. Mary and Dr. Detzler, to prove to me."

Questioned on the administration's feelings about the matter, Dr. Detzler, temporary acting president, did not comment on the statement.

In Chicago, Mr. William E. Cullin, chairman of the Board of Trustees, commented, "I was not in on the planning stages and therefore I do not have the foreground or background necessary to comment."

Sr. M. Alma Peters

Approximately 100 persons were urged to attend a meeting of the Michiana Committee to end war tonight and to organize now against the war in Indochina yesterday during a rally to protest the recent invasion of Laos.

The rally began at 12:30 p.m. at the foot of the Administration Building's steps, where the organizer Steve Novak introduced the first speaker. Joe Schlesser announced that the Michiana organization would meet at 7:30 this evening in the Union Hall on the campus of Michigan State and North Shore Drive in South Bend.

Novak, who is also the National Student Association campus coordinating center and the following telegram from Mme. Nguyen Thi Binh, delegation to the steering committee of the Provisional Government at the Paris peace conference.

"I am going to try to bring the black man into using violence and then use the black violence as a sort of thinking tool."

"I do not think that the Muslims advocate black community violence because it is a "real folly" for blacks to fight whites in this, the most militarized country in the world where the whites control the military power." "Muhammad is trying to save the lives of black people," said Ali. "He is trying to prevent black people from getting killed."

If you are for black you have to tell the whites to stop using violence against Muslims by white people. "If you are for black you have to tell the whites to stop using violence against Muslims by white people."

"People make slums" he said, and he emphasized that the Muslims advocate blacks cleaning up the slums and creating a nice place to live.

Ali said that the Muslims consider every black person a member, but he inadequately answered the question that if this was so and the Muslims advocate retaliating when attacked, why are the Muslims not advocating armed resistance by every black.

"The whole concept of co-ed education is going to affect every part of Notre Dame, and a big part of this is the graduate school," said Mike Stiglianese, Research and Development Commissioner.

According to Mike Stiglianese, the co-ordinator of the grad school section of the student representatives to the Park-Mayhew, the ratio was to women in the grad school is 7:1, whereas in the undergraduate (between ND and St. Mary's) it is 4:1, "an interesting statistic," in Stiglianese's opinion. The undergrad school is thus concerned with comprehensive co-education to the extent that the undergrads are concerned with that possibility.

The grad school's section of the student center reports to the Park-Mayhew, the ratio was 10:1 in favor of women. Stiglianese, a good number of graduate T.A.'s have been at St. Mary's in over three years they have been trying to bring in the students in the decisions, but this has apparently been a retrogression," he said.

"The wording of the censure, however, is too strong," he added. "Especially the word 'appalling.' That the action was really against Sr. Mary and Dr. Detzler, to prove to me."

Co-exchange dinner planned

The Research and Development Commission of the Notre Dame Student Government and the Student Services Organization at Saint Mary's will cosponsor a co-exchange dinner, Monday February 22, in the Notre Dame and Saint Mary's dining halls.

The exchange will consist of 500 ND students going to the St. Mary's dining hall, and 500 SMC students attending dinner at the two ND dining halls.

Sign-ups at ND, which will be on a "first-come, first-served" basis, will be held during the dinner hours of February 18, in the North and South dining halls. It was asked, however, that only students who had never eaten at the opposite campus' dining halls and who were willing to experiment volunteer for the dinner. Students of SMC will have the opportunity to sign up at their dining hall on Wednesday and Thursday, February 17 and 18.

Both Odomillers, chairman of Research and Development said that the students taking part in the exchange would receive their admission tickets when they signed up.

Working with Odomiller are Diane Shahade and Mary Ann Wright.

The letter of censure written by the St. Mary's Chapter of the AAUP should finally bring to light the "unChristian" dealings of the present administration, and cause some serious rethinking on the part of all factions on this college community.

The activities on the part of the present administration in the past few months have been passingly commented on by those involved and generally ignored by the rest of the so-called community. Consider the firing of certain individuals in the college, with no clear cut reasons. Consider the involvement of new members of the administration with out regard to the community government held so clearly by the college. And even more recent, consider the alteration of jobs and the elimination of jobs without St. Alum's and the administration's regard of Christian attitudes expressed so well by them in the memos of first semester. All these actions have created a distrust and apathy among the members of the college, and the resignation of one of the high officials in protest.

St. Mary's College has ceased to be a "Christian community". It has ceased to be a community of any sort. This censure represents the true extent to which the decay has gone. It is now time for the administration to stop evading the ideals for which it promises to stand. When the faculty protests in disgust, and a high official resigns because of the methods used by this administration, then it is clear that it is time to stop lying to everyone about the Christian atmosphere at this college.

Call St. Mary's what it is, what it has become. A sham.

dave krasho

On the General Assembly of Students

Next week's general assembly of students will be the first in three years. But it's timing couldn't be more crucial. In another month the combined Boards of Trustees will meet to decide the future relationship of Notre Dame and St. Mary's College. Without an expression of strong student opinion and perversion to which we have all been sub­jection, the inhumanity of our present social atmosphere.

The general assembly gives all students a chance to endorse a plan for co-education that goes without the approval of the entire student body.

If the Trustees accept the meager progress sug­gested by the Sweeney-Park/Mayhew Report, this college community.

No man, but a blockhead, ever wrote, except for Samuel Johnson 1776
Joint Treaty of Peace Between the People of the United States and the People of South Vietnam and North Vietnam

Be it known that the American and Vietnamese people are not enemies. The war is carried out in the names of the people of the United States and South Vietnam without our consent. It destroys the land and people of South Vietnam. It drains America of its resources, its youth and its honor.

We hereby agree to end the war on the following terms so that both peoples can live under the joy of independence and can devote themselves to building a society based on human equality and respect for the Earth.

1. The Americans agree to immediate and total withdrawal from Vietnam and publicly to set the date by which all American forces will be removed. The Vietnamese pledge that as soon as the United States government sets a date for total withdrawal.

2. They will enter discussions to secure the release of all American prisoners including pilots captured while bombing North Vietnam.

3. There will be an immediate cease-fire between U.S. forces and those led by the Provisional Revolutionary Government of South Vietnam.

4. They will enter discussions of the procedures to guarantee the safety of all withdrawing troops.

5. The Americans pledge to end the imposition of Thieu-Ky-Khiem on the People of South Vietnam in order to insure their right to self-determination and so that all political prisoners can be released.

6. The Vietnamese pledge to form a provisional coalition government to organize democratic elections. All parties agree to respect the results of elections in which all South Vietnamese can participate freely without the presence of any foreign troops.

7. The South Vietnamese pledge to enter a discussion of procedures to guarantee the safety and political freedom of those South Vietnamese who have collaborated with the United States or with the US supported regime.

8. The Americans and Vietnamese agree to respect the independence, peace and neutrality of Laos and Cambodia, in accord with the 1954 and 1962 Geneva Conventions and not interfere in the internal affairs of these two countries.

9. Upon these points of agreement we pledge to end the war and resolve all other questions in the spirit of self-determination and mutual respect for the independence and political freedom of the people of Vietnam and the United States.

By ratifying the agreement, we pledge to take whatever actions are appropriate to implement the terms of this joint treaty and to insure its acceptance by the government of the United States.
HAPPY VALENTINE’S DAY

(Continued on page 8)
Phoenix — One of the great lacks in American society today, some psychologists say, is the presence of a true titled class, an aristocratic authentic living folk heroes.

Even primitive cultures have their great chiefs and a hierarchy of the chief, the very rich, and the gods and goddesses — in short not to be made up.

America has had flamboyant military leaders, but every schoolboy knows these were won by bulldozers not bullets, factories not fighters.

More money once created a glamor car for asthmatic and the pesanitary would line up outside the opera house for a glimpse of the plutocrats and their tufted-dawger wives, but this palled when every schoolboy now grows up with a golf club in his hand and without paying a dollar-eighth to see one on the screen.

It is the sportsman who is American royalty today. Dave Meggory to the contrary notwithstanding, it is not gardening a football hero or a baseball one, or golf, boxing or basketball, to get along with the American public.

What is which prompted American Airlines' marketing vice president, F. Jack Mullins, to come up his unique Astroturf golf tournament here at Litchfield Park. He well realized the public wants to see Willie Mayes somewhere besides center field or the pitcher's box. They want to see John Martin standing beside No. 75 or a quarterback. They want to see Merlin Olsen, who has to be tripped-read on a gridsome, helpless before a little ball an inch-half in diameter.

Other airlines, notably United and National, sponsor tournaments and the real big deal, the PGA. Is it possible to know that "What is Mickey Mantle REALLY LIKE?" Or that its curiosity to know if Henry Aaron could hit a ball that couldn't even touch a golf club. And, conversely, the way the whole world of Johnny Bench standing in a puddle of water trying to save up will bring photographers on the double and decorate sports pages all over the country.

He also knew the airline's best customers, corporation Presidents, would fly in for the opportunity to trade strokes with retiring athletic英雄es. There are 64 corporate executives and 68 baseball and football players and not a second-stringer among them — aboard on the fairways daily.

American Airlines pays the athletes a flat fee expense money, then pays $10,000, and arranges lavish gifts, all with the airline's logo prominently stamped.

Player hung up on golf as a recreation may elect to watch the prize since acceptance stamps him from the pro-athletes like the Crosby and the Hope and, technically, requires him to play at scratch even at his home course. Twice-weekly in the maximum allowable handicap at the Astroturf, and Bob Gibson showed up one year with a record of never having had a minus handicap. He shot a creditable 118.

It is said the Crosby must pick its field from 10,000 applicants. Which is what prompted American Airlines' marketing vice president to trade strokes with reigning athletic heroes. There are 64 corporate executives and 68 baseball and football players and not a second-stringer among them — aboard on the fairways daily.

VP appointment viewed
by John Gallagby

The appointment of vice-president to oversee and co-ordinate the present Law, Business Administration and Graduate Schools is, in the eyes of William Lorimer, Graduate Student Union President, a crucial step in the further development of Notre Dame's post-graduate schools.

It will be the first time that these are directly represented in the administration of Notre Dame as a whole. Just as important in determining the direction in which these departments travel, however, is the man whom the Trustee sub-committee decides to pick.

Lorimer sees the University in a position to support its graduate departments by picking a dynamic leader, one who will "lead us from our present mediocrity." The financial support that the new Vice President receives from the University for any programs he might institute will indicate how deeply the University is willing to commit itself to renovation.

The GSU President also expressed the view that the new vice-president should come from outside the present University structure to, in his words, "bring in some new blood."

His personal choice for vice-president are either Frederic Bowers, chairman of English at the University of Virginia, or William Arowsworth, distinguished classicist who spoke at Notre Dame last semester. Both men have proven themselves scholarly, administrative and, what is more important in Lorimer's mind, dynamic leaders.

Lorimer expressed concern at not having a voting member of the graduate students on the Search Committee, which closes for applications on February 28. The Graduate Student Council passed a formal resolution to move that the Academic Council appoint two voting graduate students to the committee, but the motion was not brought up by Esther Brechnich, the Graduate associate dean.

Lorimer, however, emphasized that there had been a Graduate consultant appointed to the committee in the person of Miss Marie McGuire, an electrical engineer.

Lorimer summed up his feelings on the subject with these words: "It is time for the University to make good its claim of supporting Graduate level education. The decision to appoint a vice-president, and the coming selection of a man for the post could be the most important things to happen to Notre Dame's graduate school in the last ten years."
