Lithuania must back down, letter says

MOSCOW (AP) — Lithuanian President Vytautas Landsbergis said Thursday he will carefully study a proposal from Russian and West Germany that the Baltic republic temporarily suspend its drive for independence.

The letter from French President Francois Mitterrand and West German Chancellor Helmut Kohl delivered to Lithuanian representatives in Moscow, said such a suspension could lead to talks with the Kremlin "so that the current crisis ends in a solution acceptable to all parties.

Also Thursday, Vilnius Radio reported Lithuania will begin food rationing May 1. The republic of 3.8 million people is struggling under an economic embargo imposed last week by Soviet President Mikhail Gorbachev to break its declaration of independence.

Gorbachev himself was confronted Thursday by activists protesting his crackdown in Lithuania. During his visit in an industrial city in the Ural Mountains, demonstrators raised a banner that called him a "political hypocrite."

"Gorbachev meets protesters/ page 6

Landsbergis described the letter from Mitterrand and Kohl as "a step forward toward the realization of Lithuanian independence," said a parliamentary spokesman and Turkens, speaking by telephone.

Lithuania wants an immediate dialogue, Landsbergis said, and "a termination of the Soviet economic blockade against Lithuania would be linked to the strengthening of this dialogue."

The leadership of Lithuania, greatly appreciating this act of goodwill on the part of two noted leaders, will carefully study this letter's proposals and conclusions," the spokesman added.

Turkens said Landsbergis viewed "as positive" that the letter from Kohl and Mitterrand did not mention invoking Lithuania's March 11 declaration of independence. The letter discussed temporary suspension of some decisions by the Lithuanian parliament.

The letter from French President Mitterrand and West German leader Kohl came two days after President Bush said he would put off sanctions against Moscow for bringing economic and military pressure against Lithuania.

Recently, authorities on Monday urged Lithuania to suspend for two years its declaration of independence.

Lithuanian leaders have refused to revoke their declaration. But the Baltic republic's leadership has always been willing "to discuss the timing and the form of independence, whether or not that's a year or two," Turkens said after talking to Landsbergis.

Gas stations octane cheat

WASHINGTON (AP) — Some service stations pass gasoline to customers with a rating on the pump as higher-priced super premium, according to a congressional study Thursday that said "octane cheating" is costing motorists $150 million a year.

The report by the General Accounting Office estimated that 9 percent of gasoline sold nationwide is mislabeled by half an octane number and more. And in several states where pump testing has actually proven mislabeling, the federal government has done little to stop the deception, the report said.

"Unfortunately, consumers cannot determine octane ratings visually or in other ways that allow them to know if they are getting what they are paying for," the GAO said.

Federal law requires that uniform yellow and black labels on gas pumps show the octane rating of gas, and some higher-priced vehicles recommend various levels of octane to avoid "knocking" in engines. A low octane gas can reduce engine efficiency, mileage and emissions in high-powered engines, the GAO said.

Regular unleaded gas is rated at 91, with midgrade unleaded at 89 and premium grades from 91 to 94. Regular leaded gas is rated at 89.

The difference in retail price between the lowest and highest grade can range up to 20 cents a gallon.

"A consumer could be paying several cents a gallon extra for quality that is not delivered," said Sharp, who is chairman of the House Energy and Commerce Subcommittee on energy and power.

A 1978 law requires the Federal Trade Commission and the Environmental Protection Agency to enforce marketing practices. But the GAO says see OCTANE/ page 4.

Cheney's Proposed Aircraft Cuts

WASHINGTON (AP) — Defense Secretary Dick Cheney on Thursday called for slashing Pentagon plans for the stealth bomber and other sophisticated aircraft, citing a diminishing Soviet threat.

Cheney, pressed by congressional Democrats to cut military spending in response to rapid changes in Europe, testified his blueprint would trim $2.4 billion from President Bush's $307 billion defense budget for 1991 and would save $34.8 billion through 1997.

In addition to cutting the proposed number of B-2 bombers from 132 to 72, Cheney said he intends to cut planned production of the C-17 long range transport plane and the Navy's A-12 attack aircraft, and to delay purchases of the Air Force's Advanced Tactical Aircraft and the Advanced Fighter.

The chairman of the House Armed Services Committee, Rep. Les Aspin, D-Wis., commended Cheney for "coming to grips with some things he clearly needs to come to grips with" but said he didn't go far enough.

Citing analysts' testimony one day earlier on the internal workings of the Soviet military as well as U.S. intelligence reports predicting instability of the broader Soviet economy, Aspin said Cheney's plan is "based on an unrealistically pessimistic view of the Soviet threat."

Cheney later presented his plan to the Senate Armed Services Committee, where the chairman, Sen. Sam Nunn, D-Ga., gave it high marks for its efforts but declined to adopt the program totals.

Nunn was puzzled, however, by Cheney's ability to reduce aircraft programs without final figures on the armed forces.

"How can you make the decision on the numbers without having a firm force structure in mind?" Nunn asked.

Cheney said the present situation dictates cuts in the B-2 and C-17, and possible reductions in aircraft carriers and Air Force wings, would decide the other programs.

"I can tell you with some conviction that both the Navy and the Air Force are going to be a lot smaller in the future than they are today," Cheney said.

The Democratic-controlled House is already debating a fiscal 1991 budget that would make significant cuts in proposed Pentagon spending. The Senate is working on its own version.

Cheney told the House committee, "Soviet military capability will continue to be robust but we can in fact afford to slow down the pace of development."

Panelists discuss ways to add diversity to Catholic worship; emphasize group prayer

BY JESSICA ZIEMBROSKI
News Writer

The role of diversity in the setting of Roman Catholic worship was the subject of a panel discussion in Grace Hall on Thursday where select panelists discussed the issue of innovation in the liturgy.

Panelists included Archbishop Eugene Marino of Atlanta, Fr. Fernando Cheri, Fr. Idoe Aleman of the Archdiocese of New Orleans, Eugene Bernardoni, director of Notre Dame's Center for Pastoral Liturgy, and two scholars of African American liturgical concerns.

Discussion included the manner in which the panelists thought a gospel liturgy should be celebrated and all agreed that in was in prayer where all the people participated. The question of the extent to which the Bible should be used in the mass was presented.

Fr. Abram discussed the possibility of using more interpretation as opposed to strictly reading the Bible when preaching, and having a close family atmosphere within the service. Also he stressed the importance of thanking God as being a further part of the liturgy.

Mass was celebrated in Stephon Center on Wednesday by Archbishop Marino and a collection was taken for the Sister Thea Bowman Foundation. Bowman died March 30, a few days after she had been named the 1990 recipient of the University's Lastare Medal. Her support of black Catholic education was brought up and ideas for its improvement were discussed.

The University of Notre Dame needs to take a leadership role in the attempt to end the arms race in the United States, according to Bishop Thomas Gumbleton. The most dramatic step which Notre Dame could take to express its disapproval would be to eliminate its ROTC program, said Gumbleton, auxiliary bishop of Detroit and president of Pax Christi USA.

Its existence is evidence that Notre Dame is supporting the unfair status quo in the United States, a "corporate sin," according to Gumbleton. Gumbleton explained that the five Jesuit priests who were killed in El Salvador were in the midst of supervising a plan to transform the Jesuit schools in Central America into schools "for the poor." He challenged the Jesuits working in United States institutions to strive towards the same transformation.

"An opportunity for dramatic change is present," said Gumbleton, in reference to the end of the Cold War. For Notre Dame to take advantage of this opportunity, he suggested a three part proposal.

Notre Dame should take a leading role in ending the arms race, come up with alternative economic conversion proposals, and "dissociate itself clearly, dramatically, and completely from the militarism of this country," by eliminating the ROTC program, he said.

"Most of the time we will be organizing in such a way that the poor will be killing the poor," said Gumbleton. The fighting will be an attempt to maintain the status quo, which favors the "slaves of possession" in our "civilization of consumption."

"I find it absolutely abhorrent... I do not understand how we can support the militarism and consumerism in the United States," he commented. He expressed a hope that Notre Dame could help "transform our earth into a place... where the God of all creation will reign and the poor will be killing the rich, and not the rich killing the poor."

"The United States is already a great superpower, a military superpower," he said. "But that's the problem, we're going to keep increasing the budget, while the poor are going to suffer... The United States is already a military superpower... militarily and economically."

Gumbleton quoted Pope John Paul II, saying that militarism is "clearly hurtful to the poor; it maintains an imperialist monopoly over the goods (the United States) has amassed for itself."

Gumbleton said that in the next two decades, the greatest conflict for the United States will be with third world countries, as they attempt to get control over their own resources, which the U.S. now claims.

The United States is already preparing for this conflict, according to Gumbleton. The military is planning for "low intensity conflict," including sabotage and guerrilla warfare.

Oil spill test tank opens

WASHINGTON (AP) — The Interior Department will re-open, refurbish and manage a 2.5 million gallon oil spill test facility at a Navy site in Leonardo, N.J., according to an agreement signed Thursday.

The tank, which fell into disrepair after closing in 1987, is the only one of its kind in North America that accommodates full-scale oil cleanup equipment. Research there has produced most of what experts know about oil spill response.

Officials hope to reopen the Oil and Hazardous Materials Simulated Environment Test Tank near the Earle Naval Weapons Station by 1991.

"This is a milestone event for oil spill containment and cleanup research and operations," said Barry Brown, director of the Interior Department's Minerals Management Service.

The test facility will be run by Robert Alles, deputy commander of the Naval Sea Systems Command, signed documents Thursday transferring custody of the facility to the Minerals Management Service for five years.

He predicted a slip in the years in which the new systems will be deployed.

Cheney said his proposed cutback would lower the projected cost of the B-2 program from $75.4 billion to $61.1 billion. But he said building fewer planes would drive up the cost of a single plane from about $530 million to more than $800 million.

"We are in fact looking at targeting requirements," Cheney said, noting the obvious decrease in the number of targets in Eastern Europe since the collapse of the Warsaw Pact.

Cheney said he intends to cut the number of B-2 aircraft to be purchased in the next fiscal year to two planes, from the five currently proposed at a cost in the fiscal 1991 budget of $5.5 billion. And the maximum number of planes to be built during peak years of production would be reduced to 12 instead of 24, Cheney indicated.

Conservatives on the House panel suggested that Cheney's plan for the B-2 will help the program survive on Capitol Hill.

"It could make it more palatable to members on defense," Rep. Ike Skelton, D-Mo., said.

Insect repellents recalled for effects on lab animals

WASHINGTON (AP) — Two major brands of insect repellent and scores of others are being pulled from store shelves because an ingredient used for decades damaged reproductive organs and caused tumors in test animals, government regulators said Thursday.

In all, 200 brands of insect repellent, including Off and Cutter's, use the ingredient 2,3,4,5-tetrachloro-6-(2-butylene)tetrahydro-2H-furan-2-carboxylic acid as an additive to repel flies that bite, said Al Heier, a spokesman for the Environmental Protection Agency.

About 25 percent of all insect repellents on the market use the additive, known industrially as R-11 although that name does not appear on the label of any consumer product. The labels, instead, carry the long technical name, Heier said. "The company has voluntarily canceled their registration on this product and informed all the users," Heier said. "They did the responsible thing."

Cancelling the registration means the company is asking for revocation of its license to produce or sell a pesticide.

Two of the major users of the additive are S.C. Johnson and Son Co. of Racine, Wis., which makes Off, and Miles Co. of Chicago, producer of Cutter's, Heier said. Both are notifying retailers to take the products off their shelves.

Sixty-five other companies also produce repellents using R-11 under a variety of brand names.

**Colombian presidential candidate assassinated**

BOGOTA, Colombia (AP) — A man on a suicide mission pulled out a submachine gun on a crowded Colombian jetliner Thursday and assassinated a presidential candidate before dousing himself in a blaze of pistol fire from bodyguards.

A drug trafficking group called the Extrastables claimed responsibility for shooting former leftist guerrilla chief Carlos Pizarro and said his name was picked in a drawing, the radio network Caracol said.

The group, mainly from the Medellin cocaine cartel, said other candidates will be killed until traffickers are pardoned. Pizarro was the fourth Colombian presidential candidate to be assassinated in the past 31 months. Drug traffickers were blamed in all four deaths.

An anonymous telephone caller said the names of three other presidential candidates were in the death lottery and that another candidate will die.

One bodyguard accompanying Pizarro if he survived the flight. Minutes later he stood up and whipped out the weapon from his black leather jacket. Leasing over a passenger in the row in front of him, Rodriguez pointed the gun at Pizarro's head, about a foot away, and opened fire. Police said only Pizarro was hit.

Eight bodyguards accompanied Pizarro on the flight. Caracol quoted an unidentified campaign worker accompanying Pizarro as saying.

The country has been facing a bloody drug war.

MOSCOW (AP) — Demonstrators confronted Mikhail Gorbachev over his crackdown against Lithuania during a visit to a Ural Mountains city on Thursday, activists said. One banner called the reformist president a hypocrite.

Besides the public protests, Gorbachev said he traveled to a less visible threat — potential fracturing of the Communist Party. He expressed alarm that a dozen local party members quit the party just as the hard-line Youth Front in Sverdlovsk, about 870 miles east of Moscow, the official news agency Tass reported.

Los Angeles (AP) — Unocal Corp., joining a growing contingent of oil companies with clean air ideas, announced Thursday it would offer to buy 7,000 older gas-eating cars in an effort to reduce smog in the Los Angeles basin.

Unocal has allocated $5 million to purchase the cars, which must be at least 20 years old, and scrap them, said Richard Stegemeier, Unocal's chairman and chief executive. The plan would eliminate an estimated 6 million pounds of pollutant gases, he said.

Owners would be offered $700 apiece for the locally registered junkers, Stegemeier said.

"We want to take the heaviest polluters off the road and hand them over to a scrap yard, which will shred and recycle the metal," Stegemeier said.

Unocal executives noted that pre-1975 vehicles pollute from 15 to 30 times more than 1990 models, with about 410,000 such gas guzzlers living in Southern California, registered in the region. The program is scheduled to begin June 1.

Another voluntary program, to take effect in July, offers free smog checks and emission control tune-ups for pre-1975 cars at participating Unocal service stations.

Such tune-ups could remove 17 million pounds of carbon monoxide, nitrogen oxides and reactive organic gases from the Los Angeles basin, which has the worst air quality problem in the nation, the Los Angeles-based company said.

A spokesman for Southern California's powerful air quality agency voiced support for Unocal's program, which was seen by one industry analyst as a growing trend of "greening" among oil companies.
Contact with Hubble Telescope is re-established on second attempt

CAPE CANAVERAL, Fla. (AP) — Ground controllers cheered after re-establishing contact Thursday with the $1.5 billion Hubble Space Telescope through its main antennas. An attempt six hours earlier had failed.

"I'm pretty relieved, I must say," said Al Bogess, Hubble project scientist at Goddard Space Flight Center in Greenbelt, Md.

Aplause erupted at Goddard's Space Telescope Operations Control Center when the high-speed contact was made Thursday afternoon.

Controllers sent information to the telescope about its location, and "this basically improved the telescope's knowledge where it was, what its position was," said Goddard's Dave Drachlis. They also widened the radio beam to cover a larger area around the two high-speed dish antennas.

"We have confirmation that we have achieved communication with the Tracking and Data Relay Satellite through the high-gain antenna system," Drachlis reported.

The antennas are the primary communications links for relaying scientific information to the ground.

Controllers' lack of experience with the new satellite was part of the problem, Bogess said.

"This probably won't be the last time we have a problem," he said. "We'll keep working at it until we have all these things that need to be done. We'll get them right."

The problem began Thursday morning when engineers tried pointing the two high-speed antennae toward two widely-separated TDRS satellites without success. Two low-speed antennas were working fine, but Bogess said they were "excruciatingly slow" for sending data.

Interviewing Skills Workshop

Need Practice with interviewing while earning $50 as an interviewee?

Come join us for our Interviewing Skills Workshop, June 18-22, July 23-27, or August 20-24 at our Center for Professional Education in St. Charles, Illinois. We are looking for students to participate as practice interviewees with our professionals who are developing their interviewing skills.

As part of this one-day seminar, each Andersen Consulting recruiter will conduct 30-minute practice interviews with three different students. Each interview will be videotaped followed by a critique by the interviewer and interviewee. In addition to the practice interviews, a class will be conducted that covers the interviewing process, from resume writing to evaluating job offers.

The ideal candidates for this workshop are engineering, computer science, business, and M.B.A. students entering their last year of school next fall.

The workshop will take place each business day listed above from 8:00 a.m. to 5:30 p.m. Participants should plan on arriving at St. Charles between 6:00 p.m. and 8:00 p.m. the evening prior. We will provide you with overnight accommodations and meals of our Center in St. Charles. Participants will be paid $50 for services as a practice interviewee.

If you are interested in participating, please forward a cover letter, resume, and the date you would like to attend by May 1, 1990 to:

Jane Nelson
Andersen Consulting
Interviewing Skills Workshop
33 West Monroe Street
Chicago, Illinois 60603

Selected candidates will receive a letter with details.

Don't cry, Val! We'd never forget your birthday!

Fun in the sun

The Senate refuses to cut Panama aid past two years.

WASHINGTON (AP) — The Senate late Thursday rejected an effort to cut the aid President Bush is seeking for Panama and use it instead for a variety of domestic programs.

Senators left the $420 million Panama aid intact when, on a 51-48 vote, they defeated an amendment by Appropriations Committee Chairman Robert Byrd, D-W.Va.

The Senate then labored late into the night as it tried to deal with dozens of proposed amendments, but prospects appeared remote for quick approval of the overall aid bill, which included $300 million for an effort to cut the assistance to Nicaragua's President Violeta Chamorro.

"Chamorro's term may expire before we get the aid down there," cracked Minority Leader Bob Dole, R-Kan.

The bill still faces a veto threat from President Bush, who opposes a provision that would allow the District of Columbia government to use local funds to pay for abortions for poor women. Such payments have been banned for the past two years.

Byrd had proposed to slash Panama's aid to $300 million and use the largest chunk of the savings to strengthen up Department of Energy nuclear plants. Other money would have gone for sanitation in Indian housing, agricultural disasters and a new safety program for women and children.

Capitalizing on the general unpopularity of foreign aid in Congress, Byrd cast his amendment as an effort to make charity begin at home.

U.S. and USSR talk of trade pact

WASHINGTON (AP) — The United States and the Soviet Union reached basic agreement Thursday on an economic pact that would normalize trade relations between the two superpowers for the first time in nearly a half century, a senior U.S. negotiator announced.

U.S. Deputy Trade Representative Julius Katz said he expected the agreement would be ready for signing at the May 30-June 3 summit between President Bush and Soviet President Mikhail Gorbachev.

The agreement would clear the way for the Soviet Union to do business in the Soviet Union. U.S. officials have predicted that trade between the two countries could double or even triple over the next three years with a new trade agreement.

Private economists doubt that assessment, given the numerous troubles plaguing the Soviet economy.

The agreement would clear up with within the next few weeks.

Last year, trade between the countries totaled $5 billion. U.S. export sales, which totaled $703 million, included petroleum and consumer items such as vodka and furs.

Friday, April 27, 1990 The Observer page 9

JERUSALEM (AP) — The Supreme Court on Thursday ordered the eviction of Jewish settlers who stirred an international protest by moving into a building in the Christian quarter of Jerusalem's Old City.

The church argues the settlers are in the building under an illegal sublease. It said it would close all Christian shrines in the Holy Land on Friday to protest the presence of the 150 settlers.

The Jewish settlers moved into the 72-room St. John's Hospice on April 11. The action brought protests from Christian clerics, Palestinian Christians and Moslems, the U.S. State Department, pro-Israeli lobby groups and the government of Greece.

The State Department called the Neot David settlement "an insensitive and provocative act." The U.S. government opposes all settlements on land Israel captured in the 1967 war, saying it is an obstacle to peacemaking with the Arabs.

The walled Old City is divided into Moslem, Christian, Jewish and Armenian quarters. Each sector contains holy sites and shrines, and the slightest changes in the status quo have historically led to violence.

Campus date rape should be publicized at ND

Dear Editor:

I recently received a University survey on male/female relationships at Notre Dame. As someone who has experienced these relationships here for four years, I share the University's concern about the worst outgrowth of male/female relationships. I have either raped or have been raped. Date rape happens at all schools across the country. It is not even a problem. The majority of the Editor-in-Chief, Managing Editor, News Editor, Viewpoint Editor, and Saint Mary's Editor. Column space is available to all members of the community and the free expression of varying opinions on campus through letters, is encouraged.

Rampant homophobia represents ignorance and bigotry

Dear Editor:

I have spent several hours attempting to write a calm, reasoned and logical response to the current form of hatred. I finally gave up and decided to confront face on the anger I feel—an anger which has been late in coming and is, I feel, finally justifiable. I am simply sick and tired of the rampant homophobia of this campus (and country and culture), and of the systematic and relentless efforts of the self-appointed guardians of morality to impose their "lifestyle" on the whole of creation.

I would like to be able to say that I am indifferent to the ravings of homophobes individuals who are quick to point out the "morally unacceptable," or "unnatural," or "abnormal" nature of our lives. Unfortunately, it's not quite that simple. As Alva Lewis' sad but revealing letter illustrated (The Observer, April 9), it is not that easy for a repudiated minority to develop a positive self-image in the face of continuous put-downs, both overt and subtle. One way to begin to do so, however, is to develop an awareness of and appreciation for the achievements of those who have come before us.

Unfortunately, the level of ignorance regarding homosexuality is astounding. This is probably always the case when dealing with socially-sanctioned prejudices and hatreds, but is made worse in our case by our near invisibility to preserve their image. Many people here would probably say it is not even a problem at Notre Dame—because we do not hear about them.

By covering up date rape at Notre Dame, I refer to the university's preference to keep date rape incidents quiet as possible and deal with offenders in their own way (which, at worst, might have a person dismissed from Notre Dame for "disciplinary reasons").

By covering up date rape—by not reporting specific instances to student publications such as The Observer—we prevent a useful form of information from publications. The University creates the illusion that date rape does not happen here. Women are discouraged from reporting date rapes if they think it is a unique instance at Notre Dame; men who know it happens are encouraged to commit the violent crimes for which they are aware of the fact that they know at least one! Few people, gay, straight, or bisexual, know about the achievements of gay people—neither of the accomplishments of those who have achieved greatness according to the usual worldly standards, and others—who stood up to Deutsch-Carpini seems so anxious to deprive us of it.

How ironic that Deutsch-Carpini should adjust his tourist visits to gain access to the history of the black problem. Our writings are analogous to those of a group who might want to use The Observer's pages to propagate racism. Our writings are much more analogous to those brave individuals—Catholics and others—who stood up to racism in the not-too-distant "past" when overt verbal attacks on racial minorities were not only socially acceptable, but socially required of all those who wanted to maintain their social standing in white society.

It is too much to hope that in the not-too-distant future your average decent individual will have come to recognize the truth of Rev. William Sloane Coffin's words: "Just as the 'black problem' turned out to be a problem of white racism, just as 'the woman problem' turned out to be male sexism, so the 'homosexual problem' is really the homophobia of many heterosexuals who just won't grant God the right to a more pluralistic creation. It's bigotry, pure and simple."

GARRY TRUDEAU
New wave of socialism stifles freedom

By Richard Lachetta and Paul Babka

Throughout the past week, much has been said about environmental issues. We would like to point out that these issues are owned by the city: every square centimeter of garbage takes up valuable space. When the existing space is filled up, the dump owner will be forced to go anywhere to get rid of his garbage. Those costs will be reflected in the price per cubic centimeter of garbage.

Since the dump owners will be forced to charge according to the amount of garbage, so will the garbage collectors. Hence the more people throw away, the more they will be required to pay. People are for garbage collection now, but who wants to see their efforts wasted? The amount of garbage will be reflected in the price per cubic centimeter of garbage.

For the same reasons, people will use more recyclable products to avoid away costs. In most cases, the recyclable goods, such as glass soda bottles and newspaper, are bought back by the manufacturers, so people will be saving money by avoiding disposal costs and making money through recycling. This will become more and more the case that option of paper cups would be unwise. People who use disposable cups and bottles will be forced to pay more at the checkout line, but instead of the paper bags now charged to them, they throw the bottles out as well.

For the same reasons, people will use more recyclable production programs that fail to help those for whom they were intended. The problem, however, is not with the idea of preferential hiring and promotion, but with the way it is currently practiced. Affirmative action for blacks and Native Americans is justified to make up for past crimes, crimes not of discrimination, but of kidnapping and enslavement (for blacks) and land confiscation and forced resettlement (for American Indians).

In my opinion, these are the only two peoples to qualify for preferential treatment. As for other minorities, they have the same opportunity to come to America and have no claim on this status. The issue is not skin color—Irish, Poles, Jews, Hispanics, Asians, etc., have all participated in American history. They did not, however, suffer tremendous crimes sanctioned by the government, thus entitling them to compensation to

dis.

The reason why current programs of affirmative action are not working is simple: all minorities are lumped together. With even women added to this roster, the "minority pool" has become a majority ocean, leaving Native Americans and blacks no better off than before. As it stands, the "great-granddaughter of a slave owner is accorded the same preferential treatment as the great-great-grandson of his slave." Is this fair? Does this correct the wrongs? Obviously not. The solution is to limit affirmative action to the two groups mentioned.

Acker criticizes affirmative action because it is itself discriminatory. But not all discrimination is wrong. Discriminatory hiring and promotion on the basis of family ties is acceptable. It is wrong for a company to give an advantage to the son of a daughter whose parent died because of the company's past negligence? No, and again I think it is expected. Still, some may argue that descendants should not be held responsible for the actions of their forebears. After all, for many Americans, their ancestors only came to America in this century. How are they responsible for slavery and theft of Indian land?

The answer is that collective injury and guilt, with their long-term effects, claims and obligations do carry through for generations, until past wrongs are somehow righted or forgotten. It is not the case of isolated individuals or of isolated events, but of prolonged violation of human rights by a nation. Affirmative action, limited in the way suggested, is a just way for America to say, "I am sorry, allow me to make it up to you."

**FILMS**

On "Star Wars" and "Raiders of the Lost Ark" are on the production team, so the effects should be great.

Andrew Dice Clay is the new filmmaker's favorite for the summer. He will have his own concert movie, and in "The Adventures of Ford Fairlane" he is cast as a private investigator who works in the music industry world. It is a comic thriller that boasts a star-studded cast.

Wayne Newton, Prescilla Presley, Robert Englund ("Nightmare on Elm Street"), Vince Neil (Motley Crue), Sheila E., and even Tone-Loc makes a cameo appearance.

After the death of a rock singer, Clay becomes involved in a maze of corruption, double-crosses, blackmail and murder. "Ford Fairlane" was directed by the man responsible for the fourth and most profitable entry in the "Film Street" series, "The Dream Master," so a quality film can pretty much be expected.

Arnold Schwarzenegger returns to the screen in "Total Recall," directed by Paul Verhoeven, who did "Redscoon." It is set in 2084 A.D. and is an action comedy of self-discovery.

The heartthrob movie of the season will probably be "Air America," with Mel Gibson and Robert Downey, Jr. These two are renegade pilots with the world's most secret airline, Air America, whose motto is "anything, anywhere, anytime."

"Flatliners" tells the tale of five medical students who play with a life-after-death experiment and become individually faced with the sins of their past. The cast includes Keifer Sutherland, Julia Roberts ("Pretty Woman") and Kevin Bacon.

The movie industry probably has a few other potential blockbuster that they are keeping under wraps until the last minute. There should be enough good movies to keep people busy when they get tired of the sun and the beach.

Special to the Observer

Moviegoers will be relieved to hear that only three out of ten movies so far slated for release this summer are sequels. Don't cringe at those three, though—they ought to be as good as the originals.

On the wake of his success with "Look Who's Talking," Bruce Willis returns to the screen as John McClane in "Die Hard 2: Die Harder." He had international success with the role in the original film, and should pull through in this one as well.

"Die Hard 2" is set in an international airport where special forces, led by a manical former U.S. military officer, attempt to intercept a Central American drug dealer. Their plans are thrown slightly out of whack when McClane arrives.

This should be good, but hopefully this will be the last one—it could turn into a "Rambo"-type series, and America could be viewing "Die Hard 6: Please Die This Time."

The 1988 hit "Young Guns" has already led to a television series, and now it has a sequel, aptly titled "Young Guns 2." Three out of the eight actors from the original return, including Emilio Estevez as William H. Roach, a.k.a. Billy the Kid. Christian Slater and Alan Ruck (Ferris Bueller) are two of Billy's new gang who will be familiar faces.

"Young Guns" is set in the West where the original left off. Billy and his fellow rebels are now on the run.

What could prove to be one of the best horror films of the summer is "The Exorcist III: Legion." This is supposedly the official sequel to "The Exorcist"—the first sequel was not written by the author of the original, but this one is. According to the writer, the demon goes on forever, but how, and in what form?

This film starts right where "The Exorcist" ended—a demon has cast itself into the body of a young priest. The film has elements of a detective story, a theological puzzle and a study in terror. The men who worked on "Star Wars" and "Raiders of the Lost Ark" are on the production team, so the effects should be great.

Elite Eight begin quest for Bookstore XIX title
Griggs keys Just Chillin' over Senior Bar; other top seeds advance to final weekend

By GREG GUFFEY
Sports Editor

Just Chillin' is hot. The 14th-ranked seed knocked off third-seeded Senior Bar 21-19 Thursday afternoon to advance to the Final Eight. Ray Griggs scored nine points for Just Chillin', a team with few big names and even less recognition before Thursday's victory.

"It really wasn't an upset," Griggs said. "We were just unheard of before the game. It was the best game that we've all played." Said teammate Joe Fulton who scored two hoops. "We thought they (Senior Bar) were on the better teams in the tourney. We also felt we were underrated. We played together well as a team today."

Just Chillin' might have to play the remainder of the tournament without big man Kevin Ruel, who hurt his ankle in last year's trip to the Final Eight, without big man Kevin Keyes and Cedric Figaro added five backets each.

Jodi Martinez added six basquets each for the winners. "I think our defensive intensity has kept us in every game," Gumbert said. "I think we can play with anyone because of our defense. We ran our offense well today, but we've got to make more than one pass against the man-to-man defense."

Martinez, who works in the catering department at Notre Dame, is a force inside for Remember It's Denver. He was one of the leading rebounders in NAIA as a senior at Belhel College last season. Malicious Prostitution continued its quest for a second consecutive title with a 21-15 victory over Fast Break.

Joe Scott scored six points to lead a balanced attack for Malicious Prostitution, while Jim Flynn eased in five hoops.

Fast Break, probably the strongest challenger to Malicious Prostitution's title, got an easy 21-16 win over Shoot Or Get Off. Dickie Kinnon scored seven points to lead Adworks, and Kevin Keyes and Cedric Figaro added five backets each.

"I think we played OK," said Jim Dolan, who scored two points for the winners. "We didn't play great defense. We threw the ball away a lot. We have to play fundamentally sound basketball." Expresso Pizza will play Adworks after winning 21-18 over the Hawks in the quarterfinals.

Kevin Warren hit 10-of-21 shots to key Expresso, and Mark Grainger tossed in four points. Pete Digiovanni scored nine hoops in a losing cause for The Gauchos.

Jake Kelchner hit 6-of-12 shots and Eric Jones hit 5-of-9 to pace Tequila White Lightning to a 21-13 victory over Rubber Cement II. After Rubber Cement I took an 11-9 halftime lead, Tequila White Lightning controlled the second half.

Dorsey Levens scored eight points to key Soul Sonic Force in a 21-14 triumph over The Hawk Will Never Die. Martin Somerville added six points for the winners.

Sweet Scotty P and the Dwarfs edged C.J.'s Pub 21-14 behind the six points of Greg Gumbert. Bob Kloska and Jodi Martinez added six baskets each.

Just Chillin' will play Remember It's Denver in today's quarterfinals in a game that should be wide open.

"Our confidence is there," Griggs said. "In basketball who knows what can happen?" Remember It's Denver won its game against Part of the In te rhall team from 80 degrees heat until a free throw by sophomore Meg Hobday clinched the win. Theresa Zombek paced the Lyons attack with nine points and 18 rebounds.

"We were just a little more well-rounded than they were," said Mrs. Nelligan, a former Irish walk on who contributed a lot of time setting up plays, to the Lyons' effort.

In almost exact opposition to that style, Fast Break's opponents in the quarterfinals, Hey Neck? won their game byutilizing set plays retained from their Interhall championship. The team, which defeated Chickens Have Lips Harry 21-14, consists entirely of members of the Breen-Phillips squad that currently reigns as Interhall champions.

In Thursday's other game, C.J.'s Gals beat Shoot to Kill 21-9 and Murray's Madness knocked off 3 to Bounce and 2 for the Boysters 21-10. Cathy Emigholz and Mia Tottenbroch paced third-seeded C.J.'s with eight and seven points respectively. Murray's win in its game by taking advantage of its opponent's foul trouble, sinking eight free throws in the second half.

Quarterfinal action begins today at 4 p.m. on Stepan Courts 7 and 8.
Men's Bookstore Basketball XIX will continue today on the Bookstore courts beginning at 4 p.m. The finals are set for 3 p.m. Sunday.

Women's Bookstore Basketball XIX will resume today on Stepan courts with the Elite Eight. The final games begin at 4 p.m. Saturday with the Elite Eight.

Women's Final:
1:00 St 7 1:00
4:00

Women's Bookstore Basketball XIX will resume today on Stepan courts with the Elite Eight.
No strong challenger for Adworks

The 20,000 dollar question in Bookstore Basketball this year is once again this year is: Who is going to beat Adworks?

Ken Tysiack

Associate Sports Editor

Derrick Johnson, Tony Rice and Kevin Keyes, so Adworks should be able to have a field day on the boards and record a high-scoring victory.

The Final Four - Soul Sonic Force vs. Adworks - Soul Sonic Force reward fan devotion over victory to ensure that there would be a semifinal meeting with Adworks. Soul Sonic Force in this year's tournament has not faced the favorites, whose size inside will force Soul Sonic to abandon Lefevre as its main weapon and try to neutralize the snares and form er Notre Dame walk-ons. The real championship, and interhall star Liz Toohey, gives pressure on VanDyke inside defensively for Prostitution and Scotty P. to light it up from the outside in this one.

The Championship - Malicious Prostitution vs. Adworks - Don't look for a repeat of last year's upset. Dolan should have no problem in winning this match for a second title in a row.

The Final Four

- Don't look for a repeat of last year's upset. Dolan should have no problem in winning this match for a second title in a row.

- Top seeded Fast Break consists of two all possessions, the Dwarfs vs. Remember It's Denver as sensational as it was last year, and with Just Chillin' vs. Remember It's Denver taking on Hey Loppo, What's that on one end of the court and a strong inside presence. The real championship, and interhall star Liz Toohey, gives

- Tight field vies for women's crown

In a tournament that has been characterized by upsets, this one could be甘 with top-seeded victors and questionable seedings, the Women's Basketball Championship narrows the field to eight yesterday, day.

Top seeded Fast Break consists of two Saint Mary's players, Mia Tettenborn, the team expected to take this year's final rounds the closest and most exciting win.

The big man inside for Remember It's Denver - Cody Martinez - will be the difference in this game. No one in the tournament has been able to stop him, and Just Chillin' has no answers. Remember It's Denver by three.

Malignant Prostitution vs. sweet Scotty P. and the Dwarfs was a highly anticipated battle between big man vs. big man. Pete VanDyke vs. Scott Paddock. Paddock will win that battle, but the key will be Joe Scott of Malicious Prostitution.

With those two inside北京北京, look for Scott to light it up from the perimeter. The dream of defending stars alive and well to one nice game in a four-point Malicious Prostitution win.

Tequila White Lightning - The underdogs don't have the horses to stay with Adworks. Look for a repeat of the quarterfinals between Expresso and Adworks. Tequila White Lightning was blown out 101 on Thursday. Quickness will keep Soul Sonic close, but Tequila will win by three.

Just Chillin' vs. Remember It's Denver - Two teams that have known each other for a long time. Just Chillin' had the biggest upset of the tourney by knocking off Senior Bar on Thursday, while Remember It's Denver looked impressive in victories over all the President's Men and Clockwork Orange.

With those two inside北京北京, look for Scott to light it up from the perimeter. The dream of defending stars alive and well to one nice game in a four-point Malicious Prostitution win.

Tequila White Lightning - The underdogs don't have the horses to stay with Adworks. Look for a repeat of the quarterfinals between Expresso and Adworks. Tequila White Lightning was blown out 101 on Thursday. Quickness will keep Soul Sonic close, but Tequila will win by three.

Just Chillin' vs. Remember It's Denver - Two teams that have known each other for a long time. Just Chillin' had the biggest upset of the tourney by knocking off Senior Bar on Thursday, while Remember It's Denver looked impressive in victories over all the President's Men and Clockwork Orange.

The big man inside for Remember It's Denver - Cody Martinez - will be the difference in this game. No one in the tournament has been able to stop him, and Just Chillin' has no answers. Remember It's Denver by three.

Malignant Prostitution vs. sweet Scotty P. and the Dwarfs was a highly anticipated battle between big man vs. big man. Pete VanDyke vs. Scott Paddock. Paddock will win that battle, but the key will be Joe Scott of Malicious Prostitution.

Clockwise from top: Some samples of the movies scheduled to come to theaters this summer: "Die Hard 2" with Bruce Willis, "Total Recall" with Arnold Schwarzenegger, "Flatliners," a medical thriller, and "The Adventures of Ford Fairlane," starring Andrew Dice Clay.

**Overseas column**

Rome, Italy—There are some sculptures in Rome that are perhaps more haunting than Michelangelo's Pieta. The artist has not used paints, nor has he sculpted in stone. His medium is slightly less common—the bones of the dead.

Rows of skulls, thigh bones, and pelvic girdles form geometric designs on the walls and ceilings of these galleries. Some form symbols of the sacraments, while others recreate the bodies of the owners in their traditional garb. In the first gallery, three skeletons appear together in clothes that could have come from the friar found at the entrance to this "attraction."

Located right off of the porch Via Veneto under the Church of the Immaculate Conception, this cemetery for Capuchin friars houses the bones of some 4,000 friars whose remains have been artistically arranged into various geometric patterns on the walls and ceilings of this eerie crypt.

The bones of these friars date from 1538 to 1870, and the dirt floor of the cemetery was brought from Jerusalem during the Crusades by the orders of Pope Urban VIII. Unfortunately, the creator of this gruesome work is unknown.

As one walks into the cemetery, a gray-bearded friar, humbly dressed in what resembles a burlap sack tied with a bit of twine, will ask for a small "donation." The wise tourist will give these humble gatekeepers a few coins. These friars are pretty shrewd, though. They seem to charge admission based on how rich the visitor appears— I saw them charge one Japanese family 1,000 Lire per person.

There are three "galleries" of designs, each with its own particular theme which is explained by the multilingual signs on the walls outside the works. Signs everywhere prohibit flash photography, and it seems slightly macabre to take pictures of the bones in a cemetery. Pictures are for sale near the entrance, though.

Although the bones in the crypt have been lying here for at least 100 years, and the whir of innumerable tourists on their 100-sites-per-day trips crowd the cemetery, a deathly odor pervades the place. The stacks of bones stare back hauntingly as visitors walk down the narrow corridor behind the other tourists. The children squawk, and the bones seem to scream back at them.

There is something truly morbid about the place. Visitors feel as though they are reveling in death, as if one were watching one of those "Faces of Death" movies that feature horrible accidents that occur during the filming of movies and newscasts.

The last gallery has the remains of Princess Barberini on the ceiling of the arch. She holds in her skeletal hands a sickle and balance, as a grisly reminder of human mortality. On the wall beneath her, there is an inscription surrounded by rows of skulls and pelvic girdles reminding all passersby of their pitiful states. It reads, "We are once what you are; we are now what you will be."

As the vacant eye sockets of the ghastly Princess stare back, an icy terror grips the visitor's previously indifferent heart. Her eyes bore through the back of the soul as one walks out behind the bored, tired family of tourists and sees a new group entering this sepulchral scene.

**Latin Americans express selves with music, dance and comedy**

MANUEL ESPINO

Tonight the Notre Dame chapter of the League of United Latin American Citizens (LULAC) will be hosting the first annual Latin Expressions Talent Show.

What exactly is Latin Expressions? It is sort of a cross between the International Festival, Black Images and the Keenan Revue. Though the above are tough acts to follow, the Latin Expressions Talent Show promises to be lots of fun.

Latin Expressions, as the name implies, deals with the Latin American aspects of song, dance, comedy and drama. Though several acts aim to make fun of the stereotypes of the Latin Americans, a serious undertone exists throughout the program.

Fortunately, some have been approved to perform, so the show will last close to two hours.

Headlining the show will be Rachel Cruz, guitarist and singer, who will dazzle the crowd with her beautiful voice, just as she has before at Grace's Coffeehouse.

In addition, another Coffeehouse performer, John Kennedy, will sing a few Chilean folk songs. Also, various comedy and dramatic skits will be performed, with the topics ranging from the typical Latin American disciplining process to the reenactment of the miracle of our Lady of Guadalupe in Mexico.

There will also be Latin American singer impersonations and recitation of Latin American poetry. Notre Dame's Folk Dance Group and several students will perform their value for the umbilica.

The Latin Expressions will be in the Library Auditorium at 7 p.m. Tickets are on sale at the LaFortune Information Desk, and at the door, at a cost of $2.

So if a little variety interest you, come try a little Latin American culture.

The offensive line, which has been a sore spot for the Notre Dame football team all spring, will have a chance to redeem itself on Saturday in the Blue-Gold scrimmage.

Saturday's game will mark the sixth scrimmage of the spring for the Irish, more than the usual amount.

"We got in a lot of scrimmaging this spring, but we couldn't find a rhythm," Holtz said in summing up his impressions of the spring. "We got a lot done, but we've also got a long way to go. "We'll just have to wait and see where the dust settles."

NOTES: All proceeds from the Blue-Gold game benefit the Notre Dame Club of St. Joseph Valley Scholarship Fund. Advance tickets are available at Gate 10 of the Joyce ACC Friday from 9 a.m. to 5 p.m. Tickets cost $4 for adults and $2 for youths 17 and under...Tickets purchased at the gate on Saturday cost $5 and $3...All Notre Dame and Saint Mary's students will be admitted free with identification at gates 15 and 16. All Irish players will be available for photos and autographs from 12 noon until 1 p.m. on the Notre Dame Stadium field.

Track team travels to Drake, Hillsdale

By SHANNON FAY
Sports Writer

The Notre Dame men's track team has already qualified seven athletes for post-season competition and it is hoping to continue its success this weekend.

The Irish will divide into two squads as half of the team travels to Des Moines, Iowa, for the Drake Relays, while the remainder heads north to the Hillsdale Relays in Hillsdale, Michigan.

Although the split may serve as an obstruction to the team's success, Coach Joe Piane is looking at it with an optimistic attitude. He sees the division as an opportunity for individual athletes to contend against the best possible competition in their respective events.

Ryan barely misses sixth no-hitter

ARLINGTON, Texas (AP) — Nolan Ryan was too good for swing single in the second inning, tying Bob Feller's mark, when no-hitters, had to settle for his sixth career no-hitter.

Ryan had a great curve.
Women face Butler in finale

By BARBARA MORAN
Sports Writer

The Notre Dame women's tennis team will face its final opponent of the season in a match against the Bulldogs of Butler University today at 3:30 at home.

Irish coach Jay Louderback expects a solid match from the Bulldogs, who finished third in last fall's MCC competition. Although the Irish took first in the MCC tournament, Louderback was cautious about underestimating his foe.

"They've got a good team," said the coach. "They have four or five seniors, so they're a veteran team. I hope we win, but you never know. They're not bad at all.

The Butler competition will mark the return of Irish top seed Tracy Barton, who has been sidelined with an elbow injury for a month. Barton has been practicing since Easter, but has not competed for fear of further injury.

The match is also the last for seniors Alice Lohrer and Resa Kelly. Their performance during the season marks the end of the season marks the beginning of the NCAA tournament selection. Although the tournament does not begin until May 14, seeding for individual events will start next Monday, and the Irish are hoping to secure a bid for Tracy Barton.

Louderback, though he hopes to gain a bid for Barton, is unsure of his chances in being chosen. "I don't know," said the coach. "I can't really say now. Voting is going to be tight on the regional level, and tight on the national level. All we can do is hope for the best."

SPORTS BRIEFS

Sports Fisher Hall's "On the Grass Classic," two-person volleyball tournament, will be held this weekend, April 28-29.

Cost is ten dollars per team and all proceeds will go to Andre House, a shelter for the homeless in Phoenix, Ariz. Anyone wishing to enter the tournament should contact Tom Maloney at 285-1939 or stop by Room 140 in Fisher. Deadline for entry is Friday at 7 p.m.

Womens Lacrosse practice will be held today and the rest of this week at 4:00 p.m. in front of Angola. If you can't make the game this Saturday call Jeff (234-9878).

Womens Lacrosse players remember to bring money for gas for all the drivers this past weekend.

Free Coke Squeeze bottles will be given to the first 300 fans at Saturday's lacrosse match vs. Ohio State at 4 p.m. at Krause Stadium. In addition, there will be beach music and a halftime frisbee accuracy contest.

Womens Varsity Cross Country and Track and Field.

Beginning in the fall, women's track and field will be a varsity sport at Notre Dame. Any women interested in competing in track and/or cross country are asked to attend a brief meeting on Wednesday, May 2 at 4:00 p.m. in the Loftus Auditorium. Further questions please call the Track Office at 239-6899.

Reebok Supershorts contestants should report to the courts behind the Bookstore at 2:45 on Friday.

Rice continued from page 24

Perhaps Rice and Harris will take some consolation in the success of former Irish quarterback Joe Theismann and Houston Oilers signalcaller Warren Moon, both of whom were chosen in the NFL following periodic stints in Canada.

The NFL draft isn't always the ultimate authority when it comes to football talent. But then again, neither is the Heisman Trophy voters.

What does Notre Dame head coach Lou Holtz think about Rice being snubbed by the NFL? "He's going to go real high because he wasn't consistent as a passer," said Holtz.

"In the long run, you're better off not to draft him because he's probably going to go to the Canadian League. There are a lot of high-round picks that don't pan out," said Holtz. "I hate to think he would let his self-confidence ride on someone who's not always right."

Rice continued from page 24

"You can't do anything about it," said Holtz. "I hate to think he would let his self-confidence ride on someone who's not always right."

The Notre Dame softball team try to improve on its 29-14 record when it hosts three games this weekend. The Irish will welcome the Belles of Saint Mary's at 4 p.m. Saturday and the Lady Warriors of Marquette for a doubleheader starting at 1 p.m. on Sunday, all at Alumni Field.

Saturday's "cross-lake classic" against Saint Mary's, added to the Irish schedule due to the rain-cancellation of an early-season contest with Temple, promises to be an intense battle, according to head coach Brian Boulac. "They are going to try to improve on its 29-14 record when it hosts three games this weekend."

"It was a reaction play," Lemieux said, "I can't remem-ber how it happened. I went in and the puck was right there. I've got one of the worst shooting percentages in the playoffs. I thought I should try to get this one."

The spurt was all the offense the Blackhaw ks needed as rookie goalie Ed Belfour took care of the rest. Making his second successive winning start against the Blues, Belfour had to turn back only 18 shots, including seven in a scoreless final period.

"It was a reaction play," Lemieux said, "I can't remem-ber how it happened. I went in and the puck was right there. I've got one of the worst shooting percentages in the playoffs. I thought I should try to get this one."

The Chicago Blackhawks had reason to celebrate last night as they took a 3-2 lead in their best-of-seven series against St. Louis. Tuttle at 10:21 and the Blackawks' penalty-killers went to work. Chicago kept the St. Louis power play in check for all but 48 seconds of the five-minute penalty when Hull scored at 14:33 to cut the lead to 2-2.

There's a lot more to an Apple® Macintosh® computer than just something to make a résumé look good. Sure, it's got the capability to improve the look of practically any document. But once you get beyond Macintosh as just an elegant formatting tool, you begin to understand why it's becoming so widely accepted in the business world. My Mac® can crunch numbers with the best of them. It just plain makes me more efficient in everything I do. That frees me up for serious book time—and for non-so-serious stuff, too.

I do. That frees me up for serious book time—and for non-so-serious stuff, too. Having my own Macintosh is a big plus now, and I know it'll give me an edge in the real world, too. I'll be able to interface my Mac with whoever I work for. And that'll make me work better for whoever I work for. And that'll make me work better for whoever I work for.

Macintosh is going to make my résumé look better—in more ways than one. I'll be able to interface my Mac with whoever I work for. And that'll make me work better for whoever I work for.
Men's golf to play in Kepler Invite
By STEVEN WALSH
Sports Writer

The Notre Dame men's golf team travels to Columbus, Ohio this weekend to compete in the Robert Kepler Invitational tournament. It will mark the 16th straight appearance in the Kepler for the rapidly improving Irish. The coaches and golfers are very optimistic about this year's tournament because of the team's recent progress.

Last year, the Irish recorded a team stroke total of 939, their lowest 54-hole score ever in the Kepler. That was good enough for eighth place, their highest finish in the invitational since 1980. That performance combined with last weekend's good showing in the Akron Invitational have given the Irish reason to be upbeat about this weekend.

Women will golf in Boilermaker Classic
By FRANK BARLETTA
Sports Writer

The Notre Dame women's golf team will wrap up its spring season this weekend at the Boilermaker Invitational at Purdue University.

The four-day competition, consisting of 36 holes on Saturday and 18 on Sunday, will mark the first time the Irish have participated in this established tournament since gaining varsity status last year.

The team is hoping to make up for its last-place finish at the Indiana Invitational three weeks ago. Head Coach Tom Hanlon has been working with the team at the Elcona Country Club, which Hanlon says is a difficult course comparable to the one at Purdue. Hanlon is confident that his team has improved enough to finish respectably this weekend.

Although Notre Dame placed 25th out of only 32 teams in Akron, it was a successful outing nonetheless. The competition was the strongest from the midwest and the course was tougher than any the Irish had ever played.

The contrast between Ohio State's Scarlet Course and the Akron course, Firestone Country Club is encouraging for the Irish.

"Firestone was a very tight and demanding course, and most of the time there wasn't a lot of space to work with. I think it was very challenging for our team and they learned a lot from it," Notre Dame assistant coach Joe Thomas said. "The Scarlet Course is a great layout and it is wide-open, so it is not as demanding as most of the courses we've played this year, and we should be more confident with our game because of it."

Notre Dame will face some formidable opponents in the Kepler, especially Ohio State, which is ranked eighth in the nation and has won the event the last nine straight times.

"Our team is ready to face the challenge and display our skills," Hanlon said. "If we're at our proved next year" Hanlon said. 21st-ranked Ohio State and is to free coffee and donuts.

Tickets available at LaFortune Info. Desk **Admittance: $2.00 & $1.00 with Student I.D.

Irish lacrosse will host Ohio State
ND must defeat Buckeyes to keep tourney hopes alive

BY DAVE DIETEMAN
Sports Writer

The Notre Dame lacrosse team will host a crucial match for the NCAA Tournament bid as it faces off with Ohio State Buckeyes this Saturday at 4 p.m. at Moose Krause Stadium.

The Irish, who suffered a painful road loss to the Battling Bishops of Ohio Wesleyan in their last outing, are 7-6 on the season and in the hunt for a tournament bid. Yet the Buckeyes, who stand at 5-5 this season, must be contended with if Notre Dame wishes to be the best in the midwest.

"This is a big game for us," said Notre Dame head coach Kevin Corrigan. "Ohio State has a good, young team, and they match up well with us. We know how good they can play. We've got to prepare ourselves to play the best game of the season. We've got too much at stake right now. It's time to put up or shut up."

Ohio State returns 26 lettermen from last year's squad, which was only 5-9 but managed to even up the lifetime scoring list with Notre Dame at 46. The Buckeyes have been led by junior tri-captain Mike Avery, who averages nearly 2.5 points per game. McHugh is a threat, averaging nearly 2.5 points per game. Sullivan, who, with 29 assists, has scooped up an amazing 61 ground balls this season while frustrating opposing offenses. Behind Gillin and his defensive mates are goals Chris Parent and Tom Duane. Parent, who has started eight games and appeared in nine, has a save percentage of .557, while Duane, through five starts and eight total appearances, has a save percentage of .530.

"We're always optimistic," stated Irish mentor Kevin Corrigan. "We approach every game expecting to win, and we have to play like that all week if we are going to do it. We certainly have the will to win, but it's important that we take care of business this weekend."

NOTES: The match with Ohio State has been dubbed "Lax on the Beach." Featured at the promotion day will be a disc jockey, with beach music beginning one hour before game time. And a Frisbee accuracy contest at halftime (B.Y.O.F.) Free Coca-Cola squeeze bottles will be distributed to the first 300 fans.

Catch Irish lacrosse in a pivotal game for a bid to the NCAA's.

Irish football team will hold annual spring Blue-Gold game

By FRANK PASTOR

Lou Holtz looked down intently and pawed at the ground with his left foot, mulling over the question put before him following Tuesday's in-tranquill scrimmage.

What will Saturday's Blue-Gold game be like?

After discarding several ideas, Holtz finally settled on an answer that put the first 19 spring practice sessions in perspective. He raised his head and said, "A zero-zero game."

The defense dominated Tuesday's scrimmage, Notre Dame's final tuneup before its 60th annual spring football finale (1:30 p.m. at Notre Dame Stadium). Fifteen lost-yardage plays, including six sacks, kept the Irish offense marching down the field, but in the wrong direction.

Holtz complained about the lack of timing and execution on the offensive line, dropped passes and sloppy pass routes from the receivers, a lack of experience and leadership at quarterback, and "too many people playing on (the offensive) side of the ball."

Yet the smile came as a sign of reassurance for the Irish offense which Holtz spent the majority of Tuesday's scrimmage scrutinizing - an offense that will have to come together as a unit if Notre Dame is to imitate its remarkable 24-1 record over the past two years.

Quarterback Rick Mirer, the only offensive starter to be named by Holtz after the first 19 practices, will line up behind center Lance Johnson on Saturday for the Blue offense.

Mixer will have a talented cast of receivers to throw to, including flanker Rankgh "Rocket" Rockel, Ismail, split end Ray Griggs and tight end Endre Brown. Ricky Watters, who was moved to split end at the beginning of the spring, will start as tailback for the Blue squad. Watters will be joined in the backfield by fullback Rod Culver, who recovered from a knee sprain to rush for 121 yards on Tuesday.

"This was a real good day," Holtz said. "It's nice to see him back."

Jake Kelcher will quarterback the Gold offense, backed by a line that includes center Gene McGuire, tight guard Mirko Jurkovic and tight tackle Justin Hall. Tailback Dorsey Levens and fullback Kenny Spears give the Gold team a solid 1-2 punch in the backfield.

The Irish assistant coaches divided the squad in a player draft following Tuesday's scrimmage. Two Notre Dame assistant coaches, John W. "Jay" Jordan (class of '69) and Vince Naimoli (class of '59), will be the honorary coaches.

"The idea will be even," said Holtz, "but somebody like Zorro (nose tackle Chris Zorich) or (defensive tackle George) Boo' Williams can dominate."

Strange, then, that Jordan and Williams should end up on opposite sides of the gridiron. The two seniors-to-be anchor a Gold defensive line which also features tackle Mike Brown, down two tackles and two ends for minus-16 yards in Tuesday's scrimmage.

Holtz predicts scoreless tie

Rice led Notre Dame to a 28-3 record and the 1988 National Championship in his two-plus seasons as a starter. If not for last season's Miami loss, Rice very well may have won the Heisman based on his winning reputation alone.

But would he have been drafted even then?

Harris revived a dormant West Virginia program and led it to two straight bowl appearances, including a shut out of the national title in the 1989 Fiesta Bowl against the Irish. The Mountaineers lost both of those bowl games, but suppose they did not.

With a national title under his belt, would Harris move up very far in the draft? Not with a team willing to risk even a late-round pick on Rice, while Los Angeles made Harris the 317th of 331 players taken. NFL clubs opted instead to take lesser-known players in a draft whose talent pool was more shallow than those in recent years.

According to NFL scouts and draft experts, neither had the "tools" to make it in the NFL. The knock on Rice was that he could not fit into an offensive requiring a dropback, pocket passer. Harris was an erratic passer whose lack of height and speed concerned NFL scouts.

The biggest rationale given for not taking either Rice or Harris in the mid-to-late rounds of the draft is that both had considered playing north of the border and therefore would be wasted picks. Harris had already talked to British Columbia of the Canadian Football League. Rice travelled to Saskatchewan this week to speak with team representatives.

Irish baseball team to meet Titans

By MIKE KAMRAT

Things will only get tougher from here out for the Notre Dame baseball team.

After sweeping four from Chicago State this week, the Irish (29-9) travel into a lion's den this weekend to take on the Detroit Titans (7-5 in MCC), a team from Detroit.

Bookstore Basketball:

Results, Photos, Predictions and more: See special edition of Irish Extra inside.

Last year the Titans took six of eight from Notre Dame in the regular season so they know they're up against a quality team.

"They lost one pitcher and one hitter, but besides that they're intact," said Irish catcher Pat Murphy.

Both hope to keep the intensity of the rivalry doesn't escatlate to the point of last year's two bench-clearing brawls.

The hitters have gone through a resurgence as of late in raising the team average to .272. Of those leading the charge for the Irish is freshman DH and pinch hitter Adam Maisano. Maisano is hitting .429 with 3 HR's and 17 RBI. As the DH Wednesday, Maisano was 3-4 with 4 RBI. In the second inning of the first game, Maisano launched one into the stratosphere with a 420-foot home run.

"That was a bomb," stated Murphy. "It was the pasta, though. His mom sent up some pasta that day.

"The day before I was swinging at a lot of pitches," said Maisano. "Coach wants me to keep swinging at curves and changes because I have to hit them, but he said sometimes you have to wait for your pitch. On that homer I waited and got a fastball."

Maisano, who hails from Atlanta, Georgia, is without a question a hitter. From the posters of Jose Canseco and Don Mattingly that adorn his wall to himself, it is evident Maisano knows a good deal about what it takes to be a great hitter.

"Adam was a hitter from day one," said Murphy. "He's got incredible hand speed and power. He's done a super job as a pinch hitter and filling in at DH. But even more than that he's a great person. He's got great work habits and he's a pleasure to coach."

Maisano certainly has made the most of his opportunities. In his first official at-bat for the Irish, he hit a pinch home run against Dayton that turned out to be the game winner. Now, Maisano is becoming a guy the team looks for to get the big hit.

"That (the Dayton game) was a great situation. The team really needed it. I love to be counted on like that. It feels real good to contribute. I knew I could hit, but I wanted to help the team with it. I love to pinch hit with guys on base - I'm a lot more comfortable with runners in scoring position."

The Irish baseball squad will travel to Detroit for doubleheaders Saturday and Sunday.
