Dukakis seizes NY win

Associated Press

NEW YORK - Michael Dukakis swept to a convincing victory over Jesse Jackson in the New York primary Tuesday night and seized control over the turbulent race for the Democratic presidential nomination.

"I love New York," the Massachusetts governor crooned in a victory statement prepared for a hotel rally in midtown Manhattan. "Friends, if we can make it here we can make it anywhere."

Sen. Albert Gore finished a weak third and seemed likely to quit the race on Thursday. He congratulated Dukakis and said the Democratic party was "going to be unified" for the fall campaign.

Vice President George Bush won the Republican primary, with no serious opposition in New York or elsewhere. He told reporters he thought Dukakis was a "good bet" to go on and capture the Democratic nomination and said he was eager to join the battle with whatever opponent the Democrats gave him.

Tensions remain in Persian Gulf

Associated Press

MANAMA, Bahrain -- A French warship spotted three mines and Iranian speedboats raiding two tankers Tuesday, the day after battles in the southern Persian Gulf in which Iran fired missiles from shore at U.S. Navy vessels.

A marine executive said the gulf appeared "ghostly" from lack of shipping. He and others said commercial vessels were avoiding the waterway, where Iran and Iraq have been at war since September 1980 and the U.S. Navy sank or damaged six Iranian vessels Monday.

They also said the United States had suspended escorts of Kuwaiti oil tankers temporarily, but Defense Department spokesman Dan Howard denied it. The United States gave American flags and registration to 11 Kuwaiti tankers last year and the Navy escorts them through the gulf.

President Reagan said things were quieter in the gulf Tuesday and "we hope it continues that way."

U.S. hostages threatened

Associated Press

BEIRUT, Lebanon -- A pro-Iranian group claiming to hold two American hostages said Wednesday there would be "retaliation and retaliation" for the U.S. military action in the Persian Gulf.

The Revolutionary Justice Organization made the threat in a handwritten statement in Arabic delivered after midnight to the independent daily newspaper Al-Nahar in Beirut.

Included with the statement were as many as 60 hostages seized in May by an "American naval logistical ship," killing its crew, an hour after Navy ships destroyed two Iranian oil platforms Monday.

Kroc gift to build Hesburgh Center

By MATT GALLAGHER

The Theodore M. Hesburgh Center for International Studies, to be built on Green Field, will open in May 1989 in four dormitories.

The project, Gilligan said that the Center would be completed approximately two years after ground is broken at a trustees meeting on May 5, 1988.

Conklin noted in an April 18th press release that the Hesburgh Center would house both the Peace Institute and the Helen Kellogg Institute for International Studies.

According to John Gilligan, director of the Institute for International Peace Studies, Joan Kroc donated the funds necessary for the completion of the project. Gilligan said that the Center would be completed approximately two years after ground is broken at a trustees meeting on May 5, 1988.

Moslem hijackers freed their hostages today from a Kuwaiti jet after saying that Algeria had offered a solution to the 15-day ordeal in which two people were killed and dozens terrified. Algeria’s Interior Minister, Hedi Khediri, said earlier: “A solution settling all the issues of the hijacking has just been reached.” An estimated 35 hostages had been on the plane. He refused to give any details of the agreement. Asked by reporters clamoring on the steps of the Algiers airport VIP lounge what would become of the hijackers, he replied only: “That is a question which regards Algeria.” Associated Press

Construction benefits found beyond fences

Notre Dame has been building its rich tradition for 156 years. With a little bit of luck it will continue to do so. But it seems the University of Our Lady has been building up its campus for almost as long.

Construction on campus has reached a surprising rate. It’s almost to the point of nuisance. Constricted space in North Dining Hall has forced lines out the doors. North Quad and the areas near Neugendt Science Hall and new dorms Knot and Siegfried are unattractive. Students must be wary of mud, gravel and rough -browne, but fortunately temporary, chain-link fence.

As inconvenient and unsightly as it may be, construction is a necessary evil. One day (maybe when we’re all alumni) the Notre Dame campus will be the shining example of structural symmetry its architects envisioned. Gradually, we’re getting there.

One need only look at some of the existing buildings on campus to see that architectural success can be achieved, without compromising aesthetics.

The Dome, of course, is the most distinctive edifice on campus and is known worldwide as a symbol of the University. It may lack a little lustre, but most alumni, students and visitors on campus can’t help being moved at the sight of the Golden Dome.

Catastrophe almost cost us that sight. The original Dome on top of the administration was destroyed by fire in 1879. Seven years later, a dedicated construction corps finished the Dome we know today.

Other buildings on campus are impressive, too. Sacred Heart Church was one of the first projects undertaken by Father Edward Sorin when he founded the fledgling campus in 1842. Today Sacred Heart carries the distinction of being the tallest edifice on campus.

Before his retirement in 1887, University President Emeritus Father Theodore Hesburgh said one of Notre Dame’s best moves was building the library that now bears his name. At 14 stories, the Hesburgh Library is an imposing structure and was the largest college library building in the country in 1964 when it was dedicated.

The Hesburgh Library houses more than 1.6 million volumes and a large number of the student body on any given day. It’s hard to imagine the campus without it. Yet at one time, students conducted research in the Architecture Building. Where would students be today if new dorms like Knot and Siegfried weren’t constructed? In fact, if the University stopped expanding its facilities in 1967, the Mod Quad wouldn’t exist today. The campus would have been vastly different.

LaFortune Student Center itself underwent considerable construction in 1986. The renovation took time and, at $6 million, a considerable amount of money. Look at it today—it’s a student center Notre Dame can be (and is) proud of.

There is one thing about LaFortune that bothers me, however. The red neon sign on the first floor that says Theodore’s drives me (and, I’m told, many others) crazy. Although barely visible during the day, it’s obnoxiously bright at night. It glares fuzzily out the window at everyone on the Main Quad. Moreover, it hums constantly. Still, I mean to make light of the situation.

Construction is inconvenient. It is unsightly and it does make walking around campus a real pain, but it yields some terrific results. For now, we just have to put up with it. I’m confident, though, someday we will see the fruits of the current construction labors and, though we complain now, we’ll be happy.

HPC hears review of ND task force

By DAN MURPHY
Staff Reporter

"If you wanted to have a beer outside your dorm, sitting around at a barbecue, it should be okay, accepted, as long as you're not causing problems as a result of drinking that beer," said former Student Body President Pat Cooke at the Hall President's Council meeting Tuesday night.

Cooke fielded questions addressing the University Task Force report on alcohol and emphasized the importance of an attitude change concerning the use of alcohol.

"It wasn't the goal of this committee to have, next year, nobody on campus drinking, rather four or five years down the road to have everybody in the community drinking responsibly," said Cooke. "So what we're talking about are attitude changes. There isn't a problem with alcohol in and of itself; it's the abuse of alcohol that we're trying to address."

The proposed elimination of evening football games is not what we're talking about, said Cooke. "Turning to other business, Chuck Neidhoefer addressed the HPC to explain the J. M. Berry Memorial Leukemia Fund. Beres, the sister of Olympic speedskater Dan Jansen, died of leukemia hours before Jansen competed.

Tri-military ceremony today

By ROBYN SIMMONS
News Staff

The reviewing officer for the annual Notre Dame military review takes on a new look as University President Father Edward Malloy reviews the officers for the first time at today's ceremony.

Approximately 750 ROTC cadets and midshipmen from the Army, Air Force Navy and Marine Corps will participate in the 30-minute ceremony at 4:30 p.m. in the south lot of the Joyce ACC.

"The purpose of the review is to get all the cadets and midshipmen in the services, together for the University."

"(Malloy) is the person being honored and to whom the review is being presented," said Hemphill.

The review involves the march of the cadets and midshipmen past Malloy, which will be led by the Army band from Fort Benjamin Harrison in Indianapolis.

"Part of the ceremony is to award the two outstanding students from each of the battalions," said Hemphill.

"Week does this, he presents the awards which recognize them in front of their peers and these are all awards for leadership and excellence."

"(Malloy's) role is to symbolize the university...to accept the salute from the cadets and midshipmen and make whatever remarks he feels are appropriate," said Hemphill.

According to Hemphill, the review is open to the public. "It's the only time that all three ROTC units get together in the same place for any kind of function," he said.

The cadets and midshipmen have been practicing for the review for the last three weeks, according to Hemphill. "They have really been training all year in drilling ceremonies," he said, "so this is also a chance for them to show how much they've learned."

"(The review) is a traditional event every spring it sorts of closes out the school year for ROTC," said Hemphill. "It's something that I think everyone takes pride in doing and doing well...It's a chance to show their support for the University."
Education, porn bill passes

Associated Press

WASHINGTON - The House overwhelmingly passed a multibillion-dollar education bill expanding federal programs for elementary and high school students Tuesday, after attaching a ban on pornographic telephone messages.

The Hawkins-Stafford School Improvement Act, which authorizes up to $8.3 billion in spending next year, renews all major elementary and secondary education programs. More than half the money would go to the government's compensatory education programs for disadvantaged children.

The House vote makes the programs to prevent dropouts and greatly expand drug abuse education and magnet school programs.

The bill, a compromise between versions passed earlier by the House and Senate, needed Senate approval before heading to the White House for President Reagan's signature.

An aide said the Senate planned to act Wednesday.

Before the 397-1 House vote, many members called the education measure among the most important they would ever pass because it would put the United States back on the road to international competitiveness.

Rep. Philip Crane, R-Ill., cast the only dissenting vote.

"Since 1983, we have moved from a nation at risk to a nation in crisis. I think this proposal will turn that trend around," said Rep. Augustus Hawkins, D-Calif., chairman of the House Education and Labor Committee.

The far-reaching measure, named for Hawkins and retiring Sen. Robert Stafford, R-Vt., was shadowed for weeks by controversy over the dial-a-porn ban added in the Senate by Sen. Jesse Helms, R-N.C.

House and Senate negotiators substituted a provision under which the lewd messages would be technologically blocked from telephones unless an adult called the telephone company and requested a subscription.

But in a confusing series of moves Tuesday, the House killed the dial-a-porn compromise and restored the outright ban despite concerns about its constitutionality.

Opponents said it would result in years of litigation during which children could continue to call and hear the pornographic tapes. But others said it would be impossible to block the service from 12 percent of American homes served by older telephone equipment and some said dial-a-porn ought to be off limits to adults as well as children.

The largest single program in the bill is Chapter 1, which pays for tutoring and other services to disadvantaged children at risk of academic failure. School districts could receive basic grants totaling up to $4.7 billion in fiscal year 1989, a $400 million increase over current spending.

The school improvement act also includes the following major programs, with authorized funding levels that represent the maximum Congress could appropriate:

Booze use affected by media

By JIM LANG

News Staff

The media and the advertising industry have a tremendous impact on the way in which Americans view alcohol and alcoholism, according to "Under the Influence," a Student Union Board-sponsored lecture by Jean Kilbourne Tuesday night.

Kilbourne, an internationally known media critic affiliated with Wellesley College, has been touring the country lecturing on the effects of the media on the public's attitudes towards women and alcohol.

Kilbourne stressed from the start that her lecture was "not a temperance or prohibition lecture," but instead it was simply an examination of the effects of advertising.

The lecture revolved primarily around exposing the myths created by alcohol advertisements and examining the paradoxes between these myths and the real truths about alcohol.

One such myth involved alcohol as a sexual stimulant. Kilbourne said that advertisers make often link alcohol with sex, but in fact there is a 70-to-80 percent rate of impotency and reduced sex drive among alcoholics.

A main point of the lecture was that although the public rarely spends time closely examining alcohol ads, they still affect us greatly. "What we're losing is the consciousness of effects most deeply," she said.

She praised Notre Dame for its recent addition of an Office of Drug and Alcohol Education, where interested students can pick up a four-page handout entitled "Alcohol Awareness Resources," which gives a listing of national awareness resource centers. Wednesday at the Student Union Board.

Help your parents get through college.

Just thinking about college tuition is enough to make most parents break into a sweat.

But can you blame them? When you consider the cost of books, dorms—not to mention pizza parties you're talking big bucks.

Which is why you should do some talking. Like telling your parents about the Education Loan Programs at Manufacturers Hanover Trust.

At MHT, not only do we participate in all three Federally guaranteed loan programs, but we also work with state and national agencies and can make guaranteed loans in all 50 states.

In practically no time at all.

Within 24 hours, the Bank will get a decision from the Guarantee Agency. It's that simple. Better still, with MHT your parents will get all the money they need from one source.

Example: If your folks need more money than government sources will give them, we can offer them tailor-made payment plans through The Education Loan Program, Educational Lines of Credit or Monthly Budget Program and Pre Payment Programs that make it easy for your parents to fund themselves.

Once you get a loan from us, you can be sure it'll stay with us. Because we've never sold education loans to other banks unless the borrower asked us to.

So if you need money for school, call 1-800-MHT-GRAD and get yourself an MHT Education Loan Application.

Then when your folks ask you about tuition, at least you'll have an answer.

"No sweat."

AP Photo
files made public

SACRAMENTO, Calif. — More than 2,400 photographs from the assassination of Robert Kennedy were unac- countably destroyed nearly 20 years ago, officials said Tuesday as they opened to the public for the first time the long-secret police files.

There was no explanation in the 50,000 pages of documents why the pictures were burned or why such items as ceiling tiles and door jambs from the scene of Kennedy’s death were destroyed in the months following the assassination.

California Secretary of State March Fong Eu released the documents, including interviews with 4,000 witnesses and 2,500 photographs from the Los Angeles Police Department files.

The state’s chief archivist said the documents were unlikely to answer the numerous questions surrounding the 1968 assassination because of the destroyed material.

“I’ve never seen a file quite this large,” said archivist John Burns. “This is a very unusual murder file (but) I’m not a bit surprised.”

He also said he could not explain why evidence was destroyed, saying police were careful at the outset because they didn’t want “another Dal­las,” where Kennedy’s bro­ ther, President John Kennedy, was killed.

Burns said he had had time to examine all the evidence, which he predicted will occupy researchers for years.

The gaps in the material drew criticism.

“Someone should ask the police why they destroyed 2,400 photographs in the most impor­tant case they’ve ever ex­amined. . . . We didn’t know about that until today,” said Gregory Stone, a political scientist at the University of Wisconsin and a longtime at­torney for the Kennedy family.

“I’m quite unhappy with the destruction of so much evidence,” said a lawyer for the libel complainant Ethel Kennedy.

Osha falsified inspection report

WASHINGTON — Federal safety inspectors told a Senate committee Tuesday they were instructed in September to “generate numbers” through sham inspections emphasizing quantity over improving the quality of the nation’s workplaces.

The inspectors said they were told to portray the office as short on numbers for the year, they wanted compliance of­ficers to generate double the number of OSHA inspections last year by more than 2,000.

The committee, chaired by Sen. Edward Kennedy, D­Mass., has been preparing the hearings for more than a year. None of the seven Republicans on the panel have attended the first two days.

Before the first witness was called, Kennedy vowed to “show that the decision to let workers die . . . has been supervised and carried out by the highest levels of this administration.”

Witnesses before the panel Monday estimated that 30,000 to 70,000 Americans die annually from occupational-related diseases that could be prevented.

Kennedy repeated his charges Tuesday, saying that career OSHA employees were instructed by Reagan Health and Safety Administration officials “to generate misleading data that give the appearance of real as a cover for neglect.”

Michelle Vallon, an industrial hygienist in OSHA’s Irving, Texas, office, told the committee Tuesday that she produced 30 OSHA inspection reports from a three-day visit to the steel construction site last September.

Vallon said she believed she was told by supervisors to in­spect the site because of a large number of subcontractors on the job and her office was in the end of the fiscal year and had not met its quota of inspections.

“They didn’t exactly say it, but I drew that conclusion,” she said in response to a ques­tion from Kennedy. “We were under constant pressure to get numbers.”

2 Americans hurt in blast

Associated Press

SAN JOSE, Costa Rica - A fragmentation grenade blew up outside the American Costa Rican Cultural Center Tuesday, wounding two Americans and four other people, Costa Rican authorities said.

Red Cross officials identified the Americans as Alice Feister, a professor at the Cultural Center from the Washington area, and Shelly Bartain, a student from California.

Feister was seriously wounded, but "she's expected to pull through," said U.S. embassy spokesman Mark Krischick.

Krischick said earlier Tuesday that the explosion was believed caused by a malfunctioning power line transformer.

A preliminary report prepared by the Intelligence and Security Directorate said the explosion was caused by a fragmentation grenade. Three cars were damaged, the report said.

Hernan Garron, the public security minister, told The Associated Press officials had no suspects in the incident. He called the explosion "a terrorist act."

Krischick said Feister suffered a severe artery wound and was operated on immediately at Calderon Guardia Hospital. Feister was reported in fair condition.

Hostage

continued from page 1

A hostage situation occurred shortly after 8 a.m. (6 a.m.) about 50 yards south of the cultural center building in the eastern Los Yates district. The structure was not damaged, he said.

"(Plans) are currently in the design stage," said Gilligan. He said that the center would probably be comprised of a three-story building complex.

The first building would house offices for faculty, seminar rooms and public meeting spaces, said Gilligan. The second would contain an auditorium, seminar rooms and dining facilities, to be used by the university community and the general public for events related to the two institutes. The third building will be comprised of 20 apartments for visiting faculty members, said Gilligan.

Kroc also donated $6 million in 1985 to endow the Peace Institute, said Gilligan. According to Conklin, the Kellogg Institute was endowed in 1979 by a $10 million gift from the John D. and Helen Kellogg Foundation.

Massachusetts Governor Michael Dukakis swept the New York primaries yesterday in his bid for the Democratic nomination for president. Story page 1.

Dukakis' national total to half of the 2,082 needed to clinch nomination and his aides expressed confidence that they could rally the hundreds of uncommitted party officials who will attend the convention to his side.

The McCandless Hall election will be held tomorrow in the dining hall during meal hours.

"We were pleased with the number of tickets involved," Agostino said. "Voter turnout was a little down, but the new election procedures went very smoothly."

"We were pleased with the number of tickets involved," Agostino said. "Voter turnout was a little down, but the new election procedures went very smoothly."

Kroc also donated $6 million in 1985 to the Peace Institute, said Gilligan. According to Conklin, the Kellogg Institute was endowed in 1979 by a $10 million gift from the John L. and Helen Kellogg Foundation.

Dukakis' national total to half of the 2,082 needed to clinch nomination and his aides expressed confidence that they could rally the hundreds of uncommitted party officials who will attend the convention to his side.

The McCandless Hall election will be held tomorrow in the dining hall during meal hours.

"We were pleased with the number of tickets involved," Agostino said. "Voter turnout was a little down, but the new election procedures went very smoothly."

Kroc also donated $6 million in 1985 to the Peace Institute, said Gilligan. According to Conklin, the Kellogg Institute was endowed in 1979 by a $10 million gift from the John L. and Helen Kellogg Foundation.
Palestine: the facts and the myths

For the last 40 years, the western world has been believing a myth. Because of the current uprisings in the West Bank and Gaza Strip, this same myth has come up in time and time again. The myth deals with the Palestinian people and the belief that the Israelis are the cause of their anguish. True, the Arab world would like us to believe that the Palestinians were forced from their land and into their present refugee camps to the borders of the Israelis, but this assumption is typically as well as factually incorrect.

Billy Lerman
guest column

Let's start at the beginning. The Arab inhabitants of Israel not only left of their own free will, but they were also urged to do so by the Palestinian government. If you don't believe my word, then how about the Arabs? According to a research report by the Arab-sponsored Institute for Palestine Studies in Beirut, "The majority of the Arab refugees in 1948 were not expelled, and 60 percent left without seeing an Israeli soldier." Also included in that same report is an analysis by the Arab National Committee of Haifa which states, "The removal of the Arab inhabitants was voluntary and was carried out at our request." Considering this last bit of information, let us now take into account the opposite end of the refugee spectrum. Since 1948 Israel has settled not only the Jewish refugees from the Arab world, but also the survivors of the Holocaust and other European Jews as well. This brings to mind an amazing discrepancy. How can a tiny country such as Israel settle nearly 1,200,000 refugees while the oil-rich Arab world comprised of over 20 countries settle 790,000 of their own brethren?

In reference to this discrepancy, Khaled Al-Azm, who served as the Prime Minister of Syria after the 1948 war, stated in his memoirs in 1972, "Since 1948 we demanded the return of the refugees (the Palestinians)... while it is we who made them leave (the Arab world)... We have rendered them dispossessed... We have accursed them to beggary... We have participated in lowering their moral and social level... Then we exploited them in executing crimes of murder, arson, and throwing bombs upon men, women, and children... all this in the service of political purposes." It is that same set of political purposes that causes the Palestinian problem to exist today.

In conclusion, let us address the fraudulent claim that the land belongs to the Palestinians. In the first place, innumerable historic records dated before the advent of the Muslim religion detail the Jewish presence in the area. In the second place, the Arabs who chose to remain in Israel after the 1948 war celebrate full autonomy. Thus by willfully leaving Israel during the war they have forfeited any claims to the land. The Palestinians in the occupied territories are there because of their political manipulation in tarrying without public opinion against Israel. It's not a matter of which country has control of the territories. In fact, the standard of living in the territories has vastly improved under Israeli rule. The facts clearly point out that the solution rests in the irresponsible hands of the Arab world. So next time you read about the Palestinian refugees, recall the facts, not the myth.

Billy Lerman is a freshman currently enrolled in the Freshman Year of Studies.

Movie unjustly condemned

Dear Editor:

Upon reading William A. Murray's letter on April 10, his statement that the movie "Life of Brian" on campus, through letters, is encouraged. The letter in Friday's Observer regarding "The Life of Brian" for Jesus. Jesus is presented in two scenes on campus, through letters, is encouraged. The letter in Friday's Observer regarding "The Life of Brian" for Jesus. Jesus is presented in two scenes

Dear Editor:

I recently had the pleasure of competing in the "1988 Notre Dame Invitations" and the experience was a great learning opportunity. My main goal was to extend our thanks and congratulations to the faculty and students of Western University of Ontario in London, Ontario, for their hospitality that we will always remember. The two main events were the competition in a professional manner, the Notre Dame students and the entertainment provided. The competition was held at the Alumni Center of Western University, London, Ontario, April 14, 1988. The competition was held at the Alumni Center of Western University, London, Ontario, April 14, 1988.

"Friendship without self-interest is one of the rare and beautiful things of life."

James Francis Byrnes
Big Brother receives award

THERESA LOOMIS

Two hours per week for over several years is quite a commitment. Nevertheless, the 60 plus members of Big Brothers Big Sisters of Notre Dame and Saint Mary's often extend themselves far beyond this minimum time requirement in fostering relationships with "littles."

This year, one student in particular has exemplified this commitment. On Monday afternoon Big Brothers/Big Sisters of St. Joseph County presented senior Mark Laughlin with the Patrick J. Niland Memorial Service Award.

Niland, who graduated from Notre Dame in 1982, demonstrated great devotion to the program. Upon his sudden death in 1985, as the result of a car accident, his family and friends established this award to recognize other students for exceptional service as Big Brothers and Big Sisters.

Criteria for the award include length of service, consistency (maintaining contact over summer months and vacations), creativity in meeting a child’s particular difficulties, the quality or closeness of the relationship, and the time, caring and self-sacrifice involved.

Laughlin and his little brother Glen were matched halfway through Laughlin's sophomore year when Glen was 10 years old. When first paired, given their respective backgrounds, Laughlin observed, "We were pretty different."

To ease into the relationship, the two initially went swimming and played basketball or other sports in which a lot of talking was not necessary. Now, however, the two even study together. Laughlin has also taken Glen on a Chicago trip and to his home in Omaha.

"I'm amazed at his confidence and poise. The caseworker said he had developed immensely. He used to be more of a shy young man and wasn't involved in as many things," Wagner stated.

Laughlin stated that, although the two did the "typical match activities" for the first year, Mark's special qualities were really drawn upon for the second.

"While Mark was in London for a semester, they kept in contact by writing. When he came back, Glen's needs were different. Mark decided to see him twice a week, rather than once. Now Glen is on the Honor Roll and his mother says his improvement has been 90 percent because of Mark's encouragement."

At Monday's presentation, Wagner relayed a few of Glen's comments. Said Laughlin, "I remember he said that we're 'sort of best friends.'"

Reflecting on why he was chosen, Laughlin pointed to the concentration on the child's particular difficulties, the quality or closeness of the relationship, and the time, caring and self-sacrifice involved.

"I don't really know for sure, but I know we've had a lot of fun together." Said Wagner, "Mark represents the high-quality, high-caliber students we have volunteering from Notre Dame and St. Mary's. It seems the Niland Memorial Service Award could not have a more appropriate recipient."

"Your mother wears army boots!"

I don't want anyone to get the wrong idea.

We all get a lot from our mothers. I inherited my mom's thin, wiry, restless forearms. And it's not that I don't appreciate all that mothers do, either. Far from it. Motherhood is probably the toughest job in the world, sort of a combination of shoveling dung and being President. I realize that it is a seriously tough gig.

Kevin Walsh
guest columnist

Fortunately, the accident of my birth forever excludes me from that occupation. I will never bear children and no matter what else they do, I know I would never get away with making my mother wear army boots.

As if mothers didn't already have enough things to worry about, there's the little matter of Mother Jokes. I'm not talking about vaudeville jokes about mothers-in-law and I'm not talking about some watered-down "Cosby Show" sitcom schtick. These are the peculiar genre of comedy jokes usually practiced by playground last-ditch losers in grade school in an all-out effort to save face of some kind. There is not another single put-down (except maybe another Mother Joke) that can stop an argument as well as "Yeah, so's your mother." Keep this in mind.

I lean a brief history of the Mother Joke is in order here. The very first Mother Joke was told at Freud's famous lectures, when he was expounding on his newly discovered "Oedipal Complex.

Fried was going on at length about how every man was secretly longs for his mother, when from the back of the auditorium someone was heard to shout, "Yeah, that's what your mother says!!" Freud was briefly flustered, but retorted quickly and brilliantly with the now-famous burst of witty rhetoric, "I know you, but what am I?"

World War II began, not just the Japanese bombed Pearl Harbor, but rather when the Japanese Emperor shouted, "Please remind your mother that she left her shoe in the palace last night!" at Franklin Delano Roosevelt.

Which brings us, of course, to the present day. My senior year in high school. I had the distinct privilege of attending an all-male school in New Jersey, that Wordworthian paradise whose annual luau is typically dominated by some watered-down "Cosby Show" sitcom schtick. Fortunately, the accident of my birth forever excludes me from that occupation. I can be thankful for that.

"Mother Jokes are in danger of extinction, though. Norman Bates kind of screwed up the whole thing for everybody else. That psycho thing was probably the Mother Joke taken to its perverted extreme."

So, don't forget that Mother's Day is on May 8 this year. And on that special day, don't forget to call Mom... or you can pull her off the rugby field long enough.

Mark Laughlin, this year's Niland Award recipient, shares the occasion with his Little Brother, Glen.

Sexton has the only points over 40 yards in a scrimmage, Con- nor has been the trick play that he has a strong leg, hitting some field goals.
You have to remember that Sean has been out of football for three years," notes Cer- rato.

The problem with the offense is that there is a lack of consistency or leg strength among the kickers, in addition to the event in any one."  

Brock He has been very con- sistent in the scrimmages, hitting all three of his 39-yard field goal attempts Tuesday and making two of three attempts Friday. However, the 5-5 junior's range is limited to un- der 40 yards.

Frankly Billy Hackett has the leg strength, but he has not been consistent as of late.

Me, you missed 34-yard Friday and converted on two of three 37-yard attempts Tuesdays.  

Hackett has also handled the kickoff chores and has a good possibility of using two placekickers next season.

"Ideally we want to use only one," says Cerrato.

The passing game got a workout in Tuesday's scrimmage.

**AL round-up**

**Orioles tie AL loss record**

Associated Press

MILWAUKEE—Baltimore tied a major league record with its third straight loss from the start of the season Tuesday night as Paul Molitor hit a three-run homer to help the Milwaukee Brewers beat the Orioles 9-0.

The Orioles equalized the losing streaks of the Washington Senators in 1901 and the Detroit Tigers in 1926. Baltimore will go for the record Wednesday night in Milwaukee.

Baltimore, struggling to score runs and with a 1.16 team batting average entering the game, took a 3-0 lead in the first inning, but then collapsed in the field en route to its seventh straight loss under Manager Frank Robinson. Robinson took over for Cal Ripken Sr., who was fired last week.

White Sox 7, Mariners 2

SEATTLE—Carlton Fisk hit two home runs and the Chicago White Sox beat the Seattle Mariners 7-2 Tuesday night, extending their winning streak to five games.

Starting in the fifth inning with the score tied 2-2, Kenny Williams, Ivan Calderon, Fisk and Harold Baines hit solo home runs in consecutive innings off starter Mark Langston, 6-2.

Fisk homered in the seventh and eighth.

Jerry Reus, 1-1, held the Mariners to four hits in five innings for the victory.

Yankees 7, Twins 5

MINNEAPOLIS—Rickey Henderson, Bobby Meacham and Mike Pagliarulo drove in two runs each in a six-run second inning that carried the New York Yankees past the staggering Minnesota Twins 7-6 Tuesday night.

**Athletics 8, Angels 3**

OAKLAND, Calif.—Oakland’s Dave Stewart survived three balks and seven California hits in seven innings to beat the Angels 8-3 Tuesday night.

Reliever Rick Honeycutt got the first out in the eighth, and Dennis Eckersley finished up for his sixth save in six save opportunities.

**Red Sox 7, Tigers 3**

DETROIT—Roger Clemens struck out 11 in eight innings as the Boston Red Sox beat the Detroit Tigers and Jack Morris 7-3 Tuesday night.

Clemens struck out at least 10 for the third time in four starts and leads the American League with 41 strikeouts.

Blue Jays 12, Royals 3

TORONTO—Jesse Barfield hit a grand slam to cap a seven-run third inning and Jim Clancy tied a club record with 12 strikeouts, leading the Toronto Blue Jays over the Kansas City Royals 12-3 Tuesday night.

Rangers 3, Indians 0

CLEVELAND—Joe Guzman pitched six shutout innings and Larry Parrish drove in two runs with a bases-loaded single Tuesday night as the Texas Rangers beat Cleveland 3-0.

The loss was only the second in the last 13 games for the Indians, who at 11-3 are off to their best start since 1966.

Guzman, 1-1, struck out three and walked one and allowed only four singles in six innings.

Phillies top Mets for fourth time

Associated Press

NEW YORK-Mike Schmidt and Lance Parrish each hit two run-scoring singles, Von Hayes doubled twice and drove in two runs and Don Carman pitched a seven-hitter Tuesday night as the Philadelphia Phillies routed the New York Mets 10-2.

Schmidt, who entered the game batting just .191, went 2-for-4 in a 1-4 attempt. He started a four-run fourth inning with an RBI single and his run-scoring hit in the fifth made it 6-1 and chased Bob Ojeda, 2-1.

Ojeda had pitched 15 consecutive scoreless innings before the Phillies put together five singles in the fourth. Ojeda, angry with home plate umpire Bob Davidson for two balk calls, threw his glove into the stands as he exited into the Mets’ dugout after being knocked out of the game.

Carman improved his record to 2-1.

Reds 8, Giants 0

CINCINNATI-Dennis Rasmussen pitched a four-hitter and Nick Esasky drove in four in his second career start to lead the Cincinnati Reds to a 8-0 victory over the San Francisco Giants.

Rasmussen, 1-1, struck out four in his second career start.

Pirates 3, Cardinals 0

PITTSBURGH-Brian Fisher won his seventh straight decision by pitching a seven-hit shutout and Barry Bonds doubled, singled and drove in a run as the streaking Pittsburgh Pirates beat the St. Louis Cardinals 3-0 Tuesday night.

Expos 9, Cubs 1

CHICAGO-Dennis Martinez pitched a six-hitter and Tim Wallach homered as Montreal beat the Chicago Cubs 9-1 Tuesday for the Expos’ fourth straight victory.

Martinez, 2-2, struck out five and walked none en route to his first complete game.

Braves 5, Astros 4

HOUSTON-Ted Simmons’ three-run eighth-inning home run powered the Atlanta Braves to a 5-4 victory over the Houston Astros Tuesday night.

Simmons’ game-winning hit came after Gary Roenicke reached on an error by shortstop Rafael Ramirez and Dale Murphy singled.

 Padres-Dodgers, rain

LOS ANGELES-Tuesday night’s game between Los Angeles and San Diego was postponed by rain, marking only the 13th time that a game at Dodger Stadium has been rained out since the Dodgers began playing there in 1962.

Los Angeles’ Fernando Valenzuela and San Diego’s Jimmy Jones, the schedule pitchers for Tuesday night, have been rescheduled to start Wednesday night.

Juan Samuel and the Philadelphia Phillies appear to have the Mets’ number this season. The Phillies dumped the Mets 10-2 Tuesday, their fourth win in five tries this season against New York.

WMU hammers Irish 28-10

Associated Press

KALAMAZOO, Mich.-Dale Hongisto and Bob Reimink each drove in six runs as Western Michigan battered Notre Dame 28-10 in college baseball Tuesday.

Hongisto hit for the cycle in going 5-for-7 at the plate, while Reimink went 4-for-6, including a two-run homer.

John Hemingway also went 4-for-5 with two RBI.

The Broncos scored eight runs each in the second and sixth innings.

Western Michigan established team records for hits (27), breaking the mark of 25 set against Toledo on May 7, 1950, and runs scored (28) eclipsing the record of 20 set twice.

J.D. DeMare, 2-6, earned the victory despite allowing four runs, three of them earned, in 2 2/3 innings of relief.

Irish starter Mike Passilla, 2-2, pitched one inning, allowing seven runs.

Western Michigan is 17-11, while Notre Dame is 25-17.

Notre Dame has allowed a total of 72 runs in its last five games.

Purdue 18, Butler 0

WEST LAFAYETTE, Ind.-Purdue’s Mike Galle hit a grand slam and Mike Drum threw a two-hitter to shut out Butler 18-0 in college baseball Tuesday.

Drum improved his record to 3-2. Butler’s Scott Johnson collected both of the hits off him.

Bob Kent, 1-6, took the loss.

The 16-22 Boilermakers’ Jeff Kapp went 3-for-3 with three RBI.

**Top Guns upset in Bookstore**

TWL gets top seed in Sweet 16

By PETE SKIKO
Assistant Sports Writer

It was a day for the favorites Tuesday as Bookstore Basketball XXVII rambled through to the round of 16 with nearly all the seeds going virtually unscathed.

The lone casualty was a Tom Shuby-less Top Guns squad, which was shot down by Jimmy Swaggett, Jim Bakker, and 3 Other Kooks as Caughoo's Layups. Mike Caballero, Kevin Whelan and Ed Cosgrove ean and five points for the winners.

Other than that upset, the pretenders have been weeded out as the Sweet 16 prepares to commence (see are listed on page 13).

"I'm kind of surprised that 15 of the top 16 have made this far," said Tournament Commissioner Mike Manning. "Considering all the freshmen talent that we couldn't account or going into the tourney, I think the fact that there was only one upset was an upset in itself. It's interesting to see how our seeds work out from here on in."}

In what Manning called an unavoidable situation, one team, Minnesota Of Pain, was forced to play twice as a result of a forfeit by Four Brothers and a 5 seed that had already played on another seed, against Debi Thomas, Dan Jensen, in the round of 64. After Four Brothers had played, the violation was discovered, and in keeping with tourney rules, Four Brothers was disqualified and Debi Thomas... got a shot at Minnesota of Pain.

The Ministers won that 4-6 contest on the were then forced to play again at 8:13 against Minahoonies in the round of 32. Minahoonies, behind Pete Graham's six points, made short work of The Ministers, 21-9.

In the other action, Al Martin 27, 02 as I Play, No Wont demobilised Yo.. What Up? 21-14; Sean Cullinan and Chris Nanni combined to shoot 18-26 as Tequila White Lightning showed its vintage late round form in a 21-15 over Swaggett, Reagan and Three Other Guys. Pop a Shot at Senior Bar's Ralph Perrara scored ten points in his team's 21-16 victory over Johnny see RESULTS, page 13.

**Scrimmages highlight returners, inconsistent kickers**

You can't hide from it any longer. It's been going on for nearly a month now, beginning with 666 teams. That means over 3300 players ranging from students to hall staff members, dining hall workers, law students, varsity coaches and even a University President. And now it's coming to a close with 16 teams still in the running to walk off with all the marbles on Sunday.

At Stepan, Lyons and the Bookstore, the crowds have been growing bigger and bigger each day as the field narrows. And they'll only continue to grow as the week goes on. The only question remaining besides Who'll win it all? is Where is the best one? Aren't we in April? Isn't this Tostat tourney? Some­body's got to cash in to local weekend Dancin' Dis, who may just be cussing the tournament since he isn't part of a team's name (as in the 1986 classic Vave Your...). On a campus where pickup basketball is as popular as any course taught by a professor whose bald name is A.B., the time has come for the cream of the crop to display their talents in front of these large partisan crowds. It's the final round of the 16 teams for whom the dream is still alive.

The top seed of the Sweet 16 is Tequila White Lightning, the perennial Sweet 16 team. They've reached this point of the tournament for six straight years, including last year's Final Four appearance (Tequila lost to eventual champion Da Brothers of Manhood in the semifinals last year, 21-19). The Lou and Charlie tandem in the backcourt makes opposing guards shudder with their quick hands and smooth passing, while Sean Cullinan is tough at the forward spot.

Brian O'Gara

Irish Items

The No. 2 seed is Loo's 2 Qbs and 2 Blind Guys. No tricks in this name. Al last year's Blue-Gold Game, Lou Holtz asked visiting senior Kent Graham and ineligible freshman Tony Rice if they would play on his Bookstore team in 1988, and a possible championship team was born. Add the strong inside play and mobility of George Baidus, and the scoring punch of Jeff Peters, and you've got the second seed.

I'll Play, No I Won't holds down the No. 3 seed. Floor general Al Martin runs the show for this team, which includes former Leonie's Stallions (two-time Bookstore bridesmaids) Martin, John Mundo and Bill Sullivan. John Kennedy joins Sullivan to provide scoring punch from the forward slots, while recently-acquired Paul Paquin fills up the center of the lane.

The No. 4 seed is Fahn's Funeral Home, led by a guy who has done it all in Bookstore, Bobba Cun­ningham. A member of two championship teams (the last time on Lee's BBQ in 1986) and a former Mr. Bookstore, Cunningham's quickness leads to steals and pretty feeds to his teammates, including high-scoring Tom Antonini.

The No. 5 seed is Chris Bar. While Andy Heck gives Chip's scoring and a lot of space inside, fresh­man Derrick Johnson has been on a scoring tear (11 points yesterday) in a game usually high-scoring Tom Antonini.

The sixth seed is Adwark's All-Stars. Adwark's is led on the inside by Gary Curren and Vincent Merritt. None of the pretenders have been consis­tent.

Pete Hartwegar, Jim Sexton and Sean Connor all have had their share of good punts and from the bookstaffs Tuesday and last Friday. While see PUNTERS, page 10.

**A courtside guide to the Sweet 16**

By PETE GEGEN
Sports Writer

Never before had special teams received so much press as last season, when Tim Brown returned his way to the Heisman Trophy. Brown may be gone, but the glamour still lingers.

The highlight of Friday's scrimmage was an extraordinary kickoff return for a touchdown by Anthony Johnson. It was apparent at both the flanker and kickoff return positions. With the experienced blocking of Anthony Johnson, Braxton Banks and Joe Jarosz forming the wedge, Green found his way through a mixture of scholarship and walk-on players.

Of course it may be too much to start comparing Green to Brown, and in fact the punt- return assignment will not go to the same player, if not return kicks, as it did last season. Ricky Watterson has tabbed the number-one punt returner, returning one punt 26 yards in Tuesday's scrimmage.

"Last year we wanted Tim to touch the ball as often as pos­sible," said assistant coach George Stewart. "Now we don't want to wear down one back with both assignments. By having two different returners, it's sort of like spreading the wealth." 

Backing up Watters will be Todd Lyght.

Todd made it known to us that he would like a shot at return­turning points," said assistant coach Barry Alvarez. 'We put him back there, and so far he's done a good job.'

While the return teams have impressed this spring, the kick­ ing teams have less been than spectacular.

"If we had to pick a starting punter today, I don't know who it would be," says assistant co­ach Vincent Curren. "None of the pretenders have been consis­tent."

Pete Hartwegar, Jim Sexton and Sean Connor all have had their share of good punts and from the bookstaffs Tuesday and last Friday. While see GUIDE, page 11.

**Blowouts the rule at Angela**

By JANE SHEA
Saint Mary's Sports Editor

The Women's Bookstore Basketball Tournament field was narrowed down to 32 teams at a Friday scrimmage at Saint Mary's Angelus Courts.

This is Why We Chose to Run Track ran over Miners 21-5. Composed of five girls who run for the Notre Dame women's cross country team, Run Track made quick work of the Miners. Coach Shari Harper said Thursday that Run Track was as fast as any of the teams.

The Miners could not stop the fast breaks and rebounding attack of Run Track. The Miners were able to get the ball down the lane only if they could not get it in the basket and did not score once after the halftime break.

In the first shootout of the Wo­men's Basketball Tournament at Jerome Hall and the Boun­cers blasted away Hot Woman, Miss and Charlie An­gels 21-0.

see SHUTOUT, page 13.
