DEAN OF STUDENTS
September 4, 1978

ALCOHOL

The alcohol regulations at the University will be enforced by the Dean of Students in all situations where it is necessary to his attention. We are instructing that Roemer, Assistant Registrar, and Resident Assistants enforce these alcohol regulations in and around their respective halls. Alcohol abuse at Notre Dame is a real problem. If people abuse alcohol and the alcohol regulations are ignored, strict sanctions will be imposed on the offenders as a means of instilling on sobriety and adherence to these regulations.

On University Grounds, alcohol may be consumed only in licensed bars in accordance with appropriate Indiana laws. The University does not object to responsible consumption of alcohol in private residence rooms in accordance with the laws of the State of Indiana which require that a person be twenty-one years of age or older, be an owner of an open container on the grounds of the University, in student rooms, dorms, the Stadium, and all other buildings and grounds on University property except as specifically provided above.

If a student drinks beer, wine, or other alcohol in the football stadium, a fine of $50 will be the minimum sanction. If the abuse is serious, separation from the campus community may be required. The police and the ushers at all the gates have been instructed to inform all fans that they are not allowed to bring beer and alcohol into the stadium.

by Marcia Kovac

Dean of Student James A. Roemer has set a minimum fine of $50 for any student caught drinking alcoholic beverages Saturday at the Missouri football game.

He said that if abuse is serious, violators will be "separated from the community."

Roemer issued the order in a Sept. 4, 1978 letter to campus officials. The campus security staff will scout out students drinking in the stands and will confine legs at tailgate parties.

"We haven't changed the rules. We're just going to crack down on enforcement," Roemer said, adding, "Students won't be allowed to drink in dorm corridors or on University grounds."

Roemer stated in his letter to administrators that "strict sanctions will be imposed on offenders as a means of instilling on sobriety."

Roemer had considered alternative measures but decided that the fine and possible suspensions would most effectively deter student drinking. "We have a serious alcohol problem on campus," according to Roemer who said that between 60-70 percent of students referred to him last year had alcohol-related problems. "Administrators and faculty have asked for action, which resulted in the current crackdown," Roemer said.

"We don't think the student would have taken me seriously if I had walked down to dorm giving lectures," he said. Roemer also noted that former penalties were ineffective as deterrents.

"Last year, a student was hand-paid on one or two campus a week after he worked 20 hours on campus for allowances to drink in dorm corridors or on University grounds," Roemer said.

Roohan speaks to HPC on overcrowded conditions

by Dan Letcher

Overcrowding was the subject of Student Body Vice President Mike Roohan's address to the Interhall President Council (HPC) in Keenan Hall chapel last night.

Roohan stated that Student Government is "in the process of preparing a report for the Trustees in mid-October concerning overcrowding." He passed out letters and asked that the hall presidents provide written responses. The letters will offer material for the report to be given to the Trustees.

Roohan stated that the problem is "a crisis." Morin also said that the student government is "concerned with the problem."

Roohan stated that "input from the student body is essential." He also scheduled a meeting on September 11th at 7 p.m. in LaFortune Student Center. This meeting will focus on hall maintenance and plans to use and find more social space which Roohan emphasized as two primary campus problems.

Marcy Gross Chairman, John McCAustin announced that the event will take place February 1. Construction will start January 27.

Bob Morin, assistant chairman of the Student Government said that the council members that they should pick their hall managers sensibly and "not just toss the burden on anybody." Morin also said that Roeman, who have drinking problems is on campus, what can be done about it and how can they stop it? The police and the ushers at all the gates have been instructed to inform all fans that they are not allowed to bring beer and alcohol into the stadium.

Terrorist bombs in Israel

JERUSALEM - Two bombs planted by Arab terrorists exploded in Jerusalem yesterday on the eve of the Camp David summit, seriously injuring a gasoline station attendant and a police detective from America who emigrated to Israel after serving in the Vietnam War, authorities said. Both of the injured were hurt in a bomb blast near a gasoline station. The second bomb went off under an empty trash bin outside the Jaffa Gate entrance to the Old City and no one was hurt, the police said. Those who had been on the bus were in Israel for a conference of international travel writers. In Beirut, Lebanon, the Palestine Liberation Organization claimed responsibility for both blasts and vowed to step up "military action against vital targets in areas the enemy considers sealed off by security."

PostalCodes wage talks resume

WASHINGTON - Union negotiators pressed the U.S. Postal Service yesterday for a bigger wage increase as bargainers, seeking to avert a mail strike, resumed face-to-face contract talks for the first time in nearly six weeks. With a Sept. 16 deadline hanging over them, officials from the postal service and three unions representing 316,000 workers held their first joint bargaining session since they reached a tentative agreement in July to avoid a strike. That earlier settlement was rejected by union members, raising threats of an illegal, nationwide mail strike and prompting a new, 15-day set of talks under the guidance of a special mediator. The mediator, Harvard professor James Healy, called the bargainers into joint session yesterday following three days of separate "exploratory" talks held with each side beginning last Friday.

Weather

Activities Night to seek members

by Tom McSteen

Student Activities Night, the final event of freshmen orientation, is scheduled for September 11 in Stepan Center. The purpose of Activities Night is to allow the various groups the opportunity to recruit new members, helping those groups to sustain themselves," John Calcutt, director of Student Activities, stated.

Activities Night is sponsored by the freshmen Orientation Committee, a branch of Student Government. Carely Ewing, committee chairman, said that it is important "to get freshmen, upperclassmen and transfer students involved now, so that at the end of the year they will not regret not getting involved."

According to Ewing, "Activities Night is the only time all the groups get together. It is an excellent opportunity for the student to see what the various groups have to offer and how much time is involved with each group, enabling the student to decide what he wants to do."

Ewing said that getting involved offers a type of release from studying and, depending on the club, a great educational experience.

According to Reid, "A part of a person's education should be involvement in extracurriculars. Extracurriculars offer an opportunity to meet new people, learn about yourself and possibly gain practical experience in a career."

Reid stressed that Activities Night is not just for freshmen. "While Activities Night has been successful in the past in regard to the freshmen, it has not been particularly successful in attracting upperclassmen. It is an excellent opportunity for a senior who has never been involved to become involved," he said.

Most campus-registered volunteer organizations, departmental honor societies and clubs, athletic groups, campus media and student body and class governments will be represented, as well as some South Bend organizations. The groups will provide information and answer questions about their policies, purpose and membership regulations.

"The clubs will be there. It is up to student participation to make the evening successful," Ewing stated.

Debate Council plans meeting

The first organization meeting of this year for the Notre Dame Debate Council will take place Thursday, at 7:30 p.m. in Washington Hall auditorium.

Roohan speaks to HPC on overcrowded conditions

(Continued from page 1)

Raffle tickets were going to be sold during the football season.

HPC chairman Chuck DeGrande introduced Paul Callahan as this year’s An Tostal chairman. Callahan stated that “this year’s An Tostal will be bigger and better than ever.”

DeGrande asked that each president appoint a calendar coordinator from his hall. Gene Woloshyn, Student Union assistant director, added that calendar coordination is very important, both between the halls and Student Union.

“A coordination of events between the halls and Student Union will help make each event more successful,” Woloshyn noted.

He also told the council that a Student Union representative would be present at each HPC meeting because “it is a good place to get ideas, and valuable constructive criticism may be attained.”

DeGrande announced that he had appointed Mary Paulson as the new HPC executive coordinator.

The HPC dinner next Tuesday was discussed, as DeGrande emphasized that the event is not just a chance to “chit-chat.” He stated that “the dinner serves to establish lines of communication between the halls on both campuses.”

Concerning HPC allocation, DeGrande asked each president to start thinking about his budget request. DeGrande hopes to have the budget allocation completed before the end of the semester.

Each allocation application is due the second week of October.

Radiation Lab receives grant

by Diane Carey

Each year the Radiation Laboratory on the Notre Dame campus receives a $2 million grant, the largest U.S. government grant in the area of radiation chemistry research.

The Department of Energy awarded Notre Dame the research grant shortly after World War II because of facilities available in the physics department. According to Robert Schuler, director, the lab’s focus of study is the intermediate state of chemicals affected with radiation.

“For instance, whenever water is exposed to radiation it breaks up into fragments that last only microseconds. By the time someone drinks the water, those fragments are gone. What we’re really interested in are the stages the chemical goes through.”

In response to rumors that the Radiation Laboratory is the largest building on campus and contains 34 underground floors, Schuler said that there is only one underground floor where the laboratory and electron accelerators are located.

Schuler also stated that there is no possibility of radiation leakage from the building that may pose a threat to the rest of the campus.

“With employees, there is what we call a potential health problem, but there’s no danger to the rest of the campus,” he said.

“The (lab) walls are of heavy concrete, and there’s very little penetration. Of course, we have to be careful no one’s in the room when radiation is being used,” Schuler explained.

Wire causes Keenan fire

A faulty extension wire was blamed for a small electrical fire yesterday morning in Keenan Hall. The fire, which broke out at about 11:30 a.m., was extinguished by students. The two occupants of the room were both in class at the time of the fire. Damage was limited to a portable refrigerator.

Fr. Richard Conyers, Keenan Hall rector, explained that the extension cord used to hook up the refrigerator had deteriorated and added that it was insufficient in the first place. The extension cord left the ground wire exposed behind the refrigerator.

“This is a very common situation across campus, and students should be alerted to the danger and urged to purchase proper extension cords where necessary,” Conyers said.

The fact that the fire was quickly extinguished prevented further problems since Keenan’s fire alarm system had been shut off since Friday night, when campus fire fighters responded to three false alarms at Keenan in the space of several hours.

Nazz searching for musicians

The Nazz, Notre Dame’s coffee house, is looking for students interested in music, sound and mixing. Students are needed to work on production, booking and engineering. There will be an organization meeting on Thursday, September 7 at 8 p.m. in the basement of Lafortune. For information call Gene Barbanera at 1803.
**HPC awards Rockne Trophy to St. Edward’s**

by Mary Ann Wiesel

Marty Paulson, Hall Presidents’ Council (HPC) executive coordinator, made the announcement that St. Edward’s Hall was awarded the Rockne Trophy for the month of April. Marty is the former hall resident, Paul Keeler. Certificates of Honorable Mention to Montana Hall whose events included an inaugu-
Second-year soccer varsity anxious for season's start

by Mark Perry
Sports Writer

The Notre Dame soccer team will be entering its second varsity season as a sport this year, but does not have the tradition to uphold. The team was coached by Rich Hunter, compiled a 16-1 record last season, and finished as the runaway champions qualifying for the NCAA tournament.

The Irish are aiming for the pinnacle of the sport this season, and Hunter has some goals in mind which should make this the most successful season yet.

"Now that the Irish are facing a difficult schedule this season," Hunter said, "we must play consistently well, and we are going to have a tough schedule.

"Physical shape is also very important," he continued, "and we must also remain mentally alert for the entire season."

Bucs now half within half-game

by Associated Press

The Pittsburgh Pirates combined the four hit pitching of Jerry Reuss with a tremendous third inning the other day to defeat the New York Mets 8-0 Tuesday night and move within a half-game of the idle Philadelphia Phillies for the National League East lead.

The victory was the 10th straight for the Bucs, who have had their last 14 games in Three Rivers Stadium.

Reuss, beset with problems all season, won his second game against the Mets in his third try. He didn't allow a runner, second score.

EXPOS 10, CUBS 9

Duals by Warren Cromartie, Gary Carter and Ron LeFlore Tuesday night lifted the Montreal Expos to a four-run eighth inning Tuesday and lifted the Montreal Expos to a 10-8 victory over the slumping Chicago Cubs.

Cubs slumping again

The exasperated third-place Cubs five games behind the idle-place Pittsburgh Pirates in the National League East and was charged to relief ace Bruce Sutter, 7-5, who was unable to stop the Expos in the eighth.

Wayne Twitchell, 4-12, was the winner in relief.

YANKEES 4, TIGERS 2

Ron Guidry combined a two-hit outing over the first seven innings with a shutout ninth inning to lift the New York Yankees to a 4-2 victory over the Detroit Tigers Tuesday night.

This was one of the best pitching efforts for Guidry, who shutout the ninth into the ninth but Phil Mankowski's two-run homer knocked him out of the game and Sparky Lyle came on. Lyle walked Alan Trammell and Rich Gedman to load the bases, but he got out the next man to earn his 22nd save.

Hopes of the Tigers extended his hitting streak to 276 games with a one-out single in the ninth inning. But Goosey got him out.

OWES 4, RED SOX 1

Lee May blasted a leadoff homer in the seventh and Carlos Lopez singled in the ninth and the Baltimore Orioles defeated a 4-1 victory over the Red Sox.

The Red Sox have lost five of their seven games this year as they struggle to win five. Lopez, still eight games behind the league East, have won 14 of their 22 games.

Jim Palmer, seeking to win at least 20 games for the eighth time in nine seasons, dropped his record to 18-12 with nine-run relief help from Goosey, who picked up his 21st save.

ASTROS 3, REDS 2

A three-run ninth inning double by Jose Cruz and a sacrifice fly by pinch-hitter Bob Watson rallied Houston Tuesday night over the Cincinnati Reds Tuesday night.

Houston went into the ninth with trailing 2-1 when Terry Puhl led off with a single and scored the tying run on Cruz' double to left field corner.

Some tickets left

All 1978 Notre Dame football games have been sold out, with the exception of the October 21 Air Force game at Colorado Springs and the November 4 contest against Navy in Cleveland.

A limited amount of tickets for the remaining two games are available and is currently on sale at Gate 10 of the Notre Dame Stadium press row Center.

An attempt to sell Notre Dame and Navy tickets for last year's Notre Dame-Michigan basketball tournament have been sold for the 1978-79 Notre Dame season.

Speaking Sports

WSND-AM 640 presents "Speaking of Sports" this evening at 10 p.m. John Paul Stauffer and Lou Severino in an hour-long show. Four callers are welcomed at 6400.
