THE UNIVERSITY was founded in 1842 by the Congregation of the Holy Cross, and was chartered by the Legislature of the State of Indiana in 1844, with power to confer all the usual degrees.

The College Buildings are on an eminence, near two small, picturesque lakes of pure spring water, in the midst of the fine and healthy farming region of the St. Joseph Valley, and scarcely a mile from the river. The College can easily be reached from all parts of the United States and Canada, by means of two great trunk lines of Railway,—the Lake Shore & Michigan Southern, and the Michigan Central; the former passing within a mile of the College grounds, and the latter connecting at Niles with the recently built Railway between that place and South Bend, which runs within half a mile of the College. At the Michigan Southern Railroad depot, South Bend, omnibuses or private conveyances can be obtained.

The Buildings are well adapted for the purpose for which they were erected. The Study-Halls, Class-Rooms, Dining-Rooms, Sleeping Apartments, and Recreation Halls are commodious and capable of giving accommodation to five hundred resident Students.

THE SITE

of the College is one particularly adapted to the improvement of the Students. It is secluded and healthy, and constant care is rendering a spot naturally beautiful still more attractive by art and good taste.

We state only the advantages of

HEALTH AND RETIREMENT

that are enjoyed by the inmates of the Institution;—a description of all that pleases at NOTRE DAME would take us beyond the limits of these pages. We prefer to give a hearty invitation to all our patrons, and to all who think of confiding their sons to our care, to come and see and judge for themselves.

The advantages arising from

THE RETIRED POSITION

of the College cannot fail to be appreciated by parents who have at heart the education of their children; and even the careless student when once interested in his studies soon finds out the benefits he can derive from an uninterrupted
attention to class and study. Though secluded in a great measure from the busy world without, yet the number of Students and the extensive College grounds give him a world of his own, in which, what with Class, Examination, Notes, Literary Societies, Religious Associations, Base-Ball Clubs, Boat-Clubs, Dramatic and Musical Entertainments, he finds full enjoyment and amusement, and companions, ideas and sentiments that all concur to fix his mind on his studies and establish him in habits of piety, application and order—the influence of which will be felt during his entire life. He breathes for a few short years the atmosphere of order, of regularity in all that he does; of profound application to studies, broken only by healthy and regular recreation; and certainly, in our times, when serious and solid studies are becoming so rare, when all kinds of inducements to waste and fritter away time are forced upon young Students, when morals are so lightly watched over, the advantage of the retired locality of Notre Dame cannot be too highly spoken of.

Providence has singularly blessed the Institution in regard to health, and those who have had their sons in the College can give their testimony that the regular course of life, added to the salubrious climate, the fresh country air, has done much to improve the health of their children.

The disciplinary government is mild, yet sufficiently energetic to preserve order and regularity. The morals and general deportment of the pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families.

REGULATIONS OF THE UNIVERSITY.

All the Students are required to attend the exercises of public worship with punctuality and decorum.

Students must show themselves obedient and respectful towards the Professors and Prefects of the Institution—never absenting themselves from the place in which they ought to be, without permission from proper authority.

Students must carefully avoid every expression in the least injurious to Religion, or morals, their Professors, Prefects or fellow-Students.

The use of tobacco is strictly forbidden.

Intoxicating liquors are absolutely prohibited.

Compensation for all damage done to the furniture, or other property of the College, will be required from the person or persons causing such damage.

No branch of study, once commenced, shall be discontinued without permission of the Director of Studies.

No one shall leave the University grounds without the permission of the President or Vice-President.

Bath-rooms, provided with hot and cold water, are fitted up for the use of the Students during the winter. In warm weather, however, the Students bathe twice a week in St. Joseph's Lake.

Students who have failed to give satisfaction in the Class-room, or who shall have been guilty of misconduct shall perform such tasks as shall be
assigned them, and will be excluded from all College exercises until such tasks be accomplished.

No book, periodical or newspaper shall be introduced into the College, without being previously examined and approved by the Director of Studies. Objectionable books found in the possession of Students will be withheld from them until their departure from the University.

GENERAL INFORMATION.

The Academic Year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the Conferring of Degrees and Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty.

When a Student presents himself for admission into the College, he is examined by the Director of Studies, and placed in the class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted, and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their Classical Course, and passed successfully an examination before the Faculty.

The Degrees of LL.B and LL.D., as also those of Bachelor of Science and Master of Science, will be conferred on similar conditions.

Diplomas will be given to the Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their good character.

Special facilities exist at Notre Dame for the acquirement of the French and German Languages. Not only are these Languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

There are in the Institution several Societies, whose Constitution and By-Laws have been approved by the Faculty, such as the Archconfraternity, St. Gregory's Society, Holy Angels', Holy Childhood, Philodemic, St. Edward's, Thespian, St. Cecilia's, Columbian and Philharmonic Societies, with which Students are authorized and recommended to connect themselves.

In case of sickness, the Student does not remain in the College rooms, but is immediately taken to the Infirmary, where he is attended and nursed with devoted care by experienced Sisters, whose attention to the sick needs no recommendation.

THE ASSOCIATED ALUMNI.

This Association was organized in 1869, the year of the Silver Jubilee, and held its first meeting in June of that year, on the day preceding the Annual Commencement.

The Association numbers among its members not only the regular graduates of the University, but also those who at any time held the office of President or Vice-President of the University, and those on whom honorary degrees have been conferred by the Faculty. Those who have been prominently connected with the University of Notre Dame as Professors are eligible to membership, and may be admitted by a two-third vote of the members present at any regular meeting.

The following is a list of the members up to June 25, 1873. The graduates of '73 will be found on another page.

_The Holy Childhood._

This charitable Society is composed of the Students of the Minim Department only. The primary object of the Society of the Holy Childhood, of which this little Society forms a part, is to afford an opportunity to children throughout the Christian world to contribute their share towards the redemption of Pagan children from the darkness of heathenism. The monthly contributions of the members of this Society are small, but the aggregate is considerable—while thousands of children are by this means trained up to habits of charity.

**OFFICERS.**

* We must remark here that Mr. T. P. O'Mahony, of the Senior Class, in consideration of having already graduated in Science, and being engaged also during the year just past in teaching, generously declined to compete for the prize in his Class, wishing to leave this honor entirely to the students proper.
It is the desire of the authorities of the University of Notre Dame to promote the study of the foreign languages, the use of which is so frequent and necessary for business or scientific purposes.

The German language, the classes of which are so numerously attended, will be taught by four Professors during the next scholastic year. The number of German students attending the University is becoming greater every year.

The French language, though more especially the language of the Collegiate Course, will be of great advantage to the Scientific students. A new Professor has been secured for next year.

Other languages may be taught when required.

SHORT-HAND WRITING AND TELEGRAPHY.

These two branches will call the special attention of the students of the Commercial Course. Telegraph apparatuses will be purchased, and placed in competent hands. It is very probable that Notre Dame will be in direct communication with South Bend and the rest of the world by electric wires before the end of 1878.

ANATOMY AND MATERIA MEDICA.

Young men desiring to study for the Medical profession will find opportunities to do so at Notre Dame. Yet, owing to the want of a sufficient museum whereby this important branch could be thoroughly illustrated, the course of studies in this Department is limited, and embraces principally Anatomy. The remainder of the course is completed in some of our neighboring Universities. As a Preparatory Course, that which is given here, under Rev. L. Neyron, M.D., leaves nothing to be desired.

PAINTING AND DRAWING.

The Drawing Classes showed last year a large increase on the preceding years. The University enjoys means adequate to all demands in that branch. It possesses a large quantity of models in all sorts of drawings, a fine studio, and a vigilant and zealous teacher of the art.

Painting promises likewise to be one of the popular branches of Art taught at Notre Dame. A special Professor from Paris has been secured.

MUSIC.

This Department is complete in all its appointments. It has five Professors, and is divided into classes on the regular Conservatory system. An Orchestra of fifteen pieces, with an excellent Quartette, and a Brass Band of twenty-five instruments, are some of the leading features of the Musical Department.
UNIVERSITY OF NOTRE DAME.

Vocal Music will be highly cultivated next year. A Professor of merit is announced from Paris. We call the special attention of our students and patrons to this favorite and useful branch of music, which costs but little and is now so deservedly popular.

ASTRONOMICAL OBSERVATORY.

A temporary Astronomical Observatory has been erected, in which the fine instrument presented by the Emperor Napoleon has been placed. The studies of the Class of Astronomy are now rendered practically interesting.

LIBRARIES.

The College Library contains some twelve thousand volumes, very carefully arranged by the Librarian, Rev. J. C. Carrier. Donations of books, especially to the Law Library, will be thankfully received.

The Circulating Library was commenced during the course of the year with four hundred volumes—it now numbers over one thousand. All the Libraries which formerly belonged to Literary and Religious Societies have been merged into it. Instead of the dozen or more bookcases which often only hid away instructive books, a beautiful collection of Literary and Religious works is now open to the students in a room fitted up for a Reading Room.

"THE SCHOLASTIC."

This is the title of a neat little paper published every week, except in vacation, at the University of Notre Dame. The chief object of this paper is to keep the parents and friends of our students informed on the various subjects of study and discipline at this University and at St. Mary's Academy, and of the progress of their sons and daughters in these two institutions. For this purpose, regular weekly reports are given, consisting of the names of those who deserve, by their excellent conduct, to be recorded on the Roll of Honor, and who by their perseverance and industry deserve special commendation from their various professors and teachers. Other reports, relative to the arrangement of classes, the promotion of the more talented and energetic students, etc., also find place in this paper, and keep parents and friends accurately informed on all that concerns their children.

This paper also opens a field for aspiring young writers, who might otherwise, through timidity, allow their talents in this respect to remain inactive; while many articles of an instructive and literary character, from writers of mature mind and ability, render The Scholastic a valuable publication for all who desire variety and utility in their reading. Our little College paper at present consists of eight wide two-column pages, and as soon as a sufficient patronage will justify its conductors to do so, it will be increased in size, and thus rendered still more useful and interesting.

TERMS:  

BY MAIL, FOR ONE SCHOLASTIC YEAR, §2.00. 

To students residing at the College or Academy, one year, special terms.

Address, Editor of THE SCHOLASTIC, NOTRE DAME, INDIANA.
SOCIETY PAPERS.

The following Societies issue manuscript papers every other week: viz., the St. Aloysius Philodemic Literary Association, the "Two-Penny Gazette;" the St. Edward's Literary Association, "The Gem;" the St. Cecilia Philomathean Association, "The Philomathean Standard." Each of these papers consists of thirty-two pages of interesting matter, principally essays and local news. They are edited in turn by four members of the Society to which they belong, and are read at their meetings.

The "Two-Penny Gazette" and "The Gem" were edited in turn by all the members of the Philodemic or St. Edward Associations respectively.

The "Philomathean Standard" possessed a host of young Editors: among others we record the names of W. Breen, Editor-in-Chief; L. Hibben, Historical Editor; J. Stubbs, Literary Editor; E. Ohmer, Musical Editor; J. Devine, Religious Editor; W. Ball, Critic; V. McKinnon, Reporter; F. Egan, Foreign Correspondent.

ATHLETIC.

BOATING.

The "Notre Dame Boating Club" was established four years ago, and has since grown in strength and popularity. It possesses a good boat-house and three boats, respectively named the "Santa Maria," the "Pinta," and the "Nina." The Boating Club gives two annual races, one in October and the other at the Commencement in June. It numbers some sixteen active members and some twenty-six honorary members. The active members are as follows:

**CREW OF THE "PINTA" (CHAMPIONS).**

H. W. Walker—Captain and Bow Oar.
C. A. Berdel—Third Oar.
T. Fitzpatrick—Second Oar.
D. J. Hogan—Stroke Oar.
J. L. Ireland—Coxswain.

**CREW OF THE "SANTA MARIA."

D. E. Maloney—Stroke Oar and Captain.
E. G. Graves—Second Oar.
M. B. Torbett—Third Oar.
E. J. McLaughlin—Bow Oar.
J. B. Comer—Coxswain.

BASE-BALL CLUBS.

The numerous Base-Ball Clubs, which had as usual a prosperous career at Notre Dame during 1872-73, had their reports published in the last number of The Scholastic. The best record of games was that of the Excelsior Base-Ball Club.
FOUNDED IN 1842.
