Mondale advocates consistency, revitalization of foreign policy

by Patrick Cole Senior Staff Reporter

"Our first task must be to restore a sense of purpose in our foreign policy," Senator Walter Mondale began his address to the student government Monday night.

Calling for consistency in domestic and foreign policy, Democratic Vice-Presidential candidate Senator Walter F. Mondale spoke to students, faculty and members of the University in Stepan Center Friday. The presentation was Mondale's first visit to the Notre Dame campus.

"And that's what the choice in this election is all about," the senator said to a standing-room-only audience of nearly 2,000 people. "We must revitalize foreign policy--and an essential part of the effort must be the steps necessary to bring about justice in America."

In spelling out justice--while revealing part of the Carter-Mondale platform--he expressed a commitment to full employment and to ending inflation, to reforming the federal bureaucracy, to ending arms sales, which all Americans can afford as well as pledging to preserve the quality of the environment and rejuvenating the federal bureaucracy.

Mondale received his B.A. in political science from the University of Minnesota. Three years later, after serving time in the Army, he returned to the university for a law degree. In 1960, he was appointed attorney general of Minnesota out of his own state's first antitrust office and consumer protection unit. He was appointed to the U.S. Senate in 1964. He won re-election in 1966 and 1972.

In 1968, Mondale was Senate floor manager for the 1968 Civil Rights Act, which attempted to ban discrimination in public housing. According to the senator, he was appointed to the Senate Budget and Finance committees and to the Committee on Labor and Public Welfare. He was responsible for a comprehensive child development program in 1971 and sponsored a bill that provided automatic cost of living increases for social security recipients.

Mondale pointed out that he had been speaking just for people who had not been listened to by government officials. He stated that he didn't apologize for working to make available culturally-sensitive education and a higher and special standard of life to everybody.

"As a solution, Mondale stated that our nation must be 'guided' by a higher and special standard of life, and pledged the Carter-Mondale administration, if elected, would not make arms available to every country that wants them, and intelligence agencies--should be brought to bear to undermine elected foreign governments.

"He said that the Democratic ticket can stand up in the United Nations and every international forum and call injustice by its brunt name."

"We can make clear that in the communist countries we will press for a factual Mondale said. Concerning Latin America, he said, "We're on the side of those who want their own political and progressive government, and also on the side of the people who want long overdue economic justice."

"I believe the reality between the races is growing. And terminating racial discrimination was the view taken by Mondale today."

Mondale charged that the Viet- nam War was "a bloody example of America's and left fearful scars on our spirit."

SMC forum discusses parietals

An overwhelming number of students turned out to discuss the controversial parietals issue at St. Mary's. (Photo by Leo Hansen)

by Marti Hogan and Mary Rukla

Approximately 300 students met last night in St. Mary's Little Theatre to discuss possible parietal changes. "I've never seen so many students turn out for one event at St. Mary's," said Mary Ann Stolte, vice-president for Student Affairs. According to Stolte, the turnout was an indication that students are interested in a review of the parietal policy.

"This meeting is an attempt to determine student opinion," said Diane Smith, chairperson of the Student Government committee appointed to review parietals. She indicated that the purpose of the meeting was not to change parietals, but only to gather student opinion: therefore specific changes were not discussed.

The majority of the students present argued that the extension of parietals would encourage "more open social atmosphere." "From Friday to Sunday we spend a limited amount of time on St. Mary's campus," said Rosanne Pesco, St. Mary's junior. "Because of the present parietal rule, we are forced to go off campus for our social life."

Dr. Kathleen Rice, dean of Student Affairs, enumerated problems which would arise if parietals were extended. "You'll have a responsibility to your roommate and the girl down the hall," she said. "This is not a victimless situation." Referring to her past counseling experiences, Rice dis- covered the problem of girls being and harsh military discipline.

"Some men may not want parietals extended, but because of the current parietal problem, we've had to go along with the present parietals," she said. "It's a big difference in the long run."

Burtchaell sermon relates his view on teacher's role

by Bach Langheury Senior Staff Reporter

"We must teach, and they must learn the deepest view that life and learning spell without love," stated Fr. James J. Burtchaell, University Provost, to the faculty at the University's opening Mass, celebrated in Sacred Heart Chapel.

University President Fr. Theodore M. Hesburgh was the main celebrant and Burtchaell was the homilist in the concealed Mass. Burtchaell said, "What leaves the faculty, stating. "The greatest sacrifices of most wonderful achievements and the most strenuous leadership so frequently are all that pious men remember to their credit and they can't be done by pious people without love or all this is ruined."

"In the end, "to the truths which are unseen. "It is in this way, "he stated.

"Burtchaell said. "Only reverence and respect and love and care for each other."

He concluded his homily, "Let us go easy and never ask our students to accept our learning in exchange for their lives, but join us in our learning which tells us what life truly is. That gift we must go pray and study. Today do the one and tomorrow the other."
ND Latin American program evaluated, termed success

Carney '76, blessed by better than average South Bend weather, a band, and abundant chicken and hot dogs, kicked off the pre-Pitt parties Friday evening. (Photo by Leo Hansen)

Concession stand lottery announced

Concession stand assignments for the ND-Purdue game Saturday, Sept. 18, have been announced by the Student Activities office. Stand locations are as follows:

- **Aquarium Club—Engineering Building**
- **MECHA—South Dining Hall**
- **Chinese Student Assoc.—Breen-Phillips Fieldhouse**
- **Fisher Hall—Dillon Hall**
- **Pangborn Hall—"Con strains"**
- **Arnold Air Society—South Hall**
- **Howard Hall—Cavanaugh Fieldhouse**

Black Engineering Society—LaFortune Center

- **Holly Cross Hall—Law Building**
- **Arts & Letters Student Advisory Council—O'Shing/Stadium**
- **Sociology Club—Balint Hall**

John Reid, assistant director of Student Activities, added that a second lottery will be held Tuesday to assign locations for all the games after Purdue. This will allow more organizations to participate in the concessions. Any interested club, organization or hall must contact the Student Activities office by 5 p.m. today.

**ERRATUM**

The notice of the senior class trip on Friday, Sept. 10 should read:

Those who have not paid the full remaining balance by October 8 will lose their $50 deposit back and will not be placed on the waiting list.

The Observer is published Monday through Friday and weekly during the University's academic and vacation periods. The Observer is published by the students of the Univ. of Notre Dame and St. Mary's College. Subscriptions may be purchased for $5.50 per semester. For subscription information, call The Observer, 515 E. 52nd Street, Notre Dame, Ind. 46556.

## Students Who Were Overseas

**LAST YEAR:**

Pick up your 1976 DOME in the Yearbook office Tuesday thru Thursday of this week.

7-9 P.M.
Desire student contact
Alumni Board holds first of three meetings

by Martha Fanning
Senior Staff Reporter

The Notre Dame Alumni Board conducted its fall meeting last Saturday, Sept. 11, 1976. The purpose of the conference was to make contact and maintain communications between the University and the alumni, according to Robert Dowd, 1976-77 president of the Board.

During the conference, alumni members of the ND administration spoke to the board on events in their departments, a way of updating ourselves on what's going on around here," remarked Dowd.

Speakers at the session included: Fr. Theodore Heschke, University president; Fr. James Burtchaell, vice-president for student affairs; Dr. James Frick, vice-president for public relations and development; and Dr. Emil Hofman, dean of the Freshman Year of Studies Program.

The board is composed of 19 members elected by the graduating class to serve a three-year term. The president is elected by the board and serves as the executive group. Dowd took office on July 1, 1976. For the current input, the board has three members-at-large.

The board is composed of 19 members, each from one group of six, who have graduated within the last five years. In many cases, that member's activity record as a student is above average.

Dowd emphasized the desire of the board to establish a better relationship with the students. "We are particularly interested in the seniors, who it hopes will join the association, and to make available any contacts or expertise the alumni can make or offer for job placement," Dowd concluded.

Dowd commented that most alumni offices have placement offices for summer and permanent work. "The economy has created a situation where the number of new jobs is not equal to graduates. So if you have an edge on a job as an alumnus, hopefully our alumni will get the job over anyone else," concluded Dowd.

The board strives to improve its knowledge of student problems. Dowd explained that as many as the members-at-large. Also during the conference these alumni members attempted to establish contact with students through the Student Bar and by calling to their relatives currently attending Notre Dame.

"We are interested in how they feel, and what they think," stated Dowd. "We're interested in how they feel, and what they think," stated Dowd. "What's right and, hopefully, a few things that might be wrong.

"I think all of us, students and alumni, know the good things about Notre Dame. We want to know the areas where we can be constructive, where we can help," concluded Dowd.

Joe White, a Missouri member-at-large, stated, "It's very important to emphasize that the Alumni Board is not a legislative body. It does not tell the University what to do. It's the board that makes decisions, based on information it receives. These resolutions go to the University through Prof. John Cackley, Executive Director of the Alumni Association.

Resolutions from last week's conference were made from information given to the board in the administrators' speeches. "Most of the information was general—primarily on new projects or programs," declared Dowd.

Students are encouraged to give their suggestions, comments or questions. Joseph McGlynn, a member from Missouri, suggested that if students would go through the alumni office on campus, "Students can write their suggestions and deliver them to the alumni office. Mr. Cackley, or his staff, will disseminate the information and pass it on to appropriate board members," he explained.

McGlynn related that the board has several standing committees that look into suggestions. "Nothing gets shelved," he said. "It all gets discussed and hopefully resolved. We would think that the University would be delighted to know that students are genuinely interested in the University," noted McGlynn.

One of the purposes of the Alumni Association is to aid Notre Dame financially. White remarked that the association raises money to enable the University to improve the quality of education. He added, "Fifty-seven percent of the students are on financial aid. A major portion are

Mondale talks on foreign policy
(continued from page 2)

Dowd.

Finally, Mondale paralleled the ideas of the Carter-Mondale platform to the economic and political achievements of the John F. Kennedy administration. "The Kennedy administration is a symbol of what we stand for," Mondale advocated.

One of the achievements supported by Mondale was the formation of the Peace Corps, which Mondale said, "produced the best volunteers"

"When the Dominican Republic broke in war, the Peace Corps was there," he added. "They were the only people caught between the U.S. and the combat, and they were called the 'children of Kennedy' by the President".

Mondale also addressed the young people in the audience by asking for their support and urging them to register to vote for the election. A Carter-Mondale administration wants to provide the kind of leadership that uses the ideas of the country's young, Mondale said.

In his concluding remarks, Mondale emphasized that necessary for a vital foreign policy is a demonstration of the United States' commitment to its world. "America's foreign policy must be based on a commitment to the ideas and isolationism..." Mondale concluded.

Following his presentation, Mondale, after a brief standing ovation by the students and faculty, was asked a small report in the Grace Hall lounge. The session was restricted to designated students, faculty and administrators of the University and special guests.

Senator Mondale's appearance was made possible through an invitation by Fr. Hesburgh.

Run For Student Assembly!

Representatives for Holy Cross, McCandless, Regina, or LeMans! Also for off-campus SMC students!

Nominations are open until Sept. 11th.

The Senior Trip Committee Announces
THere ARE
LIMITED OPENINGS REMAINING ON THE TRIP
A $50.00 deposit will be taken on these and a new waiting list at 1:00 p.m. Monday and Tuesday
2nd Floor LaFortune & 168 LeMans Hall

The University recognizes the fact that tuition increases cannot continue unchecked, White pointed out. "The rising costs would then eliminate too many students from coming here," White remarked.

"We are trying to help supply more money..." said White. "We are trying to help supply more money..."

The association is especially interested in seniors, who it hopes will become involved in their local clubs. "We hope these students will return to Notre Dame a little of what they received," said White. McGlynn commented, "Everyone who has had contact with the student body has reacted in a positive manner. This student body is best as far as intelligence, character and morality."

The Alumni Board holds three meetings annually at Notre Dame. The next meeting will be Jan. 20, 1977. The following spring another conference will be held from April 14-16.
You are more popular than you think. Again, you should be aware that Notre Dame will be anxious to see you tonight.

Tonight is Activities Night, the last night of Freshman Orientation. Student government and The Observer, Speech Club and the World Hunger Coalition, the sports and the socials, and all the rest of those organizations that are so much a part of the life and memories of this place would be glad to see you in LaPlata.

Groups like the Hunger Coalition, CILA and Neighborhood Study Help have made arrangements to set up booths in the North Dining Hall - but only opened during finals week. So, if you go, you've come in, and if it's all the same to you, I don't want him to ask you to come in, and if it's all the same to you I don't want him to ask you.

Tonight you may have work piled up in driffs and more pouring in and a friendly invitation to Nickle's or some paityard, but try to make time for a trip to LaFortune and look over these organizations. They will be waiting for you, or, better yet, The Observer will be waiting for you if you have a taste for journalism and for the absurd.

Tonight a good part of Notre Dame will be waiting for you.

Dear Editor:

In the interest of bettering a university which can in truth bare be advertised, we concerned students wish to protest against the growth of the ND family humbly put forth these few suggestions.

First of all, though not necessarily foreseen, we feel that it would benefit all concerned if the Notre Dame Laundry Service was to look into the matter of the body's laundry picked up at some predetermined location on St. Mary's Campus (e.g. somewhere convenient such as a baggage room at the Alumni Auditorium). This would certainly bring about a plethora of exciting advantages, not least among them being that it would promote promptness and informal gatherings of the two student bodies (no pun intended). It must be clear that such an arrangement would also prevent students from having to wait considerable lengths of time for their laundry sorting purposes. If Dean Rosemary P. Ringrose of Edmonton, Alberta, Canada, revealed it might be possible to develop a pill containing a hormone which would keep a woman fertile to a much more advanced age than ever before. How would a woman of 60 feel about this? She would certainly be welcome to accompany us in our discussions.

When I read about it I rushed to Brooklyn to see my Aunt Sadie and said, "Aunt Sadie, they've just invented a pill which makes it possible for a woman of your age to have a baby.

"Wash out your mouth with soap and water," she replied.

"I'm not kidding, Aunt Sadie. Take a pill and before you know it, you've got a baby." I said.

"That isn't the way to behave. Well, thanks for being so frank about this, Mr. Brown. I shall be happy to come and look at any new ones. Even, if I go free of charge to the Brooklyn Birth Control Society." she said.

"Don't you want to have children now?" I asked.

"That's not enough of a reason, I said.

"But just think of it. The patter of feet, the happy sounds of a baby crying, the happy sounds of a baby crying for its mother."

"But most important is the fact that the service George provided gave me a job. I paid him for his whitecollar labor, graves disposals. His professional opinion was that the left over food a useful purpose:

But most important is the fact that the service George provided gave me a job. I paid him for his whitecollar labor, graves disposals. His professional opinion was that the left over food a useful purpose:

Mr. Price's many years of personal development which could change the face of the globe. Women of your age, after all, are a very important group. Advertising agencies will have to do something about this. They won't be considered expendable anymore. What better way to fill out your final years than by producing babies?

"Has your Uncle Leo heard about this?" he asked.

"Yes, he is. "Friends," Thats all I ever that is. " Friends," Thats all I ever that is. " Friends," Thats all I ever that is.

War, if you're interested, is going to stretch out across the world. Nobody predicts a nuclear war, but try to make time for a trip to LaFortune and look over these organizations. They will be waiting for you, or, better yet, The Observer will be waiting for you if you have a taste for journalism and for the absurd.

Tonight a good part of Notre Dame will be waiting for you.

Dear Editor:

I did go to the Boar's Head, and while the waiters provided excellent beer and wine, they were definitely not the most notable improvement over the previous visits. At one of the tables the waiter in question, who is my own personal waiter in question, who is my own personal waiter, was sitting near my table at Holly's Landing. (By the way, I am very appreciative of the floor, library wing, of LeMans halla- parts, since the food is so unedectable.

But as to the charge of sexism, I am afraid that you are confusing a profession with a political affair. Any good commander will tell you that the size of his command does not belong on you. It's whether he is on the plate or serving the plate. After all, service does involve more than bringing ketchup for the french fires.

Your culinary critic, The O'Reilly

P.S. Would you like to go out to dinner sometime? Please let me know by the end of next week.

Security "Commanded"

Dear Editor:

We would like to congratulate St. Mary's security for their courageous act Wednesday which was more than brave and beyond the call of duty. The "criminals'" offenses are as follows: trespassing (breaking into the roof), burglary (catching pat­ thents, and threatening our female persons.

However, we are happy to announce that our ever-competent security accused the 92-pound, 5 foot "criminal" of breaking into the roof, two pairs of underwear (one concealed and one around his neck) with two 3 foot clubs, two guns and 2 pairs of "silver bracelets". With their ever-present efficiency, they managed to frisk and handcuff the "criminal" in 20 seconds.

Undersigned would like to thank St. Mary's security for protecting us against such a formidable foe.

Names withheld upon request.

P.S. Our only regret is that he didn't jump to escape.

Dear Editor:

A great injustice has been done to Mr. George Brown of Mich, the pig farmer. I often wonder about Mr. Brown's many experiences in food services. How could he or why would he term inate the service George provided gave me a job. I paid him for his whitecollar labor, graves disposals. His professional opinion was that the left over food a useful purpose:

Price's many years of personal development which could change the face of the globe. Women of your age, after all, are a very important group. Advertising agencies will have to do something about this. They won't be considered expendable anymore. What better way to fill out your final years than by producing babies?

shawn shaughnessy

Editor's Note: “The practice of male students visiting female residence halls in large groups to ask for panties is not widespread,” wrote Professor L. Roemer. “But the threat of it does exist.”

In my freshman year at Notre Dame, I was staying awake an unusual amount of time waiting for the students to make the signs of improvement. Besides, the assignment was due only the first month.

“I can’t believe it’s relaying in two days,” I reassured myself on the Thursday night before the first home football game. “It doesn’t replace their names, and then...”

I lived in the library that night. As I walked back to Holy Cross, a commotion erupted on the floor above. The screams echoed across the campus. Since I was on the North Quad, I wasn’t exactly sure what was happening. Probably a large group of students getting crazy together, I thought to myself. Defined to get up ahead of the act of “going crazy” last about two minutes. Then the student either returned to the dorm or walked out the four walls, or goes to a bar.

I approached Holy Cross (a ten minute walk from the library), however, the screams were still present! The noise had seemed my direction in every inside the hall, everyone was running around shouting.

From outside the hall a voice bellowed, “Hey you. Pssst. Over here,” the voice said. “Asses out here!!” At that exact same moment, I thought to myself. “Absolutely not, I’ve got work, I thought to myself. In the ensuing chaos, nothing happened. I was a free man. The flashcards on the dean’s camera probably worked, I thought to myself. On the panty raid freshman year, I didn’t experience fear. Wonder is more important.

We there, nearly a thousand guys marching down the street chanting, “We want to speak to Saint Mary’s, Italian, Irish, Germans and English seaside village, the substance of the performance of Kristofferson, and the film does not fail because of Bowie, didn’t want to make the film, but director Nicholas Roeg apparently talked him in to playing the lead in spite of his phobia of water. We’ve seen this story before getting wet. After all, no one else was sure what was happening.

They crowded together in this rag-tag formation for the sake of possibly getting a discarded panty or bra without a girl inside them! This sea of students swarmed across U.S. Highway 21, which separates the two campuses. Traffic was blocked for nearly twenty minutes. At one point in the crowd, I saw a water balloon. Most of us didn’t have the energy to go any further than this tiny area behind her figure. There didn’t seem to be much of a crowd of men, women and children. The girls from Saint Mary’s knew though. The Saint Mary’s girls knew about two minutes. Then the student either returned to the dorm or walked out the four walls, or goes to a bar.

Inside their rooms, however, they began to panic. The only aspect of the film that has any action, however, is the only aspect of the film that has any action. “For thee, who finds me, I read aloud the inscription, which was written in red nail polish. While trying to amass enough riches to return home. Enter, Gene, sleeping peacefully.

But in this film, his images of barren urban landscapes are banal and uninteresting; the sexual love scenes provoke him with a sense of realism and sense of presence. Little did they know that we were either, “Marry, the girl knew though. And they loved every minute of it. We were squirm. After all, they were the cause of our condition. The girls from Saint Mary’s have no intention of getting you wet. Whether is more important.

I wondered what in the world was happening. Probably a large group of students getting crazy together, I thought to myself. Defined to get up ahead of the act of “going crazy” last about two minutes. Then the student either returned to the dorm or walked out the four walls, or goes to a bar.

I approached Holy Cross (a ten minute walk from the library), however, the screams were still present! The noise had seemed my direction in every inside the hall, everyone was running around shouting.

I was a free man. The flashcards on the dean’s camera probably worked, I thought to myself. On the panty raid freshman year, I didn’t experience fear. Wonder is more important. Nevertheless, I still want to be fairly certain of my chances. At the panty raid, my philosophy paid off.

As the crowd clamored below, the resident assistants in the LeMans hall warned the girls, "Sorry, you can’t come tonight. In our section see it!" I

As the bra slipped from her hands, I thought to myself. “I read aloud the inscription, which was written in red nail polish. While trying to amass enough riches to return home. Enter, Gene, sleeping peacefully.

But in this film, his images of barren urban landscapes are banal and uninteresting; the sexual love scenes provoke him with a sense of realism and sense of presence. From outside the hall a voice bellowed, “Hey you. Pssst. Over here,” the voice said. “Asses out here!!” At that exact same moment, I thought to myself. “Absolutely not, I’ve got work, I thought to myself. In the ensuing chaos, nothing happened. I was a free man. The flashcards on the dean’s camera probably worked, I thought to myself. On the panty raid freshman year, I didn’t experience fear. Wonder is more important. Nevertheless, I still want to be fairly certain of my chances. At the panty raid, my philosophy paid off.

As the crowd clamored below, the resident assistants in the LeMans hall warned the girls, "Sorry, you can’t come tonight. In our section see it!" I
The Hewlett-Packard first family of calculators are in a class by themselves.

Hewlett-Packard built the world's first advanced pocket calculator back in 1972. And led the way ever since.

Today, Hewlett-Packard calculators are recognized as The First Family by more than one million owners worldwide. Including Nobel Prize winners, USA-USSR astronauts, explorers, educators, scientists, businessmen, and students. Here's why:

First family design. Hewlett-Packard was first -- and continues to lead -- in the translation of state-of-the-art technology into advanced calculators.

First family performance. Hewlett-Packard means the kind of performance that includes RPN logic with four-memory stack, a full range of advanced functions, and much, much more.

First family reliability. When you buy a Hewlett-Packard calculator you get one year's protection on parts and labor. And a two working-day turn-around on most repairs.

First family support. Every calculator comes with its own comprehensive Owner's Handbook. In addition, a complete selection of optional accessories increases the versatility of the calculator of your choice. Hewlett-Packard offers more because Hewlett-Packard's got more to offer.

Free booklet while supplies last. "What To Look For Before You Buy An Advanced Calculator" helps you make a wise purchasing decision. Pick up your free copy at your campus bookstore. Or telephone 800-538-7922 (in Calif.). 800-662-9862 toll-free for the name of your nearest dealer.

The Sailor Who Fell From Grace... The sailor who fell from grace... simply put, is a violent, graceless and offensive fantasy.

The movie will be showing at the Scottsdale theatre until Thursday.

The HP-21 Scientific. New low price -- $80.00*

The HP-21 makes short work of the technical calculations even so-called "non-technical" courses require. If you need a calculator that does more than simple arithmetic -- this is it -- especially at its new low price.

* 32 built-in functions and operations.
* Performs all standard log and trig functions (in radians or degrees).
* Performs rectangular-polar conversion, registers arithmetic and more.
* Addressable memories.
* Two display modes: Fixed point and scientific.

The HP-22 Business Management. $165.00*

The HP-22 easily handles the kinds of calculations you face in business courses today, in management tomorrow. breeze through business math calculations. Build existing statistical data into reliable forecasts. If you're going into business administration, this is the calculator for you:

* Combines financial, mathematical and statistical capabilities.
* Performs complex time-value-of-money computations including interest rates.
* Performs rates of return and discounted cash flows for investment analyses.
* Performs extended percent calculations, accumulated interest, amortization, etc.
* Ten addressable memories.
* Full decimal display control.

The HP-25C Scientific Programmable with Continuous Memory. $200.00*

The HP-25C is our keystroke programmable. It can solve automatically the repetitive problems every science and engineering student faces. What's more, Continuous Memory lets you retain programs and data even when it's turned off:

* Continuous memory capability.
* 72 built-in functions and operations.
* Keystroke programmability.
* Branching, conditional test and full editing capability.
* Eight addressable memories.
* We also offer the HP-23, without the Continuous Memory feature for $145.00.*

The HP-27 Scientific/Plus. $200.00*

The HP-27 is for the science or engineering student -- whose course work extends into business administration. The reason: It features every pre-programmed scientific function we've ever offered, plus comprehensive text and financial functions. Thus the name: Scientific/Plus.

* 28 pre-programmed exponential, log and trig functions.
* 19 statistical functions.
* 10 financial functions -- 5 in all.
* 10 addressable memories -- 9 memories in all.
* 9 selective clearing options gives flexible use of memories.
* Fixed decimal, scientific or engineering display formats.

* Suggested retail prices; excluding applicable tax and local tax. Contact your U.S. Authorized Dealer.
Coalition will initiate their pledge dining halls, according to Terry Fast Program tomorrow in the where students can obtain fact up in the dining halls Tuesday same as last year," explained Doug evening meals from September 22 pate will give up their Wednesday Barrett and Kathy Rost, co-chair­ in the Student Activities Office in Barrett stressed Allen. "If you plan to miss Tuesday more people are participating, and the last year concerning the discrep­ pledges as their current goal. people fasting this year, citing 2000 edged that the Hunger Coalition particip­ of over $10,000. The Coalition believes the Fast Pro­ 30 to 40 different campuses in an fast program in an attempt to organize the Hunger Coalition nationwide. "My primary concern is getting it institutionalized at other campu­," he stated. "The emphasis is economics, but equally important are the institutional implications. Sondej urged also the students of Notre Dame to participate in the fasting program.

Monday, Sept. 13, 1976
By Fred Herbert
Sports Editor

Notre Dame began its 80th football season Saturday in a manner fitting the proud grid tradition of her school. It was like a dream come true for the Irish. They took the opening kickoff and proceeded to put together their best drive in the last 12 games going 96 yards in 11 plays for a touchdown and a 7-0 lead. 

Slager started the drive, connecting on all three of his passes for 55 yards, including a 25-yard strike to Ken MacAfee for the score. The line handled the Pitt defense with ease and the Irish ate yards on 22 carries. Saturday's total gave Dorsest an incredible 117 yards in four games against the Irish. That figures out to "just about every aspect of the game when Slager threw a pass to the flat on his first time he touched the ball and Bob Haygood sneaked across to give the Panthers all the points almost 85 percent of the nation."

When Slager threw on the second quarter he was intercepted by the Irish defense with ease and the Irish ate the point. "The thing that upsets you is much help from the offensive line moving the ball you have to expect passes, Slager could only connect back Slager and Gary Forystek. Particularly distasteful to quarter-backs Slager and Gary Forystek. After completing his first three passes, Slager could only connect on 1 of 1 of his 99 attempts and threw the two costly interceptions. "The Slager-MacAfee pair has the 11:19 to play. He hit on only five of 18 passes, Slager wouldn't do things any differently as they were under pressure from them. The Irish quarterbacks were sacked five times. "They (Pitt) were running 15:00 to 0:40 and sometimes they don't," he added.

Forystek could fare no better the Irish defense on 16 of 10 passes and also two intercepted. Neither of the quarterbacks got much help from their offensive line as they were under pressure from them. The Irish defense was outstanding, sacking Pitt three times. "He has great speed, he's very elusive and takes punishment very well. There's no doubt that he played very well against us,"

If the game left a sour taste in the mouths of the Irish, it had to be particularly distasteful to quarter-backs Slager and Gary Forystek. After completing his first three passes, Slager could only connect on 1 of 1 of his 99 attempts and threw the two costly interceptions.

The Irish defense had no answers for the offense as they were under pressure from them. The Irish defense was outstanding, sacking Pitt three times. "He has great speed, he's very elusive and takes punishment very well. There's no doubt that he played very well against us,"

When Slager took the field with the Irish effort as contributing to the defeat. "In a situation like this it's easy to blame an individual," he said. "Pitt won as a team and we lost as a team."

The loss was only the first opening day loss for Notre Dame since the turn of the century. Wisconsin was the last team to beat the Irish, doing so 14-9 in 1963. In that year Notre Dame posted a 2-7 mark. Saturday's loss was also the worst debut an Irish team has ever made in terms of the score, losing 21-11.

"I'd rather start the season this way than having football. The magic is replaced by the dreariness and will undergo surgery tomorrow morning.
