Hall presidents received a sampling of the upcoming student leadership conference during an alumni speech at the Hall Presidents' Council last night.

Bill McLean, Ombudsman director from 1972-75, is one of 50 alumni invited to help students and administrators define the role student leaders should be taking while Hall is away. According to McLean, he is one of the many alumni who "give a damn, not only about the football team, or about what is going on in the classroom," but about the student body as a whole.

What McLean advocates as an educator at Lawrence High School in Chicago is a partnership between the teacher and the student. The administration must act "with, not for" the student in shaping their lives, he said.

Although there is nothing wrong with what we offer the administration and what we offer them, there is something more that can be done, said McLean. He is not advocating any overthrow of the administration, but rather an attempt to make it better.

He added that realistically, we didn't know if improvement is possible, but the attempt must be made.

McLean cited his own high school students who he is enlisting with access to a computer resource center and "keys to everything" in order to gain an adult education class while he is away. He said if he can do this with high school "freshmen and trust them, what can Notre Dame do with its students?"

Student leadership is ordered only by human resources and commitment, but those two qualities may also be used to change what is wrong, according to McLean. He asked whether students are treating their GPA's as gods or are looking at a job after graduation as the answer to life.

While he admitted student life is primarily academic, he added that this doesn't mean there isn't more to it. "How many Domers are out there sitting on their hands and not getting involved," he asks.

"Notre Dame has not changed things for me since 1975, but the type of people don't," McLean said.

He and leadership conference organizers Duane Lawrence and Bruce Glaze meet with students so they can help students and leaders realize what can be done through the exchange of good ideas.

McLean likened the role of the alumni to that of a parish priest in telling the administration "you've got to listen to what that kid of yours has to say."

Leadership meetings will be held throughout the day Saturday. According to Lawrence, schedules will be posted this week. He and HPC Chairman Kevin Howard both encouraged hall presidents to bring many undergrads as they can to the sessions since they are potential student leaders.

The leadership conference will end Sunday with a speech from University President Father Theodore Hesburgh, who will give his views on the role of a student leader.

In other news, Badin President Justin Windhorst said he gives an update to the HPC concerning the inquiry into rectors' fees for Drexel and Drexel College.

The HPC is discussing extra fees which some rector's charge in lieu of keys.

She and Howard met with Evelyn Reinhold, director of student residences, who, according to Windhorst, said she read the $5 charge for lost keys mentioned in du Lac as a minimum charge.

The leadership conference or-
"Dillon decision' to affect student life for years to come"

"Hush, children, what's that sound?"

Everyone look what's going down."- Buffalo Springfield

Dan McCullough

With the Dillon decision, however, the hard line has been drawn. The administration is implying that Notre Dame's rules apply to students at all times, wherever they might be.

This decision has not been made with a great amount of grace. By not responding to students' objections for the rationalization behind the decision, the University has denied students the compassion that accompanied the 1983 incident.

They have replaced understanding with a dangerous precedent of closed-mindedness. Their failure to explain their decision threatens the spirit of communication that is essential to the mutual respect and understanding between students and administrators. They seem to feel they don't have to explain themselves. Maybe they don't.

Student leaders have failed to respond to this challenge. The days when student leaders questioned the validity of such decisions apparently have ended. Instead, the student body is confronted with an attitude of complacency and blind acceptance - and the unconditional surrender of the rights of the student in decisions that will have reverberations for years to come.

Something must be done.

The Student Senate should put this on their agenda. The Judicial Council should go through and see if the administration's decision is in the spirit of that decision. And the Healy administration should adopt an attitude of confrontation, rather than appeasement, on this issue.

Dillon Hall should challenge the forfeiture of their SYR. The hall should perform the community service, but only if accompanied by a statement that says the service is being done voluntarily and not as an act of punishment.

This is an important decision the University has tried to slip by students. It is more than just an issue of some guys being punished for singing a dirty song and drinking beer. More than just an SYR has been forfeited.

Along with the dance, the acceptance of this punishment threatens the spirit of Notre Dame community. It is this poor precedent for the Dillon decision because no formal punishment was taken against the student. Instead, actions, which were indisputably out of line, were met with compassion and understanding from the administration. The University made the right decision and was able to avert addressing the problem of Du Lac's jurisdiction.

HELP FIGHT BIRTH DEFECTS

Can you afford to gamble with the LSAT, GMAT, GRE or MCAT? Probably not. Grades alone may not be enough to impress the grad school of your choice.

Scores play a part. And that's how Stanley H. Kaplan can help.

The Kaplan course teaches test-taking techniques, reviews course subjects, and increases the odds that you'll do the best you can do.

So if you've been out of school for a while and need a refresher, or even if you're fresh out of college, do what over 1 million students have already done.

Take Kaplan. Why take a chance with your career?

Light cycle to change

By SUSAN PAWLECKI
News Staff

Look for different combinations of “green-yellow-red” at the intersection of Angela and Notre Dame avenues, since the traffic light there will soon be under the influence of a new cycle.

Ray Dalgleish, of the South Bend Traffic Control, said, “With the new cycle, the light on Angela Avenue will be green all the time except for when pedestrians wish to cross. The pedestrian must learn to use the marked routes and press control buttons to make the light red.”

Pedestrians will only be able to cross southwest, southeast, and northwest, he said, and they will be given 42 seconds to cross the intersection.

Dalgleish said he hopes the light will be operational by Oct. 19. The new system is intended to save motorists time and conserve the energy that automobiles waste while waiting for a green light, he said.

Notre Dame Security, campus police, and local businesses, he said, will be notified of the new cycle.

Panel looks into MIVE fire, siege

WHYY-TV after the Fraternal Order of Police filed in its latest legal challenge against the Philadelphia Special Investigation Commission. Mayor W. Wilson Goode, who will testify before the panel, appointed the 11-member commission to probe the city's attempt to serve warrants on four members of the back-to-nature group and to evict it from its fortified west Philadelphia rowhouse.

Seven adults and four children died in the fortified MOVE house in a fire that began after police dropped a bomb on it. The fire was allowed to burn out of control for more than an hour, destroying 61 rowhouses, leaving 250 people homeless and causing more than $10 million in damage.

Tutu, who is considering his “attitude” toward change in South Africa when he told reporters, “I sometimes think that the blacks who recommend violence should sit down and shut up, and let the others have a chance,” said he wondered if advocates of peaceful change should “sit down and shut up” and let the rioters go ahead. But of course we won’t do that because we love this land.”

He then repeated earlier statements that black victims of violence, including blacks viewed as collaborators, were not the only ones who have died in unrest that began Sept. 3, 1984. Police say approximately 1,000 persons have been killed in the city during that period.

By unofficial count, more than 300 blacks have died — a third of the city’s total. The average age of those killed has been 30, it said.

Tutu spoke at a news conference after returning from Britain, where he is considered a hero by blacks.

A trellion Donors: Are you sick and tired of all those mundane clods you've been hearing about for ages? Do you long to deviate from your friends in the activities you pursue? When was the last time you performed in extravaganzas in competition? Or visited local military academies to inspect the cadets? Or really practiced drill and ceremonies? Not recently? Perhaps never? Then you obviously haven't discovered the advantages of one of Notre Dame's more obscure or insignificant: the Irish Marauder Drill Team, led by Commandant Colleen Kain.

The Irish Marauders are a "platoon that marches in competitions across the country, performing precision drills against other universities," according to First Sergeant Joe Schweninger. These drills involve marching with different movements that involve weapon maneuvers," he added. Last year the team competed at Tulane University, Purdue, the University of Illinois, and others. It also makes the team to compete throughout the year to LeMars Military Academy in Indiana and other similar institutions to present exhibitions and to inspect the cadets. "It's a great way to meet other people in ROTC," Schweninger explains. Schweninger feels that membership in the Irish Marauders provides insight into army life. "When we graduate we are going to be army officers, so it's good to know how to lead men and execute commands with confidence. We really get to learn D & C (drill and ceremonies)."

Although the team has not placed highly in competition in recent years, they prefer to emphasize the learning aspect rather than the actual competitions.

ND/SMC clubs

Schweninger sums up this belief. "It's a great way to meet other people in ROTC. The best aspect of the team is most definitely the sense of camaraderie that you share with others. It's a great learning experience."

Membership in the Marauders is open to any army ROTC cadet, excluding seniors. Practice is held twice a week from 4:30 to 6:00 p.m. at St. John on Mondays and at the ACC on Tuesdays.

in through the out door

The Soviet Union has mounted a massive public relations campaign aimed at dispelling the notion that South Africa is a haven for the Russian bear as a mere cub that is clipp­ ing in on cow's claws across the ocean the recalcitrant eagle sharpens its talons. The war of the words before the Nov. 19 and 20 summits of the superpowers will undoubtedly become one of civilized man's greatest legacies.

Each day more are arrested, buried from their homes, and killed. With each new dawn South Africa becomes a slave to both apartheid and economic chaos. Desmond Tutu's cries for peace are challenged by the cries of militant youths calling for a battle the youths, mourners battle the govern­ ment. South Africa, the black masses, the black installing a neat incision; the police savagely tore. The dagger of divisiveness has failed to create a neat incision; the police savagely torn. The dagger of divisiveness has failed to create a neat incision; the police savagely torn.

save the whales

Below this apparent havoc is a government whose policies and their irresponsibility lead to the ex­ ploitation, death, and destruction of an entire race of people. "Star Wars" research and the Trident missile posture since they rushed to complete their year's testing before the eve of the forth­ on the horizons of the 80's three propositions to make it appear that "the bad guy" in the eyes of the world. As one might remember, the United States used the same tactic successfully against the Soviets a few years ago concerning the "Zero Option" and the deployment of Pershing II's, and now the Soviets are using the strategy against the United States. On the other hand, Pres­i dent Reagan has remained adamant in his refusal to abandon space defense research, while the Soviets have made their 50 percent weapons reduction proposal contingent on the United States' abandonment of even the most basic research into the Strategic Defense Initiative. The Soviet Union is clearly trying to box the United States into a corner where there are two unpleasant options: abandonment of the talks following by world-wide con­ demnation, or abandonment of the Defense Initiative and the possibility to significantly in­ crease national security.

Both New Jersey and New York have passed legislation for divestment. Countries have acknowledged the same fact, France and Sweden have divested from South Africa. Notre Dame, on the other hand, refuses to ac­ cept responsibility for its behavior. Notre Dame even refuses to believe that what they are doing has any moral implications what­ soever. Father Hesburgh clings this conscience by deploring, much President Reagan does for the environment, but he, the Board of Trustees, and the United States government stubbornly refuse to prove the worth of their words.

"I'd like to be a plank." —Albert Einstein  
(1879-1955)
Joyce has served ND well in past 33 years

Dear Editor:

This is in response to Jeff Griffin’s assertions regarding Father Joyce and his future hiring practices. Obviously, this student knows very little about the man and his many contributions to this university.

Joyce has been the faculty board in control of athletics for 33 years. Notre Dame has amassed one of the most successful records in intercollegiate athletics, and a large percentage of their athletes graduate and obtain advanced degrees. Joyce also oversees admissions to this university.

Joyce is one of the most caring and Christ-caring women of this country’s population. Massive population resettlements have taken place over the years, non-whites from "black spots" all over South Africa. The African women and men have been forced to move from the areas in which they have lived for decades, in order to make room for new white communities. Negroes are black "homelands" that lie on the outskirts of South Africa. What the whites obviously have in mind is maintaining control of the agricultural and mineral production. Left behind are the blacks who are now the "black homelands" (bantustan) that lie on the outskirts of South Africa.

What surprised few students are aware of what apartheid is and what significance it has for the country's population. Massive population resettlements have taken place over the years, non-whites from "black spots" all over South Africa. The African women and men have been forced to move from the areas in which they have lived for decades, in order to make room for new white communities. Negroes are black "homelands" that lie on the outskirts of South Africa. What the whites obviously have in mind is maintaining control of the agricultural and mineral production. Left behind are the blacks who are now the "black homelands" (bantustan) that lie on the outskirts of South Africa.

Dear Editor:

In response to Jeff Griffin’s editorial comment concerning the "interesting" conversation that took place between a Notre Dame Saint Mary’s woman, we propose that the problem lies not within the minds of Saint Mary’s women, but within the minds of Saint Mary’s men. Perhaps by the time you are a senior, you will have met many more “fine and proud” Saint Mary’s students than you ever knew existed.

The Observer should be more careful with ads

Dear Editor:

In writing to you of my disgust with an advertisement which appeared in the Oct. 4 issue of The Observer, this advertisement was on page 14 and occupied approximately two-thirds of the page. It is titled “The Notre Dame Stills Children and Adults,” and was apparently sponsored by Fidelity Magazine. I am disgusted with this advertisement, and I believe that Notre Dame should remove it from the pages of The Observer. This advertisement is offensive, and with The Observer’s decision to print it because it is sensational propaganda unfettered by moral consideration, would be held up in future years as an example of how to get what the "hard-hitting sequel" actually has evidence to support its claims, not just a few sound bites.

Perhaps Rosenzweig’s "creative" dialogue is factual as she emphasizes, but it is difficult to imagine that such language is appropriate for an advertisement which appeared in the Oct. 4 issue of The Observer. In addition to trying to increase awareness, members of the Anti-Apartheid Network are raising the question of whether the University should withdraw its stock in companies that operate in South Africa or take some form of action to demonstrate that apartheid is immoral with the chosen values it seeks to propagate. Similar self-questioning has been going on in schools around the country. Discrimination is an important issue because it presents a rare opportunity for us to take significant action on one (hopefully) shared belief in the rights of all human beings as equal creation of God. It is important for us to come to a conscious reflection which the true feelings of all members of the community on the discrimination question and then to inform them on the basic pros and cons.

SPORTS BRIEFS

Women's Soccer Club wants 500 record, varsity status

With fall break two weeks away, the Notre Dame Women's Soccer Club hopes to even out its fall outdoor record with its final matches against Marquette University and Wheaton College.

In this past weekend's match, the Irish beat Nazareth College, 2-0. The two scores were by junior Kerry Haverkamp and freshman Susan Haling.

In discussing this season, Karen Moritz said that this year's team has been relying heavily on the freshmen players and that the freshmen bring new enthusiasm and competition to the team.

"The amount of time a player gets is based on the participation in practice," says Moritz. "Once someone joins, they are on the team and playing time is based on their attendance to practice."

The team hopes that by reaching the 500 mark, it can achieve varsity status.

"The enthusiasm for soccer is there," says Moritz. "And hopefully if we have a decent year, the administration will look into moving us up to varsity."

"In reviewing this year, I would say that this year hasn't been that rewarding, because we just haven't played to our potential," says Moritz. "We have a lot of good individual players but we just couldn't gel together as a team. On the other hand, though, this year has been more fun because we have a lot more dedicated players and this causes a lot of competition, which makes every player better.

Briefs

continued from page 8

Handball and badminton tournaments have been announced by NVA. The deadline for entries is today at the NVA office in the ACC. Call 259-6100 for more information. - The Observer

Prospective ND women's basketball walk-ons will try out for the team on Wednesday, Oct. 16, from 8:30 p.m. to 10 p.m. Anyone who is interested should report to the ACC auxiliary gym ready to play on that day. - The Observer

The ND junior class softball festival has been rescheduled for Friday at 4 p.m. on White Field. All juniors are invited to attend and cheer on their classmates. The food should be pretty good, too. - The Observer

Flag Football officials are needed at Saint Mary's. Call 284-5454 for information. - The Observer

Michigan ranked third in AP Top Twenty Poll

Associated Press

Michigan's Wolverines continue to claw their way toward the top of The Associated Press college football poll. Only Iowa and Oklahoma remain in their way.

When the season began, Michigan wasn't even ranked. Two polls into the season, the Wolverines were still out of range of the Top Twenty. Then they broke into the rankings at No. 19. Then they rose to 12th. Then to seventh.

And now they're third with seven first-place votes and 1,037 points. Victories over Notre Dame (20-12), South Carolina (34-3), Maryland (20-0) and Wisconsin (33-6) will do that. Next up: Michigan State.

Iowa, despite having to scramble in the last minute to beat Michigan State 35-31 last Saturday, remained atop the poll, a berth it achieved last week for the first time in 24 years. The Hawkeyes received 54 of 59 first-place votes and 1,437 points.

Oklahoma, receiving 14 first-place votes and 1,106 points from the nationwide panel of sports writers and broadcasters, stayed in second place for the fifth week running after beating out Kansas State 41-6.

No teams dropped out of the Top Twenty, and, obviously, none joined the elite crowd. But Southern Methodist, which had fluctuated between third and sixth in the first five weeks of the poll, was halted 28-6 by unsuspecting Arizona and fell to 16th this week.

Florida State was fourth again with three first-place votes and 993 points, while Oklahoma State moved one rung up the ladder to fifth with the other first-place vote and 896 points.

Arkansas, a 41-0 winner over Texas Christian, jumped four spots to sixth with 806 points, and Florida, which beat Louisiana State 20-0, likewise moved up four places to seventh Penn State, although idle, moved from ninth to eighth, with Nebraska, 13th a week ago, ninth this time and idle Alabama, 12th last week, competing for the Top Ten.

Farley still has underated record in women's interhall flag football

By KEVIN HERBERT
Sports Writer

The lean, green Farley flag football team was given no chance to survive the turf at Carrier Field Sunday evening, but like the score showed, 0-3-2, Farley was able to come out on the winning end of a 20-14 score over Pasquerilla West. Farley, now 0-5, scored first, aided by a long jaunt down to the six yard line that resulted in the score at six. PW's point after attempt failed and the half ended in a tie. Coach Dennis Grace, so the team's co-captain for the Warriors is senior in Dayton, Ohio, last weekend, have two points and led, 14-6. The team is led this season by Jose Sebastian, Spain. Itarte has 11 goals and seven assists so far. The other scoring leaders for Marquette are sophomore Todd Fitch (eight goals, three assists) and junior Tom Comiskey (six goals, three assists). Topping the scoring chart for Notre Dame is freshman Tom Germaine are sophomore Todd Fitch (eight goals, three assists) and junior Tom Comiskey (six goals, three assists). The conversion was good, and PE led, 8-6. With two minutes remaining, Lyons' quick running back, Robin McNally, rambled the last 30 yards of a 35-yard pass down to the Farley one yard line off of a fourth and six option play. The extra point attempt failed and the half ended in a tie.

In the final minute, with no timeouts remaining, PW completed a 55-yard pass down to the Farley five. Before they could run an option play, however, the time expired, and Farley had a hard-fought 20-14 victory.

Farley Sunday evening, Pasquerilla, the only other undefeated team, aided by the arm of Tom Comiskey (six goals, three assists). With five and a half minutes left, Farley regained the lead on the one yard line off of a fourth and six option play. The extra point attempt failed and the half ended in a tie.

Soccer team looks for 1st home win today as Marquette comes to town

By PHIL WOLF
Assistant Sports Editor

The Notre Dame soccer team will be looking for its first win today when the Irish play host to the Marquette Warriors at 3 p.m. on Alumni Field. The Irish, 3-7-3 after a win and a tie at the Wright State Tournament in Dayton, Ohio, last weekend, have a 0-5-2 record in home games. The Warriors are 1-7-2 overall.

Notre Dame has been playing well, lately, according to Head Coach Dennis Grace, so the team's record may be deceiving. But last weekend, Warren Central, the Irish team that finished the year at 12-6-2, Marquette took the Irish, 4-1, in a homecoming match in Milwauk ee. The Warriors have a lot of strength returning this season, too, since their top three scorers from 1984 still are playing.

The team is led this season by Joe Hurley, a senior co-captan from San Sebastian, Spain. Hurley has 11 goals and seven assists so far. The other scoring leaders for Marquette are sophomore Todd Fitch (eight goals, three assists) and junior Tom Comiskey (six goals, three assists). Topping the scoring chart for Notre Dame is freshman Tom Germaine, who has three goals and four assists. Freshman Joe Sternberg has added three goals and three assists, and senior co-captan Dave Miles has been credited with two goals and three assists.

Today's game will be the last home contest for Notre Dame until Oct. 30. The Irish have played in several close contests this season against some tough competition, and they have gone into overtime six times. Grace said he has been encouraged by the play of his team in those close battles.

"The improvement is very noticeable in our team," Grace said. "But still our record doesn't reflect the quality of our play. We've played very well and haven't won. In a sense, it has been frustrating to see us play so well and not win, but comparing our youth and the toughness of our schedule, I'm still very optimistic about this team."

The game will be on the way to two victories last weekend at Wright State, but Miami (Ohio) got a goal late in the game on Sunday and eventually tied the Irish, who had beaten San Francisco and Lamar.

Belles defeat Goshen after loss to St. Francis

By JILL SARBIENOFF
A Sports Writer

The Saint Mary's volleyball team recovered from a loss to St. Francis earlier in the night and went on to defeat Goshen in two straight games last night.

The Belles had dropped their first match of the night in two straight games to St. Francis, in the three-way competition held at the Angel Athletic Facility. In the first game of the Goshen match, Colleens Mergens and Tammy Sud each had six serves and one ace. Mergens also had 21 assists. Mar garet Feldman, meanwhile, led in kills with three.

Leading in the serving department in the second game was Mergens, who was tied for three of three aces. Feldman contributed 16 assists and seven kills in the team's win. Mary Redly, however, was close behind with five kills.

Head Coach Mary Jo Lambert feels that the team needs to work on its blocking skills. Nevertheless, she still was pleased with the Belles overall performance after the second game.

Blue Jays beat Royals, 6-1, behind Stieb's solid pitching performance

Associated Press

TORONTO - Dave Stieb held Kansas City to three hits through eight innings and the Toronto Blue Jays, showcasing the blend that brought them their first-ever division title, beat the Royals 6-1 last night in the first game of the American League's division series.

The Blue Jays, the AL East champions in just their ninth season, scored all their runs in the first four innings and finished with 11 hits in the first game of a five-game series outside the United States.

The loss in the opener of the best-of-seven series was the first for Kansas City City Manager Dick Howser with an 0-10 record on Leans on pinchhitting, as his Royals crumbled under the Blue Jays' early mix of speed, power and aggression.

Stieb struck out the Royals through eight innings. Tom Henke, the Jays' surprise bullpen star this season, gave up two hits to lead off the ninth, and Willie Wilson scored the lone Kansas City run on a fielder's choice, the started pitcher. Stieb did not seem shaken, and pitched a 1-2-3 inning.

Leibrandt, meanwhile, lasted just two full innings and was driven from the mound in third with the bases loaded and no outs. The Blue Jays, who were 0-2 against Leibrandt during the season, ripped 17 hits for five runs on seven hits. Game 2 is scheduled for this afternoon, with Kansas City lefty Bud Black, 10-5 during the regular season, facing Jim Key, 14-6.

A lot of the pregame attention was devoted to Howser's plan to pitch left-handers against Toronto, and the weather. Neither got in the Blue Jays' way.

Game time temperature was 63 degrees - balmy for this city - and the winds that usually whip off Lake Ontario at Exhibition Stadium were mild. There was a little bit of rain during the player introductions, and a very light sprinkle in the third in-set.

Domer Runs results are in

By PHIL WOLF
Assistant Sports Editor

Law student Paul Matsonke ran six miles in 31:59 last Saturday to win the 1985 Domer Run. Approximately 180 runners participated in the three- and six-mile run sponsored by the Non-Varsity Athletics. About 220 runners ran in last fall's races.

Freshman Matt Loible finished the three-mile course in 16:21 to take the crown. Classroom Edquin Quinn came in third in 17:39, while junior Dave Hipp was second in 17:05.

Sophomore Tom Shallow was the first undergraduate across the line in the six-mile event. His 35:24 was good enough for third place overall. Law student Robert Cessar was second in 32:58.

The game featured the two starting pitchers who led the league in earned run average. While the top-ranked Sieber, with a 2.88 ERA, looked very solid in the past, the Blue Jays ripped Charlie Leibrandt and sent him to his earliest exit of the season.

Stieb, whose lack of run support during the season produced a mis-leading 14-3 record, gave up a two-out double to George Brett in the first inning and a one-out single by Bret in fourth. A pinch-hit double by Dane Iorg in the eighth ended a streak a 12 straight batters retired by Stieb.

Stieb allowed only one other runner, a walk to Pat Sheridan in the fourth, and struck out eight. The hard-throwing Stieb fanned eight different Royals, all except Sheridan, before Henke came in to pitch the ninth.

The only troublespot for Stieb, in fact, came while he was warming to start the second, when a young woman bolted out of the rightfield seats, ran to the mound and hugged the
