No Bill From Hotel: N.Y. Damage 'Slight'

by Chuck Kishba

Don Potter, chairman of the Blue Circle Student Trip Committee, announced that no bill will be charged by the Governor Clinton Hotel for student trip damages. Potter said that the absence of a bill indicates the trappers didn't try very little, if any, damage to the hotel. He also stated that the hotel staff believes the trip went reasonably smooth with the vast majority of the students cooperating well.

In reference to last week's editorial in the SCHOLASTIC, which accused the hotel of negligence, Potter said that the opposite is the case. "The major problem is that the hotel was forced to open around the four-day guest of Notre Dame," Potter said. "The hotel staff has been educated for tonight to discuss the complaints, and the hotel staff will be present at any of those situations as those of last weekend.

Major Allen has invited the student's Division of the South Bend-Mishawaka Area Chamber of Commerce to visit the Notre Dame student leaders.

The South Bend city engineer is planning a study proposal to install more street lights on Notre Dame Avenue north of South Bend Ave., the mayor reported.

He also announced that the South Bend Police Department "has been successful in clearing three of four incidents by way of confessions, positive identifications, and apprehensions."

Allen also noted that the fourth attack would be within "a matter of hours." The mayor apparently had not been informed of an attack late night Sunday on student Paul Paradis.

The South Bend Mayor said he would take his decision on increasing police protection on the basis of "reason and logic and not emotion."

**Senate Chosen**

The first election of senators from the experimental senate chairs highlighted campus-wide elections held Tuesday.

A minor protest occurred in Farley where former Sophomore Class Senator Joe Perilii was defeated by Senator Brian Gore. Coachman, caught up pretty well to votes for Perilii in 134.

In Alumni hall Senator Paul White won comfortably over Thomas H. and VOICE Associate Editor Bob McFadden. The Dillon Hall contest went to Bill Pendergast over Rich McCracken, 138-46.

Several bills had uncounted sources on campus. Bulletin Board was elected unopposed in Lyons, where he apparently lost to John McIver for "Stop Laureate." Mike McCreary can unseat them in Zaten, and Richard Mann in Pangborn.

Dr. Howard Hall Jeff Mahura narrowly defeated Michael Manning, 72-70, Stamford Hall lost Michael Phillips with 40 votes over David Ryan with 70 and Frank Bledsoe with 42. Other results include, St. ELPES: Bob Stolarski, 61, Ray O'Donnell, 99, and Crum, 34; Walsh, Dennis O'Toole, 44, and Ron Basel, 39; Fisher, Robert Dodson, 67, Ralph Stas, 66, Sorin, Robert Maloney, 51; Jordan, Ken Lins, 7; Manhattan, Ron Somers, 23; and Jack Abbott, 55.

**Ex-Gang Leader Will Speak Here**

On Sunday, October 31, former Minnesota gang leader Peter Will speak at 8:30 p.m. in the Notre Dame Assembly. The program is similar to the "Youth Programs and Problems of the Federal Government in the 1960's" he planned.

According to Dr. McGuire, there is an increasing need for the part of all universities of the political and social development of the community. There is an increasing awareness of the problems associated with the general social development of the community. Today, he says, the university must be open to the largest possible number of nations and their problems.

All these things have increased the demand for the growing university. Thus the University of Notre Dame's interest in the office of Vice-President for Special Projects, not to mention the understanding, not only of the present administrative load of the University but the involvement that can be handled by this office.

Organizations Called

"The question of insurance," Father McEnaney said; "the question that had not been carefully attended to, and the question that came to the fore it seems there is the 4 p.m. on Tuesday for an accident involving one of the freshmen in the Freshman year. "This problem must now be studied by Dr. McGuire said, "before any official action can be taken."

New Bus Route Plan Approved

The long-awaited shuttle bus between campus residences and St. Mary's will begin operation within two weeks, according to a statement submitted by the student government. In order to avoid the legal difficulties regarding the bus, the plan is for Washington Street and the road will be off the main road. The fare on this shuttle route is set tentatively at $100.

Frosh Lecture Set

Dr. Matthew A. Flinnman, President of the American Institute of the REVIEW OF POLITICS, will speak on "Outside the Classroom" in the Memorial Library Auditorium at 7 p.m. on Tuesday, October 25. The professor's lecture is the first in the University's annual series of Frosh Lecture Series and is open to all students.
The Student-Faculty Community

Part of the problem of attitude might be ascribed to the depersonalizing atmosphere of the modern mechanical university. Also analyst of the present system of higher education conserve treasured corner of professionalism on the part of both students and faculty members.

It seems, after informal discussion with members of the faculty that they are well aware of the evils of depersonalization. It affects them as it does the students. The greater number of them, yet they are ready to admit of a spirit of community here, a difficult thing to describe, but something very real. To examine some of the problems, so that the disinterested, to pay the attention to the spirit we feel, are the purposes of this editorial.

Professionalism, a second aspect of our problem appears another reaction to the modern situation. Professionalism in the student is evidenced in the class schedule; in the vastness of modern knowledge it feels that our modem, quite natural; it seems that these are not the words of the future.

Why should a traditional British club have a medallion on the back?

Because it looks better from the front.

The point of the tie always stays centered, the edges always neat. The authoritative look of a tie. The tie is really a symbol of an authentic British club insignia woven into the finest imported silk; discreet and well-tied for the discerning gentleman.

RESILIO

HIGGINS and "DACRON" make the Campus scene!

HIGGINS'acks of 55% DACRON polyester, 45% wool blend (as shown) make a winning combination on any men's Great Plains styling, plus the built-in neatness of "DACRON". Other colors are made of 70% Orion acrylic, 30% sisal wool, in special blends of "DACRON" and "Orion". Tailored in regular, Fleece and Trim Fit plain front models. At your favorite stores everywhere.

Resilio Ties at knowledgeable retailers, or write Resilio, Empire State Building, New York City.

P. S. All Resilio Ties have a medallion on the back.

Innsbruck Students Report

We tickled back from our first plunge into student travel; eight days and seven nights we had been scattered throughout central Europe. Two by two we returned to Innsbruck with varied, but equally fascinating stories. Some of us ventured far north to Copenhagen or Berlin, others explored themselves to village life, raced through the Black Forest, or followed the Rhine and Danube. We had a big menu, one which easily satisfied every appetite. Tired bodies and dusty clothes settled themselves in the Pension, ate their first hearty meal in a week, and belted in a cool bath.

The Pension, a four story hotel overlooking the Tyrolean Valley which surrounds the Olympic city, will also serve as Club, library, and classrooms for the course taught by Professor Lordi and Father Dolman.

Raging battles of cattle on the slopes behind us, and the foreboding Italian wind raging through the valley set the stage for our initial stay. Registration took place the morning of the fourth. We set out in a group for a four-day stay in Vienna on the eleventh, by Harold Clark

FOLLOW THE TEAM WITH SATURN AIRWAYS!
DEPENDABLE GROUP CHARTER FLIGHTS ANYWHERE IN THE U.S. AT LOW, LOW FARES

Why miss those big "easy" games? Get up a group and join the team on its out-of-town games. See fifty SATURN charter flights! SATURN, first choice of college groups the country over, is capable of speeds better than 2,000 mph, the YF-12A is the hottest aircraft around.

Now Maj. Walter F. Daniel, test pilot for the YF-12A, answers your questions about the world's fastest manned airplane and America's Aerospace Team.

(Maj. Daniel, a test pilot since 1954, is a member of the Society of Experimental Test Pilots. He received a B.S. degree in Aeronautical Engineering from the University of Oklahoma. In February 1962, he set world class time-to-climb records in a T-38 jet trainer.)

Is the YF-12A the world's fastest manned aircraft?

It certainly is. On May 1 of this year the YF-12A (formerly known as the A-11) exceeded the world absolute speed record from the USSR. It was clocked at 2,052 mph over Edwards Air Force Base.

How big is the YF-12A?

The exact dimensions of the YF-12A have not been released yet. But it's approximately 100 feet long, with about a 30-foot wingspan. That's half again as big as our present intercontinental.

Is the Air Force training many men as pilots these days?

Yes, very definitely. In spite of all you hear about unmanned vehicles, the human pilot is still very much in the picture. As a matter of fact, the Air Force pilot quota is on the increase.

What other kinds of jobs does the Air Force offer?

Since it's one of the world's foremost technological organizations, the Air Force has plenty of openings for scientists and engineers. There are also many challenging and varied administrative-military positions.

What do I have to do to become an Air Force officer?

Air Force ROTC is the best way to get started as an Air Force officer. The new two-year Air Force ROTC program makes this method available to men who have already completed a year or two of their college education. For college graduates, if you did not take advantage of ROTC, you can still get started through Air Force Officer Training School (OTS), a three-month course open to both men and women.

Can I keep up my studies while I'm in the Air Force?

The Air Force encourages its men and women to continue their educations. For instance, you may qualify to study for a graduate degree during off-duty hours, with the Air Force paying a substantial part of the tuition.

What kind of future do I have in the Air Force?

A bright one. As we move further into the A erospace Age, the Air Force is going to grow even more important. And you can grow with it.
