from June 6 to August 15 and Jerusalem.

A new program for students of theology was planned to last ten weeks.

Charles, Director of Foreign Students, announced that the program would run in the 11th hour.

Students will register for 12 credit hours in law, politics, and Holy Land geography.

Excise Police made 13 arrests during a raid on Lee's Ribs.

The previous record bust was located at the corner of Notre Dame Ave. and Howard St., according to Capt. Patrick Pankowski.

Lt. Richard Kilgore, public relations officer for South Bend Police, said that police records show only 20 to 30 patrons in the bar were legal age.

The citations for being a minor in a tavern were delivered to students in one raid in South Bend history.

The Keenan Revue gets a face lift in its 11th international performances slated for Friday, the 30th, and Saturday, the 31st.

Lee's Ribs raided for second time in 2 weeks

By TRIPP BALTZ

A raid of Lee's Ribs conducted by three law enforcement agencies Thursday night netted over 200 Notre Dame and Saint Mary's students.

The previous record bust was located at the corner of Notre Dame Ave. and Howard St., according to Capt. Patrick Pankowski, who told Kilgore there were 56 members. Second, there were no Saint Mary's girls on the list, and third, previous ad problems.

Acosta said he was a member of nine names in September to Joe Murphy, editor-in-chief of The Observer. He said The Observer's advertising policy requires a full list of officers and members in a club for inclusion.

Expressing the desire of most GLNDiSMC members to remain anonymous, Acosta said the policy interfered with the group's efforts to publicize their meetings. "The Observer can release this list at any time," Acosta noted.

Don Montanaro, student body vice president, and "I wonder if you can get around (the conflict of no names of women from SMC) by changing your name."

In response to various suggestions from Senate members, Brian Holst said, "I'm not here to suggest that we advertise the group; I'm saying that we try to help the problem."

Holst asked, "What about setting up a room under student government that the group could use?"

Student Senator Mike Jaeger said the matter would come under the jurisdiction of Montanaro and the cabinet.

Acosta discussed an April 18, 1986 proposal he sent to the administration asking for "the CSC for meetings, a mailbox on campus, announcements in university-owned media, participation in Student Activities Night, or at least a number and address in the phone book."

Acosta said his proposal was rejected by the administration. "Father Tyson stated (the administration) felt the needs of gay and lesbian students on campus could best be met by the counseling center and Campus Ministry," Acosta said.

By MARTIN RODGERS

The University of Notre Dame, Fordham, Georgetown, and Villanova are sponsoring a new program for students of these universities to study in Jerusalem.

"A first ever in foreign study," said Dr. Isabel Charles, Director of Foreign Studies and Associate Provost. The ten-week session will run from June 6 to August 15 and will be based at Notre Dame's Tantur campus in Jerusalem, which also houses the University's Ecumenical Institute for Theological Studies, said Charles.

"Faculty professors from (the four universities) and people locally will provide the instruction," Charles said. Students will register for 12 credit hours from a curriculum including courses on Arabic, Middle Eastern history and politics, Islamic philosophy and law, and Holy Land geography and archeology, according to Charles.

Although Notre Dame already has a program at the Tantur campus for the academic year, the curriculum of the new summer program differs significantly, according to Charles. "Biblical studies are studied during the (current) year-long program, while an Arab-Islamic program is offered in the new 10-week summer program," said Charles.

The former program had its beginning in 1972, when "Father Henbrough, in cooperation with the Pope, offered to devote an institute for ecumenical studies," Charles said. This prospective institute became the Tantur campus, on the road between Jerusalem and Bethlehem, she said.

Despite the concern over terror in the Middle East, the program is expected to attract students from all over the world.

The 1986 Survey of Future Plans of Notre Dame Graduates took place from mid-March through the first week of April of last year, according to Charles Collester, the Coordinator of Analytical Studies. Two thousand and ninety-nine degree recipients responded to the survey, which has

**Student's trip to Soviet Union brings church metaphor to mind**

We hear a confusion of views on the Soviet Union nowadays, even with Kremlinologists and Peter Jennings. First, the news media tells us the Soviet Union is not very different from the U.S. at all, though somewhat entrenched in conservative ways. Fortunately in this last respect, a vigorous young film director named Mikhail Gorkachev has come on the scene, who not only has had it with the fogeys, but whose wife supposedly stuns the West as some sort of new Jacqueline Kennedy. Then from our leading businessmen there is the refrain about how low the Soviet standard of living is. This is often used to justify why we fight wars, plot insurrections and form political alliances against them. Amazing, isn't it, that we make all of this fuss in geopolitics just because we think their standard of living should be higher. Finally, if we are to believe and the thousands tooting AK-47's in this world, the Communist Bloc embraces an epic movement of altruistic heroes about to liberate us from our chains and usher in a age of utopia—if only we'd let them.

In all of this, however, there is one important aspect of this subject to which the media and academia give surprisingly little attention: the Soviet Union and its bloc behave almost precisely as a church does. What? Is this guy nuts? A few cards? The obvious question is, How can the Soviet bloc be a church at all if it promotes atheism? Undoubtedly Marx called theism the "opiate of the masses" while proclaiming that everything else was better in motion. In fact, his followers continue to do so even in this age of quantum mechanics. Yet, when I visited Russia last year, there were few things about the place that did not fit into this neat equation. First there was the seemingly imminentlyqueous of Soviet citizens waiting for hours in 15 below weather just to view the remains of Lenin. You would have thought by now they would have outgrown it all. But on the contrary, they stood in line with insouciant patience. Medieval pilgrims were anxious to gaze upon the relics of some martyred saint could not have been more devout. Then there was the Moscow theatre. Progressive? Trenchant with social realism? First I saw an opera about Alexander Nevsky, a real-life Russian prince of the 13th century, who valiantly defending the poor village virgins in one battle scene after another against the crafty Nevsky defeated these dastardly Teutonic Knights. These vile German invaders howled a frightening pagan chant and gave a man in a goat's head uniform the fascist salute. Naturally, the crafty Nevsky defeated these dastardly pre-Nazis, and everybody lived happily ever after, except the Germans of course. Never mind that Nevsky later betrayed his people and his own brother to the Mongols, whose domination was to last centuries afterward. The ballet will be better, I thought. But instead of San Lake, I was treated to men in brown shirts and dark tights goose-stepping before the Chicago skyline in something called the "Crashing of Fascism," until a fair lad in white tights (Joe Stalin) gloriously swept them off the stage. Could anything be closer to the morality plays of the Middle Ages? I thought.

Finally on a train to Leningrad I happened to glimpse something called the World Marxist Review. It read just like a catechism: "Why must the Capitalists be converted?" "Why are the Kremlins infallible?" "When will the million of the worker's paradise come?" Everything was impeccably reasoned. Numerous Marxist theologians and party congresses were cited to define doctrine. The Kremlin started sounding like the Vatican (or an anti-Vatican), and the Politburo like some Hegelian college of cardinals. Almost makes you want to spend being a Capitalist Catholic, doesn't it?

Sandinistas release American 'spy' arrested last month for espionage

Associated Press

WASHINGTON - Sam Hall, an American arrested last month in a restricted military area near Managua who later claimed he was on a spy mission, will be released for health reasons to the custody of his brother, Rep. Tony Hall, the Nicaraguan embassy announced Monday.

The decision was taken after a medical checkup and clinical reports on the 46-year-old prisoner determined he had a condition that could not be cured for properly in Nicaragua, said the embassy spokeswoman, Sarail Porta. The ailment was not described.

Hall, who was arrested Dec. 12, said at a news conference in Managua 10 days later that he was spying on military installations on behalf of three men code named Tinker, Evers and Chance.

He also claimed in a CBS-TV interview with Mike Wallace that he was the only remaining member of the Phoenix Battalion, which he described as a counter-terrorist paramilitary organization.

Ambassador Carlos Tunnermann has been instructed by his government to get in touch with Rep. Hall, an Ohio Demo­crat, and "let him know he can travel to Managua as soon as possible so his brother can return with him to the United States and receive the needed treatment," Porta said in a statement read to The Associated Press.

Nicaraguan officials said after Hall's arrest near the Punta Huite airbase, 13 miles northeast of Managua, that he had maps of the installation in his shoe.

The congressman feared his brother would be put on trial and sentenced to more than the 30 years given to Eugene Hasenfus, another American who was pardoned Dec. 18 and released in an act of clemency last Christmas.

Hasenfus, the sole survivor of the Oct. 5 airplane crash in which three other men were killed, confessed at a trial that he had been smuggling weapons and equipment to Sandinista rebels.

Nicaraguan President Daniel Ortega turned Hasenfus over to Sen. Christopher Dodd, D-Conn., and to Hasenfus' wife, Sally, at a ceremony in Managua.

Ortega said the release was "a Christmas message from the Nicaraguan people to the American people, the very concrete message of peace."

The administration con­sidered Ortega a Mar­xist dictatorship in league with the Soviet Union and Cuba and a threat to U.S. security and non-Communist Central Amer­ican states.

The Nicaraguan government has said its relations that it is fostering subversion in the hemisphere and said it is threatened by the possible U.S. military invasion.

Health services van, LeMans mall discussed by Board of Programming

By SHARON HEGG
Staff Reporter

Availability of a health services van and plans for the pro­posed LeMans mini-mall were discussed Monday by the members of the Saint Mary's Board of Governance.

Student Body President Jeanne Heller announced that a health services van has been in operation since Jan. 19 to transport students to the hospi­tal and to doctor appointments.

However, "to obtain the ser­vice, appointments must be made through health services," added Mary Fisher, administrative assistant to the student president. Heller also said she met with John Lindswell, controller and business manager, about the proposed LeMans mini-mall.

Instead of opening a shoe shop, Lindswell suggested that the dry-cleaning service in LeMans do shoe repairs.

Lindswell told Heller that in order to get a flower shop in the basement, Saint Mary's might have to invest more money than would be worthwhile. The money used for the flower shop would draw funds away from television re­pairs in the lobbies or installing big screen T V 's in the dorms, he said.

The success rate is the number of students seeking employ­ment divided by those actually hired: McCollester said. On this index the Colleges of Engi­neering and Business Adminis­tration were highest with rates of 72.6% and 70.3% respective­ly, while the College of Science had a success rate 52.2% and Arts and Letters graduates received the lowest rate of 31.7%, accor­ding to the survey.

Lee's continued from page 1

were Mark Runfola, 20, of Keenam Hall; William Griffin, 20, of Winnatka, IL.; and Daniel Mclean, 20, of Glen­view, IL.

Arrested on charges of resist­ing law enforcement and minor in a tavern were Edwin Quinn, 19, of Alumni; Lawrence Libert, 20, of Alumni; Joseph Suplick, 19, of Alumni; and Megan Rafferty, 19, of Holy Cross, Saint Mary's.

Also arrested for charges of resisting law enforcement and minor in a tavern were John Mikulah, 19, of Alumni; Kevin Kane, 19, of Holy Cross, Notre Dame; Andrew Hester, 19, of Alumni; and Mark Gibbs, 20, of Alumni.

Grads continued from page 1

been preceded by ques­tionnaires like it for approx­imately the last fifteen years, said McCollester.

The average starting salary of $77,977 for a graduate of the College of Engineering sur­passes the average salary of graduates from every other college, the survey reported.

Following is decreasing order, College of Science graduates received an average starting salary of $32,597, Arts and Let­ters graduates $25,269, and Col­lege of Business Administra­tion $25,000, the study said.

Nevertheless these figures are far from the whole story and misleading if looked at

Aquino proves control in permitting protest

Associated Press

MANILA, Philippines - President Corazon Aquino sent Cabinet ministers to join 15,000 protesters in front of the presidential palace Monday, defusing some of the wrath over last week's shootings and proving her control over the military.

She overruled military officers who said they could not ensure her safety.

Aquino lifted barricades around Malacanang Palace and kept soldiers away to allow students, workers and peasants to march to condemn the killings of 12 leftist protesters by marines last Thursday.

She dispatched at least eight of her ministers to lock arms with demonstrators Monday and lead them peacefully to the palace gates.

Her action softened the anger of both left- and right-wing groups, who said her administration could not control the military and was responsible for a street clash bloodier than any during the 20-year Marcos era.

Aquino, who took office 11 months ago when a "people power" revolution sent President Ferdinand Marcos fleeing, was keeping up a severe "counteroffensive" Monday, killing or wounding 3,000 of the foe in a demonstration for land reform.

Office workers showered marchers with yellow confetti when they reached the bridge.

"I'm glad it's over," National Affairs Minister Aquilino Pimentel quoted Aquino as saying after the march. She did not meet the protesters. They rallied in the early afternoon. About 10,000 members of labor, church, urban poor, left-wing and other groups streamed from five directions to converge on a lot behind the statue of national hero Andres Bonafacio.

Protesters accused Aquino of abandoning her pledge to give priority to helping society's downtrodden. They demanded the resignations of top military and police officers whom they blamed for last week's killings during a demonstration for land reform.

"You see, all the senior officials of this government are here to make a point, that this government is committed to peace," Dodie Limaooc, manager of the government television station, shouted to the crowd through a bullhorn.

"We can say now that Malacanang is truly for the people," said Leandro Alejandro, secretary-general of the left-wing Bayan (Country) movement, which organized the rally.

"I'm glad it's over," National Affairs Minister Aquilino Pimentel quoted Aquino as saying after the march. She did not meet the protesters. They rallied in the early afternoon. About 10,000 members of labor, church, urban poor, left-wing and other groups streamed from five directions to converge on a lot behind the statue of national hero Andres Bonafacio.

IU criticised for endorsing move to protect athletes from coaches

Associated Press

INDIANAPOLIS - Indiana University's Faculty Council has harmed the school's image in the eyes of the public by approving a proposal that would allow student-athletes' rights to be protected from physical and verbal abuse by their coaches, Rep. Jerry Bales said.

"People have come up to me and said, 'Why doesn't the faculty council mind their own business?'" Bales said.

IU lobbyists have felt the brunt of the wrath, Bales said.

"So it's going to hurt us (higher education) this year," he added.

The issue of how to deal with things that are acceptable in the past, we are trying to deal with things that are acceptable today," he said.

IU had an instructor who can't speak English," Indiana football coach Bill Mallory told the Bloomington Herald-Telegraph that the statement was "totally ridiculous. I don't buy that bit about someone telling us how to run our program. We don't tell them how to run theirs.

"There are times I had to get my tail kicked," he added, "and I was grateful some people cared about me enough to give me the direction I needed. Without that, I wouldn't be where I am today."

According to the statement, "Athletes shall not be subjected to physically or verbally abusive, intimidating, coercive, humiliating or degrading behavior. Athletes shall be informed that they enjoy the same civil rights and that the university will insure that they are not abridged.

"Athletes shall also be encouraged to report any violations of these policies to the appropriate university authorities."

Whitey Pope, a sociology professor who helped draft the statement, defended the necessity for it.

"Just because things are traditional in athletics does not mean they are appropriate in a university environment," he said. "Whether or not these things have been acceptable in the past, we are trying to deal with things that are acceptable today."

In fact, Pope believes a similar statement would be appropriate for all IU students. However, members of the council's student athlete sub-committee were charged only with exploring sports, he said.

Controversy erupted because the bill of rights appears to be influenced by the portrayal of Knight in the recently released film "The Right Stuff." Knight also responded that several athletes are being influenced by the portrayal of Knight in the recently released book "Seabees on the Brink."

In the book, about Knight during last year's basketball season, he is portrayed as a coaching genius and a beacon of honesty in the sometimes corrupt world of big-time college athletics. But Knight also is pictured as having a volcanic temper that he unleashes on players in torrents of profanity.

Darling, Teufel plead no contest

Associated Press

HOUSTON - New York Mets infielder Tim Teufel and pitcher Ron Darling pleaded no contest Monday to reduced misdemeanor charges against two other Mets players, pitchers Bob Ojeda and Rick Aguilera, who were dismissed.

Teufel, 25, and Darling, 26, were fined $200 each and placed on one year probation.

Terms of the probation were not immediately known.

Teufel and Darling, accompanied by their wives and attorneys, were meeting with proba-

Kookaburra III selected to face Stars & Stripes for America's Cup

Associated Press

FREMANTLE, Australia - Kookaburra III, winner of the Australian defense trials, was selected Monday by the Royal Perth Yacht Club race committee over stalemated Kookaburra II following several days of speed trials. Kookaburra III will meet Stars & Stripes in the best-of-seven championship series starting Jan. 31.

Kookaburra III emerged as the top boat in defense trials, but since Kookaburra II was owned by the same syndicate, that boat could have been used in the trials. But the committee had already proved faster. Speed trials over the weekend, however, showed Kookaburra III to be the faster of the two hull designs.

Kookaburra II had not been modified since May to keep her as a benchmark for comparison with Kookaburra III, which was modified often. In an effort to increase speed, Kookaburra II was equipped with a copy of Kookaburra III's winged keel.

A spokesman for the club's America's Cup committee said Royal Perth "would have been delighted" to defend the Cup with Kookaburra II, but Kookaburra III showed a slight edge.

Speed trials plus computer analysis determined the final selection.

At the same time, Alan Bond, the Perth businessman who won the Cup from the New York Yacht Club in 1983, made a peace offer in the form of a $100,000 check to rival Perth tycoon Kevin Paris, owner of the Kookaburras.

Kookaburra III eliminated Bond's Australia IV last week. Ron Darling pleaded no contest to reduced charges against two other Mets players, pitchers Bob Ojeda and Rick Aguilera, who were dismissed.
**Editor's note:** The following is an excerpt from a speech delivered at the Martin Luther King, Jr. Celebration in South Bend by Dr. Howard G. Adams on Monday, Jan. 19, 1987:

It is from the perspective of having known and heard Dr. Martin Luther King speak that I wish to address you today. My title is what I see as "The Dilemma and Challenges of Our Time," which is taken from the theme of this year's celebration.

Howard G. Adams

---

**Guest Column**

Recently, I was asked by a colleague at Notre Dame, "Why is the celebration of Dr. King's birth such an important event for black people in America?" I responded: "First, by its black celebration of peace and freedom transcending all barriers including race—so it should not be a holiday celebrated exclusively by blacks. I added also that I could not speak for all black people, only for myself. He challenged me to explain this. I told him that I am 46 years old and in my lifetime my right to quality, integrated schools occurred barely 30 years ago; my right to vote, 28 years ago; my right to work wherever I qualified, 22 years ago; my right to fair housing, barely 17 years ago. And many of these new freedoms can be credited to the work of Dr. King. So for me, January 15 is real, it is special. It is a time for me to reflect, recharge and reconnect myself to the challenges that our young black brothers and sisters face. It is a time for me to work to make America a more just nation. Now some of you might say, "He's talking about problems of yesterday. He's still living in the past." I say to you, look at what you and you will see why I, as a black American, cannot afford to take my freedom for granted you really don't have to think about several incidents that took place! in 1986 to understand why this is so. For example, last November a black couple's house was rock and fire bombs; two of them are still living out of this neighborhood. In Queens, New York, a black man was clubbed and drowned in the water by his own people. These are just a few of those who teach it."

**Doonesbury**

---

**P.O.Box Q**

Dear Editor:

I don't even know where to begin responding to John Halliday's column in the Jan. 23 Observer. It contains so many baseless assertions and outright fallacies that I almost had to wonder if it was a serious editorial. I must admit that the "other American hostages," William Buckley, being held by "Japanese thugs," I refuse to believe that his presence makes the situation any more dire or important than any other hostage situation. If Buckley isn't prepared to die for his country and the secrets he knows, he is (or was, as the case may be) in the wrong business.

As for the "American hostages," those make me feel really important, one of these is just as important as Buckley of the CIA. And there is only one way to deal with terrorism. President Reagan has said in the past that the United States will not negotiate with terrorists. Or doesn't he remember that? Reagan said when the Soviets were selling arms to the Iranians, he was to be involved in the negotiations to kill heroes. When freedom is denied to anyone, it is denied to all.

We were blessed with the life of Dr. Martin Luther King, Jr. He touched the soul of America and caused it to examine the true meaning of freedom for each of us. Lines should never get too long for this world. "Tis better to have loved and lost than never to have loved at all."

---

**Quote of the day**

"Tis better to have loved and lost than never to have loved at all."

—Alfred Lord Tennyson (1809-1892) "In Memoriam"
Batteries become a Kodak priority

Eastman Kodak's new ad slogan: "Why get copper when you can go for the gold?" - is aiming for a large share of the $2 billion battery market.

"It has turned into quite a war," noted Dean Witter analyst Eugene G. Glazer. "The battle, however, is marketing, since there is no real clear superiority."

For years, life in the battery market was dull as two players dominated: Union Carbide's Eveready and Kraft's Duracell enjoyed the peaceful profitability of splitting sales about evenly, with several smaller manufacturers snapping what was left over.

Right here in town, at any financial institution with a CIRRUS machine.

The Notre Dame Credit Union ATM card is convenient, easy to use, and just one of the many benefits of belonging to the Notre Dame Credit Union.
The women of Notre Dame. The merger triggered the admission of women students to the University in a series of articles exploring the position of women at Notre Dame 15 years after the decision to admit women.

Editor's Note: The Observer explores the position of women at Notre Dame. In the Vietnam era, student body of 6357 men, and many of the early female students were caught in their junior and senior years with the choice of changing their major to one of the two schools going their separate ways. The ratio of women to men at Notre Dame was large enough for women to find four women faculty out in a hall together, and men would have said something like 'Is this a female conspiracy in ND?' to this a coffee klatch?" remarked Tillman. "Today my daughter doesn't happen. There were so few of us women here at first that I knew every woman in the school, and we don't today; there are too many. And that's good, that's more normal.

Although their three or four years at Notre Dame may not have been smooth, many of the women graduates from the early grades of coeducation with that Notre Dame prepared them well for a dominantly male professional world. Jones called the university "a training ground for what society is still like." Happily, it's changing. Indeed, "But there's still a lot of adjustment." Dr. Alice Harrington graduated from Notre Dame in 1975 and in 1984, she transferred into Notre Dame her comparable spirit from Notre Dame. She faced numerous battles in expressing their views. This was a time in society when men were coming to realize how the social notion of education would be men and women living together," she said. "We were two groups of students that the early initiative to admit women to the university came.

It was difficult, however, to foresee the problems of transition when the women actually arrived on campus. The men were accustomed to having their dorms taken away to house the first class of Notre Dame women, and the friction that resulted was overwhelming. "If you want girls on campus you can't put them in tents,"said Badin and Walsh, who chose to live on the basis of their size. Of the 1000 students who lived on campus, only 35 to 40 percent.

The conversion of Howard into a women's hall and the construction of a new women's dorm, still women's dorms, will increase women's admittance to 32 percent of the total student body. To what extent will Notre Dame have committed itself to a "balancing act" in the future? Comparable data is available for men applicants. "When in the 1970's, 2000 extra students spent their freshman year at Saint Mary's and transferred to Notre Dame after the merger fell through. There were millions of dollars to women in the financial program at the time that had been cut off for them, according to McGregor. "There were so few of us women at the time, we just never added ourselves up," she said. "The only difficult thing was to feel like we were in the game, and for us, that was our family and friends."

The women of Notre Dame have become coeducational, and the new campus is a remarkable novelty on campus to partners in men and women in education and achievement. Stereotypes between the sexes are not acknowledged as a social problem at the university. But they are a social problem of society itself, not unique to Notre Dame. Living and working together, men and women increase their sensitivity to each other's situation and benefit from each other's collective and individual insights.

A woman's place is in the home. Although this adage has fallen out of popularity in modern society, it has been argued that the Catholic Church still adheres to this belief. This may not be strictly the case, but it has become clear in recent years that there is a need to reassess the role of women in the Church. As a school nun at Notre Dame that is so greatly influenced by the Church, the issue takes on a greater urgency, as the question arises of how much this attitude toward another man. Although women have not been as visible as men in the Church, they have always been present and have played an important role. But this role is often overlooked. "At the beginning of Christianity a woman played the most important role because it was a woman who we wouldn't have Jesus Christ. This was an attitude that was sensitive to that because it's named after a lady, namely His mother. This isn't a new thing," said Hesburgh, University president.

At the same time, the attitude toward women in the Church has not reflected a role. "Clearly the Church is a male-oriented society and has been for many years," said Assistant Provost, Isabel Charles.

NVA calendar

Special to The Observer

Non-Varsity Athletics has scheduled the deadlines for some of its upcoming events. In addition to these dead- lines, students are reminded of the 8 a.m. student program, which is already underway on Tuesday and Thursday, begin- ning at 5:30 p.m. Other available open- ings include aerobics, hydrobatics and the Century Club. NVA also rents cross-country ski equipment from Tuesday to Sunday, and has a regular schedule of cross-country events on tap for the rest of January and into February.

In addition, tomorrow is the deadline for Co-Recreation Basketball. The signup deadline for the Tuesday Night Co-Recreation Basketball League is Thursday by 5 p.m. for teams of four men and women. The basketball league will run for six weeks, beginning Monday, Feb. 9, at 7 p.m. at the Pan American Center. The signup deadline for women's basketball will also be on Thursday. Women's basketball will run for six weeks beginning Monday, Feb. 9.
Injuries disarm men's tennis team

By GREG ANDRES
Sports Writer
The Observer Tuesday, January 27, 1987 - page 11

1987 season the Irish fell 7-2 to the Wildcats. Injuries plagued the Irish, weakening their attack considerably.

The first, third and fifth singles players were absent for the Irish and subsequently victory slipped away.

Sophomores Brain Kalbas and Tony Kuhl and junior Paul Daggs were unavailable to man the Irish attack, causing the remaining players to have to move up a position.

Both Irish victories came in three set battles. Freshman Mike Wallace triumphed, 3-6, 6-4, 7-4, as did junior captain Dan Walsh, 6-4, 2-6, 6-4.

Sophomore Tim Carr, filling in at first singles, lost a tough three set match, 6-2, 3-6, 6-3. Carr was also involved in a battle at first doubles with partner Dave Reiter, resulting in a 6-4, 7-6 loss.

"The match was not a bad loss," said Head Coach Tom Fallon, "but anytime you have to use your 7, 8, and 9 men you're going to run into trouble."

Associated Press
PASADENA, Calif. - Bill Parcells outlined a simple formula Monday for breaking the cycle of new Super Bowl winners each year: Get more good players and don't worry about historical trends.

"I don't think history means one thing in football," said the New York Giants coach, still euphoric after the 39-20 victory over Denver Sunday that brought the team its first NFL title in 38 years and extended to seven the number of seasons without a repeat Super Bowl champion.

"Next year it's a new game. If we had a game today, yesterday wouldn't mean a thing," Parcells said.

Irish hockey captain Mike McNiell takes a seat on the boards during a break in the action. Details of the team's weekend split with Kent State appear on page 16.}

Super Bowl wrapup

Parcells ponders return trip

NEW YORK - CBS's telecast of the Super Bowl drew an average rating of 47.8 in 13 major markets across the country.

Sunday's game between the New York Giants and Denver Broncos received its highest rating, 58.4, in Washington, D.C. Denver had the second highest rating at 55.7, followed by New York at 53.4.

While the men try to defend their national championship, the women follow the correct path to try to capture their own national title.

On Saturday, the women knocked off Minnesota (14-2), Lawrence (15-1) and Wisconsin (12-4) to remain unbeaten at 4-0 on the year. Seniors Vittoria Quaroni and Janice Hynes each went 5-1 for the day.

Junior Molly Sullivan (9-1) and sophomore Janice Hynes (7-1) each went 5-1 for the day.

"We have to fence a bit sharper than all three. If you have to fence nine against nine, we'll kill them."

ND Alumni Association to sponsor Alumni Board career discussion

By JIM WINKLER
News Staff

In an effort to help students cope with uncertainty about "life after Notre Dame," the Alumni Association announces the annual Alumni Board winter meeting with students. This year's event will be held Wednesday night from 7-9 p.m. at Theodore's.

According to Maria Miceli, assistant director of alumni clubs, the purpose of the program is twofold. "We want to give students a chance to talk to Notre Dame professionals about their career fields of interest and life after Notre Dame, and also to give students a chance to learn about the operation of the National Alumni Board.

The event is sponsored by the Alumni Association and SARG, the Student Alumni Relations Group, she added. -msARG, led by students Karen Jones and Ed Leonard, acts as a liaison between alumni and the students on campus. Working with the alumni association, SARG provides information to students about alumni club activities on campus and at home, Miceli said.

Each year, the National Board of Alumni meets at this time and talks with students about the workings of the Alumni Association and career possibilities. The twenty-member board, which always contains at least three alumni who have graduated within the past five years, hopes to enlighten students about the world they will face as Notre Dame graduates.

At Wednesday's gathering at Theodore's, the National Board will meet informally to discuss different career areas, including law, business, computers, accounting, teaching, engineering and architecture.

Each alumna will offer insights into how he or she used the Notre Dame degree to get where they are now. Students will have the opportunity to talk one-on-one with alumni about any of these areas.

MERRILL LYNCH CAPITAL MARKETS
CHICAGO REGIONAL OFFICE

is currently accepting applications for the position of

FINANCIAL ANALYST
within the Midwest Corporate Finance Department.

In selecting applicants for the position of Financial Analyst, Merrill Lynch looks for a record of outstanding academic achievement, extracurricular involvement and work experience, and demonstrated leadership qualities. Analysts must be exceptionally articulate, able to write effectively, and able to work well with others. Although no particular academic majors are required, some background in accounting or statistics and familiarity with computers is helpful in indicating an ability to readily acquire the tools needed for quantitative analytic work.

Upon completion of this two year program, Financial Analysts are generally able to enter a graduate business or law degree program at a leading university. Many return to Merrill Lynch after completing their advanced degrees to build their professional careers in investment banking.

Charles said, "Tantur, as well as Jerusalem, is a safe place with security at all times. There has never been a problem at Tantur."

The underlying purpose of the new program, as well as any foreign study program, is "to develop a cultural understanding of other peoples so that this understanding can lead to peace," Charles said.

The entire cost per student of the program is $2750, a sum which covers round-trip fare from New York to Tel Aviv, room and board in Jerusalem, field trips, and fees and tuition, according to Charles. "All undergraduate students are eligible," said Charles, "but applications must be turned in by March 1, 1987. Application may be obtained from Rm. 420 in the Administration Building, she said.

In showing her high expectations for the consortium-based program, Charles summariily added, "I'm very optimistic about the first ever Notre Dame participation in a consortium for the purpose of foreign study, and I hope Notre Dame students take advantage of the special privilege of meeting other students from four campuses and fulfilling their interests in Arab and Islamic Studies."

Gelfman experiments with tandems at Minnesota Doubles Invitational

By SHEILA HOROX

The Notre Dame women's tennis team departed for the Minnesota Doubles Invitational last Thursday with four new doubles teams and returned with what they needed most: experience.

Head Coach Michele Gelfman is experimenting with the doubles pairings, looking for the right combinations for the spring season which gets underway in three weeks.

The three-day tournament featured the top four doubles teams from Minnesota, Ohio State, Nebraska, Iowa and Drake. The teams were matched according to their rank for the first two days of play and by tournament records for the third day.

“We went up there to try out new combinations,” said Gelfman. “We're going up there to start out the season by playing in a tournament that takes the pressure off the team situation.”

Junior co-captain Michelle Dasso and freshman Alice Lohrer made an impressive first showing at the number-one doubles position. Throughout the tournament they swept five of seven matches, finishing second to Minnesota in the number-one doubles bracket.

In their opening match, Dasso and Lohrer defeated Ohio State's Michelle DeCosmo and Yvonne Lobner, 6-4, 4-6, 6-4 (8-6 tiebreaker). Interestingly, Alice Lohrer found herself playing against her older sister for the very first time.

“Michelle and Alice played exceptionally well,” said Gelfman. “They were aggressive and they pulled out some really tight matches.”

The remaining doubles teams gained valuable playing experience. Experience is essential, especially when the number-two and four teams are a tandem of freshmen.

Stephanie Tolstad and Resa Kelly joined forces at the number-two spot. Their weekend was highlighted with a 6-2, 6-1 victory over Iowa's Penne Wohlford and Susan Evans.

Playing at the number-three position were sophomores Natalie Illig and Julie Sullivan, while Jackie Ubl and Maura Weidner, both freshmen, comprised the number-four doubles team.

Coach reprimanded for criticizing officials

Associated Press

TOLEDO, Ohio - The Mid-American Conference issued a public reprimand Monday to Verno Payne, the head men's basketball coach at Western Michigan University for public criticism of game officials.

Payne, a former Indiana University star, was reprimanded by the conference at Ball State Jan. 14.

The conference stated that the comments from Payne in violation of the conference code of sportsmanship and the rule prohibiting public criticism of game officials.

“People shoot at you more in the sport of basketball,” Lessig said in a statement, “but we must enforce the conference rules if they are to have any real meaning. I have a great deal of respect for Vern Payne and I am confident that this is an isolated incident that will not be repeated.”

North Carolina No. 1

ACC showdown set for Sunday

Associated Press

Despite winning 15 games in a row, many in dominating fashion, North Carolina Coach Dean Smith still isn't convinced his top-ranked team could beat any other team in the nation.

The Tar Heels, now 17-1 after an early season loss at UCLA, returned to the top of The Associated Press' college basketball poll Monday, replacing Iowa, which held the position for one week.

North Carolina will bring its No. 1 ranking to South Bend this Sunday when it faces Notre Dame.

People shoot at you more when you're ranked No. 1, but because of the parity, that doesn't mean you're really any better than the team ranked 18th,” Smith said.

North Carolina received 59 first-place votes and 1,236 points from the nationwide panel of sports writers and broadcasters to easily outdistance the Hawkeyes, who suffered their first loss Saturday of the regular season. But they fell from the top spot when they lost 89-84 at UCLA on the way home from two games in Hawaii. Their two games last week were Atlantic Coast Conference blowouts, 79-78 over Wake Forest and 92-55 over Georgia Tech.

Iowa received two first-place votes and 1,141 points after a week of drastic ups and downs. The Hawkeyes beat then-No. 5 Purdue on the road, 70-67, and followed that with another Big Ten Conference victory, 101-88 over Indiana, the first time a Hoosier team coached by Bob Knight allowed more than 100 points. They couldn't hold the homecourt momentum, however, as Ohio State beat the Hawkeyes, 86-70, at Iowa City.

Nebraska received 18 votes and beat Iowa State, 92-62, and lost to Kansas State, 87-68.

Notre Dame, which won 14 straight after an early season loss to North Carolina, received 17 first-place votes and 1,117 points to take third. The Runnin' Rebels, who were fourth last week, won all three of their Pacific Coast Athletic Association games last week.

Production Manager

Interested applicants should submit resume and personal statement to Joe Murphy.

Application Deadline is Wed. Jan 28 at 5 PM
Men's volleyball vies for club supremacy

After a big win in its opening match of the season, the Men's Volleyball Club is looking forward to a busy weekend that features early contests with some of Notre Dame's major opponents. The Irish will take its 1-0 record to Grand Valley State then face Miami of Ohio at the ACC pit on Friday at 7:30 p.m.

"If Miami of Ohio does well this year, they'll go very far," said Irish club president John Sullivan. "There's about 45 teams in the Midwest, and only three are really scary. They're one of the top club teams." During the weekend, Notre Dame will play in a tournament at the University of Michigan which includes the 16 top teams in the Midwest. The tournament will give the Irish their first look at Michigan. Bowling Green, and Wisconsin, teams that usually battle Notre Dame and Miami (Ohio) for club volleyball supremacy in the Midwest.

"It's like our pre-season NIT tournament," said Sullivan, "but every match we play there does count on our league record. If we can win that, our season's going to look really good."

In Notre Dame's opening match last Wednesday at the ACC Pit, the Irish cruised past the University of Toledo, 15-2, 15-4, 15-9.

"We got what we wanted in their first three games, all of them in the parts of the game," said Sullivan. "Both our setters, Mike Shimota and Marc Burdell, did really well, and also Mark Trumann played great at middle hitter."

The win represented a big improvement in Notre Dame's opening match last year. The Irish suffered a major upset in a Thanksgiving tournament in Windsor, Canada, where the Irish lost two of three matches.

"Everything is starting to come together now that we have a season to look forward to. In the first semester there wasn't anything to look forward to because we didn't have any regular season matches," said Sullivan. "We also doubled our practices on the first week of the semester."

Steve Megargee
Club Corner

In last weekend's Governor's Cup tournament at Crystal Mountain, a sister combination led the women's Ski Team to a first place finish, while the men's team settled for second place.

In one race, Kathy Skendzel placed third, while her sister, Mary Beth, finished fifth. Mary Beth got her revenge in another race as she beat her sister to take second. Maureen Connah with Saint Mary's placed fifth in another race. Each race in the women's bracket included about 50 people.

"We have a lot of positive aspects in the match, so I'm happy regardless of the score," said McCann. "Winners for the Irish were Andy Radenbaugh at 118 pounds, Pat Boyd at 142 pounds, Chris Geneser at 167 pounds."

Geneser, who had been sidelined for several matches because of a knee infection, made a victorious return to the mat with a 9-5 decision and improved his record to 19-2 for tour tough games in succession.

"I've watched so much film of that I've got (Dayton's) Dan Christie running the break with (North Carolina's) Jeff Lebo," said Phelps before the UCLA game. "Dave was beating the guy who won the tournament in California that Dave got fourth in."

McCann was also impressed with Dave Carlin's performance. "Dave was being the guy who won the tournament in California that Dave got fourth in," said McCann. "Unfortunately, he got caught in a bad move."

Carlin was pinned after leading the match 6-6. Nebraska did nothing to help the Notre Dame's injury problems. Tom Ryan suffered a bruised ribcage late in the second period and was forced to default early in the third period.

The 1-4 Irish will continue to seek their second victory on Wednesday as they travel to Purdue Boilermakers. Then on Sunday, they will host the National Catholic Intercollegiate Wrestling tournament.

The Irish head coach Lefty Smith had plenty to yell goals in both games made things tough on his team. Irish hockey team

The Irish hockey team
survived injuries, illness, questionable officiating, disputed goals and numerous penalties as it rallied for an overtime victory Saturday, and a weekend split, at Kent State.

Round one Friday night featured a total of 26 penalties as the Irish fell, 6-3. Captain Mike McNeill led the squad with 12-seconds overtime tally by Mike Lukenda, and a clutch out of penalty box. Lukenda lost his shut-out with 1:01 left to play on a goal which once again was disputed. The Irish refused to fold, however, and Leherr won the game 5:51 seconds into overtime. Matt Hanzel scored a controversial goal which once again was questioned. "After having all of the injuries and illness that we have had," Smith said, "we were very pleased that we were able to come back and win."

Irish rally for series split

The Irish women's swim team had to overcome several obstacles to set individual personal records. Kelly Townsend details the swim teams' trip to Kenyon University at right.

The Irish women's swim team had to overcome several obstacles to set individual personal records. Kelly Townsend details the swim teams' trip to Kenyon University at right.

The men raised their record to 9-0 on the young season with wins over Minnesota (24-3), Lawrence (21-1), Wisconsin (21-6), and Chicago (19-8).

Leading the way for the Irish was an impressive performance by the sabre squad and senior Kevin Stoutemire. The sabre men went 9-0 and boosted his unbeaten record to 11-6. After fencing in the shadows of number-one and two sabre men for the last three years, Stoutemire has accepted the challenge as the number-one weapon in the sabre in solid fashion.

"Kevin Stoutemire put on a clinic," DeCicco said. "Two (opposing) fencers and two coaches couldn't believe that they were watching two to Wisconsin and one to Chicago. Had you been there, you would have seen some sabre being fenced that was good enough to win a national championship," DeCicco said.

Fencing the weekend was sophomore Tim Collins, who went 9-0 to raise his record to 10-1. Despite dropping two to Wisconsin, junior Geordi Basson notched seven out of 10-2 on the year, while Brian Quinn and Steve StPerform's game. Three 3. Freshman Danny Yu went 3-1 to up his record to 4-1. The epee squad also provided a pleasant surprise for Notre Dame head coach Mike DeCicco, who went 29-7 following three losses against Stanford. Seniors Tim Vaughn (8-1 on the year) and John Haugh (6-1) led the squad with six wins. Senior Dave Lennert (3-2, 4-2) and Ron Golden (4-6, 4-0), sophomore Ted Griﬃnes (4-4, 6-2) and Ted Faye (3-8, 4-3), and junior Doug Doudakis (3-1, 1-1) each added depth for the Irish.

According to DeCicco, the Irish are growing well against the tough Wisconsin Badgers.

Another pleasant surprise for Notre Dame was a big win over Minnesota. The Irish swept the Gophers 9-0 in all three events.

"I think that's the frustration the kids have gone through. We've had four losses since the regular season and all those losses have been since the last minute. It's not that we aren't doing things, I think we are growing in many areas.

"So now its just getting ready to play against teams like Dayton, Marquette, and DePaul," continued Phelps, "because that's something we've established as far as the creditability for the independents... of the ACC with Marquette and venerable North Carolina visiting the school. Assistant Coach Digger Phelps has made a prediction.

"They are going to be very, very fired up to play against us because of their situation, having lost to Marquette as they did as a team," continued Phelps. "Now they have to win a game. There will be good intensity. For us to come home and get in the groove for four games is something we really need right now."

Just how much Notre Dame has grown will be measured against round-robin rival Dayton. The Flyers are coming off a victory last week over Detroit, 74-69. Noland Robinson, a freshman guard from Willard, Ohio, struck for a career high 19 points to share Dayton scoring honors with senior point guard Dan Christie. Senior forward Anthony Grant followed with a steady 14-point effort.

Grant leads Dayton with a .500 average from long range, 6.3 rebounds per game, 12.5 points a game and is shooting .821 from the free throw line.

The Flyers could have a problem at the line since they shoot .734 as a team, while the Irish are at .724.

The Irish men's tennis team competed against top teams, including seven-time Division III champions Kenyon College, but also had to contend with in-climate weather and bad logistics. Despite such obstacles, the Irish were able to set some personal records.

Assistant Coach Greg Lambert led the teams in place of Head Coach Tim Welsh, who had to leave due to a death in the family. Despite the lack of individual wins and a low place overall, Lambert looked at the positive aspects.

"We had some very good personal performances this weekend," said Lambert. "It was a tough weekend, but we went smoothly considering all that happened.

Not only was Notre Dame facing strong teams from Ohio Wesleyan, Denison and Allegheny, but the team also was late in arriving because of the bad weather and stayed in a hotel an hour away from the meet. It was a learning experience. We learned what to do and not to do in that style of play and had to cope with tough circumstances."

The style of this meet was similar to that of the Midwest Invitational and NCAA Championships.

Now the Irish are preparing to face Cleveland State and St. Bonaventure on the road this weekend before hosting their final home meet against Ball State.
