Saint Mary's freshmen class to elect officers

By NICOLE MCGRATH
Saint Mary's News Editor

Saint Mary's 1997 class will be electing their president, vice-president and class board this Tuesday and six are running for the top posts, according to Elections Commissioner Elizabeth Broghammer. The six tickets are:

• Ganna Breland/Alaina Higginbotham
• Leslie Field/Jennifer Augustine
• Lori Langenderfer/Melissa Sanchez
• Kara Masucci/Maria McCandles
• Beth Ann Miller/Becky Kellogg
• Angel Rafa/Emily Ruflner

"We want freshman class unity and representing every-one's class ideas. We want strong communication," said vice-presidential candidate, Leslie Field. They wanted to get their class unified so they can get to know each other better this year.

"We've decided we want to emphasize service projects such as projects with kids, elderly people, hospitals and schools," said vice-presidential candidate, Lori Langenderfer.

One example of a service project would be peer tutoring. "College kids would tutor elementary kids one hour a week," said McCabe.

Eight women are running for the 11 spots open on the freshman board, according to Broghammer. "One option will be for the freshman class to have a small board," she added.

The eight women running are Laura Bossardt, Kelly Cook, Kristin McNaughton, Cate Freisleben, Courtney Laden, Sarah Lightfoot, Laura Lob and Kathleen Zimmer.

Freshman class elections will be held on Tuesday during lunch and dinner at the dining hall.

Saint Mary's freshmen class to elect officers

SAINT MARY'S ELECTIONS

We want the freshman class to sponsor a campus-wide volunteer event," said presidential candidate, Ganna Breland.

Each floor would sponsor some children, collect change from the floor and buy a Christmas gift for those children according to Breland.

"Melissa and I have different backgrounds, different ideas and more variety," said presidential candidate, Lori Langenderfer.

According to Langenderfer, they want to get their class unified so they can get to know each other better this year.

"We've decided we want to emphasize service projects such as projects with kids, elderly people, hospitals and schools," said vice-presidential candidate, Lori Langenderfer.

One example of a service project would be peer tutoring. "College kids would tutor elementary kids one hour a week," said McCabe.

Brown attended meetings with Vietnam conspirator

Brown met three times with a Vietnamese-American businesswoman who has been accused of conspiring to pay Brown $700,000 to pursue a trade policy favorable to Vietnam, a newspaper reported Sunday.

The Miami Herald said it learned that one of the meetings took place in February at Brown's office in Washington, and quoted sources as saying a government lobbyist was trying to bring the businessman, Nguyen Van Hao of Coral Springs, and two friends of the businessman, to Brown.

Brown has denied the conspiracy allegation. He has never publicly stated whether he has met Hao, but he has denied "any kind of business relationship, any kind of relationship of any kind on this matter," the Herald said.

A former business associate of Hao's, Ly Thanh Binh, told the Herald that Hao told him he met Brown in November and December to talk about business deals in Vietnam that the 16-year-old U.S. trade embargo is lifted. Hao appeared before a federal grand jury in Miami last month that is investigating the Commerce Department.

Brown said he was to receive $700,000 and business concessions in exchange for his efforts.

Hao has denied Binh's allegations, and has on several occasions denied in Herald reports ever meeting Brown, the newspaper reported.

Reid Weingarten, a Washington lawyer hired by Brown, told the Herald the allegations were "preposterous." A same-side reporter or investigator believes there was any conspiracy between Mr. Brown and any Vietnamese.

Weingarten said, "It's astonishing that this allegation still has legs. I don't think what you've just told me warrants a response."

When the Herald first contacted Brown, his spokesperson Jim DeLisi in March for comment on Binh's allegations, DeLisi denied that Brown had ever met Hao, knew Hao or discussed business about Vietnam.

But sources told the Herald that Brown and Hao met in November in Palm Beach County, a second time in a rent-ed townhouse in Washington a week before Christmas, and a third time at Brown's Commerce Department office. The Herald reported.

Weingarten said no evidence exists of wrongdoing by Brown. "He was a lawyer and a lobbyist," Weingarten said.

"Lawyers and lobbyists meet with a lot of people. They schmooze.

"Hypothetically, if a friend of his had a business proposition and he hocked Ron Brown into listening to it, I don't see at the point Ron Brown says, 'Hey, guys, I'm going into government, I can't get involved in this,' then what do you have?"

Expand the peacekeeping mission in Somalia was a mistake, it's time for Congress to narrow the U.S. role there so it has a definite ending point, the chairman of the Senate Armed Services Committee said Sunday.

"This mission cannot continue to be enlarged. I would make that mission very narrow based on what I know now," Sen. John Warner, R-Va., said on NBC's "Meet the Press."

"Demands for an end to the U.S. military presence in Somalia were given new impetus Saturday when Somali militia men shot down a U.S. helicopter with a rocket-launched grenade. Three U.S. servicemen died. Sen. Robert C. Byrd, D-W.Va., called for a rapid withdrawal before more Americans are killed.

"I am sure I did not support putting time limits on any military deployment, but, "I think we have to ask the administration what is the mission, and I believe that at the very least the Senate and the House ought to narrow that mission so that we have a definitive ending point."

"I don't think capturing one person is good enough," he said, referring to the search for warlord Mohamed Farrah Aidid, who is blamed for most of the attacks on U.N. peacekeepers.

"There are too many people out there in the streets celebrating the death of Americans, which is absolutely disastrous and tragic and deplorable. But it also may tell us something about the popular sentiment."

Jubilant crowds surrounded the downed helicopter and reporters who went to the scene several hours later said some Somalis displayed what they said were pieces of flesh from the dead crew.
Scam took $1 million from elderly 

SLIDELL, La.
The con artists would ring cow bells when they reeled in another victim. And their cohorts, busy at phones in the small office, would stop and sigh.

Police said they have busted a major phone and mail swindle by an office of people who preyed on elderly people across the United States and Canada.

Police Chief Ben Morris estimated that the operation, which went by several names, bilked victims of more than $1 million before it was smashed Thursday with 13 arrests. “We got major, major here,” he said.

He said the scam promised promi­

CLEANUP BEGINS AFTER MOST RECENT FLOOD

In an effort to show the university’s support for the South bend community, Student Government is sponsoring a one day service project called Fall Festival ’93. The project involves beautifying the Northeast Neighborhood of South Bend by planting flowers and cleaning up the interiors and exteriors of local residences. Fall Festival ’93 will be held on Saturday, November 6. The clean-up will take place from 8:30 a.m. to 1:30 p.m. and will be followed by a block party for volunteers and North-East Neighborhood residents. Notre Dame alumni as well as current students will take part in the event, providing an opportunity for past and present Domers to come together and show their concern for the people of South Bend. Sign-up for the Fall Festival ’93 will take place on Tuesday through Thursday, October 5, 6, and 7 in both dining halls during lunch and dinner. Off-campus students can sign up at the LaFortune Information Desk. All students are encouraged to participate in this worthwhile service project to help show ND’s support for the residents of the Northeast Neighborhood.

In Lamar, Mo., volunteers were at work with mops and buckets in Lomie Frieden’s furniture store Sunday, cleaning up after a deluge that left almost as quickly as it came.

"Well, we had about 18 inches of water in the store," Frieden said of conditions Saturday. The business is on the outskirts of Lamar, a town of 4,200 in southwestern Missouri.

But, we got most everything out before it hit," he said. "We had hundreds of people who came in and helped us unload most everything out before it hit."

Access to three northeastern Oklahoma communities — Miami, Wyandotte, and Quapaw — was virtually cut off because at least a foot of water covered highways into the towns, with even more water on rural roads.

• College of Business Administration: Roberto Garas-Delgado, president, Alfa Corp. General Development, St. Ambrose University, Davenport, Iowa; and Irene Lofts, attorney, Lane & Waterman; Andrew McKenna Jr., vice president, Schwarz Paper Co., Morton Grove, 111., and Mary McKenna; and Louis Nanni, executive director, Center for the Homeless, South Bend, Ind.

• Graduate Studies and Research: James Jack, executive vice president and chief financial officer, Associates Corporation of North America, Dallas; and Walter Jones, senior vice president, Prince Corp., Holland, Mich.

"But, we got most everything out before it hit," he said. "We had hundreds of people who came in and helped us unload most everything out before it hit."

CAMS P U S C O N V E R S AT I O N S

To encourage communication between ND students and faculty, Student Government is sponsoring a year-long program called Campus Conversations. The programs will be held in the Student Union on selected dates. The programs are designed to provide an intimate means of bringing students and professors together.

The Conversations will take place on the first Wednesday of each month and will be held in various residence halls. A dean from each college will speak about ethics in his or her field.

The first session will take place in the Student Union, October 6 from 6:00 to 7:00 p.m. in Alumni Hall. Dr. Jerry Marley from the College of Engineering will speak about the ethics of his field.
Thousands cheer Yeltsin at Red Square concert

By JULIA RUBIN
Associated Press

MOSCOW

Thousands of Russians cheered Boris Yeltsin at a concert on Red Square Sunday and at least 10,000 people marched in the biggest demonstration of support for the president since he disbanded parliament five days ago.

Across town, the hard-liners who have sought to impeach Yeltsin and name their own government dug in their heels.

"If need be, we will stay here for a year," said parliament speaker Ruslan Khasbulatov, leader of the approximately 100 lawmakers who remain holed up in the building, known as the White House.

Late Sunday, in a potentially significant development, a top aide was quoted as saying that he believed Yeltsin would agree to simultaneous elections.

But Kozyrev said he believes simultaneous elections are "very, very dangerous," and could destabilize the country. "Someone has to be in office," he said.

Yeltsin has set new parliamentary elections for November and presidential elections for December and said parliamentary elections for March and presidential elections for June. Khasbulatov's comments came as parliament elected a new government shortly after Yeltsin dissolved parliament last Tuesday after struggling in March.

The president wants simultaneous elections to "assure the unity of the state." Military planners say they have issued two weeks' worth of orders to mount within days of his request, military planners say.

But before U.S. troops go in, the Pentagon wants to see a peace accord that holds — with the combatants separated from one another, heavy artillery withdrawn and the free flow of humanitarian supplies assured, the planners said.

The initial deployment could grow to about 25,000 troops over a several-week period — bristling with enough heavy tanks, artillery and armed troop transports to defend themselves and ensure their mission is carried out.

Fatah calls for end to deadly attacks

By ARIEH O'SULLIVAN
Associated Press

JERUSALEM

A Palestinian blew himself up with a car bomb in the occupied Gaza Strip on Sunday in an apparent suicide attack gone awry, the Israeli army said. No one else was hurt.

The man's charred body was found in the burnt out car, the army said. The remnants of two pipe bombs and canisters of bottled gas were also found in the car, which was discovered by a routine army patrol in Gaza City.

Arab reports said the dead man belonged to the Muslim fundamentalist Hamas organization, which has vowed to sabotage the recent peace agreement between the Palestinian Liberation Organization and Israel. A leaflet published by Hamas and the smaller Islamic Jihad group after the explosion said there would be more suicide attacks, "against the Zionist enemy."

Ministers urge ending of long stalled trade talks

By MARTIN CRUTSINGER
Associated Press

WASHINGTON

World finance officials proposed Sunday to intensify their efforts to complete long-stalled trade talks by year-end as negotiators from the United States and Europe sought to resolve differences in a last-ditch fight over farm subsidies.

The chief of finance ministers speaking at the annual meetings of the International Monetary Fund said that a failure to conclude the Uruguay Round talks would be devastating to the world economy.

The IMF's policy-setting inter-ministerial committee issued a joint statement late Sunday declaring that completion of the Uruguay Round by the end of the year was crucial to "restoring confidence in global economic prospects."

The IMF panel said that it expected "leadership and vision from all in order to resolve the remaining issues and conclude the round by the end of the year. Failure to do so could reinforce protectionist pressures, erode business confidence and weaken growth in all countries."

Peter Sutherland, head of the General Agreement on Tariffs and Trade, told the IMF gathering that a successful conclusion of the trade talks would provide a needed shot of confidence for a sluggish world economy.

GATT, the Geneva-based trade organization, is conducting the talks that aim to promote freer trade among 116 nations by lowering tariffs, cutting back farm subsidies, expanding GATT rules on other service industries and boosting up protection of copyrights and patents.

Sutherland blamed leaders of the world's major industrialized countries for failing to make the tough political choices on such issues as removing trade barriers that protect powerful domestic interests, including farmers and textile producers.

The financial stakes in a successful conclusion to the trade talks were underscored Sunday by a new report from the World Bank that contended the world economy gained an estimated $213 billion annually from removal of trade barriers envisioned in the GATT agreement.

World Bank economists estimated the economic gains would climb to this level by the year 2002. They broke the increase down as $135 billion for industrialized countries and $85 billion in gains to developing nations.

This would be partially offset, the World Bank said, by $7 billion in annual economic losses, mainly to very poor nations that depend heavily on food imports, or $45 billion in gains to developing nations.

It would drop in price as tariffs are reduced.

Noting that leaders of the world's seven largest industrial countries have repeatedly urged completion of the Uruguay Round, Sutherland said, "We still find governments failing to do what they know they must do."

President Clinton and leaders of Japan, Germany, Britain, France, Italy and Canada proclaimed a breakthrough in the negotiations in Tokyo with agreement on major cuts in manufacturing tariffs.

While this tariff-cutting package was expected to provide renewed momentum, the talks in Geneva have faltered again over a French demand concerning farm subsidies.

The French are insisting on changes to a farm subsidy agreement reached last November between the United States and the 12-member European Community saying that the subsidy cuts in that package are unacceptable to its one million farmers.

But U.S. Trade Representative Mickey Kantor has flatly rejected the French demand that the pact be renegotiated.

Kantor and Sir Leon Brittan, chief trade negotiator for the European Community, were scheduled to meet Sunday and Monday to discuss whether there was any way to overcome the impasse.

French Finance Minister Edmond Alphandery rejected suggestions that France was playing the spoiler in demanding renegotiation of the Blair House agreement. But British Chancellor of the Exchequer Kenneth Clarke said, in an obvious reference to France, that despite all the claims of support, "There is one country whose contributions are not touching heavily on the Uruguay Round."

Crew leaves dome after two years

By ARTHUR ROTSTEIN
Associated Press

ORACLE, Ariz.

Biosphere 2's crew emerged Sunday from a two-year experiment in self-sufficiency, filling their lungs with fresh air and waving to some 2,500 reporters and cheering well-wishers.

"They said it couldn't be done," said member Mike Nelson. "But here we are — healthy, happy."

The event, dubbed "re-entry" by Biosphere operators, blended NASA-style techno-speak with the trappings of a Hollywood media event.

Festivities began with an early-morning concert and a speech by chimpanzee researcher Jane Goodall.

Operators say the crew set a record for living inside an essentially closed structure — designed as a mini-earth with rain forest, ocean, savannah and farm.

But the dome has been opened more than two dozen times, first for crew member Jane Poynter to get surgery after injuring her finger and later for import of thousands of small items, including seeds, sleeping pills, mousetraps and makeup.

Outside air was pumped in once and pure oxygen added twice to balance the atmosphere.

After testing and upgrading equipment, operators of the $150 million private, for-profit enterprise plan to re-seal the dome with a second crew early next year for a one-year stay.

The four-man, four-woman crew that left Biosphere 2 on Sunday ranged in age from 29 to 69. All are single and agreed to just one restriction on their social life — no pregnancies.

They have refused to discuss possible romances or arguments.

In their remarks, they didn't reveal many personal details of life under the glass-domed 3.15-acre world, or speak completely of plans. But most spoke fondly of the world they were leaving.

"I certainly had a big lump in my throat as I walked around Biosphere 2 this morning," said crew member Sally Silverstone of Withamstow, England. "I milked the goats for the last time, fed the chickens for the last time, I saw the sunrise on the space frame in my apartment for the last time."

Crew members lost an average of 13.65 percent of their body weight on a diet heavy on such items as sweet potatoes, rice, peanuts, bananas and wheat. They occasionally had an egg, chicken or goat meat and coffee.

The experiment, once billed as a prototype space colony, has been accused of deception and amateur science and drawn unfaltering comparisons to Disneyland, in part because it attracted more than 400,000 paying visitors in two years.

Improve health as well as health care

Dear Editor:

The President revealed last week some of the principles that have guided his health care proposal. He did not tell us all of the details of the proposal to reform health care in this country. In the hope that not all of these details are fixed, I would like to make some suggestions.

In particular, I would like to suggest that reform efforts have been proposed that would shift health care to Americans (i.e., efficiently, fairly, broadly, etc.) instead of on how to keep patients in hospitals longer. Some consideration has been given to this problem — for instance, it is widely recognized that periodic checkups can catch potentially major problems before they become critical — but here are some more concrete thoughts in this direction.

Let’s begin with a principle: people who engage in high-risk behavior should pay more. People who have been in many car accidents pay more for their auto insurance, since they cost the insurance company more money. I think a parallel principle should apply to people who drain health care resources as a result of behavior they could modify.

Here’s one way to apply the principle: tax smugglers till it hurts. Did you know that a pack of cigarettes costs $6 in Canada? The tax revenue is going straight into their health care system. Tens of thousands of the lung cancer deaths such year are the result of smoking. It’s a free country, and it’s your right to smoke if you want. But don’t ask me to pay for your oxygen when you die or your critical care when emphy­

Dear Editor:

The President of Notre Dame is insuring that that racism will continue at ND as long as anthropological evolution is taught. Evolution dupes both whites and blacks into believing blacks are an evolutionary antecedent to whites. It encourages blacks to stay out of academia as they have not evolved to the cognitive level of whites and to pursue instead the athletic arena where blacks can exploit their lingering primitive physical abilities.

Instead of having the courage to teach Biblical creation exclusively, ND has followed the Pied Piper of “higher education” and taught the racist theory of evolution. But now the Pied Piper is touting increasingly more liberal education. Science is increasingly determining that the biological tax on living things is supposed to be a racist perspective than into an evolutionist one. Denison’s “Evolution: A Theory in Crisis” Johnson’s “Darwin on Trial” and Kaye’s “Of Pandas and People” are three secular works that illustrate how unreasonable the theory of evolution appears in light of modern science.

Evolution should never be taught at a university that upholds the Bible. Evolution effectively teaches agnosticism or, worse, the Creator as a tortuous mind who orchestrates a grotesque plot where disease, mutation, retaliation, death and clawing atop the heap of the animal kingdom are God’s very creative mechanisms. Evolution is no reveler of God’s glory (Ps. 19:1). It is creation.

I can understand the deep­

Dear Editor:

The Administration of Notre Dame is insuring that that racism will continue at ND as long as anthropological evolution is taught. Evolution dupes both whites and blacks into believing blacks are an evolutionary antecedent to whites. It encourages blacks to stay out of academia as they have not evolved to the cognitive level of whites and to pursue instead the athletic arena where blacks can exploit their lingering primitive physical abilities.

Instead of having the courage to teach Biblical creation exclusively, ND has followed the Pied Piper of “higher education” and taught the racist theory of evolution. But now the Pied Piper is touting increasingly more liberal education. Science is increasingly determining that the biological tax on living things is supposed to be a racist perspective than into an evolutionist one. Denison’s “Evolution: A Theory in Crisis” Johnson’s “Darwin on Trial” and Kaye’s “Of Pandas and People” are three secular works that illustrate how unreasonable the theory of evolution appears in light of modern science.

Evolution should never be taught at a university that upholds the Bible. Evolution effectively teaches agnosticism or, worse, the Creator as a tortuous mind who orchestrates a grotesque plot where disease, mutation, retaliation, death and clawing atop the heap of the animal kingdom are God’s very creative mechanisms. Evolution is no reveler of God’s glory (Ps. 19:1). It is creation.

In this case the biblical truth in regard to abortion has little to offer to its students. ND’s weak stance on the morality of abortion as well as its strong commitment to evolutionism emasculate from the same sin of disbelief in God’s word. The secular serpentine Pied Piper is coming to a full circle and ND has shamefully followed him all the way.

Hamilton’s soggy day in the sun

Defense carries load as offense sputters

By GEORGE DOHRMANN
Sports Editor

"How about that drum?"
That summed up the feeling of Notre Dame fans as they departed a wet and dreary Ross-Ade Stadium Saturday.

The most exciting occurrence during Notre Dame’s 17-0 win was the presence of the Purdue band and, of course, the world’s largest bass drum, which has sadly gotten more publicity than the Boilermakers football team in past years and has been beaten as often.

But you wouldn’t have known it by Saturday’s performance. Purdue stayed with the Irish until the overcast end and if it wasn’t for defensive end Brian Hamilton’s touchdown off a fumble recovery in the third quarter, Notre Dame may have fallen from the rankings as fast as the rain which pelted the field for the majority of the game.

"It is nice to win a football game," said Holtz, "but you would like to play a complete football game."

Notre Dame played far from complete, the Irish defense beat Purdue while the offense beat itself. Four turnovers and an inability to pass the football allowed the Boilermakers to stack players at the line of scrimmage.

Notre Dame defense gives Sample of its depth

By GEORGE DOHRMANN
Sports Editor

Jeremy Sample slept easy Friday night.
But why wouldn’t he. His preparation for Saturday’s matchup with Purdue was simple. Go down on the kickoff team and hit somebody.
But Sample’s job description increased considerably, as he was thrust into the heart of the Notre Dame defense after starting linebacker Pete Bercich suffered a shoulder separation late in the first quarter.
"I was a little scared at first. I didn’t expect it (this chance to play with the first team) to happen this way," said Sample. "But after a couple of plays things began to flow."
Sample surprised Irish fans who considered him a life-long backup when he was going to kick them in the fanny. His size, 5’11” 218 pounds certainly doesn’t measure up. His fellow starters at linebacker measure 6’2” and 6’7”.
But Sample has a plan for overcoming his size.
"I run. I run for my life," he said. "I use my speed."
Whatever he did, he got the job done Saturday.
"I was really pleased with the way Jeremy Sample stepped in there," said Lou Holtz. "At halftime the guys were telling me it was my turn to step up," said Sample. "I still have a lot of things to work on but it feels good."

Sputter

and stifled the Irish running game.
The result was an offense out of sync and a close football game, which at Purdue usually only comes when Northwestern comes to town.
"Today we played a great game against the No. 4 team in the country," said Purdue head coach Jim Colletto. "I told my guys if they walk off the field today thinking they lost, I was going to kick them in the funny...we gave them (Notre Dame) all their touchdowns."
Hamilton’s was the one which did the giving.
Hamilton was the one which did the giving.
"I remember thinking that I just joined a club today," said Sample. "I’m a member but I have a long way to go to measure up with the rest of the guys."

Player of the Game

BRIAN HAMILTON
6’3” 275 lbs. Near senior Defensive end

Hamilton recovered two fumbles, including one that he returned 28 yards for a touchdown to break a scoreless tie in the third quarter.

Jeremy Nau (58) and Bobby Taylor (21) talk about Notre Dame’s defensive strategy with Jeremy Sample, who stepped in after Pete Bercich left the game with a shoulder injury.

Notre Dame defense this week,
"We talked about what it takes to be a good defensive player," said Colletto. "We talked long and hard the last two weeks about good defensive football is all about. We talked about what it takes to be a good defensive player."

Purdue never got the chance on offense, starting three drives at their own 30 yard line, and exchanged only three drives with more than one first down. They also converted only 3 of 12 third down tries and 0-5 in the first half.
"I did a poor job preparing the offense this week," said Holtz. "We did not execute well. As a teacher, that is my fault."

Gameday Analysis

SEASON CUMULATIVE AVERAGE: 3.1925

QUARTERBACKS
Worst performance of the season and the conditions weren’t to blame

RUNNING BACKS
Loss of Beconj hurt, but the group that played was less than outstanding

RECEIVERS
Mayer’s made some nice catches early, otherwise they didn’t have many opportunities

O-LINE
McDougal had time to throw, and running holes were there; conditions hurt their overall performance

D-LINE
No pass rush, but made the big plays when it counted

SECONDARY
Continued to play solid

LINEBACKERS
Sample a solid sub for Bercich, but coverage of backs was lacking

SPECIAL TEAMS
Only positive was blocked field goal; bad plays far outweighed good

COACHING
Holtz said himself that he didn’t prepare the team well enough for Purdue

FINAL SCORE
Lackluster performance against a lackluster opponent leads to a lackluster grade

2.44
I would be nice to think that after a 53-yard kickoff return and a 17-yard run on the opening play that Notre Dame could score. Think again.

The Irish offense resembled the unit that showed up against Northwestern on opening day, rather than a group that has bonded together with big performances against Michigan and Michigan State.

The reason? Take your pick.

Maybe it was the Purdue defense. Now there's a stab in the dark. Purdue wasn't doing anything special on defense. Reading their defense was like reading a Playboy, all you had to do was look. They stacked players at the line of scrimmage like the Irish to pass, which Notre Dame couldn't.

In a poll taken after the Michigan game, one Helman voter picked Kevin McGroddy as his winner. He must feel like an idiot now. Hitting three of nine pass attempts doesn't warrant a parking spot outside the Downtown Athletic Club. Let alone an invitation to come inside and join the best college football players in the land.

"He was the winning quarterback," was the response Holtz gave when asked to evaluate his quarterback's performance. That was the bright side. Nice bright side.

"Purdue gave us a tough battle from the beginning," said running back Randy Kinder.

That they did, but calling a game against Purdue a battle is like calling a game of tic-tac-toe an epic challenge. It wasn't Purdue which made this game close it was the Irish.

Maybe it was the rain. Nice try. The football was in good condition despite the rain, and not one player seemed to slip due to poor footing.
Defense shoulders offensive burden

By JASON KELLY  
Associate Sports Editor

Scoring a game winning touchdown is a dream Brian Hamilton has probably had many times before. When a fumble popped into his hands in the second half of Saturday's game against Purdue, he saw nothing but open field, and the dream became a reality.

The 6-foot-3, 275 pound defensive end trudged across the slippery turf, willing his way to the goal line. "All I saw was the end zone ahead of me," Hamilton said. "And all I wanted was to get there."

It was a slow and soggy trip, but he made it, scoring the game-winning touchdown, courtesy of the Notre Dame defense.

Locked in a surprising scoreless tie at halftime, the defense put the burden on itself to keep Notre Dame's record unblemished.

"We came out in the third quarter and said 'It's up to us,'" defensive end Jim Flanigan said. "The offense has carried us for a long time. Today was just our turn to produce."

"We had to be the horse today," Hamilton added.

Considering the conditions, they were probably mudders.

Rain soaked the field throughout the game and—coupled with the inconsistency of both offenses—turned it into a defensive struggle.

Notre Dame's defense was little better, forcing five turnovers to keep Purdue off the scoreboard and put Notre Dame on it.

"Scoring on defense is something we discuss all the time," senior safety Jeff Burris said. "Our goal always is to score or set up a score."

The Irish proved that on the very first play of the season, when senior linebacker Pete Bercich returned an interception for a touchdown against Northwestern.

He almost had another one Saturday when he stepped in front of a pass intended for Arlee Connors. Like Hamilton's fumble recovery, there was nothing but open field ahead, but the ball fell harmlessly to the turf and Purdue kept possession.

It was virtually a meaningless play, but it provided an indication of the role the defense would play in the game.

"The offense couldn't score, nobody would," Bobby Taylor made sure of that when blocked a field goal late in the first half, stopping Purdue's only serious offensive threat.

Bad field position and mental errors kept the Boilermakers from mounting much of a threat.

Purdue started three drives on their own four yard-line, and never got farther than the Irish 35. And several times the Boilermaker offense looked like it didn't know which way to go.

"Defensively, we had guys going the wrong way, there were blizzes where we should have thrown the ball and we didn't," said Purdue coach Jim Colletto.

"If you run option football and somebody goes the wrong way, you've got problems. Somebody sometime has to make a big play."

Locked in a surprising scoreless tie at halftime, the defense put the burden on itself to keep Notre Dame's record unblemished.

"Scoring on defense is something we discuss all the time," senior safety Jeff Burris said. "Our goal always is to score or set up a score."

The only big plays on Saturday came from the Notre Dame defense. Confusing and containing the Boilermakers from start to finish, the defense looked comfortable carrying the offensive burden.

"Our defense played an excellent fundamental football game," Irish coach Lou Holtz said. "We had four turnovers on offense and our defense got four back. The turnovers set the tempo of the game."

Before the season began, defensive coordinator Rick Minter said that the Irish defense accepted the challenge of leading the team.

Saturday, they rose to that challenge.
Community-saving efforts at home and abroad

Nobel Prize Winner seeks to heighten awareness of our children’s well-being

By JENNIFER GUERIN
Accent Writer

United and motivated by rage at the senseless killing of three youths by a terrorist’s getaway car in Belfast, Northern Ireland in 1976, Betty Williams and Mairead Corrigan began a nonviolent campaign to protest the sectarian violence destroying the lives of local children.

With no systematic strategy in mind, they led a grass roots movement resulting in a series of marches through hostile Belfast streets with as many as 10,000 women on one day. For their peacemaking efforts the two women, previously unknown on the international scene, were awarded the Nobel Peace Prize in 1977.

Seventeen years later, Williams is one of the world’s foremost advocates of social justice and children’s issues. The local campaign she began with Corrigan in 1976, eventually grew into the Community of Peace People, an organization still active in Northern Ireland today. Williams continues her efforts by delivering lectures worldwide.

“I feel our children have lost the art of playing, and I would love to give it back to them.” —Betty Williams

ND students team up with community to combat homelessness

By JEANNIE SHIN
Accent writer

Five families in the northeast neighborhood of St. Joseph County are now living in newly-built homes thanks to the cooperation of a group of ND/SMC students and members of the South Bend community.

During the first week of August, the Notre Dame/St. Mary’s chapter of Habitat for Humanity built five houses from the ground up for those in need of home.

The Notre Dame/St. Mary’s chapter is a four-year-old organization that carries out the goals of Habitat for Humanity on the local level.

Over two hundred members in the ND/SMC chapter are involved in this “constructive way to combat homelessness,” according to Butler.

”The greatest thing about Habitat for Humanity is that it’s a cooperative affair with not only the city of South Bend but with the families and ND and SMC students.”

—Meagan Butler
Women golfers win Ferris State Invite

By ELAINE SIRMAN
Sports Writer

The Notre Dame women's golf team continued their improvement as they captured the Pisgah State Invitational this weekend for the second-straight year. The Irish posted a combined 63.8 for the two-round tournament in Big Rapids, Michigan, and senior Alicia Murray won the gold medal. Murray finished first with a score of 155.

The team gained a lot of confidence after this win. "It was a big mental help," said senior co-captain Christine Klein. The Irish have made gradual improvement over this season after the loss of captain Kathy Phares to graduation. "We are a great group of players and number—one last year player to graduation. But we have become an even stronger and more experienced team as the season has worn on. We are really encouraged by the play of our upperclassmen," said Irish coach Tim Hanlon.

The team finished ninth in its previous two outings at Illinois State and Michigan State. However, at Michigan State last week, the Irish captured the Pisgah State Invitational, in Michigan and Northern Illinois, something they were not able to accomplish this year. "The team is capable of shooting consistently in the 70's and we are starting to get closer to that. Once everyone is consistent with that, we will become a contender in one of our tournaments," said Hanlon.

Also encouraging in the play of some of the underclassmen of Kelly Molloy and junior Kathleen Shannon have both had splendid tournaments. Both have played consistently in all three of the fall tournaments and continue to improve. "It is encouraging," added Hanlon. "It is hard for some of them to prove themselves, especially to freshmen players during the season starts so early. But a few have really done the job, and they will be even better in the spring," said Hanlon.

The women's final opportunity of the season will be on October 16 and 17, against a field of 21 teams at the LaFayette State Buckeye Classic.

Freshman Hood leads Irish in victory in National Catholics

By JONATHAN JENSEN
Sports Page Editor

The Notre Dame women's cross-country team continued its National Catholic Invitational Friday, as Emily Hood, Sarah Riley, and Kristi Kramer swept through the pack to take home the victory.

The big story of the meet was the performance of Hood, who effortlessly ran away from the pack during the homestretch and cruised to an easy win.

"I think she ran a great race," said Riley, "We were trying to run in a pack, but if you feel good and think you can go faster, you should go faster, and Emily did." was just about all Hood could say about her impressive race.

Besides the performances of the top three, the Irish also got an excellent race from junior Maureen Kely, who finished seventh.

Going in the Irish were most concerned with getting practice in as a team, together in a pack, in their opening race loss to Georgetown two weeks ago hadn't adourned them the opportunity. They had all been given a good finishing chance at least five girls in the top ten, maybe more.

Though they failed to accomplish either of these goals, as only Riley and Kramer crossed the finish line together and they finished only four in the top ten, they still felt they had a successful race.

"We do need to do a better job of running in a pack," noted Riley, "As we hit the second mile we started to spread out a bit, and we shouldn't of done that. But I think the season progresses, we will get better at staying together more.

"We have a long way to go to be a real good team," said Irish coach Tim Comedy, "But it's there.
Irish finish strong in Tom Fallon Invitational

By PHIL LANGER

At this weekend's Tom Fallon Invitational, the Notre Dame men's tennis team proved that come springtime they may again be in the race for a national title as Mike Sprouse, Ryan Simme and Allan Lopez won the B Singles, D Singles, and B Doubles crowns, respectively.

"Overall, I'm extremely proud of what the team did," stated Irish head coach Bob Bayliss. "We showed that we're not going to go away."

Also included in this weekend's highlights was Andy Zurcher's excellent return to competitive play since breaking his wrist last Christmas. Zurcher fought through tendinitis in his playing wrist and a bad back but lost a nail-biter in the semi-finals of the B Flight to eventual winner Brian B rackus of Michigan. Simme, the high-est ranked freshman in the country at No. 38, fought through tendinitis in his playing wrist and a bad back but lost a nail-biter in the semi-finals of the A Flight to eventual winner Dan Smith of Purdue.

"Andy simply ran out of gas," said Irish head coach Bob Bayliss. "I'm proud of the way he played. His characteristic poise and character were exemplified in his close matches. Andy's excellent showing in his first tournament since November was an inspiration to his teammates and a warning to our competition."

The story of the weekend was Notre Dame freshman Ryan Simme's debut as a collegiate player. Simme, the highest ranked freshman in the country at No. 38, fought through tendinitis in his playing wrist and a bad back but lost a nail-biter in the semi-finals of the A Flight to eventual winner Dan Smith of Purdue. Simme's debut as a collegiate player was an inspiration to his teammates and a warning to our competition. Ryan has showed me he's ready to play doubles."

The other Irish results deserving of recognition were excellent runs by junior Horst Dziura and senior Todd Wilson to the semi-finals of the B Flight Singles and the semi-finals of the A Flight Singles, respectively. Wilson also teamed with Sprouse to advance to the third round of the A Flight Doubles.
Olivet no match for strong Saint Mary's defense

Saint Mary's Sports Editor

Sparked by a strong defense, Saint Mary's volleyball team defeated Olivet College 15-1, 15-7, 15-1, and Kalamazoo College 11-15, 16-14, 15-7, 15-5, in Kalamazoo on Thursday night.

The double victory upped the Belles’ record to 9-6 on the season.

Belles’ coach Julie Schroeder-Biek was pleased with the team’s performance, noting a strong improvement from last weekend’s disappointing loss to Illinois Benedictine College.

“We were rested and mentally more ready to play,” she said. “We learned a lot from IBC and played together more like a team instead of individuals.”

In the Belles’ opening game against Olivet, everyone saw playing time. Sophomore Angela McNulty felt that this showed the team’s depth.

“We all played well together,” said McNulty. “We put different combinations on the court and everyone reacted well.”

The Belles then moved on to face Kalamazoo, who proved to be too much competition.

Play started out slow versus the Hornets, but the Belles were able to pick up the pace after the first set.

“In the first game we played slowly and lost,” noted McNulty. “But then we picked up our levels of competition and play and did what we had to do.”

Schroeder-Biek pointed out that the Belles remained in control throughout most of the match. The only lapse of this control occurred in the second game when the Belles gave up an 11-2 lead, yet still held on to win 16-14.

“We maintained control of the match. Even in shaky times we stayed level-headed,” she explained.

Besides a strong mental game, the Belles also played a much tougher physical game against Kalamazoo.

According to Schroeder-Biek, the Belles’ passing game was much better, as well as position-changes, and a side-out hitting was especially satisfying for the seniors, who have never defeated the Hornets.

“It felt incredibly to finally beat Kalamazoo,” explained senior tri-captain Michelle Torrez. “They were really surprised—I don’t think that they were expecting us to beat them.”

The Belles then moved on to face Kalamazoo, who proved to be much tougher competition.

The win against Kalamazoo was especially satisfying for the seniors, who have never defeated the Hornets.

“Angela came in well off the bench. Although she only had six digs, they were at key times,” she said. “She also passed well and served strong when I needed her.”

As the Belles head into a tough week of competition, Schroeder-Biek noted that focus will be key.

“The biggest strength for the team, however, was the defense, which was led by senior tri-captain Kim Brandt, who provided 25 digs, and senior transfer Erica Friget, who added 21 digs.”

Schroeder-Biek also credited McNulty with several key digs.

“Amanda came in off the bench. Although she only had six digs, they were at key times,” she said. “She also

The Belles also played a much tougher physical game against Kalamazoo.

Despite a tournament-record 31 kills from Peters, the Irish lost a 2-9 lead to the pesky Broncos, led by all-tournament performer Lia Young (19 kills) and middle-blocker Holly Rattke (25 kills, .399 %).

“We weren’t looking ahead as much as we just were not in sync,” explained Bier.

“We didn’t play smooth and we didn’t pass well.”

Despite the disappointing defeat, Notre Dame was able to rebound Saturday morning against SW Missouri State, winning 15-11, 15-13, 16-14 in a match that saw the Irish use eleven players in extensive action.

Along with Peters’ 14 kills, freshman Kristin Ervin had 12 kills, senior co-captain Julie Harris hit for a .636 percentage, and sophomore setter Shannon Tuttle added 31 assists.

Notre Dame will not have much time to regroup after the tournament, hosting DePaul at the J.A.C.C. Tuesday at 7:30 pm.

Think about supporting yourself for twenty-five, thirty years or longer in retirement. It might be the greatest financial investment you'll ever face. Fortunately, you have one valuable asset in your favor. Time.

Time to take advantage of tax-deferral. Time for your money to grow.

But starting early is key. Consider this: if you begin saving just $50 a month at age thirty, you can accumulate $179,109* by the time you reach age sixty-five. Wait ten years and you'd need to set aside $219 a month to reach the same goal.

At TIAA-CREF, we not only understand the value of starting early, we can help make it possible—with flexible retirement and tax-deferred annuity plans, diverse portfolios of investment and retirement annuity tax, and a professional service that spans 75 years.

Over a million people in education and research are already enrolled in these services. Find out how easy it is to join them. Call today and learn how simple it is to put your money to work for yourself and enjoy a comfortable retirement.

Start planning your future. Call our Enrollment Hotline 1800 842-2888.

Irish men sweep National Catholics

By DYLAN BARMMER
Sports Writer

The Notre Dame men’s cross country team scored a convincing victory Friday afternoon, sweeping the first four places on their way to dominating the rest of the field at the National Catholic Invitational. Nate Ruder, Mike McWilliams, Derek Selling, and John Cowan gained the top four spots, and the team finished with a total of 21 points.

LaSalle University finished a distant second with 75 points, and Marquette (98), Canisius (115), and Duquesne (150) rounded out the top five. Sixteen other colleges and universities also competed in the race.

Freshman Matt Althoff finished eleventh for the Irish, and JR. Meloro finished seventeenth.

The Irish team stuck with their plan to run as a group, and nearly pulled off a sweep of the top five spots. The first three Notre Dame finishers all finished within tenths of seconds of each other.

“We hung together well as a group,” said first-place finisher Ruder, who ran a 25:01.0. “The team has so much depth this year that we were able to stay together as a group, which is very important.”

Head coach Joe Piane seemed satisfied with the results, while remaining focused on the work that the remainder of the season will demand.

“The whole purpose of the meet was to train for our stretch run in November.” commented Piane. “It was a good meet. The kids competed very well. John Cowan may have run the best race of the bunch, as he bounced back today after struggling in our first meet.”

Senior captain McWilliams, who finished second overall with a time of 25:01.3, also saw the race as a preparation for the future.

“We were basically preparing for the next week,” said McWilliams. “We will be up against a great amount of talent at next week’s meet.”

Irish runners Nate Ruder (from right), Mike McWilliams, and Derek Selling took the top three spots in the National Catholic Invitational.

It was the tale of two halves Friday night, as the Notre Dame men's soccer team fell to third-ranked Indiana by the score of 3-0.

The first half was played in the typical Irish style, with many battles in the air for possession and some very physical play. Bert Bader Emotions got the better of both sides with thirteen minutes left in the first half when a fight broke out over a Hoosier foul. Punches were thrown but no players were ejected.

Though Notre Dame was out-shot 7-4 in the first half, they kept constant pressure in Indiana's end, tallying six corner kicks and several direct kicks. A strong Hoosier defense, however, led by junior Mike Clark and senior Blake Hayes, was able to stifle some well-planned Irish scoring attacks.

"They had us in a couple of dangerous situations in the first half, but we weathered the storm," said Indiana head coach Jerry Yeagley, who saw his Hoosiers improve their series record with Notre Dame to 13-1-1.

The only scoring in the first half came with 11:40 elapsed off the clock. Indiana junior Todd Yeagley, an All-American last year, squeezed a direct kick past goalie Bert Bader from 25 yards out to give the Hoosiers a 1-0 halftime lead.

Yeagley finished the game with a goal and two assists, totaling four points on the evening...

Indiana entered the second half with a vengeance, proving why they hold the No. 3 ranking in the nation.

"You can only go so far on emotion," continued coach Yeagley. "In the second half, when they started to get tired, our skill and experience showed through..."

The Hoosiers utilized their team speed and ball control to keep the ball away from the Irish, while they at the same time pushed the ball deep into Indiana's half, which led to an impressive passing scheme.

The Hoosiers outshot the Irish 13-3 in the second half, but had several potential goals robbed by goalie Bert Bader, who recorded six saves in the second half and eight for the game.

Indiana put the contest out of reach at the 77:03 mark, when Mike Clark headed in a Yeagley cross pass to put the score at 2-0. Sophomore forward Harry Weiss finished off the scoring with 9:41 to play with a 25-yard blast into the upper right corner of the net. Yeagley was again credited the assist.

Though Notre Dame's defense held junior Brian Maionenoe, last week's Big Ten Player of the Week, to only two shots on goal late in the contest, the Hoosiers were able to rely on a well-balanced scoring attack to earn the victory.

"We played the way they wanted to in the first half," said Yeagley, "They're better at a physical game than we are, whereas we like to play a skilled game. We played soccer in the second half."

With the loss, the Irish dropped to 4-3 on the season, while Indiana improved its record to 6-1-2.

Notre Dame's next game will be played tomorrow night at 7:00 pm, as the Irish will host DePaul University on Alumni Field.

**JUNIORS!**

Tomorrow is the final day to register your team for the first annual 3 ON 3 BASKETBALL CLASSIC. The tournament consisting of both male and female teams, with juniors per squad, will begin October 3. The $2 entrance fee will go towards awards and prizes. Sign-ups are in Room 213 LaFortune from 3-5 pm.

Irish stumble past Boilermakers
17-0

By TIMOTHY SEYMOUR
Sports Writer

For the Notre Dame volleyball team, this weekend's Golden Dome Invitational could be summed up by the on-court celebrations following each match.

On Friday night, Santa Clara mobbed to the center, cheering their biggest upset of the young season after having knocked off the 14th-ranked Irish 14-16, 8-15, 15-13, 16-14, 15-13.

On Saturday night, however, the scene was a total reversal, as the Irish exploded following the biggest upset in its history, defeating the No. 3 team in the land, Nebraska, 15-8, 15-7, 3-15, 15-10.

"Beating Nebraska was the biggest win of the season, my career, and probably our history," commented senior co-captain Janelle Karlan. "It really boosted our confidence, and like I said before, showed we can play with anyone in the country."

"After Friday night's match, I told the team that the mark of a great team is one that can suffer a loss and rebound the next day," stated Irish head coach Debbie Brown. "They showed a tremendous amount of character in beating Nebraska."

Playing with a level of intensity that had not been previously exhibited, the Irish rallied from a 3-7 deficit in game 1, relying on the jump serving of junior Nicole Coates, hitting of tournament MVP Christy Peters, and net play of inspired senior Molly Stark to stun the Huskers.

"Nobody was surprised by the aggressiveness of the Irish attack, becoming rattled and committing numerous unforced errors and technical violations which disrupted the team's rhythm."

"Whenever you have something to prove, you have to play with much more intensity," explained Karlan. "We came out with nothing to lose in that match."

In the second game, Peters and Stark took control, answering every Husker rally with definitive kills. Peters, whose dominance from the outside continued for the second weekend in a row, notched 19 kills over the course of the match, hitting both cross-court and down the line for a .208 percentage.

Junior Christy Peters, here making a block against Santa Clara, took home MVP honors in this weekend's Golden Dome Invitational.

Volleyball upsets No. 3 Nebraska

After putting home the game-clinching goal against North Carolina State, Notre Dame freshman Cindy Daws turned and triumphantly punched the cool Friday night air.

Her two-goal performance led the third ranked Irish women's soccer team (8-0) past the sixth-ranked Wolfpack, 3-0.

Sophomore attacker Rosella Guerrerro topped Daws performance in yesterday's match up with Southern Methodist University by scoring a hat trick in Notre Dame's 5-2 victory over the Lady Mustangs.

The 3-0 score in the N.C. State game was a valid indicator of how the teams played. It was perhaps Notre Dame's best performance of the season and it came against the toughest opponent the Irish have faced to date.

"We're starting to prove that we're as good as any team in the country," said Notre Dame head coach Chris Petrucelli.

"Notre Dame played very spirited," noted N.C. State head coach Larry Gross. "They deserved to win."

"It was all intensity," said Daws. "We're not stopping at anything. We're doing whatever it takes."

Daws first goal came mid-way through the first half on a 23-yard penalty kick to the top left corner of the goal which Wolfpack keeper Michelle Bertocchi had no chance of stopping.

The score remained 1-0 through the half, even though the Irish outshot their foe 12-4. The squad was hoping to avoid an other result like last Sunday's contest with William & Mary. Although Notre Dame dominated the Tribe in all aspects of the game, the final score was only 1-0.

Daws, however, made sure that would not happen when she followed up on the rebound of her own header and booted it off a bounce past the sprawling N.C. State keeper. The unassisted goal all but locked up the win for the Irish.

Tri-captain Alison Lester gave Notre Dame an insurance goal with 10:42 left in the game when she tipped a Tiffany Thompson corner kick just inside the far right post.

"Beating Nebraska was the biggest win of the season, my career, and probably our history," commented senior co-captain Janelle Karlan. "It really boosted our confidence, and like I said before, showed we can play with anyone in the country."

"After Friday night's match, I told the team that the mark of a great team is one that can suffer a loss and rebound the next day," stated Irish head coach Debbie Brown. "They showed a tremendous amount of character in beating Nebraska."

Playing with a level of intensity that had not been previously exhibited, the Irish rallied from a 3-7 deficit in game 1, relying on the jump serving of junior Nicole Coates, hitting of tournament MVP Christy Peters, and net play of inspired senior Molly Stark to stun the Huskers.

"Whenever you have something to prove, you have to play with much more intensity," explained Karlan. "We came out with nothing to lose in that match."

In the second game, Peters and Stark took control, answering every Husker rally with definitive kills. Peters, whose dominance from the outside continued for the second weekend in a row, notched 19 kills over the course of the match, hitting both cross-court and down the line for a .208 percentage.

Junior Christy Peters, here making a block against Santa Clara, took home MVP honors in this weekend's Golden Dome Invitational.
