Bar owners, neighbors to revise agreement

by Bob Varettoni
Senior Staff Reporter

Bar owners and the Northeast Neighborhood Council have decided on an agreement made last April about noise and litter problems in the Corby’s area.

At a South Bend Safety meeting Friday afternoon in the City-County Building, the Council accused the owners of not complying with a previous agreement to “be responsible for trash clean-up in a two-block area around their businesses.”

Art Quigley, Northeast Neighborhood Council president, said he would forget about the alleged violations of the old agreement if, by signing a revised copy of the old agreement on Wednesday, the owners make a “fresh start.”

In recent weeks, according to Board of Safety member Eugene Dziubinski, the litter and noise in the Corby’s vicinity had reached a point where the Council felt that the bar owners had not lived up to last year’s agreement.

“I’m offended by the suggestion that we bargained any agreement. We’ve spent a heck of a lot of money cleaning up the Corby’s area,” Harold Rowley, part-owner of Corby’s tavern, reacted.

Rowley said that the Northeast Neighborhood Council was making “abnormal accusations.” He added that “we’re broken necks” to remove the litter outside Corby’s.

John Rios, ND government professor and member of the Council, countered that the area in front of Corby’s by the gas station was “just filled with beer cans and beer cups.” This area has been terrible, he said. Rowley observed that some of this garbage could have resulted from off-campus parties and luggers.

“For God’s sake, put the pressure of someone calling me up to do it. We gave it a good try last year. If there was a tighter organization, we could do it again.”

“You folks have got to get your act together,” Roos said, referring to the tavern owners. “I go to the council meetings, and people say I’m a sucker. I felt them there’s an agreement, but they don’t see anything being done.”

Dziubinski said he would only revise the names and dates, not the content of the old agreement. This revision will be signed Wednesday afternoon by Quigley, Dziubinski, and a yet to be determined representative of the tavern owners.

Quigley said he wanted such an agreement signed during “the critical period between now and when the students leave for the summer.”

“I don’t want you to lose business,” Quigley said, in conclusion, to the owners. “I just want you to make a nice, quiet, litterless profit.”

Andy McKenzie, student body president, and John Fitzpatrick, off-campus commissioner, attended Friday’s meeting. Dave Tatman, owner of the Library, Theresa Bauer, part-owner of Bridget, McGuires, and an unofficial observer from the Student Police Department also attended.

Rome (AP) - Italy’s president told the terrorist kidnappers Friday that Premier Aldo Moro was a “false victim” and would gain them “absolutely nothing.”

President Giovanni Leone’s appeal for the life of his longtime colleague was made indirectly in an open message to Moro’s wife one day after the Red Brigades kidnappers announced that a “people’s court” had condemned Moro to death.

The ruling Christian Democratic Party, meanwhile, indicated a possible softening of its refusal to deal with the Marxist urban guerrilla group for the release of Moro, who is party president.

The Brigades kidnapped the 61-year-old Moro and killed five bodyguards March 16 in a Rome street ambush. His captors announced in six subsequent messages left in public places across Italy that they were undergoing a “people’s trial.”

On Saturday they said he had been sentenced to “die” for complicity in Christian Democratic policies.

Leone issued his statement after he met with Premier Giulio Andreotti and Interior Minister Francesco Cossiga in a search for ways to save Moro’s life.

The presidential message to Moro’s wife said a “terrifying threat looms for Aldo Moro” and added: “A sense of humanity may induce them [Moro’s captors] into a gesture of repentance...and drive them to spare a life whose sacrifice would gain them nothing, absolutely nothing.”

The government and the Christian Democratic Party, who are supporting the Brigades’ demands, made letters written by Moro, for the release of five political prisoners held by the Red Brigades leaders are on trial in Rome, according to an Italian government source.

But Christian Democrat leaders, after a three-hour meeting yesterday, said they had asked the radical Cabinet to get the Brigades “to express a political program.”

The Communist Party, largest of the parties supporting the Christian Democratic minority government in Parliament, urged the nation’s leaders to maintain their tough stance.

The Communist newspaper l’Unita said that it was “abandoned” the mortar of public and therefore the humanitarian level we feel that his life must be spared for all the reasons, public and legislative.

Christian Democrats in the past have not ruled out the possibility of buying Moro’s freedom with a ransom money from his friends or family.

Wage and Price Council tries to restrain inflation
WASHINGTON [AP] - The director of the powerful council on Wage and Price Stability said yesterday that the federal government is prepared to use teamwork to restrain inflation.

Barry P. Bosworth, the director, said the government buys the idea that "realignment policies" based on how well businesses keep their prices down.

Bosworth made the statement in an appearance on the NBC television program "Meet the Press." He expanded on it in a telephone interview with The Associated Press.

He said the government buys enough that it can influence inflation policies in private industry. By delivering a warning from companies that "don't hold the line on prices by switching to alternate products," it can reward those who help fight inflation and pressure those who don't.

"The extent to which you can do it in its present form," Bosworth said, "probably the most promising area in its professional Employment Counsellors assist and guide the effort of not retraining.

The seminaries of the Notre Dame billboard tournament will be held tonight at 6 p.m. in the pool room in the basement of LaFortune.

All interested persons are invited to attend.

All interested persons are invited to attend.
Sandoval named fellowship finalist

by Kate Farrell

Rudy Sandoval, assistant profes-
sor of law at Notre Dame Law
School, has been selected as a
national finalist in the 1978-79
White House Fellowship program.

The Fellowship program was
launched in 1964, attempts to pro-
vide outstanding young Americans from
every profession with some first-hand
experience in government. The Fellows
spend a year working in the
Executive branch and meeting
national and international leaders.

In addition to the working
assignment, White House Fellows
attend various seminars and meet-
ings where they have the opportunity
to talk directly with government
officials, specialists from various
fields and members of Congress.

Sandoval first applied for
a Fellowship in 1974 while attend-
ing Harvard Law School and he
was chosen as a national finalist.
Sandoval feels he was not selected
that year because of basic philosophical
differences between him and the
Nixon Administration.

"After having been a national
finalist," Sandoval stated, "I
decided to sit out a while and set up
a five year plan to make a White
House Fellowship. The idea during
this five year plan was to gain
enough experience to broaden my
horizons so that I would not only be
able to receive but to contribute to
the White House program.

Sandoval reappeared in
December, 1977. He was notified in
January that he had been chosen as one of
110 regional finalists from a field of
2027 applicants.

Sandoval then went to
Chicago along with 11 other regional final-
ists. There, 12 interviewers ques-
tioned him in a series of 12 separate
interviews in order to evalu-
ate him for the final 30
members of the Fellows.

The final phase of the
selection process took place
in a weekend retreat in
Indiana, May 19-22. Sandoval
would undergo 12 interviews
which were conducted by the
President's Commission on White House Fel-
loships. At the end of the three
year period, 14-20 candidates
will be recommended to the
President, and be sworn in May 22.

If selected as a White
House Fellow, Sandoval would work
with the President or Vice-Presidential
staffs, rather than in some other part
of the Executive branch. He explains, "I
would like to be in a position where
I would have the most exposure to
the policy making process.
Secondly, I would like to be in a position
which would allow me maximum
responsibility.

Sandoval feels that working close
to the President offers the best
chance "to see the process of government
at work," and to
observe and contribute to policy
making. However, he notes that the
purpose of the Fellowship program is to expose the Fellows in a
wide range of issues, and that
"we don't know where we'll be
posted."

When asked how he hoped to
affect policy, Sandoval points out
that when two people talk, a type of
conversing takes place, and that by
conversing with the President and
asking questions, he could point out
certain problems and inequities
to get people thinking.

Although Sandoval
receives the experience in govern-
mental law, he would prefer to
work in the areas of social and
economic policy. "I don't think of
myself as a specialist. I am
interested in many issues confront-
ing the welfare of minorities.
Social and economic issues are of
great importance to me," Sandoval
explained.

If selected as a White
House Fellow, Sandoval would have
the opportunity to travel around the
country to get first hand knowledge
of different regional problems.
Sandoval would particularly like
to go to California and talk with
Governor Jerry Brown about his
"small is beautiful" economic poli-
cies, and to New York Governor
Hugh Carey about New York City's
situation and urban problems.

Sandoval would also have
the chance to travel abroad. He would
like to concentrate on Latin Amer-
ica. "I feel Latin American coun-
tries will be the countries of the
world that will be focusing on in
the near future," he commented, and
he is interested in examining how Latin
America feels about its relationship
with the United States.

When asked how he felt about
the possibility of moving to the
Washington area, Sandoval re-
plied, "I've never worked in D.C.
before. Certainly working at the
apex of government affords me
great opportunity for professional
growth and personal growth on the
other."

However, Sandoval quickly
points out, "I can't see myself
working permanently with the
government. After my Fellowship,
government policy making, "I
would like to go back to my community
and put the policies into effect."

He said Sandoval was born in Texas
and spent the first twelve years of his
life as a migrant farm worker. After
graduating from San Antonio High
School, he joined the Army, serv-
ing as a seabeach to the govern-
m ents of Viet Nam and Korea.

He left the Army in 1964 and
enrolled in San Antonio College, where he received a B.A. degrees in Business Administration. He then received a B.B.A. in Management and Economics from Texas A & I and a cam laude degree from Texas Southern Law School in 1972.

Two years later, Sandoval earned a
J.D. degree from Harvard Law
School. He is presently working on
a Masters in Economics at Notre
Dame.

In addition to his academic
credentials, Sandoval worked with
the Attorney General of Texas in
pursuing government and economic
offices in San Antonio. He has
previously taught law at the
University of San Diego Law School
and at the Instituto Tecnológico
Educativo de San Antonio, Mexico. He
is the founder and director of the Notre Dame Se-
mer Law School Program in Mexico City.

He is also a member of the
Executive Board of the Minority
Section of the American Associa-
tion of Law Schools.

"It should be fortunate enough
for him to be selected," he comments, "it
would really be a Cinderella story
for the migrant fields of Texas to
the White House at the age of 36.

Ski-tram accident kills four

SQUAW VALLEY, Calif. (AP) - It was the ski tram's last trip of the
day as the mountain closed at Squaw
Valley, and it was loaded with vac-
cationers. Then one of the thick cables popped off its roller and
broke, slamming four persons and
injuring the other 30 aboard.

A second tram car on the same
line was heading up the mountain with some of the skiers' piles of
skis.

No one inside was injured, but
there was a dead man, hanged
hundreds of feet from the ground
during the quick trip up the open
cable that lasted until early yesterday
morning.

"There were screams and moans
and it was awful," said Bruce Zimberoff, a bartender who
was in the downward-bound car.

He said the car gave a sudden
jerk, then there was the sound of
ripping metal as the heavy cable cut
through the car and crashed several
persons to the floor.

An official said one of the
car's three cables had gone slack
and jumped out of its slot, then after
the 10-foot-wide, 30-foot-long
tram began to descend from 8,000 feet up
the mountain, it went bouncing 50 to 70 feet before the remaining lines then
did rapidly downtow n another 100 feet and made a final stop halted by an
emergency cable, 70 feet above the
ground.

At that point, the locals said:
"It looped around the car and tried
again," said Pat Taylor, a bartender
at the Squaw Valley Ski
Corp. He said the car looked like
"a shredded can."

Mary Penning's husband, David,
celebrating his 47th birthday, suf-
f ered broken ribs when the whip-
ging cable tore through the car.

Kenny Spencer, said, "It really puts
a lump in your throat."

Placer County Sheriff's Sgt.
Steve Cader identified the dead as
Gina Wenzelke, 22, of Menlo
Park, Dean, 31, of Alamedas;
Deepak K. Merchant, 30, of Menlio
Park and Lawrence A. Hinke, 27,
of Milpitas.

Officials said the first car had
jumped the cable or the cable had
shattered. When that happened, it
sent passengers tumbling over each
other.

"It took us 15 to 20 minutes just
to get everyone off each other," said
one passenger, Richard Schopp of
San Francisco. "Everyone was on
top of everybody."

But Dr. Roy Claybura of Stock-
ton, the 11th man to be loosed
said, "I've never seen a rescue
operation flow so well."

WASHINGTON (AP) — Recent court decisions and proposed settlements are dealing blows to American efforts to reclaim lost land and achieve tribal sovereignty.

Although many disputes have not yet been resolved, the initial results indicate Indians are not getting everything they seek — in some cases nothing at all.

Perhaps the most significant disputes in which courts have recently involved the Wampanoag Indians in Massachusetts and a tribe in Washington seeking the right to prosecute non-Indians on reservation land.

Art department sponsors lecture

"Super Realism: The Sombre Abstraction and the Decline of Formalism" is the topic of a lecture to be given by Gregory Battcock, art critic, editor and educator, in the Notre Dame Art Gallery at 7:30 p.m. tonight.

Co-sponsored by the Art Gallery and the Art Department, the talk is open to the public without charge.

Italian trains

BOLOGNA* Italy (AP) — Searchers cutting through the crumpled coaches of a Venice-Rome express train reported yesterday that at least 43 persons were killed when it collided with another passenger train.

One American passenger, Erna Streel of Beverly Hills, Calif., was reported missing. An estimated 130, including her husband and two other Americans, were injured and taken to hospitals.

The southbound express crashed head-on into a north-bound train Saturday in mountains 19 miles south of this central Italian city.

Botulism strikes in New Mexico

CLOVIS, N.M. (AP)—One of the largest outbreaks of botulism in the United States this century—29 cases—has been traced to a posh country club here, and authorities said yesterday they have made some discoveries: In a large event more people were stricken. At the Clovis Country Club, the state's chief medical officer, said a third of the 100-odd people who were served in seven courses in serious condition and placed on respirators. No deaths were reported.

Dr. John J. Lyon, associate professor and chairman of the General Course of Liberal Studies, and Dr. James Powell, assistant director of the CCE, were on duty at the Clovis Country Club. Faculty members include Fr. Edward Malloy, theology; Dr. Julian what was traced to improperly prepared homemade canned prepared in a Mexican restaurant in Ponchat, Mich. There were no deaths.

New Mexico health investigators say a series of problems were among 800 people who dined at the swank Clovis Country Club restaurant between April 9 and April 13.

Dr. Lyon, who co-ordinated the alumni courses, said yesterday they have made an effort to find the source of the poisoning. He said in a community it is possible to communicate with other people in the community on this subject.

"It's hard to say," Lyon said. The national Center for Disease Control in Atlanta said was the worst outbreak in U.S. history, 59 persons were sickened from a leisurely pace.

The Abortion Issue" and "Contemporary Music and Society.

The CDC has now asked the FDA to begin looking into the source of the poisoning and, if it involves a commercial food, we welcome the end of its distribution," Brett said.

The CDC has now asked the FDA to begin looking into the source of the poisoning and, if it involves a commercial food, we welcome the end of its distribution," Brett said.
About 200 people were on hand Saturday afternoon to see Notre Dame's defensive national championship football team "put it all together" in a three-hour scrimmage.

It didn't take long for the No. 1 offense to get things started. Led by quarterback Joe Montana, the first-stringers took it right to the 10 yard line in seven plays. The drive was highlighted by Jerome Heavens' 17-yard touchdown jaunt. After a 34-yard Joe Unis field goal capped the first quarter, coach Dan Devine excused his veteran backs. Montana finished the day with three touch-downs. Pete Vaggia rushed 18 yards in four attempts from the fullback position. Vendor Busy Lisch, Jim Stone and Pete Pallas into the offensive

backfield to write the most interesting statistical story of the day. Stone, the afternoon's busiest ball carrier with 102 yards on 16 carries, started off with a short 29-yard scamper in which he shook off tackles like a dog shakes off fleas. On third down, Stone broke off tackle to score from eleven yards out. He also snagged two Rugby Lisch passes for 38 yards.

From the fullback spot, senior Pete Pallas carried 13 times for 43 yards. He also caught two passes for 11 yards. Lisch connected on six of nine attempts for 121 yards. Also seeing action at quarterback were freshmen Mike Conry (10-20 for 81 yards) and Greg Kraske (6-15 for 65 yards). Carey threw the only one completion of the afternoon, a six-yard strike to wide receiver Joe Montana for an additional five points for all receivers.

When the No. 2 offense took on the No. 1 defense there really wasn't much ball-movement, as the defense talons allowed four times for 14 yards before incurring a bruised elbow. Number two
