Students hold election  

By Earl Rex

There were no clear winners in the five district Student Senate elections held yesterday. As a result, there will be run-offs between the top two vote-getters in each district on Thursday. The on-campus turnout was 44 percent but the off-campus turnout was 2.6 percent according to Tom Kogel, OBUD election chairman. Only thirty off-campus students voted.

OBUD director Tom Phillips noted that the turnout was slightly lower than the 30 percent turnout usually seen in campus-wide elections. "The candidates did very little actual campaigning," said Phillips. No votes from Villa Angela were counted in the election. "Villa Angela's ballot box was not returned within the time limit so all votes from there were invalidated" said Phillips. "Villa Angela does not have a J-Board chairman so the hall president got the ballot box," said Phillips.

When informed that no Villa Angela votes were counted, hall resident Beth Holloway said, "I don't think I like it too much."

Although election chairman Tom Kogel said, "The margin of victory means that it was virtually impossible that it affected results in that district," Villa Angela has 14 votes and the difference between second and third places in District 4 was only 15 votes.

Villa Angela president Theresa Ross said, "He did not give us any reason on deadlines or anything. He did it in the past either. In past elections he did give us extensions on time because most of our people aren't home till 7:00 or 8:00 p.m."

"I missed connections with the girl who was running the election with me. When I finally met her and got the box I went to the OBUD office and brought it in. This was about 10:15 p.m." Ross said.

"I was really shocked when he (Phillis) said they were invalid. When I told him that there were only 11 votes, he said it didn't matter because if there were 15 it would make a difference. He then flipped through the ballots and said that they were spread out between the candidates anyway. I feel really bad but I would have felt the same way.

Parks in danger

Environmentalists protest strip mines

By George Tibbet

The view from this overlook at the southern tip of Bryce Canyon National Park is spectacular - peach and white rock formations, long ago a new county road was a combined length of 256 miles that the two-ply plant would be the first major coal plant in the park and often much of southern Utah and the Grand Canyon Plateau, vijetas hundreds of miles distant.

By the end of the 20th century, if developers have their way, the view may include something else - the cut in the hills that would be the combined length of 256 miles distant. The $4 billion AWV system will be a megawatt of electricity, 90 percent of it bound for California. Two shifty lines with a combined length of 256 miles would pipe coal to the 2000-megawatt Harry Allen plant northeast of Las Vegas and to a 300-megawatt Warner Valley plant near St. George, Utah. Project participants are Southern California Edison, Pacific Gas & Electric, Nevada Power Co. and the City of St. George. Utah International Inc. would mine the coal.

Congress partnership

Reagan visits the Hill

WASHINGTON (AP) - President-elect Reagan went looking for friends yesterday on Capitol Hill and came away with a pledge of cooperation from House and Senate leaders of both parties.

Visiting the Capitol for the first time since his election, Reagan expressed his intent to "forge a new partnership between the White House and Congress" and told leaders of the House and Senate that he would work closely with them.

He told leaders that one of his initial legislative priorities would be a 30 percent individual tax cut over the next three years. "Travelling to the Capitol on a cloudy and wintry morning, Reagan moved through a series of meetings with congressional leaders, spoke briefly with reporters in the cloakroom and steadfastly refused to comment on reports about the makeup of his administration.

He found congressional leaders in general agreement with his proposal to place a high priority on a tax cut after his January 20 inauguration.

Republican Howard Baker, who will become the Senate Majority Leader in January, and Democrat Robert Byrd, the current leader, agreed that a tax strip would be one of the first pieces of business for the new Congress.

After another cross-country flight with Vice President-elect George Bush to make his various courtesy calls, Reagan promised the lawmakers that "we're not going to just throw up surprises" to Capitol Hill. "We aren't going to accomplish anything unless we cooperate with the House and the Senate," Reagan said following amicable meetings with every major figure in both House and Senate.

Afterwards, House Speaker Thomas P. O'Neill, D-Mass., said he promised Reagan that he would withhold criticism of the new president for six months "so we can turn the economy around and make the country work."

Baker said Reagan intends to forge a new partnership with Congress as soon as he is inaugurated.

"It is clear to me he understands the nature of the two-party system and the relationship of the White House to Congress, particularly President Carter had during his four years in office, Reagan promised the lawmakers that "we're not going to just throw up surprises" to Capitol Hill."

But environmentalists say the system would be a disaster for two national parks - Bryce and Zion - and for water-poor ranchers in Kane County, south of Bryce. The $4 billion AWV system would provide the coal. Development vs. scenery is becoming a familiar battle in southern Utah, where not so long ago a new county road was the major project.

A pay as you go program will be part of an all-out operation scheduled by the station's largest public television station. The station, faced with a decline in federal support, is considering selling its programs through cassettes, cable, video discs and over-the-air subscriptions. The financial plan is part of a sales structure for New York's WNET, one of public TV's major producing stations. John Jay Hilkin, president of the Channel 13 station, said, "Now we believe we must forcefully move toward a more realistic model for funding, and that is a market-based model." — AP

A Korean Airliner caught fire on landing with 217 people aboard yesterday, and airport authorities said scores of passengers were believed dead. The Boeing 747 was arriving at Seoul's K im po International Airport from Anchorage, Alaska, and caught fire as it touched down on the runway, witnesses said. They said the fire was brought under control in about 40 minutes but nearly destroyed the aircraft.

Korean Airlines Flight 15 originated in Los Angeles, airport officials said. It landed here at about 5:15 p.m. (EST) yesterday. The plane from Anchorage, Alaska, and caught fire as it touched down on the runway. — AP

News Briefs

Some Memoriala requiring reflection:

Twelve years ago, at the height of the Vietnam War, the Notre Dame chapter of Students for Democratic Society (SDS) staged a three-day sit-in against Dow Chemical and CIA recruiters. The recruits were on campus in conjunction with the Placement Bureau.

The students, banding together, blocked the outside door of the Placement Office, literally holding a CIA interviewer hostage for more than three hours. The students argued with administrators about the legitimacy of a Catholic university condoning war by permitting organizations like Dow (a leading manufacturer of the CIA to recruit on campus.

AndrC an internal campus rage was staged between student activists and administrators. Editorialists submitted by students and faculty flooded the pages of The Observer and praised the initiative taken by the SDS. For three days, the war continued and eventually the recruiters retreated. It was a bit of an exaggeration, perhaps, but, nonetheless, the students tried, took a stand, and succeeded.

Times are definitely changing, for there are no "causes" on which students are willing to take a stand. No one can dispute that this country is plagued by many problems — energy, unemployment, inflation, some of which seem irreparable. But the simple fact is that there is no one cause that students are willing to undertake.

Forget national problems for a minute. Take a look at Notre Dame's problems — everything from on-campus crime to the Board of Trustees saying "no go" with the student senate, to the zero social opportunities on campus. Could these be causes? Or are they just minor irritations that one must endure as a Notre Dame student?

Don't get me wrong. Notre Dame, in the '60s, was comprised of a different breed. Students were faced with the moral questions of a war that they did not understand, and they unified. They made the administration, fellow students and even themselves aware of the fact that they were willing to assume responsibility and take a stand on an issue.

So where does that leave Notre Dame in the '80s? From present indications, it appears that students are content to accept the status quo here. Some students are just getting more and more out of school up to a month at a time, is the first case of a Notre Dame student.

The Observer

Biology professor Morton S. Fuchs has been named chairman of the Notre Dame Department of Microbiology by Prof. Timothy O'Meara, provost. His appointment is effective Sept. 1. Fuchs, upon the retirement of the current chairman, Prof. Morris Pollard, Pollard will continue as director of Lobob Laboratory, the University's pioneering institute for germfree animal research, which he has headed since 1961. In making the announcement, O'Meara noted that the University plans to develop molecular biology as a new focus in the microbiology department in order to stay abreast of developments in modern biology. The new chairman's undergraduate training was in microbiology at Michigan State University. Undergraduate, where he also earned a master's degree in zoology and a doctorate in biochemistry. He also studied genetics for three years at the University of Wisconsin-Madison. Since joining the Notre Dame faculty in 1966, Fuchs' research was focused on studies of insect hormones. — The Observer

Truant officers are tracking down parents, not students in Fort Wayne. The city is cracking down on parents whose children are frequently absent from their classrooms. Officials say the arrest of a mother of three, whose children were out of school up to a month at a time, is the first case of applying a more serious penalty than a visit by the school attendance officer. Margaret Geiger, 48, was jailed briefly in June for failing to send her children to school. She has been charged with failure to secure an interview. Off-campus students are content to accept the status quo here. Some students have already been caught in the process of cutting classes.

President-elect builds cabinet

WASHINGTON (AP) — A list of possible appointees to the Reagan Cabinet has been narrowed down to five candidates for each post and is being flown to Washington for President-elect Ronald Reagan's consideration, transition officials said yesterday.

One of the first names to emerge as a promising contender for secretary of defense was Sen. John Tower, R.Texas, who is "all but certain" to get the post, according to one congressional source.

Reagan told reporters he didn't know whether he would pick a conservative Texan, who is in line to take over as chairman of the Senate Armed Services Committee if he remains in Congress after the Republicans take control of the upper house in January.

But the source, who requested anonymity, said Tower "has been made a promise" by the incoming administration and has been officially informing his staff.

Edwin Meese III, director of the Reagan transition team and one of two men already named to key jobs on the new White House staff, said a panel of the president-elect's closest advisers had completed work Monday evening in Los Angeles on a list of possible Cabinet appointees and was matching a copy to Washington for Reagan's consideration.

"So we'll be looking at it later in the week," Meese said.

The list, said to include three to five names for each Cabinet post, was drawn up by a group of long-time Reagan friends and advisers, including at least two former Cabinet secretaries and several wealthy Western businessmen expected to serve in an unofficial "kitchen" cabinet.

Some of those who attended the meeting in Los Angeles at the downtown law offices of Reagan's personal attorney, William French Smith, are believed to be Cabinet candidates themselves.

Smith has been mentioned for attorney general, and former Treasury Secretary William E. Simon could return to the Cabinet in the same position he held under President Gerald R. Ford. Simon also has been mentioned for secretary of state or energy.

William Casey, Reagan's campaign chairman and a senior member of the group that drew up the names, has often been listed by Reagan watchers as one of those in line for a Cabinet post.

Tower denied a published report he had been offered the Pentagon, but Anne Armstrong, a Texan who shares the chairmanship of the transition executive committee with Casey, said the Texas senator "is certainly under consideration."

White collar crime siphons billions

by Eileen Murphy

Addressing white-collar crime, Arthur Del Negro, director of the Economic Crime Project, spoke last night to a small but enthusiastic group of Saint Mary's Students — on the problem sentencing white-collar criminals.

Del Negro and his office aid prosecutors in the investigation and prosecution of economic (white-collar) crimes.

Del Negro defined economic crime as "non-violent illegal acts which siphon off funds through simple or sophisticated means for personal use."

"Economic crimes account for an estimated $44 billion in losses annually — more than ten times the estimated cost of street crime," he said more than 10 times the estimated annual cost of street crime." He said the crimes are difficult to control and frustrating to punish.

Del Negro cited the case of Jerry Schneider, the UCLA senior who masterminded a $1.7 million dollar embezzlement scheme from Pacific Telephone. Schneider manipulated computer inventories. As punishment for his crime Schneider served only two days in jail.

Throughout the lecture, Negro expressed his opinions. "The criminal justice system is failing, but it is not just the fault of the justice system; it is a societal problem," he said.

He stressed the enforcement problems, which he perceived as inherent. Judges must balance the rights of the defendants with the rights of the victim and society, according to Negro.

Del Negro expressed concluded by saying future expertise must be developed in this specialized area to increase the investigation and just punishment of white-collar crime.

Prof. Brown displays work

David Brown, painter and Professor of Art from Saint Cloud State University, will give a slide presentation of his painting Thursday, Nov. 20 at 7:30 p.m. in the Architecture Auditorium.

The Juggler seeks copy

By David Sarphie

Staff Reporter

The Juggler, Notre Dame's literary magazine, is seeking creative writing from the undergraduate student body.

Any literature — poetry, fiction, critical essays — will be reviewed for publication, according to editor Larry Siem.

"Any students interested in seeing their writing published should definitely consider The Juggler," Siem said.

He noted that the publication has traditionally been dominated by fictional literature and poetry, but that this year more emphasis will be placed on the essay section.

Interested students must submit their pieces by Tuesday, November 25. The first edition will be published in late January or early February, according to Siem.

Power Project was to have mined coal for California utilities on the Kaiparowits Plateau, about 45 miles east of the Alton fields. It was scrapped in 1976, but a new mine has been proposed for the plateau - again to provide coal for California and for export to Japan.

The Bureau of Land Management recently issued its final environmental impact statement on the A&WV project, recommending against the Warner Valley plant on grounds its smoke would damage air quality and reduce visibility at Zion National Park, about 35 miles northeast.

The Environmental Protection Agency earlier made a similar judgment and separately recommended that the federal Office of Surface Mining declare the Alton fields unsuitable for mining because mines would raise noise levels at Bryce Canyon and spoil the view.

Late this year or in early 1981, the interior secretary is to rule on the A&WV's permit application.

"We will pursue the application until we get the permit," says St. George utilities director Roger McArthur. "In a nutshell, we're going to pursue until we conquer."

But victory might not come easily.

Ranchers near the mine fear the slurry line is a 3 billion-gallon annual threat will drain their fields. "Water is pretty scarce," says Caroline Lippincott, a rancher in Kane County's water for fields. "When I drive through Las Vegas and see all those lights, I think, 'We're going to export all our water for this?'"

A&WV backers say there's a need for power. Nevertheless, the staff of the California Public-Utilities Commission has recommended the state's utilities not participate in the Warner Valley plant, saying the Allen plant's output alone would meet the state's needs. One staff recommended scrapping Warner Valley and fueling the Allen facility with central Utah coal bought in by rail.

McArthur says that won't help St. George, whose 14,000 pop­ulation is expected to double every decade through the end of the century. He says Warner Valley is essential because the city has only interim agreements to buy power from other utilities.

John Ferrell, Utah Interna­tional's Alton project manager, disputes EPA claims that blasting and mining could boost noise levels at Bryce Canyon 32 times and reduce visibility up to 25 percent. He says EPA tests were poorly conducted and do not duplicate actual operations.

Most of the noise would be out of view from Bryce, he says, with mining visible from Yovimpa Point for about five years, beginning in 2014, after which the land would be reclaimed.

But Bryce Superintendent Bob Benton doubts that a park be calls "one of the United State's diamonds" can co-exist with mining.

During the noise tests, "We got complaints from people who said 'it's too loud!'' Benton says. "You can see a pickup truck down in the Alton area from Yovimpa Point," he says. "It's a bulldozer going to look like?"

The American Cancer Society is offering an invitation to all members of the NDSMC Community to attend a "rally" against smoking. The purpose of the rally is to stimulate smokers to give up cigarettes. This effort will be a step against cancer; a disease which can be beaten! The demon­stration rally will be held on Thursday, Nov. 20 from 4-5 p.m. in the downtown mall area of South Bend. Everyone is encour­aged to think up anti-smoking messages and to demonstrate in an orderly fashion.

Coping with Notre Dame and the ‘Real World’

Tim Sullivan

Wednesday, November 19, 1980 — page 6

Each Sunday night/Monday morning, dozens of "job-throuts" crash stop the unmercifully cold and unyielding linoleum of the Administration Building's second floor. Dragging blankets, books, pillows, and hopes behind them, they die-hard Dowen sleep fitfully in outhays rows by the Presbyterian Business Desk. Unfortunately, they wouldn't have another chance to register for job interviews in the unemployment line. The year was coming to an end.

While this drive for fiscal independence seems to blur many other benefits of earning a college degree, the requirements for graduation are the same for those money-mongering capitalists among us to confront theology, philosophy, literature, science, and other "impractical" intellectual areas. The Notre Dame, Mema, in the final analysis, produces moderately rounded, educated individuals who can contribute to society.

But let's look at Notre Dame like it really is for a few moments. After one peep away the rhetoric about Catholic tradition, intellectual enlightenment, spiritual wholeness, academic excellence and athletic balance, the omnipresent core underneath every facet of the Notre Dame experience is Money.

For Notre Dame students, the practical necessity of establishing an income-producing situation (i.e., a job) evolves into a central goal, if not the solitary reason, which motivates them toward graduation and a degree. A Notre Dame degree is for most the equivalent to material success, security, and prosperity. The diploma becomes the key to the locked door of the employed world, but more important, to the comfortably employed as well. Practically speaking, a Notre Dame Degree equals Money.

And, what's wrong, is wrong with that? Money, in itself, is not an evil. In addition, the strong desire for material security and comfort, which requires money, is very common and understandable. However, this need for monetary peace of mind is not exclusive to our student body. Indeed, money guides every group in contact with us. Duc. Though the University's academic, athletic, and spiritual heritage adds to the locked door of the employed world, but more important, to the comfortably employed as well. Practically speaking, a Notre Dame Degree equals Money.

Once this is understood, every administrative policy, student opinion, and university event becomes comprehensible. Viewing Notre Dame as an efficient money-making machine may seem like a cynical model for analyzing the Western American Catholic university, but in practice, it helps explain much about Du Lac.

For example, our Student Government has for the past three years unsuccessfully attempted to soften an administrative ban on kegs on campus. The proposals, all well-written and well-presented, have been processed through the proper channels numerous times, and every meeting defeat at higher administrative levels. The reason, despite paternalistic concerns expressed by the Office of Student Affairs about alcohol abuse on campus, is simply because the University stands to lose a considerable amount of money if such a liberal keg policy is adopted.

It works like this. Court cases in Indiana regarding the serving of alcohol to minors have found owners of the establishments concerned to be financially liable if an accident involving the minor occurs. The administration correctly interprets this rule as holding the University liable for any accident which may occur to a minor who is served alcohol here. As a result, the privilege of drinking is discouraged here. Given the risk of a large lawsuit should any terrible accident occur, the student body is fortunate they are allowed to drink at all. The bottom line is, therefore, that all keg proposals are doomed to dismissal.

Another example can be found in Student apathy. Student Government has tried to organize student protests about such issues as admissions, grades, and housing. Getting a job evolves into a central goal, if not the solitary reason, which motivates them toward graduation and a degree. A Notre Dame degree is for most the equivalent to material success, security, and prosperity. The diploma brings all contribute to Notre Dame's uniqueness, they do not control events in our community. Realistically, the primary driving force behind every decision and plan here is the need for monetary survival, if not security.

This is his first contribution to the editorials page this year.

Editorial's note: Tim "Scope" Sullivan is a senior expecting to graduate this May, as well as our design editor, staff reporter, and music editor for The Observer. This is his first contribution to the editorials page this year.

Rozelle testifies on sports violence

WASHINGTON (AP) — Commissioner Pete Rozelle of the National Football League will tell Congress today there is no need for federal legislation to provide criminal penalties for players using excessive violence during a sports event.

Rozelle heads the list of officials from the major sports leagues who will appear before the second hearing of a House crime subcommittee, chaired by Rep. John Conyers Jr., D-Mich., on the bill that would penalize a player, if found guilty of using excessive violence, up to a $5,000 fine or a year in jail, or both.

Rozelle's position, as stated in a memorandum to the committee before the first hearing, is that no federal legislation is necessary because the NFL can police itself.

In that vein, Rozelle was to testify a day after Chicago Bears safety Doug Plank was in the commissioner's office to appeal a $1,000 fine levied for "spearing" Tampa Bay tight end Jimmie Giles in a nationally televised Oct. 6 Monday night game.

The NFL commissioner said his personal appearance was primarily to answer any questions the committee members might have.

In addition to Rozelle, others scheduled to testify include John Ziegler, National Hockey League president; Simon P. Gourdeau, deputy commissioner of the National Basketball Association; Phil Woosnam, North American Soccer League commissioner; Hask Peters of the Baltimore Orioles, representing Commissioner Bowie Kuhn of Major League Baseball, and James Reynolds, representing the Justice Department.

CART, is a big bear of a man who has been CART's legal counsel since 1979 and now is its executive director.

Frasco, 41, is a partner in a prestigious Detroit law firm and a formidable man at the negotiating table.

And he's a man with plans.

"My first responsibility is to build a stable organization in order to conduct and promote a series," Frasco said.

Due to communication errors, the Observer did not adequately report St. Ed's 24-14 victory over Grace in the interhall football finals.

Quarterback Dave Kaple led St. Ed's to the win, passing to Mark Jeffirs and Kiki Aguila for T D 's while rushing for one himself. A run by Glenn Gutcheff capped the winner's score.

Grace was led by quarterback John Kenny who passed to Matthew Ralph and Will Bostic for touchdowns. Kenny also added two conversion points with a pass to Rick Thomas.

Growing pains over ND spikers end season

By Maureen Heraty
Sports Writer

The Notre Dame women's volleyball team finished in first place in year two of team competition last weekend, playing in the Indiana State University-Division IV Volleyball Championship Tournament.

But the Irish faced what is hoped to be the last in a series of growing pains that it has had to endure this season. Valparaiso, Notre Dame's first and only opponent, induced the last measures in defeating the Irish 15-4, 16-14.

Bats .390

Brett takes MVP

NEW YORK (AP) — George Brett, Kansas City's slugging third baseman who flitted through the majors a hot bat, leading the Royals to their first league championship in history, was named yesterday as the American League's Most Valuable Player for the 1980 season.

Brett, whose batting mark was over .400 late in the season, finished the year with a .390 average — the highest in the major leagues since Boston's Ted Williams batted .406 in 1941. He was a runaway winner, receiving 355 points in balloting by the Baseball Writers' Association of America.

Brett received 17 first-place votes, nine seconds and two thirds from the BBWAA's 28-member panel — two from each league city — in becoming the first Kansas City player ever to win the coveted award.

Outfielder Reggie Jackson of the New York Yankees, winner of the MVP in 1973 when he was with Oakland, was a distant second in the balloting this time with 234 points including five first-place votes.

Relief ace Goose Gossage of the Yankees was third with four first-place ballots and 218 points. Brett, Kansas City's slugging third baseman, matched the record for batting average by a major league player with a minimum of 100 points.

He tied the major league record for batting average by a player with a minimum of 100 points.

The Tigers headed the second-place vote and 731 points. The Cavaliers, who also collected one first-place vote and 169 points for fourth place. He was followed by first baseman Cecil Cooper of the Milwaukee Brewers with 160 points, first baseman Eddie Murray of the Baltimore Orioles with 106 points and catcher Rick Cerone of the Yankees with one first-place vote.

Brett was named to the All-Star team for the fifth consecutive season and would win his second American League batting title — he won in 1976 at .373. Brett's 1980 average — .352 — was .123 percent higher than Cooper's 1976 average.

The 27-year-old Brett became only the 15th player in American League history to win both the batting crown and the slugging percentage title in the same year, leading the league with a .664 slugging mark.

He became the first player since 1950 to average at least one run batted in per game for a player with a minimum of 100 RBI, driving in 118 runs in 117 games. Only Cooper, with 122, had more RBI than Brett.

The Royals' star also led the league in on-base percentage (.461), finished among the league leaders in seven other offensive categories.

Notre Dame's volleyball team ended its season at 2-12, after a loss in state competition.
evangelism, Illinois (AP) — Northwestern Athletic Director John Pont and head football coach Rick Venturi both were fired yesterday in the wake of a disastrous and winless football season marked by a revolt of black players.

The announcement was made by University President Robert Strotz who said an immediate search is being made for replacements and that Ken Kraft, a former Northwestern player, succeeded Pont as head coach and athletic director.

Venturi had two years to go on his five-year contract. In his three seasons at head coach he posted a 1-31-1 record which included 27 straight losses, an 0-11 conference mark and 27 straight losses in Big Ten conference play.

In fact, the last time Northwestern scored a Big Ten victory was against Illinois in the final game of the 1975-season in Pont's last game as head coach.

Pont came to Northwestern as head coach and athletic director from Indiana in 1971 and succeeded Alex Agase as head coach with Agase going to Purdue. One of the tackles was for a loss, and he also intercepted a pass.

Zettek was credited with 11 tackles including one for a loss and recovered the fumble which led to the game's only touchdown.

The Notre Dame defense has not allowed a rushing touchdown in 24 quarters and no touchdowns in the last 20 quarters.

Also nominated for the award were linebacker Andy Cannavino of Michigan and safety Tim Cunningham of Michigan State.

Cannavino had eight solo tackles in Michigan's 26-0 victory over Purdue. One of the tackles was for a loss, and he also intercepted a pass.

Zettek of Notre Dame has been named Midwest Player of the Week on defense by the Associated Press for his inspiring performance in Saturday's 7-0 victory over Alabama.

Zettek, a 6-5, 240-pound senior from Elk Grove, Ill., set the pace in what turned out to be a brilliant defensive battle by showing who was in charge on the opening series.

"Scott stopped Major Ogilvie for that two-yard loss on the first play and that set the tempo for the whole game," said teammate Bob Cralle.

"I don't know if one play can set the tempo," Ogilvie said, "but that first play showed me that Notre Dame was really ready to play football."

Zettek recalled the play and said "I got rid of my man (Eddie McComb) and I saw all three Alabama backs coming right at me. I thought 'so this is what going to be like.' I managed to stop the one with the ball."

Zettek was credited with 11 tackles including one for a loss and recovered the fumble which led to the game's only touchdown.

"I don’t know if one play can set the tempo,“ Ogilvie said, "but that first play showed me that Notre Dame was really ready to play football."

Number-two, how long?

Hail Mary, full of grace, the Irish are in second place.

With the pressures of being the nation's number-one team gone (whether a sigh of relief or one of relief is appropriate, I'm not yet sure) and Alabama out of the way (a definite sigh of relief and joyous shout), the second-place Irish prepare to complete a grueling 1980 grid schedule. Despite reports of "we can't look past Air Force" (even though it's quite easily done) and "there's still Southern Cal to contend with" (isn't Georgia Tech "defeated" Notre Dame, slot, after defeating Auburn 31-21 — but the nation's top football team is in for a real "Dog" fight this weekend, Saturday the Georgia Bulldogs (10-0) take on The Ramblin' Reck of Georgia Tech — that's right, the team that ousted the Irish. Should the Dogs get past Tech with no problem, they will have 40 days to wait and think about the Irish.

The Irish that have a reputation as "spoilers," The Irish that have defeated Alabama and Michigan, both teams in the AP Top Twenty. The Irish that defeated Purdue and Miami when both were ranked.

The Irish that have bowl experience. The Irish that have national championship experience (Kentucky, the Cotton Bowl, the 1977 crown). Ah, yes the Irish. The "nation's football team."

Six foes in top 10

Irish 10th in A.P. poll

By Tom Cameron
AP Sports Writer

NEW YORK (AP) — Kentucky, whose five national collegiate basketball titles ranks second only to UCLA's 10, grabbed the top spot in The Associated Press 1980-81 pre-season poll yesterday as DePaul grabbed the top spot in The Associated Press national basketball poll, taken before the postseason tournaments.

The Wildcats, whose fortunes will pivot around 7-1 sophomore center Sam Bowie, collected 30 of 59 first-place votes and 141 points in key roles, giving key performances, is number-two. And number-two is not good enough for the Irish. The seniors tasted the fruits of a national championship in 1977 and '78, the Irish would like to leave the same way they came in — winners. To that end, they must get past Air Force, confront the Trojans and upset the Dogs.

Hail Mary full of Grace. The Irish are in second place. But, how long?

The team that has a following that extends over all of Christendom, the Notre Dame team that has defeated the top-ranked Alabama squad 24-23 in the 1973 classic to earn national championship for the Irish. Notre Dame upended a top-ranked Alabama squad 24-23 in the 1973 classic to earn national championship for the Irish. Notre Dame's annual showdown with USC looms as an all-important game Saturday.

Considering "Bear" Bryant's 0-4 record against Notre Dame, Philips, Carter, Bob "Bigger than life" Crable, Harry Oliver and Blair Kiel, among others, were all captured by the magazine's sports writer Douglas Looney, who spent most of the past week on the Notre Dame campus (maybe he knows something, didn't I?).

The four-page article (sorry, Sugar Ray Leonard got the cover), features six pictures from the game, five of which are of the Irish (ah, the spoils of victory). Phil Carter, Bob "Bigger than life" Crable, Harry Oliver and Blair Kiel, among others, were all captured by the magazine's sports writer Douglas Looney, who spent most of the past week on the Notre Dame campus (maybe he knows something, didn't I?).

"ToUGH TO BEAR — When the Irish blanked 'Bama on Saturday, it marked the first time since 1976 that the Tide had been shutout, when Georgia turned the trick 21-0. The last time that Bear was in such a situation was on Nov. 10, 1973, when Vanderbilt held the Tide to a 6-0 in Bryant's first appearance ever at Legion Field. Incidentally, only seven members of this year's varsity had even been born at that time.""
