WASHINGTON (AP) — Harrison A. Williams Jr. resigned yesterday after 23 years in Congress, saying that "history and Almighty God will vindicate me" even as his colleagues were weighing his future in the first expulsion since the Civil War.

"I promise to serve my time out in this first full expunction since the Civil War. It is with sorrow that I leave good friends," the New Jersey Democrat said in a final address that once more ascertained his innocence in the Abscam bribery and conspiracy case for which a federal jury convicted him last year.

Williams, 62, was the only senator among seven members of Congress ousted by the undercover investigation by Rep. Michael Myers, D-Pa., who ousted the House; the others either resigned or were defeated for re-election.

Williams spoke for 23 minutes, saying quietly at the end: "I announce my resignation to resign, I know I broke no laws. I believe time, history and Almighty God will vindicate the good heart and with great resolve. I spoke to the packed chamber, vowing to pursue his fight for exoneration through the federal appeals courts.

"I have fought the good fight," he said quoting the Bible, "I have finished my course, I have kept the faith." Williams signed his letter of resignation, then had it carried to Vice President George Bush and read by the clerk of the Senate.

"I hereby tender my resignation as a member of the United States Senate," it said.

Williams called his ordeal a "two-year nightmare" and accused the FBI of "beimos conduct" in its investigation that resulted in his conviction and those of seven House members.

"It is not only Pete Williams it is all of us," he told his huddled colleagues.

Williams made it clear he recognized the Senate would have passed the Ethics Committee's recommendation that he be punished for his "ethically repugnant conduct."

"I have looked and reviewed my con­duct, did not warrant the severest degree of discipline," he said. Williams' decision was tipped when Sen. Daniel Inouye, D-Hawaii, his chief defense in five days of Senate debate, turned to Williams and said: "My good friend, I bid you farewell and godspeed. To you and the Senate." Senate Majority Leader Howard H. Baker Jr. said: "Pete, we wish to see VICTIM, page 5.

Marriott hotel explains charge discrepancies

By The Observer and The Associated Press

A federal appeals court in St. Louis declined an
unconstitutional on yesterday the stripping and searching of prison
visitors, inmates and staff, and ordered the state to stop the practice. (Honorable, one of the plaintiffs, had to take off all her clothes and submit to a 30-minute body search four years ago to gain a visit with her husband Roy, who was serving time for armed robbery. Prison
officials said they conducted the search on the strength of an
anonymity tips about the smuggling of contraband. None was found.

The 8th U.S. Circuit Court of Appeals said that, without probable
cause, the searches are illegal and the state no longer could order them
based on "unlawfully suspicion" and "uncorroberated" tips.

Upjohn Co., a drug manufacturer, is seeking to be a witness in the case of a man who said he was given a drug
that destroyed his kidneys and spleen. A jury awarded him $6.1 million.

Eric Barker, 23, a premedical school student from Orange County, Calif., was granted $5.9 million damages in January and $190,000
more this week. Upjohn said in a statement in Kalamazoo Wednesday
that if the Superior Court Judge in Los Angeles refuses to grant a
new trial, Upjohn will appeal. The suit was filed six years ago over the
Upjohn drug Lincomox. Barker has had to have his kidneys and
spleen removed and must spend four hours every other day on an
artificial kidney machine. — AP

The union representing Kansas City, Mo. firefighters is being
forced to $190,000 for its three-day strike in 1975. The costs were
incurred when 1,255 National Guard troops were called upon to
fight fires. The suit alleged the strike was illegal and left nearly
900,000 residents and $7 million in property unprotected. A Kansas
City Circuit Court judge announced Wednesday that he ordered
Local 47 of the Fire Fighters union to pay the State of Missouri
$18,972 in compensation and $250 in punitive damages. A union lawyer said the local will appeal. — AP

Preliminary registration figures for the spring semester at the University of Notre Dame show 8,830 students en-
rolled in undergraduate and graduate programs, a decrease of almost
200 from the record 9,023 reported during the fall semester. Mid-
year completions of graduation requirements are responsible for the
reduced enrollments. Approximately one-third of the total enroll-
ment of 2,971 students are women. There are 7,071 students en-
rolled in four undergraduate colleges and the Freshman Year program
and 1,961 are women. Graduate programs have 1,012 stu-
dents and an additional 13 students are unclassified. Enrollment by
colleges show 1,803 in Arts and Letters, 1,429 in Business Ad-
m inistration, 1,219 in Engineering, 886 in Science and 1,734 in
Freshman Year. There are 145 students in the Graduate Business Program,
502 in Law School and 1,095 in other graduate studies. — The Observer

Marathon Oil Co., stockholders voted yesterday to ap-
proach a $6.2 billion merger with U.S. Steel Corp., the second-largest
corporation in the country. More than two-thirds of the common
stock voted at a special stockholders meeting was cast in favor of the
merger, officials of an independent accounting firm which tallied the
votes told Marathon President Harold D. Hooper, who then ad-
 dressed the stockholders meeting, Michael Russo, Marathon vice
president in charge of public relations, said the counting was delayed for
several hours by the large number of ballots. Russo said more than
830 stockholders attended the session at the Finlady headquarters of
the company.

The $6.2 billion oil company. The size of the merger is
topped only by the $7.8 billion acquisition of Cancom Inc. by
H. J. Heinz Co. last year. During a lengthy shareholders meeting only in
the day, Hooper vigorously defended the merger, saying U.S. Steel
made the best offer to lend off a Mobil Corp. takeover bid. Mobil's
October offer, which totaled about $5.1 billion, had been termed
"grossly inadequate" by Marathon's board of directors. Mobil later
raised its bid after U.S. Steel became interested. — AP

The Reagan administration provided $10.4
million in economic support to non-Marxist, "democratic forces" in
El Salvador last year, the State Department confirmed yesterday. The
aid was provided openly and not as part of a covert operation, al­
though it was done with public advertising. It went to such private sectors as business associations, labor unions, producers' coopera-
tives, voluntary organizations and community self-help groups. The State Department confirmed the operations and said
another $7.4 million is earmarked for the private sector this year.
Word of the private-sector aid came against a flurry of news reports that the administration had initiated a covert CIA operation to de-
stabilize the Nicaraguan government, using a $19 million fund. The
New York Times reported yesterday that covert financial aid was
being provided to individuals and private organizations in Nicaragua
for the purpose of bolstering moderate elements there. While the
State Department declined to comment on the newspaper report, the
information on private sector aid showed that at least some of the
money was used to counteract the newspaper's的说法 that the administration was providing covert aid was
being provided covertly was actually passing through open channels, although without
publicity. "Since the coming to power of the Sandinistas in July
1979, our policy has been to support the democratic forces which
exist in Nicaragua," the department said in response to a question about
cryptos. The administration cut off all official economic aid to
the Nicaraguan government on April 1 after concluding that the
Sandinistas were providing arms to rebels in El Salvador. However,
aid to the private sector continued without apparent tem. — AP

Jury deliberations begin in von Bulow trial

NEWPORT, R.I. (AP) — A jury of seven men and five women told that they "do not have to solve any mystery," began deciding yesterday whether Claus von Bulow was a loving husband or a clever schemer who twice tried to kill his heiress wife with insulin.

Ending a five-week trial that joined them in their own defense. Needham cautioned jurors not to consider that "he must have something to hide."

Mrs. von Bulow, 50, has been in a coma for nearly 15 years.

"It is necessary for the state to prove beyond a reasonable doubt that the defendant injected his wife and, at the time, he did it, he intended by means of that injection to take her life," said Needham, issuing instructions standing, arms folded, at the bench.

"Proof beyond a reasonable doubt is not proof beyond all doubt. It is not a fanciful doubt. It is not a doubt at all," he said.

"I'm optimistic," he added.

Von Bulow has been free on a $100,000 bond since his arrаignment last July. His lawyers said they were surprised that he was allowed to return home each night during the trial, but were sceptic about their deliberations began.

Nearly six weeks of testimony from 62 witnesses left the jury with highly contrasting portraits of the man behind the real-life soap opera drama.

ND Security promises normal campus patrols

By LAUREL-ANN DOOLEY
News Staff

Notre Dame's Director of Security Census says that the campus patrol schedule, Terry promises to "have the normal number of people out patrolling the campus" during the upcoming spring break.

Recruits and assistant recruiters have been advised to take precautionary measures, said Terry, and all dorms will be completely locked.

Fahrminger said: "I'm optimistic..."
Main business district

Surinam rebels attack capital

PARAMARIBO, Surinam (AP) — Rebel troops firing submachine guns took over Paramaribo's main barracks and business district yesterday, but Surinam's left-leaning military leader said he was trying to put down the coup.

Witnesses said the rebels seized control of Paramaribo's streets and important downtown buildings.

"Rebels seized control of... streets and important buildings..." indicating the telegraph exchange after firing into the air. Shooting at the barracks was reported intense in the past days, but casualties were not known.

The small Dutch-rich nation on South America's northeast coast is a former Dutch colony.

Witnesses said the shooting at the barracks broke out about 4 a.m. at about 12:30 p.m. a radio announcement by the rebel 'National Liberation Council' proclaimed a dusk-to-dawn curfew, said schools were closed, and banned gatherings of more than three people.

The announcement was issued by Lt. Rambocus, apparently the rebel chief. But the station quickly went off the air, and reporters said Lt. Col. Ernest Bouterse, Surinam's leader, and his deputy military commander, Maj. Roy Hoehn, surfaced at a military housing complex some four miles from the barracks.

The rebels, who said they seized the complex, said Bouterse was accompanied by soldiers and at least one armored personnel carrier. Bouterse's commanders called on the public for calm, promising to do all in their power to restore order.

A diplomatic source who requested anonymity said the rebels apparently were rotary kidnapping a coup aimed at reversing Bouterse's military leader said he was trying to put down the coup.

Bouterse on Monday was to have named a successor to the civilian president who was forced to resign Feb. 4 by the military, which has ruled this country since a coup in February 1980.

At that time, Surinam's rulers talked of a renewal of society and of purely Surinamese institutions devoid of colonial influences.

But they also promised not to interfere with the U.S. and Dutch aluminum companies which mine bauxite here and thus heavily influence the economy of Surinam, a nation of 63,000 square miles and a population of 900,000.

Maintenance break plans

By CHERYL ERTLET
News Staff

John Moorman, director of maintenance, outlined plans yesterday for the "large scope of work" scheduled for his staff during the spring break. With most students gone from the campus during the next week, the maintenance crews will be able to make major repairs that cannot be done while students are here, including those relating to plumbing, heating, ventilation and electrical problems.

"We always have a lot of major jobs to do during any break," Moorman said, "and this break will require no more than normal routine maintenance."

Besides repairs inside the dorms, maintenance will also be working on "spring problems" that come when winter ends.

you well.

Williams' only real show of emotion came after he concluded his speech and sat at his desk for the last time. He rubbed tears from his eyes as Democratic Leader Robert C. Byrd of West Virginia commended him for "the right decision" and strode over to shake his hand.

Then, one Democrat after another walked to his desk to share the farewell as Jeannette Williams watched from the gallery.

Williams, a liberal Democrat and former chairman of the Senate Labor and Human Resources Committee, sent his letter of resignation to Vice President George Bush, in his constitutional role as president of the Senate.

But now most senators urged the governor of New Jersey to make William's resignation formal.

As the Senate was ready for its sixth day of debate over Williams, it was clear his only chance to remain in office - a scheduled vote on the lesser penalty of censure - was doomed. Some of Williams' staunchest defenders had conceded that and the senator himself was described as emotionally distraught.

In one of the final speeches of the session, Sen. Howell Heflin of Alabama, the senior Democrat on the Senate Ethics Committee, said Thursday that the case against him was built mainly on "the uncensored words from the mouth of Harrison Williams himself."
Coroner plans detailed study

LOS ANGELES (AP) - Coroner Thomas Noguchi said yesterday his office will make "detailed studies" on the manner of cocaine and heroin blamed for a respiratory failure that killed comedian John Belushi.

Noguchi said mixing the illegal drugs, as in a process users call "speedballing," could often be fatal.

"The drugs paralyze the brain function. The entire system fails. There is a complete disruption of the central nervous control," Noguchi said.

The heart stops and breathing becomes irregular. Unless the brain is functioning and well coordinated, the human body cannot continue.

Meanwhile, at a memorial service yesterday in New York City, fellow comedian Dan Aykroyd eulogized his friend and colleague as a "great, world-class comedian of American humor."

"He was a good man, kind man, a warm man, a hot man, a good man -- not a bad boy," Aykroyd told 1,000 mourners in the Cathedral of St. John the Divine in Manhattan.

Robert S. John, 34, Judith Jacklin's husband, told the Chicago Sun-Times that his wife "had troubles, but we wasn't a junkie" and "he didn't like needles."

"People who knew him always said he was the warmest heart on earth," John said. "Something weird happened.

...Auto

Motor Corp.'s Escort and Lynx subcompact models, of which 69,721 were sold since the start of 1982, compared with 78,086 midsize Granadas and 8,103 Cougars in the same period, according to Ward's Basic prices are about $5,500 for the Escort and Lynx, Granada's base price is $7,534, while the Cougar costs about $7,983.

Power attributed at least part of the Escort and Lynx popularity to Ford's two-year free maintenance program that even pays for replacement of windshield wipers.

An October 1981 survey by J.D. Power and Associates showed that 51 percent considered dependability and trouble-free operation the most important feature when selecting a car. Low purchase price was second followed by fuel economy.

"People figure that if they're paying this much for a car, they'd better make sure they're getting quality," Power said.

Penelope Longbottom, spokeswoman for the National Automobile Dealers Association, said dealers have noticed a lessening of concern now about mileage.

At Chrysler Corp. spokesman Tom Jakobowski said the compact to rival the Escort and Lynx models have sold well -- 90,808 in the first two months of 1982, while sales of the mid-size 400s and Granadas total just about 6,000 in the same period, according to Ward's.

The Aires and Reliant price tags start at $5,565, while the LeBaron 400s and Granadas start at $6,689.14, Jakobowski said.

In the hot compact field, unit sales of the Mercury Marquis are up 16 percent in an industry where the total sales are up 8 percent and the Marquis is up 16 percent, Ray Windecker, a Ford analyst, said.

He added that Lincoln sales are at 12,000, up 51 percent from 9,400 in the last model year at this time. Depending on transmission and engine size, the Lincoln averages around 17 miles per gallon, according to the Environmental Protection Agency's fuel economy ratings, while the Marquis gets about 14 miles.

Price tags start at $8,664 for the Marquis and $11,100 for the Lin.
Another one of those morn-ful wakes

If you think getting up on a week-day morning is easy, you've probably never had to do it. Once every three weeks, you spring out of bed, ready to greet the morning sun and to enjoy life. But chances are that when your first action of the day is a retaliatory assault on your alarm clock, it will be one of those mornings.

You know the next morning is going to be a golden one the night before. So you secretly shove the thought of getting up into a hidden compartment in the back of your mind.

Midnight arranges, you're tired and no thought pleases you more than the one of snuggling in to the comfort of your bed and surrendering to the one of snuggling in to the comfort of your bed and surrendering to

The artist makes sense out of the world. He or she, as the case may be, is as much a part of the world as everyone else. But what makes the artist unique is his or her ability to synthesize the chaos of the universe into a coherent whole. This is no easy task, for the artist must first overcome the temptation to simplify and reduce the world to its most basic elements. Only then can the artist begin to create a work of art that is both true to the world and unique to the artist. The artist is, in short, a master of the impossible. The artist is a magician, a trickster, and a master of the unexpected. The artist is a creator, and creation itself is his or her greatest work. The artist is a mystery, and the mystery of creation is his or her greatest challenge. The artist is a giant, and the giant is his or her greatest achievement. The artist is a god, and the god is his or her greatest creation.

contested finals.

He boasts a 9-10 record on the season, already nine wins better than his career-high 56-8 mark last year.

"Rich's biggest asset at this point is his experience," remarked DeCicco. "He is the only one of our three fences with NCAA experience, so he will be able to concentrate on fencing and not the event itself. He will also serve as a calming influence on his two teammates."

Junior foilist Marc Dejong is the only 1982 Great Lakes champi on in the Irish trio. Dejong posted a 14-3 mark in the Great Lakes Championships, a record which equaled his 1981 season mark. The Pretoria, South Africa, native owns a 48-10 ledger for the year.

Although participating in his first NCAA Championship, Dejong is not without tournament exposure, as he finished second in both foil and epee in the 1981 Junior Olympics.

Marc has fenced exceptionally well for us all season, and is one of the primary reasons that our foil team has made the difference in several meets," said DeCicco, who compiled a 9-5 record as a foilist in the 1984 NCAA Championships. "Although he is not widely known in the NCAs, he will definitely turn a few heads this year."

Freshman Mike Janis rounds out the Irish contingent at sabre. After going undefeated in 12 opening-round bouts of the Great Lakes Championships, the Franklin, N.J., product posted a 5-2 record in the finals for a third-place finish. Janis owns a 50-15 record this year, the most wins of any Irish sabre man since Mike Sullivan went 55-1 as a freshman in 1976.

"Mike has had an exceptional rookie season. We knew going into the season that our sabre squad would probably be the weakest of the three weapons because we lacked experience there," DeCicco explained. "Mike was a pleasant surprise -- an unexpected bonus this year."

Following their back-to-back team titles, the Irish finished second in 1979, eighth in 1980 and climbed up to fifth last season. They have finished in the top 10 teams for seven straight years and in 15 of the last 16 in the two-decade span. Notre Dame placed 12th in 1975 and 19th in 1974.

Fencers

... Playoffs

The Falcons will show defense again, as Brian MacClennan stands tall both on offense and defense. The 6-3, 190-pound, centermost defender plays with much of the style of Michigan's Steve Richmond, but is even more dangerous with the puck.

In goal for the Falcons will be Mike David, a junior who posted an incredible 25-3-1 record and a 3.53 goals against mark. However, it was David who was buried by an Irish avalanche of 16 goals back in January, so he has proven fallible to tie the lead.

For Notre Dame, offensive output is also a strong suit, especially with a healthy Poulin and a revitalized Jeff Logan. Logan was named the NCAA player of the week for his four goals and three assists during the Great Lakes that he continued productive play could prove instrumental in future Irish success.

Poulin has been the cornerstone of the Irish offense, and leads the team with 55 points despite being hobbled by a two-week old knee injury. Bill Rehbock and Kim York should be able to match up with Bowling Green's front as well as anyone.

On the blueline, John Schmidt, Joe Browne and Sean Regan give the Irish some of the league's most potent defenders, and each, along with Rob Ricci and Tony Bonadio, give Notre Dame an effective and ever-improving defense.

Between the pipes will again be senior Dave Laurion who has become a proven netminder now holding a 15-9-2 record and a deceiving 1.2 gaa. Laurion should be looking forward to the trip to Detroit more than anybody; as it was during the Great Lakes that he earned the Most Valuable Player award for his efforts.

So, it will be the Irish and Falcons Saturday at 5 p.m. followed by the Spartans and Huskies at 7 p.m., with the same times on Sunday for the consolation and championship games respectively. The winner receives an automatic NCAA bid for an undetermined site the following week in another two-game total goal series.

NASHVILLE, Tenn. (AP) — Rick Campbell scored 19 points and Middle Tennessee overcame a rash of missed free throws down the stretch to upset 5th-ranked Ken­ tucky 50-44 in an NCAA mid­ east Regional first-round game last night.

The victory moves the Ohio Val­ ley Conference tournament cham­ pions into a second-round battle with No. 20 Tennessee here Saturday.

Most observers had thought it would be the first Kentucky­ Louisiana meeting. But anyone who doubts Bob Knight can come to a second-round match with No. 15-ranked Middle Tennessee in the second game of the double-header tonight.

Kentucky got a number of chances, but the Wildcats were unable to score from the field and free throw line. The second half was an incredible shooting streak by James Madison's Mike Collins and a 12-0 run by Middle Tennessee.

Middle Tennessee overcame a rash of free throws late in the first 15 second half to snap a tie and 94-55 edge.

The Hoosiers, who surged to a 40­ 12 lead early in the second half, were able to hold on by scoring 12 of 12 free throws late in the game. The Cats scored 12 of 13 in the final 75 seconds after the issue was settled.

The story of the second half was 12-0 run that allowed Middle Tennessee to take the lead 48-46 with 3:40 remaining.

Wake Forest advances

CHARLOTTE, N.C. (AP) — Reserve forward Anthony Beach and starter Mike Helms scored 10 points each last night to pace No. 13 Wake Forest to a 74-63 victory over Old Dominion in a first-round game of the NCAA East Regional basketball tournament.

The Demon Deacons expanded their 27-15 lead to a 52-38 halftime margin. Helms then scored 10 of his 12 points in the second half to pace Wake Forest to a 17/15 lead they would not relinquish.

Wake Forest, which shot 58 percent in the first half, and ended up shooting 10 for 20 from the baseline and key free throws late in the game, faces the Warriors, 24-8, who meet No. 5 Missouri in the second-round regional contest on Saturday, March 13.

Meanwhile, Leaf was hitting only one of 12 field goal attempts in the first half while the Cats, which finished the season at 24-8, went 9 for 33 from the field in the first half and ended up shooting 10 for 20 from the baseline.

Indiana smashes

NASHVILLE, Tenn. (AP) — Steve Bonchick and Ted Kitchel each scored six consecutive points in the final five minutes as defending national champion Indiana booted to a quick 12-point advantage and went on to smash outmanned Robert Morris College 94-61 in the first round of the NCAA Midwest Regional basket­ ball tournament last night.

The 20th-ranked Kentucky met Middle Tennessee in the second game of the doubleheader.

The Hoosiers, who surged to a 40­ point advantage before Coach Bob Knight used reserves exclusively over the final 12 minutes, advanced to a second-round match with No. 13 Alabama in the SEC tournament later tonight.

The Cats, who won 59-58, scored the first 19, streaked its lead to 54-34 after 15 minutes had clipped and held a commanding 16-2 advantage at halftime.

Randi Witterman, who tallied 16 points, got eight of those in the first four minutes of the second half when Indiana built its lead to 58-26.

The Hoosiers' biggest lead of the night came with just over seven minutes remaining when Cameron tipped in a basket for an 89-58 edge.

Tony Brown and John Thomas each added 13 and Kitchel had 10. Ewe Ewie, the "3-foot 2 Freshman" from Munich, Germany, had 5 in a reserve role.

Robert Worosz, making its first NCAA appearance, ended its season at 17-3.

The Colonials were led in scoring by Forest Grant with a game-high 23 points.
Young lacrosse team opens season

By MIKE SULLIVAN

While the school is on break next week, Coach Rich O'Leary and his Notre Dame lacrosse team will be starting their 1982 season. The team's trip through the Baltimore-Washington area will mark the beginning of the second varsity season for lacrosse at Notre Dame after 17 years as a club sport.

O'Leary, starting his second season as varsity coach after having directed the Irish lacrosse club for 10 years, hopes to improve on last year's slate of six wins and six losses. With a team that has more lacrosse background than past teams, he is confident that things will improve.

For the first time, Notre Dame lacrosse will be excelling claims O'Leary. "In the past we've always relied on inexperienced players, but every player on this year's varsity has played high school lacrosse."

This year's squad has a look that is much different from last year's look. Thirteen monogram winners have graduated, but the void has been more than filled by freshman, four of whom will be starting. In fact, both of the goalies listed on the depth chart are freshmen.

The increase in experienced players makes this squad stronger than past squads. O'Leary foresees a team that will put the ball in the net with more frequency.

"We will be able to do things of fensively that we couldn't do before," says O'Leary. "We'll be able to control the ball and, on top of that, we have a majority of top players returning from last year's team."

However, before the team can defeat Midwest lacrosse powers, Ohio Wesleyan and Dennison, the freshmen, on whom a majority of the team may depend, will have to gain some experience playing at the college level. This inexperience, as well as the lack of depth, may prove to be major stumbling blocks.

As O'Leary says, "We are not yet comparable to Ohio Wesleyan and Dennison, but my goal is to be in the top four by McCarty."

The upgrade in talent will be helpful in gaining experience against some of the better lacrosse teams in the country. By traveling to Maryland, the team is entering an entirely different world that is not as familiar as the players' sport of football, basketball and baseball.

Irish fencing Coach Mike DeCicco certainly hopes history repeats itself next week when Notre Dame plays host to the NCAA Men's Fencing Championships.

The last time Notre Dame hosted the event back in 1977, the Irish walked away with their first NCAA title. That performance set the stage for the program's dynasty years. "An integrated team has spent 20 years at the Irish helm. "I certainly hopes history repeats itself with their second title in the NCAA Playoffs," DeCicco added.

Most symbolic of this trip to Detroit is that it was the Great Lakes Tournament just over two months ago that the team found direction and purpose for the remainder of the season. For the Irish, the season was decided in the third round of the tournament — just as they are at this stage of the NCAA Playoffs. The Irish fencing team will lead their team-mates to Joe Louis Arena in Detroit, in the NCAA Playoffs.

"And on NBC SportWorld, the annual event. This year, they may add a final round to eliminate Steve and remained the aggressor in the second round to win. That's the Bellanca, a picture of excellence against sophomore Ed Bully.

"I had the toughest fight of my career on Tuesday," said Mladenik. "I had a tough fight against my opponent, Ed Bully. "Having that fight under my belt made it easier for me to box this game. I didn't want to go out a loser," Murray added.

Donovan, a senior from Pittsburg, Pa., utilized a strong boxing strategy to open up his opponent and earn him a unanimous decision against sophomore Ed Bully.

"My intentions were to outbox him, not to outslug him," said Donovan. "I just tried to be aggressive, so he couldn't slack off. That's when I started landing my heavy shots. "Bulky" appeared to be in peak form against Mladenik. The 5'10" senior from Dalton, Ga., fought off a three-inch size advantage by throwing body shots at Mladenik.

"I just tried to move to the body," said Donovan. "I had to change style to keep him away and be a bit more creative in the ring."

"Marc LeBlanc was a picture of excellence in the ring in Arkansas in 1979, bloodied Hill's nose, and at stake is the right to participate in the NCAA quarterfinals — an indication of the closeness of the teams involved. "No, there weren't any brawls. In fact, the bout ended before the fight started. "I got a call a week and a half ago and heard they were looking for someone to fight me, in fighting me," said LeBlanc. "So, I just tried to get in the best shape possible."

"I didn't want to go out a loser," Murray added.

Bulky," said Donovan. "I just tried to be aggressive, so he couldn't slack off. That's when I started landing my heavy shots. "Bulky" appeared to be in peak form against Mladenik. The 5-10 senior from Dalton, Ga., fought off a three-inch size advantage by throwing body shots at Mladenik.
