Islamic conference opposes Iran on Rushdie

Associated Press

RIYADH, Saudi Arabia—Moslim nations rejected Iranian positions on both "The Satanic Verses" and Afghanis­
tan at the final session Thursday of a four-day confer­
ence.

Foreign ministers of the 46-
member Organization of Is­
lamic Conference condemned the "The Satanic Verses" but
 did not support Iran's order
that author Salman Rushdie be
killed 259 people, spoke of a bomb hidden in a radio-cassette player, the Transport Depart­
ment said.

Police say they established that the ex­
oplosives were in a radio-cassette player
planted in a suitcase stowed in the jumbo
jet's hold.

Flight 103 originated in Frankfurt, chang­ing to a Boeing 747 in London.

LONDON. The Transport Depart­
ment said it issued two warnings of a bomb
plot in the month before Pan Am Flight 103
bombed over Scotland, but the airline said
Thursday the second one came weeks late, by mail.

Members of the opposition Labor Party
accused the government of a cover-up and demanded an investiga­
tion. The department issued its state­
ment Wednesday night after a
newspaper report of the warnings.

Opposition legislators failed in their at­
tempt to get an emergency debate
Thursday in the House of Commons.

The warnings issued Nov. 22 and Dec.
19, just two days before the disaster that
killed 259 people, spoke of a bomb hidden in a radio-cassette player, the Transport Depart­
ment said.

Police say they established that the ex­
oplosives were in a radio-cassette player
planted in a suitcase stowed in the jumbo
jet's hold.

Flight 103 originated in Frankfurt, chang­ing to a Boeing 747 in London.

It blew up Dec. 21 over Lockerbie, Scot­
land, killing all 259 people aboard and 11 on the ground.

Suspicious of a bomb plot arose in Oc­
tober when West German police caught a Palestinian terrorist group with a radio-cassette player containing ex­
oplosives and a barometric device that would detonate a bomb at high altitude, according to British and West German officials.

"We sent advice to the relevant secur­
ity authorities," the Transport Depart­
ment said in its statement. "They were
told what to look for. The American au­
torities would have done the same for
American Airlines."

On Dec. 19 the Transport Depart­
ment sent out the information again, with ad­
ditional details and a photo of the radio-cassette player rigged as a bomb, the
statement said.

In Frankfurt, an official said Thursday
all airlines operating in West Germany
were told in early November about the

Eight deacons will be ordained priests in the Congregation of the Holy Cross at Sacred Heart Church at 4:30 p.m. on Saturday, April 1. The eight to be ordained are Rev. Michael Belinski, Rev. Mr. Terence Coonan, Rev. Mr. Richard Gribble, Rev. Mr. James Gumbahan, Rev. Mr. Robert Laughey, Rev. Mr. Stephen Newton, Rev. Mr. Martin Nguyen, and Rev. Mr. Joseph Ross. All those to be ordained, except Newton, joined the Holy Cross Fathers at Moreau Seminary. Newton entered Holy Cross Seminary here. All except Ross were ordained deacons last March at Notre Dame. Ross received the diaconate on March 2. Five of the deacons hold Masters of Divinity degrees from Notre Dame, with Belinski and Gribble receiving theirs from the Jesuit School of Theology in California and Newton receiving his at Loyola in Chicago. Inmate James Brown works with a prison choir while supporters try to win early release for the "Godfather of Soul" in a nationwide campaign. Jesse Jackson urges compassion for Brown, who is serving a six-year prison sentence for trying to run over two police officers during a two-state chase last fall. But the campaign to free Brown has not persuaded South Carolina corrections officials to move up Brown's parole eligibility date from May 12, 1981. In his spare time, Brown sings with the choir and composes on a laptop keyboard. -Associated Press

Community Service Commissioners must attend a mandatory meeting at 4:30 p.m. on March 30 and 21 at the USC Center for Social Concerns. For more information, contact Mary Sue at 4414, or the CSC.

A Latin American Pena will take place at 8 p.m. Friday, March 17 at the Community House of University Village (U.S. 31, North of Campus). The event is co-sponsored by the GSO and GALA. Food and drinks will be provided.

The Feast of Saint Patrick will be celebrated at Sacred Heart Church today at 5 p.m. Bishop John d'Arcy will preside. All of the sacred music for the liturgy is by Irish composers and will be offered by the Notre Dame Folk Choir.

City, student gov't officials meet on Off-Campus crime

By SARAH VOIGHT
Staff Reporter

In an unprecedented meeting of both campus and city representatives on the problem of off-campus crime, South Bend Police Chief Ronald Marciniak and Mayor Joseph Kernan met with members of student government and Vice President of Student Life John Goldrick on Wednesday.

Tom Doyle and Mike Paese, student body president and vice-president, asked Goldrick to organize the closed meeting to discuss ways to help prevent students from becoming victims and targets of off-campus crime. Neither Marciniak nor Kernan had ever met with students to discuss the South Bend crime problem before.

According to Doyle, the meeting "laid the groundwork for improved relations between the student body and the South Bend police force. We were able to voice student concerns and learn what the police expect from students. Matt Breslin and Dave Kinkopf will continue this practice this semester and next."

Doyle said that crime prevention officers have offered seminars in high-risk neighborhoods to educate students about locks, alarm systems, and other preventative measures.

Marciniak urged students to become involved in these neighborhood crime groups. "In the past, it has been difficult to get student participation at these meetings. We often have only had a few students show up," he said.

Doyle also voiced off-campus students' concern about gang violence in the area. He said, "The police have assured us that there are two officers working full-time tracking gang movement. We all want to keep them out of the north-eastern neighborhood."

Doyle said that the use of canine squads to break up parties was a "touchy issue. We feel that the need for dogs is unnecessary and we are looking into the possibility of keeping them out of parties."

According to Marciniak, however, the use of canines to deal with large crowds such as parties is standard procedure. He said, "We have no specific task force to break up student parties."

"The students seemed to ask why the police waste time breaking up parties when there are serious crimes in the area. I responded that the consumption of alcohol by a minor is a violation of state law and we must respond," Marciniak said.

Police surveillance for St. Patrick's Day was also discussed at the meeting. Doyle said, "The police chief told us that no extra measures were planned for the holiday. He said that the force does not expect any problems as long as the students act within reason and don't challenge the authority of the police."

Kernan said, "The meeting was a great opportunity to get together with representatives of student government to talk about mutual concerns."

Warning continued from page 1

radio-cassette player containing explosives.

Manfred Langendorf, chief of the Indiana state interior ministry's office for airport security, said the West German warning "included a photograph of the radio-cassette bomb and all airlines were notified, including Pan Am."

"Our warning to all airlines went out in early November and security was stepped up then," he said.

A photostat of the Dec. 19 warning "The police have assured us that there are two officers working full-time tracking gang movement. We all want to keep them out of the north-eastern neighborhood."

Doyle said that the use of canine squads to break up parties was a "touchy issue. We feel that the need for dogs is unnecessary and we are looking into the possibility of keeping them out of parties."

warning published by the Daily Mirror showed it addressed to "All U.R. airlines (and El Al, Air India, U.S. airlines, and South African Airways)."

The Mirror said the notice advised security authorities to look for telltale signs: that the instrument wouldn't play, its insides would rattle, the X-ray would show more wiring than usual and the antenna socket would be taped shut.

Pan Am said a memo dated Dec. 19 did not reach it until Jan. 17, but it declined further comment.

Trans World Airlines said Thursday the Federal Aviation Administration told it Nov. 18 of the bomb found in West Germany. British Airways said it got both warnings from the Transport Department on the days they went out.

Matheney could face death penalty

Associated Press

SOUTH BEND—An inmate charged with killing his wife during a brief prison furlough will face the death penalty if convicted, a prosecutor said Thursday.

"We believe the death penalty is appropriate, and we intend to pursue it to the fullest extent," said St. Joseph County Prosecutor Michael Barnes.

The defendant, Alan Matheney, 38, is charged with murder and burglary in the March 4 beating death of Lisa Bianco. She was assaulted outside her Mishawaka home by a man wielding an unloaded shotgun, police said.

Barnes said the formal paperwork seeking capital punishment will be filed Monday in St. Joseph Superior Court.

"We’ll allege a minimum of one aggravating circumstance listed under the law for imposing the death penalty," said Barnes.

Indiana law cites burglary as one of 12 aggravating circumstances that permits authorities to seek the death penalty.

Matheney has filed a notice of intent to plead insanity. "It’s a legal defense and we’ll prosecute it the best we can," said Barnes.

Hours before Bianco’s death, Matheney received an eight-hour furlough from the Industrial Correctional Complex in Pendleton, where he was serving an eight-year term for beating Bianco in 1987.

He visited the Granger home of a friend, where the prosecution alleges he committed burglary by taking the .410-gauge shotgun used to bludgeon Bianco.

Matheney was returned Tuesday to the custody of the Department of Correction and transferred to the Indiana State Prison at Michigan City.

Barnes said he has met with Madison County Prosecutor William Lawler to discuss Matheney’s actions in the county after his release from prison. Pendleton is in Madison County.

Government says apples are not a health hazard

Pesticide scare may cripple apple industry

Associated Press

WASHINGTON— Federal health officials sought Thursday to calm growing public fear over the consumption of apples by children, telling Congress that pesticide levels on apples pose no "imminent hazard" to preschoo lers.

Several senators said the uproar over the use of the chemical Alar on apples and its health effects on small children has produced an apple scare that threatens the industry from New York to Washington state.

"The apple market is dead as a doornail right now across America," said Sen. Steven Symms, R-Idaho, whose family is in the apple business. Other senators said they now hesitate to give apple products to their own children.

Many apple growers and processors say their apples are free of Alar, which has been linked to cancer in animal tests. But large numbers of parents are reported to have stopped giving apples to their children since a private environmental group said youngsters were especially at risk from the chemical because they eat more apples and apple products than adults.

School districts in Los Angeles, Chicago, New York, San Francisco, Miami and elsewhere have stopped providing apples in school cafeterias since the report by the Natural Resources Defense Council gained widespread publicity last month.

At a Senate subcommittee hearing on the apple controversy, Sen. John Warner, R-Va., urged the Bush administration "to exercise some crisis control" because apple growers, even those who do not use Alar, are being hurt and parents are confused by conflicting information.

Three federal agencies, the Food and Drug Administration, the Environmental Protection Agency and the Agriculture Department, issued a joint statement urging parents and school officials to continue providing children apples and apple products, saying there is no "imminent hazard posed to children in the consumption of apples at this time, despite claims to the contrary."

"The University hopes the project will set an example to the alumni clubs across the country so that they will create their own "Christmas in April,"" said Doran.

Art for her sake

Maria Koch puts some finishing touches on her art exhibit at the Las Gallery at Saint Mary's. Completion of the exhibit is required in order to graduate.

Repair

continued from page 1

who is affiliated with the North- east Neighborhood Center. "These are people who can't afford to do the repairs on their homes any other way than if the materials and labor are donated. There are a number of elderly people in the neighborhood (with) monthly incomes between $300 and $700," she said.

The selection committee also inspected the houses and tailored the repairs to the needs of the houses and the capacity of the volunteer workers.

The 20 workers at each house will probably address roofing, plumbing, heating, electrical, painting and general cleaning needs. Donations of materials and monetary gifts by over 20 local businesses and residents will cover the costs of "Christmas in April." The project organizers stress that they are still accepting donations. Interested donors may contact volunteer coordinator Pat Doran at 359-6556.

"The success of the project is dependent on widespread support from both Notre Dame and South Bend," said Missy Conboy, publicity chairman.

"The response for the Notre Dame and South Bend community to the request for volunteers has been outstanding," said Conboy, an assistant athletic director at Notre Dame.

Several residence halls at Notre Dame have made "Christmas in April" their annual community service project. Some halls have already confirmed the participation of 95 percent of their residents, according to Doran.

Doran said his appeals to the Saint Mary's students and the Notre Dame faculty and staff have encouraged 200 and 50 people respectively to volunteer.

"We'd liked to see more (student) volunteers from off-campus," said Doran, assistant director of Residence Life at Notre Dame. "Since they live on the Northeast side which is adjacent to the campus, ("Christmas in April") is an opportunity for them to promote better relations with their neighbors. Volunteers will work side by side with the family members who live in the houses.

"The service project was started in Midland, Texas about 10 years ago. It has spread to Washington, D.C., which will repair 80 inner-city houses this April."

The service project could go to another neighborhood," said Mannix. "It makes such a difference to do houses all in one neighborhood because it's easier to see the overall improvement," said Conboy, who repaired houses in 1986 during "Christmas in October" in Kansas City.

In case of rain on April 8 the project will be postponed to April 15. A party for the volunteers will be held at the Alumni-Senior Club on the Notre Dame campus following the completion of the project which will run from 8 a.m. to 4:30 p.m.

Along with South Bend, three other cities will begin their inaugural year as "Christmas in April" cities next month, joining the 16 veteran cities across the nation.

THE OBSERVER is currently accepting applications for the following position:

Cheney faces difficult job in Defense Dept.

Associated Press

WASHINGTON- Dick Cheney, the Wyoming congressman about to become secretary of defense, is tackling one of the most difficult management jobs in government with only an outsider's knowledge of modern weapons and with the extra weight of a late start.

"All the problems are compounded" for Cheney, says Caspar Weinberger, who served almost seven years in the job.

"He's a fine choice and he will be very good. But he faces a very daunting task," Weinberger said in an interview Thursday.

Other officials still inside the Pentagon, who asked not to be named, say it's possible for an outsider to jump into the huge military bureaucracy and shine.

For example, one said, Melvin Laird did well in the Nixon administration. And Cheney, who like Laird held a leadership post among House Republicans, is no stranger to most of the big issues, the official added.

But Cheney is about to leap from running a Capitol Hill office with relatively few employees to becoming the boss of 3.1 million people. And he is doing so with little time to select key assistants and aides.

The first important job he'll face is trimming the fiscal 1990 budget. And he's never played that peculiar brand of Pentagon politics.

"Dick Cheney is about to walk into this job right when it's time to play referee among four services that are attacking each other in hopes of saving their own budget," said one official.

President Bush already has ordered the Pentagon to slash about $6.4 billion from its fiscal 1990 budget proposal "and now it's dog-eat-cat time," the source said.

Weinberger recalled such military budget fights, saying, "Everybody has recommendations of their own—their own hopes and needs—and there's never enough for everybody. It will be very, very tough" for Cheney.

To make matters worse, the congressman doesn't have the detailed military-program knowledge possessed by Bush's first choice for the job, John Tower.

Tower, a former chairman of the Senate Armed Services Committee, was widely known for his exhaustive knowledge of such details. His personal life, however—including allegations of excessive drinking and womanizing and his financial relationships with military contractors—led to rejection of his nomination last week.

Cheney, by contrast, after being lauded for his honor and integrity, was approved 26-0 Thursday by the Armed Services Committee and is expected to clear the full Senate without opposition Friday.

One Pentagon official said anyone who sets his mind to it can learn what weapons the nation needs and how they're produced and how much they cost.

"But that takes time, and Cheney doesn't have any," he said.

Spring singer at SMC

Ying Yeh, right, a graduate student at the University of Illinois, creates harmonic interludes with her voice as Andrew Adams watches from his seat at the piano.

Their performance was part of the Graduate Recital Artist Series performed at Saint Mary's Little Theater on Thursday.

If you’ve ever dreamed of being behind the controls of an airplane, this is your chance to find out what it’s really like.

"PURPOSE"

PURPOSE

"PURPOSE"

PURPOSE

PURPOSE

PURPOSE
CHRISTMAS in APRIL is a one-day work session during which the homes of the needy, elderly, and handicapped residents of the Northeast Neighborhood will be renovated and repaired by teams of volunteers. The South Bend Community has joined forces with the students, faculty, and staff of the University of Notre Dame and St. Mary's to make Christmas in April a reality for some Northeast Neighborhood homeowners. It will be followed by a picnic.

Who can volunteer for CHRISTMAS in APRIL?

Anyone eighteen or older can be a Christmas in April volunteer. Volunteers come from churches, businesses, schools, community service organizations, corporations, associations, and interested individuals. They represent all professions. Volunteers need not be skilled at home repairs, but those who are will be well placed.

What repairs are done?

Each scope of repairs is tailored to the need of the individual participant and the capacity of the volunteers recruited for the Christmas in April. It is anticipated that roofs, weatherization, plumbing, heating, and electrical needs will be addressed. Yards will receive a Spring cleaning and, if needed, the painting of home exteriors to give a new face to the neighborhood.

What can YOU do? ? ?

❖ All we ask is a donation of one day of your time and energy. Any special talents you have, such as carpentry, or electrical or plumbing skills, would be greatly appreciated...
❖ Enthusiasm, though, is the most important contribution you can make. Anyone and everyone can handle a paintbrush!
❖ We are also in the process of seeking contributions of materials and supplies, as well as monetary donations to cover our necessary expenses.
❖ There will be sign up opportunities within your hall. For more information contact your hall president or community service commissioner!

Yes, I am interested in participating in "Christmas in April" on April 8, 1989.

Agee exercised poor judgment

Dear Editor:

I attended the talk on Wednesday night by Mr. Philip Agee, the 1956 Notre Dame graduate who became disillusioned about covert activity and decided to resign and to write a book exposing its activities. He had been a U.S. government official as well as a CIA agent and was the author of a book about covert operations of the CIA.

However, I became seriously at odds with him during the question and answer session which followed when he painted a picture of Nicaragua and Cuba as shining examples of successful revolution for the rest of Latin America and even for the poor and homeless in our own country. This is an appalling revelation in light of the fact that opposition, especially in the latter country, is silenced, and the media are controlled by the state. The state entrenches itself in power either through overt force and intimidation or through one-time-only elections in which only the ruling party is allowed to participate freely—-not a very good example for the liberal "intellectuals" of this country to follow in their quest to liberate the destitute.

Furthermore, while Mr. Agee may have had his own personal agenda (acquired while socializing with leftists in Mexico City) which prevented him from giving the talk objectively, his presentation was so one-sided that he wrenched the covers of the agents in his book, he compromised countless missions and endangered the lives of many of those agents. While he was quick to point out the failures of the agents, he never came to any of them, I see this as a combination of luck on the part of the agents and probably a lot of hasty exits under guard from duty stations.

Finally I would like to point out that the polite reception Mr. Agee received for a man who is against him, sounds like a leftist version of Lyndon B. Johnson.

Expression of ideas enables freedom

Dear Editor:

We feel that the attitudes reflected in Mr. Murray's letter of March 1 are potentially dangerous to the academic integrity of the University. Few among our intellectual and spiritual community would argue the need for diversity at Notre Dame. Sincere differences, however, lie in the means to accomplish this fundamental goal. In an attempt to reconcile the obvious polarization of opinion concerning "Common Sense," we question two of Mr. Murray's premises.

First, what exactly is a "good type of diversity?" And second, what are the relevant implications of "limits of tolerance?"

Mr. Murray, and perhaps many among us, must realize that diversity, like anything worthwhile, comes at a substantial price. That price is the opening of one's self to ideas which challenge one's intellectual, religious, and social presuppositions. Indeed, we cannot allow any of these areas to be immune to questioning. What some like Mr. Murray consider the blasphemy of the sacred, another could see as a legitimate criticism of the Church authority. The very "spirit" of Vatican II recognizes the inherent value in and necessity of dissent, whenever disagreements among the Christian community emerge. If the Church is to be "objective" and "universal," it cannot be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." If Mr. Murray's search for "good diversity" and "limits of universality" are not to be rendered mutually exclusive, we must embrace the vision that, in the words of Father Malloy, "The mind can be a valid route to God." Parents appreciate ND support

Dear Editor:

On Jan. 17, our daughter, Mary Har­­rison, and two other students were in­­volved in a very serious automobile ac­­cident near Pittsburgh.

At the accident scene, we were over­­whelmed by the response received from the Notre Dame/Saint Mary's commu­­nity.

From that very first night, in the in­­tensive care unit, we were continually provided with an incredible support system. It was comprised of parents, students, faculty, and members of the university administration. There was never a time that we did not experience some ex­­pression of concern, or an offer of help.

Sister Frances, of Westminster Hospital, said that she believed Mary's rapid recovery was due in large mea­­sure to the wonderful support she received from all of you.

We do too, and we are so grateful.

Mr. and Mrs. W. Harold Neupert,
Naperville, Illinois

St. Mary's negates religious debate

Dear Editor:

On March 15, Terry Martin gave a lecture at St. Mary's entitled "Honoring Other Religions: the Why and How of Dialogue."

Thinking, for some reason, that this lecture might present a unique opportu­­nity to encourage a Muslim Christian dialogue at Notre Dame Saint Mary's, I began passing out leaflets extending to the theologians of Saint Mary's the challenge to a public debate on the Doctrine of the "resurrection of the dead" and the scriptural basis of Mohammed's authority for the Revela­­tions he received.

I had distributed only about 10 to 15 leaflets, however, when an official of Saint Mary's informed me that I would not be permitted to distribute such information on campus. So much for "Honoring Other Religions. . ." and the "How of Dialogue."

Admittedly, Saint Mary's has the le­­gal right to restrict the information which is distributed on its premises. But what if the students of Notre Dame and Saint Mary's should understand is that, in the real world which exists beyond the university community, Islam is a religion of approximately 1 billion adherents, who are not simply going to go away because Charlie don't choose to ignore them. By artificially suppressing any serious, official dis­­cussion of the religion of Islam—the theologians at Notre Dame have already ignored the challenge to debate this doctrine for 11 years—Notre Dame and Saint Mary's are simply not fulfill­ing their responsibility to educate their students to the reality of living in the modern world.

As high as the tuition is for students at Notre Dame and Saint Mary's, one would think that they deserve as much information, and from as many differ­­ent perspectives, as possible.

When you hear the name "Fighting Irish," the first things that come to mind are usually football greats such as Knute Rockne, George Gipp and the Four Horsemen. But how did Notre Dame receive its nickname, when the founders of the university were French? And did the Irish have a reputation for being rowdy, dirty drunkards?
The 1899 team went on to win the game 9-6 and finished the season undefeated, the Northwestern game being the only one played. As a result, the term "Fighting Irish," originally meant to be derogatory, soon became a battle cry.

According to Jethrow Kyles, curator of the Joyce Sports Research Collection, the win was "positive for two reasons. First, we began to win. Secondly, the Irishmen took it on as a battle cry and others around the country began to follow Notre Dame."

This particular version was related to a radio sportscaster by Colonel Frank Fehr who was a member of that special team in 1899. He had been a member since first team in 1889.

The Northwestern game was only the second game Notre Dame had won and they never even had a coach.

When the team was first starting out, they did not even know the rules of the game. "They try to decide who would be a good representative of the Irish community in Chicago." The court's activities for today will include a Mass at St. Patrick's Day Parade and also the trip to Ireland. According to O'Neil, the queen of the St. Patrick's Day parade is usually someone who has been on the court in previous years. "I'd love to take my father to Ireland."

Iowa living in Chicago all her life, and I remember growing up (that) St. Patrick's Day was the only day my parents would let me cut class and down and see the parade. It's like a giant party down there."

All of the members of the queen's court receive prizes, but only the queen wins a trip to Ireland. According to O'Neil, the queen of the St. Patrick's Day parade is usually someone who has been on the court in previous years. "I'd love to go on the court again. It'd be great to be queen," she said. "The real reason why I cometed is I like the parade and also the trip to Ireland. I'd love to take my dad to Ireland, because he's been putting so many kids through college. He hasn't

Since you are reading today’s Accent page, you have obviously not begun truly celebrating your assumed Irish heritage for the St. Patrick’s Day holiday. Do not fret, there is still plenty of time left in the day to ensure that it will be enjoyed to its fullest. To ease your worries about what to do, I have done my work and put together a short list of off-campus establishments which promise to be worthwhile locales for your St. Patrick’s Day adventures.

If you have been in the dark studying since you returned from Spring Break, then you may be unaware that both Bridge’s and The Commons opened their doors this morning at 7. Bridge’s is promoting what they call “Break and Bake,” but beware, this is not a promise that solid food will be served. Besides the rumored breakfast being cooked up, The Commons has no other special plans beyond their normal service.

If you were thinking more along the lines of a true Irish meal, several local establishments are serving corned beef, cabbage and Irish stew. Macri’s Deli has a special price of only $1.99 for this meal. They are also giving away St. Patrick’s Day/National Football Championship mugs with the purchase of a 17-ounce drink, alcoholic or not. Lastly, they promise a free meal to the customer who is most appropriately garbed for the holiday.

Today is the second anniversary of the Center Street Blues Cafe’s opening. Patty’s Hackett, an Irish folk band with David James as lead vocalist, starts their set at 9:30 p.m. Cover is only $4, but entry is free should you join them for dinner. Various Irish drinks will go on special at different times during the course of the night.

A student band is playing at Senor Kelly’s in the early evening. So if you desire to start off in a more civil manner, you can enjoy real Irish music, traditional Irish food and green beer while sitting in a comfortable atmosphere.

The HPC will be sponsoring the Buzz Bus as usual this evening. It will follow its normal schedule. If you do plan to spend your time at one of the stops along the Buzz Bus route, I would highly recommend that you entrust your life on the roads to them tonight. Please be careful if you do choose to drive yourself, and please enjoy your St. Patrick’s Day (and night).

Johnson's urine test at Seoul for last fall's Seoul Olympics. The steroid that cost him an Olympic gold medal, without his knowledge, the steroid Estrogol in preparation of the Olympics, Robert Armstrong, senior commission counsel, said outside the hearing. He refused to say whether it has yet been analyzed. Johnson has denied he knowingly took banned drugs. Astaphan, yet to testify, has denied from his home in St. Kitts that he gave Johnson steroids.

“Anything is possible,” Astaphan's lawyer, Lorne Levine, said. “I think it’s somewhat doubtful there could have been a mistake made by Dr. Astaphan or any of the athletes. This is an experienced physician.” Issajenko said she first suspected in 1987 that the steroid Astaphan prescribed was not what he had said it was. She said it had side-effects, particularly muscle stiffness similar to those she experienced with stanozolol.

**IRISH BLOCK PARTY**

*Come one and all from 6-12 p.m.*
Ingram faces charges brought by ex-agents

Associated Press

CHICAGO - Mark Ingram of the New York Giants was pressed by attorneys for sports agents Norby Walters and Lloyd Bloom Thursday about why he was allowed to continue playing at Michigan State after thefts and a jail sentence for breaking into a dorm room.

"Is it still your testimony that the school always followed the rules very strictly?" demanded Bloom's attorney, Dan Webb, after Ingram testified he served 30 days in jail but was allowed to keep his football scholarship.

Ingram's answer was lost as prosecutors voiced objections to U.S. District Judge George Marovich.

Walters and Bloom are on trial for fraud, extortion and thefts and a jail sentence for breaking into a dorm room.

Both agents have pleaded innocent, saying they were the victims of athletes and universities hungry for money. Their trial is in its second week before a federal court jury.

Ingram, a wide receiver who played at Michigan State from 1983 through 1987, testified that he signed a contract with Walters and Bloom in 1986, before his college eligibility had expired, in violation of NCAA regulations.

He said Walters told him he would postdate the contract to Jan. 2, 1987, telling Ingram that "Michigan State would always be there and I need to look out for Mark Ingram.''

Ingram acknowledged that he served the time for breaking and entering, but he said MSU officials decided not to revoke his scholarship because they felt the time in jail was punishment enough.

But Webb pressed Ingram on his conduct at the university.

Akeem Olajuwon (34) and the Houston Rockets defeated Milwaukee 120-104 last night in NBA action. In other games played last night, Philadelphia beat New York 121-112 and Boston triumphed over Indiana 114-99.
Second baseman Mike Mosher (3) and the Notre Dame baseball team travel to Durham, N.C. this weekend to play Duke and North Carolina A&T as they look to continue their ascent up the collegiate baseball poll.

Baseball
continued from page 20

Murphy knows that the team cannot suffer a letdown against other teams after victories over Miami and Texas earlier in the season, especially since every school would love to beat the Irish. Murphy would also add another factor to the opponent's minds.

"I think we set the tone last year with our outstanding record," said the Irish coach, whose team finished 29-22 last year. "Every team will be gunning for us not only because our recent success or national ranking, but because everybody likes to beat Notre Dame. It would make their seasons to beat us."

The Irish are also watching injuries to two key senior pitchers that could prohibit them from playing. Both Mike Passilla and Erik Madsen are experiencing soreness and are both listed as day-to-day.

Day-to-day solid performances is what Murphy is expecting from his players. "I think the key is working to improve everyday," said the Murphy. "Baseball is a game meant to be played everyday."

"One or two games do not make a season. We have to maintain our team identity which is a blue collar team that's very aggressive and goes out and plays."

Hoop
continued from page 20

fouled driving the baseline with three seconds left and this time he made both. Terry Taylor's 75-footer at the buzzer hit the backboard. He made both.

Sixteen more first-round games will be played Friday. In East games at Providence, R.I., No. 19 North Carolina State plays South Carolina, No. 14 Iowa plays Rutgers, No. 2 Georgetown plays Princeton and Vanderbilt plays Notre Dame. In the Southeast at Atlanta, No. 10 Michigan plays Xavier of Ohio, No. 20 Alabama plays South Alabama, No. 5 North Carolina plays Southern and UCLA plays Iowa State.

In Midwest games at Dallas, No. 7 Syracuse plays Bucknell, Florida plays Colorado State, No. 6 Missouri plays Creighton and Georgia Tech plays Texas. In West games at Tucson, Ariz., Oregon State plays Evanville, No. 11 Seton Hall plays Southwest Missouri State, No. 8 Indiana plays George Mason and Texas-El Paso plays Louisiana State.

Softball team prepares for first home opener

BY COLLEEN HENNESSEY
Sports Writer

The Notre Dame women’s varsity softball team will play a historical home opener today when it takes to the field in a double-header against Saint Mary’s. The games, to be played at 3:30 p.m. on Alumni Field, will be the first home appearances for the Irish as a varsity team, a status achieved last spring.

“Saint Mary’s has always been a big game on the Notre Dame schedule,” said Head Coach Brian Boulac. “It’s a big rivalry. They’ve won the majority of games in the past, but we’re looking to turn that around as a varsity team this year.”

Notre Dame, coming into the game with a 4-4 record, is both confident and excited about the inaugural season.

“This is a developmental year, a growing year,” said Boulac, who is assisted by former catcher and Saint Joe’s Joe Speybroek. “We have to feel our way and put our best foot forward.

Participation in a tournament over spring break in Evansville, IN, has helped the team to adjust to the transition between club and varsity status, especially a 5-1 win over a tough Evansston team.

“That win gave us a lot of confidence,” said Boulac. “We really proved to them and to ourselves that we can play with them. We are definitely playing better than we expected to be at this point.

“Right now we’re just working on some fundamentals—batting, keeping the bunts down and fielding situations,” said freshman pitcher Melissa Linn, who leads the team at .450 in the clean-up slot.

“We’re just excited about the season. We’ve been practicing and conditioning since September and we’re just so ready for a game. People don’t know what to expect from us as a team. We’re really looking to surprise them.”

The combination of freshman Laurie Summala at second base and Ruth Kamak at shortstop is particularly noteworthy.

“Laurie’s really something there,” emphasized Linn. “Especially on double play situations, it’s like they have an 11-game winning streak.”

Another player capable of making a real contribution both in the field and at the plate is Rachel Crossen, a sophomore transfer from Saint Mary’s. Starting in center field, she is already hitting .450 in the clean-up slot.

“We are enthusiastic about building a winning softball tradition at Notre Dame,” said Liddy. “There is noticeable improvement from game to game and if we continue to progress and the chemistry is positive, we have the potential to win a lot of ball games this spring.”

Hoosier Hysteria hits JACC
South Bend Semistate features top Indiana hoopsters

BY GREG GUFFEE
Assistant Sports Editor

The Joyce ACC will be filled with 11,000 basketball fans Sat­urd­ay, but Digger Phelps will have more seats in Providence, Rhode Island.

Hoosier Hysteria hits Notre Dame in the form of the South Bend Semistate, featuring four of the top high school basketball­ teams in this basketball crazy state. The winner advances to the sold-out Final Four in Indianapolis next weekend.

The first game is being billed by many as the state champi­ onship battle. No. 1 ranked and undefeated (26-0) Marion plays No. 3 South Bend St. Joe’s, 27-1 and ranked No. 1 for a majority of the year. Tipoff is set for 11 a.m. and the games are sold out.

In the second contest, Elkhart Memorial (16-4) meets Fort Wayne Concordia (22-5). The championship is set for 2:15 p.m. Saturday evening.

For Marion, playing in the semi­state is no foreign experi­ence. The Giants have won 11 state championships in the last 15 years.

“This is a developmental year, a growing year,” said Boulac. “It’s a transition between club and varsity status, especially a 5-1 win over a tough Evansston team.

“We really proved to them and to ourselves that we can play with them. We are definitely playing better than we expected to be at this point.

“The sam e three teams were advanced into Thursday night’s finals at the Indiana University Natatorium,” she will meet fellow Olympian Dana Torres of Florida. The championships conclude Thursday of Texas (4:40.80) and Stanford (2:00.41) and Angel Simmons of Arizona (4:44.48), were expected to challenge each other in the final.

Julia Gorman of Florida, last year’s champion in the 500 free, didn’t make the finals Thursday. She qualified in 4:48.34 for the consolation heat.

The championships conclude Saturday.
ND lacrosse travels to Penn State tournament

By PETE LAFFLEUR
Sports Writer

The Notre Dame lacrosse team travels to the Penn State Tournament this weekend in search of its first victory of the year after an 0-2 start over Spring Break.

The Irish will face Penn State tomorrow in the four-team tournament, to be held in University Park, Pennsylvania. The meet of the Notre Dame-Penn State game will then face the Lehigh/Nazareth victor in the championship game Sunday.

The Nittany Lions are 2-3 this season, having lost to North Carolina and Loyola College. Both teams are among the top-10 teams nationwide. Notre Dame coach Kevin Corrigan is well aware of the serious threat the Lions pose to his young Irish squad.

"I have a lot of good athletes on their team and are pretty well balanced," Corrigan said of the Lions. "They have an excellent first midfield and a good bunch of shooters."

The Irish will be counting on continuing scoring from their attack line, which poured in nine of the 14 Irish goals scored in last week's losses to SUNY-Stony Brook and Georgetown. Junior Brian McHugh leads the attack with four goals and two assists while senior tri-captain John Omellem has four goals for the season.

The Irish first middle line of junior Mike Quigley, sophomore John Capano and freshman Chris Nelson combined for four goals and two assists on the spring trip.

Corrigan said the play of the Notre Dame midfielders and sustained intensity will be major factors toward Irish wins. In the opening losses, the Irish cleared the zone effectively yet had trouble converting on man-up situations and struggled to hold on to leads. "Defensively, we will have to contain their midfielders and disrupt their进攻ive rhythm," Corrigan said.

The Irish will look for defensive leadership from junior goalie Jeff Glazer, who had 27 saves in the first two games, and senior tri-captains Kevin O'Connor and Doug Spencer.

Kevin Corrigan said that playing a complete game will be paramount to the team's success. "The big thing concerning ourselves is that we play 60 minutes of lacrosse and not have any lapses in intensity," he said.

In order to encourage that kind of sustained intensity, Corrigan said he would try to not ease up in practices this week.

Then hopefully that (concentrated intensity) will carry over to the games," he said.

Possession, said Corrigan, will also be a key factor in this weekend's games. The Irish this year have been strong on clearing/riding situations and have had a lot of groundball possession.

"We've really got to get on faceoffs, but Corrigan said ground balls will be the major factor against Penn State.

The Purdue match is the second for Notre Dame this weekend. The Irish played Western Illinois on Saturday. The Westerners will meet Notre Dame at 1 p.m. at the Ecke.

Purdue did not play W.I.U. last year, but the Irish beat the Westerners in 1986 and presently hold a 3-1 advantage in the all-time series.

"The teams obviously have changed a lot since then," commented Gelfman. "So it's difficult to predict how it will go. I think the matches should be close."

The Irish are coming off a successful trip to California where they went 4-1. Despite the victories, Gelfman still feels the team must improve its play if it is to become truly competitive in collegiate tennis.

"We can't be too creative," said Gelfman. "We've got to concentrate on playing the percentage shots. We're building to the toughest part of our schedule and the girls are all looking to play the way we need them to in order for us to do well."

Despite the relative health of the Irish, Gelfman hesitated to name this weekend's starting lineup. Only senior Alice Laberger, out for the season with a back injury, will miss this weekend's action.

Tennis squad prepares to face Purdue and WIU over weekend

By CHRIS COONEY
Sports Writer

The Notre Dame women's tennis team will get a taste of future competition when it faces two Big Ten opponents this weekend. The Nittany Lions of Pennsylvania will visit the Eck Tennis Pavilion Sunday at noon. The Boilermakers are the first of six Big Ten teams the Irish will face this season.

The match was originally scheduled to take place on April 21, but an unexpected early season stretch forced the move.

"We can't be too creative," said Gelfman. "We've got to concentrate on playing the percentage shots. We're building to the toughest part of our schedule and the girls are all looking to play the way we need them to in order for us to do well."

Despite the relative health of the Irish, Gelfman hesitated to name this weekend's starting lineup. Only senior Alice Laberger, out for the season with a back injury, will miss this weekend's action.

The 7-4 Boilermakers are a formidable team and a good preview of what we'll face this year," said Gelfman.

"This year have been strong on clearing/riding situations and have had a lot of groundball possession."
CAMPUS
FRIDAY, MARCH 17
3:30 p.m. Notre Dame women's softball vs. St. Mary's.
7:30 & 9:45 p.m. ND Communication and Theatre Film, "Wedding in Galilee," Annenberg Auditorium.
1:00 p.m. Notre Dame men's tennis vs. Western Illinois, Eck Pavilion.
SUNDAY, MARCH 19
11:00 a.m. Missa en Espanol, Farley Hall Chapel.

Baseball team continues meteoric rise in Durham

By SCOTT BRUTOCAO
Sports Writer

As the Notre Dame baseball team rectifies itself for a four-game roadtrip this weekend, Head Coach Pat Murphy is not only concerned with wins, but also with consistency.

"In the game of baseball you can't be just satisfied with wins and losses," said Murphy. "You've got to be obsessed with playing day in and day out and forming a consistent program."

Forming a consistent program is especially important for Murphy's young Irish team as it travels to North Carolina to take on Duke and North Carolina A&T on Saturday and Duke and St. Bonaventure on Sunday.

"What's important is the respect that we bring on the field, and to do that we have to learn to play consistently," said the second-year coach. "That's very hard to do when you have a young and inexperienced team." Indeed, the 25th-ranked Irish are very young, as there are only six seniors on the entire 54-man roster. The team is also flush with freshmen on the lineup.

Notre Dame will be facing Duke twice over the weekend. According to Murphy, Duke is an improving team with a new head coach that is rebuilding the program. "Duke is a vastly improved team and they play in one of the toughest conferences in the country (the ACC)," said Murphy. "Their pitching is very good."

The coach, Steve Traynor, is turning around the Blue Devils' program from a dismal 10-35 record last year to a 9-2 current mark. One of the reasons for this turnaround has been junior pitcher Mike Trombley, who will most likely be facing the Irish on Saturday.

St. Bonaventure is coming off a 26-21 season under the coaching of Larry Sudbrook. The Bonnies are led by junior third baseman Mike Treehouse, and their contest with the Irish will be their first game of the season.

"St. Bonaventure is coming off a great season and they've got a veteran team returning," said Murphy. "Since it's going to be their first game they'll be all jacked up to play us. We've got our number one pitcher and it will be a dogfight."

North Carolina A&T, which finished with a 4-22 record last season, is led by coach Paul Moore and coached by Calvin Lang.

They just can't get enough
Eilers, Jacobs take on two sports in spring season

By PETE GEGEN
Sports Writer

When tight end Frank Jacobs and flanker Pat Eilers approached Lou Holtz about playing baseball for Notre Dame this spring, the Irish coach didn't see a double practice.

And he was right. The two players got their first taste of a double practice Wednesday at the opening of football practice.

Both are keeping up the consistent efforts at the deal, too. Jacobs, who had three hits and the game-winning RBI against Pittsburgh, has started to games as a designated hitter and first baseman.

Eilers, who scored the winning touchdown against Miami last fall, did the Hurricanes in again in his only appearance on the baseball field. He scored the go-ahead run as the Irish upset the Hurricanes 4-2.

The first two days of practice saw a lot of players in new positions. Junior third baseman Mike Treehouse, who is expected to be the starting pitcher this year, was moved from outside to inside linebacker.

"He does some things naturally there. His temperament is perfect for inside linebacker," said Eilers. "The move also helps fill the hole created by Stonebreaker's absence in the field. According to Alvarez, the All-American linebacker already is ahead of schedule on his rehabilitation."

Troy Ridgley has moved from linebacker to nose guard, and with Ricky Watter's move from flanker to tailback, Richard Ismail has moved from split end to flanker. Finally, guard Winston Sandini and center Gene McGuire have traded positions.

Players are not the only ones moving around. A few offensive coaches have changed positions, starting with Holtz giving up his role coaching quarterbacks to Pete Corellii. Offensive line coach Tony Vowelich also moved from outside to inside linebacker.

Offensive line coach Tony Vowelich slides outside to take over the receivers from Cordelli, and strength coach Scott Rariden has stepped out of the weight room and onto the field to help Joe Moore with the offensive line.

Graduate assistant Jay Hayes is filling the vacancy created by former linebackers coach George Stewart's departure for the Pittsburgh Steelers.

Track end doesn't justify the means

As we head for the 1990s, I thought the arguments and complaints about sexual discrimination in athletics were nearly extinct.

But some members of the women's track team-two in particular-wanted one more victory for equal rights. They wanted to challenge a system that they felt had been unfair to them far too long.

They demanded that their club team be elevated to varsity status, a status they had sought for some time. The club team had a dism al 10-35 record last year to a 9-2 current mark. One of the reasons for this turnaround has been junior pitcher Mike Trombley, who will most likely be facing the Irish on Saturday.
