WASHINGTON (AP) — President Reagan feels the public faces "hard times" for the next few months as he is about to present his economic program and veto any bill that exceeds his budget.

Reagan, assailed by Senate Democrats as a president promoting the rich at the expense of the "poor provincial prosperity just around the corner," said recovery would come by spring or summer. And he shrugged off those critics as politicians trying to blame him for the news they created.

The president, in his fifth national broadcast news conference, conceded it is unlikely that he can meet his goal of balancing the budget by fiscal 1983.

But he said he was determined to keep the government headed toward the elimination of deficit spending, saying it "must stiffen its spine when it comes to really making cuts." On that score, he complained that "federal spending is still rising far too rapidly," and that the $3 billion in budget cuts approved earlier in the year by Congress and he promised to veto any bill that exceeds his spending targets and "abuses the limited resources of the taxpayer." On the foreign policy front, Reagan repeated an earlier comment that stirred an uproar in Europe, saying it was possible that there might be a 'budding' exchange of nuclear weapons in the gulf.

And he insisted that despite reports of disarray discord among his top foreign and defense advisers, there is no bickering or backstabbing going on. "We are a very cohesive administration," he said.

Reagan said he would delay until January the $3 billion in tax increases and $2 billion in benefit cuts that added nearly $1 billion to federal outlays. He issued an 11.2 percent increase in disability payments signed an 8 percent increase in the old age, survivors and disabled insurance payments.

Reagan also signaled there may be some changes ahead in the Medicaid program, contending that over the next six years, those who use the program may "disguise" to avoid taxes.

Health and Human Services Secretary Richard S. Schweiker, under orders from Budget Director David Stockman to cut $9 billion from his 1983 budget, has suggested cuts of 2.9 percent in Medicare and $600 million in Medicaid to the White House.

Only You Can Make It Work

For four years, I've been hearing how apathetic students are and, to tell you the truth, I'm getting tired of it. It was not until last week, after an interview with Eileen Murphy, Saint Mary's Student Body President, that I realized just how important student input (or lack of it) really is.

In the beginning of her term, Murphy had several goals she wanted to achieve for the good of the student body. Contrary to popular belief, her plans included more than screw-your-roommate dances and ice cream socials.

Murphy's number one goal for the 1981-82 academic year was to make sure the amount of vacant space by co-opting the old library into a Student Union. Secondly, Murphy had hoped to bring more Notre Dame and Off-Campus students into the Saint Mary's community by increasing the number of social activities at SMC. Murphy said, "You are increasing activities on campus you can foster a greater community spirit."

To bring more students on campus, Murphy thought to re-evaluate the "perennial" problems program. An Ad Hoc Committee has been working on a proposal to present the Saint Mary's Board of Regents since last year. The proposal is still in its developing stage, however the Committee's main goal is to increase male visitation hours, specifically on Sundays and on one or two week nights.

Recently a survey was distributed to Saint Mary's students to see what the students needed. The surveys that were returned indicated that there was a "fair amount of discontent concerning general housekeeping." It is evident that Murphy's goals have not changed much since the beginning of her term. Yet, she has realized that more is expected of her than a Student Body President to make those goals work.

The whole community must work together to change the things on campus that make them unhappy. When students complained about "nothing to do on campus," Murphy presented more social activities to them. The students did not attend these events so Murphy further investigated the problem. She found that the students need one central location on campus where they can look for activities. "Campus-wide activities belong in one building — a Student Union."

Murphy would like to see the Student Union as "a place midway between the dorm and the classroom. But it is not a place extended to where groups and organizations can meet. "But, she continued, "What the students don't know is that the old library will now be in private hands. We have the power to change things on campus and support their Student Government if, to tell you the truth, I'm getting tired of it. Murphy would like to see the Student Union an information and activities center consolidated into one building and geared towards students."

The Administration assured Student Government that no major decisions would be made concerning the space allotment of the old library before the College Committee met. The College Committee consists of students, administrators and faculty who investigate facilities needed in the Student Union. Murphy stated, "Unfortunately, that's not the truth I'm afraid we're wasting our time in meetings and committees to discuss the problem. The Administration has already decided the fate of the building."

Tonight at 6 p.m. in LaFortune Hall lobby, students will be able to present their views to the College Committee about the facilities they feel are needed in the Student Union. This is where the opportunity to tell the Administration what they want done about the problem of social space.

By ROBERT MAROVICH

The College of Arts and Letters has announced that a concentration in Middle-Eastern and Mediterranean affairs will be offered by the Department of Sociology and Anthropology beginning next semester. According to Professor Kenneth Moore, chief organizer for the four-course concentration, the program will combine the experience and resources of staff members involved in courses in Mediterranean culture, language, politics and history. To complete the concentration, Moore said the student will need to take one course in a Mediterranean language such as Spanish or Italian and three courses in Middle-Eastern culture. "It's really important that students get the best balance of knowledge of the Middle-Eastern culture that they can get," Moore explained that the growing intervention of the United States in Mediterranean and Middle Eastern affairs has created a need for the student of any major to understand the cultures in these areas. "It makes the diploma much more valuable if the student is trying to get into graduate or law school. The Middle-East is a critical area of the world today; a knowledge of that culture makes a student that much more interesting," Moore also explained that a graduate seeking employment in the Mediterranean area will be more valuable to an employer if the student knows the culture of the area.

The idea of having a concentration in Middle-Eastern/Mediterranean culture was conceived during the International Meeting on Jerusalem that Fr. Theodore Hesburgh conducted on campus approximately a year ago. Fr. Hesburgh assisted Middle-East experts to discuss current problems in Jerusalem with staff members teaching courses on the Middle-East. Moore, a Professor of Anthropology and author of "The Intervention of the United States in Middle Eastern Affairs," has created a need for the student that much more interest if the student knows the culture of the area.

Dr. Muller to speak on nuclear problem

Dr. James Muller, a Boston cardiologist and one of the founders of the International Physicians for the prevention of Nuclear War, will speak at the University of Notre Dame's Memorial Library Auditorium today, at 4:00 p.m. Muller, a 1965 Notre Dame graduate, will be introduced by Fr. Theodore M. Hesburgh, C.S.C., University President.

Muller's lecture, sponsored by Notre Dame's College of Science and the Center for Experiential Learning, will be a principle component of Notre Dame's participation in today's Convocation on the Threat of Nuclear War.

Sociology to offer new course

The Department of Sociology has announced it will offer a course in the Sociology of Popular Music for the first time next semester. The course will be taught by second-year doctoral student, John Bridges.

Bridges, who began his academic career as a music theory and composition major, has experience as a recording artist with Columbia Records, spending five years on the road as a member of a Las Vegas-style show group, playing a variety of instruments (including keyboards, drums, trumpet/flugelhorn and electric bass). His academic preparation in the area came during his tenure in the M.A. program at Bowling Green State University.

The course, which will attempt to analyze popular music as an institution utilizing sociological theories and concepts, will focus on popular music from 1950-1980 — the years of the development of American rock music and its British influences. Popular music, according to Bridges, cannot be understood apart from the American capitalist system which produces it, thus the course will also analyze the statuses and roles found in the music industry.

Add the name of Judge Gene Franchni of Albuquerque, New Mexico, to the list of Americans who are intelligent and conscientious jurists. Or rather former Judge Franchni. The other decision was made by the Second Circuit as a trial judge rather than send a first appeal in his administration. He says (hastening to build the line of weakness is the true result of weakness) that instead of 360 people leaving our correctional facilities every day, the correctional facilities in New Mexico are releasing about 360 people a day. What is the correct number? The correct number is the average number of releases from the New Mexico prisons. However, the New Mexico prisons have a very high recidivism rate. Therefore, the number of releases from the New Mexico prisons is not a reliable indicator of the effectiveness of the New Mexico prison system.

LaFortune: Is it enough?

Students surveyed: 131 on-campus

How often do you use LaFortune for social purposes (including the Notre Huddle, Dubby’s, LaFortune Club, meetings, and study?)

MORE THAN TWO TIMES PER WEEK
ONCE A WEEK
ONE OR TWO TIMES PER MONTH
LESS THAN ONCE A MONTH

In your opinion, does ND need a new student center?

YES
17 percent
UNDECIDED
36 percent

By Ray Wise and Doug Murphy

LaFortune Student Center presently serves as Notre Dame’s social center. For some time now, the quest for convenience and appropriate space at the University has led to the proposal of a new student center. However, the question remains: Is LaFortune an adequate student center?

Berrigan’s ministry of disobedience

Rev. Daniel Berrigan is best described as an act in the name of peace. Joseph Congreve tells the story of the 1972 Senior Class Fellow. Berrigan will be giving a lecture entitled “The Folly of Peacemaking” November 14 at 8:00 in the Library Auditorium. He will also deliver the homily at the 12:35 p.m. Mass in Sacred Heart Church on Sunday, November 15th.

A s Christians, we are taught that the grave, the most desolate of all places, has been made sacred by Jesus’ short, yet memorable stay within. The faithful go to the grave to honor and demonstrate significance, the scene of that Easter victory. But before His rest in the garden tomb, Jesus spent a night in jail, similarly consecrating and annulling injustice forever by His willing presence. While human dignity commits us all to the grave, few among us have been willing to join the Messiah in his ministership of burial. The thought alone is repulsive. Yet there are some among us, as in their appearance before the Father to celebrate by earthly authorities, risk the punishment of Caesar in what they do. Father Dan Berrigan, S.J. has consistently led this ministry in gospel witness and triumphant civil disobedience—"over and again," to Christ and service to the powers of death. Instead we protest the hell-bent arms build up of the 1970’s, as in ancient times, our prophets are imprisoned for their threatening revelations of the truth, as we prepare for the visit of Father Berrigan, the question arises: What can this convicted felon-Europe have to say to our upwardly—middle generation? To the Notre Dame seniors of ten years ago, that time when compassion and brotherhood were more sincere, Father Berrigan spoke of a Christian witness which they sought to imitate. He was named Senior Class Fellow that year. To us, Father Berrigan calls for a new witness, given not to a god of nuclear power or to the statures of a red, white, and blue Caesar. Instead we are challenged to have faith, the kind of imitate faith in the Father that led Jesus to a rather uncomfortable cross. Under any circumstances, it was a risky bid to think that Calvary would represent anything but excruciating pain. Jesus’ eleventh hour Gethsemane appeal for reprieve shows the lack of guarantee provided in His Good Friday offering. All He had was faith, the faith of which our resurrectments are made.

And all we have is faith. Perhaps we seek too many definitions in a world where definitions do not exist. We want answers and absolutes. But Father Berrigan asks instead that we entrust the larger picture to God, and make our acts of faith, like burning draft files and smashing mucrones, part of that larger picture. His words at Canonsville chide us, yet invite us to this mission:

Citation of the call of Jesus is a firm direction towards an effort to restate that, while many students see LaFortune has. Right now, LaFortune is used primarily as a place for O-C students to study and eat during the day. We need social space; a place with more and better entertainment facilities.”

Recent views were expressed by Student Body President Don Murday and Vice President Tara Kenny. Murday stated that lafortune is “not a true student center,” and, although, a good facility, it is just not adequate. He sees a need for “a place where you can just go by chance…a natural place where you can just go,” and still around.

To this end, Murday proposed to the Trustees that a committee be formed to study student life at other colleges and universities. Approved by the trustees and operating under Fr. Van Wolvler’s auspices, the committee members will be appointed by Fr. Van Wolf, subject to the Student Government’s ap proval. Murday said that the committee will be divided between the over break and second semester, to study student life at other campuses. The committee members will be “going to specific schools…dedicated to being peer institutions.” The entire project will be focused at “other college campuses like Notre Dame” in order “to come up with one formal proposal for a new student life at Notre Dame. This proposal will be presented to the trustees.”

Murday described the project as “a foot in the door for students.” Mini Kenny added that the issue of student life and a student center “has been coming up for the past several years,” and the formation of the committee is “the first concrete action that shows the trustees are interested.”

The Observer recently polled 131 students at the South Dining Hall and found that 47 percent of the students surveyed felt that Notre-Dame was not a good facility, it just is not adequate. 17 percent felt that the University needs a new student center, while 17 percent felt that the University does not. 36 percent of the students were undecided. The results indicate clearly that, while many students see the need for a new student center, a surprisingly large percentage are unsure. This shows that there is wisdom in conducting a study to determine whether any needs exist at Notre Dame. The question of whether LaFortune is an adequate student center for the University remains unanswered. It is hoped that through the investigative committee, the committee will provide a framework that will end finally ever.

**Gogol play begins Friday**

**By Peggy Bass**

Gogol asked his friend Pushkin in a letter to send him "an authentically Russian play" upon which to base a comedy. This borrowed idea germinated into a controversial play in the comedy, the bizarre life of a man led by the work of Mark (Lechowich), his wife and daughter (Susan Giaquinto and Joan Quinn), and his associate (John Garabith).

The Inspector General

**PLACE:** Washington Hall

**DATES SHOWING:** November 13, 14, 19, 20, and 21.

The play has four acts and assumes lead vocal duties (after Hood) that Genesis made the Top recent solo album, not until drummer Phil Collins joined the group.

Genesis was the musical direction of this twelve member group. Together with Michael, he provided laughter all through the story about crooked politics in a small town. The comedy tells a story of timing. They will wake up bawling for their bottle or a change of attire usually when you're in the middle of a good dream or watching the last few minutes of a great movie. I used to constantly carry an innocent Nerf football around to vent my frustrations out on in such situations.

Marc Ramirez

In any case, "The Inspector General" presented by the Notre Dame Drama Program, opens Friday, Nov. 13 at 8:00 p.m. in Washington Hall. Price of admission is $2.50 for students, faculty, staff and senior citizens and $3.00 general admission. Opening night patrons will receive one complimentary ticket for each regularly priced ticket purchased. The comedy continues on Nov. 14, 19, 20, and 21.

**Memories still linger for younger brother**

Everyone at some time or another has their gratifying experiences. I can still feel the chill that traveled up my spine when the ghost seemed to be walking into the room and the wind seemed to blow. I can remember how excited I was when I saw my first article in the high school newspaper, and I remember how I nearly fainted when I received a letter of acceptance to Notre Dame. There's the long-term feeling of gratification that the kind of work I have done seems to have turned out. Perhaps I should focus on the same. Perhaps I should focus on the same.

Marc Ramirez

By Dave Krotin

A Bacab, the fifth Genesis studio release since the departure of the extraordinary Peter Gabriel, may well be the best example in the musical direction of this twelve years old band. With Gabriel, the group enjoyed critical acclaim but lost the fire of his acid tongue. It was not until drummer Phil Collins assumed lead vocal duties that Genesis made the Top record with his band. A Bacab is the perfect sparring partner for my youngest brother. He was three years her junior, but still as capable of landing the knockout punch.

**Record review**

**Genesis puts effort in 'Abacab'**

If A Bacabis in nner table emptied quickly when he rattled off the one liners. McPherson is still similar to "In the Air Tonight" from Face Value. Backed up by only Tony Banks synthesizer and drum machine, Collins uses his voice and blasts of percussion to build the song up to an emotional climax.

Ron Stover, Notre Dame's associate head basketball coach, will hold a meeting on Thursday, Nov. 12. Contact Mary Ann Roemer, Vol. Ser Office; x7308.

To the south quad man who wears a blue sweatshirt, please come to the interhall office (C-2 in the ACC) before noon on the following Tuesday. Failure to report results will result in the deletion of all participation by the group.

Interhall volleyball and handball tournaments began this week. Parties will appear each week in The Observer. Winners must be on campus by 3 p.m., and a small gift will be given to the winners. The first set of matches for this round will be held on the following Tuesday. Failure to report results will result in the deletion of all participation by the group.
Kiel hospitalized with 'a severe virus'

Notre Dame Quarterback Blair Kiel has been hospitalized since Monday with what a member of the Notre Dame Sports Medicine Staff calls "a severe virus."

The Observer has learned that Kiel was taken ill Monday at practice and "nearly collapsed" coming off the field. He was admitted to St. Joseph's Hospital in South Bend Monday afternoon.

A hospital spokesman says that Kiel is "much improved at this time" and is expected to be released today.

The Irish starter is currently performing better than at any other time in his career, and has teamed up with freshman sensation Joe Howard to add an expansive factor to Notre Dame's offense.

Kiel's status for this Saturday's game with Air Force is questionable. If he is released from the hospital today, it is doubtful that he will practice before the game.

Kiel's illness is not thought to be serious — a hospital spokesman called the affliction "a very bad case of the flu" — but indications are that he is unlikely to play at all this weekend.

Irish coaches are more likely to rest Kiel and let him recuperate so that he'll be available for next week's match-up with Penn State.

Kiel's illness is not thought to be serious — a hospital spokesman called the affliction "a severe virus." Treatment is expected to be released today.

With Kiel hospitalized with 'a severe virus' and is expected to be released today.

Kiel has been hospitalized since Monday with what a member of the Notre Dame Sports Medicine Staff calls "a severe virus."

Our electronic simulators, computerized training systems, and logistical support all help forecast or prepare for almost any kind of crisis. Our arm of Hughes Aircraft forewarns and forearms pilots in hazardous skies, troops at the front, and the technicians everywhere who support them.

Bring us your BS or MS degree in ME, EE, Physics, or Computer Science. You can be part of state-of-the-art electronics outside Los Angeles, or part of a field support team almost anywhere on earth. We'll introduce you to people, ideas, and jobs that could change your world. And ours.

It could be you and Hughes Support Systems.

Continued from page 12

Leading 13-7 at halftime, the Irish kicked off to the Trojans and received the return punt at their own 15 yard line. Moments later, Penick and the Irish executed Parseghian's mis-direction play to perfection. Four broken tackles and 85 yards later, Notre Dame was on their way to a 23-14 victory, ending a Trojan 23-game unbeaten streak.

"We were up all week and remembered last year's points by South ern Cal and the six touchdowns by Anthony Davis," added Parseghian.

Freshman tailback Al Hunter had returned only two kickoffs during the course of the season for minimal yardage. Return number three couldn't have come at a more opportune time. Trailing .6 midway through the second quarter of the Sugar Bowl, Hunter took the Alabama kickoff at the seven yard line and raced 93 yards virtually untouched. Another of the "unlikelies" had struck again.

The individual statistics showed what a team effort 1973 was for Notre Dame. There were no 1000 yard rushers and Clements actually threw sparingly compared the likes of the Hammersly and the Theissmans. But a solid, steadily running attack sparked by halfback Art Best and ballhug halfback Wayne Bullock enabled Clements to be more effective when he did throw. Best and Bullock rushed for 45 yards and 85 yards respectively and even Clements chipped in with over 100 yards with his sprint-out style.

Clements had an uncanny knack for throwing rather effectively while on the run. A familiar picture was one of an agile Clements spinning left and throwing to his right across his body.

"I wouldn't consider Clements a super passer or an outstanding runner," said a bewildered Bear Bryant, "but he makes the right play at the right time and that makes a winner." Poor Bear. No one knows better: he suffered through consecutive Sugar and Orange Bowl losses to Clements' quarterbacked teams.

Clements reunited with skinny-fingered Pete Demmerle, his favorite target. 26 times for five touchdowns in 1973. Demmerle, who lacked the super passer or an outstanding runner, was able to make up for this with his guile and teamwork with Clements.

"Tommy was such a sly guy," said Demmerle, "that he was almost always able to clear the lane so that I could follow the ball better than see it fly out of a crowd."

Just as impressive was the Irish defensive unit. They allowed only 66 points during the ten regular season games shutting out three teams and holding five others to ten or less points. Greg Collins spearheaded the linebacking corps, participating in 135 tackles. Collins was named National College Linebacker of the Week by the Associated Press for his role in shutting off the Southern Cal offense. The Trojans ran 48 offensive plays, Collins had a hand in stopping 25 of them with 18 solo tackles. He also added a fumble and recovered it.

"His diagnostic ability and his pursuit were both amazing," said Parseghian of Collins. "We accelerated far beyond what anyone gave him credit for. He was much like our Jim Lynch was always present around the ball."

The 1973 season couldn't have had a more exciting finale than the one-point squeaker over Alabama. Game-breaking runs and catches by some very unlikely people were the difference at some crucial moments. But a very likely hero, Tom Clements, and an extremely stingy defense that calmly engineered a perfect 11-0-0 season for Ara Parseghian's final national crown.

rable nearing a record

LOMBARDI NOMINEE — Senior co-captain Bob Crable has been named one of 12 finalists for the Lombardi Award, given annually to the top college lineman (including linebackers). The winner of the honor will be announced at the annual awards dinner in Houston, Texas on December 10. 

Crable is on the verge of becoming the top tackler in Notre Dame history, his 476 tackles standing two behind Bob Golli's 479 stops between 1975 and 1978. In the 31 games Crable has started at Notre Dame, he has led the team in tackles 29 times.

BIRDS OF A FEATHER — Notre Dame starts the final three games of its regular season slate on Saturday when they travel to Colorado Springs to face the Falcons of the U.S. Air Force Academy. Notre Dame has won all ten games in the series, which began in 1964 and has been contested annually since 1977. At this juncture, the Falcons appear on the Irish slate every season through 1990.

The Irish and Falcons have shared only one common opponent thus far, Navy. The Irish whipped the Midshipmen 38-0 two weeks ago, while the Falcons succeeded 30-13 to their naval counterparts.

Game time is set for 1 p.m. MST in Colorado, which is 3 p.m. in South Bend.

STREAKING — Notre Dame's two decisive wins over less-than-decisive foes Navy and Georgia Tech mark the first time the Irish have won two straight games since upending Alabama (on this same weekend) and Air Force last season. In that 1980 battle with the Falcons, Phil Carter charted 181 yards in 29 tries for the afternoon.

BACK ON TRACK — Not only did last year's Irish victory over Air Force mark Notre Dame's last two-gametwining streak, but its win over Alabama represented the last road victory on the Irish books. Following the Alabama victory, the Irish lost a road contest at Southern Cal to close out the 1980 regular season and dropped two decisions at Michigan and Purdue in early-season road action this year.

TIGHT AS A . . . — Georgia Tech's first-quarter field goal on Saturday represented the first blood drawn on the Irish during the 15-game minutes this year. Ironically, the last time to score a point for Notre Dame during the first period was Air Force, who tallied with a 35-yard field goal in the closing minutes of the first stanza last season.

The Irish have allowed only 22 points in the first frame of their last 25 regular season affairs.

Thanks to their stout defensive posture, the Irish have not had a touchdown scored upon them in eight straight contests (since the final frame of the USC game). Air Force's defensive patrol has been equally sturdy, surrendering no six-pointers in the last seven quarters.

In Saturday's contest, the 23-quarter touchdown-less string that the Irish defense crafted last season, in that series, which spanned six games, Notre Dame allowed only 12 points on four field goals. Air Force finally snapped that string with a fourth-quarter touchdown.

MAKING A KIELING — Sophomore quarterback Blair Kiel has tossed 529 yards worth of completions (32 in 64 attempts) in the last three games, or slightly two yards short of his total 1980 output. Kiel has also accounted four scoring aerials and has been intercepted once but that once in.

Were those figures projected over the entire season, Blair Kiel has been hospitalized all week with what hospital officials call "a severe virus." See story page 9 (AP Photo)

Irish items

Kiel would own a 150.9 passing rating by NCAA standards, good for 9th in the nation, based on mathematical calculations and weightings of completion percentages. A touchdown pass counts percentage minus interception percentage (sounds like a statistics professor's delight).

DID YOU GET THE LICENSE NUMBER? — Freshman dynamo Joe Howard, who has gained 269 yards on 48 career receptions this year (all in the last two games) is averaging phenomenal 58.3 yards-per-catch. Should Howard keep up that mean pace and catch a minimum of 20 passes this season, he would eclipse the single-season yards-per-catch standard of 25.6 (27 for 690) set by Tony Hunter during his freshman campaign in 1979.

On Saturday, Howard was also one scoring pass shy of Notre Dame's single-game touchdown-reception mark of three shared by six players.

The 96-yard Kiel-to-Howard combination against Georgia Tech was only the second pass of 90 yards or more in Irish history. The only other 90 plus yarder and until Saturday the only one greater than 90 (91 yard John Huarte-to-Nick Eddy combination against Pittsburgh in 1964).

QUEEN BEE — Yellow Jacket running back Robert Lavette was interviewed on both the Georgian Tech and Irish record books on Saturday as Lavette caught 14 passes (50 yards) to shatter Notre Dame's mark for most receptions in a game by an opposing player.

The old record holder was Notre Dame's Bob Dillingham in 1958.

Lavette also equaled his own team's record for most catches in a single game.

BIG BUCKS — The Observer — Landon Turner

Of course, that is still nowhere near the 23-quarter streak.

The 14 passes (50 yards) to shatter Notre Dame's mark for most receptions in a game by an opposing player. The record holder was Notre Dame's Bob Dillingham in 1958.

Lavette also equaled his own team's record for most catches in a single game.
