Hetterich, Cook tickets to vie in SMC run-off

By PEGGY PROSSER
Assistant News Editor

Two tickets for the election of Saint Mary's student body officers, senior class officers and junior class officers will face each other in a run-off election to be held Friday in Haggag College Center from 7 a.m. to 6 p.m.

The two tickets received a majority of fifty percent plus one vote, according to current Student Body President Jeanne Heller.

"I think it's important for everybody that voted today to vote again on Friday. It's going to make a difference. Every vote makes a difference," said Heller.

In the election for student body officers, the ticket of Sarah Cook, Janet Hamann and Ann Rucker, Ann Reilly and Ann Eckhoff finished with seventy percent of the student vote.

The election for senior class officers resulted in a run-off between the ticket of Teresa Donag, Lisa Muday, Angie Teeples and Kate McDevitt and the ticket of Mary Kim Koch, Christine Schymik, Julie Baer and Nancy Kloe.

The Koch ticket finished first with forty-one percent of the vote, followed by the Donegan ticket with thirty percent of the vote.

The ticket of Julie Bennett, Ana Jote, Lorrie Potenti and Patti Petro finished third with twenty-three percent of the vote.

Hetterich discuses ethics in journalism

By REGIS COCCIA
Assistant News Editor

University President Father Theodore Hesburgh, speaking on ethics in journalism to the staff of The Observer, said he agreed with his decision not to print the names of those charged in the Corby's case presented, according to Gardiner. "There is the public's right to know. ... what the confessor told me. . . . I think a certain honesty you can hide it. I don't think you have to put the world you can hide it. I think there's probably a way of just stating it in a bland manner without destroying people. You've got to remember the (driver's) mother and father are going to read that," he said. "There's a certain honesty you have to have. You don't sensationalize it, you almost put it out as though you're talking about somewhere else, not here," he said.

"But I don't see any way in the world you can hide it. I don't think you have to put the names in because everyone involved will know the names and anyone who wants to know the names can find out," said Hesburgh. "I didn't know quite how to say it, but there's a virtue you don't bear much about and it's called magnanimity," he said. "And it means sometimes that something is more important than getting a Pulitzer Prize. You could print some things that would absolutely destroy somebody or their family or their marriage or their business, because you find out things."

"Magnanimity comes from two Latin words, 'magna' and 'anima' which mean 'big soul' and I think there are probably times when magnanimity would lead you not to publish something that might be totally destructive of another human being that's unnes-

Results of referendum on divestment released

By R E G I S  C O C C I A
Assistant News Editor

The results of a student referendum on University divestment in South Africa were released late Wednesday by Saint Mary's Student Senator John Gardiner.

According to Gardiner, forty percent of the students who voted on the referendum supported University divestment, thirty percent were against divestment and approximately thirty percent were undecided.

Gardiner, who sponsored the referendum, said almost sixty percent of those who professed an opinion on The Observer that will be released today, between 9 and 10 a.m.

According to Gardiner, forty percent of those who voted on the referendum supported University divestment, thirty percent were against divestment and approximately thirty percent were undecided.

Gardiner announced the results of the referendum at a meeting of the Student Senate for a general referendum last October, before the November Board of Trustees meeting. The idea for a student referendum was first brought up by Student Body President Mike Swittek, Gar-

In Brief

A possible satanic worship location was examined by Cincinnati and Fairfield police Wednesday as part of an investigation related to the discovery of a woman's severed legs in Indiana. "We don't even know if we have a crime committed at all," said Fairfield police Sgt. Roy Hounchell after he took part in the search of a mobile home. Hounchell said police were trying to connect Monica Denise Lemen, 21, of Cincinnati, whose legs were found near a Brookville, Ind., church, with the mobile home. Hounchell said officers found satanic objects and a marble altar during the search. No one was in the house. - Associated Press

No evidence has been found to support the usefulness of lie detectors in screening employees in sensitive positions, says a congressional report due to be released today. The Department of Defense, which was authorized to screen 7,000 people during the last two years as part of the Conrady-McGovern Polygraph Test Program, has screened 3,990 people and has not collected the information needed to know whether the tests were accurate. - Associated Press

ND student-run TV station could offer great potential

The "unknown" candidates, Raul Gonzales and Bill Donaruma, weren't elected to student government's highest office Tuesday, but they did have an interesting idea going into the elec­ tion. Starting up a student-run television station is similar to WVFJ radio, they say, would be an excellent use of student government funds. I agree.

Think of the potential. The station could provide coverage of campus events, especially different from that of the print media or the radio station. Talk shows and news programs could be aired. Even movies could be shown. Moreover, it could also provide an outlet for students who feel like expressing themselves on film instead of on paper or over the air.

Already Grace Hall has the beginnings of a cable system. The hall uses a remote video camera to film athletic and social events and then broadcasts the tape through a cable system to every room. After Sunday mass, resi­ dents can see a replay of the most recent bas­ ketball game or inter-hall hockey match-up. Lately, the program line-up has expanded to include live call-in shows with dorm celebrities and music videos. One video was a parody of the "This is Notre Dame" clip (usually seen during football half-times) with previously unseen footage of significant campus landmarks, like the power plant and the water tower.

With the purchase of a $1,000 camera and VCR, Grace Hall has been able to start its own dorm media with the ability to bring a televised bulletin board bringing useful news, dinner menus, and the shuttle schedule to a large audience. Ed Trifone and Jan Farrell, the managers of Grace Vision, have organized a staff of 10 students to operate cameras and make films, indicating there is an interest in dorm television exists. I wonder if other dorms could imitate Grace Hall's lead? Running cable through dorm rooms is not a technically difficult problem. It definitely should be investigated. And certainly the cost of video equipment is within every dorm's budget.

But an even more exciting idea would be the creation of a campus TV station similar to the current radio station setup. The station could transmit from a central location to campus buildings via a cable system. In a way, the campus is behind the times if we think that the fund increase for WVFJ is the only media worth funding. It seems that, unlike other campuses, Notre Dame and Saint Mary's haven't discovered the television yet. A student-run television station could go a long way toward giving broad broadcast experience to journalists-minded students. The use of video and film coverage is a missing dimension in providing a full recipe of news and information services on campus.

While revamping the radio reception system is a good idea, I would like to see a few entrepreneurial types take a stab at starting a similar organization to bring television to the campus. It's a secret of mine that if I were a freshman again, I'm not sure that I would so readily get involved with the campus newspaper. Instead, starting up a television station might be an irre­ sistible opportunity. For some eager undergrad­ uate, this idea has incredible potential for de­ veloping into a much-needed service.

Today's results showed that the unknown candidates will remain in obscurity from campus politics. Hopefully, however, their idea of Notre Dame Television will be taken seriously by the incoming student leaders.

Notre Dame, Saint Mary's student leaders to be featured in talk show in senior video

By KATIE SULLIVAN Staff Reporter

Thirteen Notre Dame and Saint Mary’s senior class leaders held an informal talk show Wednesday at Theodore’s in conjunction with the production of the Senior class video.

The Senior class video company, Special Moments Collection (S.M.C.), videotaped these students’ reactions and responses to a variety of events occurring during their four years. “We chose these people because we feel they are some of the most recognized members of our senior class,” said S.M.C. President, Michelle Coleman.

According to Coleman, the talk show will be only a segment of the senior video. The Special Moments Collection group began video taping senior class events with senior disorientation week and will end taping with the senior formal.

Included in the talk show were both student government leaders and a variety of leaders from organizations such as the Pre Law Society, WVFI-AM, The Observer, the Notre Dame band and the Alumni Senior Club.

“This was a great group of people to talk with because we all have different things in common. This event will be a nice thing to look back on,” said Notre Dame Senior Class President Dave Miklos.

Mike Switk, Notre Dame student body president added, “It was swelling. I’d like to sit around a bit longer and rap with some of these people.”

The topics discussed were based on the students’ most memorable college moments. According to Saint Mary’s Student Body President Jeanne Heller, her most memorable moments are of the times she got to know and understand those people whom she used to see as, “walking on water”. Bruce Lohman, executive assistant to the student body president, said that exploring “the different ways students deal with influences from day to day” is his greatest memory.

Coleman emphasized both the positive and negative effects of the implementation of the alcohol policy. Senior Formal Co-chairperson, Jim Domagalski, said, “Our class had to deal with the situation after experiencing a ‘wet’ campus for a year. I think it was a positive thing for our college because it opened the doors to a lot of different activities and it caused our class to unify a great deal more.” Rebecca Hetland, student representative to the Saint Mary’s Board of Regents added, “It forces us to be more creative.”

For further information about the senior class video, contact Michelle Coleman, 284-5096.

Senators panel votes to ban Contra aid being sent to Contras

WASHINGTON - The Senate Foreign Relations Committee voted 11-9 Wednesday to halt U.S. aid to Nicaragua’s anti-government guerrillas in the first major test of sentiment in Congress toward the Contras.

Even if the full Senate, which both sides repeated their arguments favoring or opposing the program.

"This is one of the most crucial war-peace issues we will face," said Sen. Alan Cranston, D-Calif., a strong opponent of Contra aid.

Sen. Terry Sanford, D.N.C., another opponent, said Reagan is following "a very dangerous and likely unsuccessful policy."

However, Sen. Paul Trible, R-Va., noted that the Contras have just begun receiving official U.S. help again after a two-year hiatus and said, "We ought to play this hand over the next year or so" and see if they win.

The program has been highly controversial ever since the Contras, with secret U.S. help, began fighting Nicaragua’s leftist government six years ago. Congress banned U.S. military aid for two years but narrowly reversed itself last fall and voted for $100 million worth of aid, including $70 million in military help, for the current fiscal year.

diner said. “If I wanted to present something to the Board of Trustees, I had to get how the students feel,” he said.

Rose said the Anti-Apartheid Network did not participate in the referendum. “We ourselves had planned an offensive against the apartheid issue” after spring break, during National Weeks of Information, the Rose said. “The National Weeks are held at times which intermingle separate events in the anti-apartheid movement.” Rose said the events will be held from March 21 to April 4.
Reagan, chief of staff questioned on fate of Regan’s future plans

Associated Press

WASHINGTON - President Reagan said Wednesday that it’s up to Donald Regan whether he will remain as White House chief of staff, but said he never tries to talk anyone out of leaving.

But Reagan indicated he wasn’t going anywhere.

Reporters, "This is up to him. When the people that I’ve asked to come into government feel that they have to return to private life, that’s their business."

Then, during a picture-taking session with Israeli Prime Minister Yitzhak Shamir, was asked whether his comment should be interpreted as meaning that Regan was, in fact, leaving the White House.

"That’s a ‘No answer,” he replied. "That’s not an answer.”

Regan, confronted by questions shouted by reporters covering Shamir’s departure ceremony at the White House diplomatic entrance, smiled and pointed at Reagan, saying, "It’s up to him."

Under questioning during the photo session with Shamir, Reagan scoffed at a report in Wednesday’s editions of The Washington Post, which said his wife, Nancy, had not been speaking to Regan, and that she had been pushing for his ouster.

"Oh, for heaven’s sake,” the president replied. “No. Not true, and nobody’s getting fired.”

Regan’s management of the White House has been criticized by some Republican members of Congress and others since the Iran-Contra affair began unfolding last November, and there have been widespread calls for his resignation.

Once again the Notre Dame Alumni Association will be accepting nominations from February 10 to February 28 for their annual Distinguished Student Award. The Distinguished Student Award was created to honor an outstanding senior student at the University based on the following criteria:

1. Service to Notre Dame
2. Service to the Community
3. Good Academic standing

Applications can be obtained at the Alumni Association office on the 2nd floor of the Administration Building, University Ministry offices - Badin Hall and Memorial Library and the Center for Social Concerns.

Nominations must be submitted to the Alumni Association by February 28.

Law students present mock final arguments

By LIZ PORTER News Staff

Four senior Notre Dame law students presented a showcase of final arguments Feb. 13 in conjunction with the 37th anniversary of the law school's moot court competition.

In the auditorium of the Center for Continuing Education, the four finalists from the Notre Dame moot court competition displayed the arguments they recently presented at the regional moot court conference in Milwauk ee, Wis.

The presentation of oral arguments allowed observers to watch the law school's national representatives argue a case in a mock appellate setting before a panel of state and federal judges.

Given a hypothetical case, the students formed two opposing teams consisting of Carol Kucera and Bradford Purcell as counsel for the petitioners, and Christina Smith and Joanne Thomas as counsel for the respondents.

A panel of three justices from various court systems heard the arguments, providing comments for the students after the presentation. The Honorable Carol Mannsman, an appellate judge from the U.S. Court of Appeals for the Third Circuit, presided over the panel. The Honorable John Mowbray, Justice, Supreme Court of Nevada, and the Honorable Sanford Brook of St. Joseph Superior Court were also present.

The Notre Dame moot court competition, which began in 1960, provides second year law students an opportunity to participate in a series of mock trials, said Joanna Johns, executive director of the 37th Annual Final Argument.

According to Johns, students in these trials present an oral argument and a written brief for review by a panel of law school professors and local attorneys.

Students who chose to compete enter a progression of elimination rounds which continue throughout their second year of law school, Johns said. At the review of the panel, she said, four law students are selected as the top competitors of the second year class.

The top second year students move on as third year students to represent the Notre Dame law school in regional and national competitions, said Johns.

Academic credit is given to those third year students who participate, she said, and all preparations must be made by the students with the counsel of professors.

According to Johns, first year law students do not compete in the most court trials, but are required to participate in an appellate brief writing and oral exercise as a part of their academic curriculum.

For the 1986-87 academic year the third year teams consisted of Kucera-Purcell, and Smith-Thomas, who represented Notre Dame at the regional competition, which encompasses a large area of mid-western states. This region constitutes the largest moot court conference in the nation, she added.

According to Johns, teams competing against Notre Dame included law schools at Loyola, Valparaiso, University of Wisconsin, University of Illinois, Indiana University, and Northwestern.

The theft of unmarked exams for a Medical Genetics course at the University of Toronto has left the grades of 249 students in limbo. The exams were stolen from the professor's locked office over winter break.

Now students might have to take another test or accept midterm marks as their exam marks.

The Kansas University student senate is sponsoring a free cab service for KU students who 've had too much to drink. Under contract with the student senate, a local cab company gives rides until 3 a.m. on weeknights and weekends.

The senate gets charged $2.50 a ride.

Bucky's Bleacher Creatures have invaded the University of Wisconsin's men's basketball games this season. Members of the student booster club receive red t-shirts and food coupons from area fast-food restaurants in return for their enthusiastic (and loud) support of the team.

nanimity is a great virtue, but then again, you've got to do your job.

"If you were to ask me for one virtue or ethical device someone ought to have, I'd say get the truth," Hesburgh said. "It's not always easy. It's a question of truth, I think, in a way, is the over arching ethical problem of journalism. If you want the truth, you have to go to people's jobs."

Hesburgh commented on the values of the profession. "How do you approach a subject like ethics in journalism? Is there really any ethics in everything? There's ethics to being a housewife, there's ethics in being a priest, there's ethics in running a newspaper, there's ethics in everything," he said.

"You go down through a whole list of virtues. They're not the same virtues. The problem is they've got to be applied," Hesburgh said.

cent of the vote.

According to Heller, a record 70 percent of the junior class voted in this election for senior class officers.

The ticket of Christie Wolfe, Michelle Agnostino, Tera Ster- nitke and Lisa LaMalla will face the ticket of Rose Pietrak, Anne Palomaro, Barb Guillor and Katy Burns in a run-off election for junior class officers. Both tickets tied with 23 percent of the vote.

The third ticket of Julie Wagner, Kelly Glavin, Dawn Meyer and Robyn Malone earned 28 percent of the vote.

Sophomore turnout for the election of junior class officers was 54 percent, Heller said. Forty three percent of the freshman class turned out to elect Megan Hines, Mary Beth Bajaja, Deirdre Milen and Lisa Catenacci for sophomore class officers.

Their ticket received 59 percent of the vote, the majority needed to win the election. The ticket consisting of Krista Brown, Dawn Routek, Patti Weed and Colleen McCarthy received 36 percent of the vote.

Heller praised the Saint Mary's student body this year. She attributed the high turnout to the three tickets, saying that they had renewed interest in student government elections.

Thanks to movies that romanticize military life, applications are up more than 10 percent at the nation's three big military academies: West Point, the Naval Academy, and the Air Force Academy. Officials also attribute the surge to increasing patriotism, the increasing social status of the military, and the lure of a free education.
Surrogate motherhood leads to many conflicts

Baby M., 8 months old, blonde, and blue-eyed, is the daughter of William and Elizabeth Stern. She is also the daughter of Mary Beth Whitehead and her husband.

Wait, isn’t having only one set of parents the norm?

Carol Brown on second thought

Yes. But Baby M. is different. “Melissa Stern or ‘Sara’ Whitehead is the product of a surrogate mother arrangement between the Sterns and the Whiteheads. Several months ago, William Stern provided his sperm and promised Mary Beth Whitehead $10,000 for her services as a surrogate mother.

Someone else, right? Mary Beth would be $10,000 richer and the Sterns would be the happy new parents of a custom-ordered baby.

Wrong. Somewhere in this simple business contract someone forgot the emotion. Someone forgot the attachment between a mother and her child.

Wrong. Mary Beth gave the baby to the Sterns three days after birth. But she begged to have her back a day later. The Sterns, in all compassion, returned the baby to Mary Beth before they sent a court order and five police officers to retrieve the baby.

In the desperation of a mother, which was not part of the contract, Mary Beth handed the baby over to her window to her husband. The family fled to Florida. After three months, the Sterns found the Whiteheads and took Baby M. back to New Jersey, where her fate was being decided in a court room.

As the saga continues, New Jersey Family Court Judge Harvey Sarkow has historians and lawyers waiting for his ruling, which will set a precedent in the surrogate mother cases. Surrogate mother cases have become prohibited by law. Five hundred babies have been born to surrogate mothers in the last decade. None have gone to court, although three known disputes were settled privately with the biological mother keeping the baby.

Does the case involve contract or power to custody? What rights, if any, does a surrogate mother have to the baby she agreed to sell? Should joint custody be an option? The question should not be one of contract or custody, but rather with the poor sportsmanship of our opponents. Please don’t make us sore losers, for that is not the case at all. We simply feel that some of the situations we have faced in our games have been badly handled by our opponents and have been the cause of some disillusionment within our team.

“Womb For Rent: $10,000 For 9 Months. No Emotional Attachment. Guaranteed.” Noel P. Keane, contractor.

Carol Brown is a junior American Studies major and a regular Viewpoint columnist.

Fun is the purpose in interhall basketball

Deer Editor:

The game of basketball requires only two things: some level of skill and also sportsmanship. Obviously the skill factor is not as important to us as it is the issue of sportsman/womanship.

The purpose of our basketball team is to gather together a group of people, most of whom lack previous experience on the court, to compete in the NVA league and most importantly to have a good time. The level of skill that we as a team have encountered in the last few weeks has been impressive. Our problem is not with the level of skill, but rather with the poor sportsmanship of our opponents. Please don’t make us sore losers, for that is not the case at all. We simply feel that some of the situations we have faced in our games have been badly handled by our opponents and have been the cause of some disillusionment within our team. “It’s not important whether you win or lose, it’s how you play the game.” When you’re behind by more points than you can remember and your opponents are fast-breaking on you and continuing to run a full court press in the fourth quarter when the game is obviously in hand, you begin to wonder whether or not the other team is aware of just how they “play the game.” Worst of all these people don’t even look as though they are having fun, which is the whole point of interhall athletics, or so we thought. Hey guys, Lighten up! We know how to lose and have fun doing it but do you know how to win?

To the teams we have already faced, good luck during the rest of you season. To those of us who have yet to face, we won’t be hard to recognize. We’ll be the ones that will be determined. Determined that is, to do our best, and have fun while we’re at it.

Pat Hall
St. Francis Hall

Quote of the day

“Winning isn’t everything. Because you don’t win doesn’t mean you haven’t accomplished something. The key is in the effort. If you give all you can, then you’ve won.”

scoring points and leading the team with eight rebounds. He was especially impressive in the first half, as the Irish were struggling at the foul line (3-of-7) and in the offensive-rebounding department.

In the half, he led Notre Dame with 10 points, several coming on long jumpers from the baseline. Center Frank Williams led the Irish with 12 points, while forward Joe Francisco chipped in 10. Especially impressive for the Irish defense was the way he held guard Greg Pedro (who was averaging 14.3 points) on only two points on 2-of-13 shooting from the field.

"We had a lot to gain, but not too much to lose," said Quin. "At the half, I told the players that we had 20 minutes of basketball left and not to celebrate. I was happy with the way we played, but we've merely come too often. A win is what we wanted."

"It was a tough win, but that's college basketball," said Phelps. "The team's are so balanced these days. We just wanted to work hard and be able to do that. Now we just have to move on to the next one Saturday night."

IRISH ITEMS

Fordham head coach Quin announced yesterday before the game that he did not want to consider him as a potential candidate for the coaching job next year after his one-year contract runs out. According to a report, the former head coach Tom Penders after leaving the start of the threecrashed. He explained that "when the losses don't gnaw at you anymore, it's time to get out."
Junior overcomes injuries

Garrett back on track in distances

By PETE GEGEN
Assistant Sports Editor

Injuries are normally frustrating for an athlete, but for junior distance runner Dan Garrett, they presented him with a difficult situation to deal with.

It began last year when he suffered a hip injury during cross-country season.

"The tendon kept slipping out over the bone," says Garrett. "I tried to run through the injury, but I just didn't realize how bad it really was.

The injury restricted Garrett for several months to just slow jogging every other day. He tried to take his mind off the situation by lifting weights, but he suffered a shoulder injury from it, and all that was left to do was the slow jogging. He missed both indoor and outdoor track seasons that sophomore year.

"I couldn't do anything," he says. "I just try to forget about last year.

Fortunately for Garrett, the severe injuries are past (he strained a tendon in his knee last week, but it has not bothered him). In fact he has assumed once again his position as one of the top Irish distance runners.

Already he has defeated one of the top mile runners in the nation, Michigan's Chris Brewster.

"I was in really good shape then," Garrett says. "He had never run on our track before. It's really hard to pass on our track, and he just didn't time it right. (Fellow Irish distance runner) Mike Hogan helped a lot. If anyone tried to make a move, we would hold him off.

Garrett recorded a time of 4:12 in that race, the top Irish time in the mile this season. He also recorded a time of 9:00.05 in the two-mile run at the Central Collegiates, leaving him just one-tenth of a second short from qualifying for the NCAA's in that race.

But the quiet Clarence Center, N.Y., native has not even run his best race yet. That will come in the spring when he gets his first crack at the 5,000-meter run since his freshman year. His personal best in that race is 14:36, which is eighth on Notre Dame's all-time list.

The Irish travel to Bloomington tomorrow for the Indiana Intercollegiates. Indiana and Purdue will battle with Notre Dame for the top three positions in the team standings.

"Indiana has an awesome team," said Head Coach Joe Piane. "Indiana beats Illinois in a dual meet, and Illinois, along with Purdue, beat us at the Central Collegiates."

The Boilermakers feature sprinter and grid star Rod Whetstone, who won both the 60-yard dash and the 60-yard high hurdles at the Central Collegiates.

Notre Dame was scheduled to send its two-mile relay team to the Illinois Classic Saturday, but a power injury to co-captain Jeff Van Wie will probably force the relay to scratch.

The extent of Van Wie's injury was to be determined today.

through college. Except for Notre Dame Scholars and ROTC grants, Notre Dame does not promise any such help to recruited athletes outside of football and basketball.

"I happen to be a believer in the try League system," Smith said. "I'd like to see where, if a young man can meet the academic expectations and athletic qualifications, that we could take an honest look at his financial background and award him some help if he needs it. Maybe the stipulation that he also goes out and works to help pay for his education.

"I would like to think that would be more financially viable for our program, that it could be done. But proving your point is tough. Our financial aid here at Notre Dame is relatively small, but I would like to think that something could be done for us to compete with the top teams in the country again.

Smith also said some good teams would like to schedule the Irish in the future, and that next year's recruiting class has the potential to be the best since the team went back up to the Division I level two seasons ago. Smith also said scholarship or financial aid to players who need it, however, I find it difficult to believe that the Irish could put up a consistent front against the nation's powers. Without the powerful recruiting weapon commonly referred to as the scholarship, Smith and the Irish will continue to try improving their record in the ACHA against weaker opponents, and the number of Notre Dame players graduating to NHL careers will continue to take a nosedive.

Smith said, "I don't know what those good ol' days in Notre Dame hockey were all about."
Morrissey takes lead in Gold League; Pangborn, Alumni still shooting for playoffs

By ORLANDO RUBIANO
Sports Writer

The Manor is still intact after league rivals, Alumni and Pangborn, fired their best shots at it in interhall hockey action.

The Gold League is now coming into focus, as Morrissey (4-6-1) has affirmed itself atop after disposing of Alumni and tying Pangborn.

With one game remaining on the schedule, Morrissey only needs to beat Stanford to clinch a playoff spot as the top seed from the Gold League. Pangborn (3-0-2), however, due in part to the goaltending abilities of Pangborn’s Brian MacSwain.

“Their goalie made tremendous saves all game long, and really kept momentum for them,” said Morrissey captain Ted Gradel.

Gradel and company needed a two-man power-play advantage late in the game to pierce MacSwain’s goal. Gradel, who was left open, received a pass in the left slot and then faked MacSwain to his right before deposing the puck into the open side.

Pangborn took the lead in the first half when Paul Fisher in the finale for both teams. Alumni (3-1-1), which lost to Morrissey, 6-3, despite the 1-1 tie with Morrissey, can also clinch a playoff berth if it can defeat Pangborn. Alumni still shooting for playoffs it’s from DOMINO’S PIZZA. Unlike other

ND tops Rams in Garden, 69-57, escapes scare as Royal hits for 20

By ERIK SCHEUERMANN
Sports Writer

NEW YORK - It wasn't the prettiest of games, but it ended up in the victory column. The Notre Dame women's basketball team picked up its 16th win of the season last night, beating Fordham by a 69-57 score in the second game of a doubleheader at Madison Square Garden.

Despite the score, however, the game was in doubt until Irish center Gary Vooce hit both ends of a one-and-one with 34 seconds left to give the Irish a 62-57 lead. Four free throws and a last-second three-point jump shot by David Rivers gave the Irish their final margin of victory.

"This was a really good one to win," said Irish head coach Mary DiStanislao. "It was good to be able to rebound from a game like Tennessee with a game like this one.

Notre Dame overwhelmed the Flames in nearly every aspect of the game, controlling the pace and the boards while shooting, 59.7% from the floor. In turn, the Irish held their opponents to a 38.5% shooting percentage.

Freshman Annie Schwartz, who has been on a scoring tear for the past three weeks, led Notre Dame with 17 points and 10 rebounds. Junior Sandy Both-

ham scored 15 of her 17 points in the second half as the Irish pulled away with the game and improved their record to 7-13.

After quickly falling behind, 6-0, Illinois-Chicago made a run at the Irish and tied the game at 14-14. Freshman Kathy Emigholz hit two 15-foot jumpers and junior point guard Mary Gavin ran the Notre Dame fast break expertly as the Irish ran up a 32-22 lead at the intermission.

"Cathy Emigholz made a big, big difference coming off the bench," said DiStanislao. "I think she really stemmed the tide in a game that was starting to be a little lack-luster.

Gavin's precision passing kept the Flames on their heels throughout the first half, as she recorded nine assists and three steals. Meanwhile, the Notre Dame defense was holding 6-5 Donna Clark, Illinois-Chicago's top scorer (16.8 points per game), to only two first-half points and three shots from the field.

Clark picked up her fourth personal foul early in the second half, and the Irish took advantage of her cautious play to break open the game. Clark moved over to the corner and committed a foul of cause of foul trouble and scored 16 second-half points on short jumpers and foul shots. This was not enough to hold back DiStanislao's hungry team as Notre Dame ran away with the win to end a three-game losing streak.

Everyone got in on the action at the end as the Irish bench emptied. Four starters finished in double digits, while Emigholz, freshman Molly Mahoney (nine points, five rebounds) and senior reserved for an Irish victory column. The Irish bench took over, pushing the lead to 51-41.

"We were a little flat tonight," said Irish head coach Digger Phelps. "But we didn't lose our composure and we did the things we had to do to win the game."

"But I thought Fordham played very, very well, and that's a credit to Coach DiStanislao. They played with excellent intensity, and played hard at all times. We don't always do what Fordham makes us do, and right now we've never seen a Fordham team do it. We can't even expect them to lay down when we come in here."

"We couldn't have played them at a better time, this being their third game in four nights," said Quinn. "That's what I was telling my players all week - that we would have a shot. That's a good schedule they had lately. I thought my schedule-maker was sadistic."

Guard Scott Hicks turned in another fine effort for the Irish, scoring 16 points on nine-for-13 shooting. Senior forward Donald Royal scored 20 points as the Notre Dame basketball team overshadowed the Flames in nearly every aspect of the game.

After quickly falling behind, 6-0, Illinois-Chicago made a run at the Irish and tied the game at 14-14. Freshman Kathy Emigholz hit two 15-foot jumpers and junior point guard Mary Gavin ran the Notre Dame fast break expertly as the Irish ran up a 32-22 lead at the intermission.

Growing up in Ontario, Canada, it was difficult for me to walk down the street on a winter day without hearing something about hockey. As a matter of fact, it's tough to do in any season.

At Notre Dame, it's quite easy. I often wonder how exciting it must have been growing up in Ontario, Canada, where hockey is king. I often wonder how exciting it must have been growing up in Ontario, Canada, where hockey is king.
