Policies questioned by South African panel on campus

By DAN McCULLOUGH
News Editor

A discussion of Notre Dame's South African investments place last night minus one very important viewpoint—Notre Dame's. The South African Network, a campus group which examines South African politics, invited Richard Zang, the University's investment officer, to participate in a discussion of the effects of U.S. investment in South Africa and the University's present South African investment policy.

"I wrote to Father Zang to invite him to participate in this discussion," said panel member Peter Walsh, Notre Dame professor of government and international studies and the director of the African studies program. "I wrote him back saying that he would not appear at a meeting where I was present.

In a telephone interview last night, Zang said, "There was a reason (for not attending) but I don't know if I'm going to be in The Observer or not."

"I really don't know who this group is that met tonight, but that's not the reason I didn't attend," he said. "Instead of coming here, I believe the reason is that the University's position has already been made well-known. We have already published a statement." Walsh said he had discussed this matter with Zang in the past and "I think he retss as he was hardly treated."

"Father Zang should be sharing his problems with us, not hiding behind the closed doors in the administration," said Walsh.

Professor David Burrell, Notre Dame professor of philosophy and theology, said a lobbying effort is needed for the sale of the particular University securities in companies that have dealings in South Africa. "I think they can keep turning us down, but we can keep pressing them," he said.

Burrell said that convincing the Notre Dame administration to reassume in South African investment policy isn't going to be easy. "It's a very, very difficult issue."

Last night's panel discussion was sponsored by the African and Black Student Problems Program in cooperation with Notre Dame's student government. The panel, which was made up of Walsh, Burrell and Motumbo Mapuya, a Kellogg Fellow from Zaire, discussed possible approaches to aiding the black people of the Republic of South Africa through Notre Dame's investment policy.

Walsh was critical of the current Notre Dame policy of allowing in South African companies that adhere to the Sullivan principles, a list of guidelines that protects the blacks' rights. See PANEL, page 4

Alcohol policy viewed as a success

Editor's Note: The following article is part two of a series examining the effects of the alcohol policy on the Notre Dame/St. Mary's campuses.

By DIANE PRESTI
Staff Reporter

There are no students rallying on the steps of the administration building. No one is gathering signatures for petitions. And the alcohol policy is celebrating its first birthday.

There is little doubt that this year's spring is a little different from last year's.

Although the alcohol policy is one year old, there are many questions that remain unanswered. Has the alcohol policy been successful? Will there be any changes in it? Will it remain in effect?

According to Father Francisco Cafarelli, assistant vice president for student affairs, and Cafarelli, there have been those students who have walked a tight line and those who have shown great support for the alcohol policy. Said Lens, "Student leaders have offered support" in the creation of non-alcoholic alternatives for fun. Cafarelli, Goldrick and Lens agreed that the majority of the students have accepted things as they are and are working toward it a full social life within the limits of this policy.

"They added that when a rule is broken or a problem does arise, student Affairs has been strictly following the punishments and consequences established by the policy makers.

When the policy was instituted many thought more students would be moving off campus to escape these rules. This, however, has not happened. In fact, on-campus housing requests have increased this year as compared to last.

Some have speculated that more people are going off campus on the weekends because of the alcohol policy. See ALCOHOL, page 6

SENATE - page 4
Saint Mary's has held elections yesterday. Michaela Green and Patty Fallon captured the presidency and vice presidency in Augusta. Lori Jankio and Liz Mecchin carried Leman. Holy Cross residents elected Lena Massa and Maureen Enny while McCandless residents choose Hilarie Young and Mary Costa. The new president and vice president of Regina are Mary Flynn and Lisa Hagen. - The Observer

Of Interest

A public auction will be held by the Notre Dame security department. A variety of items including bicycles, watches, calculators, and other miscellaneous items which have been abandoned on Notre Dame's campus will be put on the auction block. The items will be auctioned beginning at 6:30 and the auction will start at 7. - The Observer

Italian Culture Week continues with the Italian opera "Francesco al Doma" tonight at 8:30 in the Media Center of the Cushwa Leighton Library. Also tonight from 7 to 8 it is a symposium on the last decade of Dario Fo's "We Won't Pay, We Won't Pay," in the lab Theater of Washington Hall. The symposium is sponsored by the Communication and Theater Department. Also, tomorrow morning at 11:15, Dr. Eduardo Lebano, president of the American Association of Teachers of Italian will speak on "What Makes Italians Tick" in the faculty lounge of Memorial Library. - The Observer

Saint Mary's English department is presenting readings by local writers this week and next week in Cushwa Leighton Library. Today, widely published author of Robert Hemley will read from his stories. Monday, Joan McIntosh, a local poet, will present poetry readings, and next Wednesday, April 24, poet Phyllis Moore, an instructor in the English department, will read from her poetry. All readings are open to the public at no charge and will take place at 4:30 in the South Lounge on the second floor of Mezzanine. - The Observer

What do you think about student government at Notre Dame? Student Body President Bill Healy will be looking for your opinion at an open forum tonight at 9 in the LaFortune Little Theater. - The Observer

Emil T. Hofman, dean of the Freshman Year of Studies, will be in the North Dining Hall during dinner tonight en­couraging students to attend the ND/SMC Charity Ball. A Family Response to the Crisis in Ethiopia. Hoffman also will be selling tick­ets to the event, which will be Saturday at 9 p.m. in Stepan Center. - The Observer

AnTostal Kissker Registration has been ex­tended. Those interested in registering may do so today from 8 to 5 p.m. in the New Orleans Room of LaFortune. - The Observer

The Schiller Institute is sponsoring a video tape and discussion on economics and world development proj­ects. The program will begin at 7:30 p.m. in the LaFortune Little Theater. - The Observer

Weather

Ahh, paradise. Sunny, windy and warm today with highs in the low to mid 80s. Mostly clear tonight with lows in the mid 70s. - The Observer

Norte Dame is a Catholic soap opera with low ratings

Joe Murphy

Viewpoint Editor

Norte Dame - The Catholic soap opera is about to wrap up another successful season with its worst ratings yet, according to the latest Odad poll. The plot, as with all soap operas, is that one can miss a whole season of episodes and not miss any of the action. Oh, perhaps a character or two has been killed off, but Notre Dame suffers too many char­acters away. Other soap operas have plots that creep forward Notre Dame's repeats itself. Each fall, for example, big guys battle it out for first string and then fight for the Irish knowing all too well their performance is being judged by viewers used to seeing the likes of George Gipp, Johnny Lujack and Joe Montana. In football, the war being waged tests strategy and physical strength. Each play has meaning. As football fades from the picture, the extras - the students - begin in earnest to make the passion into adulthood. How they act could determine future leaders. Halfway through each season though, the final curtain falls on those actors unable to pass their screen tests. The plot then, pauses until along the season ends five months later without much of a cliff hanger. The predictable plot serves to purify: Students concentrate on writing the scripts which they then will follow for the rest of their lives. I began this column by calling Notre Dame a soap opera, in the sense that a soap opera occurs at Notre Dame. People play off each other. Disputes develop. Temperamental rise: And a friend today may be an enemy to­morrow. But Notre Dame is not just a soap opera; it is a Catho­lic soap opera. I expect characters on television to blow conflicts out of proportion, to exaggerate truths, to form entire plots, to resort to senseless name calling, to verbally kill each others' characters and to put their personal interests first. I do not expect to watch scenes such as these unfold on this campus. The Notre Dame plot, based upon Catholic beliefs, has turned nasty for no reason. It is one thing to argue about the role of student gov­ernment and the musical ability of Tommy Shaw. It is another for supposedly sophisticated producers to wage personal attacks against each other. Remember for example, the recent election scandal, which divided even further leaders who were never­united. Remember the attacks last fall on Gerry Faust, not only as a coach, but as a person. Remember the verbal barrage between administra­tors and students when the alcohol policy was pro­posed. I am not saying these campus characters are corrupt, but rather comical. They are legends in their own minds. Stars whose radiance is blocked by a black hole between their ears.

I am one viewer who has grown weary of watching scene after scene where characters argue over nothing for nothing. These actors make statements that have no meaning. There is a difference be­tween characters and men of character. Characters fight battles in which no one wins or loses anything. Their triumphs have no meaning. They are in the cynics, content to tear other people down rather than build themselves up. As the camera continues to roll, I suggest these char­acters remember that they are being watched not only by their peers but by their parents.

Put your performances into perspective.

I urge other viewers to watch the ND/SMC network and express their displeasure at the amount of verbal vio­lence and idiotic insults taking place among certain characters on this campus.

Current viewers, you are only threatening to turn the channel, but if the producers of Notre Dame aren't care­ful many viewers, like myself, might just turn off the set. It has gotten to the point where I can't wait for the commercial breaks.

The views expressed in the Inside column are the views of the author, and do not neces­sarily reflect the views of the editorial board or staff.

**Student Senate rookies start terms; government restructuring a goal**

By CHRIS HEDNARSKI  
Senior Staff Reporter

"I hope that we can put a lot of the things that happened behind us. We are starting at zero and can only go up," said Student Body President Bill Healy at the first meeting of the new Student Senate last night.

Healy said the senate has "good potential," and added, "We should start anew and push forward."

The senate still will have to deal with restructuring. However, Chris Abdo, District 1 senator, said he will continue to work in restructuring "I won't let it die," he said. "The last senate spent a whole year trying to restructure. We should learn from their mistakes."

Abdo challenged Healy's decision that the revised constitution, passed by the Hall Presidents Council, was passed as an adoption from the old. The senate backed up Healy's senate, and not as a proposal.

Because an adoption cannot be brought before the senate, the revised constitution could not be put into effect. Healy argued that the adoption, which came from the old senate, was from a "nullified" body and therefore no good to begin with.

Abdo said he felt the HPC passed the new constitution as a proposal and it could be brought before the senate. The senate body, in a vote, sided with Healy. For the revised constitution to be brought before the senate now, the HPC would have to re-pass it.

Abdo hopes to get a new commit­
tee established, at the senate's next meeting, that will work toward a restructuring student government. In other business, District 3 Senator John Ginty informed the senate of various charges the Notre Dame Credit Union levies against Notre Dame students but not against its customers. Ginty pointed to a new $2 service charge that will be levied against those with less than $500 in their checking account. "I think they mistreat us," he said.

Healy said students could affect changes in the Credit Union. "If the student body started deserting the Notre Dame Credit Union, it would be in big trouble," he said.

The senate also approved the new Student Government Cabinet as well as reappointing Meghan Breen as secretary of the senate and Brian Holmes as parliamentarian.

**Mother hires clown as 'hitman'**

Associated Press

A mother hiring a clown to throw a pie in the face of a school official at her daughter's graduation was found guilty ofbreach of peace Wednesday, but innocent of bribery and tampering with a witness.

Mary Diorio reacted to the verdict by crying and hugging her attorney, Shane O'Rourke. "I'm thrilled, I couldn't be happier. I've never been happier in my life."

Her attorney, Joseph Ganim, said, "Two out of three ain't bad. I'm happy with the two not guilty. We may appeal on the third."

Members of the jury refused to comment, saying they had agreed among themselves not to discuss the case.

Authorities had said Mrs. Diorio, 57, paid a balloon-store owner, Robert Follett, $34.95 plus tax and a $10 tip to stuff a pie in the face of William Stansfield, a dean at Fairfield's Tomlinson Junior High School, in front of 1,000 people at an eighth-grade graduation ceremony in June.

She and her husband, James, were also charged with trying to scare Ful­
er and offering him $10,000 not to tell police she was behind the prank. Diorio's daughter, Allison Barbee, in May. The state claimed the pie was thrown in revenge.

**How would you like to throw something at Student Body President, Bill Healy?**

Ted Turner attempts takeover of CBS

Published reports had said a takeover bid by Turner, who owns 80 percent of Turner Broadcasting System Inc. and operates Cable News Network, could come after the CBS meeting, which drew only about 100 of the corporation's 20,000 shareholders. He reportedly would be aided by his corporation's investment banker, E.F. Hutton & Co.

Turner's lawyers gave no details of their plans to the FCC's general counsel, Jack Smith, Russell said.

The FCC wasn't sure what form the filing will take, he added. "We're not sure because we don't know how they intend to do it," Russell said.

The "CBS Evening News" reported yesterday that a Turner lawyer informed the Federal Communications Commission that Turner's formal application for approval to take over the network would be filed today.

Turner, who was in New York, refused comment.

Chairman Thomas Wyman reiterated that CBS will resist any bid for controlling interest in its stock. Earlier this month, the network secured a $1.5 billion line of credit from several banks that could be used to fight a hostile takeover.

"Over the past few months, we have faced challenges from several parties who would either oversee or overturn the organization that has provided news and information for 58 years to the American public," Wyman said.

"We are quite clear that the integrity of CBS news and the independence of CBS news are intrinsically linked. Those who seek to gain control of CBS in order to gain control of CBS news threaten that independence and integrity and this country," he added.

Toward the end of the shareholder's meeting, Wyman was asked whether he felt Turner was "moral" enough to run CBS.

"I have expressed something less than total enthusiasm in the past for the thought of him managing this enterprise," Wyman said.

Former anchorman Walter Cronkite, a director of CBS, said Tuesday the network had always given its news division freedom to operate.

Golden arches extend campus wide in new McDonald's delivery service

By TRACY SCHINDELE

Hungry students rejoice. Effective Monday, McDonald's Campus Airlift has expanded its services and will now deliver students' items every weekday night to all Notre Dame residence halls.

The service was begun by Roseland's March 28, but due to a small staff, it was limited to deliveries to Keenan and Stanford halls. The Airlift menu now includes nearly all the items McDonald's offers regularly. However, the grocery service originally advertised was eliminated. According to Charles Watson, owner of the Roseland McDonald's, the grocery service's only purpose was to generate initial awareness of the Airlift.

So far there has been no official word on whether or not the service meets with University approval. The question of approving the Campus Airlift has opened up issues such as insurance and on those making deliveries to the campus. According to Director of Student Activities, Joni Neal, the issue will not be addressed for a few weeks. "It may mean that a unified university policy may have to be set up concerning businesses making deliveries on campus," said Watson.

Watson, a Notre Dame graduate, said he expects the service to be popular with students. "When I was a student at Notre Dame, many students felt locked onto campus. There is more mobility now, but still a lot of students who don't get out, especially during the week," said Watson.

The Airlift delivers and makes deliveries Sunday through Thursday evenings and delivery time varies between 50 and 40 minutes. The Airlift driver calls to confirm all orders 30 minutes after they are made to check for crank calls and to give the expected time of delivery.

Watson is open to new ideas for the Airlift. He began late in the year due to "scheduling purposes," said Watson. "We are trying to find out when the students want the service."
American morality is not based on consensus

In the debate over abortion, a naive and dangerous philosophical idea has become fashionable in the past months on campus—several pro-choice spokesmen have taken a stance which marks a radical departure from former pro-abortion arguments. Namely, the question of whether abortion is morally right or wrong, killing or not killing, now is considered.

Most who are pro-choice, however, are reluctant to carry this Machiavellian premise—Machiavellian because it holds that the government, in this case democracy, determines morality—to its ultimate conclusion. If one pro-secedes premisses, morality, for instance, democracy enters into effect in the American revolution did not a sudden massive spherical of popular opinion.

The reason is that the overall efficiency of the government, in this case democracy, determines morality— to its ultimate conclusion. If consensusprevxes premisses, for instance what right one does have in demanding legislation to support the poor with federal funds when such an action would clearly violate today's

What's unknown beneath the dome?

Set aside your lunch, put down those books, and prepare to test your N.D.T.Q. (Notre Dame Trivia Quotient). As a special incentive, The Observer will award a $20 prize to whoever has the highest, i.e. whoever can answer the most questions (see rules below).

Trivia, defined as unimportant, trivial, or trifling facts, has swept the nation, and Notre Dame is no exception. If you feel inspired to learn more about your future Alma Mater, two books are invaluable, and should be considered required reading: Rev. Arthur J. Hope's "Notre Dame: One Hundred Years," and Thomas J. Schlereth's "The University of Notre Dame: A Portrait of Its History and Campus." Both are available at the Bookstore.

1. How much did it cost for nutrition, room and board in 184? 
2. What is Rev. Theodore M. Hesburgh's middle name? 
3. A portrait of what famous explorer is on your left as you pass through the main door of the Administration Building? 
4. What ailment did George Gipp die of? 
5. How many towers like Planner and Grace did the University in initially plan to build? 
6. What Notre Dame chemistry professor invented synthetic rubber? 
7. Who was the first U.S. President to visit Notre Dame while in office? 
8. How high is it to the top of the Golden Dome from ground level? 
9. What position did Knute Rockne play? 
10. In what year did the University begin construction of the Administration Building? 
11. What game was won "for the Gipper"? 
12. What is the highest man-made object on the Notre Dame campus? 
13. What was South Bend known as prior to 1830? 
14. What is the name of the mosaic on the Memorial Library mosaic? 
15. True or False: The statue of the Virgin Mary on the Dome is 19 feet tall and weighs 4400 pounds 
16. How many cars can be parked on the stadium on a football weekend? 
17. What was the overall GPA for Notre Dame students in the spring semester, 1984? 
18. In what year did the Fighting Irish win their first national championship in football? 
19. What was the name of the married student housing constructed where the Memorial Library now stands? 
20. What began operation on Sept. 30, 1955? 
21. To the nearest 10 percent, how much of Notre Dame's annual income is received through tuition and fees? 
22. Who was the starting quarterback for the Fighting Irish for the '77 National Championship Team? 
23. If you said, "the Papists," "the Nomads," "the Horrible Hibernians," or "the Ramblers," to whom were you referring? 
24. The name of the laundry is...? 
25. To the nearest hundred, how many people does the Stadium hold? 
26. Who is the current University provost? 
27. What is the average depth of St. Mary's Lake? 
28. What began publication on November 3, 1966? 
29. True or False: The University has had an academic year with no Christmas holiday. 
30. Which is larger, St. Mary's Lake or St. Joseph's Lake? 
31. What is the oldest building on the University campus? 
32. Who was the first female professor to receive tenure? 
33. What is unique about Stepan Center? 
34. Who is entombed in the Log Chapel? 
35. Approximately how many volumes are in the University Libraries? 
36. What was the baseball field known as before being named Jake Kline Field? 
37. Approximately how many applications for admission does the University receive each year? 
38. Warner Brothers' filmed what movie on campus in 1949? 
39. How many pieces are there in the Memorial Library mosaic: 5,714, 23,856, or 133,490? 
40. In what year did the University begin coeducation? 
41. Who is the Dean of the Law School? 
42. How many times has the Golden Dome been regilded? 
43. After the disastrous fire of 1879, who said "The fire was my fault... she (Notre Dame) had to burn it to the ground to show me I dreamed too small a dream?"?

What’s new...and old at Saint Mary’s?

1. In what year was Saint Mary’s founded?
2. How much was board and tuition for Saint Mary’s in 1866?
3. Which Saint Mary’s dorm is the oldest?
4. What words are enlightened above the statue in Augusta Courtyard?
5. What poem is raised above the floor outside Carroll Hall in Madeliva, as a tribute to Sr. Madeleva?
6. Which Saint Mary’s dorm is the newest?
7. As late as the 1960s, what two requirements were necessary before a Saint Mary’s student could leave for the weekend, other than to go home?
8. Where was the sports arena (Angela) located before the New Angela was built?
9. When was the first Miss said in the Church of Loretta?
10. What is the name of the Saint Mary’s yearbook?
11. In what year was the Mosaic put up on the northwest wall of Moreau Hall?
12. What was the original purpose of Regina Hall?
13. In what year were Saint Mary’s students no longer required to wear uniforms?
14. When were Saint Mary’s students first allowed to attend Notre Dame football games?
15. What was the name of the first literary magazine published by Saint Mary’s?
16. What was the name of SMC before it was officially called Saint Mary’s College?
17. When did the groundbreaking ceremonies take place for the new Cushwa Leighton Library?
18. What was Sister Madeleva’s last name?
19. When was the first issue of Holy Cross Courier published?
20. What was LeMans Hall named after?
21. Who was the first president of Saint Mary’s?
22. In what school year did Saint Mary’s abolish the previous curfew rule?
23. In the 1940s what was required to be worn by all Saint Mary’s students that distinguished them as “Saint Mary’s girls”?
24. When were Saint Mary’s students allowed to try out for Notre Dame cheerleading positions?
25. When was the first dance for SMC and Notre Dame students held at Saint Mary’s?
26. What was the name of the Saint Mary’s newspaper before The Observer?
27. What was done to the Church of Loretta in 1956?
28. Why was Holy Cross’s study lounge named “the pebble”?
29. What was the original purpose of the building that is now Haggard College Center?

Rules

1. Whoever submits the most correct answers to all questions, including those of both Notre Dame and Saint Mary’s, wins the prize. In case of a tie, the earliest entry submitted wins.
2. Print or type your answers on a piece of paper with your name, phone number and address. Submit your entry to the office manager at The Observer between 9 a.m. and 4 p.m., any day until Friday, April 26.
3. No Observer employee is eligible to win the contest.
4. Solutions to the contest will be printed on Monday, April 29 in The Observer. The contest’s winner will be announced at the same time.
5. Good luck, and above all, enjoy! Remember, it’s only trivia!

Phong Le is best known as the writer of "The Great Wave off Kanagawa," a work that has become iconic in the history of art. His other works include "The Great Wave off Tokyo," "The Great Wave off Kyoto," and "The Great Wave off Osaka," which further solidified his reputation as a master of the sea wave motif.

LOS ANGELES TIMES}

at the same time. He is also known for his contributions to the field of wave mechanics, having developed a mathematical model for describing the behavior of waves in shallow water. His model, known as the Le model, is widely used in oceanography and coastal engineering today.

Phong Le's life and career were marked by both personal tragedy and professional success. He was a prodigy from an early age, and his work was highly regarded by his contemporaries. However, he died young, at the age of 32, from a heart attack. Despite this, his legacy lives on through his art, which continues to inspire and captivate viewers around the world.

The Le model for wave behavior has been refined and improved over the years, but it remains a cornerstone of modern wave mechanics. It is a testament to Phong Le's genius and the enduring power of his work that his art continues to be studied and admired by students, researchers, and artists alike.

Championship up for grabs in women's tournament

By MICHAEL FLANNERY
Sports Writer

The women's Bookstore basketball tournament reached the second round of play yesterday afternoon after a week of first round games. The second round was seeded by forfeit through next Tuesday as the field is reduced from 64 teams to 32. The tournament reached the second round after a week of first round games.

The rules should be noted. Captains have the option of playing to either 15 or 21 points, presumably to allow a bluish interior team to bow out with some dignity. Several teams chose to play to 15 in the first round.

With a long way to go, it appears that eight or nine teams have a legitimate shot at winning the title. Talent has been evenly distributed, for the most part. There were few surprises in the first round.

Nucleus Breakers, led by Mary Beth Schuet, had the toughest go of any of the favorites. Schuet had 13 points as the Breakers slipped by Seventeen Heaven 2, 21-10. Matt Dingens scored the other three points.

All the Way (and Play B Ball, Too). Five Women, advanced to the second round after a week of first round games and the option of playing to either 15 or 21 points. Schuet and Dingens scored the other three points.

KTHSA bombarded The Bombing Stakes in Five Minutes, 21-5. Dave Newman led KTHSA with six backers. Lisa Ethel, and Ann Was lerk led split ten points for the winners.

Have No Pride, Suffer No Embarrassment. A Gynecologist, a Proctologist, and Three Other Guys Looking for a Good Opening couldn't find one on the Breakers. 21-19.

The Ozone Rangers should have kept their feet on the asphalt of Lyons 11 yesterday at 4:00. If they had, perhaps they would not have lost, 21-19, to a team billing itself as Maladroit. Kevin McCarthy led the Rangers flying high with 11-of-21 shooting, but he didn't get enough help from his teammates to pull off the victory. Tom Geyer led the uncoordinated winners with 4-of-8.

Femmes and Does on Their Own, the Schwebel twins, Julie and Theresa, reportedly split seven apiece Coleen Nolan with Steve Skolozynski hitting 4-of-11, Jeff Nickel斯基 getting 5-of-9 and John Richard going 5-of-11.

Doctor Yagi Spence led all scorers with 8-of-8.

In a preview of next week's Blue Gold football game, Mr. Coffee and the Non Dairy Creamers broke through the defense of Defense Plus Two to win, 21, on Stepan 2 at 6:15. Football receivers Tony Koons (6-of-12) and Milt Jackson (5-of-14) of the Creamers took apart three members of the defensive backfield. Mike Larkis (5-of-17), Mike Haywood (2-of-8) and Pat Bullage (3-of-10).

The governor of Idaho would have been proud yesterday to see Spazul Zardani and the Couch Potatoes take the sheer energy out of Five Guys That Wear Panty Hose on Their Heads. 21-12 on Stepan 2 at 6:15. Dave Smith got the Mr. Potato Head Award for the second consecutive game, hitting 8-of-22 to lead his team. Teammate Karl Torro added 7-of-24.

Two other teams, The Violent sunlight, led by Steve Devine's 8-of-22, and the Long-Haired, led by the face of Five Guys That Wear Panty Hose, with 21-7 scored yesterday to see Spazul Zardani and the Couch Potatoes take the sheer energy out of Five Guys That Wear Panty Hose on Their Heads.

One variation in the women's tournament is the Bookstore. The Bookstore field thinned out, leaving the women's playing field a bit flat.

Seven first round games were played at the Angela Athletic Facility on St. Mary's campus due to lack of space. About half of the first round games were played at the Angela Athletic Facility on St. Mary's campus due to lack of space.

Belles’ track team takes 1st in two events

BY ANDREA LaFRENIERE
Sports Writer

The Saint Mary’s track team placed first at Anderson and Goshen Colleges yesterday at a meet held at Clay High School in South Bend.

Under coach Trish McPartlin and freshman Cathy Kennedy each earned a first place award for the Belles. McPartlin received a fist in the high jump, and Kennedy finished first in the 1500 meter race.

In the javelin, sophomore Megan McKee won the second place, and senior Diane Hartwog took fourth place.

McMoulang received second place in both the long jump and the triple jump, as well.

In the discus, sophomore Megan Mancini captured the second place, and senior Diane Hartwog took fourth place.

McPartlin came in third place in the 200 meter race, and she finished in fourth place in the 100 meter race.

The 400 meter relay team, consisting of Kennedy, McMoulang, sophomore Kris Cox, and freshman Jill Sullivan, finished in second place.

Senior Diane Hartwog captured second place in the shot put and took third place in the discus. Junior Harb Blanchette came in fourth place in the discus.

In the 5000 meter race, sophomores Mary Ann Vanstall and Marcielle Dresock finished in third and fourth places, respectively.

Junior Diane Carpenter took fourth place in both the 800 and 1600 meter races. Mary O’Grady, a sixth year senior, earned a first place award, placed fourth in the 400 meter race.

The Belles will travel to North Manchester, Ind. Saturday to compete in the National Association of Intercollegiate Athletics (NAIA) District 21 Tournament at Manchester College. The meet is scheduled to begin at 10:00 a.m.

The Notre Dame men’s track team has not been traditionally known for its weight events, but javelin thrower Brian Driscoll is determined to change that image.

Driscoll, a freshman from Philadelphia, has been noted by both Coach Joe Piane and Coach Ted Potts as an extremely good competitor and hard worker. “He loves to throw the javelin, which helps him maintain a good attitude over the long indoor season with no meets,” said Piane.

Driscoll has thrown 205-7” in high school, and 191 this year. He and the coaches would like to see him throw 210 feet by the end of the season. He is hoping for better weather conditions, since the majority of the meets have been in heavy wind. “College competition involves more pressure, but I have more time to concentrate on the javelin,” he said.

Driscoll will need the weightroom this Saturday at the Indiana Intercollegiate. “I need to get my technique down and continue weight training,” said Driscoll.

When he throws, Driscoll pictures a javelin being launched, and strives to release at a 45 degree angle. “I am working on getting my front leg down and then coming through with more momentum,” he added.

Driscoll’s long range goal is to throw 210 feet by the end of the season. He is hoping for better weather conditions, since the majority of the meets have been in heavy wind. “College competition involves more pressure, but I have more time to concentrate on the javelin,” he said.

Driscoll will need the weightroom this Saturday at the Indiana Intercollegiate. “Our objective is to win the meet, but because of key injuries, that will be difficult,” said Piane.

The mile relay will be weakened by the loss of Mitch Van Eyken, who will be replaced by John McNelis. In addition, spinner Phil Dolinar, who is lost for the season because of stress fractures.

The Irish will face a tough Indiana University team, Purdue, Indiana State, and Ball State who won seven events against Notre Dame earlier this year.

28 more bite the dust...
By JERRY MELLA  
Sports Writer  

In recent years, people have associated Notre Dame football with a good running game. A successful rushing attack is important to a team because it makes the other aspects of an offense that much stronger. The reasoning for this being that the defense must first stop the ball, then guard against the opponent's strength. In keeping the ball on the ground, the offensive team can control the clock and keep the defense on the field while wearing the defense down at the same time.

Despite its rushing success, Notre Dame has a tailback in the waiting room. In the second half of the season, fullback spot wide open

Tom Fallon said, "Joe looked very sharp and played perhaps his strongest match of the season against a very tough opponent."

Mike Gibbons, playing No. two singles, also won his first set of his match. However, Gibbons lost the second set and the third set to produce another tie-breaker. Hard luck continued for the Irish, and Gibbons lost the tie-breaker on a controversial call.

A second good-performance was turned in by No. four singles player Dave Short, who fell just short, 7-5, 6-7, as Northwestern swept all six singles matches.

The lone victory for the Irish was provided by the No. 2 doubles team of Nelligan and Paul Duggs. The doubles teams did not fare quite so well, as Northwestern wrapped up its 4-1 victory. The Irish season record slipped to 15-11.

**Irish pitching callers, Purdue takes both games of twinbill, 13-3, 13-8**

**By DENNIS CORRIGAN**

The Purdue Boilermakers paid a visit to Jackie Kline Field yesterday and showed the Irish why they lead the East Division of the Big Ten. The Boilermakers 28 hits and scored 26 runs en route to a doubleheader sweep. They breezed through the opening game, 13-3 but needed extra innings to come away with a 13-8 victory, 13-8, in the nightcap. With the sweep, the Irish fell to 11-21-1.

In the first game, Purdue pitcher Tom Mayer was too much for the Irish batters. Mayer scattered three hits over five-and-one-third innings before a line drive off the bat of Jackie Moran forced him from the game. Moran later scored the first of the Notre Dame’s three runs on a single by shortstop Tom Shelds. Shelds loaded the bases on an HBP single by Mike Dornin. The Irish added a meaningless run in the seventh on a single by Moran and a double by John Loughran.

Meanwhile, the Purdue batters roughed up three Irish pitchers. Starter and loser Buster Lopes (2-5) allowed single scores in the first and fourth more surrendering three in the fifth. The big blows were shortstop Elam Rosny’s sacrifice fly and Troy Aeschliman’s double. The Boilermakers added two more in the sixth before starting the hit parade in the top of the seventh.

The big blows were shortstop Elam Rosny’s sacrifice fly and Troy Aeschliman’s double. The Boilermakers added two more in the sixth before starting the hit parade in the top of the seventh.

The Boilermakers 28 hits and scored 26 runs en route to a doubleheader sweep. They breezed through the opening game, 13-3 but needed extra innings to come away with a 13-8 victory, 13-8, in the nightcap. With the sweep, the Irish fell to 11-21-1.

In the first game, Purdue pitcher Tom Mayer was too much for the Irish batters. Mayer scattered three hits over five-and-one-third innings before a line drive off the bat of Jackie Moran forced him from the game. Moran later scored the first of the Notre Dame’s three runs on a single by shortstop Tom Shelds. Shelds loaded the bases on an HBP single by Mike Dornin. The Irish added a meaningless run in the seventh on a single by Moran and a double by John Loughran.

Meanwhile, the Purdue batters roughed up three Irish pitchers. Starter and loser Buster Lopes (2-5) allowed single scores in the first and fourth more surrendering three in the fifth. The big blows were shortstop Elam Rosny’s sacrifice fly and Troy Aeschliman’s double. The Boilermakers added two more in the sixth before starting the hit parade in the top of the seventh.
