Seminar can be ready for spring

by Pat Flynn
Staff Reporter

The values seminar for seniors proposed in the report of the Course of Study could be realized as early as the spring semester of this year, according to Dr. William Burke, Assistant Provost. The senior seminar would be one hour, one semester course mandatory for all seniors. The aim of the course, as described in the report, would be to "reflect on the values which motivate us and subject them to discursive examination."

Burke, Co-chairman of the Committee on the Course of Study, based his statement on what he termed the positive nature of the senior seminar proposal. "Other proposals in the report do not carry the priority of this proposal," stated Burke. "It would give our seniors a chance to come into contact with the type of decisions they will have to make once they leave the university," he continued.

According to Burke, if the Academic Council is strongly in support of some proposal it can "move very quickly." Burke qualified his statement by noting that the Committee on the Course of Study report will most likely not come up for the first four meetings of the Academic Council. "There is still unfinished business connected with the COUP (Committee on University Priorities) report, which will probably be taken up first," he asserted. Burke also pointed out that there is generally a one-month lag in enacting proposals passed by the Academic Council.

On the other hand, Burke did not think the proposal to unify the Colleges of Art and Letters and Science could be dealt with in any less than three years. "Such a broad, wide-ranging decision as this requires in-depth consideration and would be expected to take longer than one term, it seemed to me," Burke said.

Burke added the committee would have to study what effect the merging of the colleges would have on the University's prestige and relations with other universities. "For example, the College of Science as we presently know it is at least 45 years old. It has a tremendous tradition of its students being accepted into and doing exceptionally well in Ph. D. programs and medical schools," Burke pointed out. "Do you sacrifice that kind of tradition and prestige?"

Burke stated what he thought was the most important development coming out of the Committee on the Course of Study report - the proposal by the committee to form a permanent study group like itself as part of the Academic Council. "Over the course of last year we met between 50 to 75 hours. At the end of this year I think all of us felt that the issues we were pursuing were absolutely vital to the academic future of the university, and needed much more probing to be properly resolved," Burke said.

The Committee on the Course of Study report suggested a number of major changes in academic procedures. Two of these are the addition of "mini-courses" to the academic curriculum and suggestions for the greater utilization of available educational technology in teaching methods.

Mini-Courses

The report defined the mini-course as a full-credit academic course held for a fractional part of a semester. The report cited areas of academic need that could be served by their adoption in the curriculum. Students would be free to study subjects removed from their main line of interest. Taking subjects for only one half of a semester and 1.5 hours credit would enable students to be more diversified in their academic schedules, the report stated. Freshmen and sophomores uncommitted to a particular college or department of study would be able to sample different majors and courses of study. Juniors and seniors would have the opportunity to augment their backgrounds in subjects related to their major, without sacrificing elective hours. The mini-courses would also make a popular professors available to a greater cross-section of students, and provide for the professors themselves a vehicle for exploring and developing new ideas, the report indicated.

Re-Educational Technology

A barrage of suggestions for utilization of new technological teaching devices was also presented by the report. Closed circuit television and video tape were among the innovations that should be considered, Burke said.

O'Neil admits releasing wrong CAP report

by Jim Eder
Contributing Editor

The letter released by Professor Carl O'Neill last Monday was not a copy of the final report sent by the Committee on Appointments and Promotions to the candidate who was named Crosson regarding the selection of a new chairman for the Department of Sociology and Anthropology.

O'Neil admitted yesterday that the letter he had released as the official CAP report submitted to Crosson last May was actually an early, unreviewed draft of that report. O'Neill stated that he had mistakenly sent the earlier draft, which he himself had written, as the final version of the CAP report.

"It was the only document that I had in my files," O'Neill said. "I have since learned that this was due to the fact that there were no carbon copies made of the actual report because of its confidentiality," he explained.

Due to its inaccuracies the early draft was not accepted by the CAP, according to Professor David Dodge. "The letter that was drafted by Professor O'Neil for signature by the CAP members was not accurate and therefore was revised," Dodge said yesterday.

"The CAP members were not the only ones who had the opinion that the letter was wrong," O'Neil said. "Consequently, I drew up the initial document based on my memory of what had been said by everyone at those meetings. This document was then reviewed and opening to changes and additions by all the CAP members," he explained.

O'Neill, a former CAP member, said that the passages of the early draft that appeared last Monday were not included in the report sent to Crosson.

"The final draft did not include those quotes nor the spirit of those quotes regarding the qualifications of the candidate who was named chairman (Leo Despres)," O'Neill stated.

O'Neill had used the passages of the early draft praising Despres as evidence that the new chairman was not considered unacceptable by the CAP. "O'Neill had used the passages of the early draft praising Despres as evidence that the new chairman was not considered unacceptable by the CAP, even though he had been ranked last of the four candidates considered," O'Neill stated.

"Professor Despres' background in terms of coordinating the broad range of interests which exists in a joint department such as the one we have," O'Neill stated.

"This uncertainty was expressed over his experience in terms of giving proper balance to undergraduate and graduate programs in a University which serves a majority of undergraduates and a minority of graduates," O'Neill revealed.

O'Neill pointed out, however, that "despite expressed apprehensions, the CAP indicated that Despres was an articulate, motivated candidate with a high level of professional and academic status."

"To reiterate," O'Neill emphasized, "the committee did not use the term 'unacceptable' in communicating with the Dean."

"Some uncertainty was expressed over his experience in terms of giving proper balance to undergraduate and graduate programs in a University which serves a majority of undergraduates and a minority of graduates," O'Neill revealed.

"The final document expressed reservations about Professor Despres' background in terms of coordinating the broad range of interests which exists in a joint department such as the one we have," O'Neill stated.

"I do not understand his notion of 'compromise unaniomity,'" Dodge charged O'Neill with committing 'a breach of confidentiality.'

"The CAP should be able to operate candidly and openly without fear of exposure. Its members must feel that they can speak at committee meetings without the fear of personal reprisal," Dodge said.

"O'Neill's interpretation of the votes cast by the CAP in determining which candidate was to be recommended to the dean."

"I do not understand his notion of 'compromise unaniomity,'" Dodge said. "The term 'compromise' suggests a considerable disagreement among the CAP members, which did not take place," he stated.

O'Neill had used the phrase 'compromise unaniomity' last Monday in describing how the CAP reached its unanimous recommendation of Professor Richard Kurtz for chairman. O'Neill had said that the reported unanimous approval of Kurtz had come in a second vote, which had placed the two stronger candidates, as determined by the first vote, against each other.
HOME (UPI) - Premier Mariano Rumor Thursday handed in his resignation to President Giovanni Leone, but Leone asked him to continue in office to help the country get itself out of its current economic and political difficulties.

(SYRIA) - Syrian troops, armor and air force Thursday wound up large-scale joint exercises with modern equipment, using fighting tactics warned last October's war. Israel kept its forces on special alert along the Golan Heights cease-fire line during the maneuvers.

WASHINGTON (UPI) - The Soviet Union concluded 10 days of missile tests with a submarine launch of two missiles almost 5,000 miles, the Pentagon reported Thursday. It was believed to have missile tests with a submarine launch of two missiles almost 5,000 miles.

To ensure equity

HPC Supports student lawyers

by Terry Keelan
Staff Reporter

The HPC voted unanimously to support a proposal for legal representation of students involved in disciplinary cases. The proposal is intended to "ensure equity of procedure" according to John Mazza, last year's student representative on the Appeals Board. The HPC took the action last Tuesday on the recommendation of last year's Appeals Board.

The proposal, written by Mazza and Assistant Dean of the Law School Leslie Pasci, last year's faculty representative on the Appeals Board, would create a regular student constituent board appointed by the Student Bar Association from its membership and approved by the Dean of Students. "This would provide the student with a more knowledgeable, experienced, and effective counsel.," Mazza said. Presently the student is represented by a student advocate, who may or may not be an undergraduate, and is appointed by the Student Body President.

According to Mazza, there were often serious discrepancies last year between MacEachen's views of particular cases and those of the students involved. This was partly due to students' lack of awareness about their rights and the nature of the charges against them. In such situations Mazza pointed out many problems in the judicial process could be solved by providing the student with more knowledgeable legal counsel.

"This is particularly important," Mazza explained, "since a student may face suspension or even expulsion in a major case."

Generally, it is hoped by its proponents that the new proposal would provide more fair, viable and efficient due process at Notre Dame and enable procedures to run effectively to the benefit of both the Administration and the students.

The proposals will be discussed tonight at a meeting at LaPorte. Present will be representatives of Student Government, the HPC, the SLC, the Student Bar Association, and John Mazza.

Conference slated for this weekend

by Bill Flasagan
Staff Reporter

A regional conference of the Education Committee of States for Financing Postsecondary Education will be held in the Center for Continuing Education October 4th and 5th.

Robert F. Crescenti, head of the conference, explained that the purpose of conference was twofold: 1) they would be looking at using state university postsecondary education in a broad economic context, and 2) they would engage in the framework step for developing policies for such things as grants, student assistance programs, etc.

The conference business will start today at 9:00 a.m. with an address given by Fr. James T. Burich, provost of the University of Notre Dame, and by Edward M. Gramlich, senior fellow of the Brookings institution.

At 10:30, there will be a panel discussion on Postsecondary Education in the Midwest. Among those speaking are: Roy Daniel M. Martin, President of the Associated Colleges of the Midwest. During the afternoon session, members will break up into workshops, discussing topics such as: funding mechanisms; and Models and Techniques.

On Saturday, there will be various seminars before a 9:00 a.m. general session. The speaker at this session will be John Brademas, United States Congressman from Indiana. The conference will conclude with the remarks of Richard M. Millard, Director of Higher Education Services, Education Commission of the States.

Crescenti noted that conferences of this type were valuable because they group together most of the major ideas and schools of thought concerned with financing postsecondary education. From this type of meeting, all the members will have a deeper understanding of what to expect in the future, and they can obtain a broad assessment of information and techniques.

Indiana candidates and issues

By Matt Yokom
Staff Reporter

Students registered for the Indiana election will be able to vote for U.S. Senator and representa
tive and various other state, county and township offices. In addition, students may also vote on three amendments to the Indiana State constitution.

The most visible race will be for the United States Senate between Democrat incumbent Birch Bayh and Republican challenger William L. Allen III.

The other only D emocratic candidate listed is Mary Aikins Currie of Michigan City, is running against Democratic incumbent Jack L. New of Greenfield for the Treasurer of State.

Union and people are free to say what they want." The press aide added that despite their distaste for the gas tax increase, there is always a minimum. "They might spend "virtually the entire weekend" judging his options. "The President has made some tentative choices among these options and I emphasize the tentative." Nessen told reporters. "There are no final decisions made yet."

... to a joint session of Congress Tuesday afternoon.

But Nessen said Ford "does not favor" a plan to boost the federal tax on retail sales of gasoline as a means of raising revenue. But he is interested in making it more costly to drive and thus encouraging energy conservation.

Rep. Bill Archer, D-Tex., said Ford asked his group of congressmen Wednesday night that he was adamantly opposed to an increase in the tax on gasoline and states he was considering such a move were made without his authority.

Archer, one of five congressmen representing a stag dinner at the White House, said Ford told the group that he definitely would ask for no increase in the gas tax when he sends his economic recommendations to Congress.

On Wednesday, federal energy chief John C. Sawhill outlined a complex plan combining a 20-cent-a-gallon gasoline tax hike with a tax rebate for motorists who kept their mileage to a minimum.

Asked about the apparent rift between the two men, Nessen told reporters, "This is an open administration and people are free to say what they want." The press aide added that despite their distaste for the gas tax increase, there is always a minimum. "They might spend "virtually the entire weekend" judging his options. "The President has made some tentative choices among these options and I emphasize the tentative." Nessen told reporters. "There are no final decisions made yet."

Next week's speech will include international economic as well as domestic economic actions, Nessen said.
Controversy continues over SMC misc event

by Theresa Stewart

Saint Mary's Security and Mike Sculati yesterday offered conflicting reports of a Sept. 26 incident in front of the SMC guardhouse.

Sculati, a junior Arts and Letters student from Ellicott City, charged that a Saint Mary's Security guard sprayed mace directly into his face for using abusive language. Saint Mary's Security Director, Mr. Anthony Swier, stated that Sculati was not directly maced, just lightly sprayed with 20 feet away, where effectiveness is zero.

The incident occurred after Sculati received a passed-out Saint Mary's woman up to her room on Thursday night. Sculati met her later an evening with her, another SMC woman, and an ND student.

According to Sculati, Regina rectress told him he couldn't take the girl upstairs, but Sculati proceeded to do so, accompanied by the girl's friend and the assistant rectress. Sculati claimed he was asked by either the assistant rectress or the friend if he could carry the passed-out woman upstairs. As he descended the stairs after depositing the girl in her room, Sculati was confronted by Security officials. Sculati admitted he had been drinking and that he used abusive language, as the company man out the door.

When Sculati left Regina, he passed the guardhouse as the guards were parking their car. Sculati had come to observe "nice uniforms" as they passed.

"The guard was not uniformed, wanted us saying, 'what's enough, you're coming in.' The guards confronted us, turned and shot mace right in my face, missing my left eye by a quarter of an inch," Sculati said. He reported that they dragged him into the guardhouse, where he washed out the mace. Sculati stated he was battered by the mace for the entire night.

"Two guards took me back to ND, while I yelled sarcastically that I was a rapist and a pervert until one threatened to throw me in the guardhouse and just called it off. When they arrived at ND, Sculati said six or seven ND security officials were there, took his ID, and were going to take him to see their night guard for ND security. Sculati told the guards, 'I'm not gonna go anywhere until I see my rector, Dave Schlueter,' the guards let him go.

"I went to see Mr. Schlueter, Security Director at SMC, said, "only part of Sculati's story is true. The rest is fabric printed." Kovatch explained that the assistant rectress did not accompany Sculati upstairs. "After treatment, rectress also retracted if it was nothing, Sculati carried the girl upstairs while the rectress called the assistant rectress and security. The assistant rectress met him at the girl's room." Kovatch reported.

The September 30 burglary took place while all but one of the residents were gone. "We were down on campus watching the Monday night football game and only one of us was home," Casey explained. "Later in the evening, a young black kid knocked on the door and said he just 'wanted to see anybody around.' He continued.

"Later that night, my roommates heard some rumblings which he attributed to our young dog, who tends to wander around and turn garbage cans over at night. But it turned out we were getting ripped off. Nobody realized anything was stolen until the next day." Casey said.

"The burglary this year is the third time that Casey's house, which is located off Lincoln Way, has been broken into this semester. "The first night we were here, $600 worth of material was stolen," said Casey. "Just about two weeks ago, neighbors reported that they saw kids snooping around the back of our house," Brett added. "They must have just been casing the house because nothing was stolen."

Brett and Casey added that last year's occupants had cash and a stereo stolen at the end of the semester. "The guy had just cashed his ROTC check and had put it in his dresser—the burglars took that as well as a good stereo," Kovatch stated.

All three break-ins have been through a broken window. "I'm thinking of boarding them up," Brett exclaimed.

However, the three break-ins that have happened to Casey and Brett, anything was stolen, our neighbors saw black guys in a blue car snooping around," Brett said.

"I don't want to sound as if I'm getting down on the cops because there isn't much they can do," Casey said, "but our landlord, Ray Flynn, has had five calls from the police. The cops said they would keep an eye on them and that's about all that we have heard from the cops."

Police actions discussed

Casey and Brett reported that the actions taken by the South Bend Police were similar to the actions described by Bruce Petrakwicz in the October 1 Observer. "The uniformed officer came by after the first robbery and took down the basic information, then a detective came," Casey explained. "The next time we called, though, just a uniformed officer came by, no detective followed."

"I'm not gonna go anywhere until I'm getting down on the cops because there isn't much they can do," Casey said, "but our landlord, Ray Flynn, has had five calls from the police. The cops said they would keep an eye on them and that's about all that we have heard from the cops."

Casey thought the University should pay more attention to the safety of the off-campus student instead of "trying to bust kids for drinking and breaking parietals."

He added, "Off-campus students need a good insurance plan.

"It's the most feasible thing to do as the Student Union has repeatedly devoted a half effort to projects such as the security guard, but a lot worse could happen."

"Imagine catching a burglar in a house that he's not familiar with? He'd do anything to get out, including wrecking your house and you. Our personal health is definitely threatened," Casey observed.

Frank Robinson appointed as baseball's first black manager

CLEVELAND (UPI) - Frank Robinson became the first black manager in baseball's 106-year history Thursday when he was named playing manager of the Cleveland Indians.

Robinson, who signed a one-year contract and will receive the same $172,000 next season he did as a player with the Indians, was completely oriented during a heavily-attended news conference when he said he felt he was being given the job "because I'm one of the most important and not because of the color of my skin."

The only reason I am the first black manager in the major leagues is that I happen to have been born black," said the 38-year-old Robinson, only man ever to win the Most Valuable Player award in both the National and American Leagues.

"I want to be judged by our play on the field," he said after his appointment to succeed Ken Aspromonte, who was fired.

The Indians finished fourth in the American League East this season with a 77-85 record, their best winning percentage in six years.

President Gerald Ford sent Robinson a congratulatory wire stating the appointment was "welcome news not only for the Indians, the American League and all of baseball, but also for baseball fans across the nation."

Attending the news conference were Baseball Commissioner Bowie Kuhn and American League President Lee MacPhail.

Mrs. Jackie Robinson, whose husband — no relation to Frank — broke the color barrier in major league baseball as a player in 1947, was also on hand and called Robinson's appointment "significant and highly commendable."

The new Cleveland manager said, "If I had one wish that could be granted right now, this is it—that Jackie Robinson would be here to see this happen today."

"I hope that baseball people are saying, 'here he is, that's it. I think I have been hired here because of my ability and not because of the color of my skin."

"I expect the most difficult part of the job to be getting to know my players. Not knowing their abilities—I knew that already, from playing with them and against them. But getting to know them as people. Learning what makes them tick, how to get that something extra out of them—or what makes them slow down."

"I hope they'll feel they can come to me and think of me as a pal," he said. "I'm not going to demand respect but I want to be close to them. It's a very thin line."
No Communication

Communication does not exist between anyone at Notre Dame. A sad commentary, an unfortunate commentary, a tragic commentary - but more significantly, it is a sad commentary on the state of this university.

If only each administrator, professor and student could make known the barest sketch of their thoughts or actions, the potential for accomplishment would increase tenfold. Presently, any percentage for change is zero. And it is quite frankly, there isn't any.

There are offices separated by a few doors whose occupants never know or care to know what the others are doing. Even if such an interest existed, they might as well try sending smoke signals through a window.

For example, the new sociology department chairman, a member of the Personnel Department, is not aware of the existence of a faculty committee which has been prepared for the past few weeks on the problem of coeducation.

The innards of this committee's report remain hidden from the public.
Letter to Dr. Diamond's Letter: Two Letters To R Lonely Codz

Introductory Note to Dr. Diamond's Letters: Two Letters To R Lonely Codz

Dear Mary,

I share your disappointment in Father Griffin's response to me regarding Mass during Respect Life Month. All Christian Churches, not just Catholic, honor the memory of the unborn. It is a solemn occasion commemorating their deaths, so we do not hope to augment their standing in God's eyes (for they must surely be among His most cherished creatures) but rather to honor them in a more meaningful way, that is, in keeping them for political purposes.

Rather than the "sentimental, futile gesture" that Griffin seems to think it is, saying Mass for the Right-to-Life group at the Grotto this month, Dr. Diamond, father of a man larger than life, for life's sake, tried to respond with the following letter addressed to his daughter. At the request of his children, I have asked The Observer to publish it. Dr. Diamond is a kindly, Christian compassionate man. I only wish we could always agree.

Robert Griffin, C.S.C.

dear father griffin,

Women want recognition

by Dennis Kelly
Staff Reporter

The question of how well coeducation is working is one which has caused controversy at Notre Dame. Indeed, a running war between males and females on the pages of this newspaper has brought an indirect attack against coeducation as it now exists.

Any of several factors contribute to arguments against coeducation. A disproportionate number of men to women, historical bias, frustration with the social climate and loneliness all seem to lend themselves to arguments against the success of it. Often, however, statistics are misquoted, facts are misconstrued, and hostilities commence.

The hard fact: out of a total enrollment of 6000, 1120 are women -- 18 percent of the student body. If one studies in the College of Engineering, he finds the ratio worse: 30 women to 733 men. A long-time advocate of coeducation, Sr. John Miriam Jones, commented, "We have come along way in two years. It is unusual to believe that two years have turned around 130 years of tradition...but I find a lot of young women delighted with the progress made."

However, some students have not been so pleased. As graduate student Marie Dilibatino, a member of the Counseling Center staff, put it: "Women wanted to be recognized as people; men would not recognize Notre Dame women in the way they wanted to be." The problem of women at Notre Dame has not been confined to students. Two statistics assert this: one, that out of a total faculty of over 700, women hold only 30 teaching positions; and two, an establishment where almost half of the 2400 full-time positions are occupied by men.

Women's dorms to be unlocked

by Barb Boylan
Staff Reporter

All women's dorms are now being left unlocked from noon until 6 p.m. The "open door" experiment has been undertaken by the residence halls with the approval of Campus Security and the University Housing office.

Farley Hall rectress Sr. Joan Lenz stated yesterday that no problems have yet arisen with the new policy and all reactions she has received have been favorable. "As it is on a trial basis, only the future will tell us how successful it will be," Lenz added.

Helen Gallagher, Badin Hall rectress, said people often react against the Detex system without realizing its purpose. "The present Detex system is one way of controlling who gets into the dorm and it would be impossible to do away with it," Gallagher states. The need is for a system that balances security measures with accessibility for residents, Gallagher observed.

Assistant Provost Sr. John Miriam Jones said the Detex systems have been successful in buildings located close to public roads as well as the women's dorms. "The Detex system is a security measure not for exclusion of non-campus students, but instead to prevent non-campus people from having easy access to the halls."

Only doors used most frequently in the afternoons will be left unlocked.

Bicycle registration to be held next week in dining halls

by Maureen Flynn
Staff Reporter

Bicycle owners who have not yet registered their bikes will be able to do so next week in the North and South dining halls and in the Huddle. A $1 fee will be charged for nationwide registration and for the registration sticker. Jim Pаниц, executive coordinator for the bike registration.

Media utilization increases teaching availability

(continued from page 1) could be used to multiply the accessibility of popular courses and provide faculty members a tool for evaluating their lecture techniques.

The report pointed out that Notre Dame is a member of HEETS (Indiana Higher Education Television Station) which puts on film series, courses, and lectures, and yet this resource is seldom used by University departments. Cable T.V. hook-ups with other universities could allow Notre Dame to share the faculty resources, of other institutions and programs with greater course selections.

Periodic workshops for faculty members on the use of new educational tools and regular information provided by the university on what technology is available to faculty members could assist departments in keeping abreast of the latest developments.

Since October is the month of the rosary, will there be nightly rosaries said anywhere on campus?

Rosaries will be held every night in the Grotto at 7:30 for the duration of October.

I missed Father Griffin's 5:00 mass last Sunday afternoon, are there any later masses being said on the North Quad?

There are several evening Masses held all over the campus. On the North Quad there is a 10:00 p.m Mass in Breen-Phillips. On the south quad Badin has one at 10:00 pm and Dillon at 11:00 pm. There are several others, for a more complete list you can contact the Campus Ministry at 639.

At SMC formal dinner

Madeleva's works to be featured

by Bill Gosenbach
Staff Reporter

A formal dinner will be given by St. Mary's College in an effort to introduce the South Bend community to St. Mary's College and to raise scholarship funds for St. Mary's students.

Dr. Jack Detler, director of community relations, outlined the dinner program which is titled "An Evening at St. Mary's." "The evening will begin with a cocktail party followed by a black-tie gourmet dinner. After dinner, the Speech and Drama department, under the direction of Dr. Syberg, will present a production of the works of St. Madeleva," said Detler.

The production of St. Madeleva's works is in honor of the tenth an-

iversary of her death. Sr. Madeleva was president of SMC from 1934 to 1961. Her literary works include My First Seventy Years (1959) and Conversation with Cassandra (1981). Her poetic works include Penelope and Other Poems (1929) and A Question of Lovers and Other Poems (1935). Sr. Madeleva received various literary awards in her life and was recently posthumously elected to the Indiana Hall of Fame.

Two hundred people are expected to attend the dinner to be held at St. Mary's Dining Hall Tuesday. All reservations have been sold.

Emier Peak, an alumus SMC, and Mr. and Mrs. Thomas Murray are co-chairmen of the program. Mrs. Murray, formerly Patricia Cain, is an alumus of SMC. Mr. Murray is an attorney in South Bend. The planning committee is composed of thirty people from the South Bend and Chicago areas.

SENIOR APPEAL:

In order to re-open THE SENIOR CLUB as soon as possible we need your help. There are many odd jobs (not all physical labor) that need to be done. Please give us your assistance. Come to the Club this Saturday at 10 A.M. or Sunday at 10 A.M.

We want as many of you to participate as possible.

This is a Project of the Class of 1975. With your help we can do it. Call Bob Sporn at 233-6247 if you want more specifics.

Thanks
By FERRY WIMMER

The dancing white stallions paused momentarily when chief horsemanship Col. Hans Handler fell dead from the saddle. But then the show went on.

"It was the finest death he could dream of," said his deputy, Lt. Col. Kurt Albrecht. "He dedicated his whole life to the horses."

Handler, 63, died Wednesday night in the saddle of his beloved horse, "Siglavy Beja," during a performance of precision horsemanship at Vienna's famed Spanish Riding School. "After about 20 minutes of the one-hour performance, Handler suddenly fell from the saddle," Albrecht said. "The horses stopped for a while but then danced on to the tunes of a Mozart symphony while Handler was carried out to an ambulance."

Albrecht said the horses were used to keeping in time with the music that they carried on as long as they heard it over the loudspeaker. "We saw no reason to stop the program as nobody realized it was so serious," Albrecht said. "Handler was never sick before and we thought he just fainted." "Even Handler's horse attempted to dance on," Albrecht said. "It had to be led to the stables. But the show went on. At the end. The audience feared a heart attack. "Electro shock treatment in the ambulance was fruitless," he said.

Post-graduate jobs discussed at Women's Commission meeting

The Women's Commission held a meeting Wednesday evening to provide the ND-SMC women's community with information concerning jobs after graduation.

"The majority of the girls are not sure of what they are going to do after they graduate," said commission member Terry Audo. Richard Willem in, director of the Notre Dame Placement Bureau, and Karen O'Neill, director of the Placement Bureau at St. Mary's, informed the women on job opportunities in major companies across the U.S. "Our focus is in helping you plan your life," said O'Neill. She and Willem in noted that there is a great demand for women by employers. "All companies are bound by law to open their hiring to women," commented Willem in. He added that some companies come to hire females only.

ND and SMC Placement directors Willem in and O'Neill discussed post-grad job opportunities with the Women's Commission. (Staff photo by Paul Joyce.) O'Neill and Willem in urged the women to make applications immediately for summer employment as well as for their career fields. Other students interested in applying for summer jobs are also urged to apply now, Willem in concluded.

Coed questions studied

(holding the same degree.

Nepotism, regulations and the fact that the man gets a job first have hindered qualified women from obtaining teaching positions. One other statistic enters here: Dr. Josephine Ford of the theology department is the only Notre Dame woman professor to hold tenure.

The problems are many, but the solutions are few. Assistant Dean of Students Mary McCabe noted, "We have to know ourselves before we can interact." She added that understanding "what it means to be a human person" is a big first step toward reconciling the differences that exist between men and women.

As Sister John Miriam puts it, "The crucial issue of coeducation is attitudinal." She added, "Women are struggling to obtain new niches, the world is ready for women in new ways and Notre Dame is rethinking the position of women."
Spartans aim to further Irish woes

For the Irish football team, this practice week was something less than a barrel of laughs. The Irish defense last week’s loss to Purdue for made for a rough week, and this week’s combined, of course, with a lot of hard work. Three times coach Ara Parseghian scheduled scrimmages, something he seldom does, even then, and even during “time-ups,” on Wednesday when the No. 1 offense passed through against the prep squad, the No. 2 defense provided the competition. The defense, in particular, made it increasingly difficult to prepare a team, said Ara. “You ball club is immensely disappointed over last Saturday, but that’s over now. There wasn’t much we could do but work hard and prepare for this week’s opponent.”

This week’s opponent, tomorrow’s at 11:00 a.m. on Channel 21 and at 11:30 p.m. on Channel 3 – the always-tough Michigan State Spartans – is scheduled.

Saturday’s 1:30 p.m. EDT contest will mark the 38th time the teams have met. Although the Irish hold a 21-12-5 edge in the series and the last time Notre Dame lost to State was in 1968, MSU’s head coach Dent, Stolz has his troops primed and ready for this one.

Michigan State and Notre Dame both enter this contest 2-1. Recent events have paved the way to tomorrow’s ball game. The Spartans dumped Northwestern 41-7 and Syracuse 19-0 before being rudely mistreated by UCLA last Saturday, losing 36-14.

But if the Irish aren’t to be underestimated this week, the defending champs should not be misled by State’s performance last week.

“We’re going to have to run well tomorrow,” said Coach Joe Campbell. “We have several players out and it isn’t going to be easy.”

“Defensively the Spartans are led by defensive tackle Kirk Clements and company may be in the defensive secondary. Three of the starters are sophomores, John Brennan, Tom Holm and Smart Smith.” said MSU’s Stolz. “Is that the way the Irish have been passing so much. We’re going to have to run with the ball tomorrow.”

“We’ve never had before.” said Brennan. “One thing that surprises me,”

Notre Dame In vitation at the Fall Season to today with the Irish, this is also the secondary
