Frozen in their tracks

While their owners cleared out for break, these cars in the U-2 parking lot were left behind to experience a white Christmas. South Bend style: All left, a frozen auto awaits a new life, while the car above has just escaped from its snowbound state.

Student dies during Christmas break

A memorial Mass will be held tonight at St. Joseph Medical Center after a sudden illness. He was stricken with flu-like symptoms on Christmas night and was hospitalized on Dec. 28. The next day he was transferred to the cardiac care unit at St. Joseph where he died three days later.

Furuhashi died New Year's Eve in the coronary unit at St. Joseph Medical Center after a sudden illness. He was stricken with flu-like symptoms on Christmas night and was hospitalized on Dec. 28. The next day he was transferred to the cardiac care unit at St. Joseph where he died three days later.

Furuhashi was a 1983 graduate of Clay High School in South Bend where he belonged to the track team, French Club and National Honor Society. He had just completed his first semester at Notre Dame where he made the Dean's List. A memorial scholarship fund in his name has been established at the University through the Office of Campus Ministry.

After a Mass in Sacred Heart Church on January 3, Furuhashi was buried in Cedar Grove Cemetery on Notre Dame Avenue. Several of his friends from Morrissey returned to campus to attend the funeral.

Furuhashi is survived by his parents, Dr. and Mrs. Yusaku Furuhashi, and a sister Maru. Dr. Furuhashi is the associate dean of the College of Business Administration.

Student Reporters

Several of the hall food sales, which were shut down for health violations by the Student Affairs Office at the end of last semester, have reopened after passing a second inspection.

But many remain closed pending a follow-up inspection according to Vice President for Student Affairs Father John Van Wolvlear.

As of late night, food sales in Breen, Breen Phillipps, Carroll, Grace, Dillon, Hammer, Holy Cross, Howard, Pangborn, Stanford, and Zahm were reported to have reopened.

Food sales operations still shut down include Alumni, Cavanagh, Farley, Fisher, Keenan, Lewis, Lyons, Morrissey, Pasquerilla East, Pasquerilla West, St. Edward's, Sorn, and Walsh halls, according to food sales managers and dorm rectors.

A letter outlining the health guidelines to be followed by dormitory food sales will be sent to hall rectors and student managers. Van Wolvlear said yesterday.

The guidelines will not prohibit the food sales from selling specific foods but will specify measures that the dorm-operated food sales will be required to follow.

"Within the next two days we're sending the rectors two copies of guidelines that (Environmental Health and Safety Specialist Michael) McCauslin has set up," Van Wolvlear said yesterday.

The guidelines are not the same as those issued by the state or county for use in restaurants or those followed by the dining halls. The Huddle and other campus food serving businesses, McCauslin said, "They have nothing to do with the St. Joe County Health Department."

He added that the guidelines were "just drawn up for our office," and were designed as "have general guidelines for food sales operators."

An inspection program to be conducted by the Health and Safety Office is also being planned, according to Van Wolvlear.

McCauslin noted, however, that he has not yet discussed this program with the Student Affairs Office, "I foresee some type of inspection but I have no idea what it will be or with what frequency," he said.

He added that he hoped to have the program set up by the end of this semester.

The food sales were shut down during final exam week of last semester, approximately a month after an inspection following the death of the campus Environmental Health and Safety Office uncovered various health violations.

"A letter was sent out that ceased food sales until further notice. McCauslin inspected some and some have been reopened," Van Wolvlear said. He added that those still closed will be reopened pending McCauslin's approval.

This is the first time that managers of hall food sales have been given guidelines to be followed. McCauslin said. He added that he didn't know why any guidelines haven't been issued previously. "I don't think this problem had been recognized as a problem."

"Nobody was aware of the magnitude of the food sales."

The state of the food sales have notably improved, according to McCauslin. "I've seen improvement already by fact of the publicity that they've gotten," he said.

McCauslin said he is "more than happy to help" the food sales rectors with an inspection. "I might have some concerns about their health and safety measures."

The state of the food sales have notably improved, according to McCauslin. "I've seen improvement already by fact of the publicity that they've gotten," he said.

President of American college in Beirut killed

Associated Press

BEIRUT, Lebanon - Two men with a silenced-equipped pistol killed the president of the American University in Beirut, the highly respected campus official yesterday.

Malcolm Kerr died instantly from a bullet in the head.

An anonymous caller said a pro-Iranian group called Jihad Islami, or Islamic Holy War, was responsible for the slaying. The caller demanded that the United States and French troops in the multinational force leave Lebanon "or we will shake the earth under their feet."

U.S. special Middle East envoy Donald Rumsfeld arrived from Israel shortly afterward and met for five hours with President Amin Gemayel. State radio said they discussed ways of easing tensions in Lebanon.

In Washington, President Reagan said, "Dr. Kerr's untimely and tragic death at the hands of these despicable assassins must strengthen our resolve not to give in to the terrorists."

Kerr, 52, a Beirut-born American known as an expert in Middle Eastern affairs, was shot at 9:10 a.m. (2:10 a.m. EST).

Witnesses said they did not hear the shots, but only the sound of Kerr's books, briefcase and umbrella hitting the floor.

Assistant Dr. Ahmed Harati said a 7.65mm fatal bullet pierced Kerr's head from the right temple and exited just above the left ear, leaving a massive brain hemorrhage.

The respected, gray-haired professor was the university's ninth president and took over in September but with this new role. David Dodge, was in the hands of pro-Iranian kidnappers. Dodge was freed July 1 after a year.

Calls from the same group also have claimed several other attacks, including the Oct. 25 suicide truck bombings at the U.S. and French military bases in Beirut. But proof of the group's existence has yet to emerge and one radical Shiite Moslem, Shiek Hussein Fadlallah, said, "This organization does not exist. It is a telephone organization."
In Brief

Father Theodore Hesburgh, University president, and William F. Buckley, Jr., editor-in-chief of the National Review, discussed the position of American Catholic bishops on nuclear warfare last week on Buckley’s Public Broadcasting Service program, “Firing Line.” The hourlong discussion aired locally on Channel 22 and was carried by other PBS stations across the nation. — The Observer

Preference forms for job interviews scheduled on Jan. 20 and the week of Jan. 30 are due before 5 p.m. today. Students can turn the forms in at the Career and Placement Service. Room 215 Administration Building. — The Observer

Dr. Joseph Hogan, dean emeritus of Notre Dame’s College of Engineering and a Notre Dame fellow member of the American Society for Engineering Education, has been selected as a charter fellow member of the American Society for Engineering Education. The fellow grade of membership was established this year to honor a great number of outstanding ASCE members and is given by invitation only. Hogan joined Notre Dame in 1967 as dean of the College of Engineering. He resigned the deanship in 1980 and became the first Notre Dame faculty member to achieve emeritus status at retirement age. He currently represents the University in professional societies and industry. Hogan is a past president of the ASCE. — The Observer

Bishops’ letter on economy: a push for real democracy

Inside Thursday

Paul McGinn

Cnn.com doesn’t go away any way how it couldn’t be anti-Reaganomics, said Rosazza. But the personal letter will do more than attack free market enterprise and advocate socialism — it will be a continuing call to democratize and communalize the U.S. political system. By democracy, the bishops mean the concept of its most radical faction — open participation by all citizens in government. It’s not a foreign theory by any means, either: it’s as American as the old fashioned New England town meeting where everyone’s vote counts as much as everyone else’s. By community, the bishops do not mean Marxism, said Rosazza, instead, they want to in still within the government a sense of commitment to people, not corporations or special interest groups.

Some want the bishops to tell U.S. politicians that democracy should extend beyond the level of voting for a particular person. Politicians should “widen the scope of the decision-making process” to allow more people to take part in the running of government, said Daniel Finn, economics department chair and social ethics professor at Saint John’s University in Minnesota. The four parts of the letter — economic planning, plight of the poor, employment and U.S. trade with developing nations — argue that the belief that economics is not a science of numbers only. As Hesburgh told the bishops committee, “Economics does not exist in a vacuum — it exists for people.”

Observer note

The Observer is always looking for new talent. If you are interested in newspaper writing or newspaper production, stop up at The Observer office on the 3rd Floor of the LaFortune Student Center.

Of Interest

Many have called, but few will be frozen. That’s the prediction for tonight when 500 people — including 250 Emi­lians — will be on hand to watch a local club of the national organization. That’s called tubing, a sport that’s not in the Olympics but ought to be, according to Freshman Dean Emil Hufman. Student Union is sponsoring a bus for 50 upperclassmen, and room is still available. Sign-ups are being held at the Office of Student Activities, tonight in the LaFortune Center. — The Observer

A club presidents’ dinner, sponsored by the Office of Student Activities, will be held tonight in the LaFortune Student Center. The presidents of all undergraduate student organizations are invited to the reception beginning at 5:15 p.m. on the first floor, and the dinner, beginning at 6 p.m. in the Ballroom. Club presidents who did not receive an invitation should feel free to attend. — The Observer

Student government officials will be conducting talks with students in the individual dormitories tonight. A student senator and either the student body president, vice president or one of the executive coordinators will be present at each dorm. The talks begin at 7 p.m. in Cavanagh, Carroll, Pangborn, Pasquerella West and Sorin halls. The 7:30 sessions will be in Breen-Phillips, Farley, Ferris and Holy Cross. All other halls had talks last night. — The Observer

Weather

The days of C.O.Y.O. boxing are still alive, but the matches no longer pit two sweating halles wearing silk shorts. Instead the participants wear palliums and neckties and they are known as bishops or Republicans.

Sparring in a ring the size of the world they have picked corners according to their views on nuclear deterrence and capitalism.

With the pastoral on peace and war tucked firmly in their boxing gloves, U.S. bishops again are ready to do battle with the Reagan administration, this time over the administration’s economic policies.

The upcoming pastoral, “Catholic Social Teaching and the ‘American Dream’” will be released in late November. The “two” in the U.S. bishops’ one-twofist punch which should shake up an administration which has the habit of telling clerics to stay in pulpits. The bishops of course do not agree.

They point out as lay leaders want a chance to say what is on their minds and have an input into U.S. government works. “We do have a right to say what we feel and think and be a part of the commonsense of public policy,” said Archbishop Rembert Weakland of Milwaukee, chairman of the committee which will draft the pastoral letter.

Weakland, along with others, claims that bishops should not be involved in economics “very un-American.” The bishops are not without Catholic critics also. Many persons who silently dissented when the bishops entered the nuclear debate are voicing opposition to the upcoming pastoral.

Notre Dame President Theodore Hesburgh told the bishops committee it may have been easier for them to write their pastoral letter on peace and war than it will be to write the economics letter.

Meeting here last month, the bishops’ five-member committee spoke with theologians, politicians, economists and other decision leaders to discuss what should go into that letter.

At first glance, the conference might seem an attack on Reaganomics and a backbone endorsement of the Democratic candidate for president in November.

But the strategy behind the upcoming economic pastoral is more than the unseating of President Reagan. Without a doubt the economics pastoral will say something along the lines of Reagan policies, said committee member Bishop Peter Rosazza of Hartford.

Gene Paszkiet, head trainer, dies

By MARK WORSCHEH

Gene Paszkiet, the head football trainer at the University for 31 years, died Jan. 6 in Chicago's Bernard Mitchell Hospital.

Paszkiet, 62, had been a patient in the hospital since Dec. 26. A 1950 graduate of Notre Dame, he served as a student assistant for two years before returning to become trainer of all athletic teams here. Paszkiet was inducted into the National Hall of Fame for Athletic Directors last June.

Paszkiet was "a Notre Dame man through and through," said Gerry Faust, head football coach. "He was not only an excellent trainer, but he had an excellent rapport with young people." Faust said the football team dedicated the game ball to Paszkiet two years ago against U.S.C. and "it was the first time I ever saw him speechless. We will really miss him dearly."

The workshop is not going to just be an intellectual exercise," said Faust, but a place where one can get the "tools" to put one's social conscience and career together.

Natural family planning method works well, says Washington M.D.

By BARBARA HARDIN
News Staff

An advocate of natural family planning, Sister Hanna Klaus, a medical doctor and director of the Natural Planning Center in Washington D.C., said last fall that the natural method of birth control is one that "works — and works well." As a Medical Mission sister who, as worked in many Third World countries, Klaus has encountered natural planning among many couples with successful results.

Natural family planning, other wise known as the Billings Ovulation Method, was devised as a more effective alternative to the calendar and temperature methods which were generally inefficient. Klaus explained simply that as the ovary in the female reaches a particular level of estrogen, mucous flows from the cervix. During this time of fertility, the lining of mucous from until the fourth day after its peak, a woman should abstain from sexual intercourse if they do not desire conception.

Klaus, a doctor of obstetrics and gynecology at the St. Louis University School of Medicine, showed her audience a series of slides to explain the process in detail. Klaus said the Billings Method has a 2 percent failure rate, a rate lower than that of artificial birth control devices.

She said there have been 100,000 new users of the method since 1980. Klaus described the method as the only one that demands both partners to cooperate and expressed her feeling that abstinence is not difficult for couples who love each other. To reaffirm this statement, she looked out at the audience and smiled, saying, "As I look around this room, I see everyone quoting abstinence!"

Campus Ministry at Notre Dame plans to begin classes in the near future on fertility awareness to all interested students.

Law School expansion announced

Special to The Observer

It's a PACE report dream come true.

A $1 million expansion of the Notre Dame Law School has been announced by the University — a move that was recommended by the Priorities and Commitments for Excellence committee.

A university press release Thursday morning, by Rev. Theodore Hesburgh, University president, on Nov. 30, 1982. Improving the library facilities a major reason for the extension. The Legal Library now has about 160,000 volumes, and its new capacity will be approximately 300,000. Law School Dean David T. Link said there would also be additional classrooms and office space, as well as a new court. Enrollment of the school, now approximately 700, will increase slightly.

The expansion, which includes an underground passage as well as three above ground stories, is expected to be the east and southeast of the 54-year-old Gothic building. It will add approximately $5,000,000 square feet of space. The Bloomington, Minn., firm of Elterbeck, Associates and Engineers has been retained to draw up plans.

The addition is the latest in a long tradition of expansion for the Notre Dame Law School, founded in 1869 as the nation's first law school under Catholic auspices. Most recently, it underwent a $1.6 million renovation in 1972-73.

O'Meara said the University soon would announce a fundraising effort to offset the cost of construction. He noted that the addition, coupled with a new Notre Dame Law Center in London dedicated last July, "are significant steps towards achieving the high expectations we have for the Law School.

Doctors in Kentucky hope for 1st test-tube pregnancy

LOUISVILLE, Ky. — Doctors at a Louisville hospital removed eggs from a 52-year-old woman Tuesday in the first attempt in Kentucky to conceive a baby in a plastic dish.

Dr. Martin Vossman, director of the hospital's new in-vitro fertilization clinic, said the eggs would be retained to determine whether they had been mixed with sperm from a husband.

The Jefferson County woman, who requested that her name not be used, has been unable to conceive a child normally because her Fallopian tubes are blocked.

The so-called "test tube baby" procedure, does not guarantee pregnancy, Vossman said.

MBA taxation concentrate scheduled to begin in June

by BOB VONDERHAED

MBA students at Notre Dame will be able to concentrate in taxation according to a new sequence of studies planned to begin in June.

The degree offered will be one of the hottest on the college employment market, according to James Wittenbach, coordinator of the program.

Representatives of some major accounting firms have asked the College of Business Administration to begin such a program. About 50 college already offer the taxation concentration, including five of the Big Ten schools.

"I expect the programs to really be going after these students," Wittenbach said. "I can virtually assure anyone with this degree that they will get several job offers." An increasingly complex series of tax laws enacted during the last 15 years has forced public accounting firms and other financial institutions to go searching for highly trained tax professionals.

Officials of two major accounting firms in the U.S. have reported doubling and tripling the number of any specializations on their staffs in the last five to seven years.

The goal of the taxation sequence, Wittenbach said, is to train students to integrate tax factors into business planning and other decision making.

More and more, accounting firms must be able to speak the same language as other professionals, especially lawyers and auditors.

A core of 19 hours of tax courses will be included in the 11-month program which extends through one summer session and two regular semesters. One or more class in the Notre Dame Law School will also be required.

## Arts and Letters to start institute

Directed by Arts and Letters Associate Dean Nathan O. Hatch, the institute will be composed of two committees. The Planning and Priorities Advisory Committee will serve as a resource to assess the college and its departments and aid in long-range planning. The Development Advisory Committee will assist with financial development, proposal writing, and foundation relations.

The institute has four goals. To pursue active self-assessments of the college, its departments and faculty members; to promote greater involvement by departments and faculty in the broader academic community; to explore more creative means of faculty recruitment; and to initiate a broad program of faculty development, especially to seek funding sources and match them with faculty research.

### Burst pipes only security worry

By JOHN NEBLO

Two reports of theft in Stanford Hall were the only incidents of note during an otherwise quiet Christmas break, according to Notre Dame Director of Security Glenn Terry. The thefts in the South Bend sub-zero temperatures caused many of the water pipes on campus to burst. After discovering the burst pipes, security officers were assigned to accompany the repairmen and oversee the repairs.

Meanwhile, two students reported — in separate incidents — that their rooms had been broken into. A class ring and a Sony cassette recorder were reported stolen. Security has no leads as to who may have been responsible and believes there is little chance the goods will be recovered, said Terry.

"I feel sorry for them," said Terry.

According to Terry, several special security measures were taken during the break. Alarm systems were set up in dorms which have been chronically plagued by thefts in the past and seven extra security guards were hired to oversee the installation of the new telephones.

## Think training. Think Merrill Lynch.

We offer four training programs that can separate you from the crowd and put you on a fast track to success:

### Corporate Intern Program

An 18-month training program encompassing sales, research, trading, marketing and finance which exposes you to the financial services industry.

### Accelerated Operations Management Program

Train to direct and control a staff responsible for processing transactions and maintaining customer accounts in this 9-month program.

### Corporate Systems Program

Three months of classroom training will prepare you for a career in either Systems Programming or Business Applications.

### Operations Intern Development Program

A two-year program combining classroom and on-the-job training provides an overview of the operations functions that support Merrill Lynch products and services.

See your Placement Office, or write for an application to: Merrill Lynch, One Liberty Plaza (365 Broadway), New York, NY 10006.

We'll be on your campus TUESDAY, FEB. 7

Merrill Lynch is an Equal Employment Opportunity employer and encourages applications from females, minorities and all other persons.
Soviets said to violate arms control treaties

**Associated Press**

WASHINGTON — Public charges by the Reagan administration that the Soviet Union might be violating arms control treaties will only hamper efforts to reach new agreements to curb nuclear weapons and acre the two former chief U.S. negotiators said yesterday.

Gerard C. Smith and Paul Warnke said in a new conference that the administration should have exculsively all private and diplomatic means of trying to assess the extent of Soviet cheating before going public with the charge.

Smith was chief negotiator of the SALT I arms control agreement concluded between the Nixon administration and Warnke headed the U.S. team that negotiated the SALT II treaty in 1979.

U.S. complaints about the alleged Soviet violations were raised at a meeting of representatives of the two countries last fall, but the Soviets have not formally responded, Smith and Warnke said.

They said the administration should have awaited a Soviet reply before it made public claims of violations.

"We have to ask whether the administration is more interested in charging violations than in preserving treaties," Warnke said.

The administration, in a classified report prepared for President Reagan to submit soon in response to a request by Congress, is accusing the Soviets of two violations and five "probable" violations of several arms treaties and misunderstandings.

Details of the allegations were made public Friday by a senior State Department official who spoke only on condition that he not be identified. The report includes charges that the Soviets illegally tested two new intercontinental ballistic missiles, instead of the one permitted under the 1979 treaty, and that misleading data is transmitted from missiles in flight.

"Nothing is really new in any of these claims," Smith said. "They have been around for a long time."

"It's certainly premature to make these charges at this time," said Warnke. "Facing them with a public charge of violations will not produce the desired result of halting the alleged violations."

Radio Marti endangers credibility

**Associated Press**

WASHINGTON — President Reagan was told yesterday that the Voice of America's credibility could be tarnished by a congressional decision to make its headquarters for Radio Marti, a new U.S. financed radio station beamed at Cuba.

In its annual report, the U.S. Advisory Commission on Public Diplomacy also said administration efforts to explain Project Democracy, a program aimed at promoting democratic institutions worldwide, have gone awry, creating "public suspicion and misunderstanding."

The report generally presented a favorable picture of the government's efforts to tell its story overseas. Commission chairman Edwin J. Feulner Jr. lauded the administration for ending a "surveillance" sle of reliable information available to some nations.

On the negative side, the bipartisan board advised Reagan that it was "not sound public policy" to place Radio Marti under the VOA. Some view the station as an anti-Cuban propaganda operation rather than a source of news.

The report to the president and Congress said the station should come under the Board for International Broadcasting, which operates Radio Free Europe and Radio Liberty, both so-called "sorptive" broadcasting operations intended to provide news to the countries in which they are aimed.

The commission said it would keep a close watch over Radio Marti to make sure its broadcasts of news about Cuba to Cuba do not violate VOA standards.

The VOA, which broadcasts in 42 languages worldwide, is under congressional mandate to provide accurate and objective news about the United States and world events as well as to interpret U.S. policy and institutions to the rest of the world.

Shultz-Gromyko talk termed success

Associated Press

STOCKHOLM, Sweden — Soviet Foreign Minister Andrei A. Gromyko delivered a blistering attack on U.S. policies yesterday, but in a private meeting later he and Secretary of State George P. Shultz appeared to make headway toward better relations.

A U.S. official said Shultz and Gromyko shook hands before another their meeting and “were even smiling” afterward.

It was the first high-level contact between the superpowers since U.S.-Soviet arms talks broke off last November. The U.S. official called the discussion “good” and progress was made on many issues.

There was no word of a follow-up session but the official, who asked for anonymity, said only “future contacts were addressed.”

In his address to the 55-nation European Disarmament Conference, Gromyko accused the United States of making “military plans” for nuclear war. He said "new missiles, bombers and aircraft carriers are being churned out in some kind of pathological obsession."

While suggesting that new operational missiles may have been deployed, the story stopped short of making any such announcement. Some political observers said Mos­cow may be trying to avoid appear­ing too menacing while foreign ministers of 55 nations are in Stock­holm to discuss European security.

The article was displayed on the front page of the newspaper Red Star and excerpted by the Tass news agency.

“Is it possible that the Soviets were trying to reassure the military and get the word out at home and abroad that they are taking steps to respond to the deployment of NATO missiles,” one Western arms specialist, who requested anonymity, said: “At the same time, he said, the Soviets may have wanted to avoid a major, specific announcement of new missile deployments in East Germany during the Stockholm con­ference.

The Red Star story was not played on radio newscasts and did not appear in the evening government newspaper Izvestia.

It spoke of preparatory work com­pleted at a missile base. Tass reports based on the story gave conflicting impressions about the status of the Soviet missile deployment program in East Germany.

After the NATO deployment in Western Europe of U.S.-built missiles began in November, a Tass statement, signed by President Yuri V. Andropov, said the Soviet would suspend the Geneva medium-range arms talks until the West “showed readiness” to remove the missiles.

Western diplomats say the Soviets have always had missiles in East Ger­many and are believed to have been installing new ones in both nations for some time, including during the Geneva arms talks.

Asked about Gromyko’s address, the U.S. official said Shultz “recognized it was a speech, but he took his normal, constructive at­itude toward doing business with a foreign minister.”

The meeting at the Soviet Embassy lasted five hours and 10 minutes — two hours more than expected.

Shultz then phoned a report to President Reagan, who joined with him this week in urging the Soviets to seek reconciliation after several months of deadlocked negotiations and public recriminations.

The U.S. official said the talks covered the state of arms control, security issues, human rights, Central America and regional and bilateral questions, but he gave no details.

On Tuesday, administration sources said Shultz would suggest that U.S.-Soviet arms talks resume on some level even if formal negotia­tions remain stalled.

The Soviet Embassy refused to dis­cuss the meeting.

Soviet Union deploys new nuclear arms

Associated Press

MOSCOW — A story in the Soviet army daily about missile forces in East Germany warned yesterday that the Kremlin is proceeding with efforts to increase its medium-range nuclear arsenal.

While suggesting that new opera­tional missiles may have been deployed, the story stopped short of making any such announcement. Some political observers said Mos­cow may be trying to avoid appear­ing too menacing while foreign ministers of 55 nations are in Stock­holm to discuss European security.

The article was displayed on the front page of the newspaper Red Star and excerpted by the Tass news agency.

“Is it possible that the Soviets were trying to reassure the military and get the word out at home and abroad that they are taking steps to respond to the deployment of NATO missiles,” one Western arms specialist, who requested anonymity, said: “At the same time, he said, the Soviets may have wanted to avoid a major, specific announcement of new missile deployments in East Germany during the Stockholm con­ference.

Max Lerner

The Lerner Column

would be, the target of his prophetic cannon, be reversed the last two digits and it became 1984. The whole reading world has been waiting for that year to strike, and now that it has struck we don't know quite what to do with the book.

One thing we have been doing has been playing the game of "Who Owns George Orwell?" Not so curiously everyone who writes about Orwell — from the left or right — claims him for his own enlightened political camp, and professes to see Orwell as amending his political satirical shafts at the opposing camp. As for the forces of campus symposia, most of them proceed with liberal even-handedness to indict both communist totalitarianism and a repressive American capitalism.

Thus Orwell is being used as a stick to beat any opposing dogma with. This can become absurd, especially when it is aimed at (as it has been) at the New Yorker, George Steiner has done the sensible thing of going back to the source — to Orwell's correspondence with his publisher, to his reviews and articles during his work years on the book, and to other books he drew on for his ideas, themes and characters. It is a piece of painstaking research, powerfully reasoned. Everything is in its place to the overwhelming conclusion that, whatever Orwell's marginal reflections, what he had in mind centrally was the structure, methods and general style of "newspeak," along with "doublethink" and "unperson," and the intention to use all these as devices to obscure the ordinary meanings of words ("Truth," "Peace," "Freedom") and the cramming of all private and public memory into the memory hole in order to wipe out the intelligeval and imaginative heritage of the past.

As a novel 1984 is not much. As a political gadfly, with all its borrowings, it is a superb product of a working journalist, writer, thinker, which will hold us in thrall well beyond 1984.

For wherever you find some zealot, with his certainty of a revealed religion, seeking to use Orwell to confuse the distinctions between persons and impersones, between free societies struggling to buttress their freedom in the future, and unfree societies which have almost forgotten their past, there you will find Orwell's accoutred healing power, still sharp, still alive.

ND and 1984

Dear Editor:

Father Ted's "traditionally familial" freshman society, I'm afraid, reminds me of another family tradition I read about once. Yes, Notre Dame is moving in to student organizations at Notre Dame.

Experience in real life. He doesn't want you to have to face something so horrifyingly frightening as dealing with the responsibilities of your life at Notre Dame. So why not let Big Daddy take care of them for you, especially since he knows so much better how to take care of such, nasty little problems as money and dirty microwaves? Imagine, if you had a dirty microwave, you'd probably do something silly, like clean it. Father Van has a care of running your life. Just imagine how much more time you'll have for studying your way through college. You'll be a wet behind the ears college student any more. You'll be a wet behind the ears college student any more.

And if you're really good, maybe we'll even let you wear green pants and a yellow leprechaun shirt when you come back for football games! I can hardly contain my excitement! Can you?

Thomas Marschak

Peaceful bombs

Dear Editor:

I had to read guest columnist Dan Printzer's article in the Dec. 15 edition of The Observer twice to see if it could possibly say what I thought it said. The kind of bomb he describes in his argument for "preempted use of long range nuclear missiles" is precisely why there is an anti-nuclear movement.

If someone who believes in the use of nuclear weapons for the sake of world peace ever gets in a position to make that decision, God help us. One hears a lot of grousing about being assailed by depressing and horrifying statistics and predictions of what nuclear war would bring (they don't call it a holocaust for nothing.) Apparently Mr. Prinster hasn't been listening.

Sports Briefs

Brother Joseph Bruno, C.S.C. Notre Dame's head wrestling coach since joining the athletic staff in August of 1978 will announce an indefinite leave of absence. Brother Tom Erpel, the Irish assistant wrestling coach, will assume interim head coaching duties for the remainder of the '83-'84 season. The triangular meet scheduled for last night with the University of Chicago and Miami of Ohio was canceled. — The Observer

Lifesaving / Water Safety Instructor Courses will be offered at the Rockne Pool at the following times: Lifesaving — 9:10-9:45, 10:15-10:50, 11:20-11:50, and 1:20-1:55 on Mondays, Wednesdays and Fridays 1:05-1:35, 2:00-2:30 on Tuesdays and Thursdays, and 1:25-2:00 on Saturday beginning Jan. 21. Water Safety Instructor class will be held from 9 a.m. to noon. There will be a charge of $8 for materials for Lifesaving classes and a $20 charge for Water Safety materials. For more information, call Brother Louis Hurck, C.S.C. at 239-6521. — The Observer

Workouts for the 54th Bengal Boots have begun and will continue throughout the semester leading up to the fights. No previous experience is necessary. Workouts begin at 4 p.m. every day in the north dome of the ACC. For information, call Angelo Primo at 5548, Tom Leszynski at 1728, or Mike Latzi at 8508. — The Observer

Roster entries for the N.Y.A.'s Men's and Women's Volleyball Tournaments are being accepted until Wednesday, Jan. 25. Rosters must include no less than seven players, all of whom represent the same team, plus the captain's name and telephone number. Games will consist of 15 points and must be won by at least two points; teams will play best out of three. Submit rosters to the inter­ball office or call 239-6100. — The Observer

The Non-Varsity Athletics Office is offering a ski package to Royal Valley on four separate Tuesday nights beginning January 24. The $60 charge for the trip includes transportation, equipment, lessons, and lift tickets. Price will be reduced if equipment and lessons are not needed, and limited space is available. Deadline for sign up is tomorrow, call 239-6690 for more information. — The Observer

Audubon Society / Northern Illinois Audubon Society will continue to play a role in the new world. The society will continue to work with the Audubon Society of Illinois, and the Illinois State Waterfowl Association. The society will also continue to provide funding for the Illinois Audubon Society and the Audubon Society of Illinois. — The Observer

Beginning and Advanced Cross Country Ski Clinics are being offered by the Non-Varsity Athletics Office. The class for beginners will be taught by Tim Weaver, ski instructor for the Outpost Trading Center. Emphasis will be made on proper technique, dress and equipment and safety. The advanced class will be taught by J. V. Peacock, who has been teaching cross-country skiing for 15 years. Cost for the clinics is $6 for ski rental or $4 if you have your own equipment. The beginner's clinic begins at 7 p.m. on Thurs­day, Jan. 24, in 218 of the Rockne Memorial Building, and the ad­vanced class at the same time at the same place on Thursday, Jan. 26. Deadline to register is Monday, Jan. 23. — The Observer

PHOENIX OF THE DAY
Gynel Hines, 1st of March
YOUR MOVE, yeah? Let's make this a joint effort!

Thursday, January 19, 1984 — page 9

Women continued

"I'm past worrying about whether we'll get into the tournament or not," said D'Arcy. "I'm more concerned about how we'll play the rest of the way. We need to play consistently and practice with the intent to play to win. There's only one way we should play and that's to continue to play aimlessly and without intensity."

The current three-game losing streak marks the low point of what has been a roller-coaster season. After playing poorly in the Notre Dame Classic over Thanksgiving, the Irish put it together and beat UCLA. Then came a loss at Northwestern before wins over weak Michigan and Western Michigan teams.

The roller-coaster ride continued into the break as the Irish lost to a Central Michigan team that out played its fitted hosts. Then came a trip to Boston to compete in the Nike Classic. In the first game, the Irish played well for 30 minutes against powerful Old Dominion but lost a 71-57 game when Old Dominion opened a big lead early in the second half.

The consolation game against Boston College saw the Eagles take advantage of a 2-4-2-9 subbing pattern and poor play by the Irish down the stretch to take third place in the tourney by a 5-5-56 win. Although losing by 27, though, there was some optimism as the Irish finished much closer to Tech than last year's 42-point (81-39) gap.

Possibly the key game was Sunday's 64-63 heartbreaker at SMU. Needing a win to get back to .500, the Irish stayed stuck in the mud for 21 seconds before a controversial foul call allowed SMU to take the win at the buzzer. Faurot appeared to be fouled as she put up her shot, but there was no foul called. With Dougherty at line, a victory would have brought the nation an upset win with a 95 percent accuracy rate (of 4-1).

There is still plenty of time left in the season. The Irish will have regroup, though, if they hope salvage what could be a very promising season.
Welcome Back 
Notre Dame & St. Mary's!

For over 20 years Domino's Pizza has been delivering pizza to campuses all across the country.

How To Order A Pizza...

1) Know what you want before ordering (size of pizza, number, what you want on it, any Coke).

2) Know your address, and phone number when calling.

3) If you live in a dormitory our phone person will tell you where to wait for your delivery.

4) When placing the order, let us know if you have large denomination bills.

5) Remain by your phone after ordering. We may call back to confirm the order.

6) Price that is quoted on the phone includes sales tax, but does not include the subtraction of any coupon values. The driver will subtract it when the delivery is made.

7) Have any coupons and money with you when the driver arrives.

Limited delivery area.

**Men**

continued from page 16

Joseph Price, coming off the bench to play a big role lately, led all scorers in the Lafayette game with 21 points. Scott Hicks, who got a technical foul for grabbing the rim for a dunk with three minutes left, chipped in 11. The rim was bad enough that there had to be a 10-minute delay between games.

“Shoby played very well the whole road trip,” says Phelps. “When he plays with that same intensity and aggressiveness, there are not too many people who can stop him.”

Now, after the Irish toppled Lafayette 65-59 last Monday in an M.C., which was highlighted only by the fact that Lafayette set a record for fewest points scored by an M.C. visitor (the previous record was also held by the Leopards — scoring only 40 in a game last year). Phelps is confident about the rest of the season.

“I'm not going to deny we haven't beat anybody,” says the Irish coach. “The fact is we're playing teams that are going to be in the NCAA tournament. I think we're in a good position right now. Nobody expects us to do anything because we're not ranked and we haven't beaten anybody good, and that's a great place to be.”

This team is playing as well as we've played all year right now. The second half against Oregon, we were awesome.”

---

**The Irish**

in the second half to win going away, 66-54. Captain Tom Sluby, as when the Oregon students expected he was in each of the team's four road games, was the big scorer with 17 as the Irish had a strong game inside against the overmatched Crusaders. The Irish will take a 9-5 record into Saturday's game against Villanova with 5 games remaining.

---

**Electronics Engineering**

There are opportunities in a variety of research and development projects ranging from individual equipment to very complex integrated systems involving large numbers of microprocessors, mini-computers and computer graphics. Professional growth is enhanced through interaction with highly experienced NSA professionals and through contact with industrial and academic facilities. For engineering and design automation are among the best available.

---

**Mathematics**

You'll work on diverse agency problems applying a variety of mathematical disciplines. Specific assignments might include solving communications-related problems, performing long-range mathematical research or evaluating new techniques for communications security.

---

**Computer Science**

At NSA you'll discover one of the largest computer installations in the world with almost every major vendor of computer equipment represented. NSA careers provide mixtures of such disciplines as systems analysis and design, scientific applications programming, data base management systems, operating systems, computer networking/security, and graphics.

---

**Linguistics**

NSA offers a wide range of challenging assignments for Slavic, Near Eastern and Asian language majors involving translation, transcription and analysis/reporting. Newly-hired Linguists can count on receiving advanced training in their primary language(s) and can plan for many years of continued professional growth.

---

**The Rewards at NSA**

NSA offers a salary and benefit program that's truly competitive with private industry. There are assignments for those who wish to travel and abundant good living in the Baltimore-Washington area for those who wish to stay close to home. Countless cultural, historical, recreational and educational opportunities are just minutes away from NSA's convenient suburban location.

To find out more about NSA career opportunities, schedule an interview through your college placement office. For additional information on the National Security Agency, write to National Security Agency, Attn: M322, Fort George G. Meade, Maryland 20755.
Still, it was the whole team that deserved credit for the win. The defense, which seemed to have collapsed late in the season, came three to touch downs and pressured Flutie for most of the night. The offensive line also did its job, dominating the line for the entire game.

Whether or not the win has served as a stepping stone will not be answered until next season, but things are definitely looking up.

Smith probably said it best. "This game meant so much to Coach Faust and we're going to come out next year with this big win behind us. At times, it was frustrating because we moved the ball but couldn't push it across. But we came out on top and that's what counts."

Hopefully, it will happen many times in the future.

Pulled away in final minutes

Manchester defeats Belles

Saint Mary's forward Betsy Ebert scored 16 points and pulled down a remarkable 18 rebounds and center Elaine Suess added 17 points, but their efforts were in vain as opposing Manchester College escaped with a 62-52 victory in the final minutes Tuesday night at Angela Athletic Facility. The loss was the fifth in six games for the Belles, dropping their overall record to 5-7. "The Spartans, who beat the Belles by a 50-point margin last season, advance to 9-3," remarked Assistant Coach Jeff Roberts. "I think it was more a problem of our own attitude and concentration on the game."

Indeed, neither team seemed able to concentrate on the game from the start. After almost five minutes of scoreless play, the Spartans came alive to outscore the Belles 10-2 in the next two minutes. Saint Mary's called a time-out and then returned to match baskets for the remainder of the first period. Manchester held a 29-23 edge at halftime.

"We should have been able to take advantage of them in those opening minutes," said Saint Mary's Head Coach Mike Rouse. "When a good team like Manchester comes out cold like that, you have to grab those opportunities and score on them."

Beginning the second half, Saint Mary's outscored the Spartans 10-6 to pull within three at 43-36. However, a cold shooting spell by Cindy Short and the loss of forward Teresa McGinnis to foul trouble allowed the Spartans to extend the lead to nine for the remainder of the half. The Belles were forced to foul in the final minutes, but Manchester converted most of their foul shots at attempts to clinch the victory.

"You can't give up one reason for tonight's loss," said Rouse. "There were turnovers that shouldn't have been committed, fouls that shouldn't have been committed, basically a lack of poise and game concentration."

"I do want to commend Betsy (Ebert) on her performance," he continued. 'She gave us the kind of inside play and rebounding we've needed all season."

In the prestigious Catholic Basketball Tournament last week in Dubuque, Ia., the Belles faced opponents of national stature and turned in a commendable performance. Although losing to Christian Brothers College 103-56, a team ranked ninth nationally, Saint Mary's returned the following day to upset the home team of Clarke College 62-48.

"I was extremely happy with our performance in the tournament," said Rouse. "We played with good hustle and confidence, and we'll be back next year."

The Belles travel to Franklin College Saturday afternoon, with hopes of upsetting their rivals for the second straight time this season.

**Notre Dame wins three, loses two over break as Howard joins squad**

By JEFF BLUMB  
Associated Sports Editor

The jersey was a bit too big but he didn't seem to mind. He had never experienced this problem on the football field where he had established himself as the fish all time leading receiver in Notre Dame football history. But tonight, there were other things on his mind in making his debut as Notre Dame's newest basketball player. Joe Howard knew that all eyes would be on him.

Everyone wanted to look at the split end turned point guard.

Wearing the uniform of an injured and academically ineligible Dan DiSta
niolo, Howard scored 15 points on six-of-seven shooting to lead the Irish to a 73-61 win over Holy Cross Jan. 6, starting a Notre Dame streak and academically ineligible Dan DiStanislao leading receiver in Notre Dame football where he had didn't seem to mind. He had never disered, who was in Memphis with coach Digger Phelps to go after Ironically, it was the impending loss approach Howard, Faust, and Athletic Director Gene Corrigan who gave his ok for the idea.

After the Liberty Bowl, Howard joined the team in Philadelphia, where they were playing UMaine in the Spectrum. The Irish dropped 13 points down to the Explorers before pulling within two. Tim Kempton then missed the front end of a one-and-one and the Labelle scored to make it 64-62.

Notre Dame brought the margin back to two, and had two chances to tie the game in the final seven seconds but was unable to score. Again, the blame for a loss could be put on missed free throws. The Irish performance of the team in that five minutes of the game.

"It's obvious you can talk about missed free throws in every game we've lost this year," lamented Phelps, "and I think that obviously a mental problem that we're trying to work through, high pressure and coming through under pressure."

After the loss, to the Explorers, a team Phelps swears will make the NCAA Tournament, the Irish traveled to Worcester, Mass., to face Holy Cross, now having the services of Smith true MVP

Irish come away winners in Liberty
