Orders rapid movement

U.S. re-enters arms talks with Soviet Union

WASHINGTON (AP) - Under orders "to move as rapidly as the situation permits," U.S. arms control negotiator Adm. James D. Rowan, on entering a second round of talks with the Soviet Union convinced that Americans would abandon the nuclear freeze movement if they understood the administration's treaty proposals.

Freezing weapons at current levels, as Soviet President Leonid I. Brezhnev suggested last May, or only trimming stocks of intercontinental ballistic missiles and long-range bombers would heighten the risk of nuclear war, Rowan said in an interview before flying to Geneva for the new round of talks beginning Wednesday. Rowan's reasoning: it takes the sorts of weapons that the United States is permitted to the 4-2 Soviet lead in missile power or throw-weight. That edge, Rowan and other U.S. negotiators say, is one that could be reversed if the freeze is broken.

In California

Strychnine found in Tylenol capsules

CALIFORNIA (AP) - Strychnine in Extra-Strength Tylenol capsules purchased in an Oakland, Calif., drugstore caused a 25-year-old man to become ill last week, authorities revealed Tuesday. In Chicago, authorities said the incident "probably" was not connected to the seven cyanide deaths there.

The latest twist in the baffling case prompted McNeil Consumer Products Co., which makes Tylenol, to urge retailers nationwide to withdraw all instances of the capsules from sale - both Extra-Strength and Regular-Strength. The company had stopped producing capsules on Friday.

The California man, who has since recovered, purchased the bottle at a Longs Drug Store in Oroville sometime before last Wednesday, when the poisonings occurred in the Chicago area, according to Lawrence G. Foster, a spokesman for Johnson & Johnson, which owns McNeil.

But the man, who has not been identified, did not take the con- taminated capsules until Thursday, the same day that the medical ex- aminers in Chicago announced find- ing a pattern of cyanide deaths.

"The FDA was notified immediately," Foster said. "The product was picked up within a 25-mile radius by our people."

It was not immediately clear why news of the strychnine was withheld from the public until five days after the man became sick.

Strychnine, a nervous system stimulant, was formerly used for medicinal purposes in very small quantities. In larger doses it causes convulsions and death, and it has long been used as a rat poison.

At a news conference in Los Angeles, Director Beverley Myers called the discovery of the tainted bottles "cause for concern, not for panic."

She said her department was send- ing investigations to Oroville to col- lect all the Tylenol they could find.

The strychnine victim in Oroville, about 150 miles northeast of San Francisco, suffered convulsions and became ill Thursday after taking the Tylenol capsule. He was treated by a physician and returned to work Monday, according to Robert Kof- fen, a spokesman for McNeil.

The Oroville man's physician reported to McNeil that he asked the man's wife to get additional Tylenol capsules from the store where the first bottle was bought.

The FDA was informed that the bottle provided two more bottles, one of which also contained pink granules, which were subsequently found to contain strychnine.

The store operator removed remaining bottles and packages from the shelves, and McNeil picked them up and found a

American Marine Cpl. John E. Brogdon of An- derson, Indiana, mans a Dragon anti tank weapon South of Beirut International airport. The marines also have two quartered anti-tank missiles stationed in the area about 250 meters from the Israeli forces northernmost points. See story to the right. (AP Photo)

Hundred's arrested in West Beirut

BRITISH LEICESTER (AP) - The Lebanese army arrested hundreds of people in Moslem west Beirut Tuesday in its biggest show of force since the 1975-76 civil war.

Forty-two army troops also were con- fiscated in the former stronghold of the Palestinian Liberation Organization and its leftist militia allies. The operation was part of a government crackdown in West Beirut to reduce leftist militiam in the Moslem sector in an attempt to reassert control over the war-torn country.

The state television said some of those arrested might be deported and a Saudi Arabian magazine quoted President Ahmad Gemayel as saying the Lebanese could not live in the district if he became president. Military officials refused to say how many people were rounded up, but reporters saw trucks filled with people, some blindfolded, being driven away. Security sources said 450 people had been seized during the army sweeps.

Soldiers closed streets in the central shopping district of west Beirut and checked documents of pedestrians and car occupants. They blocked street corners with armed personnel and warned residents to cooperate.

The PLO said the army move was aimed at intimidating and forcing them out of the country. Western diplomatic sources said those arrested included Palestinians and Syrians as well as Asans and other foreign without residency permits or with permits that had expired.

There are an estimated 300,500 to 400,000 Palestinians in Lebanon, following withdrawal of the main body of PLO fighters in August.

Other sources said Lebanese with illegal weapons also were rounded up in an attempt to remove the army's campaign to capture the weapons of left-ist militias.

Police sources said those arrested were being questioned by the Lebanese intelligence agency. There was no information on where the arrests occurred.

Lebanese Moslem leaders last week charged that the army was "ridin the title of the Vatican's Pontifical Academy of Sciences.

"Nuclear weapons are fundamentally different from conventional weapons," the statement says, adding "they must not be regarded as acceptable instruments of warfare." The statement calls upon all nations to

Never to be the first to use nuclear weapons.

"Each immediate end of hostilities is the 'appeasing' event that nuclear weapons are used in a preponderant or irreversible fashion."

Abide by the principle that force or the threat of force will not be used as a means of territorial or political independence of another state.

Seek arms race reductions monitored by the "most effective means."

Prevent the proliferation of atomic energy diverted to warfare. Take all practical measures to reduce the probability of nuclear war "by accident, miscalculation or irrational action."

Continue to observe and seek further reductions while seeking to negotiate "broad and more effective agree- ments."}

The statement presents a stark scientific assessment of nuclear war. "There is no prospect of making defense sufficiently effective to preclude crises in general or even in specific ways that can cause massive destruction. There is no prospect that the mass of the population could be protected against a major nuclear attack or that devastation of the cultural, economic and industrial base of society could be prevented."

Scientists denounce use of nuclear weapons

NOTRE DAME INFORMATION SERVICES

VENICE, Italy (AP) - Scientists from the Soviet Bloc, have presented to Pope Paul II a statement that denounces nuclear weapons and calls upon the nuclear powers never to be the first to use them.

The statement, given to the pope when he visited the unprece- dented gathering September 22 in Vatican City, had its origin almost a year ago in an initiative of University President Father Hesburgh and Franz Cardinal König of Vienna. Hesburgh and König met in Vienna for three days with presidents and other representatives of the scientific academies of Japan, India, France, Great Britain, the Vatican, the Soviet Union, West Germany, and the United States un- der the title of the Vatican's Pontifical Academy of Sciences.

News Briefs

A California woman has been treated for severe eye burns after using eye drops that her doctor said contained high levels of preservatives. The San Francisco police were notified about the case yesterday, and an investigation is underway. The woman, a 52-year-old woman, was treated for the burns after using eye drops that her doctor said contained high levels of preservatives. The investigation is ongoing.

A federal judge ruled yesterday that "starch blockers" are ineffective and should be removed from the market by manufacturers. The judge ordered the manufacturers to pay a fine of $1 million.

Smugglers abandoned a truckload of illegal aliens from El Salvador in the stifling south Texas desert, and four Salvadorans died from dehydration, authorities said yesterday. Eight others, suffering from dehydration, were hospitalized. "It wasn't a pretty sight," said Patrolman Betty Trevino, one of the first officers to arrive at the border checkpoint, where some of the doomed survivors were unconscious, some were dazed, and others were too weak to stand. The truck was issued a ticket for moving a second truckload of Salvadorans, including 10 people transferred by the smugglers from the first truck.

Officials have a description of one of the drivers, believed to be headed to Houston. Trevino said he tried to talk to one woman who was lying on top of a dead woman inside the truck, but she was too weak to talk. "What makes these people do these things?" Trevino asked. "They are there to make money. They are going to go to lengths to try to go to America." The Central American nation of El Salvador has been torn by a civil war and the economy is in ruin.

The American Medical Association, which helped to create a Carter administration attempt to require warning labels with prescription drugs, launched a voluntary drive yesterday. The drive is aimed at improving the quality of information about a score of the most widely used medicines. "We strongly believe that patients have a right to know what drugs prescribed for them are," said Dr. Joseph F. Boyle, chairman of the AMA's board of trustees. "You can't expect patients to be trained to evaluate all the information that is available to them.

The AMA, in cooperation with a standard-setting group called the Joint Commission on Accreditation of Hospitals, has published an information sheet that provides prescription data on each of the 20,000 drugs, including tranquillizers, insulin, oral penicillin, beta-blockers and antiarrhythmics. The program is costing $1.2 million, with $1.8 million donated by drug companies and the rest by the 240,000-member AMA.

The new dentist's office is currently rented for about one million dollars. A typical Dental office rents for about $60,000, said the AMA. The office has 100 rooms available for use by all physicians to order 100 sheet pads, charging them only for the prescription drugs. "We strongly believe that physicians should be provided with this information," said Dr. Joseph F. Boyle, chairman of the AMA's board of trustees. "We have been collecting and analyzing data on prescription drugs, launched a voluntary drive to provide that information to physicians, so that they can make informed decisions about the appropriate use of these medications."

"A 100-room Dental office will be available for the use of all physicians," said the AMA. "We have been collecting and analyzing data on prescription drugs, launched a voluntary drive to provide that information to physicians, so that they can make informed decisions about the appropriate use of these medications."

"It's carpeted, which was easier for them to do than the Cushwa-Leighton," said one of the physicians. "The Cushwa-Leighton has far more comfortable, relaxing facilities.

The Cushwa-Leighton library at Saint Mary's College, which opened a different type of facility, was named in honor of Hesburgh. The Cushwa-Leighton library has far more comfortable, relaxing facilities. "It's carpeted, which was easier for them to do than the Cushwa-Leighton," said one of the physicians. "The Cushwa-Leighton has far more comfortable, relaxing facilities."

"In a university library, O'Meara said, "there is something you can do about it. "If students want a study area, they will have to make it their own," she said. Oath is a college library."

"One university replaced carpeting three times in a ten-year period," he noted. But Miller does not think comfort will hinder the study environment. "The library provides adequate, comfortable space for them to study, that is all," he noted. Miller said carpeting was considered for the Memorial library, but abandoned because other universities have had problems with it.

HPC meeting

Outdoor court lights proposed

By DAVID F. TRACY
News Staff

The Halls Presidents' Council met last night in Howard Hall and discussed Student Body vice president Bob Youschak's hall section parties proposal and other campus events.

Student Body president, Lloyd Burke, has had his special projects commission investigating possible improvements in the University's athletic facilities. Burke sent a letter to Father John Van Wolfvlear proposing the installation of lighting for the outdoor basketball and tennis facilities. The construction of an outdoor tennis facility was also suggested.

The budget committee will meet Sunday night at 7:00 P.M. in Fisher to discuss allocation of hall funds.

Each dorm presented its three best hall activities since the beginning of the semester for consideration of the Andy Sowder hall spirit award. The award will be presented to the hall president at next week's meeting.

The presidents were informed that Oscar Ozeno of Grace Hall would like to draw up a calendar with the various halls' "scream your roommate" dates posted on it for general distribution.

Rich Weyland from Metro Media Photo would like to take group photos of hall residents. He will be available Oct. 17 and Nov. 14, for any interested halls.

Sue Flynn, Chairwoman of the Student Activities Program Board, has organized a picnic for Saint Mary's and Notre Dame women's hall section party Saturday at Plaza Park Creek State Park. Buses depart at 12:00 and 1:00 and return by approximately 5:00. It is hoped that this picnic will be as successful as the one 'held last Sunday at Saint Mary's between the women of Holy Cross and Lewis.

Finally, Bob Youschak's hall section parties proposal met much criticism from the council. Among the suggestions for improvement of his proposal were more emphasis on the fact that hall section parties are less alcoholic, less destructive, and contain less people than parties held in the hall's party room. The inclusion of a vandalism clause and specification of the number of days prior to the party required for registration with the Hall Sector were also suggested.

The major concerns of the Hall Presidents' Council was that only with strong emphasis on hall section parties as an alternative to off-campus social events could the proposal be accepted.

Absenee voter registration

Students wanting to vote in their home district should contact their local election boards as soon as possible.

The absentee ballot process can often be long and involved, and some states require additional registration to cast an absentee ballot. Once a student has filed in the registration, a ballot will be mailed to the student.

Both the deadline for registering to cast an absentee ballot and the deadline for actually casting the ballot are fast approaching.

Oktobefest activities continue

Today's Oktobefest activities at Saint Mary's include a traditional German dinner at the dining hall and a movie presentation, The Sound of Music, at 7:00 p.m. in Carroll Hall.

This is the second day of the traditional three-day celebration at Saint Mary's. Students decorated the halls yesterday evening for the judging which will take place later in the festival with the best decorated hall receiving a plaque.

Oktobefest will conclude tomorrow, with an opportunity for students to rollerskate on campus. Rollerskates will be available at Angela Athletic Facilities from 4 to 7 p.m. for $3.50. The Sound of Music will be repeated at 7 p.m. that evening. The traditional "Bier Garten" will be held from 8 to 11:00 p.m. Non-alcoholic beverages will be available for students under 21 and the "No Problem Band" will be playing at the "Bier Garten."

Oktobefest is sponsored by the Student Affairs Planning Board.

Polish primate cancels U.S. trip

**WARSAW, Poland (AP) -** Poland's Roman Catholic primate cancelled trips to Rome and the United States and refused to meet with Premier Wojciech Jaruzelski because of the martial-law court's plans to outlaw Solidarity, informed sources said Tuesday.

Church officials said Archbishop Josef Glemp cancelled a trip to the Vatican for the canonization Sunday of a Polish priest and put off the trip he planned afterwards to the United States and Canada, the first by a Polish primate.

"A week ago, I would have said it was unsustainable that St. Peter's primate would not attend the canonization of a 20th century Polish saint," one Western diplomat commented. "It certainly is the strongest gesture by the primate since the start of martial law."

Informed Western diplomats also reported that plans for a meeting between Glemp and Jaruzelski collapsed because of the Communist government's plans to outlaw Solidarity, the independent labor federation which has been suspended since Jaruzelski proclaimed martial law Dec. 13.

Thediplomats said Glemp did not want to appear to give any semblance of church approval to the actions against the union. Glemp and the other Polish bishops have repeatedly urged the revival of Solidarity or creation of similar independent unions.

One diplomat conceded, however, that the prime minister's actions were unlikely to deter the action to do away with Solidarity.

Parliament is expected to adopt a government bill this weekend repealing the authorization won in the summer of 1980 for labor unions independent of Communist Party control. All unions (Glemp) and Jaruzelski (police) feared that law would be abolished, new unions would be licensed only if under tight party control, and the right to strike would be sharply restricted.

Unions also would be restricted to members of one trade or profession and limited and until next year to the factory level, to fragment the labor movement "into myriads of mutually exclusive unions," commented one Polish journalist and longtime observer of the labor movement.

Pope John Paul II in a ceremony in St. Peter's Basilica Sunday will proclaim the sainthood of the Rev. Maximillion Kolbe, a Polish Franciscan who gave his life for a Polish army sergeant at the Auschwitz death camp during World War II.

Officials said the government and the Communist Party were sending delegations to Rome for the ceremony.

Glemp had planned to leave Warsaw Thursday for Rome and to depart for the United States on Oct. 14 to visit 12 American and Canadian cities and possibly meet with President Reagan.

However, the prime minister during a recent interview with Western journalists warned that "major disturbances could be expected" if Solidarity was outlawed.

You've considered getting an M.B.A.

What about an M.Acc.?*

Master of Accountancy that is. Whether your undergraduate background is in liberal arts, accounting, economics or any other business-related field, the master's degree in accountancy may be the best step you can take into a professional career as a CPA, financial executive or other equally challenging and rewarding position.

With concentrations available in Taxation, Financial Reporting and Auditing and Managerial Accounting, Case Western Reserve's Weatherhead School of Management can prepare you for tomorrow, today. We've been teaching accountants for over sixty years in an accountant's town - Cleveland, home to one of the "Big Eight" accounting firms. Northeast Ohio is also served by all of the other larger, as well as other important local and regional firms. And Cleveland is world headquarters for dozens of publicly owned corporations, including Sears, Eaton and TRW.

A full range of financial aid is available, including scholarships, graduate assistantships and grants in aid. Whether you are interested in taxation, advisory services, computing or auditing, the Weatherhead School of Management and the Master of Accountancy degree may be the right professional course for you. Write for more information today.

The question of a nuclear freeze will be the topic of an informal debate between John Gilligan, former governor of Ohio, and Prof. Charles Rice of the Notre Dame Law School tonight at 7 p.m. in the Memorial Library auditorium. Gilligan's interest stems from his past experience in government. The debate will focus on questions such as whether or not to have a nuclear freeze and, if so, under what conditions. The moral and legal implications of a freeze will also be considered.

The debate was arranged by the Federalist Society which is sponsoring the event with The Observer. Concern that the conservative position may have been underrepresented in the past was the pervading reason for arranging the debate. The purpose of the Federalist Society is to "help advance the conservative position in discussions of the state of the legal order and public policy," according to Hasson. The society is a recently formed organization in its first year of existence at Notre Dame.

Many questions, including moral ones, will be examined by Rice and Gilligan. The debate will be followed by a question and answer session. The society is a recently formed organization in its first year of existence at Notre Dame. Law students, law professors, and attorneys compose the national society which seeks to promote awareness of conservative views. Similar chapters exist at Harvard, Yale, Stanford, and the University of Chicago.

Partying and Drinking 101

The letter has puzzled many residents of Campus View for various reasons. A common sentiment has been "Who is Roemer to tell me what I can't do off campus?" Another question concerned the tone of Dean Roemer's letter, with the latter merely a plea for discretion, or a veiled threat. The third, and perhaps most telling, was Dean Roemer's quiet acknowledgement that "just maybe alcohol is right for some, but Campus View is not the culprit."

I do not intend to discuss the problems of alcohol abuse at parties at Campus View. I think that the problem extends far beyond Campus View and Notre Dame apartments, or even Corby's and Bridge's. The genesis of the problem with Notre Dame parties can only be traced back so far. The time we got sick at a party in our dormitories on campus, and not to Eddy or Dunn roads.

The record of the last few weeks in campus news provides ample evidence that we need not look far to see tragic examples of this problem. There have been one death and several near-fatal injuries in alcohol-related incidents. The Review ran a series of articles concerning alcohol throughout last week.

If one needs more proof, drop by almost any "major-party" party on campus running a full speed during a football weekend. There will always be one drunk guy who has been put out of commission, or gone home, or one of their friends to the nearest crowded bathroom before unconsciousness sets in. More persuasion, Corby's on a Saturday night when girls are on the bar screaming along with every song and elbows and by provoke drunk men to throw beer on each other. It is also implicit in public assembly near 50 percent of the people, on the average and during weekends especially, are underage.

I am not trying to set myself up on a high horse in this matter. I am also guilty of having been put to bed by my roommates and throwing beer at Corby's on a Saturday night when over 2000 farm workers marched off the fields and to the polities of the administration of either institution. The news of the day was a major issue, and to have his voice of complaint heard.

The whole issue started in August of 1978 when over 2000 farm workers marched off the fields in Oklahoma, the state of Campbell's products. This policy will be subject to the policy of any Campbell's products. By 1980 student vote, the Notre Dame community currently does not purchase any Campbell's products. By 1980 student vote, the Notre Dame community currently does not purchase any Campbell's products. By 1980 student vote, the Notre Dame community currently does not purchase any Campbell's products. By 1980 student vote, the Notre Dame community currently does not purchase any Campbell's products. By 1980 student vote, the Notre Dame community currently does not purchase any Campbell's products.

The workers labor in the fields alongside their parents, for every penny of earning is crucial. Housing, food, and aid the their cause by means of a boycott. Unfortunately, many members of the Notre Dame community do not participate in the boycott. It is a shame that McGinn and Higgins had the opportunity to witness the amount of time and energy that Bogen and Bardley voluntarily spent on the drive, they would have been less compelled to mock them. It is a shame that Bogen and Bardley needlessly waste more time explaining their misrepresentation, no thanks to McGinn and Higgins.

Sincerely,
Bill Kramer, '83

Dear Editor,

It is understandable that Paul McGonn and John Higgins should have written the United Way Week editorial. The Department of Health standards. Frequently, the farmer sprays pesticides on the fields with the workers living in the fields. To add to the narrow, the National Labor Relations Act does not cover a farm worker. This means he does not have the right to form a union and to have his voice of complaint heard formally by corporations.

In response to their tragic circumstances, the workers are asking reasonable demands. They are calling for a $3.50 an hour wage, with a minimum of 28 labor hours guaranteed over a two week period. In addition, they request some type of health insurance coverage. Basically, the workers are asking for a small amount of dignity, more than just attempting to achieve this through the non-violent method of a strike.

I know that the Notre Dame student supply assistance! The problem appears to involve the workers laboring in the fields alongside their parents, for every penny of earning is crucial. Housing, food, and aid the their cause by means of a boycott. Unfortunately, many members of the Notre Dame community do not participate in the boycott. It is a shame that Bogen and Bardley needlessly waste more time explaining their misrepresentation, no thanks to McGinn and Higgins. But I do not think that we should use alcohol for bravery, or escape, or to gain social acceptance. I do not believe that the intent of alcohol should be to make us loud and obnoxious.

Moreover, I do not believe in getting drunk. I used to enjoy the art of getting pickled very much, but in the last few weeks I have come to see that there was too much of the cartoon world that I was missing. I like to be able to receive all the signals and messages that the world sends us when we are out "carousing," especially when I know that I must drive. And receive all the signals and messages that the world sends us when we are out "carousing," especially when I know that I must drive.

Sincerely,
Bruce Wall, '83

The Observer

The Observer is an independent non-paper published by the students at the University of Notre Dame. What you are reading now is the result of the efforts of 15 students. It is not an exact replica of this week's news, but a report as far as possible. Editors represent the opinion of a majority of the Editorial Board. Contributors, opinions and letters are the views of their authors. Complete space is available to all members of the community, and the free expression of varying opinions on campus, through letters, is encouraged.
placed upon my shoulders. At the ripe old age of two, I began what was to become a daily struggle to assert my identity.

I would like you to be mistaken for a fellow student named Teresa Alphadouos just because both of you have the same nickname. The ironic part was that it spelled it differently. My name was spelled with an ‘I’, not a ‘T.’ To my old I, I will maintain that the ‘I’ ending denotes that it is a male term, not female.

Little did I realize the burden that they were placing upon my shoulders. At the ripe old age of two, I began what was to become a daily struggle to assert my identity.

I would like you to be mistaken for a fellow student named Teresa Alphadouos just because both of you have the same nickname. The ironic part was that it spelled it differently. My name was spelled with an ‘I’, not a ‘T.’ To my old I, I will maintain that the ‘I’ ending denotes that it is a male term, not female.

Win ND Invitational
Golfers continue winning ways

By THRON ROBERTS
Sports Writer

After a thrilling triumph in their own Notre Dame Invitational Mon-
day, Coach Noel O’Sullivan’s Irish golfers have defeated 29 teams in
two fall tournaments while losing to only two.

“We won it in great style,” said an
elated O’Sullivan after the match. “Our players were really a unit,
especially at the end — each player who finished cheered the next go-
on.”

The Irish were down by two strokes to Tri-State after the first
three players finished. However, by the time first-tee Frank Leyes
recorded his blistering two-under-par 66, Notre Dame had won the
title for the first time in four years. Leyes, a junior, was the tournament
medalist.

“Frankie had a beautiful round and pulled out the team champion-
ship for us,” O’Sullivan said. The varsity squad, the Gold team, finished
six strokes ahead of Tri-

The top six seeds for the Irish are
seniors Peters and captain Stoney
Ferlmann; juniors captain Stoney
Leyes, Moorman, and Dave
Pangraz; and freshman John
O’Donovan. Joe Celarek, junior,
firmly holds the seventh spot.

“Stoney is a great leader; he, as
well as all of the other team mem-
bers are talented,” O’Sullivan said.
“Last year we had a lot of talent,
but you don’t win without ex-
perience,” the Irish coach said. “This
year is the time to develop — the
talent we had last year is still there,
just that now we’re clicking.”

The coach creates the player’s
concern on how the team finishes
not to their individual scores, that
gives this year’s team an edge over
its opponents. This year’s golfer
shot 15 strokes better in the Indiana
State Intercollegiate Championships
than the team did last year.

“The last year we had three first-year
starters, (Craig Peters, Dave Moor-
man, and Leyes) and we weren’t
playing well all of the time, so the
team was frustrated. Now these guys
have been in a lot more matches so
we now have no trouble getting five
solid scores every time.”

**Irish top Goshen**

By TOM ANTONINI

Sports Writer

Notre Dame raised its record to 9-2 after topping Goshen College in Field Hockey yesterday at Alumni Field. The Irish won 5-2 behind three goals by Kathy S. Goshen dropped to 2-21 but gave Notre Dame a good battle before faltering at the end.

The Irish offense controlled most of the first half and scored Ray's first goal at the 15-minute mark. Goshen tied it up 10 minutes later, sneaking in a goal past Notre Dame's Jeanne Grasso and Debbie Roehl. The Irish again went up, 2-1, on a goal off a corner shot by Claire Henry at the 28-minute mark.

Although leading 2-1, the Irish played sluggishly in the first half. They appeared to be the better team but couldn't quite put Goshen away.

"This happens to us every year," explained Irish Coach Jim Bishop. "We start to go into a slump. I think it's test — tiredness. It gets to be a drag to come out here. You could tell that in the first half. I think we're going to break through though. In the second half we started to play together.

Notre Dame did indeed dominate in the second half. Kathy Ray again scored 10 minutes into the half to put the Irish up by two. Goshen, however, continued to play tough and cut the lead to 3-2 after a penalty shot.

Finally, with only seven minutes left to play, Notre Dame iced the victory on Ray's third goal of the game. She now has 13 goals on the season for the Irish.

Karen Korowicki added another goal for good measure at the 33-minute mark, completing Notre Dame's 9-2 victory.

The Irish will play a tough away game against Northwestern tonight at 3:30 — as they seek their 10th win.

**Fischer hurt**

Injuries force lineup changes

By CHRIS NEEDLES

Sports Editor

With the loss of center Mark Fischer for about four weeks with a knee injury, Coach Gerry Faust once again has kth force of 10 sag in his starting lineup.

Faust has chosen to move All-America candidate guard Tom Thayer into Fischer's center spot, and plugged junior Ted Maune as Thayer's temporary replacement at the strong guard position.

Speaking at his weekly press conference yesterday at the ACC, Faust expressed his regret at Fischer's injury, but was confident that Thayer could step right in and play without difficulty.

"Thayer played there during the spring (when Fischer contracted mononucleosis)," said Faust. "So he knows how to play the position. Tom Duerger (who replaced Fischer last Saturday) played well, but he's only a freshman and he didn't practice all last year because of an injury.

"Thayer's a three year starter, and he's been able to put any pressure on it since original thoughts."" It's good that the injury was not as bad as originally thought."

In other injury-related news, junior Tim Marshall, who has not played all year because of a foot injury, has had that foot placed in a cast for three weeks. Doctors have been unable to locate any stress fracture on Marshall but have not been able to put any pressure on it since injuring it in pre-season workouts.

Athletic Trainer Jack Richter has been working with Fischer, who is expected to return to the lineup in the near future.

**Miami game will spotlight defenses**

Rich O' Connor

Irish items

GOLD FEVER — Saturday the Irish host a 4-1 Miami team whose only loss was to highly ranked Florida in their opening game. It will be Notre Dame's 7th straight home capacity crowd. The game pits two of the country's best defensive teams. The Hurricanes rank 20th in scoring defense (11.5 points per game), while the Irish are rated 14th allowing just 13.5 points per game.

WE SHOULD HAVE BEEN AT THE BEACH — In the last meeting between the Hurricanes and the Irish, Notre Dame suffered an embarrassing 35-15 defeat on national television — a game which closed out the 1981 season for both teams. Miami led 30-6 at the half as quarterback Jim Kelly picked the Irish secondary to pieces, throwing for 238 yards before the halftime. Notre Dame's offense was virtually non-existent, as the only touchdowns scored by the Irish were on Greg Bell's 98-yard kickoff return and Dave Duerson's 88-yard interception return.

TURNING THE TABLES — The last time Miami came to town was in 1980. The Hurricanes arrived with the No. 1 defense in the country against the Irish, but they left town considerably lower on the list. Jim Stone rushed for 224 yards, almost quadrupling the over-all yardage. Miami's defense gave up by a strong Hurricane defense prior to the game, as the Irish went on to a 32-14 victory.

This year it is the Irish defense that is No. 1 against the run — and No. 5 in total defense. A powerful Miami attack, led by senior Kevin Griffith, with four sacks for 50 yards lost and 2 additional tackles for losses — and sophomore Mike Large, also with four sacks, has made the Irish offensives' job that much harder. Miami has already added three more sacks, as the defense has combined for 16 sacks in three games with — 12 other stops for negative yardage.

Also improving were the number of interceptions. After missing point four off just one (that's right, one) pass in two games the defense responded with 19 interceptions in three games. But perhaps the most impressive defensive statistic for the Irish is that in 42 attempts the Notre Dame offense has forced the opposition to surrender the football without a first down 23 times.

Sophomore linebacker Mike Larkey, last week's AP Defensive Player of the Week with 15 tackles for 3.14 he was the leading tackler in each of Notre Dame's games thus far.

BIG PLAY'S DOWN THE LINE — One big reason that the Irish defense has been so successful this season is the play of the defensive line. The "Gold Rush" is led by senior Kevin Griffith, with four sacks for 50 yards lost and 2 additional tackles for losses — and sophomore Mike Large, also with four sacks, has made the Irish offensives' job that much harder. Miami has already added three more sacks, as the defense has combined for 16 sacks in three games with — 12 other stops for negative yardage.

Also improving were the number of interceptions. After missing point four off just one (that's right, one) pass in two games the defense responded with 19 interceptions in three games. But perhaps the most impressive defensive statistic for the Irish is that in 42 attempts the Notre Dame offense has forced the opposition to surrender the football without a first down 23 times.

Sophomore linebacker Mike Larkey, last week's AP Defensive Player of the Week with 15 tackles for 3.14 he was the leading tackler in each of Notre Dame's games thus far.
