Panel sees need for liberal arts

By AMY STEPHAN

Questions concerning the value and practicability of a liberal education were discussed at a Panel Forum on Liberal Education. The forum was sponsored by the Thomas More Society of Notre Dame. The usefulness of a liberal arts curriculum for students intending to become engineers was the major topic of discussion.

According to Walter Niegorski, chairman of the Program of Liberal Studies, the study of liberal arts develops the human skills of thought and communication, skills which he considers both necessary and practical in today's professional world.

He cited a survey of practicing engineers in which 95 percent responded that the most important skills in their professional careers were writing and speaking skills.

According to John Houck of the College of Business Administration, there seems to be a movement among institutions of higher education toward specialization at the cost of general education, despite the importance of communication skills in technical professions.

Houck maintained that this specialization is taking place among individuals within the universities as well as in the schools themselves. In order to research and publish in specific areas, it is necessary for faculty members to specialize.

As faculty members become more specialized they become less likely to want, or be able to, teach integrated courses.

Several years ago, both the business and engineering schools offered integrated seminars which are no longer available because, in part, of increased specialization.

According to James Carbery of the College of Engineering, some professional students enroll in humanities courses to fill in gaps in their curriculum.

Engineering students at Notre Dame are required to take 24 hours of humanities courses to complete their curriculum.

Carbery recommends adding six hours of structured humanities courses to this curriculum.

According to Niegorski, one may argue that humanities courses are not really necessary to the development of communication skills because these skills can be developed in the context of other topics.

Niegorski added that the study of liberal arts not only develops useful communication skills, but also contents one to think about the great issues of life which, in some instances, requires personal sacrifice and commitment.

Cyanide threat

By BOB VONDERHEIDE

Extra Strength Tylenol was removed from the shelves of the Notre Dame bookstore Thursday according to a spokesman. The poison was not available from the pharmacy.

John VanVlciavich, vice president for student affairs, said an investigating associate contacted the bookstore when he first heard the story.

He stated that more modern, practical problems should be studied along with classical and general thought. Conversely, he also mentioned that it might be impor-
Sudan announced yesterday that it is preparing to invade Egypt's eastern area, its latest offensive against the 2-year-old Persian Gulf War. Soviet Arabia warned Iraq faces a "no hold" war against it if it does not halt its "repressive" measures against the Iranian population. The broadcast said Iranian units tried to cross into Iraq near the Iranian city of Muthanna, about 100 miles east of the Iraqi capital city. "Our forces intercepted the enemy and after fierce fighting that lasted for four days, succeeded in driving back enemy forces, suffering very few losses in human lives and equipment," the broadcast said. Tehran radio, however, called "guerrilla groups" backed by artillery had "inflicted a heavy defeat on the Iraqis.

The FBL arrested two more people yesterday in a 

300,000 crowd in support of a Gulf Oil oilfield in Kuwait was reported dead on the scene Saturday by 600 specialists. Department of Public Safety spokesman Todd said. Witnessed said Kimbrell could not open his parachute hatch in time and fell to earth at the East Texas Regional Airport in East Texas Community. Kimbrell, a member of the Aerial Marine Parachute Club of Dallas, was a veteran of more than 1,000 jumps, Todd said. — AP

A parachutist fell 3,000 feet to his death when a smoke bomb and a flag tangled in his parachute lines during an air show in Nacogdoches, Texas, officially said. Jeffrey Paul Kimbrell, 27, of the Colony, Texas, was pronounced dead on the scene Saturday by 600 specialists. Department of Public Safety spokesman Todd said. Witnesses said Kimbrell could not open his parachute hatch in time and fell to earth at the East Texas Regional Airport in East Texas Community. Kimbrell, a member of the Aerial Marine Parachute Club of Dallas, was a veteran of more than 1,000 jumps, Todd said. — AP

Pope John Paul II said yesterday humanity and Earth are in danger because of man's treatment of his environment. Speaking on the eve of the feast of St. Francis of Assisi, the pontiff said man's treatment of the environment is like the behavior of men who try to force a woman into a relationship between man and environment, as well as of the relations between men, classes and nations. "It is necessary and urgent that man change his ways, open his mind, decide to abandon inconsiderate forms of domination, capture and custody with respect to all creatures." — AP

Three army officers arrested this weekend in Maryland are in custody for the Oct. 1 blast that killed 30 people in the Occidental Hotel in Roanoke, Va. Police identified the three officers as: Col. Luis Munoz Gutierrez, Col. Jesus Crespo Cuspineda and his brother, Lt. Col. Jose Crespo Cuspineda, and said they were arrested Saturday. The blast in the hotel's lobby was described as the "sexiest of the state." The newspaper El Pas, quoting interior ministry sources, said yesterday that the three were planning to stage a coup on the eve of the general elections. Another daily, Diario 16, said the planned coup was named "Operation Cervantes" and was backed by other right-wing military officers involved in a linked coup attempt on Feb. 10, 1981. — AP

A tentative contract between the United Auto Workers and Chrysler Corp. faces its first test today when 4,000 workers in Delaware vote on ratification. In Indiana, members of UAW Local 1226 at Indianapolis are scheduled to vote Friday. Members of Indianapolis UAW Local 500 will vote Oct. 12, union representatives said, adding that no dates have been set for locals in New Castle and Kokomo. Joe Games, president of local 1183 at the Chrysler assembly plant in New Castle, Del., said he was unsure of today's outcome. "It probably will pass, but no one really knows," he said. The 4,000-man Chrysler plant is closed most of the day in preparation for a possible strike with the United Auto Workers. The plant, which produces all of Chrysler's full-sized cars and many of the compact cars, is scheduled to reopen Monday. — AP

Next year, Tuskegee Institute will become the first predominantly black college in the nation to offer a bachelor's degree in aerospace engineering. The program and an aerospace center will be built with a 90 million grant from the U.S. Department of Education. On Saturday, President Reagan signed a bill to provide the grant. "This will enable us to play a strong role in increasing the number of minorities in high technology fields," President Reagan said. Benjamin F. Powell said, noting that blacks comprise only three percent of graduates in aerospace and engineering fields. — AP

Pleasant today, highs in the said '70s. Clear and continued cool tonight around 50. Sunny and warm tomorrow. Flights

Can Maggie hang on?

Thatcher's conservative policies had been to blame for her low ratings last spring. The prime minister is dedicated to fighting inflation at the cost of higher unemployment. Deficit is a word not found in her vocabulary, which means everyone has to keep their belts tightened. Last spring, Britons, three million of whom out of work, said they were running out of notches. The public opinion polls reflected this sentiment. If the parliamentary elections had been held in March, either the Labour party or the upstart Social Democratic-Liberal party alliance (depending on the poll) would have toppled the Tories.

The Social Democratic-Liberal alliance could give Mrs. Thatcher's party the majority it needs to govern. Shirley Williams' parliamentary party by election victory at Croydon, the alliance had caught fire. A few Tory and Labour MP's moved over to the alliance, and when Roy Jenkins, the uncrowned leader of the Social Democrats, won a Hillhead, working-class constituency, the future seemed bright for the new, middle-of-the-road party. The alliance, however, lost some of its luster this summer because of a by-election defeat in party in fighting, and the Labour party is determined to bring the government down or using moderate and "Tory-sounding" factions. Meanwhile. Thatcher's party seems to be the results of the Falklands. But will this persist? The post-Falklands euphoria should fade with time. If Mrs. Thatcher's policies do not pass, she will give her a blank check in the election. The opposition in this case was formidable. The Labour wolves had shamed Foreign Secretary Lord Carrington into resignation at the onset of the crisis. Mrs. Thatcher's government has been against her once again? Can Maggie hang on?

British cabinet member to speak

By SONYA STINSON
Senior Staff Reporter

A lecture series focusing on political themes in current events, the arts, and journalism begins tonight with a presentation by Sally Oppenheim, member of the British Parliament and the cabinet of Margaret Thatcher.

Oppenheim will focus on the Falklands war in her discussion of the current government in Great Britain. Her arrival at Notre Dame will be the first stop on a two-week lecture tour in the United States.

Student Union Academic Coordinator Linda Powers, concerned with the political theme of the lecture series, explained that theWanted the lectures to deal with the effects of popular culture on our perceptions of politics. Powers also believes the election year makes it a timely theme.

"I think it's very important that we become aware of what's going on before Nov. 3," she said.

In thinking of plans for the series during the summer, Powers said she was "trying to get issues that wouldn't be passe by time we returned to school." The series will continue with a lecture by Alan Smart, a poet and author of Wasting, who will discuss politics in cinema. The film Wasting will be screened in a film class at 13 p.m. in the Carlin Hartman Auditorium.

Robert Hughey, a senior editor of Time and noted art critic, will speak on "Art, Politics, and Propaganda" on Nov. 16.

Author and syndicated columnist Richard Reeves will discuss media politics on Dec. 9.

The series' final speaker is Charles Mann, Chairman of the Democratic National Committee. A date of Mann's appearance has not yet been confirmed.

Powers said she hopes the lecture series will help fulfill the academic commissioner's goal of providing a chance for students to voice questions and challenge views about important issues.

The series is sponsored by the Student Union. All lectures are scheduled for 8 p.m. in the Library Auditorium, except for the Nov. 16 lecture, which will be in the Carlin Hartman Auditorium at 7 p.m.

Toastmaster describes leadership deficiencies

by TOM MOWLE
News Staff

America faces a glaring deficiency of leaders in business, industry, and government, at a time when we desperately need them, according to William O. Miller, International President of Toastmasters' International.

The key to developing leaders, Miller said, is to train them in the qualities of leadership, especially communication. Toastmaster's is a worldwide organization devoted to teaching people to speak, listen, and think.

Miller, a 1944 Notre Dame graduate and branch chief of the administration of the U.S. Food and Drug Administration, was a member of Toastmasters' national Nuclear Regulatory Commission, spoke at a meeting of the St. Mary's Toastmaster's Club, which was celebrating its second year of existence.

Miller noted that white women have not yet acquired a very large percentage of leadership positions in the U.S., their status is improving, especially in government.

His advice to women was that they must work hard as possible achieve a position of leadership.

Women also have to fight tradition in their struggle.

Miller also detailed other qualities of a leader: he/she has the courage to make decisions according to his/her principles, he/she also has imagination and he/she is consistent in his/ her philosophy and style, and most important, he/she has the ability to be patient.

A leader must convince others that he is trying to do what is right for them.

G.I. children

Vietnamese arrive to new home

LOS ANGELES, Calif. (AP) — Eleven shy and tired Vietnamese children arrived in Los Angeles yesterday on the way to new homes and reunions with fathers they hardly know.

The children make up the largest group ever sent out of the communist nation under a reunion set up by eight U.S. volunteer organizations in 1979.

"I am very happy," said Mong Ho Hu. "It was very good of you to take us on board. I had a great time," he told the welcoming crowd in Los Angeles.

The children are headed for homes near Seattle, Atlanta, Portland, Ore., San Diego, Sacramento, Tucson, Ariz. and Dallas.

The youngsters arrived in Hong Kong on Saturday night from Bangkok. They flew to the Thai capital from Ho Chi Minh City, formerly Saigon, on Thursday.

They are the children of Vietnamese mothers and American soldiers stationed in what was South Vietnam before that nation fell to the North Vietnamese in 1975.

None of the children's escours would identify their charges in individually and only a few youngsters could be reached in the crush that followed their 45-minute clearance in U.S. customs. The escours were to deliver their children to friends or relatives of the families that planned to make new homes for them.

But among those believed to be on board were a boy, Nguyen Quoc Viet, 11, his sister, Nguyen Thong Loan, 10, and their mother, Nguyen Thi Sau. The children of an American civilian mechanic in Vietnam who had died, the youngsters were going to Sacramento, were they to be met by their grandparents.

Education of women

SMC lecture studies humanities

By FRANCES NOLAN AND ANNE MONASTYRSKI

A slide show and lecture entitled "Some Aspects of Women's Essence Revealed in the Legends and Sculpture of Tribal Africa" was given by Ann van de Graaf, artist and native of Cape Town, South Africa.

Helen Foley, Assistant Professor of Classics, Barnard College, described women's social role in ancient Greece as "limited" and "submissive" to men. Foley went on to say that "women in Athens were legal minors, who spent their lives under male guardianship and who were completely excluded from the political and cultural part of society." Foley's talk was entitled "The Concept of Women in Athenian Drama."

"Women and Men: A Vase Painter's View" was the title of a talk given by Robert Sutton, Assistant Professor of Classical Studies at Loyola University of Chicago.

Michael Murrin, a professor in the Department of English at the Divinity School and the College, University of Chicago, spoke on "Diosuwa and the Beast."

"Dido, Beatrice, and the Ancient Flame of Love" was Peter Hawkins' topic. Hawkins is an associate professor of religion and literature at Yale University's Divinity School.

"The Blazon of Sweet Beauty's Breast" was presented by Nancy Vickers, an associate professor of French and Italian at Dartmouth College.

Elif Carlson, Distinguished Teaching Professor of Chemistry at the State University of New York at Stony Brook, spoke on "A Biologist's Reflections on the Human Condition."

"Unconscious Colleagues: Woman's Entrance into the Professions" was a talk given by Miriam Slater, a professor of history at Hampshire College.

Fenny Giff, associate professor of political science at Mount Holyoke College, discussed the identity and consciousness of women in the world today. Giff said that even today, women are judged by men's standards in a talk entitled "Questions for a Future."

Giff's final remarks closed the conference on a positive note. "We have demonstrated (throughout the convention) the power of liberal arts to truly educate us. As for the future of women, Giff said the goal is not to "have a college of women," but "a college for women."

Fellowship addresses non-violence

By SCOTT HARDER

The only survivors of a nuclear holocaust may be the ones pulling the triggers, according to the secretary of the International Fellowship of Reconciliation. In a speech last night sponsored by the local chapter of Pax Christi, James Forest focused on the actions of the fellowship, a society founded in 1919 to further the causes of non-violence.

Membership in this society encompasses many different races and faiths, including such famous names as Martin Luther King, Jr., Mahatma Gandhi and, currently, singer Joan Baez. The society is closely linked with the Catholic Church and was invited to speak at the United Nations second session on disarmament.

Forest emphasized that small actions of violence attract more attention than an entire peace movement in the media and the public eye. He suggested that violence is inherent to the operation of any government or state and that disarmament goes hand in hand with human rights.

Joining Forest was Richard Steele, a South African native who was imprisoned for three months for failure to serve in the military.

Farley Hall celebrates feastday

Farley Hall will observe the 800th birthday of Saint Francis of Assisi tonight at 10:00. The feastday mass will be held in the Farley chapel. All students and faculty are invited to attend.

Solidarity outlaw possible

WARSAW, Poland (AP) — Archbishops Jozef Glemp, leader of Poland's influential Roman Catholic Church, is taking a tougher stand in defense of Solidarity as the martial law regime multiplies plans to outlaw the now-suspended independent union.

Glemp, criticized in the past for being too soft on the 10-month-old martial law government, "is really setting out some sharp words," a Western diplomatic source said last week.

"He seems to be really worried about what could happen this month," said the source, who declined to be identified.

The primacy's shift apparently stems from growing speculation that the government will ban all trade unions, including Solidarity, under a new trade union law that is expected to come up for parliamentary debate this month.

Both the Church and Solidarity supporters have spoken against an outright ban of the union, which was suspended when martial law was imposed last Dec. 13. But while the Solidarity underground warned of protests against such a move, the church has, until recently, urged restraint and appealed against any new violence.

However, last week Glemp said in an interview with editorial writers from the United States that "major disturbances can be expected" if authorities outlaw or dismantle Solidarity.

"I cannot say specifically, but I can assume that the working class will protest heavily," the prelate said when asked if riots or protests would follow the elimination of the Soviet bloc's only independent labor federation.

The Western diplomat said Glemp has taken a similar line in talks with ambassadors here, adding that the primacy's concern was deep enough to prompt speculation he may call a tour of 12 American cities late this month.

"A key to his information and the level of this concern will emerge the decides to stay home," the diplomat said.

The church enjoys great prestige as well as almost unheard of privilege in the Polish Communist state. New churches are being built and seminaries are taking on ever more candidates for the priesthood.

Thus, the church has much to lose in any governmental decision that triggers new violence in the streets.

Ambush injures Israeli soldiers

BEIRUT, Lebanon (AP) — Government ambushed an Israeli troop bus yesterday near a mountain village, and an Israeli army spokesman said there were casualties. Lebanese farmers and local residents said the Israeli forces used rocket-propelled grenades and automatic rifles.

In Beirut, Lebanese newspapers reported that President Amin Gemayel wants to form an interim government, "is really worried," said Deputy Prime Minister Peter Scharf.

A land mine exploded in a village southeast of the capital following the Sept. 16-18 massacre at two Palestinian refugee camps.

The French language "Voice of Lebanon" said Israeli helicopters evacuated soldiers wounded in the attack and a curfew was imposed in the village, about six miles in front of the Syrian lines.

The Lebanese state-owned radio said Israeli troops had sealed off Aley, a town near Beirut. Israeli police said Israeli and Christian militiamen set up checkpoints around the village.

It was not clear who was responsible for the attack. The Palestine Liberation Organization is believed to have about 10,000 fighters among the estimated 25,000 Syrian troops in northern and eastern Lebanon.

A land mine exploded in downtown Beirut, wounding at least six people, but the rest of the city was quiet yesterday.

The Lebanese army set up checkpoints on nearly every street corner in east and west Beirut with the aid of the 3,500 U.S. French and Italian peacekeepers who returned to the capital following the Sept. 16-18 massacre at two Palestinian refugee camps.

The French language "Voice of Lebanon" quoted sources close to President Gemayel as saying it appeared almost certain that his choice for prime minister would be the security chief, Brig. Gen. Ahmed El Hafi. It said El Hafi does not belong to any "political class."

An Nabar did not mention El Hafi by name, but said Gemayel most likely will choose someone from outside the "club of former prime ministers." Under Lebanon's power-sharing agreement, Gemayel, a Christian, must appoint a Sunni Moslem as prime minister.

The Taming of the Shrew

Theresa Guarino

Theatre

Text of Shakespeare, and the setting and costumes of Elizabethan England usually copy printed. But a Shakespearean comedy set in the contemporary American setting is not. That's exactly where the Notre Dame/Saint Mary's theatre production, "The Taming of the Shrew," will take place. Faculty director Julie Jensen has assembled the Shakespearean names and language, but has transferred the characters to a modern-day setting in order for the audience to "identify with each character."

"Shakespeare has been done over and over and the standard Elizabethan museum style, but we couldn't do it that way if we wanted to, without an Elizabethan stage, the appropriate costumes, and the time to make them," Jensen explained. "This interpretation will show how America and the myth of America have defined things like sex roles for us. There is violence, tough guys and girls, a clear sense of good and evil here."

Shakespeare's story of the stormy marriage between Petruchio and his headstrong wife Kate, and Petruchio's attempt to "tame" his wife will stay the same. But some characters have been redefined for this production (many have also been deleted). In Kate's last monologue, she returns to her husband and tells the company the reasons why women are and should be dependent on their husbands. In Shakespeare's version, Kate appears in stocks and is watched by her views. Here, however, Kate oversees her "dependent wife" speech, and both she and Petruchio realize that Petruchio grows uncomfortable and tries to stop her. But in the end, Kate shows him that the battle of the sexes isn't over yet.

The characters of the comedy will become modernized in order to make them more identifiable for the audience. Petruchio and his friends are braggarts, interested in proving who they can win over. The play makes fun of this behavior, as does Kate, writers through her "Bartholomew Fair" speech, and responds in a way a contemporary woman might.

In Shakespeare's play, a main character named Christopher Sly introduces the characters at the beginning, and then disappears. Jensen took a liking to him, and added him to Shrew as part narrator/party actor. He'll be joined by his wife and friends in the show, talking about the stage action with the audience and comment on the characters. Jensen is the only faculty member involved in the show; the rest of the work is being entirely done by the students. Everything is going on schedule according to stage manager Mary R. "Everyone's putting everything together. We've got it all," she said. "We really think it will go well."

Elisabeth Bottm is in charge of sets for the show and will oversee such jobs as getting a pickup truck on stage and building the ranch of Kate's father. "It's really important. Julie's (Jensen) trust in us," she commented. "It makes the jobs a lot easier."

As for Jensen's interpretation of the script, Bottum believes the audience will appreciate it. "Shakespeare has been done so often. Sometimes we get trappled," she commented. "This is new and fresh and something an audience wouldn't expect."

"Notre Dame junior Kevin Finney, who plays the pompous Petruchio, believes "you'll like it even more if you appreciated the old way wouldn't enjoy doing it the Shakespeare did, in fact hadn't read the book until the audition." Heidi Lucke, a Saint Mary's senior, will play Kate. "Kate is very modern, in love with her own" (with a broader scope)." People laugh when they hear about how she's doing it, but they're curious too." "People can think that these characters may be something, like themselves, in a way they couldn't in the old interpretation," explained Jensen.

The Taming of the Shrew will be presented October 8, 9, 14, 15 and 16 in O'Loughlin Auditorium at 8 p.m.

The Last Eruption

The last bastion of that all-male society that characterized Notre Dame in the early years, along with jackets and ties and dinner and the streetcar that rattled past the Quad, is the observatory.

Strangely enough, it’s not in one of the ivy-lined buildings that surround the Quad, but in a building, held together by brick bridges and concrete poles.

The North Dining Hall, my oasis from co-operation, I educate it.

Ed Konrad

features

It’s the infamous A-line.

Now I like women as much as any normal American guy, if not more. In fact, it’s because I like them so much eating ice cream and drinking Tab, a guy making fun of building s of Notre Dame’s past. It’s in a shoebox of a atmosphere of Notre Dame life and pretend we are real people.

No loud discussions about the parties last weekend and the prospects this weekend. I don’t notice even the usual lustful glances toward the opposite sex (by both sexes, lousy, I love it).

Everyone eats in a relatively quiet atmosphere, full of conversation without screaming, almost enjoying the fact that it is quiet.

Except that NDFS serves the same food over and over they serve in the others.

People who are unfamiliar with the art of dining rooms, that is; I think I am crazy for always going to A for the change of scenery, not the food.

I have screamed my lungs out to get a job in B, and no luck.

But the best part is that I can relate with other people without the distractions that usually rile quick tempers that is a necessary part of this as we do not follow Party Guidelines, and just about as funny.

We converse about anything that has to do with hotheadedness — school, women, the football team, what was in The Observer, our roommates, law school (for Dave), etc. Some unemployment (I work at a newspaper) and anything and everything that comes into our minds. For thing away for a while be a great time to escape from the constant pressure of Notre Dame’s life and pretend we are real people.

Now, we should be able to do this on our own, I say. But when you sit next to a guy that rambles on for fifteen minutes about his last date, you ask yourself if you can work on your homework away from him.

Marc Ramirez

features

it all, in exciting Europe! It’s all part of the Notre Dame foreign studies program, and it can be yours if you’re price is right!

But why would I want to go to Europe, the baldly ask? Well for one year! Do you broadcasters Notre Dame football over there? Do you have Pac Man or Robotron? Wendy’s, Spaceman or skies of waves or arm of grains! No, thanks, I’ll pass this showcase up and bid on the bedroom of the hotel.

I think I’m fine right here where I am. Here with the Notre Dame community, a community where I am. Here with Virginia Principal, Oreo cookies, the Milwaukee Brewers. Here with Iniana, Danner, Dodgers fans, Scott Bank. A few more I can’t be bothered to name. A friend of theirs — a man who is too good.

But as suddenly jump at the thought of traveling abroad, I realize that a major consideration has slipped my mind. I’ll have to know another language. That hampers.

Phalangist history

Dear Editor:

After reading the article "Massacre demands explanation," I have some questions for Mr. Thomas Meleshimer, and others who think "explanation" was not the general nor the historical knowledge of Mr. Meleshimer. Is defending one's life, family and country a barbaric action? Is liberating one's country from terrorists occupying it a barbaric action? Were those who liberated the United States to gain independence barbaric people? How well-informed is Mr. Meleshimer on Lebanese history in general and Phalangist history in particular? Does he base his "historical knowledge" on what newspapers write, whether they are right or wrong? On what basis does he accuse the Phalangists of being "historically barbaric"? How come Mr. Meleshimer refutes what the Israelis say about not knowing what was happening and still believe blindly their accusations that the Phalangists committed the massacre? Every day, new details show more and more that it is highly probable that the Israeli government knew and expected the killing. By accusing the Phalangists, they weaken Lebanon and justify their presence there. One proof that the Phalangists did not commit the massacre is the election of a Phalangist by the Christians to the office of president just three days after the massacre.

When somebody wants to write an article, he has to be sure of everything he presents. I would not write an article on Zinshub because I am not well informed, and I ask Mr. Meleshimer to avoid writing about Lebanon until he studies our history, our true history. Nuine T. Bouredi

The ND Quadrangular, Notre Dame’s only action in match play in the fall men’s tennis season, was held this past weekend. The first place team of Franko defeated the second place team in the round robin tournament. Notre Dame beat Illinois State, 5-4, Oral Roberts, 7-2, and Southern Illinois, 6-3. The Irish open their spring season on February 25 when they travel to Marquette. — The Observer

Fellowship of Christian Athletes will sponsor an evening with former Olympic qualifier and current Saint Mary’s swimming coach Mark Mantula. The meeting will be held Wednesday night at 8 p.m. in the Library Auditorium. All are invited.

The Irish baseball team won two games and lost one at the Bradley University Tournament in Peoria over the weekend. On Saturday afternoon, Notre Dame lost to Illinois State, 6-2. Later that evening, Larry Gallo’s Irish bounced back to take a 1-2-6 decision over host Bradley, and then continued their winning ways yesterday afternoon by edging Valparaiso, 5-2. For the fall season, Notre Dame has a 5-5 record and will face Bradley again in a rematch this coming weekend in a three game series at Jake Kline Field. — The Observer

Jim Fanning, under fire because Montreal failed to repeat as the National League’s No. 1, resigned as the Expos’ manager yesterday, deciding to return to the team’s front office as vice president of operations. The decision was announced by Fanning and President John Milner after the Expos closed out the season with a 6-1 victory over the Pittsburgh Pirates. The Expos finished third in the Eastern Division. "I am returning to the front office with no regrets," said Fanning. 5.

He replaced the ousted Dick Williams as manager in September 1981, and guided the Expos to a National East. His mini-series playoff victory over the Philadelphia Phillies before the Expos lost to the Los Angeles Dodgers in a five game championship series.

Interhall cross country meets will be held on three successive Thursdays, beginning October 7. The two and a half mile races will be run on the golf course. Team or insurance forms must be turned in to the N.A.A. office before October 7. Late entries will start and finish at the second tee, where racers are gathered by 4:15 p.m. of each race. — The Observer

Men’s Volleyball Club is holding tryouts for prospective members. Tryouts will be held at the ACC field house. The club is looking for players with high school or UVa experience. In addition, there is a mandatory meeting for all former club members on Thursday night at 7:30 in Room 15 of Slocum Hall. All former players unable to attend are asked to contact Clark Gibson at 814-81.

Irish injured

**Irish slump in SMC Invitational**

By MIKE SULLIVAN

Sports Writer

"I'm going into my third year, and I've never been so frustrated."

That was Notre Dame women's volleyball coach Sandy Vanlager's reaction to her team's dismal weekend performance in the Saint Mary's Invitational. Even though it reached the semifinals of the tournament, the team dropped five games in its poorest showing of the year.

Moreover, the Irish suffered an injury to Karen Bauters, one of their most effective players. Bauters, the freshman scholarship player from Mishawaka, landed awkwardly on her ankle, and the coaches will not know the extent of the injury until tomorrow when tests show whether the ankle is sprained or fractured.

The team's performance left the coaches and Irish fans puzzled. After annihilating Manchester College in the first match (15-2, 15-2), the team appeared ready to make a shambles of the rest of the field. Suddenly, however, the team seemed to fall asleep, never to wake up. It was in the second match against Illinois-Benedectine that things began to go wrong for Notre Dame.

The players began to let balls drop between them due to lack of communication. They also had problems scoring and made many mental mistakes, allowing Illinois-Benedectine, a team with noticeably inferior talent, to take the match, 16-14 and 15-11.

The bad streak continued in the next match with Hillsdale College. The Irish split two games, but made the semifinals because of a better point differential. Lake Michigan State College then eliminated them by a score of 15-11, 15-12.

The loss of Bauters and the absence of another starter, Terese Henken (who suffered a chipped bone in her knuckles), were major factors in the team's troubles. Another starter, Mary McLaughlin, had not completely recovered from an illness that caused her to miss a week of practice.

"We had to move around positions," explained Vanlager, "and we put in a couple of girls who hadn't played all year."

"The concentration level was high in the first game, but then they panicked and froze. Their inner emotions were a hindering factor for their physical performance."

"They weren't mentally prepared to step in and do the job," added Assistant Coach Dan Anderson. "If they had been a week fresher, they probably would have won the game."

The last team we played, Lake Michigan College, was a strong team, not a weak team," explained Anderson. "They had the capability to beat us, but with a weak team, we would have beaten them."

The loss of Bauters and Henken for indefinite periods also punished some of the problems that have plagued the team all year.

"We lost two of our 'starters,'" said Vanlager, "who were tall and who were good blockers and good hitters and we have not been blocking or digging balls. We have not been playing a defensive game."

The coaches were not totally displeased with everything that happened over the weekend. They were generally pleased with the play of some of their players, including Bauters, McLaughlin, Mary Jo Hejnder and Maureen Morin (who played for the first time after recovering from a wrist injury).

The skills are there," said Vanlager. "They just refuse to use their ability to the maximum."

Fortunately for the Irish, their tournament record will go unnoticed by the NCAA. Only home and away matches are recognized in the standings. Therefore, the Irish are still 3-0 on the year. The possibility of an NCAA tournament berth is there if the team is able to regroup itself and play to its potential.

Whether or not they do remains to be seen.

---

**Belles win one drop tourney**

By RENE FOY

Sports Writer

The 1982 Saint Mary's Invitational Volleyball Tournament was held Saturday, and the host Belles won one match, but dropped two others.

The matches were set up into two pools of four teams. Each team in the pool played each other, with the top two in each pool competing for the pool championship. The winners in each pool then competed for the invitational championship.

Saint Mary's first match was against Earlham College. The Belles played hesitantly, but claimed a 15-7, 15-6 victory. Their second match against Southwestern Michigan was not played as well and this time Southwestern defeated the Belles 15-8, 15-11.

Head Coach Erin Murphy remarked that overall, the girls played sluggishly, and that their passing was weak as well as the serving. Going into its third match, Saint Mary's was one up, one down, but still with a chance at the championship. Suddenly, Saint Mary's was up and fighting harder than ever against Lake Michigan. Loree Haney's playing was especially noted, as was the performance of Jene Wiegand, who played well off the bench.

The match was very exciting with serves going up and over the net, in addition to some excellent spiking. Lake Michigan stole the victory but without a fight. The final score was 15-11, 12-15, 1-15.

Lake Michigan went on to beat Southwestern Michigan for the pool title, and then fought for the invitational championship against Illinois Benedictine. Illinois came out the

B y D e f e a tin g  Rosary's Lorraine day m orn in g .

The St. Mary's tennis team were victorious in doubles play over Yohnee Choi, 6-4, 6-4.

The Saint Mary's tennis team giving them the opportunity to compete in the NAIA districts at Franklin University this coming weekend Fitzgerald commented on her team's position. Suffering from severe heat exhaustion, Courtney wept the last 20 yards before barely collapsing over the finish line. Depleted of his senses, Courtney was treated with an oxygen mask and ice for half an hour before finally being taken to the hospital by ambulance. He returned to Notre Dame Friday night feeling much better.

While discussing the meet and heat, Pianca commented, "It's been so cool the past few weeks that the sudden waves of heat really hit the runners. I've never seen anything like it. The times were definitely way down."

"I'm very pleased with the way we ran. We were shooting for fifth or better and we got it. There was some super competition out there today."

Michigan ran to three of the top ten spots on its way to a total of 99 points. Purdue Head of state road Eastern Michigan's 104 points. Illinois State and Purdue also finished ahead of the Irish. Last year's meet winner, Bill Shuey of Purdue, slipped to the 8th spot this year.

In the second race, Southeast Missouri's Mike Vanatta won with a time of 24:53. South Dakota claimed the No. 1 spot as a team with only 56 points, a full 45 points ahead of second-place Southeast Missouri.

...Struggle

Continued from page 16

against the pass. We came into the game thinking pass rush, and that's what we did."

Faus was pleased with all aspects of the defense. "Our kids kept them out of field goal range all but once," Faus said, and on that Michigan State had to kick a 45-yarder. That was a heck of a kick.

"Everybody played well on defense. That shows by the number of fumbles, sacks and interceptions there were," Notre Dame caused four Spartan fumbles (recovering two), and recorded ten tackle behind the line of scrimmage for a total loss of 72 yards in addition to intercepting four passes.

Senior linebacker Mark Zavagnin affirmed that the entire defense played well together.

"You have to give a lot of credit to our line," he said, "because they put a lot of pressure on their quarterback early. We had to stop Michigan State's passing game because they have excellent receivers, but with backs like Aaron Roberts and Marcus Toney, we knew we had to stop their run too."

Zavagnin, who recovered a fumble and intercepted a pass himself, notes the improvement that the defense has made in its approach to each game. "The biggest difference over last year is that we're playing more as a team. We're not just relying on one or two people to make the play. Everyone is trying to get to the ball. That's a good attitude for a team to have."

The Irish continue to improve, but they're still quick to note that they have not reached their potential yet.

"We need a lot more work," Toran said, "but we're getting better."

Senior linebacker Mark Zavagnin affirmed that the entire defense played well together.

"You have to give a lot of credit to our line," he said, "because they put a lot of pressure on their quarterback early. We had to stop Michigan State's passing game because they have excellent receivers, but with backs like Aaron Roberts and Marcus Toney, we knew we had to stop their run too."

Zavagnin, who recovered a fumble and intercepted a pass himself, notes the improvement that the defense has made in its approach to each game. "The biggest difference over last year is that we're playing more as a team. We're not just relying on one or two people to make the play. Everyone is trying to get to the ball. That's a good attitude for a team to have."

The Irish continue to improve, but they're still quick to note that they have not reached their potential yet.

"We need a lot more work," Toran said, "but we're getting better."

5-2 Belles romp over Rosary

The Observer

By GAIL KRAFT

The Saint Mary's tennis team defeated guest Rosary College Saturday morning.

Debbie Lauerstein started things off by defeating Rosary's Lorraine (Gackle, 6-0, 6-1), while teammate Maureen Fitzgerald triumphed over Sue Cheely 6-0, 6-0. The Belles won all other singles matches with Ann Hieber beating DeniseButer 6-1, 6-2, Heather Temlow over Liz Byerlymen 6-1, 6-0, and Kim Kargi over Vohner Choi 6-3, 6-3.

The team of Hieber and Temlow were victorious in doubles play over Rosary's Gackle and Buter by scores of 6-2, 6-1. The second doubles team of Diane Schnell and Michelle Spinosa won over Byerlymen and Choi, 6-4, 6-4.

The Belles' season record of 5-2 gives them the opportunity to compete in the NAIA districts at Franklin University this coming weekend Fitzgerald commented on her team's excellent record, noting that even the losses were close matches (5-4 and 6-3). The team will be competing in the NAIA for the first time this fall.

Some of the college football scores on any given weekend may be hard to fathom, but there’s really nothing all that complicated about it, according to Florida Coach Charley Pell.

"Football is a simple game — you come down to your basic tackling and blocking," Pell said Saturday after his fourth-ranked Gators were knocked off by LSU, 24-13. "I’d blocked better than we did, tackled better than we did, and they deserved to win."

After emotional victories over Miami, Southern Cal and Mississippi State, Florida was one of two members of The Associated Press Top 20 to lose to an unranked team on the weekend. Minnesota, the No. 19 team, was upset by Illinois 22-14. Meanwhile, second-ranked Pitt scored all its points in the final 15 minutes to overcome a 15-point deficit and nip No. 14 West Virginia 16-13, while eighth-ranked Nebraska shook off last week’s heartbreak by scoring 27-24 in Penn State and crushed No. 20 Auburn, 41-7.

Washington, the nation’s No. 1 ranked team, broke open a close game in the second half and downed San Diego State 40-29, fifth-ranked Alabama trounced Arkansas State 29-22, seventh-ranked Southern Methodist stunned Northern Texas State 28-10, No. 9 Wake Forest dropped Duke, No. 10 Arizona upset Texas Christian 6-0.

In the Second Ten, No. 1 Notre Dame shaded Michigan State 11-3; No. 12 North Carolina blanked Georgia Tech 41-6; No. 13 Arizona State toppled Kansas State 50-7; No. 15 Texas burned Rice 36-7; No. 16 Southern Cal hammered Oregon 58-7; No. 17 Miami defeated Louisville 28-6 and No. 18 Boston College turned back Temple 34-0.

In the SEC, seventh-ranked Tennessee flattened Vanderbilt 55-0; No. 9 UCLA pummeled Washington State 41-7; No. 16 Houston beat Texas 34-7; No. 17 Miam i defeated Louisville 28-6 and crushed No. 20 Auburn, 41-7.

Arkansas zapped Texas Christian 35-0; Texas State 38-10; No. 9 UCLA and crushed No. 20 Auburn, 41-7.

Michigan State trimmed Duke 34-20; Mississippi State whalloped Kentucky 24-13; No. 18 Boston College beat Virginia 28-7; seventh-ranked Southern Cal hammered Arizona State 50-7; No. 12 North Carolina blanked Georgia Tech 41-6; No. 13 Arizona State toppled Kansas State 50-7; No. 15 Texas burned Rice 36-7; No. 16 Southern Cal hammered Oregon 58-7; No. 17 Miami defeated Louisville 28-6 and No. 18 Boston College turned back Temple 34-0.

LSU upset highlights weekend

Pitt didn’t have any points until Bryan Thomas’ three-yard touchdown run with 10:52 left to play. That cut West Virginia’s lead to 13-7 and Pitt went ahead 14-13 on Dan Masino’s eighth-yard pass to Julian Dickow 4:23 remaining after Dan Short recovered a fumble by Mountaineer quarterback Joe Scorto- ter with 6:04 to play.

Dame shaded Michigan State 11-3; No. 12 North Carolina blanked Georgia Tech 41-6; No. 13 Arizona State toppled Kansas State 50-7; No. 15 Texas burned Rice 36-7; No. 16 Southern Cal hammered Oregon 58-7; No. 17 Miami defeated Louisville 28-6 and No. 18 Boston College turned back Temple 34-0.

Illinois-Tony Eason teamed up with Mike Martin on an 89-yard scoring pass and Kirby Wilson returned a punt 69 yards for a touchdown as the Illini drubbed Minnesota. Mike Hollocher passed for two TDs and scored one to give Min-nesota a 26-20 lead, but Illinois scored 22 points in the final period on two touchdowns — the Eason Martin pass play and Wilson’s punt return, two field goals and a safety. Washington struggled for the second game in a row. The Huskies, who came from behind to beat No. 3 Oregon a week earlier, led San Diego State by only 14-17 in the second quarter — they trailed 19-6 earlier in the period — but Vince Newsome’s 15-yard punt return reg­ gered a four-touchdown down burst. Steve Pellec threw three TD passes and Chuck Nelson kicked four field goals, giving him an NCAA record 19 in a row.

Brewers beat Mariners, face Cal

Baltimore, Md. — A pair of home runs and a triple as the Milwaukee Brewers beat the Baltimore Orioles 10-2 yes­tarday on the final day of the season to capture their first American League East Division championship. Cecil Cooper and Ted Simmons also homered for the Brewers who spoiled Baltimore’s storybook weekend comeback on Earl Weaver’s final day as manager of the Orioles.

Baltimore had won three in a row to tie the race, but the Brewers won the one game they needed in ad­ vance to the AL Championship Series against the California Angels starting tomorrow night in Anaheim.

Atlanta backs in
Irish shut down MSU in defensive struggle

By DAPHNE BAILEY

EAST LANSING, Mich. — They’ve had some great defensive struggles in the past. But not one like this.

The intestinal 110 in the game. The Notre Dame offense was unstoppable. The Irish turned the Michigan State defense inside out, limiting the Spartans to 126 total yards (120 passing, 15 rushing), well below the 411 yard average the Irish had allowed entering the game.

Defensively, however, the Irish shone. They again proved why they’re number one in the country against the rush, as they held the Spartans to a mere 19 yards on the ground. Notre Dame opponents average a very scant 25.7 yard net per carry this season.

From a game we gave four balls to the defensive stalwarts Mike Larkin (42), Mike Ganir (27) and Kevin Griffin (56) got what they have been looking for in a road setback Tony Ellis, on a play that was repeated on several occasions in Saturday’s 1-1 Irish victory. See stories on ND’s defensive dominance on this page. (Photo by Scott Bower)

Friday soccer

Irish dominate visiting Dayton

By SAM SHERILL

Sports Writer

Before a near-capacity crowd Friday night, the Notre Dame soccer team outclassed the Dayton Flyers 3-0 on two goals by senior Jay Schwartz and a great effort from goalies Gerald McCarthy.

Notre Dame got things started early, carrying the Flyers defense with shots and offensive opportunities. The Irish outscored the Flyers 2-0 in the first half.

The Irish continued their all-out efforts, but failed to score for the rest of the half. Dayton was fairly quiet on offense, thought two of its three shots hit the crossbar.

The second half began in much the same fashion as the first, and the Irish scored at six of 11 shots. Hohl took it down the right side and crossed it into the middle, where Herdegen, out of nowhere, poked it in and volleyed it into the net just a beaten Kennedy.
