Ortega accepts loss to Chamorro in national election

VIOLETTA DE CHAMORRO, right, embraces her running mate, Virgilio Godoy, after winning Nicaragua's national election in the earlier Faculty Senate.

Women faculty, as identified by Mike Truppa

"Many women feel their research is not being taken as seriously as their male colleagues," explained Weaver.

Kolman also mentioned the scarcity of tenured female faculty. "Nationally, women are not retained as well as men. At Notre Dame, that's particularly true."

Kolman said the President's Committee will also address problems of female students and staff. Sponsoring educational efforts to "raise consciousness at all levels" to sexual harassment will be a major role of the committee, said Kolman.

She said forms of such harassment include reported instances of sexist language in some University classrooms as well as publications such as the recent Scholastic Art article entitled "Estrogen," which she described as "very sexist and demeaning presentation."

Weaver, who has taught at Notre Dame, said she was surprised that "gender-inclusive language," a structure other universities supported long ago, still "meant resistance" in University classrooms.

Faculty Senate recommendations on adequate compensation for staff will also be considered by the President's Committee, Kolman noted.

Kolman said she believes the problem for women here "has very much to do" with the University's affiliation with the "very patriarchal Catholic Church."

"We can't discount that it's the environment that's to blame."

FRENSTAT, Czechoslovakia (AP) — A brass band struck up the "Internationale" on Monday as the Red Army began leaving Czechoslovakia 22 years after it arrived to crush a reform movement.

Karel Micek of the Civic Forum said the presence of Soviet troops had meant "empty shelves in stores, polluted water, an occasional fight in the pub and a reminder that we are not a free country."

"Their main problem was that they were here," said Micek, whose group played a central role in the peaceful revolution that ousted the Communist Party from exclusive power in November. 22 Soviet T-62 tanks loaded on flatcars left the northern town of Frantisk, beginning a negotiated, three-stage pullout of the 73,500 Soviet military personnel scheduled for completion next year.

A second train, laden with 33 armored vehicles, left a few hours later from the Domaov and Bystril station near a Red Army base at Libava in eastern Czechoslovakia. It is the first time the Kremlin has removed its soldiers from the territory of a Warsaw Pact ally.

Hunger is near agreement with the Soviets on a similar accord, but no deals have been struck with Poland or East Germany, the other Soviet allies in Europe that are hosts in Red Army troops.

Soviet soldiers remained in Czechoslovakia after a Warsaw Pact invasion crushed the reformist "Prague Spring" of 1968. They entered Hungary in 1956 to put down an anti-Stalinite uprising.

Before the withdrawal began, the Soviet Union had 1,320 tanks, 2,505 armored vehicles, 77 combat aircraft and 146 helicopter gunships in Czechoslovakia, in addition to the 73,500 soldiers. Soon after the first train rolled toward the border, the official news agency CTK reported that Soviet-Czechoslovak military maneuvers would be held next month.

"The Czechoslovak People's Army and the Central Group of Troops of the Soviet Army will be held" March 1-4 in western and northern Bohemia March 1-4, it said, quoting the Defense Ministry.

It was not clear whether the announcement's timing was a coincidence or a sign of changing times. The Czechoslovak People's Army is to take of...

‘Challenger’ shows need for media ethics

Sunday night viewers across America, including myself, tuned into yet another television classic: 'Challenger.' For the four gripping hours we were able to see the events leading up to the 1986 explosion of the Space Shuttle Challenger, I was astounded, told us about the disaster. I am curious what dirt writers will be made about the Stuart murder case. I understand that a television miniseries will be held Wednesday from 12-4 pm in the CCE. Government representatives will be available to talk with students about permanent and summer opportunities. Sponsored by Career and Placement Services.

The Women’s Care Center phone-a-thon continues tonight form 6-10 pm in the Development Office, 2nd Floor Administration Building.

Midterm Madness: How to Reduce Test Anxiety is a workshop to be given by Wendy Settle of the University Counseling Center tonight from 6:30 to 8 pm. In the Forum Room of LaFayette Student Center.

The Year of the Family subcommittee “Families in Crisis” invites adult children of divorced, separated, widowed or single parents to a meeting tonight at 7 pm in Lewis Hall to discuss relevant issues as a student at Notre Dame.

Security Awareness Days, part I begins with a panel discussion on “Personal Rights and Responsibilities” tonight at 7 pm in Stapleton Lounge at SMC. The discussion features a county prosecutor, the Sex Offense Investigator of South Bend, SMC Security, and counselors. Notre Dame women are especially invited.

The Northern Ireland Awareness Group will hold its monthly meeting tonight at 7:30 in Room 105 O'Shaughnessy.

Perrier said Monday the recall of the 160 million bottles of sparkling water it had on the market around the world was more than 90 percent complete. Withdrawal of Perrier’s familiar green bottles began Feb. 14 when the water was found to contain the chemical benzene. Perrier said the problem that prompted the recall had been isolated at the gas filtration level of production and that, after tests by independent experts, no contamination or pollution of the company’s spring in Vergere, France, has been found.

Government Career Day will be held Wednesday from 12-4 pm in the CCE. Government representatives will be available to talk with students about permanent and summer opportunities. Sponsored by Career and Placement Services.

East Germans apply for first gov't benefits

EAST BERLIN (AP) — Several thousand East Germans applied Monday for the first benefits their government has ever given the unemployed, whose ranks may swell dramatically as the nation moves toward capitalist labor officials said the number of applicants was much more than anticipated, but noted that economic reforms expected to cost hundreds of thousands of jobs have yet to be made.

At the moment, East Germany has a severe labor shortage because skilled workers continue to leave the nation, and industrial production has slowed and the nation is threatened with financial collapse.

West Germany has offered to bail out the East Germans by making its strong Deutsche mark the currency of both countries, but only on the condition that East Germany adopt a market economy.

No final decision on monetary union is planned until after East Germany's first free elections on Nov. 18, but a decisive shift toward Western economic practices is expected soon afterward.

Economists say more competitive Western market forces may force many East German factories to close or lay off employees, which could increase unemployment among the 9 million workers in 15 percent or more in a few years.

Finance Ministry officials proposed Monday that laws that allow ALTERED to create more incentive for private enterprise by reducing income tax rates that require entrepreneurs to pay up to 95 percent of their profits to the government.

Lower taxes also would encourage formation of small and medium-sized businesses, which could help reduce unemployment.

At the weekly negotiations with opposition groups, Defense Minister Theodor Hoffmann said reducing the East Germany's army would only increase the number of unemployed.

Neue Deutsche, the Communist Party newspaper, proposed Monday that compulsory military service be ended in both Germanys and that a reunited Germany be demilitarized.

East Germany has experienced some unemployment throughout its 40-year history, but authorities would not acknowledge the problem because it contradicted Communist ideology.

On Monday, Labor Agency offices began taking applications for financial aid to the unemployed under regulations adopted Feb. 9.

They provide monthly payments of three-quarters of previous income, made up of three-quarters of previous East German marks (about $100 at the official exchange rate), with the government making a contribution from the applicants' last employer.

Labor Agency statistics indicated thousands tend bar, serving non-alcoholic drinks such as pina coladas, strawberry daiquiris, slushes, juices, sodas, lemonade, and iced tea. Beer nuts and pretzels will also lend itself to the atmosphere of an actual English pub, said Sue Medley, assistant coordinator of the Wellness program of the University of North Carolina.

The event is slated to take place in the Chameleon Room of Haggar Hall in a program sponsored by the Wellness group at Saint Mary's.

Beerless pub to debut at Saint Mary's

were organized and went to war, issued a statement saying: "The people of Nicaragua and the cause of democracy have won an impressive and important victory."

Under the Sandinistas, Nicaragua became a self-proclaimed revolutionary state and adopted portions of Marxist and Leninist ideology to remake its economic and social structures. It won strong support from the Soviet Union and Cuba, and was accused by the United States of trying to foment a Communist revolution in neighboring El Salvador.

The Sandinista loss to the opposition United National Opposition, known as UNO, which favors Western-style representative government, followed by months the movement toward democracy in several Soviet-aligned nations of East Europe and democratization in the Soviet Union itself. Both Ortega and Mrs. Chamorro presented themselves as candidates of national reconciliation and economic recovery. Ortega because he believed the United States would recognize his victory and Mrs. Chamorro because she had Washington's support.

She promised economic recovery to a nation that suffered from a decade of war, U.S. economic embargo and poor management.

Ortega and the Sandinistas mounted a carefully orchestrated campaign that ended with a rally attended by an estimated 300,000 people. The man who marched into Managua as a victorious young revolutionary in July 1979 had not expected to lose, and the first hours of the stunning upset were tense.

Former President Jimmy Carter was among thousands of international election observers who monitored the voting.

Defense Minister Humberto Ortega, the president's brother; and interior Minister Tomas Borge, who controls the police, had suggested they might not give an opposition government control of those forces.

Daniel Ortega said he spoke with his party and government, however, in promising to honor the results of Sunday's election. "I want to tell all Nicaraguans and all the nations of the world that the president of Nicaragua and the government will respect and submit itself to the popular mandate," he said.

Cesar, one of Mrs. Chamorro's closest advisers and a former Contra leader, said the new government's "most important problem is the role of the armed forces."
Wet winds, weather wreak wreckage in Western Europe

LONDON (AP) — Gale-force winds struck Western Europe on Monday, tearing down roofs and power lines, disrupting transportation on land, sea and air, and killing at least 13 people.

Winds were clocked at 100 mph at Aberporth along the southwest coast of Wales in central England reported winds up to 95 mph.

It was the second big storm to hit Europe since Jan. 25, when 95 people were killed when winds gustied up to 106 mph. Winds that hit parts of the UK in Jan. and February were the strongest for 18 years, averaging in the middle of the last two-week measuring period at Heathrow Airport, the London Weather Center said.

Flooding warnings were posted on the north coast of Germany and parts of Denmark, and high winds disrupted travel in the Netherlands and kept fishing boats in port on the English Channel coast of France.

The dead included a driver whose double-decker bus hit a fallen tree, an elderly man killed by a collapsing chimney and an elderly woman killed by a slate blown from a roof, police and rescue officials said.

A police officer on patrol in suburban Brussels was killed and a colleague was severely injured when a tree was blown onto their car. In northeastern Damme, Belgium, the roof of the tourism office collapsed under the strains of the winds, killing one worker and heavily injuring another.

In Ireland, a motorcyclist was killed when a gust blew him off the road; a woman died in Zundert, in the southern Netherlands, when she lost control of her car during the storm.

Police imposed a 50 mph speed limit in some areas in Britain, and the Automobile Association advised motorists to stay home. Many other traffic accidents were reported in northern Belgium and in the western Netherlands.

In the Netherlands, 15 people were injured, including seven who were hurt when a huge tent in which they were celebrating Carnival collapsed in the southern town of Breda, Dutch radio reported.

The winds disrupted ferry service between Ireland and Wales, as well as between the British mainland and the Isle of Wight and Northern Ireland.

A police officer in Briton's West coast, damaged inner lock at King George Dock prevented two ferries from Rotterdam, the Netherlands, and Zeeland, Belgium, from unloading their 1,000 passengers on board, from docking. The ferries were waiting offshore until high tide Monday night.

In the port of Antwerp, a river ship sank after a 15-ton crane fell onto the vessel, injuring several people.

Cuts in overhead power lines halted some train traffic in Belgium, the state-owned railroad company said.

Two bridges linking the southern and northern parts of the Netherlands were closed because of high winds, police said.

Thousands of homes in Northern Ireland, the Thames Valley, south Wales and southwestern England were without electricity.

Thirty residents of a senior citizens home in Stockport, near Manchester, were evacuated after the roof was blown off during the night, according to Press Association, the domestic British news agency.

Rain service on the main line from Euston Station in London to the northwest was disrupted by downed power lines. British Rail reported scattered cancellation, and some trains were restricted to speeds as low as 20 mph because of the winds.

At London's Heathrow Airport, many airlines were unable to load catarmed meals onto aircraft, and passengers were instead offered meals in the departure lounges. Authorities feared that winds could blow over or damage the trucks that lift trays of prepared meals onto aircraft.

Fights were operating normally, but were canceled at Birmingham Airport, 100 miles to the northwest. At Amsterdam's Schiphol airport, the Netherlands' flag carrier KLM suspended 15 international flights, the airline said.

Rocky Balboa brought to canvas by a jackhammer

PHILADELPHIA (AP) — It took three guys using a diamond-edged power saw and a jackhammer to knock Rocky Balboa off his feet Monday.

The crew worked for more than two hours to separate the 8 1/2-foot bronze likeness of the movie's title character from the steps of the Philadelphia Museum of Art, which has repeatedly insisted it doesn't want the statue.

A local "Rocky" creator Sylvester Stallone pledged to fight to get the statue, a movie prop, a permanent home at the museum steps.

The statue had been moved to the museum from the Spectrum sports arena for the filming of Stallone's latest "Rocky" movie, "Rocky V." Since filming of "Rocky V" ended here Friday, that cleared the way for the movie producers to move Stallone's likeness, at the museum's insistence.

Using the power saw, the crew from W. Cantano & Sons cut into the statue's concrete base about 12 inches below Rocky's 22-inch feet to get the groups anchoring the statue into the concrete.

After separating the 800-pound statue from the base, workers used a crane to lift it onto a truck. The stub of the concrete base was to be removed within hours.

The Differences Between Gays and Straights

Gays are from normal families, work very hard, save and grow. Gays are from normal families, work very hard, save and grow.

Gays are very moral people, with strong moral values and good parents. Gays are very moral people, with strong moral values and good parents.

S. African minister responds to charges

JOHANNESBURG, South Africa (AP) — Responding to harsh criticism, the defense minister said Monday he had suspended all operations of a secret military unit accused of involvement in the killings of anti-apartheid activists.

The Civil Cooperation Bureau would cease to function until a judicial committee appointed by President F.W. de Klerk completes an investigation into the bureau's activities, said Defense Minister Magnus Malan.

Malan, speaking to Parliament in Cape Town, also said that Anton Lubowski, a prominent anti-apartheid politician in Namibia who was killed last year, was a paid intelligence agent for the South African Defense Force.

South African Police Brig. Floris Montesi has alleged in court documents that he suspects the bureau was involved in the Sept. 12 killing of Lubowski, the highest-ranking white member of the South-West Africa People's Organization, or SWAPO, at the time of his death.

SWAPO waged a 23-year bush war against South African rule of Namibia, and the organization will lead the territory to independence March 21.

Malan told Parliament that Lubowski was a paid agent of the South African military, and "I am assured that he did good work."

Malan said this was evidence that the South African military would have no reason to act against Lubowski.

Police are seeking alleged members of the bureau and several former police officers for questioning in Lubowski's death.

Moutert and The Star newspaper of Johannesburg also alleged they suspect the bureau is linked to the death of David Webster, a white academic fatally shot outside his Johannesburg home in May.

The Star reported last week that Malan was aware of the bureau since it was established several years ago and that generals were in charge of it.

Malan has denied ordering any killings or other criminal activity and said the bureau's role has been to gather intelligence both in South Africa and abroad.

Malan said he would give a sworn statement to the judicial commission investigating allegations that the police and the Defense Force were engaged in hit-squad activities.

Several opposition groups acknowledged the existence of the bureau and said its annual budget was about $11 million.

No military officers have been charged or suspended in connection with the allegations against the bureau.

The Star, citing unidentified sources, said the Defense Force used civilian personnel in the bureau, including former police officers, to conceal the military's attempts to manipulate political affairs.

Following the newspaper reports, the Defense Force acknowledged the existence of its bureau and said its annual budget was about $11 million.

A rather light moment

Soviet President Mikhail Gorbachev, right, and Czechoslovakian President Vaclav Havel, left, socialized prior to talks in the Kremlin Monday. Havel is on the first day of a two-day visit to the Soviet Union which coincides with the first day of the scheduled withdrawal of Soviet troops from Czechoslovakia.

Journalists observed in Beijing

BEIJING (AP) — Police have sharply increased surveillance of foreign journalists since lifting martial law in Beijing last month, reporters said Monday.

Correspondents from nearly a dozen news organizations, including those from the United States, the Soviet Union and Europe, said they have been tailed at least once by plainclothes police in recent weeks, some even while jogging or shopping.

"Several (Chinese) contacts have been hauled before the leaders in their (work) units and told, 'We know you had contact with a foreign journalist and this must stop,' " said a British reporter. Like the other journalists, he spoke on condition of anonymity for fear of provoking official retaliation against his Chinese friends.

The British reporter said he had been tailed each of the past three days, and that on one occasion plainclothes police tried to photograph him meeting a Chinese friend in a park.

The next day, police followed him to a hotel where he met a Chinese acquaintance, and American reporters believe the surveillance, which in many cases has been obvious, is intended to discourage them from normal contacts with Chinese friends or news sources.

"What we're all terribly concerned about is getting a Chinese in trouble," said another American reporter who said he and his wife were followed even when they went jogging.

Ridiculous bills based on common sense

(AP)-As fast as you can, repeal the following five times. A petty party proposal is pending in Pennsylvania.

OK, good. If you don't feel just a little silly right now, you may have what it takes to serve in your state legislature.

You could have the ability to keep a straight face while proposing laws to ban toad licking, sweet potato keras, chicken, pay people to vote, keep cheerleaders off steroids, excerpt orifices from sale tax, bring back the whipping post and castrate sex offenders.

Or, perhaps, to give your state its official State Insect, State Mammot or State Soil.

Every one of the above has been introduced in at least one legislature around the country this year, and that's not all.

West Virginia legislators are considering a proposal to give lottery tickets to motorists who use their seat belts. A Tennessee representative has proposed a measure to encourage people to heat up flag burning— he wants to reduce the penalty for assault in such cases to $1.

A state senator in New Mexico has proposed creating a new county—named after himself.

You might be tempted to believe that all is not sobriety and seriousness in America's legislatures. But that would be ignoring the larger issues facing elected officials.

It turns out, for instance, that there are people who get their kicks licking toads. According to the U.S. Drug Enforcement Administration, South American cane toads secrete a hallucinogenic toxin that can get the licker as high as a tree frog.

Legislators in Georgia and South Carolina have introduced bills to outlaw the practice.

"They say these frogs grow to the size of a dinner plate," said a horrified Rep. Pat Harris of South Carolina. "I don't want to see somebody walk across the state house grounds with a frog on a leash and pick him up and lick him."

And consider the plight of the common chicken. One of Harris' colleagues in South Carolina, Rep. Larry Koon, has introduced a bill making it illegal to fire a gun within 300 yards of a chicken coop.

The sound of a gunshot, it seems, can cause chickens to lose their vaunted composure, jump into a pile and suffocate each other.

The petty party bill in Pennsylvania, and a similar one in Maryland, are aimed at eliminating a serious, even agonizing social problem: the long lines that form outside women's restrooms in stadiums, convention halls and other public places. Simply put, the proposals require more toilets for women.

It's getting to be all too much for some legislators, among them Rep. Bill Lear of Kentucky.

Simply put, the proposals require more toilets for women.

It's getting to be all too much for some legislators, among them Rep. Bill Lear of Kentucky.

"They say these frogs grow to the size of a dinner plate," said a horrified Rep. Pat Harris of South Carolina. "I don't want to see somebody walk across the state house grounds with a frog on a leash and pick him up and lick him."

And consider the plight of the common chicken. One of Harris' colleagues in South Carolina, Rep. Larry Koon, has introduced a bill making it illegal to fire a gun within 300 yards of a chicken coop.

The sound of a gunshot, it seems, can cause chickens to lose their vaunted composure, jump into a pile and suffocate each other.

The petty party bill in Pennsylvania, and a similar one in Maryland, are aimed at eliminating a serious, even agonizing social problem: the long lines that form outside women's restrooms in stadiums, convention halls and other public places. Simply put, the proposals require more toilets for women.

It's getting to be all too much for some legislators, among them Rep. Bill Lear of Kentucky.
**Social worker tried in abuse case**

**BARTOW, Fla. (AP) — A six-month-old baby was found dead in a toilet bowl on Monday for the trial of a state social worker charged with failing to report suspected child abuse.**

The departure of David Hawkey's confession and the resulting widespread publicity has seriously jeopardized his treatment, say counselors at the youth home where he is undergoing court-ordered therapy. The boy now trusts no one and, because of fear of harassment, has been removed from the public school he was attending under supervision. Social workers say they don't know where he can be helped without being followed by the stigma of what he admitted.

"The question becomes, where can this child go now to get treatment? Are we going to have to send him out of state?" asked Glenn DeMots, associate executive director of Bethany Christian Services in Grand Rapids.

The boy from Fruitport, a mostly rural community of 1,100 residents about 30 miles northwest of Grand Rapids, has been at Bethany since last summer after pleading guilty to second-degree criminal sexual conduct for molesting one child while his family was attending services at Fruitport Bethel Baptist Church.

As part of his treatment, he was urged to disclose the names of any other victims. He admitted molesting 63 other children between ages 1 1/2 to 4 years old during 1985-88.

He also implicated his 17-year-old brother, Paul, who was charged with one count of first-degree criminal sexual conduct. Paul denies the charge.

David was told beforehand that any disclosures he made would be given to his case worker and police to ensure treatment for the alleged victims. But otherwise, the confession from patient to therapist is confidential.

But during the notification of congregation members, the confession became public. The story was first published, identifying the Hawkey boys, in the Muskegon Chronicle on Feb. 4.

It wasn't long before the story was picked up nationally. David has been labeled as potentially one of the worst child molesters in U.S. history.

Since the story broke, Muskegon County Prosecutor Tony Faas has filed two additional charges of first-degree criminal sexual conduct against David and said he expects more charges.

"I wouldn't feel comfortable just taking his word for (the number of victims), so we're trying to verify as many cases as we can," Faas said, adding that detectives were still interviewing many of the children.

Valdez capt. accused of endangering crew

ANCHORAGE, Alaska (AP) - Exxon Valdez Capt. Joseph Hazelwood tried to move the grounded tanker off a jagged reef, endangering the engine room crew and risking the loss of the ship, a prosecution expert testified Monday.

But defense attorneys atta­cked George Greiner Jr.'s testi­mony as inaccurate and elicited his concession that the ship never moved anywhere after it was aground.

Greiner, a marine safety con­sultant from Ridgefield, Wash., who spent 29 years as a Coast Guard officer before retiring in 1982, said recordings made between 12:38 a.m. and 1:41 a.m. on that day showed the ship's heading was moved drastically back and forth.

"The movement of the rudder back and forth is consistent with trying to move the vessel off the rock or bottom. I can think of no other reason for it," Greiner testified at Hazel­wood's trial.

Under questioning from As­istant District Attorney Brent Cole, Greiner said that moving the 987-foot ship off the reef threatened further damage to the vessel and could have hurt or killed people in the engine room.

Greiner said the maneuver could have flooded the engine room, making the ship heavier and possibly sinking it.

The prosecution contends that Hazelwood was reckless in trying to move the Exxon Valdez off the reef minutes after it ran aground, creating the nation's worst oil spill.

Prosecutors say that, had Hazelwood been successful in moving the vessel off the reef, the ship would have capsized, spilling even more oil and possibly killing crew members.

The tanker spilled almost 11 million gallons of oil, killing countless birds, fish and other wildlife and blackening hun­dreds of miles of rocky shore.

Hazelwood's attorneys main­tain he never attempted to back off the reef, but was trying to stabilize his ship by moving forward.

Defense attorney Michael Chalos challenged Greiner's calculations, suggesting he didn't consider all information available when he reached his conclusion.

"Do you know how much thrust would have to be gener­ated by the vessel engine to move this vessel one inch?" Chalos asked.

"No," said Greiner. "There's no way to calculate it."

Chalos then asked whether the ship was capable of moving even one inch after the accident.

Chalos suggested that, since the ship could not move, Hazelwood's efforts to stabilize it might have put what sources said was a $500 million spy satellite in or­bit.

The outlook improves to 40 percent for rain, with a 20 percent chance of thunderstorms.

CAPE CANAVERAL, Fla. (AP) - NASA will wait until Wednesday for the sixth at­tempt to launch the shuttle At­lantis on an undercover mili­tary mission, but weather may again interfere.

Forecasters said there was only a 20 percent chance the weather would be favorable at launch time, expected to be about 12:45 a.m.

The problem, they said, would be high winds and clouds, the forces that combined early Monday to halt the latest effort to put what sources said was a $500 million spy satellite in or­bit.

The outlook improves to 40 percent on Thursday.

Women continued from page 1

blame Notre Dame has a very long, fine history, but one dom­inated by men. Notre Dame is a very Christian place. One thing about Christianity is it encour­ages respect for the individual. Honestly, some people don't think of Notre Dame as being diver­se, but I think that Notre Dame lagged behind our sister institutions in erecting a formal structure to address the status of women.

According to Kolman, eight committee appointees have been named, and all are women. "In some sense there is a desire to have people more in tune with issues," she said, adding that there was no bias against men on the committee.

"We are disappointed we didn't launch, but are convinced that the launch team and the mission management team made the correct decision," Creighton said in a statement. "We are looking forward to our next opportunity."

The astronauts boarded At­lantis about 2 1/2 hours before Monday's scheduled 12:54 a.m. liftoff. The countdown was put on hold, but a break in the weather never came and at 2:32 a.m. the launch was abandoned.

So far, the delays have cost the National Aeronautics and Space Administration $2.75 million.
A lexicon for conservatives

In my opinion, being conservative in its strictest sense, one must adopt the following positions in order to be conservative in the truest sense of the word:

The Riley team represents Siegfried Hall in last week’s Bonehead Bowl sponsored by St. Ed’s. From left, the team consisted of Erinn Kelly, Amy Listerman, Casey McMurray, and Priscilla Peralta.

**BONEHEAD BOWL**

*A contest of useless information and ND trivia*

**STEVE BROWN**

*accent writer*

Last week, St. Ed’s Hall sponsored its first Bonehead Bowl. “What is the Bonehead Bowl?” you may ask. Well, it’s different things to different people. Sophomore John Plumb describes it as “an excuse not to do homework.” Freshman Amy Listerman says, “It’s a chance to show off our vast knowledge or lack thereof.” Others simply see it as “a contest of useless information and ND trivia.” In any case, there’s one thing that everyone involved in the bowl agrees with — it’s a lot of fun!

The Bonehead Bowl is like the college-bowl competitions that are often on TV game shows. Two teams, each made up of four players, hear questions, buzz in on a Family Feud-type buzzer, and attempt to answer as many questions as possible. The distinctive feature of the Bonehead Bowl, though, is the wide variety of knowledge that the questions attempt to extract from the confines of the contestants’ nimble minds. To give you an example of the vast range of these questions, here are a few examples from the competition:

1) Who is Calvin’s best friend?
2) What is sticking out of Mary’s head on the Dome?
3) Why does the snow on South Quad melt in stripes?
4) What is your favorite color?

As you can see, there are some really difficult questions here! Actually, there were some “real” questions about history and literature, but the contestants and the audience seemed to enjoy the ones along the lines of “what’s the name of Bo and Lake’s car on the Dukes” more. (Answer: the General Lee)

This year, the Bonehead Bowl consisted of about twenty-four teams, with names ranging from Storiedman Libido to St. Ed’s Dave. The teams were split into two divisions of 12 which competed last Wednesday and Thursday nights. Then, after single elimination play through four rounds in each division, the field was narrowed to the semifinals. The championship was held at Theodore’s on Saturday night. The team from Stanford took this year’s crown, but St. Ed’s plans to give the other dorms a chance to get even next year. They plan to make the bowl an annual event and hope that support next year will be even greater than it was this year.

The Bonehead Bowl was a hit of fun for the audience as well as the contestants. People had a ball coming up with creative answers to questions like “what is your favorite color” and “who made Notre Dame #1?” So what if all the knowledge the bowl fosters and 60 cents will get you a cup of coffee? A good time was had by all in the first-annual Bonehead Bowl, and it promises to become an anticipated event in the future.

Vogan and Pritchard focus of Literary Festival Tuesday

**Sophomore Literary Festival**

**MIKE BEVERIDGE**

*accent writer*

The University of Notre Dame is continuing its long tradition of honoring the power of writing by hosting the 22nd Sophomore Literary Festival this week. Tuesday’s guests have both shown a variety of literary talents through teaching as well as more than one form of writing. Melissa Pritchard and Sara Vogan will share their talents with the Notre Dame community as the Festival continues tonight in the Hesburgh Library Auditorium.

Melissa Pritchard has earned the respect and praise of the literary community for her short fiction with the publication of a collection titled “Spirit Seizures” and for her first published work, a novel titled “Phoenix.” Accolades for Pritchard have come in the form of several awards, including the Flannery O’Connor Award for Short Fiction and the Carl Sandburg Literary Award. She is also noted for sharing her talents as a respected teacher of creative writing at Santa Fe Community College in her hometown, Taos, New Mexico.

Sara Vogan is also known for her expression in several different forms. She holds a bachelor’s degree in journalism, from the University of West Virginia and a master’s degree in creative writing at the University of Illinois. Her first novel, “In Shelly’s Leg” (1981), was widely acclaimed, and her collection of short stories titled “Scenes From the Homefront” (1987) earned her the University of Illinois Short Fiction Award. Samples of both Vogan and Pritchard’s works were anthologized in “Best American Short Stories.” The two women continue to earn respect and admiration for their upcoming endeavors.

With literary talents such as Vogan and Pritchard, the Festival promises to continue its tradition of excellence. Attend the Festival and be a part of that tradition. Vogan and Pritchard will read in the Hesburgh Library Auditorium at 8:30 p.m. on Tuesday.
Firing of Berry settles Patriots' feud

FOXBORO, Mass. (AP) — Raymond Berry was fired Monday as coach of the New England Patriots in a power struggle with General Manager Pat Sullivan. Pittsburgh defensive coordinator Rod Rust reportedly was the top candidate to succeed Berry.

The firing apparently centered on Sullivan's desire that Berry go outside the organization to name offensive and defensive coordinators, while Berry apparently wanted to fill those spots from his current staff.

"In my job as a coach, I'm hired to give these people my best judgment ... I do things I believe in and I have a very difficult time doing things I don't believe in," said Berry, who was released one day before his 57th birthday and after 5 1/2 seasons in which the Patriots were 48-39.

When asked if he had ever wavered in his position, Berry said, "You can't do that. You can't compromise your beliefs."

Sullivan had no comment when he left Sullivan Stadium at noon for a meeting with Berry and Berry's attorney. Later in the day, Sullivan said he had agreed to honor the final year of his five-year contract.

Rust received permission from the Steelers to talk with Sullivan, flew from Pittsburgh Monday and reportedly met with Sullivan, who had no comment about a meeting with Berry. The Patriots said a news conference would be held Tuesday afternoon.

In a statement released by the team, Sullivan said the decision to release Berry was "the most difficult and most unpleasant of my career."

Sullivan said had improvements throughout the entire organization were needed and a post-season review was under way. He also said potential players who had not been given control over team personnel were to be reassigned.

Raymond Berry and I have encountered deep philosophical differences as to the depth and nature of these improvements. To allow such differences to continue to exist is harmful to the organization," Sullivan said in his statement.

I was hired to coach the team and to make coaching decisions under our agreement," said Berry, referring to his contract. "If he (Sullivan) doesn't agree with my coaching decisions he can fire me, and he's done that. It's as simple as that. He's doing his job. I'm doing mine. We both have a right to do that because this is America."

The Patriots were 5-11 last season and missed the NFL playoffs for the third consecutive year. Berry, who had worked without offensive and defensive coordinators in 1989, was pressured by Sullivan to add those positions.

Last December, shortly after the season, Patriots owner Arthur Kraft reportedly offered former San Francisco coach Bill Walsh the job of club president and the power to hire a coach or take the job himself. While Walsh declined, he appeared to be on firmer ground entering the final year of his contract, which reportedly gave him control over team personnel

But after Berry reportedly told Sullivan he planned to split the offensive coordinator's job between running back coach Don Breaux and quarterback coach Richard Wood, Sullivan went to Kraft. The owner gave Sullivan permission to find a new coach.

"It was time for Pat to step up to the plate and take charge," Kraft said.

If Rust, 61, is hired, it would be his first NFL head coaching job. An assistant with four pro teams the past 14 years, Rust was Berry's defensive coordinator for 3 1/2 seasons before filling that position with Kansas City in 1986 and the Steelers in 1989.

It was a dispute over an assistant coach that got Berry the Patriots' head job in the first place. And that assistant was Rust.

Ron Meyer, then the head coach, fired Rust on Oct. 24, 1984 before informing Sullivan, who was attending league meetings in New Orleans. "I did what I felt was within my authority," Meyer said.

Sullivan rushed home, hired Berry that night and told Meyer the next morning he fired Rust regained his defensive coordinator's position.

The Patriots were 5-3 at the time and ended the year at 9-7. The next season, Berry guided them to their only Super Bowl appearance in team history. They lost 46-10 to the Chicago Bears.

New England was 11-5 the next season, but only 8-7 and 9-7 the next two years before having their worst record since 1981 last season, although injuries sidelined several top defensive players for the entire season.

Berry, who reportedly had given up control of the offense to assistant coach Frank Gansz and his defensive coordinator, was criticized for an unimaginative and predictable offense.

In the last two games of the season, the Patriots lost to the Steelers 28-10. Rust's defense didn't allow a touchdown until 1:16 was left in the game.

Our preparation was good," Pittsburgh linebacker Jerrell Williams said.

Rust was the Patriots' defensive coordinator from 1983 through 1987. His stay with Kansas City ended when head coach Frank Gansz and his staff were fired late in the 1988 season.

Berry, who reportedly had given up control of the offensive game plans, repeatedly was criticized for an unimaginative and predictable offense.

In the next to last game of the season, the Patriots lost to the Steelers 28-10. Rust's defense didn't allow a touchdown until 1:16 was left in the game.

Our preparation was good," Pittsburgh linebacker Jerrell Williams said.

"It was time for Pat to step up to the plate and take charge," Kraft said.

Ohio State adds to Illini woes with seesaw win in Columbus

Ohio State added to Illinois woes with a seesaw win in Columbus. The Buckeyes defeated No. 18 Illinois, 85-74, on Tuesday.

The game was marked by wild turnarounds. Ohio State, which ran its homecourt-winning streak to 145 with a victory over the Jayhawks, scored the game's first 10 points in the second half against Illinois. The Buckeyes led by 15 at the half and made eight straight free throws during a 20-0 second-half run Monday night as Marquette routed Evansville 90-65 in a Midwestern Collegiate Conference game.

Jackson finished with 12 of 16 from the field and 3 of 3 at the line. He also had three rebounds and three assists. Carter had a game-high 13 rebounds for the Buckeyes, but Illinois held a 37-33 advantage in rebounding.

The Observer

Late Bookstore Basketball sign-ups will be held Tuesday and Wednesday from 5 to 7 p.m. in the SUB office. The entry fee is $5. Applications for the Hall of Fame Game are due March 1.

Al McGuire will give his opinion of Notre Dame's road to the NCAA tournament on WYFI-AM's sportstalk from 8-9 p.m. Also hear coach Digger Phelps' preview of the Dayton Flyers as Vie Lombardi and Kevin McCormack host.

Off-campus hockey has a playoff game at 9:15 p.m. tonight.

Women's lacrosse club will practice from 6 to 8 p.m. Wednesday and 5 to 7 p.m. Friday at Angela Athletic Facility. Call 284-5097 for more information.

NVA needs officials for floor hockey. The pay is $8.50 per game. Sign up at the NVA office.

Crew team will meet at 7:30 p.m. Wednesday in 127 Nieuwland to discuss spring break trip.

Women's Bookstore signups will be on March 26, not on February 26 as originally reported. Further details will be printed at a later date.

Tennis

continued from page 20 and execute without having the benefit of playing singles. This is important because it usually takes a player a while to get into a rhythm," Bayliss noted.

"The real glue to our performance was David Diloria's brilliant play at number one and number one doubles," Bayliss said.

Yet no season-ending cake-walk awaits the Irish, as the HEB Collegiate Invitational at Corpus Christi, Texas looms on the horizon. The matches, which will all be against Top 25 teams, will be played outdoors, while the Irish have been competing indoors all season. While this will force the Irish to adapt, the team remains optimistic. "All the teams will be good. It's a prestigious tournament, and a big honor to be included, so we would just like to make sure that we make a good showing," Bayliss said.

Ohio State adds to Illini woes with seesaw win in Columbus

Jacksors in 28 points as Buckeyes edge 18th-ranked Illinois in contest at St. John Arena

COLUMBUS, Ohio (AP) -- Jim Jackson matched his career high with 28 points and Perry Carter scored 14 of 16 points in the second half as Ohio State defeated No. 18 Illinois 85-74, in a Big Ten Conference game Monday night.

Kendall Gill scored 23 points, Marcus Liberty and Steve Bardo each had 17 and Andy Kaufmann 11 for the Illini (11-7 overall and 9-7 in the Big Ten).

The game was marked by wild turnarounds. Ohio State, which ran its homecourt-winning streak to 145 with a victory over the Jayhawks, scored the game's first 10 points in the second half against Illinois. The Buckeyes led by 15 at the half and made eight straight free throws during a 20-0 second-half run Monday night as Marquette routed Evansville 90-65 in a Midwestern Collegiate Conference game.

Jackson finished with 12 of 16 from the field and 3 of 3 at the line. He also had three rebounds and three assists. Carter had a game-high 13 rebounds for the Buckeyes, but Illinois held a 37-33 advantage in rebounding.

Marquette 90, Evansville 65

MILWAUKEE (AP) -- Tony Smith scored 29 points and made eight straight free throws during a 20-0 second-half run Monday night as Marquette routed Evansville 90-65 in a Midwestern Collegiate Conference game.

Trevor Powell added 16 points and Mark Anglavar 15 for Marquette, which had lost six of seven before Monday.

Stephen Bardo (55) and Illinois lost a seesaw game to the Ohio State Buckeyes last night by a score of 86-80.

AP Photo
NEW YORK (AP) — Baseball talks came to an abrupt halt Monday and threw the start of the regular season in danger while three Pittsburgh Pirates wondered whether the fight over salary arbitration was worth it.

The season is in very heavy jeopardy," Commissioner Fay Vincent said.

 Owners and players did not meet as expected Monday and union chief Donald Fehr left town, saying he wouldn't return to the bargaining table until management makes new proposals.

Fehr, scheduled to meet with the union's executive board Tuesday in Phoenix, agreed the stalemate might postpone regular-season openers on April 2.

"I think it's been in jeopardy for some days now," he said. "I don't know if it's gone, but it's in some jeopardy."

But on the 12th day of the owners' lockout, Pirates pitcher Neal Heaton said he is anxious to play.

"I'm kind of leaning toward, 'Let's sign,'" he was quoted as saying by the Pittsburgh Post-Gazette. "It gets kind of ridiculous. I'm ready to go."

However, Pirates' player representative Mike LaValliere said the right choice.

The right choice.
Hurricanes poised as they await start of spring practice

Coral Gables, Fla. (AP) — With the Miami Hurricanes set to begin spring practice, second-year coach Dennis Erickson figures there won’t be too many questions about what to expect from the defending national champions.

“A year ago they were wondering if we could coach,” Erickson said Monday. “Now people won’t question us until September, and then we’ll win them all again.”

Miami actually won only 11 of 12 in 1989 but it was good enough for a third national championship in seven years.

Last October’s loss at Florida State was ignored by Erickson — and in the season highlight film unveiled at a luncheon Monday.

Finishing No. 1 makes such overviews excusable. It also makes the coach eager to return Tuesday to the practice field.

“The only thing I would say is that anytime you start sitting back on your laurels and don’t look to improve yourself, you’ll get your rear ends beat,” Erickson said. “We’re always looking for new and better ways to do it. We want to learn and try to find the best way for us to continue to keep this program where it’s at.”

Some of the changes Erickson plans involve the running game. Several Hurricanes coaches visited the Kansas City Chiefs staff earlier this month to find out how Christian Okoye gained so many yards.

Erickson said he would spend some time investigating a better way to run play-action passes and look at some different blocking schemes.” Erickson said.

Miami will use a two-tight end set more, he said, to take advantage of depth at that position and the ability of bruising sophomores Steve McGuire, who ran for 519 yards and 10 touchdowns in limited duty last season.

Defensively, the priority will be overcoming to the loss of three departed linemen, including All-Americans Greg Mark and Corey Kennedy.

“I don’t know that you’ll ever in college football find a front four better than we had this last year,” Erickson said. “So replacing them is going to be very, very difficult.”

To help the pass rush, the Hurricanes will experiment with more blitzing and man-to-man secondary coverage, Erickson said.

Four starting defenders return including linebacker Maurice Crum and defensive tackle Russell Maryland. Crum will miss spring drills because he’s playing baseball. Eight starters return on offense, including quarterback Craig Erickson. Sophomore Bryan Fortay will get a chance to wrest the No. 2 job from injured Tino Torretta, who will miss about half of the five weeks of drills with a broken right arm.

Saint Mary’s honors Radke before beating up on Bethel

By CHRIS BACON

Sports Writer

The Saint Mary’s basketball team finished its season at home Saturday by routing Bethel College 92-53.

The Belles upped their record to 12-10 by coming out of the gate with a vengeance. Led by sophomore forward Janet Libbing’s 16 first half points, the Belles dominated the boards. Senior guard Julie Radke added to the Belles momentum, sinking three-three-point shots, while guard Dawn Brohman, senior, added a pair of trifectas. At the half, Saint Mary’s held a comfortable 46-25 lead.

“We just shot extremely well, dominating the boards. We had great offensive execution and defensive pressure,” said Belles coach Marvin Wood.

In the second half, the Belles continued to trounce Bethel. Freshman forward Kim Holmes, sophomore forward Catherine Restovich and Libbing each led the team with six points in the second stanza. Junior guard Dawn Brohman and Radke helped seal the victory with three-point goals down the stretch.

Adding to the Belles’ scoring efforts was Brohman, who scored ten points. Senior forward Amy Baranko added nine points, while Restovich and Tetonhon tallied eight points each.

“It was the best performance of the year. The girls executed the game plan the way we prepared them to do,” Wood said.

The Belles shot at 55 percent from the field and 57 percent from the line.

In a special ceremony before the game, the Belles retired Radke’s jersey, number ten. Radke leads the school with 1253 total career points.

“I was really honored. I am glad I was able to contribute to the team and to Saint Mary’s athletics,” said Radke.

“Only people with outstanding contributions to the team, school and community have their jersey’s retired. She’s made an outstanding contribution to the Saint Mary’s program,” Wood said.

The only other jersey retired at Saint Mary’s belonged to Radke’s sister Tammye.

Kansas moves back on top as Missouri falls in AP Poll

AP Photo

The Oklahoma Sooners, who defeated the then-top-ranked Missouri Tigers on Sunday, face the top-ranked Kansas Jayhawks tonight.

For eight weeks, it’s been either Kansas or Missouri at No. 1, but Jayhawks coach Roy Williams, facing a date Tuesday at Oklahoma, refuses to worry about a No. 1 jinx.

“Everybody says No. 1 is a jinx, but not nearly as much as playing at Oklahoma,” Williams said. “If we were getting ready about a No. 1 jinx. I don’t think people would be talking about is No. 1. I happen to think playing in Norman is much tougher than the jinx of being ranked No. 1 in the country.

The Jayhawks (27-2) moved into the No. 1 spot for the third time this season with 41 first-place votes and 1,293 points from the nationwide panel of sportswriters and broadcasters.

Kansas, which had both its previous stays at the top ended by Missouri, will be on the same court where the Tigers (25-3) were knocked from the No. 1 spot last season by Missouri, which had both its games last week.

The Bulldogs (19-6) beat the Hoosiers, which set a school record for victories with a 90-78 loss to St. John’s during the week. Michigan (20-5) fell one place despite winning its two Big Ten games they played last week, 72-49 to Purdue and 72-66 to Michigan State.

Oklahoma, which tied for fifth.

Rangers thrash Bruins
NEW YORK (AP) — Darren Turcotte scored three times, twice in a five-goal second period, as the New York Rangers completed their first-ever regular-season sweep of the Boston Bruins with a 6-1 victory Monday night.

The Rangers won all three meetings with the Bruins this season, the first time since entering the NHL in 1926 they have swept the season series from Boston. The victory extended the Rangers' unbeaten streak to 4-0-1 and ended the Bruins' four-game winning streak.

Turcotte, playing his first full NHL season, had two power-play goals in the second period and completed his second career hat trick by beating relief goalie Andy Moog on a breakaway at 6:31 remaining.

Boston starter Reggie Lemelin stopped all 20 Ranger shots in the first period, including a penalty shot by Kelly Kisio at 10:17. But the Rangers solved Lemelin and the NHL's leading defense in the second period, scoring five times on seven shots.

Carlyle's power-play goal at 11:23 of the first period gave the Bruins a lead but Kisio tied it at 1:59 of the second period on a back-hander. Turcotte got his first power-play goal from inside the right circle, at 4:18. Bernie Nicholls made it 3-1 at 8:37 with a quick wrist shot from the bottom of the left circle, and a cross-ice pass from Ulf Dahlen.

At that point, the Rangers had scored on all three of their power-play shots in the period. Turcotte got his second power-play goal at 10:57, this time beating Lemelin from the top of the left circle with a slap shot. Ronnie Tug Mallette added his fifth of the season at 18:12, back-handing Nicholls' rebound into a half-empty net.

The five-goal period was the Rangers' biggest of the season and the victory gave them a three-point lead over the second-place New York Islanders in the Patrick Division. Kisio was awarded his penalty shot when Lemelin threw his stick at the puck as Kisio circled the net. Kisio skated in, but Lemelin stood his ground and stopped Kisio's wrist shot with his glove.

The Bruins, who completed a six-game road trip with a 4-2-0 record, are 10-2-1 in their last 13 games away from Boston Garden. They remained three points ahead of second-place Montreal in the Adams Division.

Nordiques 3, Penguins 2
QUEBEC (AP) — Ken McRae and Lucien DeBliss scored third-period goals to give the lowly Quebec Nordiques a 3-2 victory over the Pittsburgh Penguins Monday night.

It was the only second victory in the last 18 games for the Nordiques, who had only one team to be eliminated from the playoff race and have by far the worst record in the NHL (11-46-6).

DeBliss slipped the rebound of Joe Sakic's third-period goal into the point into an open net at 13:49 with Randy Gillhen serving a hooking penalty.

"I guess it's like an honor, you could say," Hull said. "It's not only passing my dad, but joining guys like Guy Lafleur, Mike Bossy, Wayne Gretzky and Mario Lemieux. "There are not many guys who have scored more than 60 goals."

Hull's play has put the Blues, a .500 or worse team most of the time, behind the first-place New York Islanders in the Adams Division and fell four points behind in the Patrick Division and four points behind in the Patrick Division and fell four points behind the Islanders in the Patrick Division and fell four points behind the Islanders in the Patrick Division.

Hull has scored in 16 regular-season games left. "There are not many guys who have scored more than 60 goals," Hull said.

Hull's play has put the Blues, a .500 or worse team most of the time, behind the first-place New York Islanders in the Adams Division and fell four points behind in the Patrick Division and fell four points behind the Islanders in the Patrick Division.

Hull's play has put the Blues, a .500 or worse team most of the time, behind the first-place New York Islanders in the Adams Division and fell four points behind in the Patrick Division and fell four points behind the Islanders in the Patrick Division.

Hull has gone national with appearances on "The Tonight Show" and "Late Night With David Letterman."

"But the spotlight hasn't been on me," Hull said. "I couldn't believe how hard the shot was." Canadian goaltender Patrick Roy said after Hull's 6:11st whiz past him on Sunday to complete his hat trick and force overtime. "I still don't understand how it got in," Roy said. "It was a perfect shot."

Bohrer said the Blues' record of 54 goals in a season, set by Wayne Babych in 1980-81. Five games later, a hat trick — all in the first 6:30 of the second period — against Quebec Feb. 15 gave Hull 55 as Babych watched.

Victory over Xavier costly for Irish

Liebscher hurts ankle as women gun down Musketeers

By STEVE MEGARGEE
Associate Sports Editor

Muffet McGraw will have to hope that next season is a lucky number for her Irish women's basketball team during the next week or so.

With less than nine minutes remaining in light of Monday night's 85-61 win over Midwest Collegiate Conference rival Xavier, Associate Sports Editor Sara Liebscher injured her ankle while attempting a missed free throw. Liebscher, who averages 9.9 points per game, figures to be out for the next seven to nine days, which means she will miss Thursday night's game with conference foe Dayton.

Notre Dame (19-6 overall, 14-0 in MCC play) already was down to eight players after losing players earlier in the season to injuries and academic issues.

"And then there were seven," McGraw said after the game.

"Liebscher has an ankle support in her shoe. This is the first time she's turned it all year, Karen (Robinson) already has an ankle brace on. We'll have to start passing that around," DeCicco said.

Despite extending its injured reserve list, the Irish also continued to dominate the MCC. The victory over Xavier extended Notre Dame's overall win streak to 19 games, and the Irish have won 19 straight conference games dating last season. The most recent win, however, was something less than a walkover.

"I thought we looked awful," said McGraw, who stands one win away from her third consecutive 20-win season at Notre Dame. "This was one of the worst games we've played in a while. We've had so much time between games that we're just not sharp out there.

Notre Dame had not played since a 76-48 rout of Saint Mary's two weeks ago.

Women improve to 5-3 on the season with weekend success over home court

By BARBARA MORAN
Sports Writer

The Notre Dame women's tennis team slammed four of its opponents at Eck Pavilion last weekend, raising its record from a mediocre 1-3 to a respectable 5-3 in the space of two days.

Notre Dame's first conquest took place Friday, with the Irish beating Illinois 7-2. Kansas State came close to sending the Irish Saturday morning by a score of 6-3, and was followed by a 9-0 afternoon rout of Drake University. Notre Dame closed out the weekend on Sunday with a sweeping 7-0 victory over Miami of Ohio.

Irish coach Jay Louderback was quick to praise his team's performance.

"We had all twelve players in the first three matches, and everybody had at least one win," said Louderback.

Louderback also noted the play of the Irish singles teams, which won an amazing five games or more per weekend.

Louderback credited the sudden success of his team to its tough schedule, which included harsh losses to Texas and Texas A&M two weeks ago.

"Playing down in Texas wasn't fun," said the coach. "We played strong teams that beat us. But I think it helps playing those strong teams, because then when you get up against these non-top-20 teams you find that the team that doesn't come back isn't strong.

After three straight weekend wins, the Irish will take a much-needed break next weekend, and will resume play in California over spring break. Over break, the team will first face University of California at Santa Barbara, followed by matches with top-five teams UCLA and Pepperdine.

Another respected opponent bites the dust as men's tennis records win over Gophers

By DAVE DIETEMAN
Sports Writer

The Notre Dame men's tennis team travelled to Minneapolis to top the Golden Gophers of Minnesota a cliff-hanging upset this weekend behind the dazzling performances of David DiLucia, Ron Rosas, Andy Zurcher, and Ryan Wenger.

Minnesota, which had been ranked 25th in the nation, and had a reputation of being difficult to beat at home, did not fall without a fight, however.

In singles, sophomore David DiLucia of Notre Dame defeated Minnesota's first singles player Brian Ubiehen, by a score of 6-1, 6-2. Also winning in the singles bracket for the Irish was third singles man Mark Schmidt, who beat Kevin Wrewe 6-3, 6-7, 7-5. Schmidt had been down in the third set, but staged a tremendous rally, winning the next five games and the match.

The Irish also got victories at the fifth and sixth singles positions, as freshman Andy Zurcher netted a nail-biting win of the Golden Gophers and freshman Ron Rosas battled back repeatedly to stun Anthony Cruz. Like Schmidt, Zurcher found himself struggling in the third set, but fought back, outlasting and outscraping his opponent.

The final score of 2-4 was thanks to the play of Mike Wallace and Ryan Wenger, who provided his own version of Irish endurance, as he rebounded from being down nine match points, connecting with passing shots on all nine points, and thwarting the talented offense of the Gophers, who had been ranked 13th in the nation as a high school tennis player.

In doubles action, the Irish tandem of David DiLucia and Mike Wallace upset Brian Ubiehen and Kevin Wrewe 6-1, 6-2, 6-3. The Irish second doubles team of Chuck Goldsen and Rick Naumoff fell to the colorful Gopher duo of Byfield Leach and Anthony Cruz, 6-4, 6-3.

"I'm really excited about the way the team is competing and fighting through these matches," said Notre Dame head coach Bob Bayliss. "The team has been able to come back from some difficult situations, scratching and clawing back.

"Minnesota has only lost two home matches in the last two years, and they have been ranked in the Top 25 for the last eight years. They are a team that is used to winning at home, but we just went out and took it away from them. The pride that our kids are showing is very gratifying, considering that we've been playing four freshmen and one sophomore."

Notable bright spots in the Irish weekend was the play of Mike Wallace and Ryan Wenger, who compete only in doubles matches. "Both Mike and Ryan were able to walk into their matches..."
