Quayle rails at Democratic policies

by Mary Fran Callahan
Senior Staff Reporter

Republican senatorial candidate Dan Quayle campaigned last night by hurling sling mud at democratic constituents while simultaneously stressing his own plans for the “challenge of the eighties.”

Quayle opened his presentation held at the Galvin Auditorium, by outlining what he perceived as the significant challenge of the eighties. He called for a consolidation of federal bureaucracies while emphasizing that he was “proud” he led the fight to kill Ralph Nader’s consumer efforts from bloominging in a full-blown federal agency.

The candidate also discussed the “need for limitations of taxation” by saying additional taxcuts by stressing his own plans for the “challenge of the eighties.” He explained his position on corporate taxcuts by saying additional taxcuts by stressing that taxcuts will enable business to create more jobs and opportunities.

Heppen says

St. Ed’s to rebuild

by David Richabaugh

Seeking the new St. Edward’s Hall, Notre Dame’s oldest student dormitory which was severely damaged by a June 25 fire, will undergo an

quickly as possible.

Heppen said that fire prevention would be stressed by installing smoke alarms, a sprinkler system, and fire-proof steel doors.

Heppen said the insured re-

placement cost of the burned section will be around $2 million, with the University paying for the expansion.

The major feature of the expansion will be the tearing down of the two-story, detached annex to the north of the burned structure and the constructing of a four-story addition with a French mansard roof matching the reconstructed fourth floor and roof line of the original building. The old annex was not damaged by fire but was in poor condition due to age. The new expansion will not be a separate structure and will be an architecturally compatible with the building’s current physical configuration.

Heppen said the new residence hall will have expanded social and study space, and the stairwells will be improved, although the building now has an elevator. The stained glass Storin windows will be kept, and an attempt will be made to preserve a mural of Fr. Sorin and the Indians in a second floor trunk room that will be remodeled into a study area.

Economist wins eighth U.S. Nobel Prize

By David Richabaugh

STOCKHOLM, Sweden (AP) — U.S. economist Lawrence R. Klein, whose models for forecasting economic trends revolutionized the field, capped a long American showing in the 1980 Nobel Prize series yesterday by winning the economics award.

The 60-year-old University of Pennsylvania professor won the Memorial Prize in Economics and became the eighth American laureate among 11 winners this year. He was selected for his creation of econometric models used in analyzing economic fluctuations and policies.

“Econometrics” is the use of mathematics and statistics to study and develop economic theories.

The Royal Swedish Academy of Sciences, which chooses the economics winner, said that for 15 years, Klein has been the leading researcher in the field of analysis of business fluctuations.

Klein, an economics professor at Pennsylvania since 1958, served as an adviser to Jimmy Carter during the 1976 presidential campaign and has remained an unofficial consultant to the administration.

The economist declared an official position to avoid raising the issue of his previous affiliation with the American Communist Party, sources said. They said he also cited his desire to continue his research.

The native of Omaha, Neb., was a Communist Party member in 1946 and 1947, while doing research at the University of Chicago. He left the United States for Britain during the 1950s, when Sen. Joseph R. McCarthy’s congressional committee was investigating the alleged communist connections of a number of prominent Americans.

Klein’s graduate students stood and applauded yesterday as their former instructor entered the classroom. The laureate broke into a broad smile and quipped, “You make me feel like a politician.”

When asked about the prize money, he responded, “It’s not a big thing.” He said what matters to him is the recognition.

He said an econometric model is “a good tool for dealing with the uncertainties of life.” The use of such econometric models, he said, enables economists “to roll with each event and do a new forecast. The important thing is to have a system that is already ready.”

The economics prize, provided by the Swedish Central Bank, was added in 1968 to the original five established in the will of dynamite inventor Alfred Nobel to honor humanitarian works. The bank matches the other prizes’ stipends, which this year amount to $212,000, a record in the 73-year-old Nobel series.

The Norwegian Nobel Committee awarded the peace prize to Argentine human rights activist Adolfo Perez Esquivel.

Notre Dame community remembers Fr. Tooby

by Mark Raub
Managing Editor

Fr. William Tooby was buried yesterday in the community cemetery under peaceful October skies and the quiet reflection of over 900 mourners.

The funeral procession, which wound its way past Corby Hall down Saint Mary’s Road along the lake, followed a solemn high mass in Sacred Heart Church attended by close to 3,000 people.

Fr. Tooby, who was director of Campus Ministry for ten years, died Monday morning after a two-week struggle with esophageal cancer.

Fr. Theodore Hesburgh, University president, joined approximately 5000 attendees in a moving honoring of a man eulogized as one who “hungered... for justice.” The homily was offered by Fr. Thomas McNally of Campus Ministry.

In his homily, McNally described Fr. Tooby as a friend and a man of compassion.

“No one preached the gospel more fully. No one hungered and thirsted more for justice,” McNally said. He characterized Fr. Tooby as a man of intense emotion: “He preached the gospel with a terrible urgency from the pulpit.”

McNally said that Fr. Tooby’s assembled friends and acquaintances “share in mourning... for one we love,” but could find reassurance in words that Fr. Tooby had written earlier: “Death, faith and despair will not have the last word.”

Bishop William McMannus also recalled Fr. Tooby’s sense of urgency, but noted a more essential quality.

He noted that Fr. Tooby in his work followed a scriptural passage that says “I know mine, and they know me,” a passage of which he was particularly fond. “I like to think,” the Bishop said, “that when God greeted Fr. Tooby he said: ‘Bill, I know mine, and they know me.’"
News Briefs

Thursday, October 16, 1980 - page 2

El Salvador yesterday celebrated the first anniversary of the overthrow of rightist President Humberto Romero with a national holiday amid reports of 74 more deaths in the political warfare between leftists and ultra-rightists that has killed more than 7,000 people since the bloodless coup. Soldiers parachuted Tuesday into a 40-mile-mile-long zone of the suburbs of San Salvador and in Toncatepeque, 20 miles to the northeast. Meanwhile, thousands freed Victor Keilhauer, a businessman kidnapped six months ago, after his family reportedly paid $2 million in ransom. The kidnappers demanded another $4 million.

Government and print media banned publication of an article submitted by the New Independent Union, a 13-member group, about the 1980 year's Nobel Prize in literature. The government has not yet released the authors because it believes the author and most of his works have been available in Poland only from underground copies. The group's leader was arrested in Poland after his family said many Polish newspapers have given extensive coverage to his work and other anti-communist writers. PAP, the official news agency, said that Poles are preparing to publish his works. — AP

French investigators believe Libyan leader Moamar Khadafy was the mastermind of the Oct. 3 Paris Amiens bomb that killed four people, the news magazine Jeune Afrique said in this week's edition. The magazine said Khadafy ordered the attack in retaliation for efforts by France to overthrow the Libyan government. It said Khadafy, who had no immediate comment on the article by the French government, has published French efforts to overthrow his government. The magazine also described a rash of anti-Semitic attacks in France. No suspects have been arrested in any of the incidents. — AP

The bathroom may come to rival the classroom at a medium for transmitting knowledge if a test study at Syracuse University is any indication. Dr. Alan W. Grogono said detailed posters on cardiopulmonary resuscitation tacked to the door or wall of toilets at a university dormitory proved highly effective in teaching the life-saving, emergency technique to students who used the facilities. Grogono, an associate professor of medical surgery at the State University of New York Medical Center in Syracuse, said the study involved 280 dormitory students. The posters, taped to the door or wall of toilets at a university dormitory, proved very effective in teaching the survival technique to students who used the dormitory's bathrooms. — AP

The final toll from this summer's heat wave is 1,265 deaths and nearly $30 billion in damage, the National Oceanographic and Atmospheric Administration reported yesterday. Only three other summers in this century have taken more American lives in heat-related fatalities. Most of those who died from the heat were either elderly or poor and lived in non-air-conditioned homes or apartments, said the agency. Missouri, with the highest temperatures and the highest toll in the south, had the fewest deaths, with the fewest states than other states had higher temperatures for longer periods. The heat wave broke temperature records in more than six states, and the mercury climbed over 100 degrees each day from June 23 to Aug. 3. Besides the fatalities, the weather agency's Environmental Data and Information Service reported Wednesday, has the largest number of hours above 85.5 percent of the average temperature for a record; crops and livestock suffered significant damage; and some communities had major rivers always bucked, and water resources in many parts of the country were seriously jeopardized. — AP

Partly cloudy and warm today with scattered afternoon and evening thunderstorms. Highs in the 70s, tonight's lows in the mid-50s.

One era ends, another begins

There's no doubt that Edward "Moose" Krause will be sorely missed as Notre Dame's athletic director. After all, no other name is quite synonymous with Notre Dame. Quite a few people were shocked by the announcement that Gene Corrigan — from the Unisport, in Virginia, and Joyce would probably request additional funds from the Libyan government. Military forces, said report were that officers and other members of the Somosma Portocarrero formed heavy equipment units, shut down all air communications, and conducted equipment to the Spanish contractors at inflated prices. — AP

Ohio's News Agency, reported that Polish publishers are.

arsenic murders

Birmingham, Ala. (AP) — Audrey Marie Hilley, charged with using arsenic to poison her daughter, who survived, and suspected of doing the same to several other relatives, who didn’t, has been missing with several other relatives, who suspected of doing the same to daughter, who survived, and investigators’ growing suspicion behind at the motel was a note.

...Quayle

The only thing Hilley left behind at the motel was a note. Investigators won’t release its contents, but say the scribbled message makes them believe Hilley is living a life where she “changes her personality to fit her surroundings.”

“She can be kind, laughing, considerate and then brutal and hateful,” said the FBI agent who was coordinating the coast-to-coast search for Hilley.

“We believe she is living in a world with make-believe friends and enemies. When she reads this, if it’s the real Marie Hilley, she will probably change her personality when she realizes what she is accused of doing.

The 45-year-old Aniston woman, charged with unlawful flight to avoid prosecution for murder and attempted poisoning, is being hunted coast-to-coast by the FBI and 28 other federal divisions.

The FBI warrant against Hilley stems from a Calhoun County indictment of Oct. 25, 1979, charging her with trying to poison her 20-year-old daughter, Carol Marie Hilley, with arsenic.

On Nov. 16, Hilley disappeared from the suburban motel where she was living while awaiting trial, free on $14,000 bond. By Jan. 11, a Calhoun County grand jury indicted her on murder charges for the 1973 arsenic poisoning of her husband, Frank. She has also been indicted for check fraud.

The FBI agent, who asked not to be identified, has followed several hundred leads since the search began in January, all in vain.

“It’s not likely I’ll arrest Hilley. An agent in another state will most likely arrest her,” he said.

“But if the real Marie Hilley reads this, she will likely change her personality or relocate or get careless and hopefully we’ll find her.”

The agent said that interviews with Hilley’s friends and relatives, whom she hasn’t contacted since disappearing, have led him to believe she may be exhibiting separate personalities.

He said she has used many aliases, among them, Mandy Marie Hilley, Julie Hilley, M.F. Hilley and Margaret Key, the real name of her aunt.

It was about a year ago that Carol Hilley almost died in an Alabama hospital. Her illness went undiagnosed for months until doctors discovered higher than usual amounts of arsenic in her blood.

The diagnosis led forensic experts to exhum the bodies of Frank Hilley, who died in 1973, and Hilley’s mother, Lucille Frasier, who died in 1977.

Death certificates indicated both died of cancer, but pathology reports to doctors discovered higher than usual amounts of arsenic in her blood.

Saint Mary’s builds library

by Maria Brazil
SMC Executive Editor

The groundbreaking ceremony for Saint Mary’s new library will be held tomorrow at 11 a.m. Although the construction has already begun on the $7 million building, the ceremony was scheduled to coincide with the Board of Regents meeting being held this weekend.

President John M. Duggan and Sr. Margaret Michael King, chairman of the Board of Regents, will open the ceremony with a greeting to the college community, the Board, and special friends of the college who attend.

The Most Reverend William E. McNamara, Bishop of Fort Wayne South Bend Diocese, will bless the ground, and the college has already received gifts in excess of $3.25 million.

The old library was built to hold only 80,000 volumes and now overflows with 150,000 books, many of which must be stored in other buildings on the campus. When the new library is completed, plans to convert the old building into a college center.

Evans Woolen Associates are the architects of the new library which will accommodate approximately 250,000 volumes. It will also provide group study rooms and a lounge area with vending machines. The audio-visual department will be expanded and the archives will be moved from Regina hall to the new building.

A 24-hour study area in the library will be connected to Le Mars hall by a walk-through tunnel system.

Sollitt Construction Company is working as construction manager for the project.

On September 24 the College received a check for $3.5 million from the sale of bonds to finance construction. Fundraising efforts are underway to retire the bonds, and the college has already received gifts in excess of $3.25 million.

Van Lines to resume service

Van Lines will resume service after Break on non-home football weekends beginning Friday, October 31, 1980.

gists found enough arsenic in
Hilley's remains to investigate. Arsenic was also found in
Frazier's body, but in amounts below the toxic range. Officials then ordered autopsies on other
relatives.

Carrie Hilley, the fugitive's mother-in-law, was ill for several
weeks before dying last November. Her autopsy report has not
been released, but investigators have given evidence about her
death and that of Frazier to a
Calhoun County grand jury. No
indictments have been returned
from that investigation.

The tests were made only on
relatives who had died since
Carol Hilley's birth. Psychiatrists
think the birth may have touched
off Hilley's behavior.

Wed at age 18, she was having
marital troubles when Carol, her
second child, was born. Psychia-
trists and investigators alike be-
lieve she resented her daughter's
birth, and that her resentment
began surfacing long before they
had evidence of arsenic poison-
ing. As examples, the FBI agent
noted two arson fires at the
Hilley house, one when Frank
Hilley was still alive, the second
when Carol and her grandmother
were in the house alone.

Civic leaders meet to reassure
blacks after murder of children

ATLANTA (AP) - Civic lead-
ergists rallied yesterday in an effort
to calm what the mayor called "a
predominantly black neighbor-
to calm the fears of residents.
Civic leaders meet to reassure
blacks after murder of children

ers of eight black children and
a low-income housing project in
City Day Care Center, located in
a predominantly black neighbor-
hood, was being cleared, a
city official told the group.

Davis' concerns were echoed by
many attending a parents'
meeting Monday night, and by
many others who called a rumor
"I don't know what happen-
ed," said Davis, a resident of
the housing project. "But even so, it happened like they say it
did, too. People don't believe it."

Davis' concerns were echoed by
many attending a parents' meet-
ing Monday night, and by
many others who called a rumor
control number set up by Jack-
son and Public
Safety Commissioner Lee
Brown, who like most of the
city's police hierarchy also is black, mingled in an angry crowd
Monday, assuring residents that
the explosion was an accident
caused by a faulty furnace.

There is nothing at all to indicate that the explosion was the
result of foul play," Brown told the group.

But the statements have drawn
skepticism from many area resid-
ants.

"I don't know what happen-
ed," said Charles Davis, a resid-
ant of the housing project. "But
even so, it happened like they say
it did, too. People don't believe
it."

“Certainly I believe the
explosion was caused by a faulty
furnace. The mayor is right when
he says there was no foul play," said
David, a resident of the housing
project. "But I still think there
was foul play."
ND not a finishing school

Dear Editor,

I would like to pose the following questions to the "tuition paying parent" who criticized Anthony Marquard in the Oct. 8 Observer.

Could it be that Catholic parents are unwilling to take on the responsibility of raising their children to become mature adults? No, I should not generalize. Let me just assert that there are an exceptional few who would prefer to let the institutions form the ideals and values of their offspring.

Perhaps in the good old days, parents were correct in assuming that the private universities they were sending their children to were better labeled as glorified finishing schools; but somehow I rather doubt that. Fortunately, whatever the case was then, it is certainly not the same now.

As one of the many students currently attending ND who has depleted his high school savings (money saved in lieu of buying a car, etc.), worked 70 hour weeks during the summer, juggled a work study job between classes, and will still be paying off loans years after graduation, I would be very upset if I were to learn that ND was nothing more than a finishing school. Yes, I admit the rule exists, who is paying our own tuition. So perhaps you can understand why I became a little annoyed at reading your words. "It is reasonable to assume that... the university has obligations not only to you as a student, but to us, the tuition-paying parents."

I find it sad that there are students who are afraid of "wasting" their parents' money by majoring in what they are interested in. Rather than studying something which will apply to their lives 24 hours a day, they try to please their parents by learning something that will only get them through 40 hours a week. I hope that these students are the exception and not the rule. I know they exist. It is too bad that there are those few wonderful parents who feel that they can use an otherwise generic act (and sometime even sacrifice) such as payment of tuition, as a weapon to control the life of their beloved child.

Perhaps your words would not have upset me if they were not so close to the truth. The administration does cater to the will of the donating alumni and tuition-paying parent before attending to the preference of the student. For example, — Due to the drinking problem, students may not have kids on Green Field; — Tuition bills and grades may be sent to the parents, not to the student, even when the student is paying his own way. — Dining halls will always be a pleasure to eat at on a football Saturday, as food will be almost edible in anticipation of some parents and alumni who might eat there.

I agree that growing up takes time, experience, and it is best accomplished with some guidance. That is why students should be allowed to form their own ideals and values here, instead of having these things dictated to them.

At the University one has an abundance of professors, counselors, and theologians to talk to; however, if one must wait until he enters the "real world" before making these decisions, there may not be the same good, Christian advice around.

As for your irrevocable quote from Ann Landers, I am sorry I missed it, but I do not follow her column. None of my professors have put her on their reading lists.

Daniel Bell

Dear Editor,

With your permission, I read Bill Marquard's "Irish Items" column (Observer, Oct. 8). I will admit that Harry Oliver is not the only columnist. However, the fact that he is an American has no relevance on the football field. Likewise, Obed Arieli and Vlade Janakiebski have talents that are independent of their race or nationality. To make distinctions among players on the basis of national origin is a tasteless display of prejudice (i.e. ignorance). I would like to advise Mr. Marquard to keep his personal bigotries and fantasies out of his otherwise acceptable column.

Donald L. Jordan

Editor's note: I regret that my comments were construed as such. My intent in mentioning Oliver's nationality had nothing to do with slurring those he shared the honor with. It was intended as a commentary on those universities which recruit on the information that they favor minority students for the sake of a winning athletic team.

I was no way indicting Ohio State or Clemson either, just making an editorial comment on the situation.

Bill Marquard

Dear Editor,

I've been thinking recently about the fact that I have nothing left to do but work at the Observer. I have submitted a student's decal for my car. I submitted a written appeal of my violation to the University one has an abundance of professors, counselors, and theologians to talk to; however, if one must wait until he enters the "real world" before making these decisions, there may not be the same good, Christian advice around.

As for your irrevocable quote from Ann Landers, I am sorry I missed it, but I do not follow her column. None of my professors have put her on their reading lists.

No standing and definitely no parking

Dear Editor,

On campus, the policies of Notre Dame have made someone unhappy. I am very upset because of a $50 traffic violation for failing to promptly obtain a student decal for my car. I submitted a written appeal of my violation to the Traffic and Parking Appeals Board. This appeal was quickly turned down.

In a second appeal, I stated my case verbally in front of the Board, and was told I was guilty in the eyes of the Board. I then wrote a check to the Traffic Violation Board for $50. This I have nothing left to do but complain out loud.

The University's policy on registering student cars is that the students must register their cars with the Security Office, pay the $25 fine within five days after bringing the car to campus. If this five day deadline is not met, the student is subject to a $50 no decal violation.

Needless to say, I violated this rule, but I don't want to argue my case further since I have already paid the $25 fine (and also the $25 registration fee). What I do want to question is some of the traffic laws around this place.

First of all, where does anybody get the right to charge fifty dollars for not obtaining a decal on time? Doesn't that seem a little high? It is tied with falsifying or altering information or paying on the registration application as the highest fine a student can receive. If one drives on campus without permission or parks in the wrong lot on a football weekend, the fine is $25. If the decal is "affixed improperly" to a car, the fine is also $25.

Interestingly enough, reckless driving (a combination of two or more violations or endangering life or property while driving) is also $25. Speeding is a mere $10. Some how, these fines strike me as being a little inconsistent.

Now, the above fines apply only to students. The faculty and staff violations are another story. The policy is that any faculty or staff member who haschalked up five citations will receive a $50 fine. The first two citations serve simply as a warning citation.

I don't want to jump to conclusions, but this smacks of a double standard. I don't know why or how this rule came about, but there seems to be plenty of room for skesticism.

Board of Trustees meet today at CCE
By David Sarphie Executive News Editor

The 1980 Fall meeting of the Notre Dame Board of Trustees will convene at 9 a.m. tomorrow morning at the Center for Continuing Education. The regular meeting will be preceded by today's meetings of the seven standing committees. Topics in today's meetings will range from financial reports to new policies concerning faculty pension plans.

The following committees will be meeting this afternoon: the Student Affairs Committee, the Executive Committee, the Academic and Faculty Affairs Committee, the Public Relations, Alumni Affairs and Development Committee, the Academic and Faculty Affairs Committee, the Investment Committee and the Nominating Committee.

The Trustees will have a busy schedule tomorrow. Much of the day will be occupied with reports from the various committees. Dean Emil Hufman will submit a presentation on the Freshman Year of Studies later in the day.

Also on the agenda is a report on the Campaign for Notre Dame, a successful five-year drive to raise $10.1 million for the university. Construction reports concerning the new Stepan Chemistry Building and the two new girls' dorms will follow.

Following lunch for the Trustees, their wives at the new Snite Museum of Art, there will be the dedication of a new professorship in honor of the new chairman of the Theology Department, Fr. Richard McBrien, who will be installed in this new position. The major benefactors of this professorship are Jerome J. Crowley, a trustee, and the O'Brien Corporation.

The day will conclude with Mass and dinner for the Board. McBrien will give an after-dinner speech for the Board.

Riehle takes proposals to Student Affairs
By Tim Jackson Executive News Editor

Buoyed by a 55 percent turnout in Tuesday's successful Student Constitution referendum, Student Body President Paul Riehle goes in front of the Student Affairs Committee of the Board of Trustees this afternoon to request that the "recommendation power" of the Campus Life Council be transferred to his newly created Student Senate.

Riehle, along with Don Murray, will also present several proposals aimed at improving campus social life, and Riehle and Off-Campus Commissioner Mark Kelley will detail suggested changes to improve the off-campus student crime situation.

Although the referendum turnout was only five percent more than the required 66 percent had to vote "yes," and a whopping 96 percent actually did, Riehle was pleased with the results, and claimed that The Observer is "going to work" for the student body this year.

Today, containing the popular "Molarity" comic strip with a vote promotion as well as three separate articles, the turn- out of 80 percent had to be close to 70 percent.

At present, only the CLC has the authority to present proposals to the University which must then be voted upon by the Student Senate - either positively or negatively --, and Riehle will ask the Student Affairs Committee to transfer that authority to the Student Senate. "I honestly don't know what their reaction's going to be," he said yesterday, but adds, "that having a larger turnout than most student government elections "will help us incredibly."

Initial, informal reaction from trustees he has spoken to has been favorable, according to Riehle. Riehle plans to discuss the past four-year history of student government, pointing out its inadequacies, and also date the relationship between the Student Senate and the still exisent CLC. Riehle said he wants to continue to use the CLC as a "sounding board," admitting that it served few other purposes than that.

Along with Don Murray, Riehle will also present several important proposals to improve the social atmosphere on campus. Under the category of "Student Social Facilities," Riehle proposes a modification to the LaFortune Ballroom into a coffeehouse, coffeehouse construction of a new student center building, and a request for matching funds to residence halls for social space improvement.

Riehle and Murray, encourag- ed by Administration reaction to initial proposals, are optimistic about their chances for success today. The proposal to turn the LaFortune Ballroom into a coffeehouse will combine the best qualities of seniors John Amato and Pat Andrews' "New Chatauqua" proposal, a well-conceived plan which met with committee approval last May, along with former Vegetable Buddies proprietor Andrew [continued on page 10]

Committee most directly related to student life...students can make proposals to this committee, which in turn makes recommendations to the University... will determine whether or not Student Senate should have power of...Chairman: Harvard.

Develops and reviews University academic program... recommends new tenure approval procedure at last meeting... was later adopted by Faculty Senate...Chairman: Carney.

Monitors business proceedings of the University...draws up annual University budget... is responsible for recommending amount of yearly tuition increase to general Board, which usually assents...Chairman: Van Gorkin.

Invests University endowment and other funds in its jurisdiction... Has increased ND endowment to one of highest in country...Was at center of investment contro- versy in 1978...decided not to invest in South African-associated corporations...Chairman: Wilmouth.

Oversees programs dealing with public relations, alumni and fund raising...Partly responsible for increasing University endowment...Chairman: Foley.

Nominates new members to fill committee vacancies...General Board then acts on nominations...Holds elections every six years...Chairman: Stephan.

by the Chairman of the Board of Trustees. Fr. Theodore M. Hesburgh chairs the Executive Committee.

Non-academic aspects of student life are the subject of the Student Affairs Committee. The committee, which is headed by John A. Schneider, president of Warner Amex Satellite Entertainment Corporation, maintains communication with student leaders and organizations. Students are appointed to serve as ex-officio members of the committee. Among recent business conducted by the committee was the issue of student social space. The committee recommended to the Board that better use be made of the existing social space.

The Academic and Faculty Affairs Committee deals with the development and review of the academic program, and the direction in which the program is heading. At its May 1 meeting, the committee, chaired by Dr. Thomas P. Carney, president of the Metatech corporation, discussed faculty retirement benefits, fringe benefits for those presently teaching at the University, and a possible procedure for appealing promotion and tenure procedures.

Board history

The Observer Thursday, October 16, 1980

The Observer Thursday, October 16, 1980 - perceived by the student body as University policy-maker. Al­made to coordinate com­munications, it is an undeniable fact that a majority of the students are unaware of the exact nature and function of this power wield­ing structure. In addition, the Board’s practice of operating under closed sessions further contributes to its rather elusive nature.

In 1967, the University’s governmental body, then known as the Association of Trustees, was reorganized into the present Board. At the time, the Associate Board, composed of six priests, was pri­mary concerned with the financial transactions undertaken by the University and had no direct bearing on specific University decision making. During a slow, yet steady, transition period in which the Board moved from a clerical to an over­whelmingly secular body, and the University set up new by-laws and statutes that would guide the Board in many of its decisions.

Two years later, student government representatives, frustrated by the ineffectiveness of its governmental structure, confronted the Board with its proposal for a Student Life Council which, they argued, would break down communication barriers between the students and the Administration. The Board unanimously approved the proposal. The following year, in the first election session, the Board debated and approved the institution of partitaites on cam­pus.

Yes finds rock-n-roll

After last year's disastrous Notre Dame concert, the British classic rock quintet Yes had a lot to make up for. Special guests included the King's Singers, the loss of vocal leadist Jon Anderson and consummate keyboard wizard Rick Wakeman, the latter two replaced by the talented group irreversibly. How could the New Wave replacements, Trevor Horn and Tim Neely, fill the shoes of such rock greats?

After the concert, it was apparent that the new additions had no intention of taking anything for granted. None of the fifteen songs performed were either from the new LP Drama, or as yet unrecorded material. Obviously, the new Yes is precisely that, a new band, and Trevor Horn and Tim Neely can't convince their league of fans that this was a better group. For the most part, the concert was very convincing — the new Yes is different, if not better.

For openers, new lead vocalist Horn at least makes an attempt to relate to his audience. Anderson used to simply perch himself modestly and perform, seemingly oblivious to audience response, but Horn likes to introduce songs, numbers, and simply have a good time. His relaxed manner and friendly smile gave one the impression that the mind was in the arena, not intruding intrinsically.

Freshman keyboardist Downes scurried from synthesizer to piano to clavinet, and even married a squirrel collecting nuts for the winter with a countenance focused with concentration and speed and dexterity of Wakeman, his predecessor. He has already demonstrated a true showman. Besides maintaining an attractive physique, which female members of the audience obviously enjoyed, Downes often displayed a freewheeling attitude and encouraged the crowd's clapping response. Wakeman, like Anderson, simply performed his part in the show, something he sometimes limited his patience with the audience. Downes, however, is a true rock-n-roll star. His charges on audience response and participation, and is unfriendly to the audience.

This more accessible, relaxed, rock-n-roll attitude is the new strength of Yes. The band's instrumentation has sometimes limited his patience with the audience. Downes, however, is a true rock-n-roll star. His charges on audience response and participation, and is unfriendly to the audience.

This more accessible, relaxed, rock-n-roll attitude is the new strength of Yes. The band's instrumentation has sometimes limited his patience with the audience. Downes, however, is a true rock-n-roll star. His charges on audience response and participation, and is unfriendly to the audience.

Campus

- 11:45 a.m. - Suron show, memorial library lounge, all faculty and staff invited.
- 2:45 p.m. - off campus students bring goods for storage to room c-2, second floor Infonome.
- 7 p.m. - lecture, rich harrow, author of sports violence and the law, memorial library aud. sponsored law school and student government.
- 7:30 p.m. - film, "the african queen," eng. aud.
- 7:30 p.m. - movie, "olympia," washington hall.
- 9 p.m. - mass, "high plains drifters."

Gourmet Club plans season

Two complaints voiced throughout the Notre Dame student body involve the inadequacies of the dining halls and the social environment. In an attempt to remedy a portion of this problem, some students have become interested in organizing a Gourmet Club. Last semester, the group was formed on a limited experimental basis and received a very positive response from its roughly 60 charter members.

The structure of the Gourmet Club centers on distinct dinner groups of six to eight men or women, each of which is coordinated by a head chef for that group. The main functions of the head chef are to assemble six to eight interested friends, to communicate with head chefs of other dinner groups, and to be responsible for organizing the best meals of his or her respective group.

In the past, imaginative meals have included French dinners by candlelight, champagne brunches, and various ethnic meals. Tentatively, the Gourmet Club intends to begin its cooking season the first weekend after fall break. Anyone interested in getting together a dinner group should attend the brief organizational meeting at 6:30 p.m. tonight, in LaFortune's Little Theater.

When the number of individual groups has been specifically determined, a dinner schedule will be distributed to each of the Head Chefs.

Anyone who would like to meet new people around a home-cooked meal is welcome. If you have any questions or cannot attend the meeting, contact Kathy Welsh, 135 Breen-Phillips Hall, #1267.

**Belles ringing anew; head for state tourney**

by Kelly Sullivan  
Women’s Sports Editor

Ginger Oakman will lead her tennis team into the Division III state tournament Saturday morning with a different chore on hand. Her club must erase from their minds the frustrations of this past season before they hope to make a successful bid for first place in the Anderson, Ind., event. The Saint Mary’s squad sports anameless 2-3 ledger in dual match competition, but Oakman professes that the record does not tell the entire story. “Things just have not gone our way,” Oakman explains. “We’ve been on the brink of victory in so many matches...she shrugs. “Our record is just not indicative of our talent.”

The hard luck that has befallen the Belles this season can be traced to a depleted line-up. Last year’s number two singles player, Maureen Fitzgerald, is studying abroad this year. And Karen Smith, who played at third singles, was forced to give up competition this fall due to a conflict with classes.

Injuries have played havoc with the team roster as well, with Oakman constantly having to shuffle her line-up from match to match. The biggest problem for the Belles has been the injury sustained by number three player Carmel Maenza, who has suffered from strained knee cartilage all year.

Despite these obstacles, St. Mary’s boasts a sound team that has reconnected with Division I and II powers all season, and Oakman is a long way from throwing in the towel. “We can really take state,” she says. “The team is ready, they’ve been practicing very hard this week, and the team is just confident as I was last year. I’m not really confident anywhere, you want to do well. But this season extra special for me.”

“I hope to win, though I’m not as confident as I was last year. I’m not really at the top of my game, and most of my tough opponents seem to be playing really well right now.” Sandy Gyorgi of Depauw is a top challenger to Coash’s title. “She’s always been competitive, I don’t like to lose. Tennis is a good way for me to express my competitive spirit.”

“Don’t expect to hear Coash’s name among the finalists at Forest Hills or Wimbledon. I don’t want to be another Chris Evert. I don’t want to put the time and effort into playing because I know that is not the kind of life I would want to lead. I would like to play as long as I can, and teach some time.”

Regardless of whether any of us ever hear of Patsy Coash again or not, one thing is certain: St. Mary’s will be losing its best tennis player, and the Notre Dame sports world, one of its greatest champions.

Irish dump Belles; aim for state

by Dave Wilson

The Fighting Irish Field hockey squad defeated St. Mary's College last Friday by a score of 1-0. Notre Dame's domination of the rivalry with neighboring St. Mary's, at the record versus the Belles was boosted to 6-2.

“Like I've said before, they've been a tough fight,” said Notre Dame's rookie coach, “and I know they were up for the game. I think we were ready for them, though.”

Notre Dame's strong defense held off many scoring attempts by St. Mary's late in the game, to preserve the one-goal victory.

A injury to Irish sweeper Jeanne Grauso in the game left the team without her services in Monday's game against Valparaso, which the Crusaders won 3-2. Sophomore Donna Skokowski helped out in that one, scoring a goal and keeping Notre Dame even throughout the first half. Valparaso scored early in the second half however, and hung on to take the victory.

Had Notre Dame won that game, the Irish would have clinched a first-round bye in the state tourney next month. The loss moved the overall Irish record to 8-5 for the year.

The Irish take on Marion tomorrow on Cartier Field, in their last home game of the season.

“Marion will be another big challenge,” said Galen, “but we've had the time this week for three strong practices, so we're looking at a good, even game.”

Notre Dame plays the last six regular-season games on the road, including a match against St. Louis, who is currently ranked seventh in the nation.

continued from page 10

Irish Rugby Club has reached the midpoint of its fall season, and carries a 2-2 record fast with it over October break. Notre Dame will face the Long Island Rugby Club and Boston College next week in an attempt to improve on an already encouraging season.

The club was aided a great deal in recent weeks by an honest-to-good Irish try. The coach of a club in Ireland took time out to work with the Notre Dame club, and Coach Rich Harper has noticed great improvement since the unexpected help.

“We have improved tremendously thanks to his help, and I look for even more progress through the remaining games,” says Harper.

The Irish “A” squad dropped a 16-6 decision to Marquette last weekend, while the “B” and “C” squads tied 6-6 in their respective games which were called due to darkness. Dan Pearl and Brian Bogenschutz of Purdue.

The Irish try to change the face of their play and move forward after a tough loss to Marquette.

The Irish Rugby Club has reached the midpoint of its fall season, and carries a 2-2 record fast with it over October break. Notre Dame will face the Long Island Rugby Club and Boston College next week in an attempt to improve on an already encouraging season.

The club was aided a great deal in recent weeks by an honest-to-good Irish try. The coach of a club in Ireland took time out to work with the Notre Dame club, and Coach Rich Harper has noticed great improvement since the unexpected help.

“We have improved tremendously thanks to his help, and I look for even more progress through the remaining games,” says Harper.

The Irish “A” squad dropped a 16-6 decision to Marquette last weekend, while the “B” and “C” squads tied 6-6 in their respective games which were called due to darkness. Dan Pearl and Brian Bogenschutz of Purdue.

The Irish try to change the face of their play and move forward after a tough loss to Marquette.

Ruggers to head East for break

by Armand Kowalp

The Irish Rugby Club has reached the midpoint of its fall season, and carries a 2-2 record fast with it over October break. Notre Dame will face the Long Island Rugby Club and Boston College next week in an attempt to improve on an already encouraging season.

The club was aided a great deal in recent weeks by an honest-to-good Irish try. The coach of a club in Ireland took time out to work with the Notre Dame club, and Coach Rich Harper has noticed great improvement since the unexpected help.

“We have improved tremendously thanks to his help, and I look for even more progress through the remaining games,” says Harper.

The Irish “A” squad dropped a 16-6 decision to Marquette last weekend, while the “B” and “C” squads tied 6-6 in their respective games which were called due to darkness. Dan Pearl and Brian Bogenschutz of Purdue.

The Irish try to change the face of their play and move forward after a tough loss to Marquette.
The Sailing Club finished third overall last weekend at the Miami Co-ed Regatta. Jerry Daus finished first in the seven-man fleet while Mike Torniti retired to second place in the women's division. Jane Brown, Carol Silva, Marquerita Cintra and Jean Rice will race in an all-woman regatta at Ohio Wesleyan this weekend.

Season hockey tickets may be picked up at the second floor ticket window in the ACC between 8 a.m. and 4 p.m. For more information, call 8504.

The pep rally for the Notre Dame-Army football game has been canceled, Jim Magers, chairman of the pep rally committee, announced yesterday. The beginning of October break was cited as the reason for the decision.

[continued from page 16]

In the backcourt, senior Tracy Jackson and sophomore John Paxson will be faced with the task of replacing Bill Hanzlik and Rich Branning, who both left after last year's starting five. Paxson will be the quarterback, the guard that makes things click. If he does not match, however, his role will be limited just to watching Digger and shouting little numbers that I've never heard. Both Jackson and Paxson can shoot, in fact, will have to shoot, if there is to be any balance in the Irish backcourt.

Because we all know Tracy Jackson can shoot—and will shoot—and will have to shoot, because this team wins ballgames if it doesn't score points. Senior Stan Wilcox will contribute as will sophomore Mike Mitchell—if, that is, the orthotrophic examination Mitchell will undergo today on his left knee does not indicate damage that would sideline the sharpshooter for any length of time.

Two other freshmen, Tom Silgy and Barry Conner, will be listed as swingmen—a fancy term which means they can play forward or guard. Walk-ons Kevin Hawkins and Mark Kelly will be available to provide depth in practice.

Ok, about a key to the season? How about Kelly Tripucka? A clever sportswriter (No, it wasn't Craig Chil) once told me that the difference between a good team and a great team was the team's coach. “For a good team to win a championship,” he said, “it must return to the top. Just like a pitcher of sweet milk.”

A quick comparison between Tripucka's strengths and his weaknesses suggests a very good indication that the adage: “As Tripucka goes, so goes the Irish,” may have some credence in 1980.

Last season, Tripucka averaged 21.8 points over the last 14 games he played. The Irish won 13 of them, losing only to North Carolina State, Marquette and Missouri. Because of an injury, he missed four games—four Maryland, four Iowa, four Navy. The team struggled with the Terrapins, lost to the Explorers, and counted two losses to Lehigh just like the fans (the ones, that is, that bothered to show up). In the last 14 games, Tripucka shot 61 percent from the field. He scored 29 points against South Carolina and, in what was probably one of the finest performances ever in Notre Dame history, he tallied 28 against undefeated DePaul in a game the Irish won in double overtime. Tripucka should have won the most valuable player award in that game, however the Chicago-area media people couldn't see past Mark Aguirre and they voted in a bloc that insured the DePaul sophomore's victory.

Nevertheless, it seems clear that if Tripucka is on Notre Dame has almost unlimited potential.

However, Tripucka, in spite of the evidence, maintains that only a team effort will give the Irish the national cage championship that has eluded them so many times in recent years.

“We have to play good, solid team defense and dominate the boards,” he says. “We have to have a positive attitude of confidence and believe in ourselves and one another as a team. That's the only way we can win.”

And Tripucka is quick to point out that winning a national championship is the goal of every player on this team.

“A lot of luck is involved and we have to be prepared to deal with whatever circumstances come up,” he explains. “Injuries, momentum, a tough schedule. . . Looking at the whole thing realistically you can see that it can happen.”

“But we're ready. If we don't do it this year it may be a while before the players have that experience and talent to challenge again. The seniors—Tracy, Gilbert, Orlando, Stan and I—know this is our time.”

“We're not going to waste it.”

P.S. More help was needed in numbers.

The Notre Dame cross-country team will enter its third competitive meet tomorrow un­well, but we simply haven’t scored the Notre Dame goals.

Coach Joe Piane. “I think that we would say that we haven’t run as well as we should,” says Head Coach Joe Piane. “I think that we have trained hard and prepared well, but we simply haven’t produced in competition.”

The Big State Meet will pro­vide the Irish with an opportu­nity to break out of their early­season slump. The meet is to be run on the Burke Memorial Golf Course tomorrow afternoon at 4pm. Some 22 schools will enter teams in the meet, all from Indiana. “Actually the meet should be called the Big State-Little State,” remarks Piane. “The four teams that we will be competing against are Indiana, Indiana State, Purdue, and Ball State. Traditionally the meet has come down to a duel between us and Indiana. This year, though, Purdue and Indiana State should provide a challenge.”

There will only be one race, but scoring will be different according to size and NCAA qualification. First there is the overall champion, usually one of the five larger schools. From there, championships will be decided in Division I, II and Division III [continued on page 14]

Harriers host Big State

In my four-plus years at Notre Dame, I have learned to gauge the passage of time, not by the calendar, but by which team is practicing where for the first time.

And basketball season starts today. Trust, the first game will not be played until November 20, but for 13 players, four coaches, three statisticians and a couple of God help him—basketball season starts today.

Yet, if you happen to saunter past the main door in the ACC, you probably won’t see too much that looks like basketball at this point. Digger uses these first few days to get his players into shape. Lots of running, drills, more running, a few drills, then some running... Boring. Very boring. But necessary.

Very necessary.

“This is where we start,” Digger points out. “Once we get back into the swing of things—probably after fall break—we can get started on strategy.”

Strategy. Therein lies the one question I have about this basketball team. What strategy will Digger employ to most effectively use the abundance of blue and gold-clad talent that will occupy the home team bench at the ACC? And of course, without question, the talent is there.

“Talent-wise we’re as good as any team in the country,” emphasizes Kelly Tripucka. “We’ve got experience, great depth and basically just a lot of guys who know how to play the game.”

Tripucka key

Basketball’s starting already!!!

PHILADELPHIA (AP) Mike Schmidt blasted his way out of a postseason slump with a tremendous eighth-inning, double-taking Bake McBride, hero of the Tuesday's victory. But the Phil­lies, who saved 33 games during the regular season, weren't able to score after all.

The victory gave the Phillies 2-lead in this of seven-game series.

In the fifth inning, Kansas City southpaw Larry Gura was halfway to Series history. Only one left.

But, hey, what have you done for us lately?

Gura had been perfect through the first inning, but gave up his sixth double of the night behind a double to deep short and barely leg­ged it out for a single, the scoreboard reading 1-0 with the Royals leading.

All of this is nothing new in Philadelphia, though. These are the same people who boomed former manager Danny O'zark every time he set foot on the artificial turf of Veterans' Stadium.

The fans of Philadelphia, and I use the term loosely, don’t deserve a winner. They should have taken the Kansas City Astros, who spurred their undermanned team on against the Phils, and gave them a team a rousing ovation when they finally lost the Championship Series.

To steal a line from Johnny Carson — May a herd of Texas Harriers come and ruin our basketball season. That’s all you deserve.

Steve Barry [24] and his Irish teammates improved their season record to an impressive 15-4 by knocking off rivals in a thrilling finish. The fans of Philadelphia were thrilled at the prospect of cheering their hearts out for the Phillies.

Wrong again, astroturf.

In one of the most classless, tasteless and obnoxious scenes in sports history, the fans of Philadelphia booed the Phillies when they fell behind the Kansas City Royals 4-0 in the third inning of Game One Tuesday night.

Of course, the Phillies embarrassed the fans by storming back to win the game 7-6, but by then, all the boos were forgiven and forgotten, and the front-running Phillies were all on their feet, screaming in ecstasy.

Not only did the fans of Philadelphia prove themselves to be the scum of the earth, but they also showed their unabridged stupidity, pinned proudly on their chests.

They would have thought that the population of Philadelphia, which hadn't seen the city of Brotherly Love come through the clutch and united sports fans everywhere.

Against the Phillies.

You would think that the population of Philadelphia, which hadn’t seen the Irish in a World Series since 1950, and hadn’t tasted victory in a single World Series game since every team was undefeated, would have been more than underdog Houston Astros to love.

But whoever said that the city of Philadelphia was good for nothing will have to take it back. Just when it appeared that we’d have to endure a villain-less World Series, the City of Brotherly Love came through the clutch and united sports fans everywhere.

PHILADELPHIA (AP) Pete Rose got Unser over to Veterans Stadium.

Bob Boone opened the eighth by coaxing a walk from Quisen­erry, the sub, saving enough to score two runs, which delivered Unser to victory. But the Phillies were still behind.

Unser battered for Lonnie Smith and easily collected a vicious double up the alley in left-center field. Boom, running on a banged-up leg, circled the bases, scoring the tying run.

The victory gave the Phillies 2-lead in this of seven-game series.

In the fifth inning, Kansas City southpaw Larry Gura was halfway to Series history. Only one left.

But, hey, what have you done for us lately?

Gura had been perfect through the first inning, but gave up his sixth double of the night behind a double to deep short and barely leg­ged it out for a single, the scoreboard reading 1-0 with the Royals leading.
