ND postpones Israel program

By CATHY STACY
Assistant News Editor

The Jerusalem foreign study program planned for this spring has been cancelled because of the violence and tensions in the area, according to Isabel Charles, associate provost and director of the foreign study program.

"I felt the situation was just too tense to send a group of young people to Jerusalem," said Charles. Notre Dame's Ecumenical Institute at Tantur is located between the Israeli and Palestinian factions on the West Bank, she said.

"There has always been a concern about terrorism since the program began in 1985, but the situation has always been isolated," said Charles. The last few weeks before Christmas seemed to indicate, however, that the violence would be prolonged.

"Tantur is very safe itself," she said, "(and) has very high walls around it." The tenuousness in the occupied territories, however, would restrict the personal freedom of the students and detract from the quality of the program.

Charles also felt problems could possibly arise from the interaction of students with soldiers and other young men who were involved in the fighting.

After communicating with Landrum Rolliing, the rector in Tantur, and the U.S. State Department, Charles made the final decision to cancel the program on January 6, one week before the twelve students were to leave.

"I was stunned," said sophomore Mike Dunn. "It was really unexpected. I received a letter on New Year's saying that if it didn't get better they would cancel the program. I really didn't have any clue.

Other students who were drawn to Jerusalem because of its history and religious heritage described their reactions as "shocked" and "disappointed." They generally agreed, however, that Notre Dame had made the right decision.

Stevenson gives plea of innocent in misdemeanor

By ERIC M. BERGAMO
Senior Staff Reporter

Notre Dame basketball player Mark Stevenson pleaded innocent Dec. 28 to a criminal conversion charge from Class A misdemeanor, in connection with an incident last month at University Park Mall, according to County Prosecutor Michael Barnes.

Stevenson will appear April 8 in Mishawaka Traffic and Misdemeanor Court to answer the charges, Barnes said.

Stevenson and Ramona Phillips, 20, an employee of L.S. Ayres & Co., were apprehended around 4 p.m. Dec. 13 by Mishawaka Police. According to news reports, Phillips was allegedly leaving the store with merchandise that had not been fully paid for, police said.

Phillips, a cashier, was under surveillance by security officers after the store received information that she had not rung up the full price on other transactions, police said.

Stevenson had paid for a pair of socks and a turtleneck shirt, but another shirt and sweater were allegedly in the bag and not paid for, according to police reports.

Stevenson was arrested on a preliminary charge of theft by deception and released on his own recognizance. Phillips was arrested on a preliminary charge of criminal conversion and released on $250 bond.

The prosecutor's office reviewed the case and decided to proceed with a criminal conversion charge, Barnes said.

South Bend man arrested for threatening phone calls

By JIM RILEY
News Editor

Notre Dame Security has arrested a South Bend man in connection with threatening phone calls made to students at Notre Dame and Indiana University at Bloomington.

Security made the arrest last Friday in its office on campus after questioning the suspect about several complaints received from female students.

Stevenson is charged with one count of criminal conversion and released on $250 bond. He will appear March 2 in Mishawaka Traffic and Misdemeanor Court to answer the charges.

The man, Donald Jackley of 402 York Road, was charged with five counts of intimidation and two counts of criminal confinement.

The arrest warrants were issued in Monroe County in connection with calls made to Indiana University students.

The case has also been referred to the St. Joseph County prosecutor to see if it will be appropriate to issue charges in this jurisdiction," Johnson said.

He said Security began investigating the calls in October.

"We worked this case with eight victims," he said. Some time later, the caller would phone the student's residence and tell the female student that he was holding one of her parents captive.

No joy in Domer ville

U.S., Japan vow to ease tension

WASHINGTON - President Reagan and Japanese Prime Minister Noboru Takeshita vowed Wednesday to continue to work toward easing trade frictions, but they apparently failed to nail down an agreement on the thorny issue of U.S. work on Japanese construction projects.

At the same time, the two leaders also sought to reassure shaky financial markets with a joint statement hinting that fresh resources would be made available for the Federal Reserve System to intervene in currency markets in support of the battered U.S. dollar.

The statement, issued as the dollar was again declining in foreign exchange markets worldwide, declared that the United States and Japan "have developed arrangements to assure the adequacy of resources for their cooperative efforts" in the markets.

Meanwhile, Takeshita said his government was taking steps to stimulate economic growth and hoped to be able to reduce Japan's trade surplus by $6 billion this year.

Takeshita, in remarks in the East Room after the summit session, said he was hopeful for "mutually satisfactory solutions on the pending issue of access to major Japanese public works.

However, administration officials were less optimistic about a new Japanese plan to

Bink: 'Queen for a day'

By CHRIS BEDNARSKI
News Editor

They called her Miss Notre Dame, but Student Body Vice President Laurie Bink was really queen for a day.

Dressed in the gown she wore to her junior prom, the Breen Phillips Hall senior represented Notre Dame on a float Jan. 1 in the nationally televised Cotton Bowl parade in Dallas, Tx.

She also shared a float with female representatives from seven Southwest Conference schools during halftime of the game.

Most of the other women, however, were homecoming queens, Bink said.

High school drug use declines

Associated Press

WASHINGTON - Cocaine use by high school seniors fell 20 percent last year, the first time in more than a decade there has been a significant decrease, federal health officials said Wednesday.

Marijuana smoking and other illicit drug use continued a seven-year slide, according to an annual survey conducted for the Department of Health and Human Services.

"Despite the long-term downward trend for most illicit drugs, cocaine use in each of the past 13 years has either increased or remained essentially stable," HHS secretary Otis Bowen said at a news conference. "For the class of 1987, however, we finally see a significant downturn in cocaine use."

There have been slight decreases in cocaine use in three other years, but nothing approaching the magnitude of the 1986-87 drop.

"Attitudes toward cocaine and other illicit drugs now reflect a greater awareness among our young people of the dangers of drug use," said Bowen, citing the highly publicized cocaine-related deaths of college basketball star Len Bias and professional football player Don Rogers as one probable reason.

"It is indeed a shame that the deaths of many talented young people took place before the danger of cocaine use was widely believed by our youth," Bowen said.

At the White House, spokesman Marlin Fitzwater said President Reagan and the first lady "welcome these trends. The president has often said we have to stop the demand for drugs first, and these results show a growing number of kids are just saying no. It is welcome news indeed."

CHAMPION INTERNATIONAL CORP.

will hold a presentation for its

Sales Training Program on

January 14th at 7:00 pm
in the
Alumni Room of the Morris Inn

All Senior Business and Arts and Letters Majors are invited to attend.

Moderately informal attire.
Light refreshments will be served.
Why has Macintosh become the most popular computer among faculty and students in academia?

Well, maybe it's because:

- You can get started right away since Macintosh™ is the easiest personal computer to use.
- You can use the most productive software for word processing, publishing, business, graphics, science, and much more.
- You can also communicate with other systems like DEC®, IBM® and Cyber®.

Although it comes with everything you need, you can expand your Macintosh even further without giving up true portability.

And as a fulltime student, faculty or staff member, you can buy one before January 15 at a price you won't want to miss.

Macintosh
The power to be your best.™

give U.S. construction companies more access to Japanese projects after the Reagan-Takeshita session than they had been Tuesday.

A senior official, who briefed reporters on condition of anonymity, said the Japanese overture was only "a framework. It doesn't itself resolve all the problems that are involved."

The projects involved are expected to total up to $60 billion over the next 10 years. U.S. officials said the plan includes joint ventures between American and Japanese companies. It was the first meeting between the two leaders since Takeshita took office in November.

Standing alongside the new Japanese leader at a departure ceremony, Reagan said, "I found that our views on international questions coincide to a remarkable degree."

"We discussed the vital issues of the day and established an excellent personal rapport," he said. Administration officials had expressed hope before the meeting that the president would develop the same warm relationship with the 63-year-old Takeshita that he had with former Prime Minister Yasuhiro Nakasone.

Takeshita called the meeting "cordial and candid."
Israel expels Palestinians, ignoring protests

Associated Press

JERUSALEM - Israel expelled four Palestinian activists from the occupied territories yesterday, ignoring international protests, and its soldiers killed two Arabs in the riot-torn West Bank and Gaza Strip.

Arabs began to riot while a United Nations envoy visited a Palestinian refugee camp. He and the Israeli government accused each other of causing it.

A cabinet meeting ended with no announcement of new measures to deal with the violence that began Dec. 8 in the

Threat continued from page 1

tive, Johnson said. "In other calls, they called not the student but the students' parents or the boyfriend of the student" and said that the student was being held, said Johnson.

Johnson said Security noticed a similarity between some of the calls. "Four of the students had come in on the same flight or the same night" at Michigan Regional Airport, he said.

Jackley, who worked at the airport at the time, came under suspicion in the course of the investigation.

Johnson said Security subpoenaed the suspect's telephone records. Security noticed a number of calls to lands Israel captured from Jordan and Egypt in the 1967 Middle East war. More than 30 people have been killed, hundreds wounded and thousands arrested.

In Washington, State Department spokesman Charles Hedman said of the deportations: "That's an action we deeply regret."

A U.N. doctor, speaking on condition of anonymity, said the body of a 12-year-old boy killed by gunfire was taken to the Jabaliya refugee camp clinic in Gaza. Shifa Hospital in Gaza City said a 10-year-old boy was in serious condition with bullet wounds in the chest. Military officials said they could not confirm the Gaza death, but said soldiers near the West Bank town of Ramallah opened fire on Arabs who threw stones and iron bars, killing a 19-year-old man.

The confirmed number of deaths, not including the one reported by the U.N. doctor, stood at 83 on Wednesday.

Palestine Press Service, an Arab-run agency, said three more people died of injuries suffered previously: a 4-month-old girl and 12-year-old girl suffocated by tear gas, and four people wounded by gunfire Wednesday and 10 women treated for injuries caused by rubber bullets.

A report by Israeli army radio said a soldier and a border policeman were wounded by Palestinians with knives in Gaza's Khan Yunis refugee camp.

Threat continued from page 1

"It's too bad it had to happen now," said sophomore Pete Morgan. "My parents were very relieved, especially my mom. They had always been very supportive and never said no, but it was a big relief when they heard it was cancelled."

"Tracy Burke expressed similar reactions in her family. They would say, 'Thank God! You'll be safe,' and then say, 'Oh, that's too bad you can't go.'" Senior Dan Strub spent one month in a kibbutz in Israel two years ago and is familiar with the tension between the Jews and the Arabs. "It's the only place on earth where there will always be so much attention," he said. The opportunity to learn more about the political problems and experience firsthand attracted many of the students to study abroad.

"That's an action we deeply regret," said Charles, but she expects this foreign study program to reopen in the fall of 1988. Morgan, Burke and Dunn are considering reapplying next year.

"This is the biggest thing I ever looked forward to in my life. I'm going to try going again. I realized how little I knew about the language and I have a whole year now to prepare," said Dunn.

The twelve students returned to campus this spring, some facing housing problems and difficulty in obtaining the class schedules they wanted. "They said when you get back you're not guaranteed housing and you have no classes," said Dunn. Though most have been able to get the classes they needed during the past eight weeks, some had problems getting back into their rooms that had already been promised to other in-coming students.

"They said when you get back you're not guaranteed housing and you have no classes," said Dunn. Though most have been able to get the classes they needed during the past eight weeks, some had problems getting back into their rooms that had already been promised to other in-coming students.

Israel expelled Jabril Mah­moud Rajabi, Jamal Mohammed Jibara, Bashir Ahmed Al Kheiri and Hussam Abdul Rahman Khader despite a U.S. warning that the action might cause further unrest and violate the Geneva Conventions on the rights of civilians in occupied areas.

A statement from the mili­tary command said the four, who have served prison terms as Palestine Liberation Organ­ization activists, were among the leaders of the in­vestigators and organizers of the "disturbances" in the occupied West Bank.

Others mentioned financial difficulties with shipping their belongings home and then back to school. They also regretted having to cut their vacations short and coming back to school a week earlier than they expected to leave for Israel. Dunn said he had just bought a Hebrew scrabble game and learned the Hebrew alphabet the day before he was told the trip was cancelled.

This was the first Jerusalem program ever cancelled, said Charles, but she expects this foreign study program to reopen in the fall of 1988. Morgan, Burke and Dunn are considering reapplying next year.

"This is the biggest thing I ever looked forward to in my life. I'm going to try going again. I realized how little I knew about the language and I have a whole year now to prepare," said Dunn.
"Type A's' recover from heart trouble

Associated Press

BOSTON - Hard-driven men with Type A personalities are almost twice as likely as less aggressive people to survive heart disease, according to a study that challenges the advice that heart attack victims should slow down and relax.

The research also casts new doubt on the theory that Type A behavior puts people at higher risk of getting heart disease in the first place. That idea has already been questioned by several other researchers in recent years.

"I am coming more to the opinion that Type A behavior may not have much to do with coronary heart disease in the final analysis," said Dr. David Ragland, who directed the latest study.

In the 1960s, a large research project called the Western Collaborative Group Study concluded that men with Type A personalities were twice as likely as their easygoing counterparts, the Type B's, to suffer heart attacks and heart pain called angina.

That study, based on eight years of follow-up, was the first major evidence of a link between Type A behavior and heart trouble. It is still the only study of its kind to find such an association.

According to the theory, Type A's are ambitious, irritable, competitive people, always in a hurry. Type B's are more self-secure and patient and don't let small aggravations bother them.

Accident victim almost recovered from coma, injuries

Associated Press

ELIZABETHTOWN, Ky. - It has been a long road back for Kathy Lynch since she was kid-napped in Indianapolis and critically injured in a fiery car accident that left her in a coma.

"It could have been worse," said Lynch, 25. "I could easily have been paralyzed; I could have been unconscious for three weeks.

"I am coming more to the opinion that Type A behavior may not have much to do with coronary heart disease in the final analysis," said Dr. David Ragland, who directed the latest study.

The Notre Dame cheerleaders get fans psyched up at the Cotton Bowl pre-game pep rally in Dallas. The fans probably could have used some post-game cheering up as well.

Hello from the middle of Europe, at Innsbruck, Austria. Those of us in Notre Dame's Study Program here thought we’d let you all know a little about life at Innsbruck, even if it did take a little prodding from our Director and his superiors before we (I) actually got our (my) act together enough to write.

Greg Scheckler
guest column

Considering that we’re in a German-speaking country, one of our biggest challenges is striving to get used to the language. But actually it’s a lot more fun than I made it sound. There’s nothing quite the same as watching “Raumschiff Enterprise” (Star Trek to us English speakers) or “Bezauberer Jeanine” (I Dream of Jeannie) in German television, or walking into a bar only to realize that everybody there speaks German. Either way you look at it, sign language and nonverbal communication are becoming very important, even when our German is better today than yesterday.

One of the more important aspects this year is, of course, the founding of friendships with Austrians, with friends at classes in the university, to sponsor families, and to correspond. From conversations over dinner to arguments about nuclear politics to the friendly day-to-day “hello’s,” “good-bye’s” and “how are you?”’s, experiencing a new culture provides on interesting situations that create fast friends. Also among the 21 of us here in the Notre Dame Program, we’ve all made close friends within the group—friends that we’ll all gladly take back to Notre Dame, Saint Mary’s and even Marquette next year. We sometimes depend on each other for support, advice and everything in between. Island of English when we got tired of speaking German during the day.

Speaking of depending, much of life here is a matter of survival—by that I mean trying to cook. Stories of exploded soft-boiled eggs, toast burnt on one side and still soft on the other, and trying to cook on hot plates when you have no oven are commonplace, often giving us that necessary daily dose of humor. But then success stories about that first perfect cup of coffee, that first perfect cheese sandwich, that first perfectly cooked chocolate chip cookies, lasagna and spaghetti like Mom makes, and local specialties like Wienernudeln remind us that we, though inept we may be at first, can actually survive on our own. Some of us even remembered Emily’s formulas for converting Fahrenheit to Celsius degrees, and I never thought that Chem I-116 would do anybody’s cooking any good.

Not only do we speak German, make many new friends, and travel all over Austria but we also travel around a lot. So far this year many of us have visited Germany, Greece, Czechoslovakia, Hungary, and Italy, to name a few countries, and we still have more than a few countries to visit. From sleeping on beaches in Sylt, to discovering what a youth hostel really is, to seeing more of the Koblenz train station than the city itself, to meeting really friendly barterers and hotel owners in Greece, to pilfering pieces of the Berlin Wall, travel plays an important role in our lives here.

Perhaps I ought to mention that we actually take classes here at Innsbruck, too. Each of us has at least five classes that are Notre Dame credits taught mostly in German. Many of us also take courses directly through the University of Innsbruck, for transfer credits to Notre Dame.

That is a very brief overview of life in Innsbruck, from the language, the friendships, the survival, the travel and the academic part. I would like, however, to extend a special note to all of you considering study abroad next year, especially those of you thinking about Innsbruck. All of us here now remember the difficulties there are in deciding to go, but now we also know what everybody meant when they said “It’s great! Go for it!” This year has been and will continue to be one of the most amazing years of our lives, and if you study abroad you can make it just as great, giving yourself experiences you could not find anywhere else in this world. And for those of you thinking about coming to Innsbruck, remember that if your soft-boiled eggs explode, you can always tell the Austrians about this wonderful new American specialty that you just happened to cook for them.

Greg Scheckler is a sophomore enrolled in the 8788 Innsbruck Program.

D2 needs to be made safer

Dear Editor:

Student Murdered in D-2 after Parking car

The campus itself, on-campus that is, is a relatively safe area as most would agree. One can freely wander the halls on campus in the night and not have to worry about being robbed, raped, or molested in any manner. We can congratulate the security department for that fact because of the fine job they have done within the confines of campus.

Turning to “off-campus,” however, we see the state of security to be a different story. First, let me define off-campus as I refer to it in this letter: areas outside the confines of north and south quads, namely the parking lots of campus.

It is a matter of survival here. Off-campus is not safe. The lots are dark, under-patrolled—both day and night—and open for anyone to freely enter at any time of day. We have seen many results of this lack of security already in the Security Beat. How long will it be before a student or faculty member returns to Security Beat? How long will it be before a student or faculty member returning to his or her car is robbed, raped, beaten or even murdered? I think at the rate we are going, it is just a matter of time.

“So where is Security,” you ask yourself. Aren’t there a few cars and foot-patrols controlling the area? The answer is yes, but they are busy doing important things like raising money by distributing tickets or using their new toy, the speed gun. Now I’m not one to say that these things aren’t important, but I think they’re missing the point.

These forms of enforcement should be continued, but let’s think about off-campus now, before it is too late.

To sum it all up, I have a short list of the many things we would improve the situation. Put a guard at the entrance to D-2 and get some barbed wire on the fences. Improve the poor lighting. Patrol D-6 and other areas that are too small to warrant a full-time guard or are not used as much at night (off-campus student and faculty parking) with more frequency, though randomly. How do we pay for it? Well at $35 for in-campus cars and $40 for off-campus cars, I think there is plenty of money. The money we spend now on parking just needs to be pulled out the “black hole” it goes into. With a little push from student government and the faculty, the changes can take place in almost no time at all. That’s a result of the inherent beauty of them: they’re simple and easy to implement.

Marc Miller

Quote of the Day

“If you pile up enough tomorrows, you’ll find that you have collected nothing but a lot of empty yesterdays.”

The Music Man
Brown, others unhurt after auto accident

By DENNIS CORRIGAN
Sports Editor

DALLAS - Surprisingly, the hardest hit Irish Heisman Trophy winner Tim Brown took in Dallas didn't occur in the Jan. 2-19 Cotton Bowl loss to Texas A&M. The hardest hit he took was on Dec. 29, 1987.

After attending a Dallas Mavericks game, Brown was returning when he was involved in an automobile accident.

According to Brown, he and a friend, Debbie Young, left the game near the end of the third quarter. He was driving through an intersection when another car ran a red light and struck the 1987 Grand Am that Brown was driving.

"I was driving on Field Street getting ready to cross Main when the auto accident happened," Brown said the following day. "If I hadn't seen the other car it would have hit our car around the door, and that might have been the end of it for me this week.

"I was wearing my seat belt, and it was the first time I had been hit that bad all year, on or off the field."

The driver of the other car was identified as Kristi Coker, a 37-year-old student at Dallas' Woodrow Wilson High, which, ironically, is Brown's alma mater. Brown, who wrote a daily column for the Dallas Morning News, said that when Coker realized who she had hit, she said that she would probably have kicked him off for the remainder of the season. "I still had confidence that we could move the ball.

"I thought the passing game would open up the run a little bit more, but it didn't. We weren't hitting the holes fast enough."

The Notre Dame rushing attack, which gained 223 yards during the regular season, its best average since 1977, turned impossible for the Irish this time. "I hoped to come back, but it was a longshot at that point."

But Andrysiak, who is applying to return to Notre Dame for a fifth season, began practicing with the team just before Christmas and took hits for the first time on Dec. 30. Irish coach Lou Holtz liked what he saw and named Andrysiak to the starting lineup in place of sophomore Tony Rice, who called the signals for most of the year. Holtz said both Rice and Andrysiak would see time, but Rice did not take the field until the fourth quarter. "It felt fine physically," Andrysiak said. "I think I was a bit rusty in some of the decision-making and in reading coverages."

Andrysiak attributed Alex Morris' second-quarter interception in the Cotton Bowl to a touchdown on the game's opening drive, and completed consecutive passes before misfiring. Andrysiak finished with 203 passing yards, connecting on 15-of-25 with one touchdown and one interception.

"I wasn't sure what would happen (after the Pittsburgh game)," Andrysiak said. "I said the game in which everyone wrote him off for the remainder of the season. "I hoped to come back, but it was a longshot at that point.

Crafter starts new trends in egg art
Associated Press

EVANSVILLE, Ind. An ostrich egg is only a shell to Don Ulrich, but to him it is a canvas upon which to turn it into a piece of art. The projects he has hatched so far include a piece commemorating the Statue of Liberty, complete with doors that open to reveal a minia­
ture Lady Liberty inside the egg. Ulrich crafted another of the grapefruit-size eggs for the anniver­
sary of the U.S. Constitu­
tion, and a third has a working rhinestone-studded clock.

Ulrich, a music store owner, piano tuner and former tool and die maker, decorates his pieces elaborately with gems and scroll­
work, and the doors open to
reveal the lighted displays in­side. The eggs are mounted on elegant metal holdings which in turn rest on hand-carved wooden stands.

"It took me over two years to build that first one (the clock)," said Ulrich, whose inspiration to use each shell came from the work of Peter Carl Fabergé, a Russian jeweler and goldsmith. Famous for the Easter eggs he crafted for Czar Alexander III and Nicholas II, he "just started out with a patriotic theme. I knew that the hundredth anniversary of the Statue of Liberty was coming up and the (anniversary of) the Constitution, and I thought it would look good, so I started making eggs." Ulrich, 50, buys the empty shells from another hobbyist, who also gave him tips on how to saw such materials for the inte­
rior lighting, which came from a model railroad supplier. Ulrich has been interested in taping, the art of cutting gems, for years and said others involved in the hobby had also branched into egg crafts. Although Ulrich has not attempted to sell his crea­
tions, he is interested in showing them to a die maker, decorates his pieces

The hardest part was figuring out how to mount an egg in a clock movement in an egg with­
out breaking the egg," he said. "Once I had the clock movement, I knew the parameters I had. You can suspend it or mount it rigidly on the bottom. After a few trials I figured that suspending it was the better of the two choices." One set back happened when Ulrich finished a precision cut on the shell for the clock egg shortly before midnight. Ulrich was care­ful ly cutting a half circle about the size of a large piece of branch when it fell from his hands, chattering on the con­
crete floor of his basement workshop.

"This is my design to say, that was frustrating," he said. "But I just picked up the pieces, set them aside and went to bed. You can't scream and cry when that hap­pens, you just have to go on." Ulrich built a wooden form to match the exact dimensions of the broken section and carefully glued the pieces back together.

There is no substitute for pa­tience in such detail work, even without setbacks, but the rewards are familiar to all hob­byists. "It's relaxing in that you concentrate totally on what you're doing," said Ulrich. "This builds a wooden form to match the exact dimensions of the broken section and carefully glued the pieces back together.

Traditions battle at Cotton Bowl

By PETE GEGEN
Sports Writer

DALLAS - Like the battle on the field, Irish and Aggie fans squared off in the stands in a show of support for their teams.

Because the game was played in Texas, Irish faithful shaking yellow pom-poms were outnumbered by crimson clad fans waving towels in support of the 12th Man. Traditions also clashed, as an A&M pregame ritual involving players and fans ousted Notre Dame's fight song by at least 10 minutes.

Irish fans got a chance to show their spirit in the first quarter as their team took a 10-3 lead. But as the game dragged on, and the Notre Dame fans made themselves "Alrigh, here we go" over and over, the Aggie fans continued to wave towels and cheer on cue.

While the fans were basically segregated in the stands, a few fans decked out in Notre Dame sweatshirts and hats could be spotted sprinkled among the A&M fans. In section three, for example, a sweatered Aggie fan was surrounded by Aggie faithful.

"I knew I was sitting in the A&M bleachers," said Mike Cabit of Plano, Texas. "But that's one thing you have to put up with when you come to the Cotton Bowl."...

Cotton continued from page 16

boom we had three mistakes in a row," said Holtz. "We were driving and had a chance to put, but we were penalized, and we were penalized, and we scored on the next. The next thing that happened was the screen pass that had a fumbler."

"We were to be ahead 17-3 or 18-10," said Cabit. "It didn't take long for this Irish faithful to rub the Aggie fans the wrong way."

"It's going to be pretty sad to see the 12th Man not even show up today," Cabit asserted.

Tim Brown's gonna get waxed as soon as he touches that ball," responded Texas A&M freshman Todd Lathan, who was seated right behind Cabit.

"Take our word," added Tom Moore, another A&M freshman, in his thick Texas drawl, "the 12th Man is gonna stomp him."

There is apparently a special relationship between the Aggie fans and the 12th Man. For the benefit of those who don't understand this tradition, Lathan explained what it takes to be a 12th Man.

"It takes a sixth sense which is called nothing," he said. "And something else called no brains.

"They're crazy!" added his sidekick Moore.

"Like all the A&M fans, Lathan was not intimidated by the Irish football team.

"It's gonna be hard, but A&M gonna stomp 'em.

"Ain't doing nothing about it."

As it turned out, the game did nothing to damage their confidence, and not even Tim Brown could keep them from waving their towels.

Booze and a brat..."

Upset loss to Lafayette tarnishes ND's break action

By RICK RIETBROCK
and BRIAN O'GARA

Assistant Sports Editors

MILWAUKEE - Notre Dame overturned a big road swing last Sat
urday with a laugher over foe
low Great Independent Mar
quette 49-34.

The Irish and Warriors crawled out of the starting blocks, with the Warriors hold
ning a 2-1 after five minutes of play. Notre Dame slowly heated up from the field, but Marquette never did. The Irish put the game away early in building a 36-12 halftime lead.

Marquette hit just five shots in 20 attempts while the Irish connected on 15-of-26 (58 per
cent).

"We wanted to stop their penetration," said Marquette coach Bob Dukiet. "They took the shots we wanted them to, and they hit them.

In the second half, the Irish kept the lead above 20 points until the two-minute mark. Marquette, starting three freshmen, shot 22 percent for the game, prompting the Milôaukee Arena fans to�e the team with boos, something that didn't bother me at all," Dukiet said.

"They've got some good young talent, but it's hard to pull together when the people in the seats give you up," Phelps said. "We've got to keep fighting and it doesn't matter what division the professionals. College athletes don't deserve booing."

David Rivers led the Irish with 17 points and Mark Steven
son added 11, all in the first half. Freshman forward Trevor Powell led Marquette with 10.

Lafayette 83, ND 68

Lafayette, whose appearance on the schedule undoubt
edly drew snickers from Irish fans, shocked the Irish with a sound 15-0 run in the first half. Notre Dame at Allan P. Kirby Field
House Jan. 4.

After the Leopards spotted the Irish a 10-7 lead, Lafayette went on an 11-2 run and never
the Irish a 10-7 lead, Lafayette, D ame at Allan P. Kirby Field

quarter.

while Simmons led LaSalle

with 26.

A 58-54 lead with 3:07 to play, but LaSalle pulled to within one when Rich Terr cangled a 3-
point. The Irish got jumpers from Stevenson and Connor to pull ahead by five with 33 seconds left. LaSalle could not score, other than a layup by Simmons, and the Irish hit six of eight free throws to ice the game.

Stevenson matched a career-
high with 23 points and added
10 rebounds, and Rivers had 22,
while Simmons led LaSalle with
36.

ND 64, St. Bonaventure 49

Notre Dame fought off a
pesky St. Bonaventure club to
claim 64-49 in Decem ber.
The Irish broke away from
19-19 tie by outscoring the Bonnies 13-5 in the last 7:36 of the first half to take a 34-25 halftime edge.

St. Bonaventure would not give up in the second half. With 9:06 remaining in the game, a St. Patrick Allen jumper pulled the Bonnies to within 46-45. Tray Voty and a two-pointer kept the Irish ahead and a Sean Con
nor 3-pointer put the Irish up by six with 6:26 remaining. St. Bonaventure never got closer.

ND 91, St. Joseph's 70

The Irish overcame a flesty St. Joseph's (Ind.) team and a
36-26 first-half deficit to
defeat the Pumas on December 28 at the Joyce ACC.

Senior guard David Rivers led Notre Dame to a 67-54 lead midway through the second half. Rivers and sophomore Scott Paddock, who added a career-high 13 points, both pulled down five rebounds as the Irish controlled the defensive boards and harassed St. Joseph's shooters to keep the Pumas off-guard in the second half.

ND 88, Valparaiso 49

Notre Dame took control of Valpo early and never let up, running away with its fourth win of the season in a Decem ber 19 ACC.

While Valparaiso tried to con
tral the ball to keep the Irish offense from away with the game, Notre Dame controlled the score and the bombs outrebounding the visitors 43-18.

DePaul 73, ND 69

Despite holding a six-point lead with only 90 seconds left in regulation, the Irish fell to DePaul in overtime on Decem ber 12 at the Rosemont Horizon.

The teams traded leads seven times during the game, but Notre Dame held the lead through most of the second half before the Blue Demons rallied to tie the score at the end of regulation. With the Irish ahead 63-57, DePaul scored six straight points thanks to a full-court, trapping defense to tie the game. Then sophomore Mark Robinson had two free throw attempts to put Notre Dame on top but the incoming from the line, missed both to send the game to over

Senior Kevin Edwards scored seven of the Blue Demons' nine points in over
time to give DePaul an early lead. The Irish tied the game at 67 with 2 minutes remaining, but Edwards combined with senior point guard Rob Strickland to put the game away and ice the win for the home team.

Strickland finished with 22 points and nine assists, while Edwards added 17 points to lead the Blue Demons. David Rivers led all scorers with 28 points, playing all 45 minutes of the game.

Notre Dame 91, St. Joseph's 70

The Irish overcame a flesty St. Joseph's (Ind.) team and a 36-26 first-half deficit to
defeat the Pumas on December 28 at the Joyce ACC.

Senior guard David Rivers led Notre Dame to a 67-54 lead midway through the second half. Rivers and sophomore Scott Paddock, who added a career-high 13 points, both pulled down five rebounds as the Irish controlled the defensive boards and harassed St. Joseph's shooters to keep the Pumas off-guard in the second half.

The team s traded leads
seven times during the game, and should start in Saturday's game with DePaul.

Senior center Gary Voice, who sprained his right ankle against Marquette last Saturday, and sophomore guard Joe Fredrick, who is suffering from tendinitis in the knee, did not play in last night's game. Both should be available Saturday.

Sophomore Scott Paddock, filling in for Voice at center
came alive in the second half to score 13 points as the Irish kept Yale from staging a late comeback. Paddock, who did not attempt a shot in the first half, finished 6-of-6 from the field and pulled down a team
high 10 rebounds.

"Paddock played very physi
cal tonight," said Phelps. "I thought he was an enforcer in
side. He's up there dunking the ball. I don't want him shooting layups. Dunk it. You can't lay
up against guys like
(DePaul's Stanley) Brundy."

GRE GMAT NCLEX RN
Irish hockey meets Cadets after four easy wins

By STEVE MEGARGEE
Sports Writer

Having managed four easy wins over vastly inferior competition during the last month, the Notre Dame hockey team enters the hardest part of its schedule this weekend with two road games at Army.

Irish coach Ric Schafer knows the Cadets will provide much stronger opposition than Dayton or Arizona. The Irish whipped Dayton, 13-3 and 11-1, on Dec. 11-12, and tamed the Wildcats, 9-5 and 10-0, on Jan. 8-9. Notre Dame collides with Army on Friday and Saturday night at 7:36 p.m.

"Army's one of the better teams on our schedule," said Schafer. "They're not a powerhouse in the East Coast, but they're respected. They've beaten some good teams."

"We're going to be challenged a whole lot the next four weekends with Army, then North Dakota State, Kent State and Air Force coming in."

The Cadets come into the weekend with a deceiving 5-9-2 record. As a member of the ECAC (Eastern College Athletic Conference), Army regularly faces national powers in conference foes Harvard and Cornell, and have a perfect 4-0 record against non-conference opponents. The Irish have faced Army four times in the last two years, and the Cadets hold a 3-1 advantage.

Notre Dame also will have to adjust to Army's larger ice rink. While the Irish regularly play on the JACC's 200-by-85 dimensions, Army plays its home games on an Olympic-sized 210-by-100 rink at West Point, N.Y.

"Army's probably on a par with Dearborn," said Schafer. Notre Dame has split two games this season with conference rival Michigan-Dearborn, the current leaders of the American Collegiate Hockey Association.

The Irish prepared for this weekend's games by returning from winter break a week early and playing the University of Arizona last weekend. Notre Dame had no trouble winning Arizona and playing the University of Arizona last weekend. Notre Dame had no trouble winning twice against the Wildcats, as the Irish raised their record to 13-2-2.

"We played well, and we were obviously the better team," said Schafer. "We needed a week to get back together and practice and play as a team. To separate and try to pick up where you left off is hard."

In the second game, sophomore goalie Lance Madison helped the Irish record their first shutout in 128 games, a 10-0 rout of the Wildcats.

"We'd set a goal to play sound defensive hockey, and we held them," said Schafer. "We knew we'd score goals, and we didn't want to get careless."

In the first game, another Irish feast, the Wildcats at least managed to hold Notre Dame to under 10 goals. The 9-5 victory was the only time in the last four games that the Irish were held to under 10 goals.

On the weekend before final exams, the Irish had two home games with Dayton. The games proved to be the two easiest tests the Notre Dame hockey players had all week. Notre Dame showed it had no business competing with Dayton's team, currently on club status, as the Irish waxed the Flyers, 13-3 and 11-1. In the 13-3 win, South Bend native and St. Joseph's High School graduate Chris Kleva pulled a hat trick for Notre Dame.

Schafer was particularly impressed with the play of the line that features Matt Hanzel, Brian Montgomery and Tim Kuehl in the last four games.

"They're really clicked and put together some impressive passing plays," said Schafer. "They're really coming on."
Irish face N. Illinois tonight

By THERESA KELLY
Sports Writer

Before tonight's game against Northern Illinois, the last time the Notre Dame women's basketball team had the home court advantage was Dec. 19, when it beat Valparaiso. Since then, the team took to the road over break, winning two of five games and finishing second in the Wildcat Classic.

"We're glad to be home," said Head Coach Muffet McGraw, "real glad to be home."

ND 93, Valpo 60
Way back on Dec. 19, the Irish defense held Valparaiso to a 27-26 clip, while the offense tallied its second highest point total of the season to win 93-60.

Indiana 62, ND 59
The Irish faced the Indiana Hoosiers on Dec. 21. After building up a 39-24 halftime lead, the Hoosiers got theirs together to come from behind and win 62-59. Forward Heidi Bunek scored 16 points and 10 rebounds (9 and 10), as the Irish outscored Miami 44-28 in the second half to earn 83-68 victory.

Finally, the Irish will return home to the Joyce ACC tonight to play Northern Illinois in the first of two home contests. "They're very good," said McGraw. "They played Iowa, the number-one team in the country, and they were down by three with 30 seconds to go. They had a chance to win."

ND 83, Miami 68
The southern trip continued as the Irish faced the Hurricanes of Miami. As usual, Bunek and Botham led the team in scoring (34 and 14 points, respectively) and rebounding (9 and 10), as the Irish outscored Miami 44-28 in the second half to earn 83-68 victory.

Villanova 56, ND 55
The next stop on the Notre Dame tour was the Wildcat Classic in Philadelphia.

"I thought we should have won the Villanova tournament," McGraw said. "We beat Fairfield and we were winning the whole game against Villanova and then we lost by one."

Against Fairfield, Bunek scored 24 points and had 12 rebounds, but that effort was overshadowed by Sandy Botham's performance. The Irish center poured in 26 points and pulled down 17 rebounds, both team highs for the year.

"Sandy and Heidi are both playing well," McGraw said. "They were both on the all-tournament team. Our inside game was really good." The inside game was still good against Villanova, but the Wildcats used a balanced scoring attack to defeat the Irish, 56-55 in the championship game.

"The Wildcats played really well," said McGraw. "They really packed in the zone. We played well, too. We didn't turn the ball over, we took good shots; they just didn't drop. We were down by one, we had the ball with nine seconds left, and we got a good shot, but the ball just rolled off the rim. We did what we wanted to do. We did everything but win."

Virginia 79, ND 59
The Irish road warriors continued on to Charlottesville to take on Virginia, the sixth-ranked team in the country. Bunek and Botham again led Notre Dame in scoring and rebounding, but the Irish could not stop the talented Virginia team, which upped its record to 9-1 with the 79-59 victory.

"They are an excellent team," praised McGraw. "They have five excellent athletes. They're very fast, and they pressed us for forty minutes. We turned the ball over 30 times. Other than that, we played pretty well. We played good defense, and we weren't that unhappy with the game."

OPPORTUNITIES FOR ENGINEERS -
Join BP America at the start of a new era.

Exciting opportunities for career growth are developing at BP America. We are looking for qualified candidates for major divisions of the company: Refining, Transportation, Marketing, and Chemicals.

BP AMERICA was formed recently by the combination of two famous and complementary firms... Standard Oil and BP North America.

BP Standard, founded by John D. Rockefeller in 1870, is recognized as an outstanding refiner and marketer as well as a major holder of petroleum reserves. British Petroleum, one of the most active oil producing companies in the North Sea, the Middle East and Alaska, is known as a great explorer and producer. Now, building on more than 100 years of experience, BP America is preparing for a new era of growth.

We start from a sound base - $24 billion in assets, 43,000 people worldwide, and sales volume that ranks us 13th among American industrial companies. We are expanding activities in both chemical and diversified businesses - chemicals, coal, minerals and precious metals, computer software, structural ceramics, carbon fibers, and more.

We encourage students who are receiving a Bachelor's degree in CHEMICAL, MECHANICAL, CIVIL, or ELECTRICAL ENGINEERING to discuss opportunities with us. We will be interviewing on campus soon - schedule an interview NOW with your placement office. If you are unable to meet with us on campus, send your resume to: University Relations, BP America, P.O. Box 94949, Cleveland, OH 44101-4694.

An Equal Opportunity Employer.

Aggies roll over Notre Dame in Cotton Bowl

**Turnovers doom Irish**

**BY DENNIS CORRIGAN**  
Sports Editor

DALLAS - Notre Dame got its holidays confused. On New Year's Day, the Irish played Santa Claus in turnovers to Texas A&M, leading to four scores, as the Aggies went on to dominate the Irish in the 52nd Cotton Bowl Classic, 35-10.

The Irish were up 10-3 and driving for more with 4:06 left in the first half when the gift-giving began. Notre Dame quarterback Terry Andrysiak, seeing his first action since breaking his collar bone at Pitt Oct. 10, rolled left and threw in the direction of tight end Andy Heck in the back of the end zone. Aggie cornerback Alex Brown made a diving interception, landing only with his feet in bounds.

"It was supposed to be a play-action pass, but we ran it to the wrong side," Andrysiak said. "We were misaligned and just tried to make something happen when we shouldn't have.

"I just dropped back and fired. I should have gone outside or over the top, but he made a great catch.

"Texas A&M responded with a six-play, 80-yard drive to tie Wally Hartley's touchdown, and Notre Dame's first play from scrimmage after the kickoff, the presents to A&M kept coming.

On Notre Dame's first play from scrimmage after the kickoff, Banks had control of the ball, ran a halfback option pass from Darren Lewis to Tony Thompson. Aggies on top 18-0.

Braxton Banks. Banks turned, in complete pass.

"It looks like we were about to be up 17-3, and boom, boom, boom."

Andrysiak claims Irish early spark

Brown involved in auto accident

Fans, traditions square off in the stands

**By MARTY STRASEN**  
Assistant Sports Editor

DALLAS - Throwing in the towel was the last thing on Notre Dame flanker Tim Brown's mind with a Texas A&M Cotton Bowl victory assured on New Year's Day. Recovering his stolen towel was Brown's top priority.

The Heisman Trophy winner shocked more than 73,000 fans and a national television audience when he ended his career by tackling the Aggies' Warren Barhorst after the whistle to stop an attempted theft.

"I think they had it planned," Brown said after the incident. "One guy held me down and the other guy took it. He had no right to take it from me, and I wanted it back."

Barhorst explained that the Aggies' opponents often try to steal their 12th Man towels, and that the attempted theft was just another attempt.

The 12th Man is a kickoff coverage team started by Texas A&M head coach Jackie Sherrill five years ago. The team consists of 12 walk-ons and a kicker, and is chosen to uphold the Aggies' tradition of the student summoned from the stands to wear an injured player's uniform in a 1922 game.

"It wasn't planned," Barhorst said. "I just took it. In all the excitement of tackling a Heisman Trophy winner like Tim Brown, I had a hand on his towel and I took it. I didn't see it."
