Lopez named new ND leprechaun

The Fighting Irish have a new leprechaun. Ray Lopez, a junior from Alice, Texas, won a close two-weeklong cheerleading camp to lead the Notre Dame cheerleading team. Lopez, who will officially assume the role of leprechaun, said: "It's going to be a challenge. The Fighting Irish have a lot of traditions, and I hope I can represent and inspire the students." Lopez will serve as alternate by 10 judges from the Universal Cheerleading Association, the Notre Dame Athletic Department and past cheerleading squads, said current leprechaun Brian Stark.

There's something special in what (the leprechaun) represents and I hope I can exemplify that," Lopez said.

The competition was rated by 10 judges from the Universal Cheerleading Association, the Notre Dame Athletic Department and past cheerleading squads, said current leprechaun Brian Stark.

Competitors were required to perform the Irish jig, gymnastic stunts, an improvisational entertainment routine, and an original skit. Judges also interviewed each competitor.

Lopez said he acted out a skit with the help of his friends in Alice, where he tamed a rainbow across the gym in the Joyce Newsletter.

And that jazz

Trumpet player Jimmy Owens pumps out a number at the Collegiate Jazz Rest. The festival was held at the low for tonight will drop Monday and Cypriot government spokesman Akis Fansipan said, "There was an important contact right now, and by tomorrow morning we shall know the result that we would hope to be what we wish to have. What's the same offer always, the release of the hostages for fuel," he said.

Input plan ready to go

By MARK MCLAUGHLIN

A plan for student government to gather student response to the recently released task force reports was discussed in a special meeting on Friday. Student Body President Tom Doyle asked for support from the newly elected Hall Presidents' Council, district student senators, and class presidents.

He said the role of student government concerning the reports was "to stand up for the rights and the interests of students. Student government is where those types of issues are addressed." The plan was split into three parts, said Mike Faase, student body vice president. Faase said: "The focus of this entire effort is going to be in two areas - that every student should have the opportunity to express themselves both orally and in written form." The first part of the plan proposed a series of hall meetings. The hall president, the director of Residence Life, and the district student senator, an invited member of each task force, and an invited member of the administration would be at each hall meeting. Minutes from each meeting would be compiled and sent to University President Father Edward Malloy, said Faase.

"If the hall presidents, number one, can't get a turnout in their hall, and number two, can't effectively facilitate the discussion, then we have failed," said Paese. The second part of the plan was a student survey to the task force reports. "We're going to have a questionnaire which is sent to every student of the University... These will eventually be compiled, summarized, and put into a report," said Paese. The report would also be sent to Malloy, he added.

The plan also proposed that the administration of relevant responses will be put into The Observer in space that student government will buy," said see INPUT, page 8

UFW head to speak

Special to The Observer

Cesar Chavez, president of the United Farm Workers of America, will speak today at 8 p.m. in the Center for Social Concerns.

Chavez will show a short videotape about the UFW's boycott of fresh California table grapes before the talk. The boycott was called to bring attention to the danger to farm workers and consumers caused by the use of pesticides in the fields surrounding California's San Joaquin Valley.

The O bserver / Rob Regovich

VOL. XXI, NO. 119 MONDAY, APRIL 11, 1988

ACC and danced his way to a pot of gold at one end, from which he pulled a national championship banner.

For his 40-second improvisational routine, Lopez said he spun a basketball on a pencil and break-danced to Elvis Presley's tune, "Jailhouse Rock."

Lopez will officially assume the duties of leprechaun at the Blue-Gold football game in about two weeks, said Stark. "I'll meet with (Lopez) and pass on some of the traditions, as well as the history and some of the other secret things that go from leprechaun to leprechaun," Stark said.

Marlo Ball will captain the women's cheerleading team that will include returnees Sinead Bigney, a junior, sophomore Kristin Komyatte and new members Claudia Limardo, Michelle Parlow and Keileen Phelan. Kathleen Kelly will serve as alternate.

The men's squad is captained by junior John Romney and includes returnees Gregg Holmes and new members Fred Ahecar, Nick Farmer, Don Gomez and Todd Parker. Brian Dan Teahan is alternate.

The cheerleaders and leprechaun will hold daily practices to prepare for the upcoming Blue-Gold game, said Gomez. Before the fall semester begins, the squads will have a week of practice and attend a weekend cheerleading camp.

There's something special in what the leprechaun represents and I hope I can exemplify that," Lopez said. "It's a great feeling, I put a lot of effort into it. I have a lot of people to thank. My friends really came through for me and my family was backing me the whole way," he said.

"It's going to be a challenge. And so I'm looking forward to making the best of it," Lopez said. "It's a great feeling. I put a lot of effort into it. I have a lot of people to thank. My friends really came through for me and my family was backing me the whole way," he said.
AIESEC will be holding the third organizational meeting today at 7 p.m. in Room 120 Hayes-Healy. All members, particularly marketing members, are asked to attend for additional information on company marketing. -The Observer

Apartheid Information Night will be held today in Pasquerilla East’s party room at 8:30 p.m. The video, “Children of Apartheid,” will be shown and discussion will follow. -The Observer

Elizabeth Hay, professor at Harvard Medical School, will speak on “The Mesenchymal Cell: Control of Cell Shape and Locomotion by Matrix-Cytoskeleton Interaction” today at 4:30 p.m. in the Galvin Life Science Auditorium. -The Observer

Baggage truck operators must register with the Office of Student Activities, before they will be allowed to have a truck on campus. Stop by Room 315 LaFortune Student Center to register your truck and order mailing labels. -The Observer

Applications for Cellar workers are due Friday, April 15 at 5 p.m. at the Cellar. Applications for Irish Gardens workers are available today through Wednesday and are due Friday. Applicants for these positions must be on work study. -The Observer

Senior class “Backpack to Briefcase” lectures will take place Tuesday from 7 to 9 p.m. in the Montgomery Theatre of LaFortune Student Center. Topics include: “Finding a Place to Live” by Jan Drossowriak, manager of Georgetown Apartments; “You and the Community” by Susan Cornelison, director of research at South Bend Chamber of Commerce and Project Future; and “Being a Notre Dame Alumnus” by Chuck Lennon, executive director of the Notre Dame Alumni Association. -The Observer

Brown Bag Seminars continue with “Notes on Contemporary Brazil: Political and Economic Aspects” by Vera Barrourin Machado, the head of the cultural section of the Brazilian Embassy in Washington, D.C. The lecture will be Tuesday at noon in Room 131 Decio Faculty Hall. -The Observer

Peace Corps Overseas Undergraduate Internship applications are available at the Center for Social Concerns, the Peace Institute and Room 101 O’Shaughnessy. Freshmen, sophomores and juniors who are American citizens are eligible; candidates should have demonstrated interest in community service and potential to live and work overseas. Fall, spring or summer placements are possible. For more information call 238-5142. -The Observer

Notre Dame Chamber Orchestra will be performing works by Haydn and Beethoven on April 17 at 4 p.m. in Washington Hall. -The Observer

Cesar Chavez, President of United Farm Workers, will speak today at 8 p.m. at the Center for Social Concerns on the “Wrath of Grapes” boycott. This presentation is part of Peace with Justice Week. -The Observer

Class of ’91

We need your help to...

“Make sophomore year more than just our second year at Notre Dame.”

We need people to fill the following positions:

- Advisory Council Reps.
- Social Commissioner
- Service Project Commissioner
- Religious Activities Commissioner
- Publicity Commissioner
- Major Events Commissioner
- Senate Coordinator Commissioner
- Academic Commissioner

Applications & Job Descriptions are available in the Student Government Secretary’s Office- 2nd floor LaFortune from April 8 - April 12.
Cracks form down middle of Student Center

By JIM WINKLER
Staff Reporter

The cracks in the walls and floor in LaFortune were evident. "It is difficult to build a structure on to an existing structure," said Brother Francis Gorch, the building manager in LaFortune. "You usually leave a little space between the old and the new parts so that it can expand."

The repair work for LaFortune will be handled by Notre Dame and will be paid for by the University. Dedrick said. "All of the LaFortune renovations, Wright Construction Company, is responsible or liable for the damage, he added."

Work to repair these cracks will begin after school has finished for the year, Dedrick said. "It is really a small problem, and so there is no reason to disturb the students by doing work now," Dedrick said.

The cost of the repairs has not been determined, but it will not be that expensive, Dedrick said.

Exactly how the building will be repaired has not yet been determined. According to Dedrick, one option is to fill the cracks and repaint the walls, while putting new tiles down on the floor. Dedrick said that the dorms will be open also, "The second floor of LaFortune is already fully carpeted, Dedrick said."

Severai other buildings on campus have already or are currently receiving additions, but Dedrick discounted the likelihood of similar damage occurring. "It is possible in the Law School, but it will be to a lesser extent. It is always a possibility when you add onto an old building," Dedrick said.

Cracks in the walls and floor of LaFortune Student Center have appeared recently along the area where the new addition was added about two years ago. The growing gorge will be fixed over the summer and poses no risk. Story at left.

Campus construction projects running on schedule

By JIM WINKLER
Staff Reporter

All three of the current construction projects on campus are on or ahead of schedule, according to Don Dedrick, director of Notre Dame's Physical Plant.

The newest construction work to be completed is the exterior of Pasquerilla West. "The exterior is essentially done now," Dedrick said. "The cost of the repairs has not been determined, but it will not be that expensive, Dedrick said."

Our Mission, should you choose to accept it, is kids.

Kids across our country who know loneliness and fear.
Kids who desperately need help and love.

Some say they are beyond help, unreachable.
Some call it a "Mission Impossible."

We say no way.
We are the Salesians of Don Bosco and we live for poor kids.

But to continue we need more help.

We are looking for a few good men to become Brothers or Priests for the young, to share in our "Mission" by working with needy youth.

YOU COULD MAKE OUR MISSION POSSIBLE.

☐ YES, I'd like to find out more about the Salesians.

Office sponsors workshops, intervention plans

By TAMRYN J. ETTEN
News Staff

Three alcohol awareness workshops, sponsored by the Office of Alcohol and Drug Education, will address alcohol abuse and intervention, said David Dannison, the office's director.

The workshops, which begin Tuesday, will include a question and answer forum, group discussion, as well as role playing, where audience members will be asked to participate. Current members of Notre Dame's Student Intervention Team will also participate in role playing, said Helen Janss, a member of the team.

The workshops will also serve to recruit and train students who are interested in becoming members of Notre Dame's Student Intervention Team.

The intervention team was formed last spring and currently has six members trained to provide information to students who are concerned about a friend's drinking. "The team is also available as a resource to perform an informal alcohol intervention," said Janss.

Informal intervention is a technique where the team member does not meet the person whose drinking behavior is in question, said Janss. The team member simply counsels the friend, family member, or spouse on ways of conducting his own intervention.

The intervention process will be done anonymously with the initial contact made through an answering machine, Janss said.

The alcohol awareness workshops will be run by Barbara Noser, executive director of the South Bend Alcoholism Council.

The workshops will be held this Tuesday and April 18 and 19 at the Center for Social Concerns from 7 to 9 pm.

Grad students may get refunds on their taxes

By JIM LANG
News Staff

Graduate students who were assessed back taxes on their teaching or research income for the 1984, 1985, and 1986 school year are eligible for a refund of this money, according to an Internal Revenue Service informational release.

Those who were assessed the tax on income from 1984 must file a form 1040X before April 15 this year. The others have a year to file the amended form.

Prior to the 1986 Tax Reform Act, teaching and research income was not included in taxable income if the following three requirements were met:

• The taxpayer was a candidate for a degree at an educational institution.
• The taxpayer performed research, teaching, or other services for the institution that satisfied the existing degree requirements.
• Equivalent services were required of all candidates for the degree.

When the IRS decided in 1986 to include this income in overall taxable income for 1987 and the years following, it began to assess back taxes on graduate student income from as far back as 1984.

This prompted complaints from graduate students at universities located primarily in Florida, Iowa, and Indiana, said Kathleen Kolberg, a Notre Dame graduate student who refused to pay the retroactive taxes.

Graduate students at several schools, including Indiana University, who in turn lodged complaints with the IRS, Kolberg said.

The IRS eventually responded to the pressure from the senators, and in a March 30 informational release said that it had given instructions to its district and service centers concerning the issuance of refunds.

Cavanaugh, Lewis cruise to regatta victory

By SUSAN MARIEFKA
Staff Reporter

As large crowds watched from the banks of Saint Mary's Lake, the crafts piloted by Cavanaugh and Lewis halls cruised to victory in Saturday's second annual Fisher Regatta.

The regatta, which was sponsored by Fisher Hall, included 20 teams from both on and off-campus and was divided into a women's and a men's division.

Each hall was permitted to enter two teams, ranging from four to eight students per boat. Building restrictions included a maximum length of 16 feet and a maximum width of six feet. The length of the oars could be no longer than five feet and no parts from a conventional boat could be used.

An entry fee of $20 was also required.

Entries in the competition showed off their creative and engineering skills as materials for the crafts included kiddie pools, cardboard, styrofoam, paper maché, garbage bags and milk crates.

Boat designs also expressed a desire in sight as teams found numerous ways to make their entries float. Although inner tubes were the most popular, some exotic ideas included balloons wrapped in garbage bags and oil barrels.

"We just did this forty-five minutes ago," said Karl Wursthorn, a freshman member of Badin Hall's team, "The Unsinkables."

"I needed a cheap way to (make a boat) and... ballons have a lot of buoyancy," Wursthorn said. "I used physics equations to figure out how many ballons we'd need," she added.

Not all plans were so hastily laid, however, as Fisher Hall's "Green Seamen" had been in the planning stages for months.

"It took one hour of construction, 21 years of creativity," said Greg Tatum, a senior mechanical engineer who designed last year's winning boat and "The Green Seamen."

"I used Archimedes' principle to build the boat. We went with six men this year... we... need the extra horsepower," he said.

While some boats were obviously built for practicality, others entered the realm of true ingenuity. One of Holy Cross' creations, "Holy Cross" pageant, was given to St. Ed's Unsinkables."

"If they try this another time, I'm telling you there's going to be bloodshed. We... mean business," said the Rev. Gene Hood, pastor of the Indiana campus.

Task force issues not crux of problem

The president of our esteemed University has seen fit to distribute thousands of copies of the latest Notre Dame Report. Encouraging our own reactions to the four task force reports inside, Father Malloy tells us to "kindly direct your comments to the person to whom the report was made." I have decided instead to address my comments as an open letter to the Notre Dame community.

Rob Hennig

guest column

No doubt much will be said about these reports, and more feedback than Father Malloy could hope to read will be generated. And that is the great shame of it all. For, in forcing the University to consider the issues of "Marriage, Family and Other Life commitments," "Whole Health and the Use and Abuse of Alcohol," "The Quality of Teaching in a Research University," and "Residentially," Fathers Malloy and Tyson and Provost O'Meara have drastically altered the quality of debate that is occurring at the highest echelons of our University.

If the Hesburgh legacy is to mean anything, it is that Notre Dame should set its sights on as high a level as possible. These four reports will wind up an increasingly competitive and secularized world. By discussing whether dormitories can buy alcohol for SORs or should housing for women faculty and administrators be available on campus we are cheapening our aspirations and denying the Notre Dame family the breath of vision Father Hesburgh fought so desperately to instill.

The recommendations offered are nice and some probably should even be adopted. But to focus the debate on campus on these task force reports is to sap valuable University attention on what Notre Dame really needs. None of the reports displays anything more than a superficial understanding of the University or its problems.

Maybe a year or so is too short to properly assess the problematic issues inherent in our present structures. More accurately, maybe the topics were poorly chosen. It seems to me that three aspects of Notre Dame should be addressed: the educational, spiritual, and social life of the University. That the four reports inadequately cover these three areas is problematic. What we get is a hodgepodge series of recommendations instead of a comprehensive and integrated plan upon which to build.

Anywhere is this more true than in the report on "Teaching in a Research University." Such a report first assumes Notre Dame is a research university. In saying so, in my opinion, highly dubious. Moreover, all of the recommendations are just piecemeal. If it is truly the goal of the Notre Dame family to make this University a leading university in the United States, such a report is just inadequate. The real question is not what can be done to improve teaching. The real question is "How can Notre Dame move to the forefront of higher education in America?"

With the new fundraising campaign, we have the potential to make a major move in the desired direction. By setting our sights, we are again jeopardizing what may be a unique opportunity that will never happen again. So, after much careful reflection, I have come up with my own recommen­dations that come to grips with the real issues:

First, Notre Dame and Saint Mary's College cannot afford our present situation indefinitely. Our present "engagement" status cannot continue to serve the best interests of this community. I believe a merger is not only inevitable but necessary. Such a move would open tremendous opportunities for the University and is also in the long-term interests of Saint Mary's. The number of all-female colleges in the United States is dwindling yearly. It is doubtful whether Saint Mary's can survive without the present arrangement with Notre Dame. Furthermore, such a move might be sustainable, and Saint Mary's can survive in the future even with present cooperative ties. This remains even more true now than it was in the early 1970s, when merger talks were unsuccessful.

Second, Notre Dame must increase the number of graduate students and faculty. A major university is judged on the quality of its graduate programs and on the quality of its faculty. If we ignore this reality, we do so at our peril.

Since 1978, according to the task force report on teaching, the number of graduate students has increased by less than 100. An encouraging sign is that faculty size has increased by almost 100 as well since 1978. If Notre Dame wants to truly play in the big leagues, both the graduate student population and the faculty size must increase dramatically from their present numbers.

Third, Notre Dame must develop a comprehensive building program. This is no time for an architecture lesson, but we need a coherent Master Plan for the campus. If one exists that we are presently using, I apologize. I am just not aware of it. My own solution is to fill in Saint Joseph's Lake. One lake is enough, and besides, this would allow for living up to our legal name of "Notre Dame du Lac." These are all tongue-in-cheek recommendations, probably doomed to cries of outrage. So be it. The point is to raise the discussion above the level of feedback that the task force reports have seen fit to generate. We owe it to ourselves, each other, and the future of Notre Dame. Rob Hennig is a junior economics major and a regular Viewpoint columnist.

P.O. Box Q

Britain also has executions

Dear Editor:

I would like to add a point of clarification to the recent letter of Michael E. Lee of April 6.

The United Kingdom is one other NATO Alliance country that still en­forces the death penalty. These executions have been perpetrated by members of the Royal Ulster Constabulary in Northern Ireland (the so-called "shoot-to-kill" policy) and, more recently, by British soldiers in Gibraltar. However repug­nant the death penalty might be, least those executed in the United States are convicted and sentenced by a court of law.

Hugh McManus

Column space is available to all members of the school community, and the free expression of varying opinions on campus, through letters, is encouraged.
The Church's album Starfish deserves devotion

AMY L. SEJERT

Well, they've done it again. Steve Kilby, Mary Wilson-Piper, Peter Koppes, and Richard Ploog, just four guys from Australia, have released an album which rises above all others. Starfish is the name of this LP, the sixth from these guys who call themselves The Church.

The neat thing about this group is that it is like no other. The haunting yet hopeful vo- cals of Steve Kilby are ab- solutely unique and the guitars are equally impossible to em- ulate. You know how you can immediately identify a U2 song because of The Edge's guitar? Well, the same thing happens with The Church, only the guitarists are Wilson-Piper and Koppes. This group has the same lineup since 1982, and their five years of experi- ence together certainly is ev- ident on Starfish.

The first cut, "Destination," is like a roller coaster as it dips and soars and carries the lis- tener right along. The first single is titled "Under the Milky Way," and it is typical of the album as a whole. Nearly five minutes long, the single is carried by a strong bass from Kilby, as he sings: "I wish I knew what you were looking for/Plight I know what you would find/Under the Milky Way tonight." It heir once, and you'll be singing the chorus to yourself two hours later. It's that kind of song.

The Church is truly a group of musical artists, a refreshing change from the synthesized pop stuff the music world is currently saturated with. Their lyrics are sometimes sad and always thought provoking. Kil- bey and Wilson-Piper are re- sponsible for almost all of the songs, and the latter sings lead vocals on the upbeat rocker of a song. By contrast, "Lost" is composed of many different guitar rhythms which blend together beautifully.

The Church will be on a spring tour of the U.S. shortly, and they are now recording for Arista Records, their fifth full-length album in six albums. Live, the band is louder and faster than their vinyl releases, but their 1986 summer concert remains right up there on my all-time favorite concert list. Anything by The Church is well worth your money.

Bands battle Cystic Fibrosis with music

MATTHEW SPATZ

To raise money to help fight Cystic Fibrosis, a group of students have gathered to bring The Great Escape '88 to Notre Dame. Friday night from 6 p.m. to 3 a.m. at St. Mary's, the first to hold the "Super- fane to the 1 1 years ago.

By kicking off the band concept, Temeles hopes to "teach universities to do the band thing." There is already a program to teach high schools how to do the dance-a-thons. They are now organizing a similar correspondence with other univer- sities and hope that The Great Escape will become a yearly happening at colleges across the country. The campus bands appearing at Notre Dame this year are: Wolf and the Heat, "The Groove, Deadhorse, Eut- hanasia, and Catholicons in Bad Band". These groups alone represent many different styles of music including funk, dance, pop, and progressive. Four other bands appear including Sergeant Friday (from Wisconsin), Bright Light from Evansville, Indiana), and two bands.split the scene: Punko, Gypsy, and Elixir. In addition to the styles of- fered by the campus bands, Elixir offers a dimension of harder rock sounds. Material issues, with a "60's pop sound is currently touring the East Coast and is rapidly becoming known as one of the better bands on the college scene. In planning the event, the group met every Thursday this semester. They proposed the concept to Student Government, who were helpful and supportive. Since they receive funding through Notre Dame's fundraising program, the group learned about the potential for working with a bureaucracy.

Temeles said it has been a learning experience for a lot of mistakes. We wanted to get some CP patients to some Notre Dame masses so the students could see who they are helping. Also, Temeles said it was also important to sign a headline act. But that just turned out to be a group made adjustments as they progressed to find better acts.

Overall, Temeles feels that the group has been successful. This year, they wanted to estab- lish the event as an annual fundraising. Temeles hopes that, because they worked so hard and made mistakes this year, "next year's event will be more of a nationwide event when every college in the U.S. is spreading the word about a "similar funding." Temeles feels that next year the band jam will be more of a nationwide event when every college in the U.S. is spreading the word about a similar funding. Temeles hopes that next year's event will be more of a nationwide event when every college in the U.S. is spreading the word about a similar funding.

Temeles said the biggest challenge will be getting the students involved. "It will be a good time, and the money goes to saving lives. CF affects people our own age. It's not some distant thing," he said. If the spirit is good among the students at Notre Dame, it will transfer to the program on a national scale. Temeles also thanks the managers at the Hops and the Campus Board and hard organizing and planning the event. If students are inter- ested in the event, they should write about Cystic Fibrosis and how they are interested to call Dave Temeles at 283-1851, Peter Petullo at 283-1422, or Quill at 283-1411. Others are urged strongly to come and support this great cause.

Since the band jam is nine hours long, students can come and go as they please. There will also be volleyball nets set up and prizes from various local donors.

Men's tennis splits weekend action at S. Illinois

By GEORGE TRAVERS

The Notre Dame men's tennis team travelled to Carbondale, Ill., this weekend where it competed in the Southern Illinois Invitational. The teams competing in the quadrangular were Notre Dame, Bradley, Lewis and SMC.

Saturday morning the Irish defeated Louisville, 6-0. The Cardinals were severely overmatched, managing to win only two sets.

Notre Dame was once again led by the stellar play of captains Brian Kalbas and Mike Wallace. Kalbas defeated Scott Hill of Louisville 6-1, 7-6, 6-4. Wallace trounced David Rueff 6-1, 6-3.

In other singles action against Louisville Ryan Wenger beat John Meade 6-1, 6-4, 7-6. Dan Walsh and Paul Odlund won in straight sets, defeating Mike Methbauer and Jay Avenido respectively.

Freshman David Kuhiman also has been playing outstanding tennis ever since a big win at Harvard ever Spring Break, which earned him the sixth singles spot. Saturday Kuhiman beat the Cardinal's Chris Trinkle handily 7-5, 6-3.

The Irish next took on the Salukis of SMC-Carbondale, in a much more competitive match. Southern Illinois dominated Notre Dame in singles play, and won overall 5-4. The Irish had beaten the Salukis 7-2 at Notre Dame in January.

SIUC won four of the six singles matches, including number one singles. In that match Jairo Albano beat Brian Kalbas 6-2, 6-4. In other singles action Joe Denetrcro trounced Mike Wallace 6-2,6-2. and Mickey Maule beat Ryan Wenger in a close match 7-6, 7-6. The Irish winners were Dave Reiter and Paul Odlund. Reiter, who is bothered by a reoccurring foot injury, came off the bench to defeat Fabiano Ramos 6-3, 6-3.

In doubles play the Irish fared better, but didn't play well enough to win the match overall. Wallace and Reiter beat Maule and Ramos in straight sets 6-1, 7-6. The tandem of Mike Walsh and Paul Daggio also won in straight sets. Kalbas and Wenger came up short in doubles, losing to Albano and Denetrcro 7-5, 7-5.

The Irish played well in both matches and now have a record of 14-10. Louisville is 8-5 and Southern Illinois is 13-9.
Comeback victory leaves Yankees 5-0

Associated Press

NEW YORK—Don Slaught went 4-for-5 Sunday, including a tie-breaking two-run single in the eighth inning, leading the New York Yankees to a comeback 7-6 victory over the Milwaukee Brewers and their first 5-0 start since 1983.

Six balks were called, setting an American League record and tying the major-league mark. Five were committed by Milwaukee and two of them led to the run that tied the game 4-4 in the seventh inning plus the run that capped a three-run eighth and proved to be the game-winner.

The Yankees, which trailed 4-0 in the second inning, were tied with one out in the eighth against reliever Chuck Crim, 0-1, on singles by Gary Ward and Dave Winfield and a walk to Roberts Kelly.

After Dan Pasca struck out Mike Pagliarulo, Slaughter singled in the go-ahead run. Then, back to the strikeout, allowing Kelly to score.

FRESHMAN PRE-ADVANCE REGISTRATION PROGRAMS

Pre-advance registration programs will be conducted for freshmen in all college program areas on Tuesday, April 12, 1988.

At each program complete information will be given on the advance registration procedures and on the sophomore year and its relationship to the degree curriculum.

The meeting places for the programs, according to college program area, are as follows:

**ARTS AND LETTERS COLLEGE PROGRAMS (all, including AL Preprofessional)**

**Engineering (Cushion) Auditorium**
A through K at 6:30 PM L through Z at 8:00 PM

**BUSINESS ADMINISTRATION COLLEGE PROGRAM**
122 Hayes-Healy Center
A through K at 6:30 to 7:30 P.M. L through Z at 7:45 to 8:45 P.M.

**ENGINEERING COLLEGE PROGRAMS - 6:30 P.M.**

| Aerospace | 12 Aerospace Building (#75) |
| Architecture | 202 Architecture Building |
| Chemical | 182 Fickling Hall |
| Civil | 205 Cushing Hall |
| Electrical and Computer Engineering | 356 Fitzpatrick Hall |
| Materials Science and Engineering | 384 Fitzpatrick Hall |
| Mechanical | 120 Cushing Hall |

**SCIENCE COLLEGE PROGRAMS - 6:30 P.M.**

| Biological Sciences | 283 Galvin Life Science Center |
| Chemistry | 158A Stepan Chemistry Hall (enter through North door only) |
| Earth Sciences | 101 Earth Science Building |
| Mathematics | 300 Computing Center/Math Bldg. |
| Physics | 341 Nieuwland Science (7:00 P.M.) |
| Preprofessional (All majors, this includes all collegiate sequence majors) | **118 Nieuwland Science Hall** |

**FINANCIAL AID INFORMATION**

**Engineering (Cushing) Auditorium**
A through K at 6:30 PM L through Z at 8:00 PM

All freshmen are required to attend the program of the college or department they intend to enter in the sophomore year.

**Defence looks strong as experiments continue**

By MARTY STRASEN

Sports Editor

Notre Dame’s defensive coaches are smiling. The offensive coaches are still peering.

At the day’s afternoon’s spring football scrimmage in the spring football tourament as some early weekend’s action and will continue during this week.

First the No. 2 defense would stop the No. 1 offense. Then the No. 1 defense would stymie the No. 2 offense. Then it would happen again. And again.

Billy Hackett’s 27-yard field goal after a 43-yard march by the No. 2 offense, led by freshman Kent Graham, snapped the seven of the 12th drive of the afternoon. The defense stopped six of the first 11 drives without allowing a first down. The defense was crisp and the intensity was good. Notre Dame coach Lou Holtz said, “But the hitting was crisp and the intensity was good. Our young offensive line really put the defense ahead. We’re still trying to find the right chemistry up front.”

Defensive tackle Jeff Aim and outside linebacker Darrell “Flash” Gordon took advantage of the inexperience of the winners.

Manning’s second chance was a 46-yard field goal by clear the boards and an overtime win, 23-21.

Steve Antonelli, eclipsed a 21-21 tie and continues today and tomorrow.

Both the level of play and intensity picked up during this weekend’s action and will continue to do so for the rest of the tournament as some early favorites find that no win is a sure thing.

On seeded team which found its hands full was Minahoonies, who reached the No. 2 offensive line to pressure the Notre Dame quarterbacks on several occasions. Alm sacked Manning two consecutive times on one drive.

Strong safety George Streeter and outside linebacker Frank Stams also turned in strong performances for the top defense.

Defensive end Andre Jones and lineman Bryan Flannery made big plays for the No. 2 unit.

“Flash” Gordon took advantage of the inexperience and raced past the No. 2 offensive line to pressure the Notre Dame quarterbacks on several occasions. Alm sacked Manning two consecutive times on one drive.

**Women’s tennis dominates foes**

By BOB MITCHELL

Sports Writer

Dominant. This word summarizes the play of the Notre Dame women’s tennis team this weekend.

The Irish netters rolled up 16 victories while dropping only one entire weekend.

The first victim of this red hot Irish team was the University of Toledo. The Irish disbanded the Rockets by a 8-1 score. Notre Dame wrapped up the match in the singles play, allowing Head Coach Michele Gelfman to play everyone on the top.

In singles play, the entire team won, led by junior Ce Ce Cahill crushed Lisa Donnelly 6-1, 6-1. In what was the most decisive victory of the day, Michelle Duso defeated Lisa Ambrozetti, 6-1, 6-0.

I was exceptionally pleased that everyone got the opportunity to play today,” said Gelfman.

“I was impressed with the play of Pacella and Bradshaw. In the beginning they played spotty but they adjusted and closed in on the net.”

On Sunday the Irish were braced for a clash with Purdue. The Irish expected the match with the Lady Boilermakers to go to the wire. But Notre Dame found that extra something and extinguished the Boilermakers 8-0.

“I was skeptical going into the match,” said Gelfman.

“We had a chance to play in the doubles combination,” said Gelfman. Gelfman was impressed with the play of the new doubles weekend.

Steve Belles led the No. 3 of-

tive. Former Irish basketball player Jeff Peters led the victors with eight points, most coming off strong drives to the hole, while one of Lou’s 2 QBs, Tony Brooks, added five. The game was marred by a few bau-}

not a sure thing, they didn’t get matched up with us. Hopefully the rest of our bracket won’t be as difficult.”

Bridges Revisited put a scare into I’ll Play. No I Won’t. I’ll Play, No I Won’t earlier in their game yesterday before the Leone’s Stallions conjunction of John Mundo and Al Mar-

CEILING

The Observer / J o Whitfield

The action becomes more intense and the big guys start to take over as Bookstore makes the transition from fun and games to a serious bas-

ketball tournament. Brian O’Gara has details of the weekend’s action at left.

**358 title hopes are extinguished**

Intensity picks up on the courts

By BRIAN O’GARA

The first round of Bookstore Basketball XVI is history, as are the hopes of 358 teams which have been eliminated from competition.

After the 48 games played yesterday, a total of 306 teams remain to vie for the coveted Bookstore title. The second round of action began yesterday and continues today and tomorrow.

The Ministers of Pain iced the board by a 8-1 score. Notre Dame women’s tennis team went to the wire. But Notre Dame found that extra something and extinguished the Boilermakers 8-0.

“I was exceptionally pleased that everyone got the opportunity to play today,” said Gelfman.

“I was impressed with the play of Pacella and Bradshaw. In the beginning they played spotty but they adjusted and closed in on the net.”
