US-Iran agree to probe
(AP) - The United States and Iran have accepted the membership of a commission to investigate the former Shah and his activities in Tehran in a few days, the United Nations announced yesterday, but there was no word on how the issue might bring release of the hostages held in the U.S. Embassy there.

A spokesman for the Moslem militants at the embassy told the Japanese newspaper Yomiuri there was "no need for the U.N. to investigate the crimes of the Shah." He said Ayatollah Ruhollah Khomeini and the Iranian people are still demanding the extradition of the Shah and the return of his assets before the hostages will be released.

"The United Nations' efforts to break the impasse by setting up a five-member commission to probe the U.S. plot being perpetrated through U.N. Secretary-General Kurt Waldheim, the militant was quoted as saying in a dispatch from Tokyo in Washington. State Department officials said the diplomats considered "no release unless on track," but with no firm time frame. The officials, speaking privately, said the United States probably will not be certain about the freeing of the hostages "until we see the editing of the infamous W D-11".

Waldheim was quoted by a Vienna newspaper as saying the hostages would be released "in the course of the commission's work which was not due to have taken place before the end of this week." Otherwise, one would not have received the agreement of the two sides.

According to Die Presse's today's edition, Waldheim said the commission's report would be handed over to him and he would forward it to the U.N. Security Council for whatever action it saw fit.

The commission to investigate Iranian grievances has been considered one of the steps that would lead to release of the approximately 30 Americans who have been held hostage at the occupied embassy in Tehran since Nov. 4. A U.N. spokesman Rudolf Stajdihar, who announced U.S. acceptance of the members on the commission, which is not the official Waldheim's acceptance by telephone from Tehran. He said Waldheim was awaiting released commission before officially announcing the panel members' names.

Stajdihar told reporters the timing of the hostages' release as part of a package deal had not been finalized. It was not clear if the commission's mandate had been completed.

Reagan apologizes for nasty racial slurs; ‘poor taste’

HILLSBORO, N.H. (AP) - Ronald Reagan apologized yesterday to anyone who might object to an ethnic joke he told about Poles and Italians, but said he intended it as an example of humor he finds in poor taste. "No slur was intended and I apologize to anyone who was offended by it," he told reporters, would be meeting in Geneva and would fly to Tehran on Sunday as saying the

Mrs. Reagan sees white, then black, but none to be found

(AP) - Last Saturday in the Chicago suburb of Rosemont, Nancy Reagan substituted for her husband at a campaign rally and told him in a telephone call heard over loudspeakers by about 200 persons that she wished he could see "All these beautiful white people." She hesitated, her face turned pale, and she added, "beautiful black and white people." Then she changed the subject. There were no blacks in the audience.

Tito’s kidneys become focus of doctor’s efforts

BELGRADE, Yugoslavia (AP) - Doctors treating President Josip Broz Tito said yesterday his weakened kidneys had become the focus of their fight to keep the aging 87-year-old leader alive. For a second day in a row, their medical report failed to list any improvement in Tito’s condition, despite what were termed “intensive measures” to bolster his health. The general state of his health was “without change,” said the two-sentence medical statement issued through the Tanjug news agency.

Trudeau begins fourth term

TORONTO (AP) - Canadians angered over a proposed gasoline tax called Pierre Elliott Trudeau back in office as prime minister in national elections yesterday and gave his Liberal Party a majority in the House of Commons.

They turned their backs on 58-year-old Mr. Clark and his Progressive Conservatives who had appealed for a "fair chance" after only three months in office, according to new polls.

The Liberals were returning 47 percent of the popular vote, the Conservatives 31 percent and the New Democrats 18 percent, according to the Canadian Broadcasting Corporation.

The 36-year-old Trudeau, party leader since April 1968, would thus be this year's term-long government leader.

He had said this was his last election and that he would step down in two or three years.

But the key was expected to be the 95 seats in the House of Commons in the Maritime provinces, where Trudeau's party took four of the 60 seats in the 282 seat House of Commons.

The Liberals' victory was first reported in the Canadian Broadcasting Corporation's "The First Count." The report said the Liberals had 281 seats in the 282 seat House of Commons.

The result, which would give Trudeau a fourth term in office, was confirmed in a joint statement from the Canadian Broadcasting Corporation and the Associated Press....

The Observer
Ford executive defends Pinto design

WINAMAC, Ind. (AP) - A Ford Motor Co. executive who said he was responsible for designing the 1973 Pinto testified yesterday that the car was safe and was involved in no more fatal fire crashes than other subcompacts.

Ford is on trial charged with reckless homicide in the August 1978 burning death of three young women in a 1973 Pinto that exploded when hit from behind on a northern Indiana highway.

The state contends that Ford recklessly designed the Pinto, knowing the fuel tank was subject to explode in rear-end collisions, but sold the cars anyway without making repairs or warning the public.

The trial, now in its seventh week, is expected to continue at least into early March with defense testimony and prosecution rebuttal.

Harold C. MacDonald, now Ford's vice president of engineering and research, said he was in charge of development when the Pinto (GP3A) was designed.

MacDonald read from a federal study which he said showed that in 1975 and 1976, 1.9 percent of the nation's cars were Pintos, and 1.0 percent of the fatal accidents involving fire occurred in a Pinto.

"These figures mean Pintos were having the same number of fatal accidents with fire as all other cars - no better and no worse," MacDonald said.

He told the Pulaski Circuit Court jury that the Pinto met all proposed federal standards and Ford's own standard for withstanding a 20MPH rear-end collision by a 4,000-pound moving vehicle without leaking more than one ounce of fuel on impact and one ounce afterward.

The 1973 Pinto's fuel system integrity also was "fully equal to other subcompacts of that time," MacDonald said.

He said research in the U.S. and Canadian government statistics also "suggested the Pinto was about equal to other cars of the time" in the number of fiery fatal accidents.

MacDonald defended his decision to place the Pinto's fuel tank behind the axle, a location the state and jurors have questioned.

He said his father burned to death in 1932 when his car, which had the fuel tank over the axle, ran into a tree.

"Because of that I feel the gas tank should be as far from the engine as possible," he said.

Under cross-examination, Prosecutor Michael A. Costantino pointed out that MacDonald received a yearly salary of $130,000 from Ford, was given a $200,000 bonus in 1978, and owns 15,000 to 14,000 shares of Ford stock.

Costantino told reporters he still believes former Ford President Lee A. Iacocca - now MacDonald - was responsible for the design of the Pinto, and he said he will recall previous corporate witnesses in an effort to prove that Iacocca now is chairman of Chrysler Corp.

Ford attorney James F. Neal said he was responsible for designing the Pinto more dangerous.

"I've seen 3,500 accident reports andFord's own standard for withstanding a 20MPH rear-end collision by a 4,000-pound moving vehicle without leaking more than one ounce of fuel on impact and one ounce afterward.

Saint Mary’s sponsors active career workshops

by Marylene Bradley

The Notre Dame Women’s Reading Group will sponsor support groups of six to ten women to inform them of feminist issues that affect them within the University. These "consciousness-raising" groups will focus on psychological and social problems that Notre Dame women face, according to Regina Tolow, a senior American Studies major.

She organized the Women’s Reading Group last November to discuss books, and films concerning women.

"I think women’s groups need a women’s group," stated Leuchten, "but they don’t really exist. There’s not a forum where they are being discussed against"

Saint Mary’s Counseling and Career Development Center is sponsoring three separate workshops. Upcoming workshops dealing with assertiveness, group counseling, and stress resolution are being encouraged.

The Assertiveness Training Workshop will be held once a week for five weeks from 6-8 p.m. in 331 O’Shaughnessy.

The session will include lectures and exercises which will teach students how to assert themselves. Each week, students will set "assertiveness goals" for themselves which they will try to reach in their daily lives.

Tony Campbell and Mary The- nell, the director of Regina Tolow, will direct this workshop. On Feb. 20 and 27, a Life Planning Workshop will meet from 9-9:30 p.m. in Regina Tolow’s room 209. The purpose of this workshop is to help students overcome the various fragmented aspects of their lives. Such questions as "Who am I?" will be discussed.

"How do I work towards my goals?" will be discussed.

Dr. Susan Leuchten, women’s studies professor, will assist the group. On Feb. 22, a Human Potential Workshop will meet every Wednesday at 7:45 p.m. in 331 O’Shaughnessy. The purpose of this workshop is to determine a person’s self-confidence level which is the goal of this workshop. Students will practice interacting and also work on interpersonal skills. The workshop will utilize a small group format.

Participants interested in any of these workshops may currently sign up in the Counseling and Career Development Center. For further information, students should contact the Center at 4-4144.

The group organized a Women’s Night at the Nazz, which appeared to be a success according to Leuchten. Leuchten expressed her disappointment over the turnout, saying, "I thought all the feminists of Notre Dame would come, but they didn’t." This caused Leuchten to question the viability of a feminist group on campus. She said she considered the group to be an "ad hoc" organization.

The group members consider "watch dogs" of the University’s policy on such interests as admissions requirements, housing conditions, and the Title IX issue. Leuchten said she formed the group because she believed that the administration showed little concern for women’s needs and rights.

Leuchten commented, however, that she has "become less radical" in her views since she has worked with the group. "I have met some administrators who are concerned about co-ed-ucation," Leuchten said, and who would like to see some changes come about.

At the same time, Leuchten said she believes that other schools that have recently become co-educational have adapted to the changes much faster than Notre Dame has to meet women’s needs. Leuchten disagrees with the argument that women who have been "Allowed to attend a male’s school" might await change patiently because tradition changes slowly.

"Time does not change tradi- tion," responded Leuchten, "People do." The group has composed a list of resources and services available to Notre Dame women. Group members hope to sponsor a second Women Performers’ Night at the Nazz, as well as a dance instruction session for women.

They also plan to sponsor films that will nurture the feminist consciousness on campus, according to Leuchten, and to invite a feminist speaker to address the group. Dates for the activities will be announced as soon as they can be determined.

The Reading Group meets every Wednesday at 7:45 p.m. in 331 O’Shaughnessy. Tomorrow night they will discuss the film ‘ ‘Lucia.’’ The first Support Group will meet tonight at 10 p.m. in Parker A of Lewis Hall.

Concerning Chicago firefighters

Dispute burns between mayor and union

CHICAGO (AP) - Hundreds of men recruited to replace striking firefighters reported to work yesterday as the city suffered its first fire death since the start of the five-day-old walkout.

Positions on both sides of the bitter dispute seemed to harden. The strikers repeated their determination to defy back-to-work court orders and $40,000-a-day fines, and Mayne Jane Byrne said she would never again negotiate with the Chicago Fire Fighters Union or its president, Frank Muscare.

In a telephone interview with a radio station, the mayor was asked whether she planned talks with federal mediators or union officials.

"No, I am not. It wouldn't make any difference," Mrs. Byrne said. "I will never again sit down with Mr. Muscare, nor his men. Not again, not ever. I will never subject anybody in the mayor's office or the staff or the corporation counsel or the commissioner of fire to negotiations with the union."

A 37-year-old mother of four, Diane Williams, died in her basement apartment as fire swept through the frame building, police said. Her children and other residents escaped and called the fire department.

A fully manned fire truck arrived a short time later, but Mrs. Williams died. "It wouldn't have been any different," she said.

If there had been no strike, said one maternity, one employee at the scene.

The 3.5 million residents of the nation's second-largest city have been dependent on makeshift fire protection since the walkout Thursday by most of the 4,330 firefighters. They struck after the city refused to grant them a written contract to replace handshake agreements unless the union would agree to a no-strike clause.

An estimated 900 recruits arrived for processing at the Fire Department Gymnasium, crossing police lines to the gers of striking firefighters. About 100 police officers stood by, some wearing riot helmets. There was no violence or arrests.

On Sunday, Mrs. Byrne said the city was hiring the men temporarily to replace strikers who stayed off the job.

About 400 recruits had accepted job offers telephoned over the weekend, but some have not shown up. Others have come down but decided not to go through with it, said Charles Pournam, city personnel director.

The mayor said the recruits, taken from the standing eligibility list, will undergo two weeks of training, instead of the usual six-week course, then report for work under supervision of experienced officers.

Mrs. Byrne said the positions were being offered for 90 days, but she predicted they would become permanent. "I think there will be enough vacancies created through dismissals to create room for them and more," she said.

The strike commenced in violation of a preliminary injunction issued Sunday night by Circuit Court Judge John F. Hechinger. They had already ignored a temporary restraining order he issued last week.

Hechinger found strike leaders in contempt and levied daily fines of $75,000 against the union, $5,000 against Muscare and international representative Michael Lani, and $1,000 each against each of five other union officers.

Campus Chaplain Fr. Robert Griffin will say Mass daily during Lent at 12:15 p.m. in the Lafayette ballroom. The Masses will begin tomorrow in observance of Ash Wednesday.
In San Salvador

Teachers seize payroll, hostages

SAN SALVADOR, El Salvador (AP) - Some 300 members of the leftist-dominated National Teachers Association seized the payroll and administrative offices of the educational Ministry Sunday and held 200 persons inside.

Later Sunday, militaries from another leftist group ended their occupation of the Spanish embassy and freed their two remaining hostages unharmed, authorities said.

Members of the Popular League of Feb. 28 had taken over the embassy Feb. 4, demanding freedom for several arrested officers.

The militaries left the embassy peacefully. They told reporters the government had promised to try to find three members the group said were imprisoned. The government had freed 11 of the 16 persons sought by the militaries, but said it knew nothing of the other five. It was unclear why the militaries had dropped their demand.

A spokesman for the teachers said he was happy to see the order in which the militaries had given their addresses.

The later a member speaks, the better a member speaks, the more serious it looks. They told reporters they would not hear from another leftist group ending their occupation of the Grand Canyon and Yosemite National Park.

On Sunday, 100 strong, also have taken telescopes to such ideal viewing areas as the Grand Canyon and Yosemite National Park. They hope to return to the canyon again this summer, helped along by a $43,000 grant they recently received for a new van.

On pleasant evenings, Dobson believes people must try to get others to look skyward.

"It is dumb to live blind-like in this world," he said.

Astronomer urges people to gaze at heavens

SAN FRANCISCO (AP) - John Dobson believes people must see the stars to understand the world in which they live. And as the force behind the Sidewalk Astronomers, he is constantly trying to get others to look skyward.

On pleasant evenings, Dobson and other members of the group set up their telescopes in Golden Gate Park and popular tourist areas and invite passersby to glimpse the mysteries of the heavens.

"The public has to see," says the 64-year-old astronomer. "It's dumb to live blind-like in this world."

The Sidewalk Astronomers, about 100 strong, also have taken telescopes to such ideal viewing areas as the Grand Canyon and Yosemite National Park for extended summer exhibitions. They hope to return to the canyon again this summer, helped along by a $43,000 grant they recently received for a new van.

Dobson, 64, earned a degree in chemistry at the University of California before turning to astronomy and cosmolgy, both of which he teaches in the city's adult education program.

He built his first telescope in 1936, and his career ended up as the force behind the Sidewalk Astronomers, a group set up in the city's popular tourist areas.

Dobson believes people must try to get others to look skyward.

The Department of Psychological Services plans to expand the alcohol education program to include the involvement of rec­tors and R.A.’s, according to Wayne Pelligrini, a clinical psychologist with the alcohol program.

An alcohol program will be presented to recruits at a meet­ing Wednesday night. “There will be a talk and discussion to change attitudes about drink­ing-related problems and ways of dealing with them,” Pelligrini said. “We hope to get more recruits to involve their R.A.’s in our R.A. prevention training program.”

The prevention training program for R.A.’s will take place this spring. The program is intended to help enable R.A.’s to recognize the symptoms of problem drinkers among students. “The training program is not campus-wide,” Pelligrini said. “We hope to expand the program to include all the dorms. We’ll get a feel for the response on Wednesday.”

The Psychological Services Department also hopes to get students involved in the education program. “We feel that the drinking problem at Notre Dame is a campus-wide problem,” Pelligrini said.

The alcohol survey results suggest that more questions need to be asked about how serious the drinking problem here is. The administration is becoming increasingly concerned over drinking-related problems on campus. Unless students get involved in the education program, in addition to the recruits and R.A.’s, the program will fail.”

The new education program will target next year’s freshmen, Pelligrini said. Plans are being discussed with freshmen.

M ostek will be on campus

A world leader in MOS integrated circuits and systems, headquartered in Dallas, Texas, will be interviewing here soon. Check with the placement office for more information.

Women tracksters begin first season

Kelly Sullivan
Sports Writer

Some ingenuity and a little effort were all it took for a handful of students to form a competitive women's track club at St. Ed's Hall. According to the Observer, several students in his section at St. Ed's Hall were looking for a way to get involved in sports, and Costa's offer to coach the club was just what they needed.

"I was going to run for the men's track team but I ruined my knee in interhall football," said one of the students. "I still wanted to be competitive. Men's track team but I ruined his services as coach."

The Observer urged participation from St. Mary's, have signed up.

The Irish finished in 6th place. However, Notre Dame's coach added, "It just wouldn't seem fair to try and have the girls work out and then not compete."

The coach also expressed the importance of maintaining a proper perspective on winning.

Aragon qualifies for NCAA championships

Joe Piane summing up Aragon spot in next month’s NCAA weekend by running the half collegiate half-miles run this year. He really was a great Despile finishing third in the tin in the relay this weekend for Miranda, Tim Macauley, and DePaul ahead to stay 58-56 with points. He eclipsed the 2,462 Terry Cummings helped De'24 points to establish a new trailing at halftime 35-30. Paul pull to within five points, first half before Aguiri and by as many as nine points in the home since the final game of their 40th straight game at its 23rd consecutive college basketball victory, 92-75 over LaSalle.

The Blue Demons finished the game hitting 22 free throws in a row.

Aragon qualifies for NCAA championships

Chuck Aragon turned in a superb performance over the weekend by running the half mile in a time of 1:30.78. DePaul currently holds the top spot. The race that was held in Ann Arbor, Mich, at the Central Collegiate Conference Track Championships, Aragon’s time was good enough to earn him a spot in next month’s NCAA Indoor Championships in Des Moines.
