Class of 1989 says farewell to ND, SMC

By CHRISTINE WALSH
Senior Staff Reporter

2341 graduate ND on Sunday

The Class of 1989 will bid farewell to the University of Notre Dame in the 140th Commencement Exercises, Sunday, May 21 at 2 p.m. in the Joyce ACC.

The Class of 1989 includes:

- The increased fiscal health of the University.
- The augmentation of minority hirings in front office positions.
- The increased fiscal health of the University.

Einloth was salutatorian of the Notre Dame Class of 1989. Einloth, an electrical engineering major from Pittsburgh, Pennsylvania, boasts a 3.96 cumulative GPA after seven semesters.

Brian Einloth graduates first in Notre Dame class of 1989

By MICHELLE DALL
Senior Staff Reporter

Brian Einloth, valedictorian of the Notre Dame Class of 1989 considers the title "a great honor." Einloth, an electrical engineering major from Pittsburgh, Pennsylvania, boasts a 3.96 cumulative GPA after seven semesters.

The sole grade marred Einloth's otherwise perfect record was a "B" he received in a one-credit chemistry lab course his freshman year.

Einloth, an electrical engineering major from Pittsburgh, Pennsylvania, boasts a 3.96 cumulative GPA after seven semesters.

Einloth was salutatorian of his high school class. As an engineering student, he typically carried 16 or 17 credit hours per semester. A strong academic background in math and science initially contributed to Einloth's interest in engineering. "I was pretty good at math and liked science," he said. "I thought engineering would be a good way to incorporate both my talents and interests into one field, instead of restricting myself to either just math or just science."

Einloth has spent the past two summers as an intern at the Delco Electronics Corporation, in Kokomo, Ind. He will begin full-time work at Delco in June.

Following graduation, Einloth said he will also "definitely pursue an MBA." He was recently accepted on a deferred admissions policy at the Harvard Business School, which requires three years of work experience before enrollment. Although he says his plans to earn an MBA are certain, Einloth has not yet decided whether he will attend Harvard in 1992.

Continuing his studies in engineering is "so part of Einloth's post-graduation plan--a plan which," he says, "may or may not lead to a masters degree."

Einloth said he is both pleased and honored to be named this year's valedictorian. "You can't possibly figure out who you can attain this honor," he said. "You don't really think about it until it happens."
$33 million has been donated to Notre Dame by Edward DeBartolo of Youngstown, Ohio. The gift, one of the largest ever in American higher education, will underwrite a new academic quadrangle and the construction of two other buildings, the $16 million Edward J. DeBartolo Classroom-Facility and the $14 million Marie P. DeBartolo Center for the Performing Arts, named after DeBartolo's wife who died in 1987. DeBartolo is a graduate of the Notre Dame class of 1922. His son, Edward DeBartolo III, graduated from the University in 1968. The rest of the benefaction will finance general development of the quad, which will extend southward on the east side of N. Notre Dame Avenue, the main entrance to the campus. The classroom-facility is expected to be completed in early 1992 and the performing arts center later that year.

Sacred Heart Church will close following Commencement Exercises Sunday to allow for extensive renovation of its interior. The doors of the 118-year-old church are not expected to reopen until the fall of 1990. In the meantime, Sunday Masses and most Holy Cross Community liturgies will be celebrated in Stepan Center. Approximately 50 alumni masses are normally held in the church each summer. The crypt, where Sacred Heart Parish Masses are also said, will remain open, and small weddings can also be accommodated in the Log Chapel on campus. The interior work is the last phase of extensive renovation of the church.

Father Richard Warner, counselor to the president at Notre Dame, will assume responsibility for the Office of Campus Ministry effective July 1. Father Andre Leveille announced earlier that he was stepping down from his position as director of campus ministry. Leveille said he will return to the University in another capacity following a sabbatical break. Warner will include campus ministry among his other duties, which relate to the Catholic dimension of the University, including its alignment to the Church, and to other Catholic colleges and universities, as well as the role of its founding religious community, the Congregation of Holy Cross.

Notre Dame faculty salaries in 1988-89 remained in the top 25 percent in the nation, according to figures reported in the annual American Association of University Professors survey. The average Notre Dame full professor receives a nine-month salary of $60,000 and compensation (salary plus fringe benefits) of $79,600. Figures for associate professor are $44,500 ($25,900) and for assistant professor are $38,300 ($24,800). Notre Dame was judged one of the top three institutions of higher learning in developing character, according to a survey of 500 members of the Judicial Boards of the two pilot halls and advisors of many sorts and a relatively sedate culture. But we're also leaving particals. And the alcohol policy. And parking on the, Alaskan Tundra. And being broke and having no income. And preaches from Mount Goldendale. And the tray line at North Dining Hall that doesn't seem to ever let you put trays on it. And being treated as not-quite a slave just because you're a female. And your tuition instead of being paid salary. Pessimism? Never heard of it. But when the silver lining gets a little too dear to the heart, it's good to know there's usually a cloud to get the muck out of your system. I'm sure there will be lots of reminiscing this weekend about the national championship, the last final, and the night you passed that great milestone in your life: first 'A', first passport, first sexual experience, whatever. So here's a few little forgotten items to balance everything out.

- Remember the time you were studying for Emil's dreaded final and your roommate brought in a new acquisition from the provisions market? Boy, that hall floor was a great place to practice free throws.
- Remember when the Security guard at main gate didn't believe your excuse about the broken leg and you still hiked your tail to find that keg? You still doing community service for that?
- Remember the dreaded Purdue game when so much gin passed your lips that your friends thought you were passed out and they hauled you off to have your stomach pumped? I bet you still turn green at the smell of gin.
- Remember the WONDERFUL, freshest year roommate?

Father Warner, in an address to the University community, said the awareness of the University's religious roots is a major priority. "The University was born from a belief in the power of higher education to build communities and shape the destiny of individuals who would then work to build Christian communities in the world," he said.

The doors of the 118-year-old church are not expected to reopen until the fall of 1990. In the meantime, Sunday Masses and most Holy Cross Community liturgies will be celebrated in Stepan Center. Approximately 50 alumni masses are normally held in the church each summer. The crypt, where Sacred Heart Parish Masses are also said, will remain open, and small weddings can also be accommodated in the Log Chapel on campus. The interior work is the last phase of extensive renovation of the church.

Father Richard Warner, counselor to the president at Notre Dame, will assume responsibility for the Office of Campus Ministry effective July 1. Father Andre Leveille announced earlier that he was stepping down from his position as director of campus ministry. Leveille said he will return to the University in another capacity following a sabbatical break. Warner will include campus ministry among his other duties, which relate to the Catholic dimension of the University, including its alignment to the Church, and to other Catholic colleges and universities, as well as the role of its founding religious community, the Congregation of Holy Cross.

Answer the Following Test Questions True or False

1. You have graduated, or will graduate, with a Bachelor's or Advanced degree between October 1, 1988 and January 31, 1990. True/False.
2. Pre-approved financing from Ford Credit is available. True/False.
3. $400 cash back from Ford Motor Company can be yours. True/False.
4. You must purchase or lease an eligible vehicle from stock by December 31, 1989. True/False.

If you answered true to all of the above, you're on your way to a Ford Credit card.

Ford Credit Gets You Going

Wachel named as Saint Mary's valedictorian

By TIM O'KEEFE
Senior Staff Reporter

Deanne Wachel has been named valedictorian of Saint Mary's College in 1989.

Wachel, a chemistry/math major, has a cumulative grade point average of 4.0.

"I never thought about it (being valedictorian) that much," said Wachel, "I really didn't start thinking about it until second semester this year."

This is the first time anyone with a double major at Saint Mary's has had a 4.0 GPA, said Brett McLaughlin, public information specialist for Saint Mary's. Teresa Marcy, assistant to the vice president, said it was the first time since at least 1974 that the valedictorian had a 4.0.

Being valedictorian is "a big honor," said Wachel. She claims that she would study "not at all" if there was not a test or assignment coming up: "I had a tendency to do things at the last minute."

Wachel will be working with AT&T Labs until September 1990, when they will send her to get a master's degree in computer science, after which she will continue working for them.

The choice for valedictorian is based solely on grade point average through the seventh semester, said McLaughlin. Wachel, a native of Muncie, Ind., said she has participated in academic clubs, such as the math and chemistry club.

Wachel said she did not have to make any more of a sacrifice than the average student in order to become valedictorian, although because of her double major, she did have to overload her sophomore year, taking about 26 credit hours.

Hatch named new ND vice president for advanced studies

Special to The Observer

Nathan Hatch, professor of history and acting dean of the College of Arts and Letters, has been appointed vice president for advanced studies at the University of Notre Dame by the Board of Trustees.

Hatch, who has been at Notre Dame since 1975, will succeed Robert Gordon, who is retiring after 23 years of service as an officer of the University.

"We expect that Nathan Hatch will take over where Bob Gordon left off in providing forceful leadership in our quest for distinction in graduate education and research," said University President Father Edward Malloy.

The vice president for advanced studies is responsible for the development and well-being of all post-baccalaureate work, the administration of the Graduate School, and all research activities under the provost's office.

"We welcome to the administration a scholar in his own right who, through his directorship of the Institute for Scholarship in the Liberal Arts, has had a dramatic impact on research activity in the College of Arts and Letters," said Provost Timothy O'Meara.

"Nathan will be responsible for continuing to improve our graduate program, enhancing our competitive position in sponsored research and serving as a national University spokesman on research matters," O'Meara said.

Hatch received his B.A. from Wheaton College, his M.A. and Ph.D. from Washington University in St. Louis, and spent a postdoctoral year at Johns Hopkins University before coming to Notre Dame.

In 1977-78 he was a fellow at Harvard University's Charles Warren Center for Studies in American History.

Hatch is a specialist in Ecumenical Church History.

Ruppe, who attended Marymount College in Tar-rytown, N.Y., and Marquette University, received an honorary doctor of laws degree from Notre Dame in 1964.

In 1981, Ruppe was appointed director of the Peace Corps by President Reagan and is the longest tenured in that position.

She has been responsible for volunteer programs in Asia, Africa, Latin America, the Carribbean and the Pacific.

From 1966 until his retirement in 1979, her husband, Philip, served as Congressman from Michigan's 11th District.

Notre Dame's 49-member board, headed by Donald Keough, president and chief operating officer of the Coca-Cola Company, was formed in 1987 when the University changed over to lay governance.
Student, faculty excellence awards given at SMC

Special to The Observer

Awards for students and faculty excellence were announced at the annual honors convocation at Saint Mary’s College.

Teresa Marcy, a lecturer in the department of government, was presented with the Spes Unica Award, given for excellence in teaching and dedicated service over an extended period.

A 1976 graduate of Saint Mary’s, Marcy received postgraduate degrees and taught in France before her appointment to the faculty at the College in 1974.

In addition to classes in government, Marcy has also lectured in the departments of modern languages and business administration and economics. She presently heads the College’s academic affairs office.

Jerome McElroy, professor of business administration and economics, received the Maria Pietra Award, for excellence in teaching freshman- and sophomore-level courses.

A nationally recognized expert on Caribbean Island economics, McElroy has served on several U.S. government panels on Caribbean development.

The holder of bachelor’s and master’s degrees from St. Louis University and a doctoral degree from the University of Colorado, McElroy taught at the College of the Virgin Islands and served as director of planning and research for the Virgin Islands government before returning to the United States to teach. After two years at the University of Notre Dame, he joined the Saint Mary’s faculty in 1982.

Faculty promotions were also announced at the ceremony. Promoted from associate professor to professor was Richard Jenson of the department of biology.

Promoted from assistant professor to associate professor were Gerald Gingras, department of modern languages; Donald Miller, department of mathematics; John Shinnem, department of humanities studies and Douglas Tyler, department of art.

Sally Ann O’Dowd, a junior from Fort Wayne, Ind., was awarded the Saint Catherine Medal, presented each year to an underclassman demonstrating high standards of personal excellence and scholarship along with a strong commitment to Christian ideals.

O’Dowd has been an active member of Amnesty International, Campus Democrats and the Neighborhood Study Help program, and has presented talks to local high school students on the plight of political prisoners around the world.

Other awards presented at the ceremony included:

- Dorothy Manier Writing Awards: Michelle Carusel, Amy Huenekeens, Kenny Scanlon, Marti Wilson.
- Sister M. Frances Kake Awards for Writing: Corin Atkinson, Mary Catherine Jurich, Lynn Vanderbesch.
- National Association for the Education of Young Children’s Writing Award: Theresa Prieshoff.
- National Association for the Education of Young Children’s Art: Janee Eaton.
- Academic Honor Award: Frances Burke.
- Sister M. Rosaleen Danley Award for Outstanding Service: Karen Janison.
- George and Juanda Bick Award: Amy Masius.
- Sister M. Rose Elizabeth Award in Chemistry: Jennifer Brainard.
- KPMG Peat Marwick Congratulates 1989 Graduates who will begin their Professional Careers in our Rochester Office.

The #1 Way to Remember ND's #1 Season—The Limited First Edition of CHAMPIONS: Lou Holtz's Fighting Irish

It’s the book on Notre Dame’s 1988 National Championship year! Written by Bill Bilinski, assistant sports editor of the South Bend Tribune and ND’s beat reporter, CHAMPIONS is the inside story of the Fighting Irish’s return to gridiron glory.

CHAMPIONS is an attractive 208-page, $16.95 hardcover, featuring 16 pages of photos and a foreword by Lou Holtz. Copies of the limited first edition of CHAMPIONS are available at the NOTRE DAME BOOKSTORE now! So don’t leave for home without it! A great Father’s Day gift!

A publication of Diamond Communications, Inc., South Bend, Indiana
ND announces awards

Special to The Observer

Three graduating seniors and a graduate student have received awards from the University of Notre Dame Office of Student Affairs.

Kristen Williams, a senior from Merrillville, Ind., has received the John W. Gardner Student Leadership Award for "outstanding volunteer service beyond the University community."

According to the award citation, Williams is a recovering alcoholic who "courageously willingness to talk openly about her own experiences has served to enlighten and inspire many of her peers and colleagues."

She has done volunteer work at the Westville, Ind., Correctional Center; lived for two years at Dismas House, an experiment in which Notre Dame students and recent parolees live in community; and counseled adolescents on probations to drug and alcohol-related offenses at the Parkeys Detention Home in South Bend.

In addition, Williams has spoken about alcohol and drug abuse with more than fifty students and staff groups at Notre Dame.

The Gardner Award, named for the founder of Common Cause, was established in 1989 by University President Emeritus Father Theodore Hesburgh with money he received as a recipient of the Independent Sector's first John Gardner Leadership Award.

Patrick Cooke, a senior from Chicago, has received the A. Leonardi Collins, C.S.C. Award. The Collins Award continues from page 1

In a separate ceremony, 19 graduates of the Saint Mary's nursing program will participate in the Nurses Pinning Ceremony today at 1 p.m. in the University Center.

In addition to serving as student body vice president during his senior year, Paese chaired a committee of students which prepared a report on Notre Dame's intellectual life for the University's trustees. Last year he brought both candidates for Indiana's third congressional district seat to Notre Dame campus for a debate.

Victor Krebs, a graduate student in philosophy from South Bend, has received a special student awards for "his extraordinary leadership role among Notre Dame students."

Krebs, who organized and chaired a committee of graduate students to report to the University's trustees on graduate student life, has recently completed a term as president of the Graduate Student Union.

He rewrote the Graduate Student Union constitution, arranged for the opening of the Graduate Student Union offices in LaFortune Student Center, and sponsored a series of seminars for current graduate student and administrators.

memorializes a Holy Cross priest who was Notre Dame's dean of students from 1957 to 1965.

According to the citation, Cooke is a "warm and Christian man" who "never stops searching for the truth... never seems to lose his sense of integrity... and tries always to retain his sense of humor no matter what the pressure of who is applying it."

Cooke was elected president of the student body during his junior year. During his senior year, he chaired numerous senior class events and helped organize the Christmas in April program, in which Notre Dame students joined local volunteers for a housing rehabilitation project in a poor neighborhood of South Bend.

Michael Paese, a senior from Harrisburg, Penn., has received a special student awards for "true leadership in order to take on the lonely position of president of the Student Union.

According to the citation, Paese has been "willing to risk popularity and to have a voice in the student union, benefiting students and administrators."

The ceremony represents the graduate's entry into the nursing profession. Students receive their nursing school pin, which signifies service to humanity, and represents the school's ideals and principles.

Notre Dame to award two posthumous degrees

Special to The Observer

Two degrees will be awarded posthumously at the University of Notre Dame's 144th commencement exercises on May 21.

A doctoral degree in government and international studies will be given to Joseph Sullivan of Pueblo, Colo.

Sullivan, a Notre Dame graduate student, died in a plane crash near Cuzco, Peru on August 9, 1970.

Sullivan and Notre Dame student Randall Heeke of Jasper, Ind., were among the 49 North American students who died in the crash.
The two had been returning from a service project, sponsored by Notre Dame's Community for the International Lay Apostolate (CILA), to serve the poor in Santiago, Chile.

Sullivan, who had passed his doctoral candidacy examinations in the spring of 1970, had hoped to return to Notre Dame that fall.

A bachelor's degree will be given to Robert Satterfield of Encino, Calif.

Satterfield was a senior business administration major and a member of the 1988 National Championship football team.

He died January 19, 1989, of sudden cardiac arrest just one day after returning from a celebration at the White House with President Reagan honoring the team.

A graduate and student body president of Notre Dame High School in Sherman Oaks, Calif., Satterfield enrolled at Notre Dame without a football scholarship and joined the team as a "walk-on" defensive back.

He received a football scholarship his senior year.

An Equal Opportunity Employer
Grads ready for challenges

By Rose Pietrzak

A very wise person once commented that "time was nature's way of keeping everything from happening at once." The world has changed any more than that. This weekend we will reach a milestone in our lives, one we have worked toward and anticipated. Commencement marks an ending and a beginning. While we leave so much behind us, we can look forward to even more. More opportunities, more challenges, more milestones and more goals.

The possibilities ahead are endless. We can forge ahead in a world that responds to change, that demands our input and that will improve as we offer our contributions. Though it won't happen immediately or all at once, it can happen and, hopefully, it will.

The responsibilities before us are just as great. We can help correct injustices, we can develop resources, we can improve the quality of our environment, of our world and of our government. It's simply a matter of trying. We have experienced success and can apply it to future projects. Again, it's a process, a series of attempts and successes.

In our own lives, our rewards will come from our success and, above all, patience. Our choices will dictate our lives, but we must remember that as time passes, it will bring new needs, new revolutions, new hopes and new misgivings. We may not be happy with situations that arise, but we must realize that everyone has his or her own Commencement and we must have faith.

As the graduating classes before us have been deemed responsible for the future, so, too, will we. Approaching the real world, we have the intelligence, creativity, fortitude and ambition to make it better. Let's change the world and let's take the time to do it right.

Rose Pietrzak is graduating from Saint Mary's College with a degree in communications.

Bennett meets sports bigwigs in effort to battle drug abuse

Associated Press

WASHINGTON — Drug czar William J. Bennett, engaged in a little give and take during a meeting with commissioners and player representatives of several professional sports, but he indicated he may take a stronger stand when the group meets again this summer.

Bennett, who is devising a national drug policy, took much of Wednesday’s 90-minute meeting exchanging ideas with sports officials on methods to improve anti-drug standards for the country and for professional athletes. He was particularly given several reasons why pro sports leagues could not devise a uniform policy, and didn’t even suggest that athletes be subject to random testing.

“Surprisingly, he was not in there mandating that we have random testing,” said Gene Uship, executive director of the NFL players association. “That was music to my ears.”

Uship and his fellow sports officials, however, may have to face the music in the next few months, when the group gets together again.

“We didn’t talk about random testing today, but we might talk about that next time,” Bennett said. “We’ll get into specifics at the next meeting.

Bennett gave the sports officials something to think about when he pointed out that professional athletes adhere to less-stringent rules than he has implemented for professional athletes. He indicated he may take a stronger stand when the group gets together again.

“Pro sports play an important part in American life,” Bennett said. “If they are so important, and they do have such a hold on the American imagination, then this ought to be the focal point of our effort.”

Bennett said he was interested in getting the opinions of high ranking sports officials because most athletes are considered role models by children, and thus should set an example for the country’s youth.

“Pro sports play an important part in American life,” Bennett said. “If they are so important, and they do have such a hold on the American imagination, then this ought to be the focal point of our effort.”

Bennett promised that the sports commissioners would give him their full cooperation.

“We told the czar that he has one of the most important jobs in the country,” Stern said. “We pledge our support. We will be working together, all of the sports, to support him in his efforts. That’s why we have come here to centralize everything that is now going on in this country in terms of the ravages of drugs in our schools, our workplace and our streets.”

- The Observer Friday, May 19, 1989
He's got Rose info, but he won't sell

Associated Press

NEW YORK - After getting a copy of baseball's confidential 225-page report on Pete Rose's gambling - followed by threats of lawsuits - a freelance writer has opted to put the document in his memorabilia collection instead of up for sale.

"I have been advised by my attorneys not to sell the report," David D. Shumacher said on Wednesday. "I don't need the money, and the aggravation isn't worth it. I just want to wash my hands of it.

Shumacher's decision ended a day-long speculation which began when USA Today revealed he had tried to sell them the report, setting off a steady stream of calls from the media and several attorneys to the writer.

Drafted if he had been threatened with legal action over the possible sale, Shumacher laughed and replied, "Legal action is not the word. It's been unreal.

Despite his decision not to sell, Shumacher steadfastly refused to say how he got the report, who had bid for it or how much was offered. He confirmed there had been a $20,000 offer.

Baseball commissioner A. Bartlett Giamatti, speaking in Washington after a meeting with federal drug czar William Bennett, said he had heard rumors that a copy existed. The attorney said Wednesday he had no idea how Shumacher could have obtained a copy from Dowd's office, the investigator flatly said, "No sir."

Earlier, Shumacher said he was considering "a moral question" as to whether an early release of the report would be prejudicial to the Cincinnati Reds manager, who has been the center of allegations involving sports betting since the start of the season.

The report will now become the centerpiece of Shumacher's baseball memorabilia collection, the writer said.

B.P. Seniors

We Love You!
By STEVE MEGARGEE
Associate Sports Editor

In a game that featured uncharacteristic performances by both teams, a typical Evansville ninth-inning rally won the Midwestern Collegiate Conference Tournament game for the Purple Aces.

Pinch hitter Joe Bernard slapped a single to left field line to drive home pinch runner Kevin Krizan with the winning run to carry the defending MCC champion Evansville past Xavier 5-4 at Coveleski Stadium Thursday.

Top seed Evansville, 36-24, will play Detroit in a winners bracket game tonight at 6, with the winner earning a spot in Sunday's final. Xavier, 30-36, faces in an 11 a.m. losers bracket contest. Dayton eliminated Butler 8-1 earlier in the day.

"We were lucky to win," said Evansville coach Jim Brownweil. "Xavier made the plays, and we didn't. Now we're in to Saturday no matter what happens. That puts the pressure on some other teams."

Irish

continued from page 16

"Boy, they have a good bal-club," Miller continued, "but what a lot of people don't realize is that we don't have a bad ballclub either."

Mike Cloutier scored the winning run on Alan Bubnick's double off Irish reliever Mike Coffey (7-2). Cloutier, who also homered for the Titans, has hit four of his eight home runs this season against Notre Dame.

Detroit two weeks ago included two bench-clearing brawls.

"It's a big rivalry," said Redwine. "We felt a 90 percent Scott Gordon was better than anyone."

Evansville jumped out to a 3-0 first-inning lead on a rally that included four infield hits, two of them bunt singles.

Normally one of the nation's best teams defensively, the Aces proceeded to lose the lead by committing four errors. Two Musketeers runners were picked off first base in the first three innings, and another was caught stealing.

Coffey found a way to get out of that jam, but Detroit came back the next inning to score the winning run.

"I'm proud of our kids," said Murphy. "I'd rather coach these kids than anyone else. These guys have more guts than anyone."

"We've got 45 innings left to play. That's what it takes to get to regionals."

Detroit two out in the seventh. Tyler stole second, then scored the go-ahead run on Kenny Field's double.

Xavier tied the game in the eighth inning, which saw the Musketeers load the bases with nobody out. Evansville reliever Greg Spalding (6-4) entered the game and retired pinch hitter Phil Serghini on a fielder's choice.

Davis then executed a perfect suicide squeeze to score Pat Smith and reload the bases. Gordon tried the same play, but Spalding recovered the bunt to start an inning-ending double play.

In Thursday's first game, Dayton starter Tony Miller, who entered the day with a 2.4 record and 7.52 earned-run average, took a no-hitter into the seventh inning. Butler's Sean McGould broke it up with a one-out single to right.

Dayton already had a 6-0 lead, by that time, thanks to a four-run fourth and a terrific day by catcher Doug Waddle.

Waddle hit a solo homer in the second that went out of Coveleski Stadium, then doubled to start Dayton's fourth inning rally.

Coffey in the ninth.

Jacobs gets back to the bases
Reds, Braves beckoned, but he chose Irish football first

By STEVE MEGARGEE
Associate Sports Editor

Frank Jacobs faced the $100,000 question a couple of times before making the final decision to attend the University of Notre Dame.

Jacobs, who had signed a letter of intent to play football at Notre Dame in February of 1987, attracted the attention of baseball scouts that spring. He batted .574 his senior year at Newport Catholic High School in Highland Heights, Ky.

"I got a phone call from my high school athletic director saying that the Reds and Braves offered me $100,000 to play," said the Irish sophomore. "They knew I was signing with Notre Dame, so they didn't push me. The offer came late and after my decision, so I said no right away."

As much as Jacobs played his senior year, he still was primarily a football prospect coming out of high school. Jacobs started at both tight end and nose guard, led his team to three state finals and one state title and was named the top player in Kentucky.

He chose Notre Dame over Penn State, UCLA, Boston College and Kentucky. None of the schools mentioned baseball during the recruiting process, except to play (baseball) again," said Jacobs, "but something inside me was saying, 'You'll regret it if you don't.'"

Jacobs concentrated solely on football his freshman season, catching three passes while backing up Andy Heck at tight end. He missed three games with an arch sprain last fall, but caught three passes and scored the last Irish touchdown in the Fiesta Bowl.

By this time, Jacobs had realized his baseball career was not quite over after all.

"I heard about the team and saw them out there practicing," said Jacobs. "I heard how good they were and how much improvement they'd made. Just looking at the field and the diamond, I missed it."

Notre Dame football coach Lou Holtz allowed both Jacobs and flanker Pat Eilers to join the baseball team this spring.

"He told me before I came here that if I wanted to play baseball, I could," said Jacobs. "I knew I could have been drafted out of high school."

Jacobs and Eilers had quite a task ahead of them. The two players spent the spring running back and forth between baseball and football practices. Jacobs also had to readjust himself to baseball after not playing for a year.

"It was a matter of managing my time," said Jacobs. "It was a way, it helped me because it didn't let me get lazy. It helped me be more disciplined. If I wanted to play both sports, I had to work that much harder."

Jacobs got a hit in only 11 of his first 52 at-bats for a .212 average, though he did have two doubles in Notre Dame's early-season 11-9 win over Texas.

"Early in the season, I was tight," said Jacobs. "With football, I was pretty bulked up. Now I'm a little looser and more flexible."

Since that time, Jacobs has batted .326 over his last 89 at-bats to increase his season average to .328. He has four home runs and 30 RBI in 47 games and is among the MCC's top fielders with only three errors at first base.

"I'm still not where I want to be," said Jacobs. "I have to get consistent, but I feel more confident now. I feel better with the bat than I have all year."

Jacobs hasn't exactly made it easy on his firstbase and pitcher for the Musketeers, took the loss despite a complete-game performance Thursday against top-seeded Evansville.

The Observer / Troy Raymond

Xavier's Scott Gordon, a first-team all-MCC star who plays both first base and pitcher for the Musketeers, took the loss despite a complete-game performance Thursday against top-seeded Evansville.

Bayless said. Pairings for the NCAA Tournament would be announced during the week prior to the tournament.

the Irish volleyball team have geared up for their 1989-90 athletic seasons by signing 17 athletes to national letters of intent.

The Irish baseball team counts six pitchers among the seven signees. Pat Leahy, of Yakima, Wash., had an 8-2 record at Eisenhower High School in Yakima. Leahy is the grandson of former Irish football coach and National Championship winner Frank Leahy.

Another Washington product, Chad Hivigson, will also join the Irish pitching staff. A lefty from Kirkland Juanita High School, Hivigson went 8-4 with a 2.39 ERA and 73 strikeouts in 62 innings last season.

David Simmes of Miami will pitch for Notre Dame as well. A Class 4-A all-state selection last year, he was 12-1 last season with a 1.01 ERA.

Other signees include Chris Michalik of Joliet (III) Catholic High School, who is a pitcher as well as playing outfield and first base. He has a 0-2 record with four saves, with a 2.18

Spectaculars include six pitchers

Special to The Observer

Six Notre Dame teams have geared up for their 1989-90 athletic seasons by signing 17 athletes to national letters of intent.

The Irish baseball team counts six pitchers among the seven signees. Pat Leahy, of Yakima, Wash., had an 8-2 record at Eisenhower High School in Yakima. Leahy is the grandson of former Irish football coach and National Championship winner Frank Leahy.

Another Washington product, Chad Hivigson, will also join the Irish pitching staff. A lefty from Kirkland Juanita High School, Hivigson went 8-4 with a 2.39 ERA and 73 strikeouts in 62 innings last season.

David Simmes of Miami will pitch for Notre Dame as well. A Class 4-A all-state selection last year, he was 12-1 last season with a 1.01 ERA.

Other signees include Chris Michalik of Joliet (III) Catholic High School, who is a pitcher as well as playing outfield and first base. He has a 0-2 record with four saves, with a 2.18

ERA. He's hitting .380.

Alan Walania and Eric Danapilis are two other Irish pitching signees. Walania had a career 23-7 record at Derby (Conn.) Notre Dame High School going into his senior season.

The only non-pitcher among the signees is Bobby Kurtz of Atlanta Mariist High School, an outfielder who hit .343 as a junior and was 22-of-23 on stolen base attempts.

One wrestler has signed on with the Irish. Jamie Boyd, brother of Irish senior wrestler Pat Boyd, won the Michigan Class A title last year. He posted a perfect 46-0 record this past season and a 164-11 career mark.

Three additions to the Notre Dame hockey team are Curtis Janke, who had 20 goals and 31 assists for Brooklyn Park (Minn.) Center High School, Dan Sawyer, from Kinnelon (N.J.), who played on the Ramapo (N.Y.) Junior Rang­ ers, and Eric Greig, a defense­ man from Northwood High School in Lake Placid, N.Y. Next year's Notre Dame men's tennis team will include freshmen Chuck Coleman, Ronnie Williams and Mark Schmidt, ranked 32nd, 32nd, and 33rd respectively in the U.S. 18-and-under division.

Joe Planek will see additions to his cross country and track teams with John Coyle of Christian Brothers Academy in Limerick, N.J., who won the high school division of the Fifth Avenue Mile in 4:12 this season. Jay Burke of Xavierian High School in Portland, Conn., won the high school division of the mile at the Milrose Games.

Ed Lavelle of Coral del Mar (Calif.) ran the second fastest high school outdoor mile in the country last season with a 4:11.94. Dave Couch of Niles will also run for the Irish.

ND signs TV deal with SportsChannel

SportsChannel America will have the national carrier for a comprehensive package of Notre Dame sporting events beginning this fall. SportsChannel President Jim Greiner and Notre Dame athletic director Dick Rosenthal announced on May 11.

According to the agreement, all football and basketball games not carried on network television will be aired on SportsChannel America (SCA), as will other selected Notre Dame athletic events. SCA, a national sports programming service, is distributed through regional cable outlets.

The package represents an unprecedented amount of coverage of a single university by a national cable channel. "It provides us an opportunity to present Notre Dame's athletic program to a national audience," said Notre Dame athletic director Dick Rosenthal. "Notre Dame's alumni is national in scope, and this package will keep them in touch with all facets of Notre Dame athletics."

question that is still popular in many Notre Dame circles: "When are they going to fire Digger?"

Our freshman enthusiasm was dampened. We had been let down by Notre Dame athletics. What were we supposed to say to our friends who went to Penn State or Michigan? Not to mention our classmates with friends at Miami or, by some chance, UA-LR.

But those days are gone. We leave campus with some of that same school spirit with which we arrived four years ago, thanks to a place that obviously cares a lot about how it looks on the field—no matter how much you hear about its academic commitments and other off-the-field priorities.

It was the worst of times, it was the best of times

"Due to the lack of competitiveness of this game,"

Those words from a CBS sportscaster marked the merciful end of our initial football season as Notre Dame students, as the network switched to a more interesting contest than the one we were either making jokes or weeping about. Miami talked a good game and then embarrassed Gerry Faust's Irish with a 58-7 slap in the face.

We all felt it. Then we turned our hopes to basketball. Notre Dame finished the regular season with a 23-5 record and the nation's 10th ranking. We bought "Destination Dallas" shirts, and then watched the season end in Minneapolis with a first-round loss to Arkansas-Little Rock.

We were freshmen. We came to Notre Dame expecting to win championships so we could go home on breaks and boast to all our state school friends. Instead we heard things like: "Do you think Lou Holtz can turn things around?" and, of course, the

Don't leave Notre Dame or Saint Mary's forever
