Notre Dame shows 'progress' in salaries

By KEVIN RINGER
Staff Reporter

Notre Dame has made "extraordinary progress" in raising faculty salaries, according to a study by the Office of the Dean of Administration. Salaries for faculty have been raised an average of 46 percent over the last four years, the report notes, and, using statistics made available annually by the Association of University Professors (AAUP), it documents.

In jump in average 9-month faculty salary levels by Notre Dame over other doctoral-granting research universities is as follows. Average salaries for full professors at Notre Dame ($45,719) went from a rank of 94th to 53rd between 1978-79 and 1982-83. Those for associate professor ($31,305) went from a ranking of 62nd to 21st and those for assistant professor ($25,090) went from 9th to 18th.

The University, the report says, is very near its goal of achieving an AAUP rating of "1" (top 20th percentile) for average salaries in all teaching ranks. In 1982-83 it achieved this rating for all but full professors. When Notre Dame is compared to with a group of 10 peer universities, including Princeton, Johns Hopkins, Northwestern, Duke, and Brown, it again lost only at the rank of full professor. Seven of the ten schools have higher average salaries at that level. At the associate level, however, only three of ten are higher than Notre Dame, and only two of ten at the assistant level. In another comparison, this time with Big Ten universities, only three were ahead of Notre Dame at the full professor level, while Notre Dame had a higher average associate professor salary than all Big Ten schools. Only two Big Ten schools paid assistant professors more.

South Shore cleans up act—'Vomit Comet' gone forever

They're gone. Those burnt orange and maroon cars of the Chicago South Shore and South Bend Railroad made their final run last Sunday at 9:40 a.m., six late 1920s vintage electric cars left South Bend's Amtrak station on their way to downtown Chicago.

Before a one-hour five-minute run, the train brought out every train buff and television camera crew in the area. “The Little Train That Could” was to move out of existence Oct. 1.

Most of the old cars will be sold to collectors or museums, according to Richard Bunton, South Shore's passenger traffic manager. One such collector, a L.S. Ayres & Company employee, from an eastside shopping mall last March, then murdered her. Her body was found on the ground.

Fewer drunken drivers and the increased use of seatbelts help explain a drop in the number of highway deaths reporting the first five months of this year, safety officials say. The National Safety Council stated Tuesday the rate of traffic deaths across the nation from January to May was the lowest since 1980, when the council began keeping records. In the first five months, there were 2.7 deaths per 100 million vehicle miles. This compares to 2.93 for all of 1982, the lowest yearly average on record, said Barbara Carraro, the council's supervisor of motor vehicle statistics. The first five months of this year were 16,530 traffic fatalities compared to 17,280 over the same 1982 period, a drop of 4 percent. The figures indicate there is more awareness of the dangers of driving, more drivers obeying the 55 mph speed limit and less drinking while driving, council officials said. Mr. Carraro could not project a death rate for the remainder of 1983 or predict an average per 100 million miles that would be lower than last year. — AP

James A. Harris, who is charged in the parking lot abduction and murder of Jane Brumblay, was convicted yesterday in Indianapolis of raping a woman in a downtown parking garage. A Marion County Superior Court jury deliberated about two hours before convicting the 28-year-old Indianapolis man on charges of rape, sexual deviate conduct and confinement while armed with a knife. He was accused of confining a 25-year-old Indianapolis woman to her car and attacking her at the Market Square parking garage June 22. During testimony Tuesday, the woman identified Harris as her assailant. Harris faces 20-120 years for the convictions. Judge Thomas E. Alsip ordered a pre-sentence investigation and scheduled sentencing for Oct. 20. Harris is scheduled to go to trial Nov. 28 on charges he kidnapped Mrs. Brumblay, an L.S. Ayres & Company employee, from an eastside shopping mall last March, then murdered her. Her body was found in the locked trunk of her car. — AP

Andropov condemns talks ‘prattle’

Associated Press

MOSCOW - Soviet leader Yuri V. Andropov yesterday condemned what he called American "unwillingness to conduct serious talks of any kind" on arms control.

He dismissed the "so-called new move" by President Reagan to limit nuclear weapons in Europe as nothing essentially different from previous U.S. proposals.

The official news agency Tass carried excerpts of what it said was a statement yesterday by Andropov containing the Kremlin leader's first reaction to Reagan's new offer.

Reagan told the United Nations on Monday that Washington was willing to forge deployment of an unspecified number of the 572 Pershing 2 and cruise missiles NATO plans to start installing in Europe in December and to negotiate on reducing the number of planes able to carry nuclear weapons - if the Soviet Union reduces its medium-range missile force.

Nixon endorses aid to Nicaragua

Associated Press

WASHINGTON - Former President Richard Nixon said yesterday the United States must combine long-term military and economic support for friendly Central American countries to help deter the spread of Marxism throughout the region and into Mexico.

Speaking to reporters after testifying to the National Bipartisan Commission on Central America, Nixon endorsed U.S. covert operations in Nicaragua. He said a Marxist victory in El Salvador "would mean another Soviet base in America," Nixon said defense of El Salvador is crucial to future stability in the region.

If the leftist guerrillas triumph there, "the impact on the surrounding countries and on Mexico could be enormous," he said.

The former president, 70, walked with a slight limp after emerging from his two-hour closed-door appearance that reunited him with the man who was his foreign policy assistant, Henry A. Kissinger, the commission chairman. It was Nixon's first visit to the State Department since leaving the White House nine years ago.

Kissinger thanked Nixon for a "very comprehensive and extraordinary" statement. Nixon was his foreign policy advisor from his two-hour closed-door appearance that reunited him with the man who was his foreign policy assistant, Henry A. Kissinger, the commission chairman. It was Nixon's first visit to the State Department since leaving the White House nine years ago.

China, U.S. to discuss arms sale
Associated Press

PEKING - Defense Secretary Casper Weinberger said yesterday that China and the United States have started talks that could result in the sale of U.S. arms, and that President Reagan and Premier Chao Zong will exchange visits next year.

After discussions with top leader Deng Xiaoping, Zhao and Defense Minister Zhang Aiping, Weinberger told reporters in Peking, "On the basis of the work here, I am really confident that we have secured the basis for a continuing relationship that will add greatly to the ability of both countries to deter war and thereby increase the chances of peace."

He said Zhao will visit Washington in January and Reagan will come to China in April. Zhang also is to visit the United States but the time has not been arranged, Weinberger said.

Funeral becomes protest
Associated Press

MANILA, Philippines - A memorial service for an impoverished Filipino shot through the head during anti-government riots turned into a demonstration against President Ferdinand E. Marcos yesterday. Students paraded with clenched fists, chanted and sang nationalist songs.

Marcos, meanwhile, claimed the mounting political turmoil posed little threat to his 18-year-old regime. "Don't fear that we are in any way panicked or paralyzed by this terrorism," Marcos said in a nationwide radio and television address. "We never panic, you know that."

But Butz Aquino, brother of assassinated opposition leader Benigno Aquino, claimed that government officials "see the handwriting on the wall, that he (Marcos) is ready to go at any time."

"All I can tell you is that we will not stop until freedom of the Philippines is achieved. We will fight until death," Aquino told the church crowd which, after the service, marched several blocks to a funeral home where the body of Benjamin Tamayo, a 25-year-old junk dealer, was on display.

Tamayo was shot through the head during anti-Marcos demonstrations last week, which also left 10 others dead. The special Roman Catholic Church service for him was attended by 250 people, mostly students, who chanted, paraded with clenched fists and sang nationalist songs.

A banner reading "Oust the U.S.-Backed Marcos Regime" was strung up in the Church of St. Anthony. Another opposition leader, ex-Senator Rene Espina, told the congregation, "He (Marcos) doesn't have to be killed. All he has to do is resign."

Three priests and a deacon carrying a casket led the procession to the funeral home. The group said Tamayo was a victim of Marcos' repressive regime, but the slain man's mother said he was an innocent bystander who was caught up in the riots when shopping for the family's food.

Clipped to Tamayo's coffin was a black mourning pin like those worn by supporters of Aquino. The pin carried the opposition's rallying cry, "Ninoy you are not alone." "Ninoy" was the nickname of the opposition leader who was assassinated August 21 as he returned from voluntary exile in the United States.

...A man’s reach
should exceed
his grasp, or what’s
a heaven for?
— ROBERT BROWNING

Watt continued from page 5

...sometimes some of us
have to maybe do things to help
our president that is easier for some
people to do maybe than the presi­
dent himself.”

Meanwhile, Rep. Edward
Marker, D-Mass., and Stewart
McKinney, R-Conn., introduced a
House resolution worded almost
identically to that sponsored by
Byrd.

But one Republican senator who
earlier said that Watt should
consider resigning, Sen. Larry
Pressler, R-S.D., said yesterday he
now will oppose such a call.

“I have said that Watt should
apologize profusely or resign. I
believe that he has apologized pro­
fusely,” Pressler said.

The senator said anyone
 nominated by Reagan to replace
Watt “would have the same
philosophy anyway. And it would
take four to six months to set a new
team in place.”

Baker cited Pressler’s decision to
support Watt as one indication that
the tide may have changed in
Watt’s favor in the GOP-run
Senate. “In a situation like this, the
human element becomes impor­
tant. Logic doesn’t always apply
entirely,” Baker said.

Over the past few days, Watt’s
congressional allies, including Sen.
Paul Laxalt, R-Nev., a close friend
of the president, have mounted an
aggressive lobbying campaign on
Watt’s behalf.

A survey conducted by Baker’s
office showed that, while a major­
ity of Senate Republicans would
support Watt in a showdown, the
anti-Watt “sense of the Senate”
resolution sponsored by
Democratic Leader Robert C. Byrd
of West Virginia might prevail if
the vote were taken soon, sources
said.

Baker’s office declined to
disclose the breakdown.

“It looks now like Watt would
lose, but just narrowly,” given the
high degree of Democratic support
for the resolution, said one GOP
source, who asked not to be iden­
tified. There are 55 Republicans
and 45 Democrats in the Senate.

Byrd’s measure is an amendment
to a nonrelated State Department
bill expected to be debated next
week.

Pay continued from page 5

“Our progress in raising faculty
salaries during a period of
economic downturn speaks to the
commitment we have to keeping
and attracting the very best
teachers and scholars,” commented
Professor Timothy O’Meara, Pro­
vost of the University.

The report also points out that
Notre Dame salaries buy more than
at peer universities because the cost
of living in South Bend, as reported
by the American Chamber of Com­
merce Researchers Association, is
lower than that in locations of peer

Steelcase interviews: October 18, 1983
Underestimating the liberal arts major

There is a growing trend in the country and this university to underestimate the value of non-engineering majors. The number of engineering majors is soaring, and with it the tendency to believe that English, history, philosophy and other non-technical majors are worthless. I am repeatedly asked, in the Library, "How can I get to O'Shag from the Rock?" or "Who is the Campus Tour guide?" I am merely pointing out the value of both.

Maura Mandycz

Perspectives

tones ranging from open skepticism to condescension, one event that I intend to "do" with my English major. "Do you want to be a teacher?" I am asked. I am envied because I have no homework. Apparently copious reading assignments do not constitute "real" homework.

I am confuse about the role of the Library, and whether the topics of my courses are related. I am merely pointing out the value of both. Those students, myself included, who find math incomprehensible and boring may have a legitimate reason for feeling that way. Mathematics is the language of science and engineering, and the free expression of varying opinions on campus, through letters, is encouraged to eradicate our ignorance and cultural relativism.

ND Rugby "tries" to win

The Notre Dame Rugby Club upped its A-side record to 2-1 by beating Ohio State last weekend, 12-7. The A-side match was played for the Cantwell Cup, a traveling cup between the two schools. Notre Dame is now 3-1 in games played for the Cup. "It was good for us," Club President Geoff Bronsden said of the game.

Roundtown Madden and John Sweeney each had a try, and Steve Schreuder went 3-for-2 on conversions.

The B-side continued their undefeated, unscorded-upon year by defeating Ohio State, 40-0. Bill Weiler scored a try and Smokey McCabe played an excellent game for the B-side.

The C-side didn't fare as well, however, losing to OSU by a 10-3 score. Senior Dave Desautels had a penalty kick and Abdul Mapother played an outstanding game for the C-side.

The club continues its season this Saturday at 1:30 against the Cleveland Rovers behind Stepan Center.

... Drugs

continued from page 12

"There is no question that professional basketball players are role models for young people all over the country and particularly in inner cities," Lanier said. "By telling the world that we as professional players will not tolerate the use of illegal drugs, we are setting a new standard, something that is absolutely essential in today's environment."

No players will be subject to suspension prior to the "amnes­ty period," which ends Dec. 31 this year, according to the agree­ment. In the meantime, all players will be informed in writing and in person at team meetings of the crackdown.

Drugs

continued from page 12
The Los Angeles Dodgers, despite being rained out last night after 14 innings in San Diego, clinched at least a tie in the National League West race as the Atlanta Braves split a double-header with Houston. The National League East title was claimed yesterday by the Philadelphia Phillies, who defeated the Chicago Cubs, 13-6.

Confident Wisconsin-Milwaukee finds Notre Dame down on luck

By MIKE SULLIVAN
Sports Editor

Luck just has not been on the side of Notre Dame volleyball team this year. The first, the team’s best player suffered a stress fracture of her leg before the season even started, and, as if to add to their misfortunes, five starters were forced to the bench with injuries. Now, just when the injuries were starting to heal and the team was trying out its new players, it was faced with a tough foe in a surprisingly tough team from Wisconsin-Milwaukee. The Panthers only added to the Irish troubles by defeating their hosts, 15-13, 15-5, 15-3.

The score was really not indicative of the match, however, as both teams produced some excellent play, including some of the longest volleys that the Irish have had in the ACC Pit in two years. The difference was the inability of Notre Dame to set up a consistent offense and defense.

"The girls seemed to be afraid to set up any kind of offense," said coach Sandy Vanlager. "They were running small and things got sloppy on both offense and defense." Not as sloppy as things have been in the preceding games, however. The effort last night was one of the best of the year at home. The only problem was the erratic play that allowed Wisconsin-Milwaukee to win the match in two sets in the first game.

The Notre Dame score was set up by the players' confidence after they had lost the first two games. The Irish were able to pass the ball right on center and that allowed us to run the offense, "said Vanlager. "The girls seemed to be afraid to set up any kind of offense, but they were able to score in the middle." The Notre Dame scoring stopped after the first game, though, as the Panthers gained confidence and the Irish lost some.

The Notre Dame defense, however, was still able to score in 5-3 in the second game, Sue Potochick, serving for the Panthers, began a streak that saw her win the next ten points and the set. The streak was broken by a long serve that won the points, but rather some hesitant play by the Irish and some effective net play by Blair Kiel, Notre Dame's starting quarterback for 7 more than three seasons.

Still, the Notre Dame defense was able to contain the game. The Irish were able to score in the middle of the game, but still lost the match, 15-13, 15-5.

At Colorado

Beuerlein to start for the Irish

By DAVID DZIEDZIC
Sports Editor

The Observer has learned that freshman Steve Beuerlein will be the starting quarterback Saturday when Notre Dame faces Colorado at Colorado. Beuerlein will replace senior co-captain Blair Kiel, who had been the starting quarterback for the better part of the last two seasons.

Head Coach Gerry Faust, however, has made it clear that this decision has been made concerning Saturday's starting quarterback. "We won't make a decision until later in the week," he said.

Kiel, reached at his apartment last evening, would not comment. Beuerlein said that the coaches had told him that he will see playing time on Saturday, but that is under consideration.

At his weekly press conference Tuesday, Faust discussed the controversy, only to confirm that "he hasn't wavered as far as his ability or as a person," he said. "But it has wavered as far as his making decisions on the field. "Blair is trying to make a hard decision to learn to relax." The comments are different from the remarks Faust made after Saturday's loss to Miami. At that time, Faust indicated that Kiel would retain the starting job despite Beuerlein's impressive performance.

"Blair's still our quarterback because he's been there before," Faust said following the game. "But Beuerlein has replaced the majority of the last two practices with the first offensive unit, and has looked impressive in each outing."

The controversy began when Kiel had difficulty going up against the Hurricanes. He completed only nine of 21 passes for 81 yards and was intercepted twice. Beuerlein replaced Kiel on two occasions. Although he failed to lead the Irish into the end zone, Beuerlein led three impressive drives, completing 13 of 23 passes for 145 yards.

The undefeated Belles easily won the match by a score of 8-1. In singles play, the Belles dominated the court, winning all six matches. Junior captain and No. 1 singles player Debbie Laverie won her match, 6-1, 6-0, while freshman Caroline Zern, filling in for the injured Mary Ann Heathman at the No. 2 spot, won 6-0, 6-0. Junior Allison Pellar and sophomore Kristen Beck, Heather Temenos, and Betsy Boyle also defeated their opponents with little trouble.

In doubles play, the No. 1 pair of Laverie and Beck quickly chalked up a victory by a score of 6-1, 6-0. The Belles are off to a good start in defending the NAIA state championship.

Second-year coach John Killeen says he was pleased by his team's performance. "We have improved a lot from last year and this year we are challenged more with each match," said Killeen. "Competing against a strong Wisconsin-Milwaukee team that defeated the Irish yesterday 15-13, 15-5. 15-3. See related story at left.
