Chilean urges more student involvement

By DAVID KINNEY

Students all around the world must take a more active role in addressing national and world issues, according to Claudio Orrego Larraín, student body president of Catholic University of Chile.

According to Larraín, who spoke before the Student Senate Monday, students lost the right to elect their own student leaders at Catholic University after a military coup in 1973. He said rights were violated in the courts and military rectorates were appointed.

Students struggled to regain democratic election of student government, some going so far as to be jailed, tortured or killed, before the right was re-instated in 1985.

"Maybe for you it is just so common that you don't even care," said Larraín. "For us, it was so important just to gain the right to vote."

Ninety-nine percent of the student body voted in last year's election, he said.

In the United States, he said, "I feel that ... sometimes they (Americans) don't care about what is happening beyond the university, beyond the country. After the war in the Persian Gulf, the problems of the world don't stop."

The role of student government and university differs greatly from that of those in the U.S., according to Larraín.

Over the past six years, he said, students have worked to reach three major goals: the return of democracy, the de-

The Insider's Guide to Domestic Utensils

Sometimes one has to take desperate measures when it comes to writing these things, and this is one of those times. Rather than writing about JPW, the Gulf, Florentine Hoelker, or, as some people Associate News Editor suggested, their dogs, exploding frogs, or one of the two Patrick J. Clarkes on campus, I've chosen a subject close to all of our hearts.

As a senior I've set aside some special things to do here in South Bend before I graduate and lose the chance. You know, things that reflect the special character of life in South Bend, like hanging out in the Chick-fil-A sign of ND women's University Park Mall with high school classmates and more importantly, who buys it? Does someone explain what a "meat bailer" does? It sounds painful - is it a torture device?

Only one thing can match the meat baller, and that's the boning knife. Rather than in-flict unnecessary mental anguish upon the innocent reader, I'll attempt to describe the tool in question. Why does a store sell one of these things, and more important, who buys it? Does someone explain what a "meat bailer" does? It sounds painful - is it a torture device?

On the lighter side, I could choose between a regular peeler and a peeler with an added bean slicer, a choice which all domestically-inclined peasantry (note the gender-inclusive language) would easily make as the latter is a far better choice. With all these choices, can we say anything but: isn't America great? Rah!

The views expressed in the Inside Column are those of the author and not necessarily those of The Observer.

Paul Simon to perform at Joyce ACC

Paul Simon will perform at the Joyce Athletic and Convocation Center April 16, University officials confirmed yesterday. Simon's 7:30 p.m. concert is part of his current tour and will feature material from his entire recording career. The Grammy award-winning artist's most recent album, "The Rhythm of the Saints," is currently No. 10 on the Rolling Stone magazine album chart, and features musical styles of South America. Simon's previous album, "Graceland," was heavily influenced by African music. He is one-half of the former folk duo Simon & Garfunkle, whose credits include the soundtrack to the movie, "The Graduate." Tickets for the ND concert will go on sale March 2 at 10 a.m. at TicketMaster outlets.

OF INTEREST

A Cheerleader and Leprechaun tryouts information meeting will be held tonight at 7 p.m. in the football auditorium of the Joyce ACC.

Auditions for the Notre Dame Communication and Theatre production of "The Good Woman of Setzuan" will be held tonight in the laboratory theater of Washington Hall at 7 p.m.

Charles Carney of the Passionist Lay Missioners will be in the Library concourse today from 10 a.m. to noon and tomorrow in the Center for Social Concerns from 1 to 5 p.m.

The Diocesan Volunteer of New York program representative Lianne Stevenson will be on campus today and tomorrow, at the CSC from 10 a.m. to 5 p.m.

answer questions concerning a year of teaching in the Bronx.

WWF will hold a meeting at tonight at 7 p.m. in LaFortune for the campus bands interested in a special recording project. For more information, call Kevin at 283-1160 or Chris at 283-1832.

Student Art Forum will meet at 6:45 p.m. in the Conference Room of the Stile. There will be a movie about Andy Warhol for those going on the Hi-Lo trip to Chicago Feb. 23.

Wednesday lunch fasters and others interested, there will be a 20-minute reflection/silent prayer Wednesday at 12:15 p.m. in the C.S.C. The theme is world hunger and peace.

ON THIS DAY IN HISTORY

In 1878: Thomas Edison received a patent for his phonograph.

In 1942: President Franklin D. Roosevelt signed an executive order making possible the wartime internment of Japanese-Americans.

In 1963: The Soviet Union informed President Kennedy it would withdraw "several thousand" of an estimated 17,000 Soviet troops in Cuba.

In 1986: The Senate passed a resolution declaring the Philippine presidential election had been marked by "widespread fraud." The Senate also approved a treaty outlawing genocide, 37 years after the pact had first been submitted for ratification.

Ten years ago: The Postal Rate Commission approved a three-cent hike for first class mail, raising the rate for letters to 18 cents for the first ounce.

Iraq is rich with historical sites and legends, prof. says

By ANNA MARIE TABOR
Assistant Saint Mary's Editor

Veteran students of World Civilization may have experienced deja vu at the Ancient Middle East History and Islamic Tradition lecture at Saint Mary's.

Professor Kim Flint-Hamilton, visiting history instructor, focused on the archaeological excavations from ancient Mesopotamia and the most famous rulers of the time. Slides showed the region and various artifacts that have been "essential to discovering the past," said Flint-Hamilton. "Lots of things have been destroyed already," she said. "A bomb has hit the Baghdad Museum of Archaeology but there hasn't been too much lost yet in the Gulf War bombing."

By providing a historical summary of four kings along with visual aids, she gave the audience a basis on which to build an appreciation of Mesopotamia's significant past. Dating back to 2700 B.C., Gilgamesh was an "overall pro-ministic view of life," according to Flint-Hamilton. Sargon of Akkad was the next important figure who was governor of Kish before he overthrew the king. He is known for his birth legend in which he is the illegitimate son of the priestess and put in the Eufrates River in a covered basket. The king's daughter found the infant Sargon. His biggest contribution was the first unification of the Mesopotamian Empire, Flint-Hamilton said. Although Hammurabi is perhaps best known for his Law Code, it wasn't until his final years that he constructed it. The harsh laws were "based on the theory that when you do something, you get the same in return. It's the eye for an eye theory," said Flint-Hamilton.

Hammurabi's highlights as king were his formation of a coalition of Mesopotamian states that built an army to defend against the Assyrians. Eventually, Hammurabi was victorious against them.

Senate
continued from page 1
fense of human rights and the revision of the university's goals.

"We felt it was a student duty to put our efforts and our strength to regaining democracy in Chile." Larrain continued, "It was not a political commitment, it was more like a human commitment."

As Christians, the students believed deeply in following in the example of the Catholic Church in Chile. According to Larrain, the Church went beyond simply praying, putting all of its efforts into improving human rights.

"We had to be the good Samaritan in our country," he said. "We saw how many people disappeared, how many were tortured, and we thought, as Christians, that we couldn't just stand and watch what was happening."

Larrain pointed out that the political mission sometimes conflicted with studies and with university issues, but emphasized that "if you really believe in love...then prove it."

"If we start knowing the reality of our country right now," he said, "when we are students, tomorrow, when we are in a specific position...it won't be the same."

In other Senate business:
• The Senate rejected a resolution suggesting raising the student activity fee from $55 to $60 for the 1991-92 academic year. The bill, written by Manuel Espino and submitted by Student Senator Joe Wilson, was an effort to increase club funds by providing $7, 500 for the Club Coordinating Council to appropriate next year.

According to some members of senate, there is enough money for clubs, but it is, in some cases, being poorly appropriated and misused. In addition, club funds have been increasing for the past six years.

Several members emphasized that clubs should turn to alternative measures, such as increasing club dues, altering club budgets and finding alternative funding.

• Senators discussed a change to the Student Body Constitution involving revisions to Freshman class government. The proposal, suggested by Student Body President Rob Pasin, involved holding campus-wide elections for Freshman class president, vice president, treasurer and secretary.

Some members of the Senate suggested instead that freshmen in each dorm elect a freshman dorm representative. The freshmen representatives would then elect the four office bearers. The Senate will discuss a revised proposal next week.

• Senate will vote next week on Senator Lisa Rodwick's proposed change to the Student Body Constitution concerning the reviewing of misused student funds or misconduct of student organizations and their attorneys.

Money

straight year.

"After losing nearly everyone to graduation last year, we were very happy to have continued our presence among the top ten teams," said sophomore Michael Moreland, president of the team.

In addition to Moreland, the team consists of seniors Carolyn Broomfield, Brian Cody, Vinny Sanchez and Melissa Smith, sophomores Holly Hargroton and Bob Sweeney and freshman Patti Pierson.

This year's case involved the invasion of privacy and false light portrayal of a college gymnast falsely accused of having AIDS. Participants were judged on performance and knowledge of the case. Teams were required to prepare arguments and witness roles for both the plaintiff and the defense.

Third-year law students Tina Cabrera and Jennifer Hirschfeld coached the Notre Dame team.

Campus Ministry and You

Blahbruary
It's February. That means blah time. Tensions run just a bit higher. Tempers are just a bit shorter. Despondency and despair increase. Enthusiasm and drive decrease. It happens every year. No one quite knows why, but we all know it to be true.

Before the blood can begin to flow its springy course, it seems, it slows down itself and everything it serves. Eliot called April the cruelest month, mixing memory with desire. But this month is even more cruel. Memory is short, desire much longer.

Often, the normal pressures of our lives are accelerated during this short, murky month. Aches seem harsher; pains strike deeper; hope is much more limited; love is distant and wounds take longer too heal.

Robert Bly, author of the recent best seller: Iron John: A Book About Men, seems to understand February pretty well. He also knows how to get through it, without denying its value.

February has a value, and it's a deep and profound one. It's the value of individuality and the most personal aspects of our being wanting to emerge and wanting to do so before their time - before spring comes.

"Each person's interior emptiness," Bly says, "has its own shape. In ordinary life, we try to satisfy our longings and fill the emptiness, but in "ritual space" we learn to experience the emptiness or the longing and not to fill it."

But we're Americans. We fill emptiness. We gather clutter and junk and add to it. If there's a need, we meet it. If there's a blank spot, we buy something to put in it. We overdecorate, over eat, over analyze, over love and over live. No room for any emptiness whatsoever. So what is Bly talking about?

"Emptiness is weakness," we argue. "Poverty is defect. Wounds are the result of some disgrace."

Not so, says Bly. "Where your wound is, that is where your genius will be." Where you find emptiness, that's where your wisdom lies. Where you are least accomplished, that's your main talent.

"Wherever the wound appears in our psyches, whether from an alcoholic father, shaming mother, shaming father, abusing mother, whether it stems from isolation, disability or disease, that is precisely the place from which we will give our gift to the community."

So, February is the month of genius and, as such, the month of wounds. So when you feel those wounds this month, remember: your gift to the community is taking shape. Enjoy!

IRA explodes bomb at London train station; one dead

LONDON (AP) — A bomb exploded at Victoria station during morning rush hour Monday, 45 minutes after a caller claiming to represent the IRA warned of bombs at all of London's main railway stations, police said. One man was killed and 40 people were injured.

The Irish Republican Army claimed responsibility, but blamed the carnage on authorities who decided not to close stations.

"All future warnings should be acted upon," said a statement from the IRA.

The explosion at Victoria station came less than three hours after a bomb exploded at Paddington station, another main rail gateway to western England and Wales. Only a dozen employees were on duty, and no one was injured.

The Victoria explosion at 7:46 a.m. sent screaming commuters running from the terminal, some trailing blood across the concourse. Rail traffic to and from London was halted for hours.

The incidents were the first in a string of threats following the Paddington explosion, and that the others "transpired either to be false or malicious," Iain McGregor, deputy chief of the British Transport Police, said.

The bomb, which was hidden in a trash can on the concourse, "was quite deliberately intended to maim and kill," he said.

British Rail Chairman Robert Reid said it is not unusual for police to keep rail stations open after a bomb warning.

"Let's face it, as soon as you have an incident, your telephone lines are choked with hoax calls. Since these two incidents we've had hoax calls all the way up the line," Reid said in an interview on British Broadcasting Corp. radio.

British Rail closed all mainline stations in London after the bombings, suspending service that carries 500,000 people into the capital every day.

Several hours after the Victoria blast, Heathrow airport, Britain's busiest, was evacuated briefly Monday after police received a vague bomb threat, an airport spokeswoman said.

The incidents were the first attacks on a British rail station credited to the IRA in 15 years.

The warning was delivered by a man with an Irish accent who said: "We are the Irish Republican Army. Bombs to go off at all mainline stations in 45 minutes," said Scotland Yard's anti-terrorist chief, Cmdr. George Churchill-Coleman.

Churchill-Coleman said the call was only one of a number of threats following the Paddington explosion, and that the others "transpired either to be false or malicious."

Iain McGregor, deputy chief of the British Transport Police, said his department gets about six bomb threats a day.

Churchill-Coleman said the warning was passed to the British Transport Police, who already were searching all the main railway terminals when the blast at Victoria occurred.

The bomb, which was hidden in a trash can on the concourse, "was quite deliberately intended to maim and kill," he said.

British Rail Chairman Robert Reid said it is not unusual for police to keep rail stations open after a bomb warning.

"Let's face it, as soon as you have an incident, your telephone lines are choked with hoax calls. Since these two incidents we've had hoax calls all the way up the line," Reid said in an interview on British Broadcasting Corp. radio.

Gorbachev presents secret peace plan to Iraqis

MOSCOW (AP) — President Mikhail Gorbachev presented a secret peace plan to Iraq's foreign minister on Monday, and the Iraqi envoy immediately left for Baghdad to present it to Saddam Hussein.

Soviet officials, who are racing against the clock in what appear to be the final days before a major ground offensive in the Gulf War, said they expected a quick response from the Iraqi president.

The Gorbachev plan "envisages political measures which we believe were accepted with interest and understanding by the Iraqi side," according to Vitaliy Ignatenko, a spokesman for the Soviet president.

Ignatenko said Gorbachev planned to contact U.S., British, Italian, French and Iranian leaders to fill them in on his plan.

In Washington, White House spokesman Marlin Fitzwater said President Bush will study the Soviet proposal, but was not initially optimistic it would end the war.

"We still want to take a look at it, but the war goes on. There's no change on the basis of what we know at this point," Fitzwater said.

Gorbachev's peace-making efforts followed a week of Soviet contacts with nearly every major player in the month-old war. The Soviet Union has supported U.N. efforts to oust Iraq from Kuwait, but has grown increasingly critical of the extent of destruction to Iraq, a former Soviet client.

Both Iraq and the United States have warned that fighting will continue and possibly escalate if nothing comes of the contacts. U.S.-led forces were threatening to launch a ground war within days, possibly hours.

Aziz told reporters before departing Moscow for Tehran on route to Iraq that his 3 1/2-hour meeting with Gorbachev was "important," "cordial" and "objective."

"We decided to follow up those talks," he added.

Aziz will return to Moscow "very soon," after discussing the plan with Saddam and his Revolutionary Command Council, Ignatenko said.

He called the proposal "a concrete plan for settlement in the Persian Gulf through political means." He added that it was "fully in line with the Soviet position that there should be an unconditional withdrawal from Kuwait."

Ignatenko refused to divulge contents of the plan and it was not clear what he meant by "political means."

But the German newspaper Bild, citing unidentified sources in Moscow, said the Soviet peace plan demands Iraq's unconditional withdrawal from Kuwait and would bar any punitive actions against Saddam.

Redgrave dropped from tour for remarks

NEW YORK (AP) — Actress Vanessa Redgrave reportedly has been dropped from a national tour because of her statements on the Persian Gulf War.

Redgrave was pulled by the Schubert Organization from a starring role in a full tour of the British comedy "Lettice and Lovage," the New York Post reported Monday.

"I cannot say anything in response to comments about the Organization has made an official statement," Redgrave said in London on Monday night.

Post gossip columnist Cindy Adams wrote that the move was "important," "cordial" and "objective."

"We decided to follow up those talks," he added.

Aziz will return to Moscow "very soon," after discussing the plan with Saddam and his Revolutionary Command Council, Ignatenko said.

"We decided to follow up those talks," he added.

Aziz will return to Moscow "very soon," after discussing the plan with Saddam and his Revolutionary Command Council, Ignatenko said.

He called the proposal "a concrete plan for settlement in the Persian Gulf through political means." He added that it was "fully in line with the Soviet position that there should be an unconditional withdrawal from Kuwait."

Ignatenko refused to divulge contents of the plan and it was not clear what he meant by "political means."

But the German newspaper Bild, citing unidentified sources in Moscow, said the Soviet peace plan demands Iraq's unconditional withdrawal from Kuwait and would bar any punitive actions against Saddam.

Redgrave was pulled by the Schubert Organization from a starring role in a full tour of the British comedy "Lettice and Lovage," the New York Post reported Monday.

"I cannot say anything in response to comments about the Organization has made an official statement," Redgrave said in London on Monday night.

Post gossip columnist Cindy Adams wrote that the move was "important," "cordial" and "objective."

"We decided to follow up those talks," he added.

OPERA TION DESERT STORM

We're looking for seniors who like working with all kinds of hardware.

CAREERS IN DATA PROCESSING, ACCOUNTING, ACTUARIAL, AND AUDITING AT STATE FARM

At State Farm, we understand the concept of "work." Believe it or not, we also understand the concept of "play."

That's because we don't think you can be really outstanding at the first without having an appreciation for the second. Which is exactly why a career at State Farm in Bloomington could be the ideal place for you.

You'll work for one of the country's most respected companies on the most advanced computer equipment in the industry. You'll be challenged and stimulated. You'll be rewarded with excellent pay and benefits. You'll make your classmates very envious.

But there's more. You'll have time to appreciate the finer things in life. That's because Bloomington isn't just a great place to start a career, it's a great place to live, to enjoy, to start a family (if, indeed, you're ready to start thinking about that). In addition to the community's pleasant neighborhoods and other recreational facilities, you'll find two universities that offer a host of cultural and social activities to take advantage of.

If you're a senior with a math, accounting, data processing, or computer science background, come talk to us at your college placement office. We're looking for people who are motivated and outgoing. People who enjoy challenges on the job — and away from it. After all, you're not just looking for a great job. You're looking for a great way of life.

STATE FARM INSURANCE COMPANIES

Phone Office: Bloomington, Illinois.
An equal opportunity employer.
Weather, and this weekend's anticipation for my JPW were Notre Dame because of fear for everyone knows the middle of February? Parents Weekend scheduled in that war is a necessary evil, a It has been thoroughly argued and thus of human worth. cynics, however, affirms a belief in the veracity of human love most avowed pessimists and would seek only to act in his own self-interest. The consensus held by all but the most ardent pacifists and naysayers, however, affirms a belief in the humanity which the American and European feelings is manifested in his propensity for exporting war to other countries, whether it be the U.S. in Vietnam, the U.S.S.R. in Afghanistan, Britain in Biafra, or France in Algeria. Whatever was accomplished by World War II, it was not peace. War is incompatible with the love ethic inasmuch as it negates the value of the individual. If one is to adopt the love ethic, he or she must agree to the proposition that a human being must never be used as a means, but only as an end. This is impossible in war, since one judges one's countrymen and allies by a different standard than one uses in judging one's enemies. If I affirm the right to life and liberty of a Kuwaiti while denying that of an Iraqi, I have chosen to consider these two people not in terms of their humanity (which they share equally), but rather according to their relative usefulness to me and to the political and economic system which supports me. In making the choice to rob some people of their lives in order to benefit others, I deny the innate worth of the individual in favor of a value based on circumstantial preferences. I thus regress from the morality of love to the amorality of egoism. It is ever more difficult to support the concept of war if one accepts the existence of God. Whereas man may or may not be loving or beautiful depending on his behavior, there is no such distinction with God, who is not simply loving and beautiful, but is Love and Beauty, a pure and perfect essence. Christ, if God exists, then only actions which coincide with divine nature can be considered moral, while all others are immoral. War, a hateful and ugly endeavor, is thus excluded from morality. Further, war cannot be an effective means to create a better world, since it is impossible that God would create a world that could be made good through evil means. Therefore, if the world is salvageable, then it can only be saved through peaceful means. There is, however, no guarantee that the world can be saved, even through good actions. Indeed, the world's major religions have been careful to remind the faithful that good deeds do not always reap earthly rewards. Nevertheless, we must utilize our love in the faith that loving actions can bring results and in the understanding that unloving actions condemn the world to stagnation in a sad mediocrity. Jesus Christ once said to his disciples "whatever you do to the least of my brothers, that you do unto me." It is doubtful that he meant to exclude Iraqis from his brother's

**LETTERS TO THE EDITOR**

**War contradicts man's need to love his neighbor**

Dear Editor:

It is with great stress that I face the knowledge that my species has chosen to undertake yet another suicide attempt. I cannot help but believe that the Gulf War will be as immoral, as senseless and as tragic an activity as every war to precede it.

War is wrong because it contradicts man's deepest need and the main requirement for his happiness: the need to act lovingly towards one's fellow creatures. Indeed, if there can exist such a thing as morality, love must be its basis. If true love did not exist, any concept of morality would be fraudulent, since, lacking any real value of others, the individual would seek only to act in his own self-interest. The consensus held by all but the most ardent pacifists and naysayers, however, affirms a belief in the humanity which the American and European feelings is manifested in his propensity for exporting war to other countries, whether it be the U.S. in Vietnam, the U.S.S.R. in Afghanistan, Britain in Biafra, or France in Algeria. Whatever was accomplished by World War II, it was not peace. War is incompatible with the love ethic inasmuch as it negates the value of the individual. If one is to adopt the love ethic, he or she must agree to the proposition that a human being must never be used as a means, but only as an end. This is impossible in war, since one judges one's countrymen and allies by a different standard than one uses in judging one's enemies. If I affirm the right to life and liberty of a Kuwaiti while denying that of an Iraqi, I have chosen to consider these two people not in terms of their humanity (which they share equally), but rather according to their relative usefulness to me and to the political and economic system which supports me. In making the choice to rob some people of their lives in order to benefit others, I deny the innate worth of the individual in favor of a value based on circumstantial preferences. I thus regress from the morality of love to the amorality of egoism. It is ever more difficult to support the concept of war if one accepts the existence of God. Whereas man may or may not be loving or beautiful depending on his behavior, there is no such distinction with God, who is not simply loving and beautiful, but is Love and Beauty, a pure and perfect essence. **JPW should not take place during months next summer.**

Dear Editor:

I am writing to ask a very simple question: why is Juneau Parents Weekend scheduled in the middle of February? Everyone knows the unpredictability of South Bend weather, and this weekend's past blizzard proves it. This weather kept my parents from even attempting the journey to Notre Dame because of fear for their safety, and three years of anticipation for my JPW were crushed by tons of snow, dreadful winds and a bitting wind chill.

Even the parents that did arrive safely were probably upset about traveling and being in this weather, especially those families from warmer climates. We are willing to accept it for the most part, but why should they be forced to endure it? I realize that no one can control the weather, and I personally like winter weather, but the fact remains that an important experience was ruined for me by bad planning-scheduling JPW in the heart of winter. In the past, JPW has also been icy and cold, so why does it continue to be placed at such an awful time of the year?

My dreams for any JPW have been ruined, as were the dreams of many of my fellow classmates. I sincerely hope, however, that a lesson is learned by this catastrophe and that better judgment is used in the future so that others do not have to endure the same disappointment that I have had over this past weekend without my parents.

THE MAN WHO ALLEGEDLY PANNED THE GOLF BALL INTO A WINDING RIVER IN THE COUNTRY OF BELGIUM.

As long as you've answered questions like that, you went along the way to a world where love can exist. Yet the world's present situation hardly permits with this theory. By the time the last bombs of one war have fallen, seeds of another war have been planted: the arrogance and contempt of the victors, the bitterness and resentment of the vanquished. Hence the difficulty of finding a lasting peace in the war torn countries of Africa, Asia, Central America and, of course, the Middle East.

The passing of war might then point to the seemingly impossible achievement of peace in Europe and America initiated by the end of World War II. This, however, is a deceptive observation. In a purely external sense, war is a conflict between military forces, and, according to this terminology, one would be correct in saying that there has not been war in Europe or America for a long time. Unfortunately, the reality is not that simple. For at the heart of war is a profoundly disturbed state of the human psyche, fraught with fear and hatred, despair and anger. The same characteristics are found at the base of all the vices of contemporary American and European society: murder, rape, drug addiction, materialism, racism, sexism, homophobia, etc. Thus, it can truly be said that nowhere has man ceased to be at war with himself.

The estrangement from humanity which the American and European feels is manifested in his propensity for exporting war to other countries, whether it be the U.S. in Vietnam, the U.S.S.R. in Afghanistan, Britain in Biafra, or France in Algeria. Whatever was accomplished by World War II, it was not peace. War is incompatible with the love ethic inasmuch as it negates the value of the individual. If one is to adopt the love ethic, he or she must agree to the proposition that a human being must never be used as a means, but only as an end. This is impossible in war, since one judges one's countrymen and allies by a different standard than one uses in judging one's enemies. "Make it thy business to know thyself, which is the most difficult lesson in the world."

Miguel de Cervantes
Welfare system can create more problems than it solves

Suzanne Fitzgerald

In order to arrive at an opinion about the welfare system, one ought to carefully understand the root causes of the debate. There are many misconceptions about America’s welfare system. Suzanne Fitzgerald, a guest columnist, sheds light on the public’s general unawareness that the bulk of the welfare expenditure is not directed toward helping the aged and disabled, a cause few would question as legitimate. A large sum is also spent on medical care. There are many misconceptions about the amount actually allocated for such categories. In a study, Elizabeth Bennet and Elwood points out in his book, Page 9, who is the scapegoat of society, the public is generally unaware that the bulk of the welfare expenditure is not directed toward helping the aged and disabled, a cause few would question as legitimate. A large sum is also spent on medical care. There are many misconceptions about the amount actually allocated for such categories. In a study, Elizabeth Bennet and Elwood points out in his book, Page 9, who is the scapegoat of society, the public is generally unaware that the bulk of the welfare expenditure is not directed toward helping the aged and disabled, a cause few would question as legitimate. A large sum is also spent on medical care. There are many misconceptions about the amount actually allocated for such categories. Music of the Fredonia dome.

Located just south of Buffalo, the tiny lake-side village of Fredonia is no stranger to the music scene. The Fredonia State campus and downtown pubs have seen the likes of The Ramones, Davy Jones of The Monkees, Mike Stipe of R.E.M., and is home to the renowned 10000 Lakes. The Maniacs, a veteran club, submitted The Fredonia Recordings, is a testament to the school's musical reputation.

In December, under the auspices of sound recording engineer Joseph Bregané, The 5 O'Clock Shadows had the privilege of recording in the very studio where The Maniacs performed. The recording, dubbed The Fredonia Recordings, is a testament to the school's musical reputation.

A year ago it would have been a huge dream for me to attend the festival that the Notre Dame fo r Puerto Rico. Five of us Notre Dame freshman were accepted. But this attitude is nothing but taking a half hour to answer the simple question "What are you going to do with your life?" and "Taking a year off and in fact would be anything but taking a year off and in fact would be very good idea.'

For me there has been a sense of honesty, commitment and satisfaction that is difficult to achieve from studying. But more in the development of my human potential. I would like to talk a little bit about my own experience because I hope it will be helpful for the many of you considering volunteering for a year. It also might create some interest in participating in the specific program with which I am involved.

Last year as a second semester senior, I really had no clear idea what I was going to be doing after graduation. I had what seemed like eight million applications at different schools and volunteer programs. And I felt pulled between "getting on with my life" and "taking a year off." I set some kind of fear that I would lose an edge or something by not going straight on. I was also impatient just to decide already. I was sick of taking a half hour to answer the question: What am I going to do next year?" But I knew that my decision was too important to rush or to be made out of fear. Being honest with myself, when I overcame my own fears and decided, was my life. "Doing your own thing, without giving a damn to what people think is right or wrong, is the most important thing. "

And while there aren't always as many pats on the back, there are many more tugs at your heart."
Belles fall to Wisconsin-Parkside, 83-68

BY TASHA TIGHT
Sports Writer

The Saint Mary's basketball team suffered a disappointing 83-68 loss Sunday to University of Wisconsin-Parkside. The Belles were playing exceptionally well throughout the entire first half. The Belles played better than they have played all year in the first half, performing defensively and offensively, but the opponent came strong in the second half.

In the second half, the Wisconsin-Parkside came full force. The Belles were held to one field goal in the last 11 minutes of the second half. University of Wisconsin-Parkside played good basketball in the second half in handling the ball extremely well," said Wood. "They switched to their zone offense, had good shots, and kept us off the boards.

"We were extremely strong in the first half, said forward Linda Garrett. "We were shaking the screens and making all the shots."

The team played a solid 20 minutes of basketball, added senior guard Mea Tetterborn. "It was fun and we played really well."

"We had beautiful balance in the first half," said Wood. "Everybody was used in the game."

Junior Jen Libbing and Catherine Restovich each tallied 11 points and sophomore Kim Holmes contributed eight to add to the team total.

The game reversed in the second half when the Wisconsin-Parkside came full force. The Belles were held to one field goal in the last 11 minutes of the second half.

"University of Wisconsin-Parkside played good basketball in the second half in handling the ball extremely well," said Wood. "They switched to their zone offense, had good shots, and kept us off the boards."

"My biggest goal right now is quantity of playing time. Having to share minutes with Kristi Davis, Stephanie Shattuck and Kristin Knappe has meant having her fair share of bench time. Everybody's used to playing, but when you don't fair well, it's a hard job. It may not be the most fun, but it's the sacrifices we have to get to play," Alexander said. "My biggest goal right now is working myself hard enough so that when they put me in, I can do my job and not let the team down."

Tonight, the opposition is Saint John's University as the Belles look to end the season with a winning record.

Championships last night. dominated the Midwest

The Notre Dame men's track team utilized a host of new faces to produce the same old team utilized a host of new faces to produce the same old second and third place, respectively.

The 55-meter dash featured the Irish scoring spree as Willie Clark sprinted to a 6.34 second and third place, respectively.

The Notre Dame men's track team utilized a host of new faces to produce the same old results as the Irish once again dominated the Midwest Collegiate Conference Championships last night. By the meet's halfway point, Notre Dame had nearly doubled the score of second-place Loyola.

Freshman Jim Flanagan became a two-sport multi-millionaire on Monday. Jackson, who lost in salary arbitration last winter, agreed with the Kansas City Royals on a one-year contract worth $2,375,000. He had been scheduled for a hearing on Tuesday.

"He's improved every year, and we believe he will continue to get better," Kansas City general manager Herb Robinson said. "I think he's going to have a heck of a year." Jackson, 28, is also a running back with the Los Angeles Raiders and just finished the fourth season of a five-year football contract worth $7.4 million.

Jackson, limited to 111 games because of injuries, hit .372 last year for Kansas City with 28 home runs and 78 RBIs. He was hurt again in the NFL playoffs, injuring his right hip in the Raiders' 20-10 second-round victory over Cincinnati on Jan. 13. He was named to the Pro Bowl team but was unable to play in the Feb. 3 game because of the injury.

"The injury, in non-technical terms, is a soft-tissue injury," Robinson said. "It is not considered serious. There was no bone or ligament damage. Jackson's settlement was $1.8 million, the $2.7 million Kansas City offered. When he lost last year, he had asked for $1,900,001.

Bo becomes million-man in two jobs

NEW YORK (AP) — Bo Jackson, the two-sport player, became a two-sport multi-millionaire on Monday.

Jackson, who lost in salary arbitration last winter, agreed with the Kansas City Royals on a one-year contract worth $2,375,000. He had been scheduled for a hearing on Tuesday.

"He's improved every year, and we believe he will continue to get better," Kansas City general manager Herb Robinson said. "I think he's going to have a heck of a year." Women's tennis upsets Gamecocks, loses two

By RICH SZABO
Sports Writer

The Notre Dame women's tennis team traveled to Bloomington and pulled off an upset this past weekend before falling twice against the toughest competition of the spring season to date.

After knocking off 17th-ranked South Carolina Friday, the Irish, now 6-2, dropped consecutive matches to William & Mary Saturday and Indiana Sunday.

"We were short-handed this past weekend," said Irish coach Jay Louderback. "Christy Faustmann is still out recovering from mononucleosis, and Katie Clark hurt her back the day we left, so she did not play at all. I was hoping we could come out and win one match, and we played our best match, without a doubt, against South Carolina."

The absence of two regular singles players did not seem to hinder the Irish against the Gamecocks. In an 6-1 rout, the team dropped only the third-set tiebreaker: 10-8 for the decisive fifth point.

In doubles, Barton/Pacella and Ann Bradshaw/Tholen posted close three-set wins in first and second doubles, while Eniko Bendor/Doran cruised to a 6-1, 6-3 victory at the third spot.

"I'm really surprised at our upset of South Carolina," said Bradshaw. "Everyone came together, South Carolina has a lot of foreign players who hit with strong slices and don't give you what you want to hit. We came through and didn't hesitate at all."

Against William & Mary Saturday, the Irish managed only a 6-3, 7-5 win by Kim Pacella at fifth singles, dropping all the other singles contests in straight sets and falling by a 7-1 score. Bradshaw/Tholen lost 6-7, 6-2, 6-3 and Bendor/Doran fell 7-6, 4-6, 6-3 in the two doubles matches played.

"Saturday was kind of a letdown. It just wasn't there," said Bradshaw. "William & Mary is very sound," said Louderback. "Trinity's one and two players transferred there and are playing third and fourth singles for them. Their number-one girl won two matches at the National Indoors last week and their second-singles player also went and won a match. They will definitely be a top-20 team when the next rankings come out."

Before Notre Dame's match against Indiana Sunday, the Hoosiers had beaten the Irish in every previous meeting, so Notre Dame was looking for revenge. The encounter also presented an opportunity for the Irish, ranked second in the region, to knock the Hoosiers from the region's top spot. Indiana was too strong for Notre Dame, overpowering the Irish 6-1 in a match in which both first and third doubles were cancelled. Once again, Kim Pacella provided the only point for the Irish, chalked up a 6-4, 6-1 victory over Brenda Hacker as Indiana swept the remaining singles contests in straight sets. In the lone doubles match played, Bradshaw/Tholen dropped a 6-4, 4-6, 6-3 decision to Gretchen Doniger/Jody Yin.

Louderback did not feel that the losses would hurt, stressing the level of competition that the Irish faced.

"I'm not really concerned with the rankings right now. We want to be up there at the end of the year. If we're in the top 20 then, there is a good chance we will go to the tournament. These were tough matches against strong opponents. All four teams from the weekend have a shot at getting into the NCAA's at the end of the year. We have some big matches coming up and we will be ready."

The Notre Dame men's basketball team made the Bluejays of Creighton look like deadly birds of prey Monday night, allowing Creighton to score a 90-67 victory at the Joyce ACC. Bluejay center Chad Gallagher inflicted most of the damage on the Irish, hitting 15 of 18 attempts from the field and scoring 22 of his 32 points in the second half. Gallagher, who was hitting 25.4 percent coming into the contest, increased his average with a superb touch around the basket.

"I thought he had a phenomenal game today," Bluejay coach Frank Barone said of Gallagher. "He's a very fine offensive player. He has had a very good year for you. You did not see a great game from him tonight. He can play that well."

Notre Dame (10-16) was able to stay close until midway through the first half. They were behind 22-19 with 9:37 to go when the Bluejays (17-7) went on an 8-0 run. Latecroy Wrightsell took the ball and drove in for a layup to cap that run, and Creighton led 30- 19.

The Irish kept the halftime deficit to 43-29, but the Bluejays exploded with a 23-6 run at the beginning of the second half to open up a 60-23 lead. Gallagher had 14 of Creighton's 23 points in that run.

"We have a lot of respect for Creighton," Irish coach Digger Phelps said. "We didn't have a good first half offensively and that in the end decided the outcome. Gallagher is a great player, he has a really nice touch and he really proved himself tonight. We never really had a chance to go at him defensively.

There was not a single phase of the game in which the Irish outplayed the Bluejays. Creighton shot a blistering 64.3 percent from the field, compared to just 39.7 percent for Notre Dame. The Bluejays out-rebounded the Irish 36-31, out-shot them from the free-throw line 64.3 percent to 57.7 percent, and made 5 of 13 three-point goals, compared to just 2 of 12 for Notre Dame.

As if that wasn't enough, the Bluejays limited Irish forward Steve Yard to just 2 of 12 for Notre Dame.

"Once Tower picked up his second, he played tentatively, allowing Gallagher to go right at him underneath," Phelps said. "I got two fouls right away," Tower said. "It got me out of the flow of this game because I had to go to the bench. When you sit out an extended period of time, it's hard to get going again."

There were a few bright spots for the Irish. Kevin Ellery scored eight of his 16 points in the first 5:31, keeping Notre Dame in the game early. Dajmon Sweet came off the bench to lead his team in scoring with 18 points on 9-of-16 shooting from the field, and Elmer Rennett added 17 points and seven rebounds.

The Irish finished as brightly as Gallagher.

"It's the best big man we've played against all year," Sweet said. "We knew he was going to come in here and play like this. Gallagher just took over. He controlled the game.

"He inspired the team with his hustle," McGraw said. "He has to be very aggressive defensively."

It was her excellent defensive performance which made her a surprise choice to replace Comalita Haysbert in the starting lineup exactly one month ago.

Duan Cole (14), guarded by Keith Tower, dishes off a pass Monday night at the ACC. Cole finished with nine assists and 21 points.
