House agrees to grant Contra aid package

Associated Press

WASHINGTON - House negotiators reached "agreement in principle" late Tuesday on a $50 million package of humanitarian aid for Nicaragua's Contra rebels and for children injured in that country's civil war.

As part of the deal, Speaker Jim Wright would agree to give "fair" consideration to any future request President Reagan might make for new military aid for the rebels if the peace process should break down, said Rep. David Bonior, D-Mich.

The package was worked out in a negotiating session between Wright and House Minority Leader Robert Michel, R-Ill., and final details were to be approved by both sides at a meeting Wednesday morning.

The Rules Committee late Tuesday approved formal rules for bringing the package to the floor on Wednesday and approval by a bipartisan majority was expected, if no further snags developed.

"I think we have an agreement in principle," said Rep. Dick Cheney, R-Wyo.

The tentative agreement would send about $2.7 million monthly in food, clothing, medicine and shelter to the rebels over the next six months.

Dole bows out before supportive audience

WASHINGTON Republican Bob Dole bowed out before a supportive audience of Senate and House colleagues and offered congratulations to George Bush's challenger for the Republican presidential nomination.

"You come to trust your instincts to tell you when it's over, and in my heart I know the time is now. . . ." said Dole.

"So I return to the Senate as the Republican leader . . . ready to do all I can to elect Republicans in November and doing all I can for our nominee, George Bush."

His withdrawal left only Pat Robertson stubbornly hanging in as Bush's challenger for the Republican presidential nomination. But Robertson has signaled he is a candidate in name only and acknowledged Bush's victory.

Dole made his exit before an audience jammed into the Senate Caucus Room, a historic room where John F. Kennedy launched his presidential bid and site of the Senate Watergate hearings 15 years ago and the Iran-Contra hearings a year ago.

Dole's strategy for winning the White House was based primarily on winning the first two contests, and when he fell short in New Hampshire his candidacy collapsed.

Dole couldn't turn the race around in Illinois and was effectively out of the running.

Contra aid

The tentative agreement would send about $2.7 million monthly in food, clothing, medicine and shelter to the rebels over the next six months. Communications gear and other expenses would push the total six-month rebel aid package to $30 million, said Bonior.

"The package was worked out in a negotiating session between Wright and House Minority Leader Robert Michel, R-Ill., and final details were to be approved by both sides at a meeting Wednesday morning.

"I think we have an agreement in principle," said Rep. Dick Cheney, R-Wyo.

The tentative agreement would send about $2.7 million monthly in food, clothing, medicine and shelter to the rebels over the next six months.

"So I return to the Senate as the Republican leader . . . ready to do all I can to elect Republicans in November and doing all I can for our nominee, George Bush."

Mestrovic's Masterpiece

Among the many works of art in the Sacred Heart Church stands Mestrovic's statue "The Pieta" - a vivid reminder of the very first Holy Week.

Lobund symposium gives new information on aging

By ERIC M. BERGAMO

Researchers may be no closer to the answer of what causes aging after a three-day symposium on diet and aging, but have been provided a wealth of information that will help future experiments, participants in the conference said Tuesday.

"Even though we don't know the absolute answers yet, what we have done here is exchange an awful lot of information. . . ." said Toni Kingsley, assistant professor of the South Bend Center for Medical Education and Lobund Lab.

"The conference reported the findings of the effect of reduced caloric intake in rats studied at Notre Dame's Lobund Laboratory. Preliminary results found that rats on the reduced diet lived longer and had fewer diseases associated with aging. . . .

"If that substance (glutathione) decreases in amount, the organism will be at risk. . . ." said Toni Kingsley, assistant professor of the South Bend Center for Medical Education and Lobund Lab.

"The conference reported the findings of the effect of reduced caloric intake in rats studied at Notre Dame's Lobund Laboratory. Preliminary results found that rats on the reduced diet lived longer and had fewer diseases associated with aging.

Studies show that diet restriction is one factor to a longer lifespan, Dr. Calvin Lang, a biochemist at the University of Louisville, said.

The Lobund experiment has also found a link between restricted diet and the chemical glutathione, a substance found in all body cells that repairs cells and tissue, Lang added.

Rats on the restricted diet had higher levels of the chemical than those not on the diet, he said.

In another study, he explained, amounts of glutathione were injected into old mosquitoes. The results found the mosquitoes lived longer and resisted disease more, he said.

"If that substance (glutathione) decreases in amount, the organism will be at risk. . . . ."
President Reagan plans to nominate Randall Rader, an aide to Sen. Orrin Hatch, R-Utah, as a judge of the U.S. Claims Court, the White House announced Tuesday. If confirmed by the Senate, Rader will succeed Robert Seto.

Since 1987, Rader has been chief counsel and staff director for the minority side of the Senate Judiciary subcommittee on patents, copyrights, and trademarks, and counsel to Hatch.

HPC unanimously accepts changes

By DAN MURPHY

A new constitution for the undergraduate student body proposed by the Student Senate received unanimous acceptance from the Hall President's Council at last night's HPC meeting.

"From my understanding the changes all look to be good changes," said Grace Hall president Tom Doyle, "mostly they are cosmetic and it just sort of consolidates things under one name."

Recapping Student Senate news, HPC Co-Chairman Tim Salmon told the HPC about the senate's decision to call for total University divestment from South Africa. The senate passed the resolution Monday.

A proposal by the Anti-Apartheid Network asking senate support for a Coca-Cola products boycott was "shut down" by the senate, said Salmon.

In other news, HPC Co-Chairman Bob Daley reminded the hall presidents to submit applications for the Sowder Award. The award is annually bestowed upon a dorm based on "what it has done to improve itself both in the eyes of the community, service wise and socially," said Daley.

The HPC will also present a Rector Award to a deserving rector chosen from written nominations submitted by the hall presidents. An HPC committee will select the winners, and their decisions "should be based totally on merit," said Daley.

Many newly-elected hall presidents attended last night's meeting and will officially assume the duties of hall president on April 1.

Yale professor speaks on Ukrainian church

By PATRICK O'CONNOR

"A Church Between East and West: The Millennium of the Ukrainian Experiment" was the topic of a lecture by Yale Professor Jaroslav Pelikan, Tuesday at the Hesburgh Memorial Library.

After a thousand years of Christianity in Ukraine, the faithful there and throughout the world celebrate the success of the "Ukrainian experiment" despite its turbulent history of oppressions and being split between east and west, said Pelikan.

Since the incipience of Christianity in Ukraine (then Kievan Rus) in 988, the church has been threatened numerous times. Most recently, it was declared illegal by the Soviets in 1946 because it hindered the Russification of the territory.

In addition to the Soviet oppression, "the problem of being eastern in our identity but united with the west," poses one of the greatest threats to continuity of the Ukrainian church today, said Pelikan.

The Ukrainian Catholic Church is part of the Roman Catholic church and has about 250,000 members in the United States, said Reverend Peter Galadza of the St. Michael's Ukrainian Byzantine Catholic church in Mishawaka.

While "the faiths are identical, the expression of the faiths is different," said Galadza. The Ukrainian rite is done in the eastern Byzantine liturgy as opposed to the Roman liturgy, he said.

Furthermore, Galadza, who is married, stressed that in the Ukrainian Church, "celibacy is optional." These circumstances, he said, are the consistent sources of unrest for Ukrainian Catholics in the Western Hemisphere because of the tendency of western religious devotional practices to overwhelm those indigenous to the eastern church.

ATTENTION JUNIORS - 1988 Sr. Class Trip

Your first vote determined an 8 day trip and these are our final options. Along with a destination we also need an estimate of the number of seniors planning to attend. Please read and return by Thursday, April 7.

CARNIVALE CRUISE Mon, October 17-23 (Sun.), 1988

$684 per person Quad occupancy
Monday Miami
Tuesday Freeport
Wednesday Nassau
Thursday Fun Day at Sea
Friday Miami
Fri-Sun Miami Fontainebleau Hilton
* 8 meals per day included on cruise Monday through Friday
* Special Events: Captain's Party, Welcome Aboard Party, Gala Captain's Dinner

NASSAU Sheraton British Colonial
$498 per person Quad occupancy
Sun, October 16-23 (Sun.), 1988
*Lush Tropical 8 acre ocean front resort, including pool, lighted tennis courts, restaurants, and lounge.

I would only go on Nassau trip
I would only go on Carnivale Cruise
I would go on either; no preference

MUST BE RETURNED BY APRIL 7 AT 5 PM

Return to Student Activities Office at 315 LaFortune or 103 Haggar.
Two top Meese aides quit as legal problems continue

Associated Press

WASHINGTON. In a move that reportedly shocked Attorney General Edwin Meese III, the Justice Department's No. 2 official and the head of the department's criminal division abruptly resigned Tuesday amid a nearly year-old criminal investigation of Meese.

Deputy Attorney General Arnold Burns said in a letter to President Reagan that, "Unfortunately, I have regretfully informed the President of a dilemma which I face." No reasons were given for his decision. Burns had been with the Justice Department for 28 years.

William Weld, who as an assistant attorney general oversees all federal criminal investigations, resigned effective at the close of the business day Tuesday, despite a personal plea from other department officials that he remain on for several weeks.

"Two of Burns' aides and two of Weld's aides also quit simultaneouly," an unnamed department source characterized Meese's continuing legal problems as "everything to do with" why the two men quit, said a department source familiar with the reasons for the resignations who spoke on condition of anonymity.

The unexpected resignations were the result of the fact that "major things aren't getting done at the Justice Department, nothing's moving because Meese is under this cloud," said another informed department source.

Meese first learned the two would step down when Burns and Weld walked into the attorney general's office at 8 a.m. Tuesday and informed him of the decision.

The two men conveyed to Meese the sentiment that "it's nothing against you personally, Ed," but "we want to go home," said one department source familiar with the discussion. Several department sources characterized Meese as "absolutely shocked" by the decision.

Meese's chief spokesman, Terry Eastland, said the attorney general "expressed appreciation for the job these two men have done" and "wished them well in their future endeavors." Both had served in their current jobs since Oct. 17, 1986.

May flowers

The recent spring rains have coaxed the flowers out side Farley Hall from hibernation before their May deadline.

Israelis open fire, wound eight Arabs

Associated Press

RAMALLAH, occupied West Bank - Israel's army isolated the occupied territories Tuesday, but Palestinians threw gasoline bombs at patrolling soldiers and the Israelis opened fire and wounded eight of the demonstrators.

The unprecedented crackdown down on the 1.5 million Arabs in the occupied West Bank and Gaza Strip was aimed at halting four months of unrest and at preventing mass demonstrations by Palestinians on Wednesday's 12th anniversary of Land Day, when Israeli soldiers killed six Arabs protesting land confiscation.

Foreign relief workers were barred from entering the occupied lands. Thousands of police were mobilized Tuesday evening to enforce curfews in Arab towns in Israel.

Arabs reported that demonstrators took to the streets in some areas and that Israeli troops fired at the curfew violators. The eight Arabs were wounded in the village of Zaita, 40 miles northwest of Jerusalem, the army and the Palestine Press Service reported.

Palestinians in the territories threw rocks and gasoline bombs. Among the protesters reported wounded was a 15-year-old girl.

In Ramallah, small children tossed rocks at each other in the streets. They called the geographical incidents "Jews and Arabs." Hundreds of protesters have been wounded since riots began Dec. 8 in the West Bank and Gaza, which Israel captured from Jordan and Egypt in the 1967 Middle East War. The death toll stands at 119 Palestinians and one Israeli soldier, according to U.N. figures.

Defense Minister Yitzhak Rabin and Lt. Gen. Dan Shomron, Israel's military chief of staff, threatened for the first time Tuesday to close the territories for an extended period.

"For now, the decision to close the areas is for three days," Rabin said on Israeli radio. "But I've always said we have to adjust our measures to confront every eventuality." The decision to close the occupied lands is intended to quell the violence by imposing collective punishment on Palestinians and to keep out journalists, whose presence the Israeli army says help fuel the rebellion.

Particularly harsh restrictions have been put on the Gaza Strip. The rebellion began there and the 6-mile-long Mediterranean coastal area is easier to isolate.

"I compared Paralegal programs and chose Roosevelt"
Panama unfazed by violence

Associated Press

WASHINGTON President Reagan's chief spokesman expressed outrage today at violence against anti-government marchers in Panama and said: "There are limits to our patience."

While restating that it has been U.S. policy not to interfere militarily, spokesman Martin Fitzwater also said: "It has always been a principle that we will protect American citizens as best we can."

"We are all angry at this latest demonstration, at people being beaten and threatened," Fitzwater said.

"I just want to express the outrage of all of us about this incident," Fitzwater said. He said the regime of Panama's strongman, Manuel Antonio Noriega, "is showing its true colors. It is desperate and afraid of its own people and the free press."

"The people of Panama as well as the leaders arrested yesterday have demonstrated their determination to take on the Noriega regime, despite these heavy-handed efforts at intimidation," Fitzwater said.

"We continue to consider options for dealing with the problem," he said.

Swaggart to be rehabilitated with church supervision

Springfield, Mo. - People approved by the church would supervise Swaggart's rehabilitation, the Rev. G. Raymond Carlson, general superintendent of the church, said at a news conference. He provided no other details of the sanctions.

The rehabilitation period would begin when Swaggart agreed to the terms in writing.

Carlson said he had notified Swaggart of the decision.

"I thanked me," Carlson said. "He expressed thanks, and I had prayer with him over the telephone."

Not a pretty site

The future front yard of the new residence halls looks more like a toxic waste dump than home for incoming students. Spring showers have turned the area into a giant puddle suitable for Antioch mud volleyball.

Humor no joke, national meeting investigates the logic of laughs

Associated Press

INDIANAPOLIS The Seventh National Conference On Humor is no joke, Victor Raskin, a Purdue University professor coordinating this weekend's activities, said Tuesday.

He concedes it may be more academic than knee-slappping. "To tell you the truth, it may be excruciatingly boring," Raskin said.

Raskin said in a recent university news release, "In the last decade, humor has been increasingly recognized as an essential and universal human facility and as such, has become the subject of high-powered and widely interdisciplinary research."

The conferences, Friday through Sunday on Purdue's West Lafayette campus, will be about 80 percent academic, Raskin said. The last six such conferences were held at Arizona State University - always on April Fool's Day. "During the breaks, there may be a lot of laughter," says Raskin, a professor of English. "Then on Sunday night, there is a public joke-telling contest. They can tell jokes, juggle, anything to elicit laughter. The winner gets a purse of maybe $60 or something."

"But research-wise, the conference is pretty high-powered. "Psychologists want to know why we appreciate humor," Raskin said. "Sociologists are interested in humor's role in society. Anthropologists want to know why what is funny to one society is not funny to another."

Academics from colleges and universities nationwide will attend, said Raskin, a native of the Soviet Union who has been at Purdue for 10 years. "Humor as a complex human phenomenon has been very poorly explored both academically and socially," he said. Shaun Hughes, an associate professor of English, is helping Raskin coordinate.

U.S., Soviet doctors hold cancer summit

Associated Press

BETHESDA, Md. Soviet doctors participating in an international teleconference said Tuesday they routinely conceal the truth from patients diagnosed as having cancer and they questioned the American practice of fully informing patients of a tumorous condition.

"It's hardly a good idea to tell a patient directly that he has a cancer," said Dr. Nikolai Napalkov, president of the U.S.S.R. Oncological Society and a leading cancer researcher in the Soviet Union.

"Only in rare cases, when the patient refuses treatment, does the doctor have the obligation to tell the patient."

American doctors taking part in the conference strongly disagreed.

"The sense of trust that exists between a doctor and patient is very important," said Dr. Steven Rosenberg, chief of surgery at the National Cancer Institute. "It's impossible for me to imagine giving quality care without telling the patient the full story."

The exchange came during a two-hour conference which used a satellite to link researchers at the National Institutes of Health near Washington with Soviet experts at a studio in Moscow.

The conference, called "The Cancer Summit," included pre-recorded comments from President and Mrs. Reagan, both of whom have been treated for cancer, and the reading of a statement by Soviet General Secretary Mikhail S. Gorbachev.

Mrs. Reagan, who has undergone surgery for breast cancer, said that "cancer is bigger than any one country; it is a problem of all mankind."

The first lady said that she had "always thought cancer would strike someone else, another family." But, she said, both she and her husband developed cancers that were surgically removed.

FOREIGN GRADUATE STUDENTS

OPPORTUNITIES TO EARN EXTRA INCOME

American Companies need your skills and know-how in dealing with foreign marketing strategies, import/export regulations, etc.

Our clients have full and part-time consulting positions for University graduates with foreign background.

The Observer / Rob Faganich

Twelve of the brightest minds in the country had the same idea last summer.
The letter was in response to an earlier letter which objected to Ronald Reagan connecting himself with Notre Dame just because he portrayed George Gipp in "Knute Rockne: All-American." I had already obtained my ticket to see the president regardless of the earlier letter.

The author expressed his way was the way that the resposnibiliter letter justified Reagan's appearance. The author claimed that the writer of the previous letter had room to talk about excluding Reagan from the Notre Dame tradition, because the University's tradition was built by men, not women.

The author also suggested that Notre Dame men displayed outstanding generosity by allowing women into that tradition. His initial response to this letter is not fit to print, but after I set it aside, I realized that his attitude, however immature, might be shared by some Notre Dame men.

That fact is evident if one tries studying on the tenth floor of the library. A quick inspection of the carrels will reveal an abundance of obscene complaints about Notre Dame women, screaming girls in penants, and a few girls who are sometimes above the third grade level. Earlier this semester, another Notre Dame male ran a series of personal ads explaining: "Why beer is better than women."

Robyn Simmons guest column

Dear Editor:

I am addressing this letter to the Observer, I came across a letter to the

Sports News Editor
Michael Moran

Dear Editor,

On Friday afternoon, I received a call from a gentleman who was offended by one of the bookstore basketball team names. It is not the intention of Bookstore basketball to publish offensive names in the schedule. Using names is only an attempt to add in
text and fun to the tournament. Representives from the Office of Student Activities and I, in coordination with the SUB Steering Committee, sat down and did our best to eliminate any names which we thought were poten
tially offensive. I would like to thank those people who were understanding in giving new names. I would also like to formally apologize to those people who were offended by any of the remaining names. We did our very best to be sensitive to all individuals and ideas.

Thank you, and happy hooping.

Mike Manning
Bookstore Basketball XVII Commissioner

Coke boycott produces results

Dear Editor:

The national boycott of Coca-Cola products has been joined by many stu
dents, staff and faculty at Notre Dame.

Dear Editor:

The boycott of Coke is not an end in itself, it is merely a means for express
ing distaste with apartheid and with the persistence with which Coca-Cola and its subsidiaries continue to do business with the apartheid regime in South Africa. A boycott requires participation and personal investment; it is not an entity without its human component. Thus, or should we say, a boycott only works if it isn’t even been tried? Lynne Woehrle

Quote of the Day

"The salvation of the world is in man’s suffering.”

William Faulkner
There is no tiger in the mountains, the monkey will be king.

There are several new faces on the album. The addition of a whole horn section on several songs is a departure from the band's usual sound. The band has also returned to using a large horn section, as they did on Remain In Light. The variety of lyrical ideas and musical styles found in this album explores the theme of the monkey in mankind, and the band expands their earlier polyrhythmic beats they innovated in 1978 with Brian Eno on More Stories About Buildings And Food. They also return to using a large group of musicians as they did on Remain In Light.

The Heads journeyed to Paris to record this album and incorporated the local talent there. The result? A collection of songs that defy labeling. All the previous styles of the band show up but are taken a step beyond. Most notably, the Heads return to the African exposition of the monkey in mankind, and the band expands their earlierafd.

Another fascination of Byrne's is the junk of pop culture which he explored in the album and movie True Stories. He indulges again in "(Nothing But) Flowers" where a man is returned to what most would consider an idyllic state of nature. Yet he misses the Pizza Hut, Dairy Queens, cherry pies and chocolate chip cookies. The ironies and the catchy melody definitely make this song my favorite cut on the album.

"Blind" further expresses how unharm onious our lives are. It tells of the selfish instincts that often rule people. "He was shot down in the night! People ride by, but his body's still alive...how will we know the hell have we become?"

Returning to a theme expressed in "Don't Worry About the Government" on the 1977 album, Byrne again tells of his fear of government control in "Democratic Circus." He compares politics to a big top circus where flags and microphones cover our eyes while sideshows of rhetoric take us on ferris wheel rides like little children.

Another one of my favorites is "Mommy Daddy You And I." It's a song that explores the constant movement of our society is destroying everybody's roots. The message, however, is rather disturbing.

Byrne sings about a family of migrants workers heading to the chilly north. The move is tearing the family apart as evidenced by one of the boys: "He's speaking English now/And he's smoothing down deep inside." This song is very reminiscent of the Little Creatures album.

"Totally True" continues the monkey theme with, "Living in the trees/The birdsie and the bees/Cause I'm a nature boy/Locked up inside." Byrne seems fascinated with this monkey of man's nature that is always present and waiting to rule-if the tiger of intellect isn't in the mountains.

Is April the cruelest month?

**A poem by W.B. Yeats**

April is the cruellest month, breeding Lulu out of the dead land, missing Memory and desire. Joys of one day, spring rain. Do you think this is to be believed? This is a bitter joke. A little jest of which I was the only, the very last, the only one to laugh. Just the worst time of the year, as April so well wrote it. For a journey, and such a long journey! The ways deep and the nights are sharp. The very dead of winter.

**Father Robert Griffin**

Letters to a Lonely God

The dead of winter is an insult when you've half died, in need of sleep that is like a burial undisturbed by restlessness, trying to turn itself to a resurrection. Emily Dickinson complained of the "certain Saint of Light, Winter afternoons—that oppresses, like the Heft Of Snow."

Thus, the stage is set for a conclusion to a world that has been built ad nauseam. It is seen as a power-hungry psycho who has about as much intelligence as a pet rock. Third, college athletics are portrayed as pill-popping, sex-starved egomaniacs who also have as much intelligence as the aforementioned rock. Finally, women are given even worse treatment, as evidenced by a cheerleader named "Julicy" who, when asked to distract the opposing team by taking her underwear off, instead says "Sure Johnny, Anything for you." It also seems that the production staff tried to help its cause by presenting cameo roles to the likes of Jim McGowan, Jim McMahon and Adidas. What ceases to amaze me is that it took three men, Steve Zacharias, Jeff Bush, and David Obst to write a movie that has such classic dialogue as a mother asking "What about your education, Johnny?" To which Johnny replies "Ma, can we just put this stuff on hold?" Anthony Michael Hall should have put this movie on hold because "Johnny Be Good" is terribly bad.

**Letters to a Lonely God**

The dead of winter is an insult when you've half died, in need of sleep that is like a burial undisturbed by restlessness, trying to turn itself to a resurrection. Emily Dickinson complained of the "certain Saint of Light, Winter afternoons—that oppresses, like the Heft Of Snow."

Thus, the stage is set for a conclusion to a world that has been built ad nauseam. It is seen as a power-hungry psycho who has about as much intelligence as a pet rock. Third, college athletics are portrayed as pill-popping, sex-starved egomaniacs who also have as much intelligence as the aforementioned rock. Finally, women are given even worse treatment, as evidenced by a cheerleader named "Julicy" who, when asked to distract the opposing team by taking her underwear off, instead says "Sure Johnny, Anything for you." It also seems that the production staff tried to help its cause by presenting cameo roles to the likes of Jim McGowan, Jim McMahon and Adidas. What ceases to amaze me is that it took three men, Steve Zacharias, Jeff Bush, and David Obst to write a movie that has such classic dialogue as a mother asking "What about your education, Johnny?" To which Johnny replies "Ma, can we just put this stuff on hold?" Anthony Michael Hall should have put this movie on hold because "Johnny Be Good" is terribly bad.

**Letters to a Lonely God**

Manning leads Jayhawks, looks to become star

ASSOCIATED PRESS

KANSAS CITY, Mo. - The kid was a world away from a local high school, a remarkably quick and well-coordinated for his age. At 10, he overcame even the occasional county youngster on the playground and was getting, naturally, a rather rare opportunity of himself.

That's when Darnelle Manning stepped in.

"Danny," she said, "the world does not revolve around you. You're just part of a team.

The kid listened to his mom. It was a philosophy that was learned at the Manning, household, not just preached. It became a part of a fabric of self-esteem and personality.

Tuesday afternoon, Darnelle Manning hosted the Eastman Kodak trophy as college basketball player of the year. As this latest award was given to the Big Eight's all-timing scorer, leaders, speakers and experts praised his athletic ability and unselfish attitude on the court, and Darnelle Manning stood nearby wearing precisely a princess gown.

As Kansas prepares to meet rival Saturday in the semifinals of the NCAA tournament, Manning's second Final Four appearance in points, her 50-year-old career at Kansas will reveal same unselfish attitude figures to be one of the best things going for the Jayhawks.

"Danny Manning makes others better players," said retired Kansas State Coach Jack Krichel, who played against Manning.

"He exudes the 90th Final Four as the seventh all-time leading scorer in NCAA appearance in points. He's scored in double figures in 92 straight games. In leading his injury-weakened team to this improbable plateau, he's averaging 30.8 points and seven rebounds a game.

His list of achievements and accolades has been a constant once on and on. But the lessons he learned from every younger have taken as a youngster have taken as a young man.

Many experts predict Manning will be the first player cho-

ND baseball faces Sox on road trip

By THERESA KELLY
Assistant Sports Editor

The Notre Dame baseball team continues its breakneck pace over the Easter weekend, playing eight games in seven days, starting an exhibition game on Sunday against the Chicago White Sox in Comiskey Park.

The other seven games consist of a doubleheader at Bowling Green and home meetings with Northeastern Illinois, Ball State, and four big games against the Dayton Flyers.

The two weekend series tomorrow and Friday against the Flyers will mark the return of Irish baseball to the Midwestern Collegiate Conference after a one-year hiatus.

"It's a tougher conference than people realize," said Irish head coach Pat Murphy. "Dayton, Xavier, Detroit...they're all tough. We've definitely been in the tougher of the two divisions."

The MCC is split into two divisions. Notre Dame will play in the Northern Division with Dayton, Xavier, and Detroit, while the Southern Division consists of Saint Louis, Evansville and Butler.

If the Irish are one of the top two teams in the Northern Division, they will play in the MCC tournament, the winner of which receives an automatic bid to the NCAA Tournament.

The game at Comiskey Park is closed to the public. The Irish and the Sox will face their own pitchers and the opposing team will be in a field.

The Irish are on a roll, having won four straight and six of their last seven contests to up their season record to 12-11.

"We're pleased right now, to an extent," Murphy said. "We still have a long way to go. We've got to strive for consistency."

"It's a tremendous selection of games. There's pressure. We've got to let that go, to them. They have to keep up the good work all around." Murphy said.

Junior pitcher Erik Madsen leads the staff with a 5-1 record, including Sunday's shutout of Chicago State. On the offensive side, sophomore Dan Peltier leads the Irish through 23 games with a .371 average. Pat Pesavento is batting .359 and leads the team in runs and hits.

Junior pitcher Erik Madsen leads the staff with a 5-1 record, including Sunday's shutout of Chicago State. On the offensive side, sophomore Dan Peltier leads the Irish through 23 games with a .371 average. Pat Pesavento is batting .359 and leads the team in runs and hits.

"The pitching has been holding up," Murphy said. "The pitchers have been winning games for us of late, but we can't expect that kind of performance of the same guys all the time. We are going to have to rely on younger people to help us."

Junior pitcher Erik Madsen leads the staff with a 5-1 record, including Sunday's shutout of Chicago State. On the offensive side, sophomore Dan Peltier leads the Irish through 23 games with a .371 average. Pat Pesavento is batting .359 and leads the team in runs and hits.

"The Irish are back, at least for now, to winning ways."

Syracuse, Navy plan to challenge ND track

By MARK O'SULLIVAN
Sports Writer

Coach Joe Plane's Notre Dame track team will surface at the U.S. Naval Academy in Annapolis, Md., Easter weekend in a meet-talent meet against a heavily-armed Navy squad and Big East beast Syracuse.

"Navy is excellent, with a million guys on their team," piped a pumped-up Plane. "Navy is very tough, and Syracuse is very tough, with a great confidence," mentioned Plane. "They have to keep up the good work all around."

We've got to strive for consistency."

Fencing to be in the spotlight at Notre Dame

ND sends 2 fencers to Juniors

By SCOTT BRUTOCOA Sports Writer

Notre Dame will be sending two fencers to the 1988 Junior World Fencing Championships, Anne Barreda and Leszek Nowosielski. Anne Barreda, a sophomore ranked as the number three woman fencer in the United States, is actually seeded second in the Junior Worlds. Nowosielski, a freshman, is ranked fourth in the nation in men's saber. Both earned those rankings last week at the NCAA championships, and both have qualified to compete in the Junior Worlds.

"I'm going for the experience and to do the best I can," said Barreda. "It's going to be a new experience for me because I haven't fenced people outside of the United States. I'm keeping in mind that anyone can be beaten at a given time. I'm really excited about it." Barreda should fence well at the tournament, as her number two seeding will attest.

"Anne is right now at the top of her game," said men's head coach Mike DeCicco. "But now I realize that these fencers are beatable." Nowosielski, however, injured his back in New York right before the NCAAs, and his prospective performance in the Junior Worlds has come into question due to this injury.

"Nowosielski is scheduled to compete on Friday morning at 8 a.m. and Barreda's opening round is slated for Saturday morning at 8 a.m. at the JACC." This is Nowosielski's fourth Junior World Championships. His best finish to date has been 26th in 1985. "In the past I was working to get out of the first round," said Nowosielski. "But now I understand that the Sears are beating me."

A Spectator's Guide to Fencing

Foil

In foil touches are scored with the point of the blade and must land within the torso of the body (colored area on drawing). The fencer's valid target area is covered with a metallic threaded vest. When an opponent's blade hits the vest, the depressable tip completes an electrical circuit which sets off a light and a buzzer on a scoring machine. A colored light signifies a valid hit, and a white light signifies an off-target hit. Touches are registered by means of electrical scoring equipment (as in foil). There is no "right of way" in epee, he who hits first scores a touch and if both hit at the same time both score a touch. All bouts in all weapons go until a fencer scores five touches or time is called. In epee if both fencers are tied when time is called, they both lose, however, in foil and saber the next touch wins.

Source: Junior World Fencing program

Sabre

Sabre fencing allows touches to be scored with cutting motions as well as with the point of the blade. The target area is the entire body above the bend of the hips. There is no electrical scoring in sabre fencing, therefore a jury composed of the director and four side judges is used. If any of the judges see a hit they raise their hand, and the bout is halted. The director then analyzes the actions according to the "right of way" rules and the judges are polled (each judge has one vote and the director has one and a half votes).

Epee

The epee is a descendant of the dueling sword. In epee touches are scored only with the point of the blade, and the entire body is the valid target area. Touches are registered by means of electrical scoring equipment (as in foil). There is no "right of way" in epee, he who hits first scores a touch and if both hit at the same time both score a touch. All bouts in all weapons go until a fencer scores five touches or time is called. In epee if both fencers are tied when time is called, they both lose, however, in foil and saber the next touch wins.

Sox may get dome

Associated Press

ST. PETERSBURG, Fla. A Florida Suncoast Dome contractor has been asked to draw up contingency plans to accelerate construction of the baseball stadium the Chicago White Sox are considering as a future home.

Rick Dodge, the assistant city manager involved in the effort to bring the American League team to Florida, has confirmed that officials are eyeing an April 1989 opening that would replace the scheduled fall 1989 completion date. Dodge, however, refused to answer questions about the White Sox, whose owners are seeking a new facility in Chicago but have been frustrated by a lack of progress toward a replacement for aging Comiskey Park.

Ziggy Hardage Associates, the consultant supervising the Florida Suncoast Dome project, is studying the feasibility and cost of finishing the 43,000-seat stadium early.

Kelly/Getting in the Spotlight at Notre Dame

Four fencers have qualified to compete in the 1988 Junior World Championships, the highest level of competition for youth fencers. Notre Dame men's head coach Mike DeCicco is a former Olympic fencer who has four fencers who have qualified.

From left, fencing seniors Robyn Hitchcock and The Egyptians, junior Chris Donnelly and freshman Anne Barreda are on the U.S. junior fencing team. Nowosielski and Barreda will compete in the Junior Worlds this week in Florida. Hitchcock and The Egyptians are competing at the Junior Nationals this week in New York.
of top AP freshmen

Associated Press

Temple’s Mark Macon, who led his class in scoring, and Jay Edwards of Indiana, who rallied the Hoosiers to a strong Big Ten finish, headed The AP all-Freshmen Team announced Tuesday.

Top rebounder Kenny Miller of Loyola of Chicago, Livingston Chatman of Florida and Dennis Scott of Georgia Tech were also named to the team which was selected by a nationwide panel of sportswriters and broadcasters.

Macon finished the season with a team-leading 20.6 scoring average while grabbing 5.7 rebounds and handing out 2.9 assists per game as the Owls achieved their first No. 1 ranking.

“Without question he is one of the most consistent ball players I’ve ever been associated with,” Temple Coach John Chaney said Tuesday. “What he did for Temple was raise the level of excellence here as no one had ever done as a freshman both on and off the court.”

Chaney said Macon’s huge contribution to the Owls’ success wasn’t limited to what happened during games.

“We knew that he had a chance to be a great player in his first year. He had already shown that,” Chaney said. “But it was his overall character, on and off the court, that lifted us to a level never reached before in the history of the university.”

Edwards, who was third in Kansas State Arizona Kansas

USA Today

The Hoosiers were 1-4 in conference play when Coach Bob Knight inserted Edwards in the starting lineup and they rallied to finish with an 11-7 Big Ten record.

Edwards finished with an overall scoring average of 15.6 and had a high game of 36 in a victory over Minnesota.

“It’s not just Jay’s scoring,” Knight said. “He’s an excellent passer and may be our best defensive player.”

Miller, a 6-foot-9, 255-pounder, is the first freshman to ever lead the nation in rebounding as he grabbed 13.6 per game.

Miller, who averaged 14.7 points per game also set a school record for field goal percentage, .59, which is easily explained by his 59 dunks in 29 games.

“What makes Kenny such an excellent rebounder is that he’s an explosive jumper,” Loyola Coach Gene Sullivan said Tuesday. “He got 26 and 22 his first two games in an unbelievable start. He knew no freshman had ever led the nation so he gave it an extra effort to get them at the end of the season.”

Chatman, 6-8 and 235, averaged 12.6 points and 6.4 rebounds, finishing just behind 7-2 Dwayne Schintzius who led the team at 6.5.

Scott did everything for Georgia Tech this season. The 6-4 and averaged 15.5 points, 5.0 rebounds and 3.7 assists per game.

He made 96 of 206 3-point attempts, setting Atlantic Coast Conference marks for number made per game and accuracy as well as setting a conference record for assists by a freshman.

Manning.

The rest of the day was marked by an occasional close game and several blowouts characteristic of the early-round weeding-out process of Bookstore Basketball. In other games: Possible Skank snuffed out The Young Fresh Fellows, 21-7; Gimmie Some Jazz, Yeah, Some Jazz, Man danced all over 4 Handsome Dudes and an Ugly Slob, 21-13; Frankie Valley and the Four Seasons spiked Punt, Pass, and Kick, 21-19; Some teams proved poor predictors of their own abilities as We’re Pathetic So You Better Not Lose humiliated at least one opponent, disposing of Stone Pony, Steve Clysdale, 21-15; and You Got a Bye trounced Solid Sfrridation, 21-5.

It was canine combat as Divot by the Steering Committee pounded Lucky Dog, Crunchy, Meaty, 21-4; Malicious Prosecution ruled over Where’s the Justice, 21-6; and 4 Varsity Athletes and a Gritskew wore out We Are Shirts, 21-6.

Religious enthusiasts did not fare well yesterday as Freemo and the Squankers nailed the Poor Capp and the Dip, 31-15; and the Five Disciples of Dan Gerlach were steam by St. Michael’s Shrinks Your Underwear, 21-12. The Fun Bunch mashed 3 Couch Potatoes, A Physics God and Tense Individual, 21-10.

Bookstore rolls on despite showers

By PETE SKIKO
Sports Writer

Trying to play basketball in the rain-dribbling through puddles and passing what feels like a greasy piglet—is not necessarily that easy to do. If you don’t think so, ask some of yesterday’s Bookstore Basketball participants.

It (the rain) can totally neutralize your outside shooting game,” said Paul Christmann, whose team, Gik, Mook, and Three Other Guys Avoid of Showers, went on to defeat The Prudish Ones, 21-8. “Even if we had a decent outside shooting game.”

The precipitation during yesterday’s action, the first games of the Round of 312, ranged from a drizzle to a steady pour, making for lower-than-average shooting percentages and higher-than-average skilled knee totals. The rainy Tuesday kept pace with the various other forms of weather (snow, wind) experienced by Bookstore players since the tournament began.

“Despite the poor weather, everything seems to be going smoothly,” said DeCicco.

“We usually have one every year,” said Tournament Commissioner Mike Manning. “It was pretty pathetic.”

Manning, a sophomore in his first year of running the tournament, doesn’t have any complaints so far.

“We especially have one every year,” said Tournament Commissioner Mike Manning. “It was pretty pathetic.”

Manning, a sophomore in his first year of running the tournament, doesn’t have any complaints so far.

“Despite the poor weather, everything seems to be going pretty much on schedule,” said DeCicco.

The job that was done in 1979 hopefully was the factor that made them come back,” said DeCicco. “The welcome from the students and the community was wonderful, and the whole tournament ran smoothly.”

Considered the biggest tournament in the world for junior fencers, the Junior Worlds is restricted to fencers under the age of 20. The men will be competing in the foil, saber, and epee weapons, and the women will be competing in foil.

Many of the fencers that will be competing are Olympic contenders,” said DeCicco.

Irish should strive for basketball greatness

March Madness stretches into April this weekend for its mighty conclusion as the four survivors converge on Kansas City.

Today’s exciting adventure called Irish Items will take a look at the Final Four and then something that has nothing to do with that, the Notre Dame men’s basketball team.

Not only will the usual fencing powers attend, such as the

United States, Italy, the U.S.R., France, Hungary, Poland, West Germany and China, but there are also many who have come to the tournament to compete. They include Bulgaria, Austria, East Germany, Kuwait, Malaysia, Saudi Arabia, South Korea, and Yugoslavia.

Opening ceremonies are scheduled for tomorrow night at 7:30 p.m. in the basketball arena of the JACC. Indiana Governor Robert Orr, U.S. Olympic Committee President Robert Helmick and International Fencing Federation president Rolland Boitelle are scheduled to attend. Admission is free.

The conference that does have bragging rights is the Women’s Basketball Conference Affiliation, which allows the Irish to face the best teams in the country.

Confused by all the jargon? We have been taught throughout our academic careers to think big, to set our goals high and to strive to reach them. The goal of the Notre Dame basketball team and its head coach ought to be the Final Four, or even consistent appearances in the Sweet 16. The attitude that “anything beyond 20 wins and a bid is gravy” is simply all wet.

Today’s action yesterday, 5 Guys With a Suburban White Pump Fake dapped 4 Guys and a Short Dork, 21-7. The Dork, John Wholihan, summed up his team’s bitter reaction to the loss.

“Sure, they had the shooting and the inside game,” said Wholihan, who went oh-for-three on the day, “but we had the outside fangs.”

Strategic Frottage found it hard to get going against The Bookstore Lover and his fellow Danki, and ended up dropping a 21-10 decision. Guard Greg Brown of the Frottage tried to analyze his team’s inability to put it all together.

“They did a pretty good job shutting down our inside game,” said Brown, “then they proceeded to shut down our outside side, and they pretty much shut down our transition game. Outside of those three things, we felt real comfortable with the way we were played.”

But the ultimate mark of futility was reached when War Pigs, riding oh-for-three shooting, came up with the big goose egg against Red Death and the Jamin’ Provosts.

“We usually have one every year,” said Tournament Commissioner Mike Manning. “It was pretty pathetic.”

Manning, a sophomore in his first year of running the tournament, doesn’t have any complaints so far.

“Despite the poor weather, everything seems to be going pretty much on schedule,” said DeCicco.

“Of course, the shooting percentages and driving abilities that we had been playing were not as high as expected against a talented team like Duke.”

Meanwhile Danny Manning is wearing his size 3EEE Cinderella slippers and desperately wants to go out a winner before he takes his case to the NBA. The Jayhawks will win the hearts of underdog lovers, and they’ve already won the heart of this underdog lover, for the simple reason I got stuck with them in my room’s tournament pool.

Sooners and Wildcats put on a great show, but you’ve got to wonder if they can come back and do it again on Monday night, especially against a talented team like Duke.

The conference that does have bragging rights this year is the Big Eight, which plays in the Rodney Dangerfield of the NCAA, garnering no respect from the eastern establishment. Maybe if Rodney Dangerfield he might have a case.
