Exploring the issue of sexual harassment.

Assistant News Editor and

Superstar singer-songwriter Billy Joel, in rather a unique question and answer session, delighted a sold-out Stepan Center last evening with a highly entertaining mix of frank discussion, humor, and music, with a little bit of dream-fulfillment thrown in.

Toward the end of the event, an already random set of questions got even a bit crazier when Mitch Silver, a Notre Dame law student, asked: "We are a sister university, so what are you afraid of?" Joel responded with a smile: "I'm afraid of you." The audience roared with laughter.

This line is crossed, however, with the students' interests at heart, and sexual harassment.

Forms that sexual harassment occurs when a professor misuses the power inherent in a faculty member relationship. This fear for their future, is this differential is especially a factor in cases involving student-faculty relationships.

According to Associate Provost Kathleen Cannon, University policies addressing student-faculty relations prevent this from occurring. "Sometimes it's possible to see how things can be misinterpreted, how a misunderstanding can occur," Cannon said. "But the professor is in a power position, and therefore cannot use a consensual relationship as an excuse. Even if they were involved in a relationship, the power differential is still too great." This differential is especially a factor in cases involving student-faculty relationships.

The Counseling Center incident sparked an unprecedented on- and off-campus reaction. Representative bodies like the Campus Life Council (CLC), Faculty Senate, Student Senate, Hall Presidents' Council (HPC) and Graduate Student Council (GSC) all pressed奈-condemning the administration for their actions.

Protests like this one last March allowed members of the Notre Dame community to take a stand on the issue of gays and lesbians in the university environment.

Fear of future prevents students from speaking out.

With students or graduate students, a professor has a great deal of power," said Theology Chair Lawrence Cunningham. "They can help them out a lot, or really harm them in terms of recommendations and grades.

This fear for their future is one of many which often prevents students from coming forward immediately in instances of sexual harassment. In several cases, students hesitate because that line has become blurred, and they are unsure of the nature of the relationship with their professor.

"Students sometimes fear coming forward because they're afraid the story will be turned around on them," Assistant Dean of Arts and Letters Ava Preacher said. "They're afraid their motives will be questioned, that they will be accused of initiating or encouraging the action.

"Teaching assistants will say that they were just trying to be friendly with the student, and that they see being on friendly terms as the most important thing in a teacher-student relationship," Cannon said. "But we hold TA's to the same level of professional conduct as professors.

Implicit in the definition of professional conduct is maintaining a level of trust. This trust is violated when sexual harassment occurs.

"The classroom is a complicated space and involves trust, identification and exchange," said Assistant Professor of English Gloria-Jean Masciarotto. "Sexual harassment in the classroom is a very confusing situation in which students aren't sure sometimes unless the action is overt." The classroom becomes more complicated at an institution such as Notre Dame, where Catholic morality issues become mixed with other academic factors.

"Some students who might have more defenses in other situations don't expect it here and are caught off guard," Cannon said. "They think of it as a safe environment and don't put up the same shields they might at other schools." However, Gender Studies

Let it snow

August, 1995. It was a

cold day in South Bend, Indiana, and there was

a light rain falling on

Saint Mary's College. I

was on my way to class, and suddenly I

stopped in amazement.

"Wow," I said in complete awe. "It's snowing."

My friends looked at me with that she's-

from-Florida-just-smile-and-amuse-her look, and

explained to me the difference between snow and an icy rain.

Now, do I even know what snow is. It

seemed like snow actually finally came, we get another six to eight inch snowstorm

within the week.

So, I have just one question.

Does spring ever come?

Before leaving the college, the last time I

saw snow was when I was six years old. Sired into the Orlando, where we

bundled up and start to complain about what a

rough winter it is... when it's a chilling 50

degree climate, it begins to melt. And, as we

know, (some more painfully than others)

slip and fall on ice; and to say that they,

all know, (some more painfully than others)

wonderland for granted. OK, I admit it, I like

indeed, have seen snow.

It's kind of sad that some of my friends

back home have never caught snowflakes on

their tongue. It threatens his grip. Dole isn't the only

familiar: Just when he thinks the presi-
dential nomination is within reach, a

preppy challenger with inherited wealth

threatens his grip. Dole was 1996 Republican candidate to put the

A ye, for the love of the Irish. A love shared with Irish Americans for half-warm pints of stout, Yeatsian rhetoric and the immigrant Irishman will bring the Irish rock brigade Black 47 to the University of Notre Dame's Alumni-Senior Club on Wednesday night.

There, fans may experience the politically minded Celtic rap-reggae-rock group famous for playing loud and live in East Manhattan's Irish bars.

Named after the worst year of Ireland's 19th century potato famine, Black 47 will perform songs from its new album, "Green Suede Shoes." The album is due out in early March.

To Larry Kirwan, the band's Irish-bred lead singer, the album returns to the "toothy, claustrophobic, passionate, live ideal" where Black 47 first planted its roots.

"Green Suede Shoes" is an entire collection of Black 47 songs. One, called "Bobby Sands MP," deals with Ireland's hunger strikes, which was the first real contact with Northern Irish politics for many Americans under 40.

With rousing lyrics from the likes of "Bobby Sands MP," Kirwan said, "to keep the Irish question off the back burner and bring it to the front."

And that they have. When Black 47 began playing the Irish working class bars in the Bronx, Brooklyn and Queens, it hit a nerve with scores of Irish immigrants who found their original lyrics about the

Arrest
continued from page 1

dent and discovered the card had been stolen in the Thursday break-in of the student's residence.

"At the same time, Mishawaka police arrived at Alltronics where the stereo equipment was being installed in a vehicle," Hurley continued. Both suspects were charged with burglary, forgery and possession of burglary tools, according to Hurley. Both are being held at the St. Joseph County Jail.

Hurley said the two men were linked to the break-ins at the Turtle Creek and Campus View apartment complexes after police found their vehicle matched the description of one involved in a stolen checks and forgery case at the Notre Dame Federal Credit Union.

"The checks were reported stolen from an off-campus student residence at Turtle Creek during Notre Dame's recent semester break," Hurley said.

Additional evidence included a 1995 Notre Dame class ring that one of the suspects was wearing which was reported stolen from a Turtle Creek apartment in the fall of 1994.

Turtle Creek, Mishawaka, South Bend, and St. Joseph County police departments are coordinating their investigations in the two cases.

Black 47
continued from page 3

grind of immigration painfully real.

"When Chris Byrne, the ul­

iance and kinetic energy and I formed the band, we had a preconception that people would say, 'great music, which didn't happen. The audiences were hurdle to our music, so we got to be a fairly aggressive band," Kirwan said. "Same Irish immigration are not too keen to be portrayed in a cold, real light."

Instead, it was left-wing Irish Americans who embraced the band's realism and lyrical bal­

ids. Every song, Kirwan claims, is "a long story from beginning to end, with well defined characters."

Irish Americans appeared ready to identify with Kirwan's songwriting abilities; he com­

bines opposites, such as funk rules with more traditional Celtic

sights. "Our music seemed to wake up a dormant group of Irish Americans by cutting away some of the false emotions in old Irish songs. It was Yeats who once said that poetry should be as cold and passion­

ate as the dawn."

Clash, however, is not the reason why Black 47 will post­

pone a break schedule after two consecutive Chicago con­

certs to make an appearance Wednesday in South Bend.

In tune with the band's spon­

taneous nature, they finalized plans just over a week ago to give an impromptu perform­

ance on Notre Dame's cam­

pus. According to Kirwan the band has long been looking for­

ward to playing a session at the "unofficial headquarters" for Irish American activity.

"Irish Americans look toward Notre Dame and want to be a part of that," he said. "Although Ireland is the fountain of Irishness, the Irish spirit is found in genera­

tions after generations of Irish Americans." Kirwan said. "Every­

time we've played in Chicago, I've always gone to see some smart enough to book us at Notre Dame."

It seems that Black 47 found an agent worthy of its intellec­

tual esteem. At Wednesday's performance Black 47's band will blend their unique assortment of electric guitars, trombones, drums, Irish pipes and tin whistles in suit. Doors open to the public at 9:30 p.m. with the act taking the Space is limited.

Kirwan sums up Black 47's radical combination of rhythm and views, traditionally known for its aggressiveness: "Our band is taking Irish music and Irish culture and bringing it through the prison of New York. Our band was not taken from the people; we are whole New York veneer put on it."

New device detects cavities

By MALCOLM BETTER

Scientists may have found a better way for your dentist to look for cavities. It involves passing an electric current through a tooth and all the way down your arm.

Don't worry, it won't hurt.

In fact, by detecting the very earliest stages of decay, the technique could spare you the hassle of drilling and fillings says researcher Christopher Longbottom.

It hasn't been tried on patients or even animals yet, but it was 100 percent accurate in detecting decay in 26 extracted teeth, Longbottom and colleagues reported in the February issue of the journal Nature Medicine.

So it might work better than looking at teeth or using X-rays, both of which can miss early signs of decay, he said.

Longbottom is a lecturer at the University of Dundee Dental School in Scotland. He did the work with scientists there and at the University of St. Andrews in Scotland.

The goal of the technique is to detect tiny pores inside the tooth that are created by the very earliest stages of decay. A dentist can then take steps like applying fluoride or a sealant to stop the decay process and perhaps even reverse it, Longbottom said.

To use the device on patients, a dentist would slip an electrode between teeth or put it on the biting surfaces. The tiny current would go into the tooth and down the patient's arm to an electrode in the patient's hand, and then back to the device.

A similar setup is used now to test whether teeth are alive. It causes a tingle in the tooth. The test whether teeth are alive. It causes a tingle in the tooth. The decay-detecting device would use too little current to be felt, Longbottom said.

Bomibg defense says Oklahoma jury biased

By PAUL QUEARY

Oklahoma CITY

Arguing that the two Oklahoma City bombing defendants cannot get a fair trial in Oklahoma, defense attorneys today asked a federal judge to move their trial out of state.

Lawyers for Timothy McVeigh and Terry Nichols said their clients could not find unbiased jurors in Oklahoma. The April 19 explosion at the Alfred P. Murrah Federal Building killed 169 people and injured more than 500 others.

"The infection of prejudicial publicity about the bombing extends throughout the state of Oklahoma," said Michael Tigar, the head of Nichols' defense team. Tigat made opening statements in a change of venue hearing that is expected to last four days.

U.S. Attorney Patrick Ryan argued that the emotional and psychological trauma associated with the bombing is largely confined to Oklahoma City and does not extend to Tulsa or Lawton, the two cities prosecutors have proposed as trial sites.

Lawton is about 90 miles west of Oklahoma City; Tulsa is 103 miles northeast.

"The defense has not, cannot and will not prove the state of Oklahoma cannot find 12 jurors and six alternates who can remain impartial," Ryan said.

Prosecutors maintain that surveys of prospective jurors show that "56 to 70 percent of the people in every venue surveyed said they had a totally open mind" when asked if they thought McVeigh was guilty.

"The media coverage in Oklahoma has included demurrings of Timothy McVeigh and Terry Nichols," said Rob Nigh, one of McVeigh's attorneys.

Prosecutors said media coverage has been pervasive throughout the country.

"This is a minimal story, perhaps without precedent," Ryan said. "You can't find a major newspaper in this country that has not covered this story hundreds of times."

Stephen Jones, McVeigh's lead attorney, previously has mentioned San Francisco and Charleston, W.Va., as possible trial sites.

Prosecutors want the trial to stay in Lawton but have said Tulsa would still be close enough for victims' families to attend. Tulsa also has a bigger courthouse and more modern facilities.

McVeigh and Nichols could face the death penalty if convicted on federal murder and conspiracy charges.

They were moved Monday from the federal prison at El Reno, Oklahoma, to the Oklahoma County Jail so they could attend today's hearing.

It's not the first time the defense has used the fair trial argument to seek a change in the case.

They persuaded a federal judge to stay the trial in Lawton to a federal prison in Little Rock, Arkansas.

Managing Editor

Applicants should have strong editorial and journalistic skills and be comfortable in a management position. A basic understanding of newspaper production and experience with the Macintosh system is helpful. Any Notre Dame or Saint Mary's College student is encouraged to apply.

Business Manager

Any sophomore or junior business major at Notre Dame or Saint Mary's interested in valuable work experience is encouraged to apply. Applicants should have strong interpersonal and organizational skills and a basic understanding of accounting principles.

Applicants should submit a resume and five-page statement to Liz Foran by 5 p.m. Tuesday, February 6. For additional information about the positions contact Business Manager Joe Riley at 631-5313, or Edzu-in-Chief John Lucas at 631-4542, or stop by the office on the third floor of LaFortune.

The Notre Dame FRESHMAN RETREAT

a two-day, overnight retreat for freshmen

guided by students, faculty, and staff

an opportunity to deepen your understanding of yourself

your transition to life at Notre Dame,

and your hopes for your life at Notre Dame and beyond.

retreat dates:

FRIDAY, FEB. 2 (4 PM) to SATURDAY, FEB. 3 (6 PM)

forms available:

AT CAMPUS MINISTRY OFFICES thru Thurs, Feb 1

questions: Campus Ministry Office, 103 Hesburgh Library

331-7800 or 631-5056

cost:

$10
Spy agency uncovers big bucks in its books

By JOHN DIAMOND
Associated Press

WASHINGTON The Senate Intelligence Committee will consider making the nation's spy budgets public and giving the CIA chief greater authority following a report that a spy satellite agency kept $2 billion in unspent funds.

Sen. Arlen Specter, R-Pa., the Intelligence Committee's chairman, said Tuesday he and the panel's vice chairman, Sen. Bob Kerrey, D-Neb., are considering legislation that would end the long practice of keeping the budgets of the CIA and other spy agencies secret. In addition, the panel will look at proposals by CIA Director John Deutch to increase the director's power over some of the various intelligence-gathering agencies.

"The more I see of this the more it becomes apparent that there is no solid reason for that secrecy," Specter said. "It is in the context of public disclosure and media attention that we really figure out what is going on."

"We're going to have to make some structural changes in give the director of central intelligence more authority over the whole intelligence community, including the NRO," Specter said.

In addition to student support, Blandford says University handling of the issue helped focus the debate in GLND/SMC's favor. By linking GLND/SMC from campus with their unrecognized status, the group had an issue "thrust upon" them, he says.

"We're fortunate that Notre Dame stumbled into this policy."

Despite all the national attention, the University did not grant GLND/SMC official recognition and Blandford finds that frustrating.

"We're the best folks to (support gays and lesbians on this campus) because we've already been doing it." And despite the blows his organization has dealt, Blandford sees several positive aspects of the GLND/SMC controversy.

"There's now an ongoing debate on several levels. And I think we have the faculty." Before the meeting was adjourned, the Senate unani­ mously passed a resolution honoring O'Meara, who has been a member of the Notre Dame faculty since 1962. The Senate acknowledged "with profound appreciation the gen­ erous and extraordinary service" O'Meara gave Notre Dame for more than three decades.

The Senate further resolved that it extend to O'Meara and his wife, Jean, "its warmest and best wishes for continued personal happiness and fulfillment in the years ahead."

O'Meara has been a Howard J. Kensa Professor of mathe­ matics since 1976 and twice chair of the Department of Mathematics since 1978.

The Observer • INTERNATIONAL NEWS

BOGOTA, Colombia
Clinging to power, President Ernesto Samper convened a special session of Congress on Tuesday to try to rally support. Opposition lawmakers accused him of trying to dodge justice.

Samper is defying demands that he step down over mounting evidence that he won office with drug money, casting Colombia into a crisis severely testing its democratic institutions.

He appealed to Congress to investigate him immediately, telling lawmakers: "I'm not prepared to negate my innocence."

But in his strongest admission yet that his campaign was tainted, Samper said it was important that Congress establish "who, when and using what channels contaminated it."

The president denies he solicited millions of dollars from the Cald drug cartel during his 1994 campaign, and called Congress back from a three-month recess to speak to legislators.

During his half-hour, nationally televised speech, Samper said death threats against him and his family had intensified in recent days, and he cited a September attack on his home in which two bodyguards were killed.

He said the international press had portrayed him as "nothing less than a criminal."

The president addresses a dozen ministers and ambassadors at the Foreign Ministry building, and it could be the last time Samper addresses a white-collar audience.

"There is a high probability that Congress can judge the president," U.S. Ambassador Myles Frechette said Tuesday.

Samper says he has offered to resign if Congress demands his stepping down. But even if Samper resigns, it is not clear what impact his departure would have on efforts to stop Colombia's powerful drug traffic, which is fueling Colombia's leadership.

Drug traffickers must get stiffer sentences and have their property seized for any hope of permanent change.

"It took Colombia 15 to 20 years to get where it is with such rampant corruption, and it will take 15 to 20 (more) years to bring narcotics trafficking down so that it is no longer an overbearing issue in our bilateral relations," U.S. Ambassador Myles Frechette said Tuesday.

Many Colombians believe the evidence is now so overwhelming that Congress, shaken by a probe of drug corruption within its ranks, will vote to remove the president.

For the Office of

STUDENT BODY PRESIDENT

and

VICE PRESIDENT

All interested candidates are welcome to attend.

It is NOT mandatory to attend this meeting to run.

Petitions will be made available at this time and may also be picked up in the Student Government Office on the 2nd floor of Lafortune.

Opera house ruined by fire

By DANIEL J. WAKIN
Associated Press

VENICE, Italy

La Fenice, the 204-year-old opera house that premiered Verdi’s “Rigoletto” and “La Traviata,” is nothing but a charred remains today.

The opera house ruined by fire in August for repairs and was predicted to take a few months. But “there might have been something else,” said Mayor Massimo Cacciari today. “We will remove the building,” he told reporters near the pyramid. He said the museum would be built nearby.

The museum will house Pharoanic relics found in the Saqqara desert and a model version of the step pyramid and ruins that surrounded it.

The project was approved in 1990 by the Higher Council for Antiquities on the condition it be built underground, and that the area be checked for remains before construction began.

A UN panel said an investigation would determine why those conditions were not met. The government halted construction a month ago after having spent nearly $18,000.

The museum’s pillars were raised just 550 yards away from the pyramid, and officials in the area discovered the building was more than three feet higher than it was supposed to be.

Moral laws transcend the legal when it comes to abortion

I believe that there are just some things we, as humans, should not do according to God. We who proclaim to be followers of God, must unfailingly abide by His words. He does not know what surrounds him. He plays to Washington, D.C. to march against legalized abortion. I think this is one of those things we, as humans, should not do and a college student. He plays to Washington, D.C. to march against legalized abortion. I think this is one of those things we, as humans, should not do.

Cristiane Likely

When I was about thirteen or fourteen, I used to know this girl who went to my parent's church. She had to be about seventeen or eighteen and her reputation of being a hooker preceded her. There really isn't any other discrete way to put it. She used to brag about her sex life and her various conquests to our little group of younger teens. Once one time she told us that she had had two abortions, because she wasn't ready to have a child and she wanted to go to college. I thought she was crazy and went about my way. Today she is married and has a son who's about a year old. She never went to high school and has since dedicated her life to the Pro-Life cause. I talked to her about it and she told me that not a day goes by that she doesn't think about the children she literally killed because of her own selfish needs. She told me how much she regrets doing what she did. All she can do now is to talk to young pregnant women and hopefully educate them about alternative options to abortion and pray to God for forgiveness. Maybe I am just too harsh, but how can anyone kill a little baby. If anyone ever held a sleeping baby in their arms and looked into its innocent eyes then you know what I mean.

My grandmother told me 'if you aren't ready to raise a child, then you aren't ready to have sex.' I truly believe that to this day. Once that sperm fertilizes that egg, it isn't just about the woman anymore, there's a life, that, because of your actions, you created.

Who's about a year old, there is also another side of this abortion issue. A friend of my sister was pregnant and she was hesitant about having the baby. But as the weeks went by she became more and more expectant and realized that there was indeed room in her life for another child (as she already had a three year-old daughter). During one of her pre-natal visits to the doctor she expressed to her how she had experienced abdominal pains and upon further testing she discovered that she had a tubal ligation (I think that's what they're called) pregnancy and she had to terminate the pregnancy because her life was in serious danger. Now I can understand that, and I don't think you will be condemned for doing that, especially when you already have a family that needs to be taken care of.

In all it's emotional significance, the issue of abortion is more than a legal one, it's an emotional and moral one. I believe that the moral laws I submit to transcend any legal ones, so I would personally never, ever have an abortion unless my life was in danger. I certainly don't recommend it to anyone. I believe anything that you do in life you have to answer for, so the best I can do is to tell you what I believe to be morally right and let you do as you please, because ultimately you won't have to answer to me or any other human being, only God.

The Battle of the Students find various ways to cope with premature

By LYNN BAWENES Accent Writer

ost people dislike their ID pictures taken last year, I cry," the junior said. "I was fine in high school-I don't know where my hair went. I like to blame it on the engineering program." Matt's experience is similar to that of other college-aged males prone to hair loss. This male pattern baldness typically sets in with the increased levels of stress during the college years.

Hair loss has many causes including infections, drugs, diseases, diet, stress and other factors. In almost 95 percent of the cases, it is a result of genetic predisposition. The condition named androgenetic alopecia is caused by androgen-a male hormone, but it usually runs through the maternal side of the family. For example, if a man's mother's father lost his hair, it is more likely that he will.

Researchers believe that in some people hair follicles begin to produce the enzyme 5-alpha-reductase. This converts testosterone into dihydrotestosterone (DHT) which attacks the follicles.

In men, this usually causes hair loss along the hair line or the crown, or both. For women, it is more likely to be a thinning of the hair all over the scalp since women produce an enzyme that can lessen the effects of DHT.

The treatment for hair loss has been a booming business in recent years. Products on the market claim to trigger growth and prevent future loss. The advertisements guarantee satisfaction with the products, but only the product currently licensed by the FDA to treat hair loss is Rogaine, available only by prescription and manufactured by the Upjohn Company. The FDA is likely to soon approve topical solutions for over-the-counter use, according to Chris Nafe, pharmacist at the Student Health Center at Notre Dame.

The main ingredient in these treatments is Minoxidil. It was discovered to cause hair growth in patients taking it orally to control blood pressure. When applied directly to the skin, it has been known to cause some regrowth and prevent future loss. The new hair is often downy and temporary and not normally covered by insurance companies.

The treatment for hair loss is Rogaine, manufactured by the Upjohn Company. Rogaine is available only by prescription and guarantees new hair, but for some patients it has meant slow additional loss.

"I started using Rogaine the summer before sophomore year," said Mark, now a senior. "The doctors were skeptical if it would help because I haven't seen much change, but others have noticed. I believe that it has helped me. I don't use special shampoo-I just apply the Rogaine daily. He has not experienced any negative side effects and doesn't use special shampoo." What does it do? This shampoo claims to unclog the scalp with a 90 percent success rate. It is all-natural and therefore does not have to be registered with the FDA. According to Bruce, salesperson #518, "It's your hair back or your money back." Results claim to be seen within 4-6 weeks.

How much does it cost? Typically this shampoo and conditioner run about $100 a month, but there are sometimes special if bought in month supply.

How to find out more: Call 1-800-449-3855

A closer look at the Rogaine Topical Solutions

What does it do? This solution when applied to the scalp has been known to stimulate some regrowth in patients. It is only approved now in a 2 percent solution but pharmacists believe that stronger solutions will be available soon. It takes up to four months to see results and if stopped the new hair falls out.

How much does it cost? A typical prescription can be $80 a month and it is not normally covered by insurance companies.

How to find out more: See your doctor or dermatologist.

Hair Pieces & Wigs

What do I do? Operations are performed to cut holes in the scalp for hair transplants in micrografts. Several sessions may be necessary and can be performed every few months. Dangers such as scarring and thinning of the donor area are things to consider.

How much does it cost? The surgery may cost $3000 a session and most people need several sessions.

How to find out more: See your doctor for more information.

CANCER SPEAKS

Watching the forehead grow

Hair loss. Dan Cichaksi words a man can hear. Probably the scariest words for Michael Bolton. Some of us are right at that age—or at least bordering on that age—when male pattern baldness can begin to rear its ugly head. HA!! Pat Patterson the pun. But hair loss is just another one of life's natural occurrences, like death and sappy songs from John Denver.

I, however, do not fear it. Probably because I am Italian and, by law, do not suffer from a shortage of hair whatsoever. I've got a good head of hair that grows almost too fast and a loving mother and sister who constantly inform me when they think I need to get it cut. My mother has taken to calling me "Brillo Head" when it gets too long and I begin to look like Kevin Arnold in "The Wonder Years." I don't understand her reasoning and their consistent nagging will eventually result in my coming home from South Bend having not had a haircut in months. I'll show them. I'll get a haircut from Harry Anderson in his "Night Court" days to the current one in "Dave's World." And it'll make me a few inches taller too.

They say your maternal grandfather is the sole determinant of what fate awaits men in the hair department. Someday I hope to have a daughter with a son just so I can be the one who gets to control his hair genes as he gets older.

The entire future of his head will be based on the life of mine. Anyway, Grandpa was a full-blooded Italian and a fully follicled individual. Based on this information, I'm set. I'll have a full head of hair uncontaminated by Rogaine or Monoxidil and without a transplant.

Better yet, if I follow the patterns of other redheads, I won't exactly go gray but change over to an impressive white instead.

Red's a good color for hair. It's rare and unique and only special selected persons are endowed with it. In my family it skipped two generations—coming from my mother's grandfather and not only is my hair red but so is my sister's.

I'll admit, though, that I wouldn't have it when my sister and I would be out with my mother at the A & P and people would come up and tell her we were a family of redheads. But I'm exactly gray, but change over to an impressive white instead.

We weren’t cutting and moving throw line and beat No. 16 field goal, scored 16 of their like we were the first 28 minutes. From my standpoint, as disappointed I might be, with the fact that really 28 minutes were the only kind of things away from us, yet we did hang on and we got some things that had to happen,” Knight said.

A steal and fast-break dunk by Jesse Sutliff brought the Hoosiers to 62-59, before a basket by Indiana’s Paul Gerlach.

The Hawkeyes led 107-93 in the second half. B. J. Watson hit 24-of-35 foul fouled, but it kind of happened that way. I was very happy with our effort — I just wish we had made more baskets than we did. Watson was a very key person for us.

“This season and 5-5 on the road. Patterson finished with 16 points for the Hoosiers.

For the game, Mujezinovic hit 16-of-22 on the line for 39 points midway through the second half. The Hawkeyes evened the Hoosiers hit 24-of-35 foul and Andrae Patterson each hit one for the Hoosiers. It wasn’t our game plan to get, but it kind of happened,” said Mujezinovic, a 47 percent free throw shooter for the season.

For the game, Mujezinovic 4-of-9 free throws. He missed his second foul shot with five seconds left, but Patterson rebuffed the ball up to their own free throw line with less than one second left on the clock.

This part of the game that I’ll pay the most attention to is that last 12 minutes, because we didn’t do the kind of work on the backboards we’ve got to have and we got to slowing down that little bit,” Indiana coach Bob Knight said.

Indiana’s last six points came like we were the first 15 minutes. The Hawkeyes evened the Hoosiers hit 24-of-35 foul fouled, but it kind of happened that way. I was very happy with our effort — I just wish we had made more baskets than we did. Watson was a very key person for us.

Brown now cashing in on being in right place

By JAIME ARON
Associated Press

DALLAS

Once his football career is done, Larry Brown wants to be an actor. He has a college degree in theater, and he's still taking lessons. But Brown's career is far from being finished. In fact, it's just taking off.

Brown began cashing in on his Super Bowl MVP award — and practicing for his second career — on Tuesday by kicking off a stay in New York with an appearance on "The Late Show with David Letterman."

On Wednesday, Brown will be on "CBS This Morning" and Conan O'Brien's late night show. Thursday, he'll do "Live with Regis and Kathie Lee" in the morning then at night sit courtside for a Knicks-Magic game. Once his football career is over, Brown said, he'll probably have another role: actor. But Brown's career is far from being finished. In fact, it's just taking off.

Keeping Dallas out of trouble

By MELISSA WILLIAMS
Associated Press

DALLAS
Police and educators will be taking extra steps next week to deter violence or truancy when the city honors the Cowboys with a Super Bowl victory parade.

Dallas Police Chief Ben Click said 800 officers will be assigned to parade duty. The procession is scheduled to begin at 2:30 p.m. CST on Feb. 7.

Members of the department's gang units also will wander through the crowd to identify gang members and keep them under surveillance to prevent a recurrence of the violence that marred the Super Bowl parade of 1993.

The Dallas school district is considering allowing students to watch the "Dr Pepper parade" on televisions in class so they won't leave early. Classes end at 3 p.m. throughout the district.

"We're working on some creative ways and police will have officers out looking for truants," said Robert Hinkle, spokesman for Dallas schools.

The downtown course will take the Vince Lombardi Trophy winners and their entourage south of Reunion Arena to Young Street and then to City Hall, which has been renamed "Cowboys Plaza."

A committee planning the celebration earlier selected Feb. 5, 6 or 7 as possible dates, but left the final choice to the Cowboys.

The team agreed to the celebration after defeating the Pittsburgh Steelers 27-17 Sunday in the Super Bowl at Tempe, Ariz.

The parade will feature players and cheerleaders on nine floats, marching bands and a float carrying the Super Bowl trophy.

Police on horseback will escort the players' floats.

The city will pay $100,000 toward the cost of this year's parade and corporate sponsors have ponied up $255,000.

The excess above the original $271,000 projected tab will not go to reduce the city's share—a fact criticized by City Councilman Paul Fielding.

Instead, it will be spent on extra like decorative floats, banners, balloons and free pom poms for fans along the parade route, said Robert Shaw, a Dallas businessman who is leading the parade committee.

Marketing the comeback of the Magic man

By E. Scott Reckard
Associated Press

LOS ANGELES
Magic Johnson has always been among the most popular superstars, but the stigma of the AIDS virus made him an advertising outcast. As he returns to the Lakers four years later, have times changed?

Spalding Sports Worldwide, which has had Johnson under contract since 1980, stopped selling inexpensive rubber basketballs with his name a year after he retired.

It's considering making a $100-plus Johnson commemorative ball, like those from All-Star Games, said John Doleva, Spalding's managing director for leisure products. A decision will wait until after Super Show, the sporting goods industry's biggest trade show, in Atlanta this weekend.

And watch for Johnson's gleeful smile and amiable manner to pop up in ads promoting his own line of bagged-priced sports shoes and apparel from MVP Sports. MVP, of which Johnson is part owner, will preview them Sunday at Super Show.

Roberto Muller, a former Reebok international president whose marketing firm is working for MVP, insists there's no connection between Johnson's return and the new products. A comeback was never mentioned when work on the product launch began halfway a year ago, he said.

"One of the things you can absolutely count on is his honesty and credibility," Muller said Tuesday, hours before Johnson was to put on his Lakers uniform to play the Golden State Warriors.

Muller added, though, "He should be wearing the shoes tonight."

Given the tremendous goodwill in Los Angeles among fans who remember the Lakers' "Showtime" glory days, regional advertisers might find a Johnson tie-in to be, well, magic marketing executives say.

But regional ads, "look of the trade" ads for basketballs and self-promotion are quite different from major campaigns for mainline companies.

"He won't do the one-shot thing," Rosen says.

"It's not so much the issue of HIV and AIDS," said Stephen Diasson, whose D&B Group in Washington, D.C., arranges sports tie-ins for clients like AT&T, Visa, Kodak and Marriott.

"It's how Magic was so open about how promiscuous he was and all of his escapades. That just opens up a whole can of worms." Blackman agrees, saying, "He didn't get this by falling down on a Boy Scout expedition. There are going to be people who say, 'Hold on here — how did he obtain this horrible disease?'"

He allows that some advertisers might get aggressive and break up their normal campaigns with a one-shot spot.

"If I was going to use Magic Johnson I would do it with a short, quick campaign — maybe use him with another player welcoming him back," Blackman said. "I'd run it for 30 days. That way, I minimize my risk."

Johnson shows little interest in anything except longer-term promotional deals, though.

"We won't do the one-shot things," Rosen says.

If big advertisers get spooked, it will be nothing new.

"We learned our lesson with Magic Johnson ad for Nestle Crunch after learning he had the AIDS virus," said Burns.

A spokeswoman said at the time the company feared Johnson, not the candy bar, would get the attention.

The company with the longest endorsement ties to Johnson, sneaker maker Converse Inc., let his contract run out in 1994 without airing another commercial after the news broke. However, Johnson also had poisoned the relationship by complaining publicly about Converse's marketing approach.

And Miller Brewing Co., which had signed Johnson for a "Think When You Drink" public-service spot, had second thoughts about the ad and dropped it.

By the first time Johnson "unretired," in a later aborted October 1992 comeback, he was reduced to the second tier of endorsements: trading cards, sports memorabilia, a print ad for a foodmaker with Larry Bird.

Pepper-idge Farm, which also had a long advertising relationship with him, briefly revived a TV ad with fans shouting, "Go get 'em, Magic," when he rejoined the Lakers in 1992. That comeback lasted three months, with some NBA players complaining they might be exposed to AIDS.

David Burns of Burns Sports Celebrity Service in Chicago praises Johnson's energy in promoting AIDS relief causes, but also thinks there's little chance many advertisers will dare hire him.

"Any celebrities that have a negative association with their name are less likely to be asked to represent a product," Burns said.

"And AIDS is so complex. Even someone with curable cancer, it's only the medical companies that would be really interested."
Storm
continued from page 20

The Irish struggled mightily from both the 3-point arc and the free throw line against the Mountaineers, hitting season lows in both categories.

Solutions to both problems need to be found before the game with the Red Storm.

“We had people who were wide open who did not get the basketball,” said MacLeod. “We also need somebody else to become a consistent outside threat beside Ryan Hoover.”

Peter Miller has shown some promise as that complementary player, but suffered through a miserable performance against West Virginia, missing all seven of his 3-point attempts.

However, the disappearance of Hoover from recent second half stat sheets is also a concern for MacLeod. Against Miami, Hoover tallied only two points after the break, while all 11 of his points against the Mountaineers came in the first half.

“Even with Hoover getting slowed down by an overplay (and they really sold out on him), we’ve got to do a better job of getting him the ball, because he’s really hot right now,” said MacLeod.

The Irish will need all the points they can get from Hoover to compete with the high scoring Red Storm.

St. John’s places three players in double figures, headlined by sophomore sensations Zendon Hamilton (19.9 ppg, 11.2 rpg) and Felipe Lopez (16.6 ppg).

“Zendon is the leading offensive rebounder in the conference, and they picked up another big, strong body, Mike Minniefield, at semester,” said MacLeod.

Keeping the Red Storm front court off the boards will be a key for the Irish, who turned in a stellar effort themselves with 23 offensive rebounds against West Virginia. However, interior foul trouble, especially for Matt Gotschi and leading scorer Pat Garrity (17.3 ppg), has been a problem.

Such tactical difficulties, however, can be corrected, and MacLeod is confident that his team’s attitude will not need similar fine tuning.

“This is a battling group,” he said. “They will bounce back.”

Bowl
continued from page 20

that we have the potential to beat them. We just didn’t show it out there tonight.”

Gruber’s second goal of the night, with 1:54 remaining, pulled the Irish to within one of the Falcons. However, Bowling Green survived an offensive fury in the remaining minute to drop the Irish to 8-15-3 on the season.

“Tonight was kind of indicative of the type of season we’ve had,” said Gruber.

“We played pretty well, but it seemed that they wanted it a little more than we did. It’s a shame that we couldn’t pull it out especially with Jamie Ling getting the mark.”

Ling’s special night ended with a hollow feeling, as the unwanted guests spoiled the Irish dinner party.

Now the Irish will have to crash the party at Illinois-Chicago on Friday night in order to keep out of the cellar in the conference.

Belles rebound to split pair of meets

By LAURIE KELLEHER

This past weekend the Saint Mary's swimming and diving team took on Kalamazoo College and University of Chicago. On Thursday they lost to Kalamazoo, but bounced back on Saturday by defeating Chicago, despite being short-handed.

On Thursday, the Belles personally improved from the previous weekend. While they had many good races, the Belles could not defeat Kalamazoo who was stronger in numbers. "We all improved on our swims," said Shannon Kelleher. "We lost many people to illness, injury, and travel. I'm glad that we held up as well as we did."

Kelleher placed first in the 1000 freestyle and third in the 500 freestyle. Also strong in the distance events was Allison Wright placing second, Natalie Cheeseman placing third with a personal best time of 2:10, and Jen Mitchell placing fourth.

Two days later the Belles defeated the University of Chicago. Among the top finishers were Smith, Kelleher, Rose, Cheeseman, Wright, Mitchell, Alyssa Caneally, and Tara Thomas.

The win was impressive because of the relatively few swimmers at the meet and the grueling meet they had just two days earlier. This weekend the Belles will have their final dual meet before Championships.

"I was afraid that I wouldn't finish," said Wright. "I was glad to see that I got a personal best time.

Katie Rose placed second in the 400 IM and the 100 back. The Belles were also strong in the 200 freestyle with Sara Gillen placing second, Natalie Cheeseman placing third with a personal best time of 2:10, and Jen Mitchell placing fourth.

Three unanswered goals bowl Irish over

By MIKE DAY

They unfolded their napkins and licked their chops. The Irish were just getting ready to sit down to enjoy the sweet taste of victory when a Falcon swooped down from the sky and snatch ed it away.

With the smell of upset permeating the Joyce Center Tuesday night, the Notre Dame hockey team bolted to a 2-1 lead after a dominating second period. However, just as the Irish settled down for a late dinner, Bowling Green barg ed in and ruined the meal, reeling off three unanswered goals to capture a 4-3 victory.

"We came out a little flat tonight, and they seemed to capitalize on it," said senior defenseman Garry Gruber. "We felt that we have the same talent level as them, but they didn't make the mistakes that we made when it counted."

The loss put a damper on a night in which senior center Jamie Ling made Notre Dame history. The team leader in points and assists recorded his 150th career point Tuesday evening, becoming just the 13th Irish player to accomplish the feat.

"It is a great feat for him, and he really deserves it for what he's done in four years here," said sophomore left wing Steve Noble. "He has worked so hard to achieve it, so it's kind of a letdown that we couldn't pull it out for him tonight."

Ling's accomplishment came early in the second period with the game knotted at zero. He combined with junior left wing Tim Herberts to set up Gruber for his fourth goal of the year. For Ling, it was his 30th point and assists recorded his second goal of the season.

"It's a great accomplishment for him," said Gruber. "He has really earned it, and the team has rallied behind him this year. It is something that he deserves for the kind of effort he gives night in and night out."

After Bowling Green tied the game at one, the Irish answered back to take a 2-1 lead. Just as he has done throughout his career, Ling found the right open man at the right time. On this occasion, the recipient was defenseman Ben Nelsen, who recorded his second goal of the season.

With the Irish faithful already thinking about dessert, the Falcons swarmed down on Notre Dame like a pack of hungry vultures. Early in the third period, they erased all hopes of an Irish upset with three scores against goaltender Matt Eisler in just a five minute span.

"We had a little bit of a letdown, and they took advantage of it," said Noble. "We knew we were going to start in conference play, we needed a win from the road trip."

"I don't think that confidence is going to be a problem," he explained. "We're going to get revved up and go right after St. John's. You can't just put your head down and say 'Wow is me.'" Worful would be an apt word to describe the Irish shooting of late, though.

In the eye of the Storm

Notre Dame travels to St. John's tonight seeking a victory to pull out of their current tailspin

By TIM SEYMOUR

As Notre Dame embarks on its second most arduous road trip of the year, the timing could not be worse for the Irish, who desperately need a win to break out of their recent slump.

Notre Dame (6-10, 1-8) travels to Madison Square Garden tonight to take on St. John's (8-8, 2-6) in the first of three consecutive road contests that may define the Irish's season.

Unfortunately, they will find a talented Red Storm squad that is finally beginning to function cohesively after a disappointing start.

Over the weekend, St. John's realized its potential for the first time, upsetting No. 9 Georgetown 83-72 in the Garden.

"They are a team that is making a move after struggling early," explained Irish coach John MacLeod.

Notre Dame is a team currently heading in the opposite direction, following a close loss at Miami last week with a disappointing outing at the Joyce Center against West Virginia on Saturday, falling 69-59 to one of the more beatable Big East squads.

All of which makes it imperative that the Irish come away with a win from the road trip. However, despite the rocky start in conference play, MacLeod does not expect his charges to give up the fight easily.

"I don't think that confidence is going to be a problem," he explained. "We're going to get revved up and go right after St. John's. You can't just put your head down and say 'Wow is me.'"
