Dressed for success

A student models the latest SYR look yesterday on the main quad. Although this style is not for everyone, it will be fairly common to see such semi-formal attire this week, as seniors file to LaFortune to have their yearbook picture taken.

Priet warns about ‘mercy killing’

By CHRIS BEDNARSKI
Assistant News Editor

Legalized mercy-killing of terminally ill patients could cause other people to consider suicide, according to Father Robert Barry, professor of religious studies at the University of Illinois.

Barry spoke on the topic of euthanasia during a lecture in the Architecture Building last night sponsored by the Notre Dame-Saint Mary’s College Right to Life Club.

"If we allow a certain specific class of citizens to kill themselves when they claim their suffering is too great to bear, then we create a breach that is going to exploit the desperate, immature, and the lonely," he said.

Barry said suicide has traditionally been a device of the financially desperate, lonely those who suffer mental illness and those who are often just not very bright.

"It’s those people who will see that if some people can commit suicide because of their suffering, then they will ask themselves, if my suffering is as bad as theirs, why can’t I kill myself," he said.

The chance that mercy-killing will be legalized in the United States is great because of "a very effective and potent right to die movement in our country," said Barry.

"Legalized mercy-killing and assistance in suicide are being promoted in this country by various organizations," he said.

The Hemlock Society is supporting legislation in California that will make it legal for physicians to give lethal injections to terminal patients upon request, he said.

Barry said the leadership of the American Medical Association is also promoting mercy-killing. He quoted from a judicial council decision of the APA saying "there is nothing objectionable about removing nutrition fluids from permanently unconscious patients who are judged to be permanently unconscious."

"In my opinion this judgment is illegal, it’s unethical. It’s discrediting the profession and it is against good medical practice," he said. "It is simply against the ethos of American medicine to give up on these people and not even provide them with food and water," he said.

Euthanasia is an International movement," Barry said. He cited a 60 Minutes segment that said in one of six terminally ill patients in Holland died from physician administered lethal injections.

"Mercy-killing is upon us and I don’t know if we can stop it," he said. "I’m very pessimistic, I think it’s lost. Only the Vatican can stop it," he said.

The suspects allegedly approached the two graduates as they were sitting in their car. Johnson said. While one suspect kept his hand in his pocket, the other demanded money from the victim in the driver’s seat.

When the victim displayed his empty wallet, the suspect struck him three times in the face. Johnson said. The victim in the passenger’s seat then gave the suspect $10.

The suspect walked over to the passenger’s side of the car and demanded more money. Johnson said. However, the victim claimed he had no more and showed him his empty wallet.

After the suspect repeated his demand once again without success, he hit the victim in the left eye, said Johnson. The victim then reached into a compartment in his wallet and handed him $70.

The other suspect, who up to this point had kept his hand in his pocket, pulled out a semi-automatic handgun, said Johnson. The suspects then fled.

The first suspect was described as a black man, about 24 years old, between 5 feet 9 inches and 6 feet 2 inches tall, slender with a medium complexion, and wearing a dark blue jacket and blue pants. The other suspect was described as a black man, about 27 years old, 5 feet 10 inches tall, medium build with a medium complexion, and wearing a baggy blue sweat jacket and dark pants.

SMC Security receives no reports about students cited in police raids

By MIRIAM HILL
Senior Staff Reporter

The names of St. Mary’s students issued citations at raids of off-campus parties are not reported to College authorities, unlike those of Notre Dame students, which are forwarded to Security.

St. Mary’s Security Director Richard Chlebek said his Department had not arranged to get the names of cited students from area police.

"We receive no information, that I know of, on any of our students," Chlebek said. "We have not met with South Bend Police officers or the Indiana State Excise Police.

St. Mary’s Director of Residence Life Patricia Rissmeyer said police usually do not inform her if a student is arrested or issued a citation.

At a meeting with University officials last spring, South Bend Police agreed to turn over the names of cited students to Notre Dame Security Director Rex Rakow.

St. Mary’s Security was not invited to the meeting because St. Mary’s students do not sponsor off-campus parties, Chlebek said.

St. Mary’s students “do not have these big parties,” Chlebek said. “Our students are not creating the problems, so we were not invited to the meeting,” he said.

South Bend Police Capt. Patrick Cotrell said his department had never issued a ticket to a St. Mary’s student for having a party that was not a house party.

They were served alcohol.

Cotrell said he did not know whether St. Mary’s students had ever been cited for consumption of alcohol by a minor because Indiana State Excise Police issue those citations. Excise police were not available for comment.

At least 141 students have been cited for violations of state liquor laws during raids of off-campus parties and bars this year.

The raids were part of "Operation Stop Underage Drinking and Sales," said Rakow in his press conference.

Rakow said he reviews the citations and arrests and forwards the names of students who he believes have acted in a way "contradictory to the University" to John Gaiterich, associate vice president for residence life.

Rissmeyer said her office occasionally receives complaints about St. Mary’s students sponsoring events like hotel parties. She added, however, that such complaints usually come from hotel employees and not police.
Fat Shirley's: perfect solution to late-night munchies at ND

Nothing in the world is more irresistible than the late-night munchies. There are many dangers after bar-hopping or off-campus party-gorging. The craving for pizza, hot dogs, and, of course, breakfast foods, sharpens the hordes of hungry nocturnal nomads to early morning institutions such as Pauget's, Azar's, and the Great American Hot Dog Man.

Legends for its post-midnight fare is the White House System, better known as Fat Shirley's. Shirley McAlexander is one of the workers at White House, but she doesn't own it. She works there from 10 to 5 every day except Thursday and Saturday. That's 9 p.m. to 5 a.m. and you thought your summer job had bad hours.

White House is easily recognizable at night because of the bright words emblazoned over it. The message 24 Hours - Coffee Shop - 24 Hours bathes the joint in a surreal pink aura. To reach it, one drives south of the Five Corners on Twyckenham and looks for the glow. During the day, it's impossible to find the place.

Inside, White House looks like the soda fountain set from, well, your favorite Fifties movie. One row of soda stools lines the food counter. Beyond this works the indomitable Shirley. Shirley's personality has earned White House its reputation and its nickname. But the dawn patrol of students faithful to White House return again and again for its perfect food. Not necessarily great food, but perfect for the late-night munchies.

For example, try the classic Truckers' Special. This includes eggs, toast, hash browns and either bacon, ham or sausage - all for $2.30. Add $.35 for all the coffee you can down. I doubt any truckers actually eat at White House, judging from the size of the parking lot. But I suppose Donner's Special would have been too cute. And too typical of the South Bend institutions students usually visit.

Maybe that's part of the great appeal of White House. It's one of the few places in town a student can go and escape from the Notre Dame mystique that lingers everywhere else in the community. The college bars are draped with hand-painted signs and packed with drink-laden Donners, while fun-seeking students at other bars stand out like the ring glaring sign at White House.

White House is devoid of Notre Dame bric-a-brac. The walls are covered with little signs like "I'm perfectly fine." The message "24 Hours - Coffee Shop - 24 Hours" sets up the "24 Hours - Coffee Shop - 24 Hours." The Observer is published Monday through Friday except during exams and vacation periods. Board of Programming presents plans to improve campus security

By SHARON REGG
News Staff

Increased campus security was the topic of discussion at last night’s joint meeting of the Saint Mary’s Board of Governance and Programming Board. According to Jeanne Beller, Saint Mary’s student body president, student government will send a proposal to Richard Chlebek, director of Saint Mary’s safety and security, suggesting a series of security improvements.

These safety measures include placing phone boxes on “rape road” which when opened alert security immediately, an escort service to be used when the shuttle stops its rounds, shuttle service throughout graduation week, better lighting, and signs posted at the main entrance of each building to warn students not to walk alone.

The rules concerning parietals, the committee added, should be made less ambiguous. The committee said the rules presently offer vague guidelines regarding the appropriate punishment for violations.

The Senate also passed a resolution to gain greater student access to LaFortune Student Center.

“We want some place in LaFortune open all night,” said Student Body Vice-President Don Montanaro, explaining that the resolution included a proposal to make some sections of the building available 24 hours a day.

Another concern expressed at the meeting was the dearth of financial aid that Notre Dame has to offer. Sophomore Class President Pat Cooke reported that only 25 percent of all financial aid received by students comes from Notre Dame.

“Notre Dame ranks well below other institutions in meeting the needs of the students,” Cooke said.

The University, however, is hoping to triple student financial aid by 1990, according to Cooke. The Senate also complained of rigid restrictions placed upon student functions by Student Affairs. Several events, most recently the sophomore and senior class tailgaters, were cancelled due to the likelihood of alcohol being present. Liability costs make it expensive to sponsor alcohol-related events under the auspices of the University, according to Senior Class President Dave Miklos.

Senates discusses parietals proposal

By DAVID T. LEE
News Staff

The Student Senate proposed extending dorm visitation hours and making penalties for parietals violations less severe, during a meeting last night.

A student government committee on parietals recommended starting the daily visitation hours at 9 or 10 a.m. and advancing the hours on Sunday night to 12:30 a.m.

The committee also suggested that only repeat violators be punished, instead of visiting someone in the dorm once, falling asleep in a dorm once, or living in a dorm once.

Increased campus security was another concern expressed at the meeting. The committee added, these safety measures include placing phone boxes on “rape road” which when opened alert security immediately, an escort service to be used when the shuttle stops its rounds, shuttle service throughout graduation week, better lighting, and signs posted at the main entrance of each building to warn students not to walk alone.

The rules concerning parietals, the committee added, should be made less ambiguous. The committee said the rules presently offer vague guidelines regarding the appropriate punishment for violations.

Aquino arrives in U.S. seeking support, aid

Associated Press

SAN FRANCISCO - Philippine President Corazon Aquino arrived in the United States yesterday for a nine-day visit to seek political and economic support for her faction-ridden government.

Aquino was greeted by Gov. George Deukmejian, U.S. Sen. Alan Cranston and a crowd of cheering supporters as she reached San Francisco on a regularly scheduled Philippine Airlines flight. Air Force Two waited to take her to Washington.

In her homeland, military leaders pledged to keep the nation "stable and safe" in her absence.

Aquino, who will meet President Reagan and address a joint session of Congress this week, said before departure she would try to convince U.S. political and business leaders that Philippine problems are "as much their concern as ours.

"I shall remind them all of what Filipinos can accomplish when they set their minds and hearts to it. I shall do this to convince them that they can depend on us to meet the unfair obligations that we, out of honor have taken upon ourselves," she said in a departure statement.

Her visit includes meetings with officials of the International Monetary Fund and the World Bank to try to obtain more lenient terms on repaying the Philippines' $26 billion foreign debt.

She also planned to meet New York business leaders to try to persuade them to invest more in the Philippines.

Aquino did not elaborate on her "unfair obligations" remarks, but she appeared to be referring to interest payments on foreign debts.

In a nationally televised departure ceremony, Aquino remarked, "Those who are afraid that my absence will endanger the democracy are those on whom we cannot depend to protect it. For democracy here is not held up by me alone, but by the power of the people who own it."

Reagan puts drug speech into action with staff

Associated Press

WASHINGTON - President Reagan, unveiling his plan to attack drug abuse in America, ordered the executive branch yesterday to set up mandatory tests for federal workers in sensitive jobs.

But Reagan's program drew immediate resistance from the American Civil Liberties Union and labor organizations representing federal employees.

In an Oval Office where he signed the order and put his name on letters to Congress accompanying a series of legislative proposals, Reagan said, "This is the federal government's way of just saying 'no' to drugs."

Reagan's move came one day after he and his wife, Nancy, made a nationally televised broadcast, appealing to people's consciences and their sense of patriotism, for help in waging war on drug abuse.

With the formal announcement of his anti-drug-abuse plan, including Reagan's endorsement of capital punishment for certain drug-related offenses, the president joined members of Congress who have been scrambling to enact new measures of their own.

But beyond the consensus in official Washington that something must be done about the drug abuse problem, there were indications that some suggested solutions face heavy obstacles.

Leaders of federal employee unions, and the American Civil Liberties Union, challenged the administration to define "sensitive" jobs.

Said Alan Adler, legislative counsel of the ACLU: "The president's proposal is a blatant violation of the rights of American workers to be free of search and seizure without probable cause.

WHAT EXACTLY IS AT&T'S "REACH OUT AMERICA"?

QUESTION #3.

a) A long distance calling plan that lets you make an hour's worth of calls to any other state in America for just $10.15 a month.

b) A 90-minute special starring "Up With People!"

c) A great deal, because the second hour costs even less.

d) If you'd read the chapter on Manifest Destiny, you'd know.

e) Too good to pass up, because it lets you save 15% off AT&T's already discounted evening rates.

If you can guess the answers to this quiz, you could save on your long distance phone bill, with AT&T's "Reach Out America" long distance calling plan. If you live off campus, it lets you make a full hour's worth of calls to any other state in America— including Alaska, Hawaii, Puerto Rico and the U.S. Virgin Islands—for just $10.15 a month.

All you have to do is call weekends, 11pm Friday until 5pm Sunday, and every night from 11pm to 8am. Save 15% off our already discounted evening rates by calling between 5pm and 11pm every night. The money you could save will be easy to get used to. To find out more about "Reach Out America", or to order the service, call toll free today at 1 800 CALL ATT, that is 1 800 225-5288. The right choice.

Imagine life without television or radio or cars. Not a single luxury. Gilligan’s Island, you say? No, all this and more exists about 45 minutes from campus at a place called Amish Acres. Located in Nappanee, Indiana, this historic farm and restaurant stop the time. These people have remained relatively unchanged over the past 350 years. The Amish are a religious, and violence group that migrated from Switzerland to avoid fighting wars for their government. Ten to fifteen thousand people have been preserved here.

Upon entering this historic landmark, one is encouraged to avoid fighting wars for their government. Ten to fifteen thousand people have been preserved here.

The tour then moves into the Amish home. The guides explain the master craftsmanship used to make the food, tools and everything else down to their soap. The Amish have resisted change. The Amish make their own tools, pump their own water, and make their own clothes without any outside help. The tour shows an Amish garden and the guides explain how meticulously everything was planted so that it would keep the weeds at bay. The house is made with no pews or windows.

money is involved in it than in most playwriting contests which usually offer up to $200 to winners. The theater that puts on the play. In this case, the Arena Stage, also receives $5000 dol­lars. The purpose of the competi­tion is to launch new talent, to “develop an American voice.” Because the context is so well-known, it is able to accomplish this by making a name for the winner.

"It’s a big step up," says Jen­sen.

Jensen has been involved with theater since high school, but has only been a serious writer for the past 12 years. Before coming to Saint Mary’s College, nine years ago, she ran a theater in Detroit which produced her early works. She also taught at Wayne State University. While at Saint Mary’s she has taught everything from Introduction to Theater to Dramatic Literature. Jensen is very active in the NODA®-Young Playwrights program which she also wrote. Other plays have been produced in New York, Los Angeles, Detroit, and Des­moines.

For example, “Stray Dogs" took Jensen four years to write because she couldn’t work out an ending that would fit correctly. Only last August, when she went to a playwrights retreat in Virginia, was she able to get the advice she needed.

Issues surrounding homosexuals still vague

Chris Julia's Viewpoint column of September 5 ("Homosexuality rooted in sociological factors") contains an ungrounded generalization, confusion, and faulty reasoning.

While this is a prevalent belief among some teachers and laymen, Mr. Julia seems to be saying that homosexuals are like Jews, gypsies, and the disabled, for whom the elimination of homosexuality is a real possibility. While the extension of the frontiers of science and biology are not at the same time making an argument for sociological conditioning in childhood as the cause of homosexuality. Since we are forced to conclude that the behavioral arrangement or childhood conditioning, it is the former. If it results from genetic arrangement or childhood conditioning, it is the latter. There are the advocates of the former mechanism; most writers in the field presume in the one or the other options under the latter. Since this implies an involuntary state of affairs, a condition of ethical neutrality must be assigned to it.

The next issue one might profitably address is the ethical status of homosexual activity, aware that this is quite distinct from a person's being homosexual. Many homosexuals choose not to engage in homosexual activity; similarly, many heterosexuals engage in homosexual activity at some point. That topic is too large for the present column, but perhaps it will suffice to say that most scholars in this area are optimistic for the future: I am optimistic for the future: We no longer burn left-handed persons as witches, illegally emblazon black, or deny women the right to vote. We are making progress, and will continue to do so when we can engage in free and open discussion of the relevant issues. Mr. Julia's article rather ironically has the potential of contributing to that progress if it stimulates thought and humanistic growth in a critical reader. He is right that homosexuals "start out as ordinary people," but he apparently fails to realize that they continue to be. They are in our families, our classrooms, and our homes. We see them on TV, on the radio, and play football. We are among our friends, and our lives are richer for them.

Richard Beatty is a graduate student in philosophy.

Official's Handbook: Rule E239-B states "If an Irish player with number 89 catches a pass in the end zone with one (or more) feet in bounds... he is out of bounds.

"Be fair with others, but then keep after them until they're fair with you."

Alan Alda
The Vietnam War remains a mystery to many.

Dear Editor:

In his Viewpoint column in The Observer of September 11, "Catholic Church Policies are Often Hypocritical," Mr. Evan Smith demonstrates a lack of understanding of Catholic and Christian teachings and the philosophy on which it is based. In his article, Mr. Smith deals with several important issues in modern Catholic and Christian thought and their application to daily life. He discusses the role of the Church in the current political environment and the responsibility of Catholics to act in accordance with their faith.

Mr. Smith also questions how the Church can justify its actions in the face of criticism. He argues that the Church's policies are often hypocritical and that its actions are not always consistent with its teachings. However, he also acknowledges that the Church has a complex history and that its policies have evolved over time.

In conclusion, I believe that Mr. Smith's article raises important questions about the relationship between the Church and society. While it is important to critique the Church's policies, it is equally important to understand the complex history and teachings of Catholicism.

Sincerely,

The Saint Mary’s varsity tennis team peaked its season's MAAC victory last Thursday by beating Anderson, 7-0. Last season the competition between the two teams was tight, setting up an inter-league series. "It was a tough game," recalled Head Coach Dan Laverie. "Many matches went so well, we played our best."

Tennis has been a success, but there is also the risk that even if the surgery is successful, it won’t relieve that pain. Montana, 30, has a history of bad back pain. The problem was aggravated during the first game, while Montana was attempting to pass in the 49ers’ 31-7 victory over the Tampa Bay Buccaneers. It was so bad that Montana could only complete 24 of 46 passes for 356 yards. He did undergo surgery, and the surgery involved cutting away portions of the tough vertebral plate that extended out from the spine, without the necessity of fixing the problem.

The doubles team of Boyd and Hickey defeated Padma Sunya, 6-0, 6-1. Team captain Pam Drahota was victorious over Any Manan, 6-2, 6-0.

The team's only loss occurred in the first-seed doubles. Bloch and McCormick lost to Hull and Yoder, 6-4, 5-7, 6.

The doubles team of Boyd and Hickey defeated Currie and Fal, 6-2, 6-2. The doubles teams defeated Duffy Heinz and Erin Flynn destroying Fal and with impressive scores of 6-0, 6-0.

Based upon performances such as this, the Dauphin's goal of achieving a perfect MAAC record seems very possible.

"I think it can be done," said Laverie. "If we continue to play the way we have been, no team will be able to beat us."

Anyone interested in working for the women's rowing team is to meet today at 4:30 p.m. at the Main Circle. Further information can be obtained by contacting Patricia Warth at 2033.

The Notre Dame women's volleyball team is the focus of discussion on this week's edition of "Speaking of Sports," airing live tonight at 5 on WNDT-AM. Special guests include Coach Art Lambert and Kathy Morin. Listeners may call in questions for Lambert and Morin at 284-4273.

Young pitching staff hurls Irish to split

By PHIL CASTELLANO

North Willy

The Notre Dame baseball team opened its fall schedule by splitting a doubleheader with Bradley on Sunday.

In the opener, the Irish lost by a score of 3-1 in extra innings. Bradley pitchers Pat Boyan and Dave Brittwish combined to shut down the Notre Dame offense, allowing just one unearned run on two hits in nine innings.

Despite the poor hitting, Notre Dame pitchers Robert Titz, Rob Chenail, Dcrm Madden, Bryan Witih and Mike Harmon held the Irish in the game long enough for the team to have an opportunity to win.

The Irish had an excellent chance in the bottom half of the seventh inning. With runners on first and second, lead-off man Steve Skupien smoked a drive that would have brought the winning run home, but the Bradley third baseman made a fine defensive play.

In the second game, the Irish bats came alive, scoring five first-inning runs as they cruised to a 6-1 victory, freshmen Dan Peltier and Paul Muck lost for possibly the entire season, Gallo must be both happy and relieved with the performance of his young pitching staff. On the day, a total of eight Irish pitchers allowed only three earned runs in sixteen innings.

Notre Dame continues its fall baseball season this weekend with intrasquad games Saturday and Sunday at Jake Klein Field. Sunday's action begins at 1 p.m. while the time for Saturday's contest has not yet been determined.

In the first at-bat of his varsity career, Notre Dame's Dan Peltier crushes a line-drive triple in the first inning of the second game of Sunday's doubleheader. Phil Castellano details the team's split with Bradley at left.

Broncos rally past Steelers, 21-10; Elway throws touchdown passes

Associated Press

PITTSBURGH - John Elway threw three touchdown passes as the Denver Broncos fielded a fourth-quarter quarterback to defeat the Steelers 21-10 last night. Pittsburgh's dormant offense, held without a touchdown for eight consecutive quarters dating back to last season, scored on Rich Erenberg's 7-yard run with 6:54 remaining as the Steelers closed to within four points.

But Steelers reserve running back David Hughes fumbled on a third-and-1 play at the Broncos' 35 on Pittsburgh's next possession. On the Steelers' next possession, Malone intercepted by Tony Lilly. Denver then drove 31 yards for the clinching touchdown on a 13-yard pass from Elway to running back David Hughes that moved the deficit to 7-3.

As Winder dove over the line of scrimmage, distracting the Steelers' defense, Steve Sewell - a running back converted to wide receiver only last week - easily beat Clayton on a 34-yard pass play that gave Denver a 14-3 lead. Elway finished 21-for-39 for 293 yards.

Steelers quarterback Mark Malone suffered through a miserable first half, completing only six of 22 passes for 58 yards. Denver took the second-half kickoff and moved 58 yards to the Pittsburgh 10 on a drive marked by a 34-yard ramble by Clarence Hay with a short pass from Elway.

But Rich Karlis 27-yard field goal attempt went wide to the left.

Then Pittsburgh's offense finally got hot - hot enough to score its first points of the season 10:54 into the third quarter of their second game. Anderson's 42-yard field goal cut the deficit to 7-3.

It was set up by five straight Malone completions that moved the ball from the Pittsburgh 20 to the Denver 27. But then the Steelers switched to the ground and David Hughes was thrown for a yard loss on a third-and-1at the 25, bringing on Anderson.
Prospects are looking good for the 22nd edition of the Rowing Club. The varsity rowers are back on the course. The club's coach, Chris Rye, said that the rowers were currently challenging for spots in the boat in what the team calls "seat races." They are a really competitive bunch of people," he said. "It should be a good fall season."

One reason for the bright outlook is the rowing done this summer by several rowers. About ten members of the team were able to row with various clubs across the country.

Mark Coard and Tim Hoakes rowed for the Potomac Boat Club near Washington, D.C. Their club traveled to St. Catherines, Ontario, to race in a regatta involving teams from all over the U.S., Canada and Germany. In the men's eight division, Coard and Hoakes' boat finished third in the fastest heat of the regatta. Their boat also took third at the PBC Nationals at the Potomac River.

Greg Shadid gained experience in coaching, rowing, and coaling for the Oklahoma City Rowing Club. Shadid, the club's top varsity coxswain, led his boat to a gold medal in a regatta featuring teams from Texas, Wichita State, and Kansas.

A group of rowers remained in South Bend over the summer, hoping to improve. Carol Blanchette, Mike Songer, Bill Webb, and John Staud hit the St. Joseph's River a few times early in the summer.

Two other members of the team, Larry Hoffington and Angie Herbruck, learned how to skull under Rye's instruction. Hoffington is trying to enter the skulling races of the Head of the Charles regatta, but no word has been received from Boston.

John Cryty, the club's Oarsman of the Year last year, rowed in a pair at Rutgers University in New Brunswick, New Jersey. And finally, Stephan Foles also pick up skulling experience at Orange Coast College.

The score has been the same for all four games of the Women's Soccer Club. The team lost to Indiana, Illinois, and St. Mary's all by the same 2-1 score, but was able to turn the tables against Illinois State, 2-1.

The Indiana and Illinois contests marked a significant improvement for the club.

"Everyone was surprised how well we did, even though we lost," noted Club President Kerri Haverkamp. "We usually lose to them something like 6-0, so we're improving."

Kate Fitterton scored the lone goal for the Irish in the overtime loss to St. Mary's. And against Illinois State, Kathy Birmingham and Katie Kennelly scored to give Notre Dame its first victory of the fall season.

The Women's Golf Club likewise is making its best showing in the team's history. The club placed third behind Michigan and Purdue in its fourth annual Labor Day Invitational on the Burke Memorial golf course.

Amy Janus of St. Mary's led the club with a two-day score of 80-80-160. And Notre Dame's Angie Lloyd registered a score of 85-82-167.

The weekend took the team to a town of Iowa, playing at Loras College in Dubuque on Friday and at Waterburg College in Waverly on Saturday.

The reports of the Rugby Club's demise were greatly exaggerated. Not everyone is aware of this fact, at the impact has hurt the team.

"Atol of the freshmen still don't know who we are," noted Club President Quentin Williams. "It has hurt recruiting."

The Irish did beat their last season's record, facing the graduate student team from the University of Michigan. The A-side dropped a 26-0 decision and the B-side fell 36-12.

The team is not concerned, however, about the losses. Last year the Irish lost to Michigan, only to win their next thirteen games and advance to the West Cup tournament. The club has lost only 4 of its 15 starters from last season. Included in this list of returns are scrum half Williams, inside center Tighe Sigler, eight man Sean Moilion, and second row Paul Bridenstine.

ND women's cross-country races to fourth place in first varsity meet

By DANIEL COYLE

The Notre Dame women's cross-country team knows that a difference one year can make. In 1985, the team placed 19th at the NCAA meet. This year it has changed from club to varsity status, from listening to an advisor, to playing a role in selecting a coaching coach, and from finishing a distant seventh to developing a competitive fourth place Southeast Regional, the Irish Invitational at Hillsdale, Mich. 

Julia Merkis led the Irish around the three-mile course, finishing fifth overall with a time of 17:51. Merkis, a freshman, fell behind the leader during the first half of the race, but then passed her on the last mile. Number-one runner Kathleen Oleary, battling a severe case of stomach flu, was third for Notre Dame and 26th overall with a time of 19:17.

Irish head coach Dan Ryan was pleased with his team's showing.

"Every one of our runners improved over last year's times," he noted. "I'm pretty happy with the way we are running, but that doesn't mean we don't have a lot of work to do."

Host Hillsdale College, ranked first in the NAAA, led the Irish with 37 points. Michigan State, which finished fifth in the Big Ten last year, and Kent State, the defending Ohio Valley Conference champion, followed with 51 and 81 points, respectively. Notre Dame edged the University of Detroit for fourth place, 92 to 94 points.

The stopwatch was testament to the team's hard work on Saturday in the Hillsdale Invitational, "I know that I could have run faster, but I'm still really happy," said Lehman. "I'll be right there with the other two girls, hopefully by the next meet."

Team captain Merkis bettered her time last year by 15 seconds and earned All-Invitational honors. Filar, in her first race for the Irish, equaled the previous best Irish time on the Hillsdale course. Another freshman, Wendy Murray, cut 30 seconds from her high school time while finishing 29th overall. Ryan is looking toward this Friday's National Catholic Invitational meet on the Burke Memorial golf course as the next challenge for his squad.

"Last year we finished 14th," said Ryan this year we hope to crack into the top seven."

He concedes that it will be difficult to compete against the larger schools, but that he enjoys the challenge of building the women's cross-country program.

"Notre Dame can be a competent Division I school," he said. "These girls are just learning the ropes of this level of competition, and everyone is working hard and improving."

Phillies win

Champagne still on ice for Mets

Associated Press

ST. LOUIS - Roger McDowell walked Curt Ford with the bases loaded and one out in the 13th inning Friday night, and the Cardinals handed the New York Mets their fourth straight loss with a 1-0 victory last night.

The Mets were shut out for a second consecutive game - for the fourth time in five games this year. They have not scored in 23 straight innings, and their losing streak matches their longest this year. Their magic number is still two following Tuesday's 3-2 loss at Cincinnati.""

Roger McDowell, the fourth Met to walk in five games, was relieved by Mark York, who struck out the next two batters to end a scoreless game.

The Associated Press

McDowell, 13-9, disputed the call on his fourth walk in 1-3 innings. St. Louis' Todd Worrell, 9-10, gained the victory with 1-3 innings of two-hit relief.

The Cardinals had only seven hits in the game; the Mets nine.

New York's Ron Darling gave up four hits and four walks in his nine shutout innings.

Phillies 5, Pirates 0

PHILADELPHIA - Don Carman pitched a four-hitter and John Russell drove in four runs with a double and triple last night as the Philadelphia Phillies beat the Pittsburgh Pirates 5-0 for their fourth straight victory.

Mike Schmidt homered for the Phillies fifth run. His 36th home run of the season - best in the majors - was the 404th home run of Schmidt's career, and moved him past Lou Gehrig into 14th place on the all-time list.

Carman, 9-5, struck out four batters and walked one. Rich Robin, 15-9, took the loss.

Yankees 5, Orioles 3

NEW YORK - Don Mattingly hit a three-run homer in the seventh inning to rally the New York Yankees to a 5-3 victory last night over the Baltimore Orioles.

The home run came off reliever Don Asce but made a loser of Orioles right-hander Mike Boddicker. Asce struck out 10 but is 0-6 in his last nine starts and has not won since Aug. 4.

Jim Stoddard, 4-1, got the victory with one inning of relief and Dave Righetti finished up for his major league leading 40th save. Righetti has converted 23 consecutive save opportunities.

Volleyball wins Rice tourney, faces W. Michigan tonight

By BRIAN O'GARA

Sports Writer

The Notre Dame volleyball team won it's second straight tourney ever this past weekend at the George Hackett Showcase in Houston, Texas. The Irish won 11 out of 14 games to take the five team tournament which included North Carolina, Rice, Rutgers and Tulane.

The Irish then turn their attention to 15th-ranked Western Michigan in a tough match tonight in the ACC Pit at 7:30PM.

In Houston, the Irish swept through Tulane (15-9, 15-8, 15-6), North Carolina (15-5, 15-9) and Rutgers (15-2, 15-5, 15-10). Next the Irish faced the tournament host Rice Owls. The Irish won the first two games, 15-11, 15-11, to come within one game of a tournament sweep. Rice's powerful offense sparked a comeback and the Owls took the next two games 15-13, 15-10, and the Irish lost the deciding match in a thriller 15-13.

Due to an earlier Rice loss to North Carolina, Notre Dame and Rice will now face off for the tournament championship. So the deciding factor was the team's overall tournament record. Rice was 10-7, while the Irish were 8-3 and could have won the tournament had it's first tournament championship.

"Of course, it's rice to win a tournament like this," said Lum bert. "It's a great idea."

Sophomore Janette Bennett, who led the team in offensie with 57 kills in the four games, and freemanit Kathy Cunningham, who gave a stellar defensive performance, were named to the all tournament team.

Cunningham was named to the team despite missing the last match against Rice due to a knee injury. The absence of Cunningham on defense was key in the Irish getting to Lum bert.

The outlook for the Irish seems bright in comparison to the young and inexperienced squad which posted a 12-21 record last year. Returning most of that team, the Irish have gotten off to a 4-2 start. This record includes a second place finish in the Houston Classic last weekend.

"The team has made excellent progress and I am extremely pleased with the attitude and commitment they are displaying," said Lambert. "They are beginning to realize what they can accomplish."

Lambert hopes to see his team gain a victory tonight against a tough, experienced Western Michigan team. This team that defeated the Irish last year 3-15, 13-5, 4-15, and is currently ranked 16th in the country.

"We have improved a lot since last year," said sophomore opposite hitter Maureen Shea. "This game will be a great test of our team's ability."

Coach Lambert and his players agree that the change of atmosphere from playing games in the ACC last year to the south championship and the ACC Pit this year has definitely helped the team.

"The fans are a big part of the game, especially in the Pit," added sophomore Mary Kay Wal ler. "We are really psyched about playing Western Michigan here at home."

The Irish, which does not offer field hockey scholarships, was beaten by two teams that do in Michigan and Southwest Missouri. The Irish were not able to get a tying goal, and their record fell to 1-2.

Notre Dame goalie Mary Jean Bectel made 18 more saves than DiGiacomo's goal.

By STEVE MEGARGEE

Sports Writer

Senior forward Corinne DiGiacomo broke the school record for career scoring, but it was not enough to prevent the Notre Dame field hockey team from losing two games to Michigan and Southwest Missouri this weekend. The Irish were not able to get a tying goal, and their record fell to 1-2.

"It's one of the toughest ways to get a goal," head coach Jill Lindenfeldt. "Under the penalty shot situation, there's so much pressure. Even in a pressure situation with everyone watching her, she scored. It shows how much a game's a game and a scorer she is."

DiGiacomo's goal with 19:34 left in the second half was against Southwest Missouri Sunday. "I was really nervous," said DiGiacomo. "I hadn't done the penalty shot ever before in a game, so it was the first time I tried it."

That's one of the toughest ways to get a goal — added head coach Jill Lindenfeldt.

Winning isn't everything, its the only thing. When you accept that, when you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader. When you accept the disaster, you are one leader.

Sonoma State University Assistant Sports Editor

Mike Szymanski

Stamps, the Tulane basketball star who received money for point shaving, was so inept that he did not even understand why he was being paid, but he could understand a double-pend offense.

According to a report on the ABC News last week, less than 1/4 of the Florida State football team will graduate, and less than 1/2 will ever earn a degree.

"It is a very disturbing trend," said Notre Dame where the academic record of both the football and basketball teams are respected. "The numbers are quite shocking, and the admissions requirements are very selective. NCAA Proposition 48 has had an effect. Football stars Tony Rice and John Toney, and basketball player Keith Richardson, are ineligible because they could not score the minimum scores of 140 on the SAT or 50 on the ACT."

One wonders how many of our current athletes would be eligible under Proposition 48.

Many college athletes have difficulty at the college level simply because they were never prepared academically in high school. In many cases, the star athlete slides by in class, concentrating on his sport. Only recently have states, such as Texas, begun to enact stiffer GPA and curriculum requirements for admission.

Thomson Crawford, a program consultant at the NCAA, said the pressure to win can lead athletes to alcohol and academic problems. "The NCAA has been very successful in its efforts to combat the problem highlighted by the death of Len Flars. "These kids, who have high expectations of them athletically also have high expectations of them socially," said Crawford. "So it's not unlikely to find that your biggest partners are your biggest problems."

Frank Falcoro, president of Springfield College, proposed four interim steps to solve these dilemmas in The NCAA. "First do not schedule contests against institutions that break the rules. (Second), suspend, place on probation, or dismiss coaches and AD's for repeated or serious violations."

"Third, withhold for up to two years any scholar- ship for any athlete who competes for four years and does not graduate. Finally, hold student-athletes accountable for taking in serious violations by taking away the student's eligibility."

However, other university presidents look at a col- legiate education in a different light.

During the Jan Kemp University of Georgia trial, President Fred Davison revealed in Developmental Studies Director Leroy Ervin's characterization of ath­ letics as "raw material."

"Every student that comes to the university benefits by being here," said Davison. "If an individual learns only how to communicate better, that is some jus­ tification."

In some ways, the colleges have become the farm system for professional sports, while universities have lost sight of their mission to educate first. How many fans and people involved in this revenue machine of athletics and academics will accept a losing team this Saturday?
