Here are the ideas you need to help improve the world.

The greatest personal library of great writings ever assembled...GREAT BOOKS.

Granted, the world is not in good shape. War, pollution, poverty, simple social justice...the problems are all around us. And today, everyone seems to have pat, simple solutions to very complicated problems. Problem is, most of these solutions are more simplistic than simple. Meanwhile, the problems remain.

What more can you do about these problems? How can you, personally, begin to attack them? Paradoxical as it may sound, you can move ahead by looking back.

Because these problems are not new; they've been around as long as man has been around. It's just that they're intensified by the surge of population growth and the speed-up of social change.

Unless you're one of the minority that feels the past is all dead matter, you'll likely agree that the great ideas of such thinkers as Plato, Homer, Cervantes, Tolstoy, Aristotle and Freud still have great relevance for today. And that's what the Great Books are all about! They contain just about every key idea conceived by Western man over the past 3000 years. The Great Books are published in collaboration with the University of Chicago, by Encyclopaedia Britannica. A set of 54 sturdily bound volumes containing 443 master works by 74 of the greatest geniuses who ever lived.

The $1,000,000 Syntopicon included

With the Great Books (and available only with Great Books) is a unique reference work called the Syntopicon. An amazing index, it took some 8 years and cost some $1,000,000 just to write! Unlike a dictionary that defines words or a reference book that synopsizes facts, the Syntopicon indexes ideas—every one of the thousands of topics and subtopics within the Great Books.

In minutes, the Syntopicon enables you to look up any idea in the Great Books and find what each of these great thinkers thought about it.

A wealth of knowledge for you to use

As you begin to absorb some of these great ideas, you'll find it may change many of your reactions to the world around you. You'll find yourself re-thinking some of your original opinions on war, ecology, justice, opportunity—all the problems confronting the world today.

You'll find yourself referring back through the Syntopicon to that wealth of ideas in an instant—double-checking your original reaction with your considered reaction.

If you really want to help change the world, and change your life in the process—if you're not afraid to have your ideas challenged—look into the Great Books. Not incidentally, you'll find there a lifetime of reading for pleasure as well as stimulation.

MAIL CARD TODAY

FREE DRAWING ACADEMIC COMMUNITY

Register now. You may WIN a magnificent 54-volume set of GREAT BOOKS

Register now—this free drawing does not obligate you in any way, and you need not be present to win. Winners will be notified by phone. The drawing is being held to help publicize the Great Books and the revolutionary Syntopicon which indexes the great ideas of 74 of the world's greatest authors, covering 443 major works of the past 30 centuries.

GREAT BOOKS

425 North Michigan Avenue
Chicago, Illinois 60611
The University of Notre Dame Academic Council has received recommendations from its steering committee for revising the Faculty Manual, originally adopted in 1967. The steering committee draft revision came after it studied charges suggested by the Faculty Senate, colleges, departments and individuals. Materials distributed to Council members included, in addition to the Committee draft, copies of all suggestions submitted, including a couple of completely revised texts of the manual. The Council voted to study the material before deciding on a procedure for the next three meetings, which have been reserved for discussion of Manual revision. The Council also:

- Deferred a decision on whether or not professional staff members of Psychological Services ought to have status on the University's teaching and research faculty until the matter could be discussed in the context of Faculty Manual revision.

Phys ed expansion?

- Received for study a report from a committee which considered the physical education requirements for freshmen. The report recommends that "the present physical education requirements for freshmen be maintained with the hope that still further diversification of program activities may be developed" and that women undergraduates be incorporated directly into the existing program.

Extended the two-year experimental appointment of seven students in the Council through the life of the Faculty Manual revision discussion. It was pointed out that although review of the experiment was scheduled for this fall, revision of the manual might resolve the question.

Committee members

Announced a Committee on the Course of Study which will discuss the cluster of issues relating to the question of what the organizing principle of undergraduate education at Notre Dame should be. Members of the committee are Dusan Frederick Cronson, chairman; Dr. William Burke, assistant professor of marketing; Antonio Colacino, second-year law student; Dr. Donald Costello, professor of English; Dr. Dennis Dagan, associate professor of economics; Dr. John Kanak, assistant professor of chemistry; Dr. Stuart McManus, professor of aerospace and mechanical engineering; Dr. Vague Mcn, associate professor of physics; Dr. M. Benedict, professor of philosophy; John Rung, senior in Arts and Letters' pre-professional program, and David Sparks, director of University Libraries.

Giuffrida, Ackerman head SLC

In its initial action of the year, the Student Life Council unanimously elected Fred Giuffrida as chairman for 1972-73. Dr. Robert Ackerman, director of student activities, was also unanimously elected to serve as the Council's Vice-Chairman. After the meeting, Giuffrida promptly announced his resignation from the editorial board of the Observer. Giuffrida held the position as editorial editor of the paper.

The SLC likewise established four general areas in which they intended to work this year: 1. possibilities of alternative life styles in the residence halls, 2. what action the University will take if the age of majority is moved to 18; 3. the problems of overcrowded housing, and 4. which halls will be changed to female residence dormitories for next year.

Election of the Chairman

Nominations for the post of chairman also went to Floyd Kenele and Professor John Uehran. Both however withdrew the nominations. Giuffrida's nomination then prompted his election.

The situation was similar in the election of the Vice-Chairman. Sister John Miriam Jones also withdrew her nomination. She felt that she lacked the experience necessary for the post.

Fred Giuffrida and Fr. Richie head the discussion at the SLC meeting. Fred resigned his Observer position after the meeting.

Facenda Opens Session

Dr. Phillip Facenda, Vice President for Student Affairs, who by ad hoc action opened the meeting, defined the SLC's function. He offered that the SLC was "to mediate in that area of responsibility which is assigned to the office of the Vice President of Student Affairs." Further claimed that the Student Life Council needed action this year to prove to the university community that something does go on at Student Life Council meetings.

Radin and Walsh Representation

Discussion then moved to the floor where the question of representation from Radin and Walsh halls was pursued. Council members felt that in this year's issues the contribution from such a representative would be extremely valuable.

The SLC therefore adopted a motion to the Steering Committee to study the possibilities for such representation on the body.

Steering Committee Elected

The Steering Committee, which sets the agenda for SLC meetings, is comprised of one student, faculty member, and Administration represenatar. This year's body elected Floyd Kenele, Fred Syburg, Assistant Director of the ND-SMC Theatre, and Leslie Fuschin, Assistant Dean of the Law School.

Further floor discussion prompted more topics which the SLC will consider this year. Included in these were coed housing, renovation of LaFortune, student initiated enterprise on campus, and university initiated rent control for off-campus students.

On the question of LaFortune renovation, Facenda noted that he already has a committee looking into the matter. For SLC purposes, he hoped that the body would look into more areas concerning the use of the facility. They hope to discuss the 24 hour opening proposition and the question of what should be done with the center. Facenda noted that the idea of massive appropriations should also be debated.

Kersten Unseated

The SLC also approved the seating of Dennis Fierene (H-Man) in Student Government's ex-officio seat on the body. He will replace R. Calhoun Kersten who holds the seat in his position as Student Body President.

Kersten submitted that he could not hold the seat because he had a French class at the same time and promptly departed to take a French test.

Academic Council studies Faculty Manual revisions

The University of Notre Dame Academic Council has received recommendations from its steering committee for revising the Faculty Manual, originally adopted in 1967.

The steering committee draft revision came after it studied charges suggested by the Faculty Senate, colleges, departments and individuals. Materials distributed to Council members included, in addition to the Committee draft, copies of all suggestions submitted, including a couple of completely revised texts of the manual. The Council voted to study the material before deciding on a procedure for the next three meetings, which have been reserved for discussion of Manual revision.

The Council also:

- Deferred a decision on whether or not professional staff members of Psychological Services ought to have status on the University's teaching and research faculty until the matter could be discussed in the context of Faculty Manual revision.

- Received for study a report from a committee which considered the physical education requirements for freshmen. The report recommends that "the present physical education requirements for freshmen be maintained with the hope that still further diversification of program activities may be developed" and that women undergraduates be incorporated directly into the existing program.

- Extended the two-year experimental appointment of seven students in the Council through the life of the Faculty Manual revision discussion. It was pointed out that although review of the experiment was scheduled for this fall, revision of the manual might resolve the question.

Committee members

Announced a Committee on the Course of Study which will discuss the cluster of issues relating to the question of what the organizing principle of undergraduate education at Notre Dame should be. Members of the committee are Dusan Frederick Cronson, chairman; Dr. William Burke, assistant professor of marketing; Antonio Colacino, second-year law student; Dr. Donald Costello, professor of English; Dr. Dennis Dagan, associate professor of economics; Dr. John Kanak, assistant professor of chemistry; Dr. Stuart McManus, professor of aerospace and mechanical engineering; Dr. Vague Mcn, associate professor of physics; Dr. M. Benedict, professor of philosophy; John Rung, senior in Arts and Letters' pre-professional program, and David Sparks, director of University Libraries.
Shriver expected to make major policy statement here

Sargent Shriver, the Democratic vice presidential nominee, will speak at 10:30 p.m. EST Wednesday (October 11) in Steden Center at the University of Notre Dame. The campaign speech is a result of an invitation extended to presidential and vice presidential candidates of both parties by Notre Dame's president, Fr. Theodore M. Hesburgh to present their views to Notre Dame's student body, most of whom are newly enfranchised.

Hesburgh will introduce the candidate, whose association with the University predates his career in public service. As general manager of Chicago's Merchandise Mart, Shriver joined the university's Advisory council for the College of Business Administration in 1953, where he served for 14 years.

Three months after his appointment in March, 1961, to head up the newly established Peace Corps under President Kennedy, Shriver spoke at Notre Dame's Commencement and received an honorary Doctor of Laws degree. He used this occasion to announce the first agreement negotiated by the Peace Corps with any university, under which Notre Dame would be the site for the training of volunteers to work in rural development in Chile. Shortly after adding the Office of Economic Opportunity to his Peace Corps responsibilities, Shriver was again at a Notre Dame podium, accepting the 1965 Patriotism Award, given annually by the Notre Dame Senior Class. In 1968, the University conferred upon Shriver the Laetare Medal, generally regarded as the most significant annual award given to Catholics in the United States.

Hesburgh made the presentation in June in Paris, where Shriver was serving as American Ambassador to France. The award citation noted the recipient's "concern for those less fortunate...whether disadvantaged fellow citizens or peoples of far-off and underdeveloped nations."

Third District Congressman John Brademas (D., Ind.), a close friend of the vice presidential candidate, is expected to be on the platform with him. From South Bend, Shriver will fly to Gary, Ind., for a campaign stop.

Washington - TV viewers are glimpsing a new, tougher George McGovern as the Democratic presidential campaign heads into its final month. In the latest wave of political commercials now getting network exposure, the South Dakota senator criticizes President Nixon on several fronts and speaks out bluntly on his own defense on sensitive issues like welfare and radicalism.

Paris - Presidential Adviser Henry A. Kissinger and his deputy, Maj. Gen. Alexander Haig, met with North Vietnamese negotiators Monday in Paris for the second consecutive day, the United States Embassy reported. After the talks, the two men will fly to Washington to report to the President.

Istanbul Turkish and American officials engaged in the fight against illegal narcotics believe it will take considerable time - estimates range from 1 to 3 years - before Turkey's ban on the growing of opium poppies can markedly reduce the amounts of heroin smuggled into this country. Meanwhile, United States Law Enforcement and Intelligence Agencies are striving to prevent narcotics smugglers from replacing their eventual losses.

London - The bank rate, which for 270 years has been the peg for monetary policy and interest rates in Britain, was abolished by Anthony Barber, the Chancellor of the Exchequer. In its place will be a fluctuating rate tied to the average discount rate for treasury bills that will no longer signal the treasury's desire to expand or contract the supply of money.

The Observer is published daily during the college semester by the students of the University of Notre Dame and St. Mary's College. Subscriptions may be purchased for $3 per semester (14 per year) from The Observer, Box G, Notre Dame, Indiana. For college campus or local exchange package post, Notre Dame, Ind., 46556.

Kovatch upgrades security

by Maria Gallagher
St. Mary's Editor

Saint Mary's campus security is "better this year than last," according to Dean of Students Kathleen Mulaney, and most of the credit belongs to new security chief Anthony Kovatch.

Kovatch has behind him twenty-one years of experience as a South Bend firefighter, as well as police training. He has been most recently worked security for the South Bend Community Bank, and so comes well-qualified for the job.

Since his arrival on campus September 18, Kovatch has stepped into his new role, and has a wealth of suggestions for the improvements that he would like to see implemented.

"First of all, we're planning to floodlight the entire south side of the main drive by the wooded area," he revealed, in the wake of the failure of an attacker on campus.

Kovatch also hopes to expand the security force, subject to funding of the administration.

"It's in the works, but the financial considerations have to be resolved first," he said.

The present force consists of eight police officers, with four of them working the day shift, two the four to midnight shift, and three work the night shift. Their aim is to create a continuous presence on the campus, and so prevent a spate of attacks on the campus.

If more personnel were hired, Kovatch stipulated that they would man the phones in the security office at night, as no one is doing this now. This would serve as a deterrent to any potential attacker.

Budget committee releases recommendations

by David Rust
Observer Staff Reporter

Setting a total spending ceiling of $79,000, Student Government Treasurer Margaret Marble released her report on the budget for this year's student government business.

Hearings began in Marget's committee to debate student government's college-wide and campus-wide organization financial needs, and supporting their claims with financial statements of last year, during the seven-hour session.

The committee met at different times throughout the week, and were hammering out the final document during Tuesday evening. The last item on the agenda was the budget itself. Marget's budget now goes to the student government's legislative arm for consideration and possible overturned, as Marget, acting Student President Dennis Ettien, defended the budget procedures are outlined

by Maude Petyia
Observer Staff Reporter

Out of state students that are of voting age should take note that some states do not allow absentee balloting, and that this requires the students to register in the state of Indiana.

"These states are not allowing absentee balloting are Alabama, Arizona, and Pennsylvania," William E. Slyad, Social Commissioner Coordinator, said.

Students from those five states should go to the City and County Building on Lafayette and LaFayette and register to vote. The deadline for registration is today, Tuesday.

"Out of state students that have the requirements for Indiana is sixty days before the election," Slyad said. "That means their time will be accounted for by most students in time of time when they are in school.

According to Pam Sayad, a legal counselor for the Campus Legal Aid Office, these students who vote by absentee ballot should write to the Registrar's office with their home address, and not in the state.

"The Treasurer's office will need to be notified, and this information is sent with the ballot," Sayad emphasized that these students still needing to register or request an absentee ballot should do so immediately.

Priority committee forms four task forces

by Art Ferranti
Observer Staff Reporter

Four task forces have been appointed by the University of Notre Dame's Committee on University Priorities.

The task forces will study four issues: research as related to instruction; the campus plant and facilities; academic disciplines taught at Notre Dame, and student organizations.

Three members of the Committee will serve on each task force, to be joined by other members co-opted from the University community. The composition of the four task forces is expected to be announced within two weeks. It is anticipated that other task forces will be formed to examine a variety of issues in late November. Rev. James T. Burtchell, C.S.C., present of the University and chairman of the Committee, said.

Burtchell also said the Committee would not conduct a public appeal to five University organizations for assistance: administration, alumni and trustees, students, faculty and staff, and student organizations. The task force that added the above public appeal to the task of the Committee is to present plans to conduct public meetings, but task force members may choose to hold hearings.

"Specifically, the typical highights Homecoming

by Art Ferranti
Observer Staff Reporter

After a sellout of 530 bids, the details of homecoming prohibition party for this Friday night were announced by the party committee.

With decorations ranging from two fake phone booths as entrances to two 1920 vintage touring cars to give the impression of a road trip, and a beehive hairstyles to the ban on "mohican" or "mull" haircuts, the party will feature a 18 piece band highlighting not only the big band era but contemporary music as well.

The party will begin at 8:30 p.m. with food provided by the Cafe Restaurant. John DeLuca, one of the organizers of the party, emphasized that the couples should come in 1920-30 costume. As eight-
A Good Start

The Student Life Council broke with its tradition of selecting a faculty member chairman and elected Fred Giuffrida, district VI student representative, as the first student chairman in the Council's history.

Not bad for openers but the new mood of the SLC is probably better represented in Dr. Philip Faccenda's remarks after the election of the chairman. He asked the council:

-to study alternative life styles in residence halls.
-to study the problem of what action the university will take in light of the lowering of the age of majority in Indiana.
-to decide how many will people be asked to move off campus in order to eliminate the present bed shortage.
-to decide which halls will house women when the number of female undergraduate students is increased next year.

The Catch is...

If the SLC produces legislation on all of these topics, it will begin to live up to the potential that a student assemby—something that is really worth getting excited about.

For the next couple of years. In addition, provisions for the handing of displaced students including extensive improvement of information on off-campus housing should be incorporated into the report.

Flexible proposal

A flexible proposal like this one would allow the administration to make the announcement of dormitory plans for next year in time for the announcement to have some bearing on a student's decision to move off-campus. Such a proposal would also represent a first (and hopefully extensive) effort in the area of long range housing planning.

Most importantly, the proposal would give Faccenda the information and advice he needs anyway to make the decision to convert a residence hall. It would be foolish to request such a report and then not act on its recommendations.

Once this major consideration is handled, the credibility and usefulness of the SLC can be considered with useful evidence. Certainly, the two critical considerations will be whether the group can deliver a well-written, well-researched report and whether the administration treats that report with the respect it deserves.

Right now there is good reason for optimism. The unanimous actions of the body indicate that, more than in past years, the three actions have a common sense of purpose. The SLC has always been politicized and sometimes this factionalization has worked in the students best interests. It's just possible that a smoothing over of the sharp political distinctions will make the SLC work more effectively this year.

John Abowd

Ms. givings

There's a story from way back which claims that Benjamin Franklin, though the vice president of the United States should be called "His Superfluous Excellency." Franklin was a pretty sharp guy—would wonder if after a critical examination of college politics he would render them "their superfluous pabulum.

Is this class officers necessary? At St. Mary's, his function is to "articulate class opinion through their positions on the executive cabinet of student government." And yet, what particular needs could students have that another would not? What needs would students have if not to be heard and effectively through the student assembly?

Class officers may serve as initiators and organs of class projects, but the only two activities at SMC presided over by class groups are the Christmas banquet (traditionally sponsored by the junior class) and the Sophomore parents weekend. But these always have individual chairmen anyway: class officers aren't needed in these capacities. Last year the merged (freshman class sponsored a series of social functions, but does this indicate that class officers are merely a group of social co-ordinator? A social commission could fill this function.

Quick quiz: That's what almost everyone who runs for a class office perpetually is. Yet, how does one unite a class of 500 at St. Mary's? A class of 150 at Notre Dame? Let's see if you can.

Quick quiz: 1) name your class officers from last year; 2) name the thing they accomplished.

Both questions a blank? Then congratulations,you've gotten the point.

Perhaps St. Mary's students have become cynical about class officers, and even student government in general. Perhaps that's why out of the four positions available—president, vice president, secretary, and treasurer—only one person is running from the junior class. Perhaps that's why there are no contests in any of the student assembly elections in the halls—nay, only one student ran for one of three available positions in Holy Cross Hall—the other two had to be filled by appointment.

Which brings us to today's election. Thank God that no percentage of the class must vote in order to make the election valid—past elections show such meager runouts that no one ever would have gotten elected provided anyone care to run. People don't perceive over their opponents—a simple majority is all that's necessary.

Student government serves a purpose but class officers are a superfluous lump of insignificance. Their days can be just as well the members of the student assembly.. It's a waste of time to even bother.

The no-contests in the student assembly elections this year follow the pattern that another matter entirely. The student assembly meets weekly, and serves as a body for information, a place for halls and for clubs to petition for student government funds (and a dispenser of said funds), and is the first in a series of three—any proposal must pass before it reaches the Board of Regents. One member represents a constituency of approximately 150 women. These members are elected on a full basis—five from Latinorum, three each from Magnus and Regina, and Holy Cross. Off campus holds one seat. The bulk of student representation is here and there is no reason for students to be represented twice—such representation is a duplication of functions.

The student assembly, then, is a fairly important body. For students to be apathetic toward it—a body which really does have some power (as opposed to class positions, which are essentially a joke in their) to be apathetic about the issues which should be of primary concern—opens parlous, the right of students to determine their own lifestyles, open lootis, dispensation of student government funds, the development of St. Mary's, and countless others yet to arise.

If you've got up every year but nothing ever gets done about it.

The stellar example of class officers has been no help, either. This may be a pet peeve of test—let's examine the function of the class officer this year as it is translated into action—and see if the point are really viable ones.

If not, let's abandon them and concentrate our attention and efforts on the student assembly—something that is really worth getting excited about.

John Abowd
Faculty, and administrators have addressed an obligation to relate the priorities collected by the University and entrusted to Student Government in order to subsidize programs within the framework of the funds to activities definable as the private programs, we make the following requests ranging from $40 to $7,000. In the Administration...

We recommend that $2,500 be appropriated for the residence hall treasuries or the hall communities. Maintenance and not of the hall treasuries or the hall communities. Maintenance and not of the hall communities. Maintenance and not of the hall communities.

The Student Activity Fee of 14 dollars is announced and advertised in advance. In cases where the Student Government need funds, any profits shall be used to make physical repairs to its necessary equipment to launch this program and question why the Campus

This committee recommends that a grant of $5 per resident be remitted to the residence hall treasuries to be used for funding programs within the hall and for the funding of An Tostal weekend. The remaining amount of this total grant shall be held for off-campus students and remitted to an off-campus representative organization for the day. It is our feeling that An Tostal weekend can be adequately funded by the residence halls following this blanket, no strings grant. It is the unanimous recommendation of this committee that the budget requests of the following organizations be rejected: Neighborhood Study Help Program, Boxing Club-Bengal Missions, SND, Hall Life Fund, and the legislative branch of Student Government.

To ensure proper use of these funds, we recommend that a grant of $5 per resident be remitted to the residence hall treasuries to be used for funding programs within the hall and for the funding of An Tostal weekend. The remaining amount of this total grant shall be held for off-campus students and remitted to an off-campus representative organization for the day. It is our feeling that An Tostal weekend can be adequately funded by the residence halls following this blanket, no strings grant.

These organizations supervise charitable programs and would not be appropriately funded by these grants. The following programs should be funded by the Notre Dame Grass Charities and the Notre Dame Charities.

We further recommend the rejection of the budget requests of these additional organizations.
Mediation lecture

There will be an introductory lecture on Transcendental Meditation as taught by Maharishi Mahesh Yogi on Tue., Oct. 10th at 8:15 p.m. in Room 205 of the Student Center. Admission is free. Sponsored by the Students' International Meditation Society.

The Students' International Meditation Society is a non-profit, tax-exempt, educational organization.

Organ concert

Daniel Pedtke, director of the University of Notre Dame Glee Club and associate professor of music, will present a program of organ music on Sacred Heart Church Wednesday at 8:30 p.m.

He will perform eight numbers, including Bach's "Fantasie and Fugue in G minor," and Saint-Saëns' "Prelude to the Deluge." A Piezas, composed by a composer of music at Notre Dame, Rev. Carl Habor, C.S.C, and the "Prelude and Fugue on Bach" by Franz Liszt will also be featured.

Legal aid

Due to an expected need for some form of legal counselling for the student body, the Student Counseling Program, Legal Aid and Defender Association has instituted a Student Counseling Program to aid the graduate and undergraduate student population with their legal problems. The division will be staffed by third-year law students who, under supervision, can handle most of the legal matters that could complicate student life.

To qualify for assistance from the Student Counseling Program, the individual must be enrolled as a student at the University of Notre Dame. Initially, the individual must fill out an economic need form. (This is necessary because the entire program is premised on giving pro bono service to those who cannot afford to hire a lawyer.)

Student Counseling Program is located in the Legal Aid and Defender Association office in Room 104 of the law school. (Phone: 383-7961)

Nixon rally

A young people's rally in support of Richard Nixon's re-election campaign will be held Tuesday, Oct. 10th at 7:15 p.m. The rally, which is sponsored by the St. Joseph County Young Vets for the President, will include rock band entertainment, refreshments, campaign issue formation, and brief remarks by the V.P. The rally will be held in the Nixon Headquarters at 103 N. Michigan.

The public rally is open to all young Nixon supporters and is designed to demonstrate the strong support the President has among young people. Local residents and Notre Dame-St. Mary's students are co-planning the rally activities.

Bill Nixon of the V.P.'s staff is serving as the rally planning chairman.

The rally's entertainment will be highlighted by a visit to the rock band, Sweet Red. Information booths will be used to discuss the key political issues of the campaign on a person to person basis. The rally will address the rally on the importance of young people taking an active role in the remaining weeks of the campaign. Bruce and Jan Callier, co-chairmen of the Notre Dame-St. Mary's V.P. will encourage student participation. St. Joseph County V.P. Chairman, Andy Nickle will welcome and introduce guests. New campaign supplies will be distributed and door prizes will be awarded.

The Young Voters for the President is composed of Nixon supporters through the age of thirty. It is a branch of the National Committee to Re-elect the President.

Kenya talk

The Black Studies Program will sponsor a talk by Herman De Born, veteran worker in the action, Peace Corps & Vista programs at 7:30 p.m., Friday, Oct. 12, in the Black Cultural Arts Center of LaFortune Student Center.

DeBorn will discuss experiences of his service in Kenya. Africa. He will show a film, "You Own It To Yourself," which was produced in Kenya & Ghana.

Still's tix

Richard Donovan, Concert Coordinator for the Student Union, announced last night that Stephen Still's-Mansass tickets will go on sale this Friday, Tuesday, and Wednesday. There will be a simulaneously sale, with half of the tickets at the ACC Ticket Office and the other half at the Student Union Ticket Office.

Ticket prices will be $5.50 for chair seats and $3.00 for bleachers.

The announcement was made in answer to the many requests for ticket information recently made by students.

Ticket exchange

The Notre Dame Football game ticket exchange program is entering its third year and in the past two years over 1000 kids from the South Bend area have been given a chance to see a Notre Dame football game. This year's game will be Oct. 21st game between N.D. and Missouri.

According to Director B.J. Bingle students who might not usually participate are given a chance to participate in an outside function; either by driving children to and from the game, or by just giving up their ticket so a child can see the game. Another point is that the program is great for community relations. Bingle feels that this is one day during the fall in which interaction between the N.D. students and the South Bend people helps foster a better understanding between the two environments.

The different volunteer organizations that participate in the program are, Neighborhood Study Help Program, Logan Center, St. Mark's Day School, S.W.F., Neighborhood Center, and the Big Brothers and Big Sisters.

Notre Dame and St. Mary's students can participate in three ways. Most important of all is that the program needs 700-800 tickets.

Two students who wish to give up their ticket for the game should turn them in on Mon. and Tues., Oct. 16th and 17th, any time from 3 to 4 p.m. at the ticket windows on the second floor of the Convocation Center. They will be given a receipt for their ticket, and will be able to pick it up the following Monday, Oct. 23.

Drivers will also be needed to transport kids to and from their designated pick-up points. Anyone who can drive should come to a meeting Monday night at 7:00 p.m. at the second floor lobby of the LaFortune Student Center, or call John Tully, 8742, for more information.

Monitors for the kids the day of the game will also be needed. What this entails is watching out for the children while they are on campus from approximately 10-11 a.m. and 3:00-5:30, and taking them into the game. The program needs about a hundred monitirs.

1972 ND STUDENT TRIP
SEE THE IRISH PLAY THE FALCONS OF AIR FORCE

DEPART: Friday, (early pm) Nov. 12
RETURN: Sunday, (late pm) Nov. 12

Here's How To Take Advantage Of The Packaged Plans:

A.) The Full Package ($140.00) -- including round-trip bus transportation between South Bend and O'Hare Field, round-trip plane transportation between Chicago and Denver, complete baggage service, hotel accommodations for two nights, round-trip bus transportation between Denver and the Air Force Academy (box lunches will be served en route) and free admission to a pre-game party (Friday night) and to a victory party (Saturday night after the game).

B.) Partial packages more suited to your needs are available.

Signups may be handled in the OffCampus Office basement of LaFortune from 11:30 am to 4:00 pm. Deadline for signups and payment is Tuesday, Oct. 10.

For more information, Call Jim Shonahan at 233-4840.
Dr. Leonard Silk, nationally known columnist and member of the editorial board of the New York Times, called for a "national ef
fort" to bring "clandestine business and government operations out into the open," yesterday afternoon in the Library Auditorium.

Dr. Silk, speaking on the "Future of American Capitalism," stressed that there is a trend today toward "greater intertwine
ment between government and business." He warned that too close an association between the two is "dangerous" and cited an example the closeness of defense military establishment. He called for "higher ethical standards from all involved - the press, business, and the government."

Silk's address was the opening lecture of the Cardinal O'Hara lecture series. He spoke before 300 people.

He also advised against ex
cessive intertwining of govern
ment and business, in federal
housing projects and underwriting and Urban Development Secretary Group Romney. While men
tioning that nearly every govern
ment program provides op
portunities for "collusion of a
particularly dangerous kind," he
stressed that the nation has weathered government-business scandals of a far more serious nature in years past.

Dr. Silk said that, however, today there is "a widespread disillusionment with the glories of capitalism despite the evidence of prosperity." Stating that many Americans question whether the original goals of capitalism are still of value, Dr. Silk predicted waves of attack on capitalism in the future. "But," he added, "the attacks will be mild." He stated that such attacks would consist of rhetoric and an effort to demonstrate that such attacks have occurred before, in history, and pose no serious threat to capitalism's future.

Dr. Leonard Silk spoke in the library auditorium last night.

The first of about 25 Graduate Schools of Business and 20 Law Schools that will be interviewed at the Observer's placements get underway this week.

On Tuesday, October 10, the Tufts University Graduate School of Business will be represented by Prof. Dan Clift, and on Friday, October 13, the George Washington University School of Business will be represented by Professor Anthony N. Buttrick.

On Monday, October 16, the Graduate School of Business of Du and Amos Turk School of Dartmouth College, will meet with students.

Dispassionately need help? Do Christian game. Call 677, please.

Help wanted: Must have own car, need to travel to & from college. Call 230 6853. (Mommy.

Disparately need help? 3 pm. Need extra 5 a.m. in P.S. Call 230 6853.

Would need a bike (500 to 1000) to go to 2 or 3 places. Call 230 6853.

Wanted: $300 2 Tix for October 18, 1972, to interview prosp ective Law students. Students interested in the above Graduate Schools of Business may now sign up for interviews in Room 307, Main Building. Students in interested in Law School interviews should sign up outside Dean Waddick's office in 02/01. All interviews will be held in room 307, Main Building.

Watch the Placement Bureau Bulletins for additional visits for the weeks following the above listed interviews.

Keenan wins IH grudge rematch

by Saa Runka

A pair of North Quad teams captured important victories, and the 1972 finalists continued to roll toward an eventual rematch in Interball football action Sunday afternoon. Keenan and Farley both came up with clutch scoring triumphs to label them as contenders for the campus title while Dillon and Morrissey showed no signs of weakening as divisional play neared its second week.

Keenan 6, Breen-Phillips 0

Last season, the two clubs fought a 6-6 tie that eliminated B-P from playoff contention. Keenan got their six again in this year's rematch, via quarterback John Guilden's one-yard run that capped a 45-yard, second period scoring drive.

B-P took their opening series to the Keenan seven, but lost the ball on a fumble, one of five turnovers forced by the winners' defense. "Tom Hudes made a key interception for us in the fourth quarter," commented Keenan coach Tim Ewing. Halfback Don Cull also picked off an errant B-P aerial to seal this North Quad verdict.

Farley 14, Cavanaugh 0

A rugged defense that forced five Cava second downs, produced one touchdown and set up the other as Farley moved to their second straight win. The Neal Kemp started the first scoring play by hitting quarterback Steve DeCoursery in the end zone. John Horn opened the second frame for a 6-0 Farley edge.

An interception paved the way for Carl Oberzut's four-yard run in the final stanza. Oberzut then passed to end Harry Biggan for the extra point conversion and the victory. Farley now prepares for "72 runner-up Morrissey in a League Two-Yardback next weekend.

Dillon 22, Off-Campus 6

Though Big Red defense starred, limiting O-C to no first downs and negative yardage on offense. The losers accumulated seven yards in penalties, prompting Dillon coach Mike Caufield to term them "the dirtiest, cheap-shot team we've seen this three years," Junior Tim Poghim recorded a safety for the Big Red, and Jim Cannon and Carl Weyan recovered fumbles.

Freshman Craig Tugh broke loose for a 34-yard touchdown drive on the opening drive, and racked up 34 yards in eight carries for his day's work. Hill Frost scored from the one in the third period, with Jack Lecina adding the extra points, and senior quarterback Randy Stanick added the final score with a 16-yard scoring strike to split end Hill Hoy on the game's final play.

Morrissey 14, Zahm 0

"We made mistakes, and had too many fumbles," quarterback Kirk Miller said about the Maulards' second victory. "It wasn't a sharp effort...the running just wasn't as smooth as usual."

Despite the off-day, Morrissey still ground out 106 yards rushing, with halfback Paul Breen the spark plug. The senior from Columbus, Ohio, took a pitchout from Miller and raced nine yards to a second quarter guise that capped a 62-yard drive.

Linebacker Tim McCauley set up the second Marauder tally intercepting at the Zahm 22. Four plays later, Miller plunged home from the one, with Breeze crossing in for the final two points.

Morrissey's defense also played a major part in the victory, holding Zahm to a single first down and less than 26 yards total offense in the first half.

The Wolve rines opened the game's first play. Pangborn Fischer clicked on a 50-yard bomb to the BC 15, but the play was negated on an offsides penalty.

Hockey Cross, 1 A1

Second and fourth quarter touchdowns gave Grace the victory in the annual battle between the High Rivers. QB Jim Renan hit Jerry Sarnagash in a 25-yard scoring pass for the winning points, setting the Dogs into the Central Collegiate Tournament.

FALLING FROM nh THE HUNGRY VANCE BILLINO

The Observer's sports section includes articles on interclass tennis matches, rugby games, and basketball tournaments. The Observer is the student newspaper of the University of Notre Dame, and it covers a wide range of sports news and events. The section is titled "Observer Sports," and it features scores, updates, and analyses of various sporting events on campus.

The Michigan Wolverines, 16-0

The Notre Dame senior rugby team entered its second match of the season this past weekend, losing to the Michigan Wolverines, 16-0. The game was closer than the final score indicates, as the veteran Michigan team took advantage of several Irish errors in attempt to attain their victory. The Wolverines opened the scoring early in the first half and called for a 6-0 lead at the halftime break. The Irish threatened many times in the second half, but the kicking of the Michigan backs kept ND from putting any points on the board.

Two late scores by the Wolverines put the game out of reach for the Irish, whose record is now 6-2. The Irish "B" team remained undefeated, as they clinched Michigan's B-squad, 22-6. Pat Krueger, Jerry Razer, Harry Henry, and Mark Friedel's scored tries for the Irish while John Michaluk added six points on three conversion kicks.

As their past games, this ND "B" were very good in service. The Irish "piggies" hit hard, well passed, and were all over the field harassing the Michigan team. "Our B team's record is now 6-0."

The Notre Dame "C" team played their seasonal record at 1-1 with a convincing 24-13 triumph over their worthy opponents. Don Grewe's Mike Hastings, and Rich Conti all scored for the Irish in the rout. The "C" team ruggers played exceptionally well, considering it was the first game for most of the players.

Hawkeyes gained second place by virtue of losing one less game than the Irish. Indiana State and Purdue rounded out the five-team event.

Coach Kane, 7'6", 150 pound sophomore, was Coach Fallon's most effective player. Last season Kane was the seventh man on a team which posted a 16-3 record. This fall Chris has worked himself into the number one slot and this past weekend defeated Indiana's champion Jim Peckstuck of Cincinnati (5-7, 6-2, 6-4), Nick Gresham of Purdue, who was No. 1 and 6-1, and Roger Converse of Indiana State (6-3, 7-6, 6-4). His only setback came at the hands of Red Kubat of Iowa, 6-3, 3-6, 1-6.

Coach Fallon expressed his satisfaction with the team's showing in the three-day event.

"I'm very pleased with the performance of the group. Although there were mistakes and they still need a lot of work, especially in the area of doubles competition, I was quite pleasantly surprised because of their lack of experience."

Fallon also noted the fine performances of Mark and Paul Reilly. Mark, a transfer student and number two man on the team, was ineligible last year and has made a strong showing so far this fall. Paul Reilly, a 6'6" freshman, has the physique and determination to develop into a fine player according to Coach Fallon. Both turned in exceptional performances this past weekend.

The coach was optimistic about the success of fall tennis. "I feel it was well accepted and it is the up and coming thing." He added that there was surprisingly good attendance and that the fall season has good potential for the future.
