Once hoped to be completed by this time, the renovation of the LaFortune Student Center is now scheduled to be finished by the third week of October, said Don Dcdrick, director of the physical plant.

Construction of the War Memorial and the additions to the Notre Dame Law School are also behind schedule, Dcdrick said.

Completion of the Law School additions is now slated for October, said Dcdrick. He added that some organizations have finished by the end of next week, he said.

Although the student center will not be finished until October, parts of the building are essentially complete, Dcdrick said. He added that some organizations have already moved in.

Dcdrick said construction of the student center and law school was slowed by delays in the delivery of materials and bad weather in November and December.

The delivery of materials really held the project up, and when one material is not here, it really holds everything up, said Dcdrick.

Construction delays were also caused by the weather he indicated. There was quite a bit of rain last November while the west Memorial should be finished by the end of next week, he said.

Dcdrick described the student center's renovation, begun last year, as being finished floor by floor, from the top on down. As parts are completed, they'll be turned over to the students, he said.

Once complete, the student center will feature an elevator and a ramp, making it accessible to the handicapped, Dcdrick said.

Bad weather and delays in the delivery of materials also held construction of the War Memorial, Dcdrick said. We had a heck of a time getting the black granite from Italy.

Workers still must lay down and fix the underground sprinkler system before the memorial is complete, he said.

Dcdrick described the student center's renovation, begun last year, as being finished floor by floor, from the top on down. As parts are completed, they'll be turned over to the students, he said.

On the second floor workers are painting and doing the woodwork, Dcdrick said. Student government, the International Student Affairs/Minority Student Affairs Office, the Black Cultural Arts Council lounge, Theodore's and club offices will all be located on the second floor.

Most of those organizations should be able to move in by the end of next week, he said.

However, the undergraduate club, Theodore's, won't be ready for another six or seven weeks, said Dcdrick. He added that he didn't know when WVF-AM would be complete.

The Ballroom, also located on the second floor, will be ready by the second week of October, said Dcdrick. He added that the finished floor will be turned over to the students, he said.

Hospital declares Rivers' condition 'good' following auto accident

By DENNIS CORRIGAN

Notre Dame basketball star David Rivers was pronounced in good condition and moved out of intensive care yesterday, according to a statement released by his doctor at Elkhart General Hospital.

According to Dr. Kirby Goss, who performed surgery on Rivers, he remains in good spirits and is in good condition.

Barbara Barlow, a hospital spokesperson, said Rivers, who was involved in an automobile accident along with former teammate Ken Barlow, was not scheduled for more surgery, and doctors were still monitoring him for infection.

Rivers sustained a 12-15 inch gash across his abdomen after being hurled through the window of a van driven by Barlow last Sunday morning at approximately 1 a.m. on Elkhart County Road 1.

The two had been working and living in Elkhart during the summer. Barlow said that he swerved to avoid an oncoming vehicle which had veered into his lane and lost control of the van. The van then went off the road and rolled over, pitching Rivers through the windshield.

According to Notre Dame sports information director Roger Valdiserri, Barlow said that the driver of the other car stopped, and he asked the other driver to go for help.

In Brief

A $150,000 gift from the Monsanto Fund has established several undergraduate scholarships in the College of Business Administration. The gift memorialized 1950 alumnus Frank "Jack" Fitzgerald of Frostone, Mo., who died last April shortly after becoming president and chief operating officer of Monsanto Co., one of the world’s largest chemical companies. He apparently suffered a heart attack the morning after he delivered his first "state of the company" address at Monsanto’s annual meeting. —  P The Observer

Notre Dame’s chemical engineering department has been ranked fourth in the nation in the number of doctoral degrees awarded per faculty member, according to a recent survey by the American Chemical Society. The survey, covering the academic period from July 1984 to June 1985, reported one faculty member for each chemical engineering doctoral candidate at Notre Dame, the same ratio as reported at Stanford University. In the overall number of PhDs, graduates in the department, Notre Dame and Purdue University shared the 12th ranking, each having awarded 10 doctorates in 1985. —  The Observer

Acting band director James Phillips was appointed to his position after Robert O’Brien retired last spring, having served 34 years as director. Formerly the associate director of Notre Dame bands, Phillips holds bachelor’s and master’s degrees in music from Notre Dame. Rev. Edward Mally, C.S.C., associate provost, heads a search committee which continues to seek a permanent director. —  The Observer

Assistant director of security Philip Johnson assumed his present position after directing campus security at Carleton College, Northfield, Minn. A 1981 Notre Dame graduate, Johnson is licensed or certified in both Minnesota and Michigan as a peace officer. —  The Observer

Dr. Claudia Kselman has been named assistant director of Foreign Study Programs by Dr. Isabel Charles, director. She succeeds Arthur Grubert who now serves full-time as director of International Student Affairs. Last year, she co-directed Notre Dame’s program in Angers, France with her husband, Thomas. —  The Observer

Six Holy Cross seminarians will take their final vows in the Congregation of Holy Cross Saturday night at 7:30 in Sacred Heart Church. Taking vows will be Tom Daly, C.S.C., of Oceanside, Calif.; Mel Delaney, C.S.C., of Skaneateles, NY; Thomas Gauhan, C.S.C., of New Bedford, Mass.; Charles Gordon, C.S.C., of Franklin, Mass.; Jeffrey Liddell, C.S.C., of Mishawaka, Ind.; and Robert Reetzel, C.S.C. of Kerrville, Texas. A reception honoring these men and their families will follow each of the ceremonies. —  The Observer

Inflation cited as cause of ND tuition increase

By MIRIAM HILL
Senior Staff Reporter

Once again, Notre Dame students and their parents will have to dig deeper into their pockets to pay for increases in tuition and room and board charges.

In a letter sent to parents in June, the administration announced that its $175,422,100 budget depends on a $780 hike in undergraduate tuition and a $180 increase in room, board and laundry charges. The cost of undergraduate tuition and room, board and laundry will increase by about twice the rate of inflation.

Inflation is projected at 3.7 percent by the end of 1986, but undergraduate tuition will rise by 9.9 percent, to $8,625. Room and board charges will jump by 7.1 percent to $2,725.

Last year, tuition increased by 10.8 percent and room, board and laundry charges by 7.65 percent. Undergraduates are not the only students who will feel the bite of the tuition increases, however. Tuition for both graduate school and M.B.A. school will rise by $855 to $9,215.

Mason said that people are willing to pay something extra for a quality education. "We have to have something that is unique," he said. We have to have a product that people are willing to pay something extra for." The University will try to ease the financial burden on students by raising about $70 million for financial aid over the next five years, Mason said.

Mason said the said the tuition increase will help the University maintain a high quality of education. "We have to have something that is unique," he said. "We have to have a product that people are willing to pay something extra for."

ND Board of Trustees modifies investment policy at May meeting

By JOE MURPHY
(Feature Column)

In its May 9 meeting, the Notre Dame Board of Trustees modified its stand on investments in companies doing business in South Africa.

The Board also elected Donald Kough, president and chief operating officer of Coca-Cola Company, as its new chairman. Kough succeeds Theodore Carney.

In other action the Board approved a $20 increase in the student activities fee, raising it from $35 per academic year to $55 this year.

The full board has taken no action since the May meeting. The trustees will meet again at their regular fall meeting Nov. 14.

The Board added two conditions to its South African investment policy.

The Board authorized divestment from those companies doing business in South Africa that are not influencing the dismantling of the system of apartheid, or if circumstances warrant this action because of further deterioration of conditions in South Africa.

In addition, the Board directed its executive committee and its investment committee to review the South African policy at such meeting and report to the full Board.

The Board also mandated these committees to continue to use every one of our influence with companies in which we have investments to support and promote dismantling the system of apartheid and to monitor carefully the performance of such companies. The University has investments of approximately $31.5 million in approximately 80 companies doing business in South Africa.

The change in the Board's position comes after months of debate on the issue of divestment.

University President Father Theodore Hesburgh has stated publicly his opposition to divestment at this time. The Notre Dame undergraduate student body supported divestment in a referendum held last March, and the Faculty Senate voted for divestment in April.

Last fall, the Board strengthened its policy of selective divestment, a policy it has supported since 1973. The Board declined to endorse total divestment by any particular date, however.

At that time, the Board also adopted provisions which require companies to promise the elimination of apartheid in the workplace.

The University has divested from 11 companies which refused to sign the Sullivan Principles, which are designed only to eliminate apartheid in the workplace.

In addition to naming Kough as its new chairman, the Board also created the position of vice chairman. Andrew McKenna was selected to hold this position.

Kough has served as a trustee since 1978. He was awarded an honorary doctorate of laws degree from the University last year and recently finished serving as chairman of the Sorin Society, an organization which seeks unrestricted giving to Notre Dame.

McKenna, a 1951 Notre Dame graduate, has served as a trustee since 1981. He is director of both the Chicago Bears of the National Football League and the Chicago Cubs major baseball team.

Both Kough and McKenna have two-year renewable terms.

Corby’s set for possible reopening

By TRIPP BALTZ
(News Editor)

Corby Tavern may reopen if its prospective buyers can get approval from the Board of Zoning Appeals at a hearing at 3:30 today.

Two brothers, Thomas and Robert Przybylinski, plan to set up a restaurant-tavern business at the building located at 1020 Corby Blvd., according to John Gourley, their lawyer.

Gourley said the prospective buyers will need a variance to continue legal non-conforming use of the building.

The tavern has been closed since April 1985. A city ordinance dictates no more than two alcohol-serving establishments may operate within 1,000 feet of one another.

Currently The Commons and Bridget McGuire’s Filming Station operate where Corby, South Bend Avenue, and Edly intersect.

Corby tavern was allowed to operate for years under a grandfather clause that exempted it from the city ordinance. The Board of Zoning Appeals must approve continued non-conforming use before the tavern can be reopened.

According to Gourley, the prospective owners plan to act as full-time managers of the once-popular student bar.

LaFortune continued from page 1

the second floor and being used for storage, is essentially complete, Delbeck said. However, the stairway leading to the Ballroom still needs painting and plastering.

On the first floor, construction is being done on the walls and ceiling of The Huddle, he said. If kitchen and serving-line equipment are delivered on schedule, The Huddle should be complete by the third week of October.

Much work still needs to be done on the basement area, he said.

Pentagon could discharge 600,000 people

Associated Press

WASHINGTON - The Pentagon could discharge about 600,000 active-duty and reserve personnel starting in October if automatic budget cuts called for by the Gramm-Rudman Act are triggered, the Defense Department said yesterday.

Lt. Col. Pete Wynne, a Pentagon spokesman, said the department's Office of the Comptroller had completed an analysis which shows roughly 110,000 active-duty members of the services and another 280,000 reservists and National Guard personnel would have to be discharged to satisfy the spending reductions.

These projections are markedly higher than the initial estimates provided by Pentagon and Congressional Budget Office officials last week when the latest projections for the national budget deficit for fiscal 1987 were released. At the time, officials had predicted the cuts required under the law to lower the deficit would affect some 200,000 active-duty personnel.

The fiscal 1987 budget year begins Oct. 1.

The spending cuts are far from a certainty. Congress still has time to make additional cuts to other parts of the federal budget, which would lower the projected deficit and thus avoid triggering the deficit-reduction law. And Congress has yet to replace a key section of the law that was struck down earlier this summer by the Supreme Court.

If the reductions were actually ordered, however, the Defense Department would lose almost 15 percent of its 2.1-million-member active-duty force and 25 percent of its 1.3-million-member force of reservists and National Guard troops.

Last week, the Congressional Budget Office and the president's Office of Management and Budget released a report estimating the fiscal 1987 deficit as roughly $163.4 billion, or $10.4 billion over target set forth in the Gramm-Rudman Act, named for Sens. Phil Gramm, R-Texas, and Warren Rudman, R-N.H.

The law specifies that half of that $19.4 billion excess, or $9.7 billion, must come from military programs, and half from civilian programs. To meet the target, the budget office estimated that defense spending would have to be reduced by 5.6 percent and non-defense programs cut by 7.6 percent.

Of the $9.7 billion that would have to be cut from military programs, about $200 million would come from the automatic elimination of cost-of-living increases for military retirees - leaving $9.5 billion to be cut from other Pentagon programs.

Administration fears new Libyan terrorism

Associated Press

LOS ANGELES - President Reagan's top spokesman said yesterday the administration is worried about new terrorist plots by Libya's Muammar Gadhafi, but refused to say whether there is evidence to back that concern.

Larry Speakes said Libya still has the capability to commit terrorist acts, and we want them so be fully aware that our policy is unchanged. He offered to discount speculation that the United States is waging a new war of nerves with the Libyan strongman.

Our goal is to prevent Gadhafi from doing things, not to provoke him into doing things, the spokes-

man told reporters covering Reagan's three-day visit here in the midst of the president's West Coast summer vacation.

But Speakes also refused to spout out any intelligence-source evidence of new plots, saying only that the United States is dealing with realities in this situation.

A senior administration official had said there is hard evidence that the Libyan government has been planning and seeking to execute terrorist acts ... since the U.S. bom-

bing of Libya on April 15.

But other officials at the White House and State Department, who also were speaking only when granted anonymity, insisted that there was no such compelling evidence.

"We dont have evidence, nor of any recent attack directed at us or we that have sources with confidence to Libya," said the State Department official. "There is lots of information on targeting, but it is uncontrover-

sial, which is the standard we have set for ourselves."

**H-Bomb ‘accidentally’ dropped 29 years ago**

Associated Press

ALBUQUERQUE, N.M. - A 42,000-pound hydrogen bomb accidentally fell from an Air Force plane 29 years ago, it was disclosed yesterday, but officials said there was never any chance of a nuclear explosion.

No one was injured when the bomb hit an uninhabited area south of Kirtland Air Force Base's control tower on May 22, 1957, the Albuquer-

que Journal reported in a copyright story.

The bomb - a 12-foot deep and 25 feet in diameter, and minor radioactive contamination was detected there, government documents obtained by the Journal said.

Non-nuclear explosives must be triggered in a precise manner to cause a nuclear explosion, said Rich Garcia, spokesman for the Air Force Weapons Laboratory in Albuquerque.

The bomb had a portion of the actual weapon removed and put in a different location, he said. It was routine procedure at the time.

The Mark 17 fell 1,700 feet from an Air Force B-36 bomber at it was flying to Kirtland Air Force Base from Arnold Air Force Base in Texas, the documents said. Kirtland is located just south of Albu-

querque.

The government first reported the accident in 1981 in a brief release saying only that a nuclear weapon of some kind had been dropped. The documents obtained through the Freedom of Information Act contain the first public description of the type of weapon involved and other details of the accident.

Cafarelli resigns post over summer

Special to The Observer

Father Francis Cafarelli resigned his post as assistant vice president for student services during the summer. He will pursue studies at St. John's College, Annapolis, Maryland.

Vice President Father David Tyson chose Father Peter Rocca, a 1970 graduate of Notre Dame, to succeed Cafarelli. Rocca received a master's degree in theology from the University in 1973. He also holds degrees in liturgical music and studies from the Catholic University of America.

Ordained in 1974, Rocca has served as assistant pastor of St. Ignatius Church in Austin, Texas, associate rector of Sacred Heart Church at Notre Dame, and staff member at Moreau Seminary. He is a member of the Provincial Coun-

tel of the Congregation of the Holy Cross.
Contract negotiator for USX says offer exceeds other union wages

Associated Press

LAS VEGAS - USX Corp.'s chief contract negotiator told 22,000 steelworkers their fellow union members are working under terms not as good as our last offer.

"The truth is that the wage and benefit proposal we made is beyond the reach of most industrial workers in our own country, much less abroad," USX executive vice president J. Bruce Johnston said in a letter released by the company yesterday in Pittsburgh.

United Steelworkers members have been off the job since their contract expired July 31, and except for rallies in the press, the two sides have not communicated since then.

"The USX letter ignores the problems the company created by willfully violating the agreement during the past three years," said USW treasurer James McGeehan, the union's chief bargainer with the nation's largest steelmaker.

"Thousands of our members have lost their jobs as a direct result of contracting out and the unnecessary use of overtime by the company," said in Las Vegas at the USW's biennial constitutional convention.

The use of non-union contractors to work in USX plants has emerged as the biggest stumbling block to a settlement.

"If money were the only issue, we'd be back on the job already," one top union official said privately in Las Vegas.

Johnston cited wage and benefit concessions the USW granted to LTV Steel Co., Bethlehem Steel Corp., and Inland Steel Corp., the second-, third- and fourth-largest producers, and to tenth-ranked National Steel Corp.

Those competitors are now taking our jobs as aggressively as they can, Johnston said in his first letter to employees since Aug. 1.

"Our biggest competitor (LTV) now has your work in his mills under a steelworker labor contract not as good as our last offer," he said.

"Union leaders point out that the four recent settlements contain strong new language curbing the use of non-union contractors. They say USX is making a direct assault on the union's existence by demanding unbridled authority to farm out USW positions.

Johnston said the company offered an hourly wage scale from $9.50 to $14.20, plus incentive pay, premiums for Sunday work, shift work, overtime and holidays and 10 other benefits items.

"No one likes to take less - it's only human to want more - but in the steel business where losses and bankruptcies keep mounting, the package we presented was the very best which conditions permit," Johnston said.

"No one likes to take less - it's only human to want more - but in the steel business where losses and bankruptcies keep mounting, the package we presented was the very best which conditions permit, one few employers can match," Johnston said.

delia, wife of jailed African National Congress leader Nelson Mandela. She toured White City yesterday and predicted worse to come.

\[continued from page 1\]

Violence continued from page 1

Violence subsided yesterday afternoon in this city of nearly two million people. Helicopters and tanks were used to bring order, as fires blazed and live rounds were fired into the haze of smoke from burning rubbish and chimneys, which mixed with occasional wisps of tear gas.

Yesterday evening, journalists reported that youths in six neighborhoods rebuilt barricades troops had tried to dismantle and security forces fired birdshot and tear gas at them.

Huge boulders, cement blocks, tree branches and car wreckage made barricades in the dirt streets and asphalt roads of White City, scene of the worst riots. White City got the name because it is the best-lighted neighborhood in the 38-square-mile township.

Knots of silent, sullen young blacks stood on the streets, glaring at passing cars.

They will find some target - a councilman's home or the home of a policeman - said a resident who believed more violence was in store.

Army personnel carriers and police trucks called Casspits rolled along the back streets or sat in open fields.

The ever-present armored trucks have inspired bumper stickers in the townships that read: Casspits are not friendly ghosts.

Most schools were deserted yesterday, but the government said none had been officially closed.

Residents and police said youths put up barricades of rocks and debris Tuesday evening, hurled stones and firebombs at police and passing cars and went from house to house urging people to join the battle.

Observer announces new 'campus network'

How often do students eat off campus? What do students think about the increase in the activities fee or the NCAA's higher academic standards for student athletes?

The Observer wants to find out. That's why it's creating a research department to compile statistical data on campus, local and national concerns.

The Observer Campus Network, should be operating by Sept. 15. The network will consist of representatives from each hall and section. Applications will be available soon for those interested in the dorm positions.

The purpose of the network will be to enable The Observer to report its readers' opinions. The network will conduct readership surveys, campus-wide surveys, and random polling on a regular basis.

Administrators, student and campus leaders have complained in the past they do not know what students think and want. The network will try to capture the opinions of the community served by The Observer.

Hesburgh welcomes students’ return to ND

Dear Notre Dame Men and Women:

Welcome back. I can tell from the look on so many faces here that you all had a wonderful summer and are glad to be back, even though that means hitting the books again. The summer was well spent, I am fairly quickly when the first classes begin and then there will be excitement of another kind in the air as well.

Governor John Gilligan and his wife and Father Bill Beauchamp and I travelled around the world this summer by way of Moscow and Beijing in connection with our new Institute for International Peace Studies. We had great meetings in Moscow and Beijing and secured the cooperation of the Russian and Chinese Academies of Science in our project to bring young Russians and Chinese, as well as British, French, Japanese, and Americans, here for a year as Peace Fellows. We also secured the acceptance of two of the top scientists in each Academy to serve as our International Advisory Board for the Institute.

I would like to add to the welcome above a special word to seniors who will become very nostalgic at their final year at Notre Dame progresses. To the juniors, you are better than half way to graduation now. To the sophomores, just don’t let sophistication stump you or get you down, for that may be a great year. And to the freshmen, welcome special welcome for the four greatest years of your lives that await you at Notre Dame. To all of you, including our graduate students as well, may I say that you are in my Mass daily for all blessings during this next school year which will be my final one as President. It is a sobering thought that I will be 70 years old next March and have spent exactly half of my life in this exciting post. Much of the joy has come from long generations of students who seem to get even better as the years pass. They always were great. Again, welcome back and have a great year.

Ever decadely in Notre Dame, Rev. Theodore M. Hesburgh, C.S.C.

An effective viewpoint depends on leaders

In drawing up a list of the top ten phrases used to describe Donors, leading the list is "they are all alike." It is said that in terms of donor support, Notre Dame and Saint Mary’s students are homogenous.

Scott Beary

but wait, there’s more

On the surface, the stereotype probably has some merit. Take a walk down the quad and you will see a lot of similarity. However, in two years at Notre Dame, I have learned that not everyone thinks alike and fortunately these differing opinions are heard verbally in classrooms, dining halls and dorm rooms.

One of the best examples in seeing the different interests and concerns at Notre Dame and Saint Mary’s is the very question you are reading. This is a viewpoint on a viewpoint.

The viewpoint pages do not reflect what the average student is thinking, but rather what each individual feels about a particular issue. The goal of the editorial department that this is to have more individual contributions to their views to our newspaper so that the pages will be more representative of the student body. Our goal is to get as many faces as possible as an argument as there are on the campus.

Last year over 500 letters and 300 columns from students, faculty, administrators and concerned individuals appeared in Viewpoint. In these 800 commentaries there were a range of insight from campus issues to international concern. These individuals decided that their opinions made a difference.

Viewpoint would like to continue the quality of well-written, accurate, interesting columns and letters. Quality translates into credibility, which is our main objective. The department is more than willing to work with any interested individual who has a statement to make.

The 800 commentaries printed last year are a significant number, however, the Observer is a non-profit organization and cannot possibly support 800 individuals individually. If the Viewpoint pages reflect the entire Notre Dame/Saint Mary’s community, more input must be received. Viewpoint must achieve a greater quantity of letters and columns in order to be an open forum which shows how diverse the student body is.

Quote of the day

"To carry anything to an end worth reaching you must be willing to commit yourself to a course, perhaps a long and hard one, without being able to foresee exactly where you will come out."

Oliver Wendell Holmes, Jr. (1841-1935)

The Observer

A Blistering Commitment to nuclear disarmament takes its toll on the feet

MARY JACOBY
features editor

will world peace be achieved if 600 people torture their feet for nine months? Not likely, members of the Great Peace March for Global Nuclear Disarmament admitted during a two-night stopover on the campus of Notre Dame. The march, which has gained nation-wide publicity since its beginning March 1 in Los Angeles, made camp last Saturday on White Field. Adding during a two-night stopover on Nuclear Disarmament admitted.

Great Peace March for Global

Although most marchers are serve to raise consciousness," she said. "It's one way or the other, man. 'No, this has to stop. We can't put up with this threat,' " Haygeman said. "And it was so cold outside you couldn't leave your tent after 6:30 in the evening."

Fortunately the legal questions were straightened out and other corporate donations were collected, enabling the march to continue on its way. Since then the march has caught up with its schedule, averaging 15 to 25 miles a day.

Except for a few punks with spiked pink hair and even some "normal" looking people, entering the Peace March compound was like going through a time-warp back to the '60s. The Notre Dame students who ventured into the camp found a thriving - albeit fringe - culture that many may believe has died out with the passing of rock'n'roll classics, the camp became a real spectacle as many of the marchers gathered around to dance. The costume of the evening consisted mainly of tie-dyed shirts and worn jeans, leather sandals and long hair - once marchers even wore their blond hair in dreadlocks.

Some of the younger men swung little kids around in circles by their hands and feet while the rest of the crowd either danced, ate in salad dinner or just watched. Having the band was a special treat for the group, which usually don't have entertainment at campsites.

One of the tents where the peace marchers camped.

Boilermaker quarterback situation is decided now

Associated Press

WEST LAFAYETTE, Ind. - Freshman quarterback Jeff George will start for Purdue in the Boilermakers' season opener Sept. 13 against Ball State, Coach Leon Burtnett said yesterday.

We felt we had to make the decision quickly so that Jeff could get the required number of turns with the No. 1 unit prior to the opener, Burtnett said. Not taking anything away from the other two, but he's the best ... outstanding. He can make the big plays for us.

George was rated the No. 1 high school player in the country last year after he led Indianapolis' Warren Central to the state 5A football championship.

He edged out fourth-year juniors Doug Downing and Jeff Huber, who already have played under the shadow of Jim Everett during their college careers.

They took it real well, Burtnett said of Downing and Huber. And both said they will continue to compete with Jeff for the starting job, as well as do everything they can to make this a better football team.

George set national prep passing records for completions and attempts in leading Warren to a 16-2 record over three years. For his career, he threw for 94 touchdowns and more than 8,000 yards.
Welcome to your home away from home! We, in the Office of Student Activities, know how thrilled you are to be in South Bend, Indiana!! Well, you can enhance your stay by participating in some very exciting events. Start your year off right -- a year which we hope will be academically successful as well as socially enjoyable.

Whether you are jubilant or hesitant (or maybe a combination of the two) about your return, you will find fun geared to your individual pleasures during our week of welcome. Individual class picnics, ice cream socials and trips to the Dunes are just a few of the events enticing you to participate. There will also be an opportunity to do some shopping at the Stepan Mall to make your dorm less dreary. Come spend your moolah!

There will be a first ever outdoor movie on campus. No cars invited!!! Yes, the "Music King" returns to play again at the annual (campus-wide) "Dance Under the Stars" Beach Party, August 29 from 9:00-11:00 p.m. Just imagine 22 tons of sand on Stepan basketball courts. Add to that the sound and light extravaganza, refreshments, a WALLAH!! Instant Beach party, all you need is a pair of sunglasses, a towel and your dancing thongs to enjoy this evening on Stepan Beach.

Student Activities Night will be held at Stepan Center, September 2 from 7:00 p.m. until 10:00 p.m. Clubs and organizations will provide information at their respective booths. This is an excellent time to learn about the different groups on campus to help you determine where your interests lie.

For more than a decade, Gloria Steinem has been the most persuasive spokesperson for the feminist movement in America. At the same time, she has built a reputation as a journalist of outstanding integrity. Her work has appeared in New York Magazine, where she was a founding editor and the political columnist until 1971, and numerous other national publications, as well as many abroad. She currently writes regularly for MS. Considered to be one of the most influential women in the United States, she also travels as a speaker and feminist organizer. We in the Notre Dame/Saint Mary's community will be fortunate enough to hear her elaborate on issues concerning the humanity of all peoples on September 17 O'Loughlin Auditorium. Don't miss this opportunity to hear the "woman of our times."

"The World's Greatest Mime." This is how Don McLeod is billed. McLeod was the famed American Tourister gorilla and is presently filming an episode of TV's "Amazing Stories" which will be aired in September. Don performs a closing piece entitled "The Creation," which portrays God's creation and Man's uncreation. In addition, he has agreed to create three of four topical pieces regarding social concerns. He will also do a piece called "Sophomoric" about a young college student who "Knows it all." He will appear in Washington Hall, 8:00 p.m., September 18. Don't miss this unique performance.

STUTTGART, West Germany-Linford Christie, a 26-year-old youth worker from Jamaica, won the men's 100-meter dash yesterday, giving Britain its first gold medal in the European Track and Field Championships.

Christie overcame a slow start to score an impressive victory in 10.15 seconds. Steffen Bringmann of East Germany was second in 10.30 and Bruno Marie-Rose of France third in 10.21.

East Germany's Marlies Gohr won the women's 100-meter title in 11.01, for the first of two East German golds on the day.

Gohr matched the fastest time of the year which Israel's Ashford of the United States and East German Heike Drechsler had set at Moscow in July.

Anelia Nuncwa of Bulgaria was a surprising second in 11.04 and Neili Costain of The Netherlands third in 11.08.

Drechsler, the world record holder in the women's long jump, gave the East Germans their second gold, leaping 24 feet, 10 3/4 inches. Drechsler is expected to win three golds during the championships, adding the 200 and the women's 400-meter relay to the long jump.

Galina Chistyakova of the Soviet Union was second at 23-11 1/4 and Helga Rudcke of East Germany third at 23-8 1/2.

The other golds on the second day of competition went to Klaus Tafellmeier of West Germany in the men's javelin at 278-1 and Jozef Pribilinec of Czechoslovakia in the men's 20-kilometer walk in 1:21:15.

Tafellmeier set a European best with a new javelin, approved this season. His mark was second in the world only to the 280-1 by Tom Petranoff of the United States.

Detlef Michel of East Germany was second at 268-8 and Viktor Vavyschuk of the Soviet Union third at 268-4.

Pribilinec edged Maurizio Damiano of Italy by two seconds. Miguel Perez of Spain finished third in 1:21:36.

Detlef Michel of East Germany was second at 268-8 and Viktor Vavyschuk of the Soviet Union third at 268-4.

Pribilinec edged Maurizio Damiano of Italy by two seconds. Miguel Perez of Spain finished third in 1:21:36.

Gohr matched the fastest time of the year which Evelyn Ashford of the United States and East German Heike Drechsler had set at Moscow in July.

Anelia Nuncwa of Bulgaria was a surprising second in 11.04 and Neili Costain of The Netherlands third in 11.08.

Student football ticket distribution Monday

Special to The Observer

Once again, it's time for everyone to practice standing in line as student football ticket sales begin Monday.

Students who wish to purchase tickets must bring their application, remittance and ID card to Gate 10 of the ACC on the day specified for your class. Tickets will not be distributed at Gate 3 as was originally printed on student applications.

A limit of four applications may be presented together per student, provided that the individual presenting the applications has all four ID cards. Married students wishing to purchase a ticket for their spouse must show proof of marriage. The ticket for the spouse will be the same price as a regular student ticket.

Student football ticket applications have been sent out to all students with a campus or local address. Any student who has not yet received his or her application, or whose preprinted application contains an error in class status, should go to the Ticket Office on the second floor of the ACC on a day prior to the one designated for his or her class.

The schedule for ticket distribution is as follows:

<table>

The schedule for ticket distribution is as follows:

**Zealous Becker defeats Canadian, 6-2, 6-2, 6-2**

Associated Press

NEW YORK - Wimbledon champion Boris Becker bounced back surprisingly strong challenge from Canadial Glenn Michibata yesterday, advancing into the second round of the U.S. Open Tennis Championships.

Unlike Tuesday's opening day, when four-time champion John McEnroe was ousted, there were no major upsets in yesterday's early matches.

Also posting first-round victories in the men's singles on the hard courts at the National Tennis Center were second-seeded Mats Wilander, No. 4 Stefan Edberg and No. 11 Mikael Pernfors, all from Sweden.

In women's singles, advancing into the second round in early matches were second-seeded Chris Evert Lloyd, a six-time U.S. Open champion; No. 5 Steffi Graf of West Germany, No. 5 Pam Shriver; No. 7 Helena Sukova of Czechoslovakia, and No. 13 Stephanie Rehe.

Playing under leaden skies with a threat of rain, Becker, the 18-year-old West German redhead, defeated Michibata 6-2, 6-1, 6-2 as the Canadian Davis Cup player put up a courageous battle on the Stadium Court. But Becker had just too many weapons, especially his big serve.

Becker broke Michibata, a former Pepperdine University student, in the third game of the opening set, then broke him again in the seventh game. Both times, Michibata had battled to deuce on his own serve.

But the Canadian right-hander, ranked 59th in the world, found the passing laces in the second set as the two traded groundstrokes from the baseline.

Becker broke Michibata's serve in the first service break in the second set, in the eighth game. Becker broke right back, but Michibata, leading 6-5, closed out the set when he broke Becker's service at love.

Although Becker controlled the match after that, he had to fight hard for every point. For example, in the final set, Becker launched himself to his left, looking for the airborne backhand volley that has become his trademark. But this time, Michibata's forehand passing shot down the line glanced off the end of Becker's racket.

**NCAA continued from page 20**

I see these guys coming home from practice tired and I wonder how they make it through their classes. I'm going to study hard and get smarter so I'm ready next fall."

Until then, Foley and his two classmates keep their scholarships but are not allowed at team practices, film sessions or any other team activities. And while the football and basketball teams will certainly miss their services, you won't get any arguments from Notre Dame coaches about the importance of academics at the college level.

"They're four young men and very intelligent," explained Holtz. "I'm sure they'll vindicate themselves in the classroom."

**Phils 2, Dodgers 1**

LOS ANGELES - Jeff Stone scored from second base in a collision at home plate on Von Hayes' two-out single in the ninth inning as the Philadelphia Phillies beat the Los Angeles Dodgers 2-1 last night.

Ronko left-hander Bruce Ruf-fin. -3-, allowed five hits over eight innings for his fourth consecutive victory. Steve Bedrosian pitched the ninth inning to earn his 19th save.

Stone, who reached first on a one-out fielding error by Dodger shortstop Dave Anderson, stole second on a 2-2 pitch to Milt Thompson, who eventually struck out. Hayes then lined a single to left field and Stone scored when he resembled the throw from outfielder Bill Russell out of catcher Alex Trevino's glove.

Los Angeles starter Bob Welch, 6-10, allowed nine hits while walking three and striking out 10.

**Blue Jays 3, Indians 2**

CLEVELAND - Ernie Whitt's leadoff home run in the 12th inning gave the Toronto Blue Jays a 1-2 victory over the Cleveland Indians in the first game of a doubleheader last night.

Whitt hit the homer on a 2-2 pitch from Bryan Oehler, giving the victory to Mark Eichhorn. Eichhorn, 11-1, allowed only one hit, striking out three and walking one in 2 2-3 innings. Tom Henke finished up for his 19th save.

Oehler, 2-3, gave up the one run on three hits in three innings.

**Reds 9, Pirates 5**

PITTSBURGH - Eric Davis hit the first grand slam of his major league career with two outs in the ninth inning to break a 5-5 tie and give Cincinnati a 9-5 victory Monday night over the Pittsburgh Pirates. It was the Reds' fifth straight win and ninth in 10 games.

Don Robinson, 2-3, opened the ninth by allowing a single to Ron Oester and walking pinch hitter Max Venable. After Cal Daniels sacrificed, Buddy Bell walked to load the bases. Mahler walked Pendleton on a 3-2 pitch.

Tedd Warnell, 8-9, got the final seven outs in relief of John Tudor, who left with a stiff left shoulder. Tudor allowed eight hits, walked four and struck out four.

**White Sox 3, K.C. 1**

CHICAGO - Ron Karkovice, playing in only his ninth game at the majors, hit a three-run home run to power Floyd Bannister and the Chicago White Sox to a 3-1 victory last night over the Kansas City Royals.

Bannister, 8-10, allowed six hits in working his fourth complete game and helping the White Sox snap a five-game losing streak. Ban- nister struck out five. Danny Jack- son, 9-9, was the loser.

Karkovice's second-inning blast was his first in the major leagues after hitting 20 this season with Class AA Birmingham. Russ Mor- man and Ozzie Guillen had homered to start the inning.

**Giants 3, Expos 2**

SAN FRANCISCO - Bobby Thompson raced home with the winning run on Andy McGaffigan's second wild pitch in the eighth in- ning yesterday, leading the San Francisco Giants to a 3-2 victory over the Montreal Expos.

Pitch-hitter Dan Gladden opened the eighth with a walk and one-out single and then scored on Thompson's single to tie the score 2-2.

Thompson reached second on Will Clark's ground out to first and went to third on McGaf- figan's wild pitch. Smith then scored on the wild pitch as Candy Maldonado was walked.

Kelsy Downs, 1-4, pitched a five-hitter over eight innings for his first major-league victory. Scott Garrelts pitched the final inning for his sixth save.

McGaffigan is now 8-5.

How to start your law career before you start law school.

Start with the Kaplan LSAT prep course. After taking Kaplan, thousands of LSAT students score over 40. That's the top 10% nationwide! And candidates who score over 40 on the new LSAT enjoy the best chance of being accepted to the law school of their choice and going on to practice with top law firms or corporations.

So call any of our 120 centers for information and class starting dates. The Kaplan LSAT prep course could be the one pre-law course that determines the course of your law career.
Proposition 48 affects incoming Irish athletes

By MARTY STRASEN
Chicago Tribune

In an effort to make college football players students before athletes, the NCAA put into effect Propositions 48 on Aug. 1.

Now, less than a month later, the consequences of the new legislation are becoming evident as the Irish evaluate two varsity teams and three freshmen at the University of Notre Dame.

Irish football players Tony Rice and John Foley, as well as Keith Sharpe and John Heisler, associate sports information director, have been declared ineligible to participate in varsity athletics until August of 1987, because of their failure to achieve minimum scores on the SAT and ACT standardized tests.

"During recruiting we looked at academic standing, grades and course load, and we thought they would do well on the test," said Notre Dame head football coach Lou Holtz.

"Our people urged the student to pass the year of ineligibility," said John Heisler, associate sports information director. "Re-taking the test is a risk, there is no guarantee if they don't pass the tests the next time, they can make the commitment to academics first. Next year I think I'll be well-situated academically and I shouldn't have much trouble stepping in. Meanwhile, FBI is putting on some weight and trying to keep in shape.

I wasn't really down about it any longer," said John Heisler. "My goal is to make the commitment to academics first."

"I wish I did come here this fall and meet the people I'd be dealing with," said Foley.

"It's good to make the commitment to academics first. Next year I think I'll be well-situated academically and I shouldn't have much trouble stepping in," said John Heisler.

Fifth-ranked Alabama defeats Ohio State, 16-10

Problems stemming from errors in last fall's construction of the Roll's Aquatic Center have forced the facility to temporarily close.

The closing, which took place on July 20, is only temporary, according to Director of Aquatics Dennis Stark, who hopes to reopen the pool in the near future.

"We noticed at the very beginning that there were problems with the starting blocks," Stark said.

Other problems with the construction of the movable bulkheads developed throughout the season.

The movable blocks, two pieces of equipment designed for flexibility, allow Stark and his staff to divide the pool into one, two or three sections.

Obtrusion compartments within these blocks developed a leak, according to Stark, and quickly filled with water.

This complication, in addition to other problems on the pool's decks which suddenly locked, caused great difficulty in managing the equipment.

The company could not begin working on the problems until July 21, because we were continually using the pool," Stark said.

Rolf's Aquatic Center is shut down because of construction problems

Associated Press

EAST RUTHERFORD, N.J. - Mike Shula, symptomatic for most of the game by Ohio State's defense, flipped a three-yard touchdown pass to Albert Bell with 1:02 remaining.

The Obeerver/Jim Carroll

The Notre Dame football team continues to plow through its preparation for the season opener against Michigan on Sept. 14.

Fullback Perry Hall follows the lead of Byron Spruell (73) and Andy Hack (88) against outside linebacker Rich Martin (40). Student home ticket information appears on page 16.

The leadup to the Notre Dame-Ohio State game is a special attraction for Fighting Irish fans.
