Health and physical fitness activities will feature demonstrations, pic games in Melbourne, the 1960 films and exhibits on a variety of the farm labor organizing committee.

Mary's Fitness Fair Sunday. peted in the 1956 Summer Olympics in Munich. A five-time Olympian to speak at Fitness Fair.

The Fair is sponsored by the Saint Mary's Health and Counseling Services Committee. This committee is composed of members from Health Services, the Counseling and Career Development Center and the Campus Recreation Program.

The event is designed to aid the physical, emotional and spiritual needs of the students," said Mary Thes, chairperson of the committee.

The Fair will include 15-minute sessions on 11 topics including fall diets, sports injuries, stress management, fitness testing, and more. Most of the presentations will be repeated throughout the sessions so participants can attend nearly all of the sessions.

The Fair is subsidized by the Student Recreation Fund in the amount of $2,000. It is not a fund-raising event but a service to the students. The Fair is open to all students and faculty.

First-time applications for benefits filed at the end of last month plunged by 9,000 from the previous week's 562,000 to 491,000, the Labor Department said.

The report issued yesterday said it was the largest since mid-September 1981, that the total of first-time claims was beneath the half-million mark. Total applications also were 212,000 below the 715,000 claims filed in mid-September 1980, the highest single week for such claims since the recession began.

"Joblessness may be coming when the government releases the national unemployment figures for January early next month," he said.

At a press conference yesterday afternoon, Athletic Director Gene Corrigan announced that the hockey team will be lowered to club sport status at the conclusion of the 1982-83 season.

Corrigan cited substantial financial cutbacks and the lack of student support as the reasons for the decision.

"This is a painful day for me," Corrigan said. "It was not an easy decision to make."

Corrigan's announcement brought the name on the frozen fans.

"If you had a sport that lost money, the student body loved it, you might be able to excuse or justify the economic losses," Corrigan said. "But we are lacking substantial student support, and you can't flog the student body if they don't want something.

The suddenfacebook at the ACC support Corrigan's claim. An average home crowd for the Irish has been 1,000 fans. Only 400 of those tickets are bought by students. The general outlook is even more bleak. According to Corrigan, the hockey team's annual losses are as high as $250,000 last season alone. The deficit for this year is expected to be $30,000.

Despite the evidence, many were surprised that the program did not signal at the 81 level, rather than being reduced to a club sport.

"We decided to make hockey a club sport and not a Division III program," was purely functional, he said.

According to NCAA rules, a program must be stripped of varsity status in order for the players to retain their eligibility; if the Irish were simply to move to a lower division, any player wishing to transfer would have to sit out a year from any collegiate agency.

If the players wish to transfer and play at other schools, we have to drop it," Corrigan explained. "We are not dropping hockey. We are dropping our commitment to Division III Hockey."

"But Corrigan is not guaranteeing what will happen after necessarily the Irish would be just over the line." "Our intention is to have hockey as a club, with a budget for a year," Corrigan said. "It is too hard to do this without the financial help of the Central College, Athletic Association."

The Fair will inculde speakers on a variety of the farm labor organizing committee.

To speak at Fitness Fair.

"I his is an early color as to what might be coming when the government releases the national unemployment figures for January early next month," he said.

The Radiation Research Laboratory will receive $5 million in funds from the Department of Energy for its continuing research in radiation.

This figure is the result of "72 continuing long-term contracts between Notre Dame and the Department of Energy in support of research in the area of radiation," according to Dr. Robert Schuler, Director of the Radiation Laboratory.

The $5 million will support the total operating budget of the facility, said Schuler adding that the Energy Department has been aiding radiation research at the University since 1982.

In disbursing the funds, Schuler noted that $800,000 would be used for purchasing various pieces of equipment while the remaining money will finance the laboratory's current operating expenses. The funds will support about forty researchers, along with other staff members, Schuler commented.

The Radiation Laboratory studies "the interrelations in chemical reactions," Schuler explained, "in order to understand these reactions so they can be applied in energy research."

Schuler explained "in order to understand these reactions so they can be applied in energy research." According to Schuler, who asserted that "research in energy research is the life time of which are much less than a decade." In this case, the chemical approaches cannot apply, and we must develop special technical devices to accomplish this.

The sum of $5 million is the largest amount of government funding ever granted to an American university for this particular mode of radiation research according to Schuler, who asserted that "research in energy research is the life time of which are much less than a decade." In this case, the chemical approaches cannot apply, and we must develop special technical devices to accomplish this.

The Radiation Research Laboratory's facilities are frequently used by many of the most accomplished international experts in the field of radiation research.

In citing the various visits of scientists from different nations across the globe, Schuler noted that "our laboratory is one of the major laboratories in its branch of investigation, not only locally, but worldwide as well."

Student Union

Series to emphasize Society's future

By JEFF MCGOWAN

News Staff

A concert, a talent show, and a Dance-A-Thon are among the activities taking place during the Mardi Gras celebration which will begin next week. All proceeds from the events will be used for the Special Services.

The Dance-A-Thon, featuring music and a costume competition, will be held from 1 p.m. to 4 p.m. in the Student Union's Ballroom.

Participants in the Dance-A-Thon must sell at least one book of ten tickets. Tickets cost $2, and entitle the holder to admission to the dance and a chance at the many prizes on offer.

The grand prize is a trip to New Orleans, and winners will be announced on Thursday night.

“The last year, 500 people signed up, but only 120 participated in the dance,” said Karen Klocke, Mardi Gras Committee.

People who danced last year had a great time,” said Klocke. “There was a lot of camaraderie between the dancers.”

Each group of.Moulin Rouge will perform Thursday night in the Oak Room Cafe. The group, which consists of 10 men and 10 women from the ND-SMC community, will perform a variety of pieces in addition to their own rendition of the victory March.

To other expenses, 50 donation bars will be a piece at the door. A talent show featuring acts by the ND-SMC community will be held Friday at 9:00 p.m. in the La Fortune Ballroom.

It should be a real class act,” added Klocke. “All the people involved in the show are past participants from the Mardi Gras series."

“Sometimes we fail to plan our lectures correctly,” said Powers. “We have to plan every lecture, taking in consideration all the events that are happening on campus.” She added, “In the academic literature, football and basketball games are factors of consideration in our planning. We plan around them so we are assured of a good turnout. Well, sometimes we do get the turnout that we expected.”

According to Powers, all lectures should accommodate Notre Dame's identity as a Catholic university.

The theme of the lecture series should address a relevant issue in regard to our way of living and our tradition as a Catholic institution. Lecturers are not influenced by either the Academic Commission or the administration in regard to their lecture. “We have been very lucky in the behavior of our guests. Sometimes this is not always the case. Five or six years ago, June funds came to Notre Dame to lecture, and in the course of the lecture she made some obscene remarks about Our Lady, poking fun at her supposed virginity. But this does not happen often.”

The goal of all lectures, Powers said, is to provide different perspectives on the themes that which recur in discussion of our nation's problems.

“Cattell versus can be fun, but not cheap controversy,” she said. The Academic Commission, hoping to improve its services to the student body, will try to get more input from students this semester. Powers encourages students to make their suggestions directly to the Academic Commission.

Andy Abrams, manager of Chautauqua, feels that the "Chante-Do Dance" events are the kind of entertainment "the majority wants," and plans to hold several more this semester.

Student support for the dances in Chautauqua has been very strong, with attendance reaching almost 600 for last week's dance.

"When a man goes to the doctor with a stress-related illness, they tell him to take up handball or to take a vacation," says Scott. "It's all right to work and love it," she declared.

A family of five in the Marin County town of Novato, about 20 miles north of San Francisco, escaped being buried under a mudslide crushed into a bedroom of their $300,000 home before dawn.

About 200 families were evacuated from their flooded homes in coastal communities of Seal Beach and Surfside in Orange County.

Police moved out residents of beachfront homes in Oceanside in San Diego County. About 150 people were evacuated by National Guard helicopters and volunteers in Tehama County, 140 miles north of Sacramento.

A family of five in the Marin County town of Novato, about 20 miles north of San Francisco, escaped being buried under a mudslide crushed into a bedroom of their $300,000 home before dawn.

"We are going to have to start asking for what we need," said Scott. "When a man goes to the doctor with a stress-related illness, they tell him to take up handball or to take a vacation. If a woman goes to the doctor, they tell her she needs Valium," she said.

"It's all right to work and love it," she declared.

A family of five in the Marin County town of Novato, about 20 miles north of San Francisco, escaped being buried under a mudslide crushed into a bedroom of their $300,000 home before dawn.

This chain of storms has been very strong, with attendance reaching almost 600 for last week's dance. Abrams says that "weekly events are a lot more usual".

When asked why previous Chautauqua events, including films and live bands, have not attracted large crowds, Abrams says that "people do not want to watch a film and a huge screen television, but Abrams feels that these investments are not economically feasible."

Several improvements have been proposed, including the purchase of another television and a computer screen, but Abrams feels that these investments are not economically feasible.

Hockey's biggest sellout

A large poster hanging in the hockey team's locker room proclaims: "You can kill us, but we'll fight you for it." The Notre Dame hockey players are still alive, but the University dealt its death blow to the Notre Dame hockey program yesterday when Athletic Director Corrigan announced that hockey would be relegated to club status after 15 years at the varsity level.

The announcement comes as a surprise to everyone except the hockey administration and University administration. With corporate secrecy and efficiency, the University publicly acknowledged and then resolved the problem within a matter of weeks, hardly enough time to investigate and plan an alternate sport. Hockey is a sport that cannot be stopped six months before a season opens, and the 1983-1984 season could be the last. Students who had never heard of the hockey program before last year, are now on the verge of losing the only winter sport Notre Dame offers.

Hockey's demise is a wake-up call to all students and Notre Dame fans. It is not the first time the University has done absolutely nothing to promote the sport. The sport is referred to publicly debate with representatives of the University and made numerous efforts to avoid addressing issues raised by fan community.

A rapidly growing number of religious, social, and political groups on campus have formally endorsed the boycott of Campbell products. In 1980, Notre Dame student voted to boycott Campbell potato soup on February 8. We also want students to take this time to boycott the Campbell Soup Company adversely affect the living products in support of the boycott or students to continue a campus-wide boycott and witness the debate between the familiar with the issues regarding the Campbell products.

The Observer

P.O. Box Q

Dear Dean,

Last week Kathleen Weigert, assistant dean of the College of Arts and Letters, announced her post in order to accept a job with the Center for Social Concerns. For three and a half years Dean Weigert has helped build all college combination majors, Arts and Letters Preprofessional, Engineering, Business, and Business and Engineering majors report. Dean Weigert for counseling. Though her good work may not be publicized as the work of a football coach or a popular professor, few people on campus are as important to me as she is to Dean.

Dean Weigert counseled many of the students with the most difficult problems. Pre-professional students constantly kept on their keep track of all Arts and Letters pre med students must take and so over the year's. Now Arts and Letters combinations with the Engineering and Business Colleges create enormous scheduling problems for students in these majors. The College of Engineering schedules classes so that required courses in a major do not conflict. However, the Engineering school does not schedule classes across Arts and Letters majors which creates problems for double majors. Dean Weigert solved many of these conflicts.

I met Dean Weigert my sophomore year when I entered the Arts and Engineering program. The scheduling difficulties immediately gave me problems. I had taken almost all English courses this freshman year because I did not plan on being a double major. Fortunately, Dean Weigert knew how to arrange my schedule so that I could catch up with the other Arts and letters majors. A similar problem arose in the next semester when I found out that the only way to complete the combination program was to take an overloaded schedule. Her knowledge of the difficulty of each course helped me to build a manageable, overload schedule.

Though the management of student schedules is important, Dean Weigert's biggest contribution to Notre Dame has been her character. Even during a hectic registration week when students try to imagine a course schedule and the line outside the dean's offices resembles lunch time at North Dining Hall, she never lost the helpful and friendly tone in her voice. She didn't make students feel rushed. She was all of them. I know students Dean Weigert convinced to drop out of a combination program and students she convinced to stay in a combination program. Each student is now satisfied with the decision. The personal importance of Dean Weigert has made a sincere effort to keep in touch with the students she counsels. A student can easily get lost in the jungle of academics, but he can be comforted knowing that someone keeps track of each student. Many students are going to miss Dean Weigert, but the people she counsels at Social Concerns will benefit from her great ability to help.

Sincerely,

Ernesto M. Reza
National Boycott Co-coordinator

Dear Dean,

This is to bring to your attention a recent letter sent by the National Boycott Coordinator. We are not just asking for students' votes on February 8. We also want students to become aware of the issues so that you may be better prepared to inform others about the boycott.

Founded November 3, 1966
Black public colleges: separate but equal?

In the early 1970s, when the Louisiana State Board of Education attempted to integrate the state's public colleges, many educators objected that the dissemination of students of inferior academic standing would only hamper an already-plagued system; such statements were unequivocally racist in tone and intention.

But there were, no less, including Johnson of Grambling State and Jesse N. Stone, who have objected that the dissemination of black students in public colleges, the white majorities of those universities will cease the traditions and spirit of black American culture.

White Americans have only begun to realize the plight of minorities since the civil rights decade of the 1960s. As educators, they have attempted, as little blacks did, to give black students the means and in the 1970s, many finally realizing the ineptitude of the state's public colleges, many educators have refused to even consider their so-called principles. And the first ones to lose in the game of racial politics are the black students of black colleges who graduate from a system burdened with the spirit of black American culture. As educators objected that the dissemination of students of inferior academic standing would only hamper an already-plagued system; such statements were unequivocally racist in tone and intention.

1 This number-one song from a 19'66 which went to number one in 19'67 and stayed there for seven weeks — it took the

"Our World." The original backing track, a hit in 19'68, was done, and the song rocketed to the top worldwide. 

The novel, Siddhartha by Herman Hesse, was translated for the film medium by Conrad Roth. This film, unlike any other, seems to have captured the Platonic form of beauty, making beauty tangible to the eye. It is a true film as a Library Auditorium tomorrow night at * and 9 p.m. Admission is S2. 

The third presentation of the Social Concerns Film Series is probably the most widely known film for its content, but it may be the least public because of the performances of Jack Nicholson and Louise Fletcher. Based on the novel Ken Kesey. One of the greatest hits of 1980 was the idea of a man best kno w n for novelty

Who would have thought that a group of extremely intelligent, sophisticated, contemplative college-age adults would find the simple act of dancing enough to highlight those precious weekend nights? It has happened. The era of the dance has returned. This weekend marks Dance Week. With Bert, Yahn, Z. M. Ed., and Begmas South, are expecting great enthusiasm and attendance. The place to be tonight (after the Revue, if you must) is from 9:30 pm to 1:30 am and admission is S1.

The music to a wide spectrum of people in various places all over the country and world; it influences our world view. It dominates our hours preserved for recreational activities. Most of us know this, intellectually. But rarely do we appreciate it personally. This weekend, the world of entertainment, the film medium was translated for the film medium by Conrad Roth. This film, unlike any other, seems to have captured the Platonic form of beauty, making beauty tangible to the eye. It is a true film as a Library Auditorium tomorrow night at 9:30 pm. The United States Olympic Committee's decision to reinstate banned American hurdler Renaldo Nehemiah has created a serious situation with its unbelievable decision, and we have called it to the attention of the International Olympic Committee. The case of a national Olympic body ignoring the Olympic rules becomes even more delicate when you realize the country that will host the next Olympics. Nehemiah said the IAO refused to take any action, but we must back our own rules and laws, firmly and responsibly, otherwise we will face chaos and anarchy. Nehemiah, the world record holder in the 110 meter hurdles and owner of numerous world indoor records in the high hurdles, signed a lucrative contract last year with the San Francisco Giants of the National Football League. He lost the signature on an amateur track in Japan, and after the recent USOC ruling, was entered to tonight's Maloofs Games at Madison Square Garden in New York. His entry was withdrawn after the IAO overturned the USOC's ruling.

Four golfers share the first round lead in the $55,000 Phoenix Open Golf Tournament. Leonard Thompson, Ed Sneed, Hal Masters, and Craig Stadler were tied at 67 after the first round.

The service memorial for the American coach was held at Alabama's football headquarters. Some top college football coaches were present.

A pair of free throws after each turnover will be held to decide if TUSCALOOSA, Ala. (AP) - With 90 minutes to go in the game, Alabama coach Pete Cisek told his team that it had no choice but to let TAD Grooms go on to the court in the first place. Prime Nehemiah said in a telephone interview. "The eligibility of an athlete rests with his international federation, and our rules don't clearly state that Nehemiah will not be allowed to compete in the Los Angeles Olympics."

It seems that the Notre Dame women's basketball team, like Seattle, is struggling to scale the final obstacle on its road to national prominence. They need to beat a highly ranked opponent.

The Bruins, a 66-42 victor over Arizona State two weeks ago, are 11-5 and ranked 15th nationally. Back in November, UCLA blew out Notre Dame, 84-52, in ND's season opener at the Orange Crush Tournament in the Rosemont Horizon.

However, since their "Crush" title (which they won with an upset win over Georgia), the Bruin women have stalled in the midsection of the nation's second tier.

"We've been up and down all season," said UCLA coach Billie Moore. "The night before we blew out Arizona State, we could only beat Arizona by one." Arizona has lost 50 consecutive games in the Western Collegiate Athletic Association.

One player, Necie Thompson, has been the keystone of the team all season. The junior center was the main reason that the Bruins man handled the Irish in the 74-62 final. Thompson's points and rebounds per game were 15 points and 12 rebounds per game.

Thompson is not without a lot of help on the front line; however, she is joined by Deitra Thurston and Jackie Jordan.

Thurston, a junior, moved into a starting forward slot as a result of Moore's reshuffling. Combined with freshman classmate Joiner, she completes a line that can be deadly on the boards.

In fact, the large rebounding advantage (49-33) that they held over the Irish in the prior game proved quite damaging.

They're very strong on the boards," says Irish coach Mary DiSta- nislao. "Their frontliners are jumping jacks, they beat you to position.

Before the western swing, Dis- tanislao said that everyone was very sure that the Irish rebounding game had progressed to the point where Mary Beth Schueth and Ruth McCray, who averages eight points and rebounds, would be in contention of this. However, last night's flash at Temple (the Irish were outrebounded by 20) has to give Mary D. something to think about.

Freshman speedster Michelle McGarvey, who ran roughshod over the boards in the first meeting, will also get Delaware a lot to think about. She will be back to quarterback the UCLA offense.

McGarvey, who averages eight points, continued from page 15.

The team's erratic play has culminated this season. Moore is trying to juggle an lineup in an attempt to find a winning combination.

The juggling act is done around one player, Necie Thompson, who has been the keystone of the team all season. The junior center was the main reason that the Bruins man handled the Irish in the 74-62 final. Thompson's points and rebounds per game were 15 points and 12 rebounds per game.

"We've been up and down all season," said UCLA coach Billie Moore. "The night before we blew out Arizona State, we could only beat Arizona by one." Arizona has lost 50 consecutive games in the Western Collegiate Athletic Association.

"I don't just want my team to get accustomed to losing (big games). Quickness is our problem, and we have to work to make ourselves quicker. So far we haven't done it."
Open at home

**De Cicco expects fencing dogfight**

**By MATT JOHNSON**

"It's a dog fight, all right, but fortunately, we've already faced the top contenders."

So Notre Dame fencing coach Mike De Cicco expresses his squad's hopes for a 2-1-1 conference-winning season and for a National Championship.

"But for right now," says De Cicco, "I don't want to look past this weekend."

And eyeing this weekend, he said as the Irish, currently 0-1 and considered among the premier fencing squads in the nation, enter a five-team meet tomorrow at the ACC, against Ohio State, Cleveland State, Illinois-Chicago, and Case Western.

Hopefully for De Cicco, the Irish will maintain the renewed momentum acquired as convincing victors over Michigan State and Northwestern last weekend, after the latter one setback of the year at the hands of defending national champion and arch rival Wayne State.

De Cicco will rely on the continued stellar efforts of veterans Rich Daly, Mark De Jong, Joe Tierie, and Mike Van der Velden, and Jan Treneman. The freshmen, considered the question marks early this season because of the lack of college fencing experience, have proven to be the key to the rise of the 1983 team.

"These young freshmen that we have are fencing exceptionally well," says De Cicco, and they are all winning at a faster clip than expected from them to win."

Navy Johnson, apparently not in awe of the experienced fencers he has faced thus far, "I fenced in high school for four years, so I don't think of myself as being an inexperienced fencer."

Regardless of experience, however, De Cicco's "can't remember ever having such a great number of freshmen in a position to contribute."

Supplying the depth and balance needed for the five-team meet this weekend for the Irish will be junior (on Hamstrom and sophomores Andy Quaroni and Mike Gostigian.

The women's fencing team, led by Susan Valdiser and Charlotte Al bertson, have also shown signs of excellence this season. Losing only to Pennylvania and powerful Wayne State.

Albertson, a freshman from Got hemburg, Sweden, is considered by De Cicco to be "the first true foil prospect that we've ever had."

Also contributing for the Irish women will be Sharon DeCicco, Mary Schultz, and Janet Sullivan. "We have to maintain the same momentum and spirited ethic," says De Cicco. "Not only for Saturday, but for the remaining five on our schedule."

The hours will begin at 9 a.m. in the South Dome of the ACC.

**Irish runners take on Midwest foes at ACC**

**By DEAN SULLIVAN**

They did their best to give us the "Irish Coach Joe Piette said of Iowa's performance in Notre Dame's home track opener last weekend.

But Iowa's "there wasn't as much as expected."

as the Hawkeyes eventually posted a time of 9.9 seconds, which is what it is enough, as the Hawkeyes eventually posted a time of 9.9 seconds. The MCC Pyramid cited a sub par showing by the team as reason for the proportion of the season. However, it was not a totally bleak day in Irish track history as several athletes turned in sparkling performances.

Steve Dziahis tied the par show ing by the team as reason for the season. This will be Notre Dame's first campaign in the Midwest Cities Conference, and Piette has formulated the running team consisting of seventeen ways of the past — including coach Piette. "We've always seen to turn in good performances."

Sophomore Tim Cameron, a hold over from Paine's cross country team, is another dependable runner, as is classmate Van Piere. Paine says that the team's strengths are in the middle distances, in the quarter mile and high hurdles.

With the conference meet to be held Feb. 24 at the MCC, and the outdoor season slated to begin in the middle of March, Piane is looking forward to a good year.

We have another rough schedule ahead of us, but that's for the best for the team," he explains. "Running against good competition creates better performances, which is what we need, all things considered."

We're still optimistic about the remainder of the season. This will be Notre Dame's first campaign in the Midwest Cities Conference, and Piette has formulated the running team consisting of seventeen ways of the past — including coach Piette. "We've always seen to turn in good performances."

Sophomore Tim Cameron, a hold over from Paine's cross country team, is another dependable runner, as is classmate Van Piere. Paine says that the team's strengths are in the middle distances, in the quarter mile and high hurdles.

Joe Bowie said, "I really feel bad for And now I feel like someone just shocked me. I said, "Thanks for the $2 million — me and I don't know when it will." I still believed that there was a chance for the younger players as many of them hockey since I was six," he said. I'd motion and a display of opinion is shown over the FA system. Players were supposed to be transferring to other schools where they would both play hockey and get a commendable education.

"After the season is over and the kids are taken care of, I'll sit down and think about me," Smith said. "I said then we have to concentrate on this season.

The team doesn't seem to be reacting as calmly as Smith is. Yesterday's practice became a release of emotion and a display of opinions rather than a solid work-out session. The team began practice with a mock introduction of all the members over the PA system. Players were supposed to be transferring to places such as "Rossia," the "unemployment lines," and "No man's land.

Each of the team members had a message, a pointed phrase spelled out in tape on his jersey usually directed at the athletic administration. An example was a jersey that said: "Thanks for the $12 million — Father."

The jokes were one way for the team to alleviate the reality of Conigan's announcement.

"They're doing disappiontng," senior Joe Bowie said. "I really feel bad for the sophomores and freshmen. I'd hate to be in their position.

Brent Chapman is one of those sophomores. He've been playing hockey since I was six," he said. "And now I feel like someone just cut my legs off.

The disbelieving was common among the younger players as many of them still believed that there was a chance of saving their educational dreams until Conigan's announcement.

We all had glimpses of hope still shining in our minds," said sophomore Scan Regan. "It hasn't hit me and I don't know when it will.

Freshman Steve Bianchi was in shock.

It's so hard to believe," he said. "I really was optimistic because I wanted the program to continue here and then they just put the plug like that.

One of the captains of this year's squad, Mark Doman, summed up the reaction in the locker room to the news. "No one believes that they (the athletic administration) put their full effort into saving this program," Doman said. "Everyone feels cheated, as if they weren't treated fairly."

The team must learn how to handle all of its emotions as there is a big road to the end of the season.

There are five more home games and an equal number to be played on the road.

"I'm looking forward to the rest of the season," Bowie said. "I think we are all pumped up for the end."

The decision may provide strong motivation for the tryouts. "I think it'll put a little fire in our eyes," Bianchi said. "It can only look better for Chapman, it goes deeper than appearances.

"We're not quitters," he stated. "Now it's a matter of personal pride."

As captain John Higgins put it. "Everyone is a senior now." And everyone will be playing as if this is their last semester, their last performances at Notre Dame.

The bitterness, the anger and the disappointment are understandable and acceptable. Most striking, however, is the sadness of players such as freshman Mark Blessing.

"You lose faith in the University," Blessing said. "I really love this place and I'm really upset it all had to end this way.

can for Notre Dame. They may have lost, but they were playing the top four teams in the league," Smith said. "This is a crucial series for them."

Smith's primary concern is the Broncos sophomore goalie. Glenn Healy who has a 6-1-1 record and a 4.15 goals against mark. Healy is a fine goaltender," Smith said. "I would go as far to say that he is the premier goalie in the league." Smith is confident though that the bright spots he saw in last weekend's series against Ferris State will also show up tonight.

Also - Nachos, Soups, Salad, and Desserts

Free Beer or Soft Drink with sandwich order
one per person

good thru Feb. 4, 1982

---End---
On with the show - this is it

PASADENA, Calif. — It has been anything but a typical season in the National Football League. And Sunday’s Super Bowl is not typical of the games played thus far in this first-ever strike-shortened season.

For a change, there will be a key. The Miami Dolphins and the Washington Redskins, two of the teams that skirted closest during the strike, will meet in the 1ST renewal of the NFL’s championship game.

Both teams worked over the strike with the idea of getting on shape and staying in shape and for being ready for the opportunity to play when and if it came,” said Dolphin coach Don Shula. “Some adjustment needed, no other teams. Our attitude during it (the strike) helped.”

Shula, known for his interrogative offenses, got here this time via a different route. Defense was the name of the game. The Dolphins’ killer bees shut down Dan Rous and Richard Todd in successive weeks to get to the Rose Bowl. But the Redskins have their own fine offense to match.

“When players like Theismann and Riggins are doing this well, it makes us very consistent,” says Redskin coach Gibbs. “Theismann when he gets in a streak like he is in now... just doesn’t give up the half and keeps making his passes. That makes us tough.”

Theismann agrees.

“The Dolphins possess a great defense, but we’re going to do what ever we have to do to win. While the Redskins defense was ranked number one in the league, its offense has shown it can put points on the board.”

“We’re on a roll,” says Dolphin quarterback David Woodley. “Before, I’d call a play and just hope it’d work. Now I call a play and expect it to work.”

This is Shula’s fourth Super Bowl team and he was asked if it is his best.

“I won’t evaluate this team right now,” he said. “When it’s over with you can think back about the ac accomplishments and compare. But now is not the time place, it’s an off-season. We’ve turned this team over. It’s completely different than the last Super Bowl (team). That’s something I look at every year. Are we getting better? Are we working to do the right thing? You’d like to go to the playoffs every year, but that doesn’t happen when you turn it over so much.”

The Redskins were the best team in the NFL this year, losing just one game; yet they are a 3 1/2 point under dog in this game.

Washington quarterback Joe Theismann eyes a receiver in last Saturday’s 31-17 playoff win over the Dallas Cowboys. The Redskins, who, at 11-1 have been the NFL’s best team this season, will face the Miami Dolphins in Sunday’s Super Bowl on Pasadena. Skip Desjardin previews Super Bowl XVII at right.

**For the Redskins...**

“I don’t know if it’s an advantage to be an underdog,” says Gibbs. “But it’s something we’ve dealt with all season. I’m going to tell the players that they don’t get this type of opportunity very often. This, to me, is a lifetime.”

“Making a run at the golden ring is the ultimate challenge. It’s something you always strive for.”

“I told the players that history had provided us with a thumbnail sketch of what a Super Bowl champion is all about,” Gibbs continues. “When I get through listing everything, I said. “This is really a thumbnail sketch of our team.”

Despite the record despite their playoff drive, the Redskins remain a team seeking a measure of respectability.

“People just look at Miami differently than they do us,” says Gibbs. “I just get the feeling that everybody has more respect for Miami than they do for Washington right now.”

Sunday, however, all the statistics, all the games, all the hope will be over. It will be meaningless.

Sunday, 10,000 people will be here to see it all come down to one game.

“This is what it’s all about,” says Shula. “If you’re watching it on TV, you’ll wish you were there. We’re ready.”

Gibbs and the Redskins are more than ready. They’re confident.

“If we play like we’ve been playing all season,” says Gibbs, “we’ll win it all.”

Now, all we can do is wait and see.

In addition to this Sunday’s Notre Dame-CLA basketball coverage from Pauley Pavilion, The Observer will provide bonus coverage of the Super Bowl. Skip Desjardin will complete his series from Pasadena with a report on the game and a feature on the performance of former local all-Americans Joe Theismann and Bob Kuechenberg.

even more here yesterday, as Arizona State’s Cassandra Lander, Nancy Lieberman and Ann Meyers said Notre Dame coach Mary D’Stanislao, whose team fell to 12-5.

Lander grounds ND

Irish at Pauley

By RICH O'CONNOR

For the second consecutive week, a Notre Dame basketball team attempted to be on center stage may have to play second fiddle. Last week the ND championship game, where the Washington Redskins defeated the Dallas Cowboys, was being played at the same time as the Maryland game just nine miles away. As the Irish take on UCLA at Pauley Pavilion, the Super Bowl is just an hour down the freeway in Pasadena.

It was just two months ago that Notre Dame played host to the Bruins during the ‘70 facelift, an Irish squad that started three freshmen gave UCLA a 13-point lead in the first half by a buzzer-banger roll by Ralph Jackson. The second game of what was billed as the Triple Crown of Notre Dame home basketball (Kentucky, last week and the Denver Broncos this week) saw the Irish rally from an eight-point deficit in the second half to force ties at 47, 51, 55, 55 and 57, before the lead eroded Notre Dame set up a final John Paxson jumper gave the Irish a 62-61 advantage with 31 to play.

With UCLA’s Kenny Fields and Pauley both converting a pair of key baskets, the Bruins pushed their lead to 64-61 with just 23 to play. This time, it was back to gam ing-show.

But revenge will not be the only reason for Coach Digger Phelps squad UCLA is now the nation’s top team. The Bruins have a reputation for knocking off the nation’s best, and during the second half against a team that has been an 8-7-1 double overtime loss to Maryland in late December.

Its exciting to go out and play a game against the No. 1 team in the country,” says Phelps. The pressure will be on them. You can go out and beat them or get blown out, but its always a war.

Two years ago, in a airplane hangar called the Rosemont Roundhouse, a group of seniors named Wadoodie, Tripney, Jackson quarter backed by a sophomore named Paxson, along with a center tandem of Anferd and Kelene, were victorious over Western Michigan 52-48. Ralph Sampson was held to just ten points as the Bruins ended winning streak being an 8-7-1 double overtime loss to Maryland in late December.
