Senate Defeats Quotas, Approves Trial Stay-Hall

by Dan Murray

The Student Senate passed the experimental stay hall proposal but rejected a quota system Monday night. Only four senators voted against the experimental stay hall for a virtual tie. Students in only six halls approved the proposal, six halls against, and one a virtual tie. The halls favoring the experimental stay hall system were Walsh, St. John, Lyons, Zahm, St. Edward’s and all five of the Prebys halls. Only Pangborn joined the five freshman halls to favor the quotas.

The student body Monday, the senators from Dillon, Fisher, Sartain and Pangborn voted against the experimental stay hall proposal while Nick Sordi and seven freshman senators supported the quota system.

Science, Engineering Schools Plan $12.7 Million Expansion

by Earl Guertin

Plans for a $12,700,000 development and building program for the Colleges of Science and Engineering, which could begin in 1965 and end in 1970, were announced last week by Dr. Frederick Rosini, Dean of the College of Science.

The center around a proposal submitted in December to the National Science Foundation under the National Science Development Programs. The proposal, a two-year study to consider and evaluate, asks for $5,500,000 in NSF funds for the next five experimental years. Notre Dame is willing to add $7,200,000 from other sources to the NSF grant.

Dr. Rosini stated that the proposal "will be implemented in any case," even if the proposal to the NSF is not accepted.

"A new seven story life science building to contain the biology department and Lohud Laboritories will be erected just north of the Chemistry Center at a cost of $4,000,000. South of this, a new engineering building, containing chemical engineering, civil, engineering and metallurgy departments, will be constructed to include removal of the present Engineering and Chemical Engineering wing of Newman Science Hall."

The plan calls for the addition of several members of the faculty to continue programs in science and engineering. Studies will also provide additional for faculty positions for a $3,000,000, 10-year plan.

"Our average of 37 per year for the last three years in science and engineering and our plan is to continue that in the next five years."

New Orleans Goes North: Mardi Gras Begins Today

Tonight at 7:30 p.m., the world's stiffest competitor for the fame of New Orleans opens at the Stephenville Center, Notre Dame's Mardi Gras, with its four nights of gambling, dancing and carousels, is on.

Hidden in the revelry, which is traditionally billed as the third largest college weekend in the country, is its main purpose of earning $25,000 for charity.

Holy Cross Missionaries, the mainstay of the Student Senate by Student Government and a general university fund for scholarship are primary among these projects.

Tonight's program will open until midnight Wednesday at St. John's Club goes after the "loose money" of the opening sessions and as students arrive on the campus they hope they are "inexperienced" students, Thursday will see a pre-45th Street Ballroom (dining hall) from 9:30 p.m. to 11:30 a.m. on Friday, Carnival activities in Union will get a night's rest. It will be followed by the Mardi Gras Concert at the Morris Civic Auditorium from 2:50 to 5:00 p.m. The Serceny Singers team up with the Oscar Peterson Trio Tricolors.

Except for a 6:30 to 7:00 p.m. break for supper, the Carnival will start immediately after the concert and run until midnight Saturday.

Prime teethers for the Saturday night session will be the drawings for the Grand Prize Ford Thunderbird, a Ford Mustang for a student who had bought tickets for two trips for two to Bermuda during the Spring break. The drawing will be at 11:50 p.m. Second drawings, for another Mustang and the other trip to Bermuda, will come the following Monday night. They will also be at 11:50 p.m.

Sunday, a Community Breakfast calms the weekend's pace from 10:30 to 10:50 a.m. in the North Dining Hall. This will follow a 5:00 p.m. Mardi Gras Mass in Sacred Heart.

Last night for the lost dollar comes next Monday when the Stephenville Center Carnival returns between 7:30 p.m. and midnight.

The Carnival will have approximately 30 booths, each sponsored by a different campus organization. Gambling will include everything from black jack wheels of fortune. Luck teamed up with bagels doughs worth 10 cents each will be used for the gambling.

Also providing its own entertainment, the Carnival will sprout nightly on minis by its male can-can dancers, and a rock and roll band.

Entertainment at the Mardi Gras Ball will include the Peter Palmer Orchestra and Voices in}

All forms of student artistic talents, including artistry, continue in the con­struction of carnival booths. But preparations are now complete, and the date will be rolling tonight in the Stephenville Center as the North Dining Hall never shut down.

A Booster Shot

As journalists and publication staff members we salute the journalism students sponsored by the Scholastic and the Dome over the past week. It was a needed shot in the arm for Notre Dame's writers, editors, and those in related areas.

This is the kind of stimulation that our campus publishing world can stand and so badly needs. We honestly hope that other such programs will follow on an annual basis, maturing enough to include all the campus support it deserves, garnering every bit of enthusiasm for good journalism that already exists.

LETTERS TO THE EDITOR

Dear Sir:

This letter is being written with the assumption that the complete new stay Hall system will have been passed by the Student Senate on Monday night, I have no quarrel with the stay hall experiment using three stay halls. It seems to me that this method of determining the value of the stay hall system has been proposed explicitly as an experiment, the other halls should not be included until the results of this initial experiment are in. It will keep the stay hall system on an experimental basis as it is claimed to be.

An upperclassman, as much as, should, I think, have certain privileges. The reason only is that privilege which he has at present in the right to choose the hall, and perhaps to reside little longer than 364, in which he will reside for the entire college year at Notre Dame. The quota system proposed seriously impinges upon this privilege.

I think, therefore, in a literal sense, the plan is an unfair one. It is decided that the recent senator, at least, is a candidate for the upperclassman, as such, this in-

Folk Festival Winners Return

The Collegiate Folk Festival will take place on Saturday, March 6, in the Stepan Center. There will be two sessions, a preliminary from 1:00 to 5:00 and finals from 7:00 to 11:00. Both male and female soloists, trios and quartets have entered the competition. Several winners from last year's competition are returning this year. Included in this group are Don Comours, from Notre Dame; Nancy Kena, from South Bend; the Poor Winds, from Notre Dame; the Purple Onion; the Hungry 11; and Patzy Johnston, from Milwaukee.

For Student Gabfests

A new phase in student-faculty relations is being introduced by the Student Government Academic Commission in the form of a series of student-faculty discussions "Gabfests." The format of these "Gabfests" will be strictly informal, with Notre Dame professors and their wives hosting groups of students and other professors in their homes. The groups will be comprised of students from St. Mary's and Notre Dame, and will be limited to approximately twenty members. The object of this program is to establish greater contact between the students and faculty outside the classroom. The "Gabfests" will be started by informal formats and with no predetermined topic, will hopefully range over the gamut of conversational topics, thus enabling these two groups to see what the other thinks about issues pertinent to both. Opening in February, a full schedule of these "Gabfests" is planned to get under way. They will be held primarily on Saturday evenings and will include professors representing each of the schools of the University. Anyone interested in signing up for a "Gabfest" is asked to send a postcard listing his name, address, and major, to Jim Blades, 204 Lyons Hall.

Unions, Management Meet Here Friday

Franz A. O'Neill, Jr., will be one of three principal speakers at the thirteenth annual Union-Management Conference Friday, O'Neill, a member of the National Mediation Board, will discuss "New Trends in Transportation Bargaining" at the opening session of the conference in Washington Hall at 10 a.m. This will be the second Union-Management Conference speech for O'Neill, who previously addressed the conference in 1954.

Profs to Open Homes For Student Gabfests

with the keynote address and Dr. George Shuster, assistant to the President, will speak at the formal closing, Kee says that he hopes to have a spokesman from Washington to speak on U.S. Foreign policy in Latin America, Other organizations cooperating in sponsoring the forum are the Pan-American Club and the National Student Association. Financing comes from the administration and from the Ohio-Indiana region of NSA, of which Al Vallenmara of Notre Dame is chairman. The forum will be the occasion for regional conventions of two student groups. The NSA region and the midwestern region of CIASP, the council of all groups sending student volunteers to work in Latin America, will both meet in conjunction with the conference.

The NSA region and the midwestern region of CIASP, the council of all groups sending student volunteers to work in Latin America, will both meet in conjunction with the conference.

500 Expected to Attend International Forum

Notre Dame will sponsor its Annual International Forum this year on Latin America on April 2 to 4, said Kee, International Commissioner, expects over 500 students from the 450 schools invited, Kee and Raymond Murphy, chairman of CILA, are the co-chairs of the Forum. The two reasons for the forum, according to Kee, are to let other schools know that Notre Dame is interested in international activities, and to awaken and further this interest on campus. The program of the conference will consist of panel discussions on "The Church and Social Progress in Latin America," "Political Change in Latin America" and "Economic-Environmental Problems of Latin America" there will also be a series of student discussions. Speakers will include Rev. Philip MacGregor, S.J., President of the Catholic University of Peru, Dr. Charles O. H. Dr. George Shuster, President of the Rockefeller Foundation, Notre Dame faculty members participating in the discussions will be Dr. William D'Aveni, Dr. Frederick, Dr. John Kennedy, Chairman of the Latin America Area Studies Program, and Dr. Samuel Shapira, Rev. Three ROTC Units

Begin Co-operation

The three ROTC units at Notre Dame are beginning a phase of closer co-operation. Two positive results will be an exchange of military science professors and the initiation of saluting cadet officers between the services. In the past, all ROTC cadets have been required to salute cadet officers of all three services, but now this custom will be extended down to the cadet officers.

However, this practice will not be emphasized in the main quad during the walks at that time.

Tutor Program Nets 60% Grade Increase

By Ray Foery

According to the South Bend Community School Corporation, 69% of the grades of all students taught in the Notre Dame Study Help Program showed an increase, Only 32% remained the same. These results were revealed at an evening ceremony held Wednesday for all Notre Dame and St. Mary's nurses.

The tutoring program, begun last year as a small group project by Blue Circle member Brien O'Brien, now covers over 200 student teachers helping children from 16 South Bend schools. Comments from South Bend teachers have all been encouraging, most noting a rise in students' class participation, a better relationship toward aiding and an improved academic attitude.

Dr. James M. Lee of Notre Dame's education department has announced that the tutoring program is part of the Johnstown War on Poverty, in the very real sense that a well-educated community is a well-endowed community. The importance of the program has been realized to the point that federal aid has been asked, and is expected, to help finance some of the expenses that have arisen as the project has grown.

An improvement in the Notre Dame - South Bend public relations was revealed at Dr. Luther Dallmayer, South Bend school teacher and former National Science Fellow, Dallmayer told of an increased awareness in South Bend of the work of the nurses and of a deepening appreciation of the program.

Both speakers mentioned, and O'Brien reiterated, that the tutoring program now stands at a point where with more work and devotion, vast results can be realized, "It is a challenge," says O'Brien, "that can be met only by continued efforts by Notre Dame men and St. Mary's counselors across the road."

New Programs Provide Coffee, Meals with Pros

A three-pronged attack on the problem of student-teacher relationships is now in full swing, announced by Terry Daily and Dave, David Burrell, C.S.C., are superheading the programs.

The first permits students and faculty to lunch together in the dining halls.

Another utilizes the trustee's room of the Student Union and arranges lunches between faculty members and students or other groups of students.

The third is a daily coffee hour in the faculty lounge, where faculty are given coffee from 8:30 to 9:30 p.m. for socializing and study.

Campus clubs, organizations, or even informal student groups are now being invited to invite the trustee's room of the South Dining Hall for lunches with selected professors.

Reservations must be made for a certain day of the week and submitted to the blue circle. Coffee hour is scheduled for tonight.

A meeting to outline the procedure is scheduled for tonight.

The program will conclude with a presentation of the second annual Peace Lecture, to be delivered by Dr. Donald W. Jorgenson, president of the University of Chicago.

The program will be in the main section of the new administration building.

Arrington Tops At Wheaton

Dick Arrington, Notre Dame's captain and co-captain of one of the two or three best college heavyweight wrestling teams in the country, was named the outstanding wrestler at the two day Wheaton College Invitational Wrestling Meet last Friday and Saturday.

Arrington, whose record is now 14-0 for the year, simply overwhelmed his five opponents—he needed only a total time of 1:06 to make all five pins. He pinned wrestlers from Augsburg College, Lake Forest College, Carthage College, McMurry College and Wheaton. Arrington had two "rough" matches in the first round he needed 2:48 to pin his man and in the final match Wheaton's top heavyweight "extended" Arrington and managed to survive 2:10 before succumbing.

One only other Irish wrestler advanced beyond the first round. He was 167-pounder Jim Bowers who dispatched Mike Papenke of Carthage in the first round, but lost a decision to Lew Brans of McMurry in his second match.

In last Wednesday's dual meet at Bowling Green it was much the same story. The N.D. team was defeated 33-5, but Arrington pinned his man in 7:50. No other Irish wrestlers won their matches against Bowling Green. The NCAA championships will be held in Laramie Wyoming March 25-27, and Arrington has got to be one of the favorites in the heavy weight division. Our money is on him.

Arrington Tops At Wheaton

Bowling Green

A petite, brunette Bowling Green co-ed somehow misread a blackboard warning, stating that the ladies dressing room would be turned over to the Notre Dame swimmers. When the first swimmers to the locker room saw her, they sided her to stay. She uttered a few words of embarrassment and quickly departed. Many of the Irish tailenders should have taken her cue and also have left, as Bowling Green swamped the Irish 55-1/2-39-1/2 last Tuesday.

Two record-breaking performances were turned in by Junior Jack Stoelz in the 200 and 500 freestyle events. In winning the 200 free, Stoelz broke the Bowling Green pool record with a time of 1:45.7. He established a new varsity record in winning the 500 race. His time was 5:20.5, nearly 5 seconds faster than Story Culhane's old record.

Stoelz commented on how great it felt to own a Notre Dame record, "But," he continued, "it would have been more significant had we been victorious."

The only other individual winner was driver Tim Keenett, after Kennett's victory, Notre Dame trail...ed by just two points. 23-31. Bowling Green swept the meet three events to take a commanding 46-23 lead.

Notre Dame ended on a high note by winning the 400 yard freestyle relay. The Irish quartet of Paul Drucker, Ted Egan, Chris Stieger, and Rocky Garcia came within a tenth of a second of eclipsing the meet record for this relay.

NCAA Bid

Reynolds finished second in the downhill and tied in the cross-country. Geoff Bray, Bill Shepp, Dennis O'Neill, and Bill Dione each scored high for the Irish in the four events. Thirty-seven skiers representing eight schools participated.

Skiers Earn NCAA Bid

The Notre Dame Ski Club finished third in the NCAA midwest regional ski championships last Sunday, Monday and Tuesday in Duluth, Minnesota. The Irish and the two teams that finished ahead of them, Michigan Tech and the University of Minnesota, all earned bids to the NCAA championships that will be held in Yatahi, Washington, on the last weekend in March. N.D.'s captain Steve Valler won the "skiometer award" as the skier who performed best in all four events. Bill Ritter won the downhill race and Larry

WANT "BOSS" TO KNOW YOU'RE AROUND?

Here's what the new 2-year Army RotC program means to you

A new Reserve Officer Training Corps program permits selected college sophomores to be commissioned as Army Second Lieutenants in two years. You can do this by:

1. Completing a special 6-week summer camp between your sophomore and junior years.

2. Completing the 2-year Advanced Course at any school offering the ROTC program.

What are the benefits of Army ROTC training?

- Management training for success in civilian or military life.
- $40 per month pay while attending the Advanced Course, plus uniforms; pay and paid travel for summer camps.
- Eligibility for free flight instruction at selected schools leading to a private pilot's license.
- A commission as an Army officer, with all of its accompanying benefits, including higher income, greater opportunity for advancement and officer status.
- The personal satisfaction that comes from knowing you're trained to assume leadership responsibilities.

These benefits will put you a step ahead of other college graduates and will pay off for the rest of your life. You owe it to yourself to investigate these new opportunities.

For complete information, see the Professor of Military Science at your school or send the coupon below.

U.S. ARMY ROTC

Fencers Stop Big 10 Rivals

The Irish fencing team took two more meets this weekend to run their record to 7-1. In a three-way meet held at the fieldhouse, the Notre Dame swordsmen brushed by Ohio and Michigan State by identical 12-1 scores.

The scores, however, do not reflect the performances of either meet, Notre Dame led Ohio State after the first five bouts and there did not seem to be any doubt about the outcome. In fact, Coach DeCino told three substitutes at the end of the meet which resulted in the final score being closer than it otherwise might have been.

On the other hand, the Michigan State meet went right down to the wire. The Irish held a slim win-losing lead going into the last six bouts. Things could not have been much tighter as both teams went off their benches and enthusiasm seemed to conquer for their team-mates. The Irish then took two of the next three bouts and all-A-Merican Bill Ference, determined to vindicate himself after losing to a talented enemy, roused the Irish to a contested call by the director in his description of the meet.

The annual Interhall indoor track meet will be held Tuesday evening at 6:45 p.m. in the fieldhouse. All undergraduates except members of the freshman or varsity track squads will be eligible to compete.

Events to be held include 60-yard, low hurdles; 220, 440 and 880-yard runs; 100, 200, 400 and 880-yard runs; relay; broad jump, long jump, and shot put. Individual medals will be awarded in the first, second and third places for everyone who enters each event, and points won at the meet will count towards the competition for the President's Trophy presented annually to the hall winning in Interhall athletics.

Entries for the track meet will be accepted anytime at the Interhall office on the second floor of the fieldhouse or on Tuesday night before the meet.

On March 17th, Interhall handball tournament, which will begin next week, must be submitted to the Interhall office before Tuesday, March 19. There will be both the open and men's tournament and students may enter either of both. Winners will receive medals and their tallies will be credit-

Sports

"Upsetting old standards of nose-covered sports writing, we claw into encounters with the whirling worlds of the Irish gridiron, harriers, grappling, swordsman, hoopoe, sluggers, tag men and net men."

devils halt irish

by Quintin MacManus

The Chicago Stadium jinx was not to be denied Saturday night as the fifth ranked Blue Devils of Duke accosted the Fighting Irish 50-48.

Despite the reports of the WORJ announcers who were deceived by a defective scoreboard, Notre Dame was never in the lead but until the final minute, they were never out of the game. Duke, however, managed to score big when it needed big, and ND's "catch up" efforts fell short again and again.

A portion of what was to come occurred early in the game. With the score 17-14 and the Notre Dame apparently on the move, Duke netted a quiet 6 points to put the game temporarily out of reach. It was a feat they were to perform with devastating regularity as the game progressed. The Irish, however, came struggling back, and with the aid of some fine follow-up rebounding by Larry Crossfield and by Jai Milligan, the Irish climbed within a point of Duke with 15 minutes gone in the half.

It was a close, as they would get before intermission. Duke again found the points it needed to stay ahead, scoring 6 in the last 20 seconds of the half for a 33-24 advantage.

The second half followed the pattern set in the first. Aided by the superb shooting of John Read, who hit 6 of 6 from the floor in the first 8 minutes, the Irish tied it up at 66 with 61/2 gone. For several minutes of play it was anyone's ball game, but the old memories of sluggish defense and poor ball control returned to haunt Notre Dame.

The Blue Devils again pulled in the lead, and this time they were never caught. With 2 minutes to go and the score 97-85, John Dee decided to at least salvage some game experience for his bench, N.D. in now 16-13. They play Yenery's Tonight in Madison Square Garden and DePaul in Chicago on Saturday. The final game of the season will be with Creigh-

Rasumussens

"We try to present a neat, appealing and precise lay-out"

"That is needed is a yearning to stimulate the manipulations of cerebral impulses to a sufficient degree of activity so the experiences of our environment may be subject to specific and the appropriate alterations, remedies and much desired improvements can be recom-

If any of these lucid descriptions appeal to your interests let the Voice know about it.

Brief letters of application, containing your journalism background, class and reason for wanting to join the Voice staff, should be mailed to The Voice, PO Box 11, U. of Notre Dame. Deadline is March 14. 1965.

F. B. Morse, P. O. Box 11, U. of Notre Dame. Deadline is March 14.
